Abstract: Under the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act), the Bureau is charged with researching, analyzing, and reporting on topics relating to the Bureau’s mission, including consumer behavior, consumer awareness, and developments in markets for consumer financial products and services. In order to improve its understanding of how consumers engage with financial markets, the Bureau has used the Consumer Credit Panel (CCP), a proprietary sample dataset from one of the national credit reporting agencies, as a frame to survey people about their experiences in consumer credit markets. The Bureau seeks to obtain approval for a generic information collection plan for these types of surveys. Surveys conducted under this generic information collection plan will support the Bureau’s mission to conduct research in areas related to consumer finance including research to monitor developments in consumers’ financial situations, related changes in their use of financial products, and the impacts that these decisions have on their balance sheets. All research under this plan will be for general, formative, and informational research on consumer financial markets and consumers’ use of financial products and will not directly provide the basis for specific policymaking at the Bureau. The Bureau requests approval from OMB for a

generic information collection plan which will allow the Bureau to collect data by administering surveys which use the CCP as a survey frame.

Request for Comments: The Bureau issued a 60-day **Federal Register** notice on September 3, 2019, 84 FR 45998, Docket Number: CFPB-2019-0049. Comments were solicited and continue to be invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau’s estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be reviewed by OMB as part of its review of this request. All comments will become a matter of public record.
