Please reference OMB Control Number 1024-HAFE in the subject line of your comments.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the

public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the NPS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the NPS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the NPS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. Abstract: The NPS History Collection comprises over 3.5 million objects, documents, audio recordings, still photographic images, and motion picture films, providing a rich source of information for diverse users interested in the history of the NPS cultural and natural resources. The Harpers Ferry Center (HFC) is responsible for managing this collection. Authorized by 43 U.S.C. 1460, HFC provides copies of museum, archival, and art collections available to increase access to NPS museum collections, to enhance preservation of original materials, for education and public enjoyment, and in general support of the NPS mission.

Each year, staff managing these collections receive hundreds of requests for copies of materials. These requests are typically for hard copy and/or digital scans of documents, prints, slides, negatives, audiovisual materials, and works of art. The forms in this collection of information is necessary to appropriately respond to the large number of requests received. Without the information, timely and effective communication with the requestor is not possible.

The information collected will be used to determine what is requested, how it will be used, and the timeframe in which it is needed. This aids in

determining legal restrictions, standards being requested (scan resolution), and our ability to meet those needs.

Understanding the intended use of the materials is important as many materials in the collections have copyright, contractual, or other legal restrictions that prohibit anything except “fair use” under U.S. copyright laws.

This request is to approve two forms currently in use without a valid OMB control number. The “User Agreement Document” and “Art Request Form” facilitate requests for copies of materials managed by HFC. We are now requesting approval to use these forms on our Harpers Ferry website as fillable forms.
