§ Section

II. Background Information and Regulatory History

On March 28, 2019, we published a NPRM entitled “Drawbridge Operation Regulation; River Rouge, Detroit, MI” in the Federal Register (84 FR 11694). We received no comments on this rule.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority 33 U.S.C. 499.

Conrail Railroad Bridge, mile 1.48, across the River Rouge is a single leaf bascule bridge. A horizontal navigation clearance of 123 feet is available. Eight feet of vertical clearance, referred to LWD is available in the closed position. The Conrail Bridge is advertised as having unlimited clearance in the open position; however, the tip of the bridge leaf does encroach slightly into the northern boundary of the navigation channel. The Federal Channel has a bend in the river immediately west of the Conrail Bridge. Because of this bend most large commercial vessels will not enter the river unless they have confirmation that this bridge is open. The Rouge River is primarily used by commercial vessels.

IV. Discussion of Comments, Changes and the Final Rule

The Coast Guard provided a comment period of 180 days and no comments were received. We did not make any changes to regulatory language.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and
