BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87552; File No. SR-NYSE-2019-59]

Self-Regulatory Organizations; New York Stock Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Its Price List To Revise the Step Up Tier 2 Adding Credit in Tape A Securities

November 15, 2019.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the "Act")² and Rule 19b-4 thereunder,³ notice is hereby given that, on November 1, 2019, New York Stock Exchange LLC ("NYSE" or the "Exchange") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Price List to revise the Step Up Tier 2 Adding Credit in Tape A securities. The Exchange proposes to implement the fee changes effective November 1, 2019. The proposed rule change is available on the Exchange's website at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Price List to revise the Step Up Tier 2 Adding Credit in Tape A securities.

The proposed changes respond to the current competitive environment where order flow providers have a choice of where to direct liquidity-providing orders by offering further incentives for member organizations to send additional displayed liquidity to the Exchange.

The Exchange proposes to implement the fee changes effective November 1, 2019.

Competitive Environment

The Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system "has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies."⁴

As the Commission itself recognized, the market for trading services in NMS stocks has become "more fragmented and competitive."⁵ Indeed, equity trading is currently dispersed across 13 exchanges,⁶ 31 alternative trading systems,⁷ and numerous broker-dealer internalizers and wholesalers, all competing for order flow. Based on publicly-available information, no single exchange has more than 19% market share (whether including or excluding auction volume).⁸ Therefore, no exchange possesses significant pricing power in the execution of equity

⁴ See Securities Exchange Act Release No. 51808 (June 9, 2005), 70 FR 37495, 37499 (June 29, 2005) (S7-10-04) (Final Rule) ("Regulation NMS").

⁵ See Securities Exchange Act Release No. 51808, 84 FR 5202, 5253 (February 20, 2019) (File No. S7-05-18) (Transaction Fee Pilot for NMS Stocks Final Rule) ("Transaction Fee Pilot").

⁹ 17 CFR 200.30-3(a)(12).

order flow. More specifically, for the month of September 2019, the Exchange's market share of intraday trading (*i.e.*, excluding auctions) in Tapes A, B and C securities was only 9.3%.⁹

The Exchange believes that the ever-shifting market share among the exchanges from month to month demonstrates that market participants can move order flow, or discontinue or reduce use of certain categories of products, in response to fee changes. With respect to non-marketable order flow that would provide displayed liquidity on an Exchange, member organizations can choose from any one of the 13 currently operating registered exchanges to route such order flow. Accordingly, competitive forces constrain exchange transaction fees that relate to orders that would provide liquidity on an exchange.

In response to this competitive environment, the Exchange has established incentives for its member organizations who submit orders that provide liquidity on the Exchange. The proposed fee change is designed to attract additional order flow to the Exchange by lowering the adding requirement in order for member organizations to qualify for the November 2019 Step Up Tier 2 Adding Credit, thereby incentivizing member organizations to step up their liquidity-providing orders on the Exchange on all tapes.

Proposed Rule Change

Currently, a member organization that sends orders, except Mid-Point Liquidity Orders ("MPL") and Non-Displayed Limit Orders, that add liquidity ("Adding ADV") in Tape A securities would receive a credit of \$0.0029 if:

- The member organization quotes at least 15% of the National Best Bid or Offer ("NBBO")¹⁰ in 300 or more Tape A securities on a monthly basis, and
- The member organization's Adding ADV as a percentage of NYSE consolidated average daily volume ("CADV"),¹¹ excluding any orders by a Designated Market Maker ("DMM"), is at least two times more than the member organization's July 2019 Adding ADV as a percentage of NYSE CADV, and
- The member organization's Adding ADV as a percentage of NYSE CADV,

excluding any liquidity added by a DMM, exceeds that member organization's Adding ADV in July 2019 taken as a percentage of NYSE CADV as follows:

- For the billing month of October 2019, an Adding ADV, excluding any liquidity added by a DMM, that is at least 0.35% of NYSE CADV over that member organization's July 2019 Adding ADV taken as a percentage of NYSE CADV.
- For the billing month of November 2019, an Adding ADV, excluding any liquidity added by a DMM, that is at least 0.70% of NYSE CADV over that member organization's July 2019 Adding ADV taken as a percentage of NYSE CADV.
- For the billing month of December 2019 and for every month thereafter, an Adding ADV, excluding any liquidity added by a DMM, that is at least 1.05% of NYSE CADV over that member organization's July 2019 Adding ADV taken as a percentage of NYSE CADV.

In addition, a member organization that meets these requirements, and thus qualifies for the \$0.0029 credit in Tape A securities, would be eligible to receive an additional \$0.00005 per share if trades in Tapes B and C securities against the member organization's orders that add liquidity, excluding orders as a Supplemental Liquidity Provider ("SLP"), equal to at least 0.20% of Tape B and Tape C CADV combined.

The Exchange proposes to lower the Adding ADV requirement for the billing month of November 2019. Specifically, in order to qualify for the Step Up Tier 2 Adding Credit of \$0.0029 for the current billing month, a member organization would need to have an Adding ADV, excluding any liquidity added by a DMM, that is at least 0.35% of NYSE CADV over that member organization's July 2019 Adding ADV taken as a percentage of NYSE CADV. The other requirements for qualifying for the Step Up Tier 2 Adding Credit and the additional credit would remain unchanged.

For example, member organization A has an Adding ADV of 12 million shares when NYSE CADV (Tape A) was 3.0 billion, or 0.40% of NYSE CADV in all Tape A securities, in the baseline month of July 2019 (the "Baseline Month"). Member organization A also has an Adding ADV of 0.75% of US CADV in Tape A securities in November 2019.

Based on the foregoing, member organization A would meet the 0.35% step up requirement for November 2019 but fall short of the two times Adding

ADV as a percentage of NYSE CADV requirement in order to qualify for the proposed tier. In order to qualify for the proposed rate in November 2019, member organization A would need at least 0.80% share of NYSE CADV in November 2019, or 2 times the 0.40% Adding ADV in Baseline Month.

Finally, the Exchange proposes the non-substantive change of deleting the Adding ADV requirements for the October 2019 billing month from the rule.

The purpose of this proposed change is to incentivize member organizations to increase the liquidity-providing orders in Tape A securities they send to the Exchange, which would support the quality of price discovery on the Exchange and provide additional price improvement opportunities for incoming orders. As noted above, the Exchange operates in a competitive environment, particularly as it relates to attracting non-marketable orders, which add liquidity to the Exchange.

The Exchange does not know how much order flow member organizations choose to route to other exchanges or to off-exchange venues. There is currently 1 firm that qualified for the proposed higher Step Up Tier 2 Adding Credit for the October 2019 billing month, but the Exchange believes that at least 7 additional member organizations could qualify for the tier if they so choose. However, without having a view of member organization's activity on other exchanges and off-exchange venues, the Exchange has no way of knowing whether this proposed rule change would result in any member organization directing orders to the Exchange in order to qualify for the new tier.

The proposed changes are not otherwise intended to address other issues, and the Exchange is not aware of any significant problems that market participants would have in complying with the proposed changes.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,¹² in general, and furthers the objectives of Sections 6(b)(4) and (5) of the Act,¹³ in particular, because it provides for the equitable allocation of reasonable dues, fees, and other charges among its members, issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

¹² 15 U.S.C. 78f(b).

¹³ 15 U.S.C. 78f(b)(4) & (5).

⁹ See *id.*

¹⁰ See Rule 1.1(q) (defining "NBBO" to mean the national best bid or offer).

¹¹ The terms "ADV" and "CADV" are defined in footnote * of the Price List.

The Proposed Change Is Reasonable

As discussed above, the Exchange operates in a highly fragmented and competitive market. The Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”¹⁴

The Exchange believes that the ever-shifting market share among the exchanges from month to month demonstrates that market participants can move order flow, or discontinue or reduce use of certain categories of products, in response to fee changes. With respect to non-marketable orders which provide liquidity on an Exchange, member organizations can choose from any one of the 13 currently operating registered exchanges to route such order flow. Accordingly, competitive forces constrain exchange transaction fees that relate to orders that would provide displayed liquidity on an exchange. Stated otherwise, changes to exchange transaction fees can have a direct effect on the ability of an exchange to compete for order flow.

Given this competitive environment, the proposal represents a reasonable attempt to attract additional order flow to the Exchange. As noted, the Exchange’s market share of intraday trading (*i.e.*, excluding auctions) for the month of September 2019, in Tapes A, B and C securities was only 9.3%.¹⁵

Specifically, the Exchange believes that the proposed lower Adding ADV requirements to qualify for the Step Up Tier 2 for the November 2019 billing month would provide an incentive for member organizations to route additional liquidity-providing orders to the Exchange in Tape A securities. As noted above, the Exchange operates in a highly competitive environment, particularly for attracting non-marketable order flow that provides liquidity on an exchange. The Exchange believes it is reasonable to provide a higher credit for orders that provide additional liquidity.

As previously noted, 1 member organization qualify for the Step Up Tier 2 Adding Credit for the October 2019

billing month but without a view of member organization activity on other exchanges and off-exchange venues, the Exchange has no way of knowing whether the proposed rule change would result in any member organization qualifying for the tier. The Exchange believes the proposed lower Adding ADV requirement is reasonable as it would provide an additional incentive for member organizations to direct order flow to the Exchange and provide meaningful added levels of liquidity in order to qualify for the higher credit, thereby contributing to depth and market quality on the Exchange.

The Proposal is an Equitable Allocation of Fees

The Exchange believes its proposal equitably allocates its fees among its market participants.

The Exchange believes that a lower Adding ADV requirement in order to qualify for the Step Up Tier 2 credit for the November 2019 billing month is equitable because the lower requirement could attract additional order flow, thus improving market quality for all market participants on the Exchange and, as a consequence, attract more liquidity to the Exchange, thereby improving market-wide quality and price discovery.

As noted, 1 member organization has qualified for the Step Up Tier 2 Adding Credit, but without a view of member organization activity on other exchanges and off-exchange venues, the Exchange has no way of knowing whether this proposed rule change would result in any member organization qualifying for the tier. The Exchange believes the proposed lower Adding ADV requirement for the November 2019 billing month is reasonable as it would provide an additional incentive for member organizations to direct their order flow to the Exchange and provide meaningful added levels of liquidity in order to qualify for the higher credit, thereby contributing to depth and market quality on the Exchange.

The proposal neither targets nor will it have a disparate impact on any particular category of market participant. All member organizations would be eligible to qualify for the Step Up Tier 2 Adding Credit in November 2019 if they maintain or increase their Adding ADV over their own baseline of order flow. The Exchange believes that lowering the Adding ADV requirement will make it more likely that additional member organizations will qualify for the credit for the current billing month, thereby continuing to attract order flow and liquidity to the Exchange and

providing additional price improvement opportunities on the Exchange that benefit investors generally. As to those market participants that would not qualify for the adding liquidity credit even with the lower Adding ADV requirement, the proposal will not adversely impact their existing pricing or their ability to qualify for other credits provided by the Exchange.

The Proposal Is Not Unfairly Discriminatory

The Exchange believes that the proposal is not unfairly discriminatory. In the prevailing competitive environment, member organizations are free to disfavor the Exchange’s pricing if they believe that alternatives offer them better value.

The Exchange believes it is not unfairly discriminatory to provide a lower Adding ADV requirement in order to qualify for the per share step up credit, as the proposed credit would be provided on an equal basis to all member organizations that add liquidity by meeting the new proposed Step Up 2 Tier’s requirement. The Exchange also believes that the proposed change is not unfairly discriminatory because it is reasonably related to the value to the Exchange’s market quality associated with higher volume. Finally, the submission of orders to the Exchange is optional for member organizations in that they could choose whether to submit orders to the Exchange and, if they do, the extent of its activity in this regard.

Finally, the Exchange believes that it is subject to significant competitive forces, as described below in the Exchange’s statement regarding the burden on competition.

For the foregoing reasons, the Exchange believes that the proposal is consistent with the Act.

B. Self-Regulatory Organization’s Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,¹⁶ the Exchange believes that the proposed rule change would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Instead, as discussed above, the Exchange believes that the proposed changes would encourage the submission of additional liquidity to a public exchange, thereby promoting market depth, price discovery and transparency and enhancing order execution opportunities for member organizations. As a result, the Exchange believes that the proposed change furthers the

¹⁴ See Regulation NMS, 70 FR at 37499.

¹⁵ See note 8 *supra*.

¹⁶ 15 U.S.C. 78f(b)(8).

Commission's goal in adopting Regulation NMS of fostering integrated competition among orders, which promotes "more efficient pricing of individual stocks for all types of orders, large and small."¹⁷

Intramarket Competition. The proposed changes are designed to attract additional order flow to the Exchange. The Exchange believes that the proposed changes would continue to incentivize market participants to direct displayed order flow to the Exchange. Greater liquidity benefits all market participants on the Exchange by providing more trading opportunities and encourages member organizations to send orders, thereby contributing to robust levels of liquidity, which benefits all market participants on the Exchange. The proposed credits would be available to all similarly-situated market participants that meet the revised Adding ADV requirement for November 2019, and, as such, the proposed change would not impose a disparate burden on competition among market participants on the Exchange.

Intermarket Competition. The Exchange operates in a highly competitive market in which market participants can readily choose to send their orders to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. As noted, the Exchange's market share of intraday trading (*i.e.*, excluding auctions) for the month of September 2019, in Tapes A, B and C securities was only 9.3%.¹⁸ In such an environment, the Exchange must continually adjust its fees and rebates to remain competitive with other exchanges and with off-exchange venues. Because competitors are free to modify their own fees and credits in response, and because market participants may readily adjust their order routing practices, the Exchange does not believe its proposed fee change can impose any burden on intermarket competition.

The Exchange believes that the proposed change could promote competition between the Exchange and other execution venues, including those that currently offer similar order types and comparable transaction pricing, by encouraging additional orders to be sent to the Exchange for execution. The Exchange also believes that the proposed change is designed to provide the public and investors with a Price List that is clear and consistent, thereby reducing burdens on the marketplace and facilitating investor protection.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A)¹⁹ of the Act and subparagraph (f)(2) of Rule 19b-4²⁰ thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)²¹ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NYSE-2019-59 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090. All submissions should refer to File Number SR-NYSE-2019-59. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/>

[rules/sro.shtml](#)). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSE-2019-59 and should be submitted on or before December 12, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²²
