

FCIC has assessed the impact of this rule on Indian Tribes and determined that this rule does not, to our knowledge, have Tribal implications that require Tribal consultation under E.O. 13175. The regulation changes do not have Tribal implications that preempt Tribal law and are not expected have a substantial direct effect on one or more Indian Tribes. If a Tribe requests consultation, FCIC will work with the USDA Office of Tribal Relations to ensure meaningful consultation is provided where changes and additions identified in this rule are not expressly mandated by the 2018 Farm Bill.

Unfunded Mandates

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA, Pub. L. 104-4) requires Federal agencies to assess the effects of their regulatory actions of State, local, and Tribal governments or the private sector. Agencies generally must prepare a written statement, including cost benefits analysis, for proposed and final rules with Federal mandates that may result in expenditures of \$100 million or more in any 1 year for State, local or Tribal governments, in the aggregate, or to the private sector. UMRA generally

requires agencies to consider alternatives and adopt the more cost effective or least burdensome alternative that achieves the objectives of the rule. This rule contains no Federal mandates, as defined in Title II of UMRA, for State, local, and Tribal governments or the private sector. Therefore, this rule is not subject to the requirements of sections 202 and 205 of UMRA.

Federal Assistance Program

The title and number of the Federal Domestic Assistance Program listed in the Catalog of Federal Domestic Assistance to which this rule applies is No. 10.450—Crop Insurance.

Paperwork Reduction Act of 1995

In accordance with the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35, subchapter I), the rule does not change the information collection approved by OMB under control numbers 0563-0053.

E-Government Act Compliance

RIN 0579-AE50

Swine Health Protection Act; Amendments to Garbage Feeding Regulations

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: We are amending the Swine Health Protection Act regulations by removing the State status lists from the regulations in order to maintain these lists on the Agency’s website. These changes will allow us to use a notice-based, streamlined approach to update the lists while continuing to protect swine health in the United States.

DATES: Effective December 23, 2019.

FOR FURTHER INFORMATION CONTACT: Dr. Ross Free, Veterinary Services, APHIS, 920 Main Campus Dr. #200, Raleigh, NC 27606; email: Ross.a.Free@usda.gov; phone: (919) 855-7712.

SUPPLEMENTARY INFORMATION:**Background**

The Swine Health Protection Act (7 U.S.C. 3801 *et seq.*, referred to below as

the Act) is intended to protect the commerce, health, and welfare of the people of the United States by ensuring that food waste fed to swine does not contain active disease organisms that pose a risk to domestic swine. The regulations in 9 CFR part 166 regarding swine health protection (referred to below as the regulations) were promulgated in accordance with the Act. Section 166.15 of the regulations contains provisions regarding garbage feeding and enforcement responsibility, with lists of States that are subject to each provision.

On June 20, 2019, we published in the **Federal Register** (84 FR 28774-28775, Docket No. APHIS-2018-0067) a proposal¹ to amend the regulations by moving the State status lists for garbage feeding of swine in § 166.15 from the regulations to the Animal and Plant Health Inspection Service (APHIS) website. As a result of this move, any subsequent change to a State’s status will be announced through a notice published in the **Federal Register** in conjunction with updating that status on the APHIS website.

We solicited comments concerning our proposal for 60 days ending August 19, 2019. We received four comments by that date. They were from a national organization representing pork producers and members of the public. All responses were in favor of moving the State status lists in § 166.15 from the regulations to the APHIS website.

One commenter stated that we should ensure that information be made available in an alternative format for persons without online access.

In § 166.15(b), we note that for information concerning the feeding of garbage to swine, the public may contact the APHIS Area Veterinarian in Charge, the State animal health official, or Veterinary Services, 4700 River Road, Unit 37, Riverdale, MD 20737-1231.

Therefore, for the reasons given in the proposed rule, we are adopting the proposed rule as a final rule, without change.

Executive Orders 12866 and 13771 and Regulatory Flexibility Act

This final rule has been determined to be not significant for the purposes of Executive Order 12866 and, therefore, has not been reviewed by the Office of Management and Budget. This rule is not an Executive Order 13771 regulatory action because this rule is not significant under Executive Order 12866.

¹To view the proposed rule, supporting documents, and the comments we received, go to <http://www.regulations.gov/#/docketDetail;D=APHIS-2018-0067>.

In accordance with the Regulatory Flexibility Act, we have analyzed the potential economic effects of this action on small entities. The analysis is summarized below. Copies of the full analysis are available on the *Regulations.gov* website (see footnote 1 in this document for a link to *Regulations.gov*) or by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**.

In accordance with the Swine Health Protection Act (7 U.S.C. 3801 *et seq.*), APHIS regulates food waste containing any meat products fed to swine. Raw or undercooked meat may transmit numerous infectious or communicable diseases. Compliance with these regulations ensures that all food waste fed to swine is properly treated to kill disease organisms.

We are revising the regulations by moving the State status lists in § 166.15 from the regulations to the APHIS website. As a result of this move, any subsequent additions, deletions, and other changes to a State’s status will be made using a notice-based process.

This final rule, while facilitating changes to the State status lists, is not expected to have an economic impact on hog and pig farms.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule: (1) Preempts all State and local laws and regulations that are in conflict with this rule; (2) has no retroactive effect; and (3) does not require administrative proceedings before parties may file suit in court challenging this rule.
