[FE Docket No. 19-124-LNG]

Cheniere Marketing, LLC and Corpus Christi Liquefaction, LLC; Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations

AGENCY: Office of Fossil Energy, DOE.
ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice (Notice) of receipt of an application (Application), filed on September 27, 2019, by Cheniere

Marketing, LLC and Corpus Christi Liquefaction, LLC (collectively, CMI). The Application requests long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) in an amount up to the equivalent of approximately 108.16 billion cubic feet per year (Bcf/yr) of natural gas. CMI seeks to export this LNG from the Corpus Christi Liquefaction Project located in Corpus Christi, Texas. CMI filed the Application under section 3 of the Natural Gas Act (NGA). Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene, or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using

procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, December 26, 2019.

SUPPLEMENTARY INFORMATION: CMI requests long-term, multi-contract authorization to export LNG from the Corpus Christi Liquefaction Project (Trains 1-3) in a volume equivalent to 108.16 Bcf/yr of natural gas. CMI states that the purpose of the Application is to align its current export volumes approved by DOE/FE with the liquefaction production capacity of the Liquefaction Project.

CMI requests authorization to export the LNG to: (i) Any nation with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA nations), and (ii) any other nation with which trade is not prohibited by U.S. law or policy (non-FTA nations). This Notice applies only to the portion of the Application requesting authority to export LNG to non-FTA countries pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a). DOE/FE will review CMI's request for a FTA export authorization separately pursuant to section 3(c) of the NGA, 15 U.S.C. 717b(c).

CMI requests the authorization on its own behalf and as agent for other entities that will hold title to the LNG at the point of export. CMI is seeking a 20-year term for the non-FTA authorization, commencing on the date of first commercial export of the requested volume from the Liquefaction Project. Additional details can be found in CMI's Application, posted on the DOE/FE website at: <https://www.energy.gov/fe/downloads/cheniere-marketing-llc-and-corporus-christi-liquefaction-llc-fe-dkt-no-19-124-1ng>.

DOE/FE Evaluation

In reviewing CMI's request, DOE will consider any issues required by law or policy. DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own

trade arrangements. As part of this analysis, DOE will consider the study entitled, *Macroeconomic Outcomes of Market Determined Levels of U.S. LNG Exports* (2018 LNG Export Study),¹ and DOE/FE's response to public comments received on that study.²

Additionally, DOE will consider the following environmental documents:

- *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States*, 79 FR 48132 (Aug. 15, 2014);³ and
- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States*, 79 FR 32260 (June 4, 2014).⁴

Parties that may oppose this Application should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Interested parties will be provided 30 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although
