DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

November 21, 2019.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by December 26, 2019 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW, Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control

number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food Safety and Inspection Service

Title: Electronic Import Inspection.

OMB Control Number: 0583-0159.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et. seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et. seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031). These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, not adulterated, and properly labeled and packaged.

Need and Use of the Information: FSIS requires foreign governments to submit additional information when submitting both the foreign establishment certificate and the foreign inspection certificate to FSIS in order for foreign establishments to be permitted to import product to the United States. The information that is required with the Foreign Establishment Certificate includes: The type of operation(s) conducted at the establishment (*e.g.*, slaughter, processing, storage, exporting warehouse); the establishment's eligibility status (*e.g.*, new or relisted (if previously delisted)); and, slaughter and processing establishment certifications that address the species and type of product(s) produced at the establishment and the process category. Additional information that is required with the Foreign Inspection Certificate includes: The species used to produce the product and the source country and foreign establishment number; whether the source materials originate from a country other than the exporting country; the product's description, including the process category, the product category, and the product group; the address of the consignor; the address of the consignee; the name and address of the exporter; the name and address of the importer; and, any additional information the Administrator requests to determine whether the product is eligible to be

imported into the U.S. FSIS also requires official import inspection establishments to develop, implement, and maintain written Sanitation Standard Operating Procedures (SSOPs), as provided in 9 CFR 416.11 through 416.17. The Import Inspection Application (FSIS Form 9540-1) is available to applicants that do not file this information electronically. When FSIS inspected and passed product is exported and then returned to this country, the owner, broker, or agent of the product arranges for the product's entry and notifies FSIS. As part of this process, the applicant completes the FSIS Form 9010-1, Application for the Return of Exported Products to the United States. To conduct the information collection less frequently would inhibit the ability of FSIS to ensure that imported products are safe, wholesome and not adulterated.

Description of Respondents: Business or other for-profit.

Number of Respondents: 939.

Frequency of Responses: Recordkeeping; Reporting: On occasion; Annually.

Total Burden Hours: 49,385.

Emulsion Styrene-Butadiene Rubber From the Republic of Korea: Preliminary Results of Antidumping Duty Administrative Review; 2017–2018

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily finds that emulsion styrene-butadiene (ESB rubber) from the Republic of Korea (Korea) is being, or is likely to be, sold, at less than normal value in the United States during the period of review (POR) February 24, 2017 through August 31, 2018. We invite all interested parties to comment on these preliminary results.

DATES: Applicable November 26, 2019.

FOR FURTHER INFORMATION CONTACT: Eliza Siordia, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–3878.

SUPPLEMENTARY INFORMATION:

Background

Commerce is conducting an administrative review of the antidumping duty order on ESB rubber from Korea in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act).¹ On November 15, 2018, in accordance with 19 CFR 351.221(c)(1)(i), we initiated an administrative review of the *Order* covering seven companies.² On December 3, 2018, Commerce selected LG Chem, Ltd. (LG Chem) as the

mandatory respondent for this review.³ Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018, through the resumption of operations on January 28, 2019.⁴ On June 20, 2019, Commerce postponed the preliminary results of this review. The revised deadline for the preliminary results is November 7, 2019.⁵

Scope of the Order

The product covered by this *Order* is ESB rubber from Korea. For a full description of the scope, see the Preliminary Decision Memorandum.⁶

Methodology

Commerce is conducting this review in accordance with 751 of the Act. Export price and constructed export price are calculated in accordance with section 772 of the Act. Normal value is calculated in accordance with section 773 of the Act. For a full description of our methodology underlying the preliminary results, see the Preliminary Decision Memorandum. A list of topics included in the Preliminary Decision Memorandum is attached as an Appendix to this notice.

The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>, and to all parties in the Central Records Unit, Room B8024 of the main Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and the electronic versions

of the Preliminary Decision Memorandum are identical in content.

Rates for Non-Examined Companies

As a result of this review, we calculated a preliminary weighted-average dumping margin for LG Chem. Accordingly, Commerce has preliminarily assigned to the companies not selected for individual examination the margin calculated for LG Chem.

Preliminary Results of Review

We preliminarily determine that the following weighted average dumping margins exist, for the period of February 24, 2017 through August 31, 2018:

Exporter/producer	Weighted-average dumping margin (percent)
LG Chem, Ltd	2.83
Daewoo International Corporation ⁷	2.83
Kumho Petrochemical Co. Ltd ...	2.83
Sungsan International Co, Ltd	2.83
WE International Co., Ltd	2.83
Kukje Trading Corp	2.83
Hyundai Glovis Co., Ltd	2.83

Assessment Rates

Upon issuance of the final results, Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review. If LG Chem’s weighted-average dumping margin is not zero or *de minimis* (i.e., less than 0.5 percent) in the final results of this review, we will calculate an importer-specific *ad valorem* antidumping duty assessment rate based on the ratio of the total amount of dumping calculated for the importer’s examined sales to the total entered value of those same sales in accordance with 19 CFR 351.212(b)(1). We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review when the importer-specific assessment rate calculated in the final results of this review is not zero or *de minimis*. If LG Chem’s weighted-average dumping margin is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties. The final results of this review shall be the basis for the assessment of
