In the Austria investigation, Commerce published the amended preliminary determination on June 18, 2019.[9] Therefore, the extended provisional measures period for Austria, beginning on the date of publication of the amended preliminary determination, expires on December 15, 2019. Accordingly, provisional measures for Austria will likely continue until and through the day preceding the date of publication of the ITC's injury determinations in the **Federal Register**. Suspension of liquidation will continue on the date of publication of the ITC's determination in the **Federal Register**, as discussed above.

### Estimated Weighted-Average Dumping Margins

The weighted-average dumping margins are as follows:

| | Producer/exporter | Estimated weighted-average dumping margin (percent) |

*Assistant Secretary for Enforcement and Compliance.*

### Appendix

#### Scope of the Orders

The merchandise covered by these orders is strontium chromate, regardless of form (including but not limited to, powder (sometimes known as granular), dispersions (sometimes known as paste), or in any solution). The chemical formula for strontium chromate is SrCrO4 and the Chemical Abstracts Service (CAS) registry number is 7789–06–2.

Strontium chromate that has been blended with another product or products is included in the scope if the resulting mix contains 15 percent or more of strontium chromate by total formula weight. Products with which strontium chromate may be blended include, but are not limited to, water and solvents such as Aromatic 100 Methyl Amyl Ketone (MAK)/2-Heptanone, Acetone, Glycol Ether EB, Naphtha Leicht, and Xylene. Subject merchandise includes strontium chromate that has been processed in a third country into a product that otherwise would be within the scope of these orders if processed in the country of manufacture of the in-scope strontium chromate.

The merchandise subject to these orders is currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under subheading 2841.50.9100. Subject merchandise may also enter under HTSUS subheading 3212.90.0050. While the HTSUS subheadings and CAS registry number are provided for convenience and customs purposes, the written description of the scope is dispositive.

### Large Power Transformers From the Republic of Korea: Correction to the Preliminary Results of Antidumping Duty Administrative Review; 2017–2018

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**FOR FURTHER INFORMATION CONTACT:** Joshua DeMoss or John Drury, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–3362 or (202) 482–0195, respectively.

**SUPPLEMENTARY INFORMATION:** On October 17, 2019, the Department of Commerce (Commerce) published the preliminary results of the 2017–2018 administrative review of the antidumping order for large power transformers from the Republic of Korea. Commerce inadvertently stated that a weight-average dumping margin exists for LSIS Co., Ltd (LSIS). LSIS timely notified Commerce that it had no exports, sales, or entries during the period of review (POR), August 1, 2017 to July 31, 2018.[1] Commerce issued a no-shipment inquiry to U.S. Customs and Border Protection (CBP), and CBP responded that it found no evidence of shipments from LSIS during the POR.[2] Specifically, CBP indicated that it found no shipments by LSIS during the POR.[3] Thus, based on record evidence, we preliminary determine that LSIS had no shipments during the POR. Consistent with Commerce's practice, we find that it is not appropriate to rescind the review with respect to LSIS but, rather, to complete the review and issue appropriate instructions to CBP based on the final results of this review.[4] This notice serves as a correction notice.
