

information that allows the FAA to determine high-risk species, track national trends, evaluate the FAA's wildlife hazard management program, and provide scientific foundation for regulatory guidance. Additionally, this essential information allows engine and airframe manufacturers to evaluate the effectiveness of aircraft components. It also helps airports identify and mitigate hazardous species and the location of wildlife attractants, affords a better understanding of strike dynamics, and provides key metrics for an airport to evaluate the effectiveness of its wildlife management program.

Title: Bird/Other Wildlife Strike Report.

Form Numbers: FAA Form 5200-7.

Type of Review: This review is for a renewal of an information collection.

Background: 14 CFR 139.337, Wildlife Hazard Management, requires the FAA to collect wildlife strike data to develop standards and monitor hazards to aviation. Data identify wildlife strike control requirements and provide in-service data on aircraft component failure. Pilots, airport operations staff, aircraft and airport maintenance personnel, air traffic controllers, wildlife biologists, and anyone else having knowledge of a strike report incidents to the FAA, primarily using the web version of FAA Form 5200-7. The data becomes part of the publicly available National Wildlife Strike Database used to enhance safety by

airports, airlines, engine and airframe manufacturers, and the FAA. Overall, the number of strikes annually reported to the FAA has increased from 1,850 in 1990 to more than 16,000 in 2018.

Respondents: Approximately 16,020 airport operations staff, pilots, air traffic controllers, wildlife biologists, aircraft and airport maintenance personnel, and others having knowledge of a strike.

Frequency: Information is collected as needed.

Estimated Average Burden per

Response: 5 minutes.

Estimated Total Annual Burden:
1,335 hours.

Issued in Washington, DC, on November 19, 2019.

John Weller,

National Wildlife Biologist, Airport Safety and Operations Division, Office of Airports Safety and Standards.
