

Alternative 1: No Action. In accordance with the NOAA Companion Manual (CM) for NAO 216–6A, Section 6.B.i, NMFS is defining the no action alternative as not authorizing the requested incidental take of ESA-listed shortnose (*Acipenser brevirostrum*) and Atlantic sturgeon (*Acipenser oxyrinchus*). This is consistent with our statutory obligation under Section 10(a)(1)(B) of the ESA to either: (1) Deny the requested ITP or (2) grant the requested ITP and prescribe mitigation, monitoring, and reporting requirements. Under the no action alternative, NMFS would not issue the ITP, in which case we assume Exelon would continue to operate the Eddystone facility as described in the application without implementing the full suite of specific mitigation measures, monitoring, reporting explained in the Conservation Plan. The CEQ Regulations and the Companion Manual for NAO 216–6A require consideration and analysis of a no action alternative for the purposes of presenting a comparative analysis to the action alternatives. The no action alternative, serves as a baseline against which the impacts of the action alternatives will be compared and contrasted.

Alternative 2: Issue Permit as Requested in Application (Proposed Action): Under Alternative 2, an ITP would be issued to exempt Exelon Generating Company, LLC, from the ESA prohibition on taking of shortnose (*Acipenser brevirostrum*), Atlantic sturgeon (*Acipenser oxyrinchus*) during the otherwise lawful operation of the Eddystone Generating Station. As required under Section 10(a)(1)(B), the ITP would require Eddystone to operate as described in the proposed Conservation Plan to avoid and minimize take of shortnose and Atlantic sturgeon.

Final permit determinations will not be completed until after the end of the 30-day comment period and will fully consider all public comments received during the comment period. NMFS will publish a record of its final action in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

Title of Collection: Generic Information Collection Plan for Surveys Using the Consumer Credit Panel.

OMB Control Number: 3170-0066.

Type of Review: Reinstatement without change of an existing information collection.

Affected Public: Individuals and households.

Estimated Number of Annual Respondents: 6,000.

Estimated Total Annual Burden Hours: 3,000.

Abstract: Under the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act), the Bureau is charged with researching, analyzing, and reporting on topics relating to the Bureau’s mission, including consumer behavior, consumer awareness, and developments in markets for consumer financial products and services. In order to improve its understanding of how consumers engage with financial markets, the Bureau has used the Consumer Credit Panel (CCP), a proprietary sample dataset from one of the national credit reporting agencies, as a frame to survey people about their experiences in consumer credit markets. The Bureau seeks to obtain approval for a generic information collection plan for these types of surveys. Surveys conducted under this generic information collection plan will support the Bureau’s mission to conduct research in areas related to consumer finance including research to monitor developments in consumers’ financial situations, related changes in their use of financial products, and the impacts that these decisions have on their balance sheets. All research under this plan will be for general, formative, and informational research on consumer financial markets and consumers’ use of financial products and will not directly provide the basis for specific policymaking at the Bureau. The Bureau requests approval from OMB for a

generic information collection plan which will allow the Bureau to collect data by administering surveys which use the CCP as a survey frame.

Request for Comments: The Bureau issued a 60-day **Federal Register** notice on September 3, 2019, 84 FR 45998, Docket Number: CFPB-2019-0049.
