B. Needs and Uses

The Federal Acquisition Streamlining Act of 1994 reformed Federal acquisition statutes to encourage and facilitate the acquisition of commercial items and services by the Federal Government. Accordingly, DoD, NASA, and GSA amended the Federal Acquisition Regulation (FAR) to include streamlined/simplified procedures for the acquisition of commercial items. Pertinent to this information collection, FAR Provision 52.212–3, “Offeror Representations and Certifications—Commercial Items,” was implemented to combine the multitude of individual provisions used in Government solicitations into a single provision for use in commercial acquisitions. The provision is among the representations and certifications that are available for completion in the System for Award Management (SAM).

SUPPLEMENTARY INFORMATION:

Description: The Evaluation of the Child Welfare Capacity Building Collaborative is sponsored by the Children’s Bureau, Administration for Children and Families of the U.S. Department of Health and Human

Services. The Capacity Building Collaborative includes three centers (Center for States, Center for Tribes, and Center for Courts) funded by the Children’s Bureau to provide national child welfare expertise and evidence-informed training and technical assistance services to state, tribal, and territorial public child welfare agencies and Court Improvement Programs (CIPs). The Centers offer a wide array of services including, but not limited to: Web-based content and resources, product development and dissemination, self-directed and group-based training, virtual learning and peer networking events, and tailored consultation and coaching. During the project period, Center services are evaluated by both Center-specific evaluations and a Cross-Center Evaluation. The Center-specific evaluations are designed to collect data on Center-specific processes and outcomes, which are used to support service delivery and continuous quality improvement. The Cross-Center Evaluation is designed to respond to a set of cross-cutting evaluation questions posed by the Children’s Bureau, which examines: How and to what extent key partners across and within Centers collaborate; whether Center capacity building service interventions are evaluable; the degree to which Centers follow common protocols; what service interventions are delivered and which jurisdictions participate; how satisfied recipients are with services; what outcomes are achieved in jurisdictions

receiving Center services and under what conditions are services effective; and what are the costs of services.

The Cross-Center Evaluation uses a longitudinal, mixed methods approach to evaluate Center services as they develop and mature over the study period. Multiple data collection strategies are used to efficiently capture quantitative and qualitative data to enable analyses that address each evaluation question. Cross-Center Evaluation data sources for this effort for which an extension is being sought include: (1) A foundational assessment to capture contextual data regarding the organizational health and functioning of child welfare agencies and courts; (2) a workshop follow-up survey that examines short-term and intermediate outcomes among CIPs that receive different levels of tailored services following continuous quality improvement (CQI) workshops, and (3) a tailored services satisfaction survey. Center-specific data sources for this effort include: (1) Registration forms for webinar registration and CapLearn, a learning management system; and (2) service-specific feedback forms and interviews, such as the Center for States Tailored Services interview protocol, the Center for States Innovation survey, and the Center for Courts Universal and Constituency Services survey.

Respondents: (1) Child welfare agency staff and stakeholders who directly receive services from Centers; and (2) CIP coordinators, CIP Directors, and other project staff.
