

FEDERAL REGISTER

Vol. 84

Monday,

No. 231

December 2, 2019

Pages 65907–66062

OFFICE OF THE FEDERAL REGISTER

The **FEDERAL REGISTER** (ISSN 0097-6326) is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Publishing Office, is the exclusive distributor of the official edition. Periodicals postage is paid at Washington, DC.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see www.federalregister.gov.

The seal of the National Archives and Records Administration authenticates the **Federal Register** as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge at www.govinfo.gov, a service of the U.S. Government Publishing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6:00 a.m. each day the **Federal Register** is published and includes both text and graphics from Volume 1, 1 (March 14, 1936) forward. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202-512-1800 or 866-512-1800 (toll free). E-mail, gpocusthelp.com.

The annual subscription price for the **Federal Register** paper edition is \$860 plus postage, or \$929, for a combined **Federal Register**, **Federal Register** Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the **Federal Register** Index and LSA is \$330, plus postage. Six month subscriptions are available for one-half the annual rate. The prevailing postal rates will be applied to orders according to the delivery method requested. The price of a single copy of the daily **Federal Register**, including postage, is based on the number of pages: \$11 for an issue containing less than 200 pages; \$22 for an issue containing 200 to 400 pages; and \$33 for an issue containing more than 400 pages. Single issues of the microfiche edition may be purchased for \$3 per copy, including postage. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard, American Express, or Discover. Mail to: U.S. Government Publishing Office—New Orders, P.O. Box 979050, St. Louis, MO 63197-9000; or call toll free 1-866-512-1800, DC area 202-512-1800; or go to the U.S. Government Online Bookstore site, see bookstore.gpo.gov.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 84 FR 12345.

Postmaster: Send address changes to the Superintendent of Documents, Federal Register, U.S. Government Publishing Office, Washington, DC 20402, along with the entire mailing label from the last issue received.

Rules and Regulations

Federal Register

Vol. 84, No. 231

Monday, December 2, 2019

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents.

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Chapter VII

RIN 3133-AF02

Exceptions to Employment Restrictions Under Section 205(d) of the Federal Credit Union Act (“Second Chance IRPS”)

AGENCY: National Credit Union Administration (NCUA).

ACTION: Final interpretive ruling and policy statement 19–1.

SUMMARY: The NCUA Board (Board) is updating and revising its Interpretive Ruling and Policy Statement (IRPS) regarding statutory prohibitions imposed by Section 205(d) of the Federal Credit Union Act (FCU Act). Section 205(d) prohibits, except with the prior written consent of the Board, any person who has been convicted of any criminal offense involving dishonesty or breach of trust, or who has entered into a pretrial diversion or similar program in connection with a prosecution for such offense, from participating in the affairs of an insured credit union. The Board is rescinding current IRPS 08–1 and issuing a revised and updated IRPS to reduce regulatory burden. The Board is amending and expanding the current *de minimis* exception to reduce the scope and number of offenses that will require an application to the Board. Specifically, the final IRPS will not require an application for convictions involving insufficient funds checks of aggregate moderate value, small dollar simple theft, false identification, simple drug possession, and isolated minor offenses committed by covered persons as young adults.

DATES: The final IRPS takes effect January 2, 2020.

FOR FURTHER INFORMATION CONTACT: Pamela Yu, Special Counsel to the General Counsel, Office of General

Counsel, at the above address or telephone (703) 518–6540.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Board recognizes that many Americans face hiring barriers due to a criminal record, a great number of which are not violent or career criminals, but rather people who made poor choices early in life who have since paid their debt to society. Offering second chances to those who are truly penitent is consistent with our nation’s shared values of forgiveness and redemption. In keeping with this spirit of clemency, the Board endeavors to expand career opportunities for those who have demonstrated remorse and responsibility for past indiscretions and wish to set on a path to productive living. Toward that end, the Board is revising its guidance regarding prohibitions imposed by Section 205(d) of the FCU Act.

Section 205(d) of the FCU Act prohibits, without the prior written consent of the Board, a person convicted of any criminal offense involving dishonesty or breach of trust, or who has entered into a pretrial diversion or similar program in connection with a prosecution for such offense, from becoming or continuing as an institution-affiliated party, or otherwise participating, directly or indirectly, in the conduct of the affairs of an insured credit union.¹ In August 2008, the Board issued final IRPS 08–1, to provide direction and guidance to federally insured credit unions and those persons who may be affected by Section 205(d) because of a prior criminal conviction or pretrial diversion program participation by describing the actions that are prohibited under the statute and establishing the procedures for applying for Board consent on a case-by-case basis.²

The IRPS has not been revised since 2008 and, based on its experience with the IRPS over the past decade, the Board is updating and revising the guidance to reduce regulatory burden while protecting federally insured credit unions from risk by convicted persons.

II. Background

Under Section 205(d)(1) of the FCU Act, except with the prior written

consent of the Board, a person who has been convicted of any criminal offense involving dishonesty or breach of trust, or has agreed to enter into a pretrial diversion or similar program in connection with a prosecution for such offense may not:

- Become, or continue as, an institution-affiliated party with respect to any insured credit union; or
- Otherwise participate, directly or indirectly, in the conduct of the affairs of any insured credit union.

Section 205(d)(1)(B) further provides that an insured credit union may not allow any person described above to participate in the affairs of the credit union without Board consent. Section 205(d)(2) imposes a ten-year ban against the Board’s consent for a person convicted of certain crimes enumerated in Title 18 of the United States Code, absent a motion by the Board and approval by the sentencing court. Finally, Section 205(d)(3) states that “whoever knowingly violates” (d)(1)(A) or (d)(1)(B) commits a felony, punishable by up to five years in jail and a fine of up to \$1,000,000 a day.

Recognizing that certain offenses are so minor and occurred so far in the past so as to not currently present a substantial risk to the insured credit union, IRPS 08–1 excludes certain *de minimis* offenses from the need to obtain consent from the Board. However, several recent applications requesting the Board’s consent pursuant to Section 205(d) involved fairly minor, low-risk, erstwhile, and isolated offenses that did not fall within the current *de minimis* exception.³ In light of these recent cases, the substantial passage of time since IRPS 08–1 was adopted, and importantly, the Board’s commitment to opening a path forward for those seeking redemption for past criminal activities, the Board has determined it is appropriate to now amend IRPS 08–1.

In issuing these final amendments to IRPS 08–1, the Board remains mindful of a corresponding Statement of Policy (SOP) issued by the Federal Deposit Insurance Corporation (FDIC) to promote consistency between the

³ For example, in several recent cases, the offense in question met four of the five *de minimis* criteria but did not qualify for the *de minimis* exception because the *potential*—but not actual—punishment exceeded the standard set forth by IRPS 08–1. See BD–02–18 (Oct. 18, 2018); BD–01–19 (Mar. 14, 2019).

¹ 12 U.S.C. 1785(d)(1).

² 73 FR 48399 (Aug. 19, 2008).

prudential regulators and to reduce regulatory burden. Section 19 of the Federal Deposit Insurance Act (FDIA) contains a prohibition provision similar to Section 205(d) of the FCU Act. In 1998, the FDIC implemented an SOP regarding prohibitions imposed by Section 19 of the FDIA, and it has subsequently modified and updated its guidance on several occasions.⁴ In the past, the NCUA has drawn on the FDIC's SOP for guidance on this topic. In 2018, the FDIC updated and revised its SOP to expand its *de minimis* exception and to make other clarifying changes.⁵ In the Board's view, it is beneficial to both institutions and covered individuals for the NCUA's Section 205(d) requirements to be reasonably consistent, to the extent possible, with the FDIC's Section 19 requirements. Consistent guidelines between our sister agencies with respect to these parallel statutory provisions will help streamline the application process, particularly for those individuals seeking consent from both the NCUA and the FDIC to allow for potential employment at federally insured financial institutions.

III. Proposed Second Chance IRPS (IRPS 19–1)

In July 2019, the Board published and sought public comment on a proposal to expand exceptions to employment restrictions under Section 205(d).⁶ Deemed the "Second Chance IRPS," the Board proposed to amend the current *de minimis* exception to reduce the scope and number of offenses that would require an application to the Board. Specifically, the proposed Second Chance IRPS did not require an application for insufficient funds checks of aggregate moderate value, small dollar simple theft, false identification, simple drug possession, and isolated minor offenses committed by covered persons as young adults. In addition, the Board proposed some minor grammatical, formatting, and clarifying changes.

The Board received a total of twelve comments from national credit union trade associations, state credit union associations, advocacy groups (including one joint letter representing 36 individual groups), one federal credit union, and one fidelity bond provider. The commenters generally supported

the proposed IRPS and appreciated the Board's efforts to reduce regulatory burden, and to expand employment opportunities to those deserving of a second chance. The general consensus among commenters was that the proposed guidance was well-measured, balanced, and flexible and will reduce burdens on credit unions, covered individuals, and the agency, while maintaining appropriate safeguards to ensure the new exceptions do not present undue safety and soundness risks to insured credit unions. Commenters widely applauded the NCUA's efforts to expand employment opportunities for low-risk convicted persons and noted the second chance amendments are consistent with our nation's redemptive spirit. One commenter was particularly gratified that the NCUA's issuance will represent a strong message in support of second chances and act as a signal to other industries that many former offenders are worthy of the opportunity for inclusion and trust.

A joint comment letter representing numerous advocacy groups supported the proposed Second Chance IRPS overall, but asked that the NCUA go further than the proposal to adopt additional reforms and improvements to promote expanded employment opportunities for people with conviction records, including, among other things, additional expansions of the *de minimis* exception; further clarifications regarding expungements, set-asides, and reversed convictions; and clarifications to the evaluation standards for Section 205(d) consent applications.

Substantive comments on specific aspects of the proposed Second Chance IRPS are discussed in detail below. For the reasons described below, the Board is adopting the proposal with a few minor modifications.

IV. Final Second Chance IRPS

A. Background

IRPS 08–1 currently provides background regarding Section 205(d)'s prohibition, and discusses its purpose to provide requirements, direction, and guidance to federally insured credit unions and individuals covered by the statutory ban. The proposed IRPS revised the background section to make clear that IRPS 19–1 supersedes and replaces IRPS 08–1. There were no comments on this aspect of the proposal, and the Board adopts this amendment as proposed.

B. Scope

1. Persons Covered

The proposed Second Chance IRPS modified the scope section to clarify the persons covered by the Section 205(d) prohibition. Under the statute, the prohibition applies to institution-affiliated parties, as defined by Section 206(r) of the FCU Act,⁷ and others who are participants in the conduct of the affairs of an insured credit union.⁸

Under Section 206(r), independent contractors are considered institution-affiliated parties if they knowingly or recklessly participate in violations, unsafe or unsound practices, or breaches of fiduciary duty which are likely to cause significant loss to, or a significant adverse effect on, an insured credit union. Over the years, the definition of independent contractors in Section 206(r), which is included in IRPS 08–1, has created confusion among interested parties. Given that the term is actually unnecessary in determining whether Section 205(d) applies at the time the individual commenced work for, or participated in the affairs of, the credit union, the proposed Second Chance IRPS deleted reference to certain language in the definition of "independent contractor." It also clarified that an independent contractor typically does not have a relationship with the insured credit union other than the specific activity for which the insured credit union has contracted, and that the relevant factor in determining whether an independent contractor is covered by Section 205(d)'s prohibition is whether the independent contractor influences or controls the management or affairs of that credit union.

A person who does not meet the statutory definition of institution-affiliated party is nevertheless prohibited by Section 205(d) if he or she is considered to be participating, directly or indirectly, in the conduct of the affairs of an insured credit union. The proposed Second Chance IRPS did not precisely define what constitutes direct or indirect participation in the conduct of the affairs of an insured credit union, but rather updated and clarified how the NCUA will determine whether a person qualifies as a participant in the affairs of an insured credit union.

One commenter specifically agreed the NCUA should not expressly define who qualifies as a participant. Another commenter questioned why it is necessary for the guidance to address both institution-affiliated parties and

⁴ The FDIC has revised its SOP multiple times since its implementation in 1998. See 63 FR 66177 (Dec. 1, 1998); 72 FR 73823 (Dec. 28, 2007); 73 FR 5270 (Jan. 29, 2008); 76 FR 28031 (May 13, 2011); 77 FR 74847 (Dec. 18, 2012); 83 FR 38143 (Aug. 3, 2018).

⁵ 83 FR 38143 (Aug. 3, 2018).

⁶ 84 FR 36488 (July 29, 2019).

⁷ 12 U.S.C. 1786(r).

⁸ 12 U.S.C. 1785(d).

participants in the affairs of an insured credit union. The commenter encouraged the Board to delete reference to participants as the term appears redundant and does not seem to expand the scope of coverage.

As noted above, the statute expressly applies the employment prohibition to institution-affiliated parties and others who are participants in the conduct of the affairs of an insured credit union. Specifically, Section 205(d) provides that except with prior written consent of the Board—

1. any person who has been convicted of any criminal offense involving dishonesty or a breach of trust, or has agreed to enter into a pretrial diversion or similar program in connection with a prosecution for such offense, may not—

a. become, or continue as, an institution-affiliated party with respect to any insured credit union; or

b. otherwise participate, directly or indirectly, in the conduct of the affairs of any insured credit union; and

2. any insured credit union may not permit any person referred to in paragraph (1) to engage in any conduct or continue any relationship prohibited under such paragraph.⁹

In the Board's view, for consistency with the operative statute, it is helpful and appropriate for the guidance to continue to address both institution-affiliated parties and participants in the affairs of an insured credit union. While there may be overlap between the two, retaining reference to the two distinct statutory terms in the final IRPS will promote clarity and maintain consistency between the statute and guidance.

The Board continues to maintain that participants in the affairs of a credit union is a term of art that defies precise definition. Thus, the final Second Chance IRPS reiterates the NCUA's current position that agency and court decisions will inform its determination and that, generally, participation will depend upon the degree of influence or control over the management or affairs of the insured credit union. Each individual's conduct will be analyzed on a case-by-case basis to determine if that conduct constitutes participation in the conduct of the affairs of an insured credit union.

2. Offenses Covered

The proposed Second Chance IRPS clarified that in order for an application to be considered by the Board, the case must be considered final by the procedures of the applicable jurisdiction. This means all of the

sentencing requirements associated with a conviction or conditions imposed by the pretrial diversion or similar program, including, but not limited to, imprisonment, fines, condition of rehabilitation, and probation requirements, must be completed before the Board will deliberate a consent application. There were no comments on this aspect of the proposal, and the Board is adopting these provisions without modification.

3. Offenses not Covered

Currently, where the covered offense is considered *de minimis*, approval is automatically granted, and an application for the Board's consent is not required. The proposed Second Chance IRPS modified the current exception for *de minimis* offenses in two ways: First, by updating the general criteria for the exception; and second, by substantially expanding the scope of the exception to include additional offenses to qualify as *de minimis* offenses.

De minimis offenses. Under IRPS 08–1, a covered offense is considered *de minimis* if it meets all of the following five criteria: (1) There is only one conviction or entry into a pretrial diversion program of record for a covered offense; (2) the offense was punishable by imprisonment for a term of less than one year and/or a fine of less than \$1,000, and the punishment imposed by the court did not include incarceration; (3) the conviction or pretrial diversion program was entered at least five years prior to the date an application would otherwise be required; (4) the offense did not involve an insured depository institution or insured credit union; and (5) the Board or the FDIC has not previously denied consent under Section 205(d) of the FCU Act or Section 19 of the FDIA, respectively, for the same conviction or participation in a pretrial diversion program.

The proposed Second Chance IRPS updated the general criteria for the *de minimis* offenses exception to better align with developments in criminal reform and sentencing guidelines that have occurred since IRPS 08–1 was adopted in 2008. Specifically, the potential punishment and/or fine provision (current criterion 2) was updated to allow those offenses punishable by imprisonment for a term of one year or less and/or a fine of \$2,500 or less, and those offenses punishable by three days or less of jail time, to meet that *de minimis* criterion.

Commenters noted that these changes to the general criteria, while modest, will nevertheless result in a meaningful

reduction in the number of applications to the Board. In particular, several commenters indicated that simply amending criterion 2 from “less than one year” to “one year or less” will result in significant regulatory relief. Commenters also agreed the increase in the dollar threshold better aligns with criminal reform and sentencing guidelines. One commenter was supportive overall of the proposed amendments to the general criteria for the *de minimis* exception, but asserted that the single conviction criterion (criterion 1), which was not modified in the proposal, is too restrictive.

The proposed IRPS also added a definition of “jail time” to clarify that the term includes any significant restraint on an individual's freedom of movement, including confinement to a specific facility or building on a continuous basis where the person may leave temporarily only to perform specific functions or during specified time periods or both.

One commenter specifically supported the proposed definition of jail time. However, another comment letter expressed concerns that the proposal's definition would include time served in pretrial confinement, for civil infractions, or in home confinement since these penalties impose a “significant restraint on an individual's freedom of movement.” As one example, the comment letter noted low-risk individuals who had their freedom of movement restricted for failure to pay a traffic fine would fall outside of the exception because of the more expansive proposed definition. Thus, this comment letter recommended the Board retain the current language relative to jail time. Another commenter suggested the definition of jail time should include probation if probation was the only confinement imposed as part of an individual's punishment.

After a review and analysis of the comments, the Board is adopting this aspect of the guidance unchanged in the final Second Chance IRPS. The Board anticipates the measured changes to criterion 2 of the general *de minimis* exception alone should result in a fairly significant reduction in regulatory burden. The Board is not inclined to further relax the general criteria at this time to allow for more than one *de minimis* offense to qualify for the general exception. The Board wishes to emphasize, however, that for any offense that does fit a *de minimis* category, an application can still be filed.

The Board also adopts the proposed definition of “jail time” without modification. As discussed in the

⁹ 12 U.S.C. 1785(d).

proposal, the NCUA is aware that various jurisdictions take different approaches to confinement depending on the nature of the crime (e.g., house arrest, home detention, ankle monitor, voice curfew, work release) and the proposed definition was intended to improve transparency and enhance compliance in that context. In the Board's view, the new definition is appropriately tailored to address those varied jurisdictional approaches in order to clarify the circumstances under which a lesser crime will qualify as *de minimis*. In response to the comment letter expressing concern that the proposed definition was overly broad to exclude individuals whose freedom of movement is restricted for minor crimes, such as for failure to pay a traffic fine, the Board notes that minor traffic violations are not criminal offenses involving dishonesty or a breach of trust within the scope of Section 205(d).

Additional applications of the de minimis exception. The proposed Second Chance IRPS also expanded the scope of the exception to include several additional offenses to qualify as *de minimis* offenses in order to eliminate the need to submit an application for certain low-risk, isolated offenses. The proposed expansion was intended to reduce regulatory burden to credit unions, covered individuals, and the agency, while continuing to mitigate the risk to insured credit unions posed by convicted persons.

Most commenters were very supportive of the expansion of the current *de minimis* exception to include new qualifying offenses. One commenter, however, disagreed with expanding the exception to include additional offenses, preferring the Board have the opportunity to evaluate all aspects of a covered individual's criminal past. Another commenter expressed concern that the new exceptions could risk the safety and soundness of credit unions (particularly smaller institutions), and thus, opposed the addition of new *de minimis* offenses.

As described in more detail below, the Board generally adopts the new qualifying offenses for *de minimis* treatment as proposed, with some minor modifications for improvement.

Age at time of covered offense. Under the proposed Second Chance IRPS, a person with a covered conviction or program entry that occurred when the individual was 21 years of age or younger at the time of the conviction or program entry, and who otherwise meets the general *de minimis* criteria, will qualify for this *de minimis*

exception if: (1) The conviction or program entry was at least 30 months¹⁰ prior to the date an application would otherwise be required and (2) all sentencing or program requirements have been met prior to the date an application would otherwise be required.

One commenter generally supported this proposed change, but urged the Board to go further by also modifying the other general criteria applying to offenses committed prior to the age of 21, namely, that the offense be punishable by a jail term of less than one year or a fine of less than \$2,500.

The Board declines this recommendation. While this measured exception is intended to recognize that isolated, youthful mistakes are particularly worthy of forgiveness and second chances, the Board remains mindful of its safety and soundness mandate. Reducing by half the passage of time required for individuals with a minor youthful conviction to qualify for the exception provides meaningful relief while still appropriately mitigating risks to insured credit unions posed by convicted persons. Accordingly, the Board is adopting the age-based *de minimis* treatment, as proposed, in the final Second Chance IRPS.

Convictions or program entries for insufficient funds checks. The Board also proposed to expand the *de minimis* exception to cover certain convictions for "bad" or insufficient funds checks, which, in the Board's view, generally are low-risk offenses that can be treated as *de minimis*. Under the proposal, these types of offenses were considered *de minimis* and were not considered as involving an insured depository institution or insured credit union if the following conditions apply:

- Other than for "bad" or insufficient funds check(s), there is no other conviction or pretrial diversion program entry subject to Section 205(d);
- The aggregate total face value of all "bad" or insufficient funds check(s) cited across all the conviction(s) or program entry or entries for bad or insufficient checks is \$1,000 or less; and
- No insured depository institution or insured credit union was a payee on any of the "bad" or insufficient funds checks that were the basis of the conviction(s) or program entry or entries.

One commenter expressed concern with the proposed exception for offenses involving insufficient funds

¹⁰ Half of the regular five-year period applicable to individuals with a covered conviction or program entry that occurred when the individual was over 21 years of age at the time of the conviction or program entry.

checks and asked that the Board readjust the qualifying aggregate total face value amount. The same commenter also suggested this exception category should be revised to impose a qualifying timeframe (e.g., five years since the conviction or program entry (or 30 months in the case of a person 21 years or younger at the time of the conviction or program entry)). Another commenter suggested that references to covered offenses that took place at an "insured credit union" or an "insured depository institution" should be revised throughout the guidance to eliminate the "insured" modifier. In this commenter's view, the proposed language is overly specific as any prior offense by a covered individual involving a financial institution, insured or not, can increase risks to insured credit unions.

The Board agrees that covered individuals with convictions or program entries for crimes involving financial institutions may pose risks to insured credit unions, regardless of the financial institution's insurance status. After careful review, the Board maintains that no offense category should be included in the *de minimis* exception if the covered crime was committed against a financial institution, insured or not. Accordingly, to the extent the distinction between insured and uninsured institutions is immaterial in this context, the final IRPS eliminates the "insured" modifier throughout. However, the Board declines to impose additional conditions on this exception category at this time. Imposing a lower qualifying aggregate total face value amount or a qualifying timeframe for this *de minimis* category would limit its utility and undermine the Board's objective of providing well-balanced, yet meaningful, regulatory relief. The Board continues to take the view that convictions for "bad" or insufficient funds checks generally are low-risk offenses that can be treated as *de minimis*. Thus, offenses that meet all the above-listed criteria, as revised to eliminate the "insured" modifier, will not require an application for the Board's consent under the final Second Chance IRPS.

Convictions or program entries for small-dollar, simple theft. As the Board discussed in the proposed Second Chance IRPS, a substantial number of applications that have come before the Board since 2008 have involved convictions or program entries for relatively minor, low-risk, small-dollar, simple theft (e.g., shoplifting, retail theft). Based on a historical review of Section 205(d) applications, the Board granted its consent to the vast majority

of those covered individuals with convictions or program entries related to small-dollar, simple theft. Thus, under the proposal, a conviction or pretrial diversion program entry based on a simple theft of goods, services and/or currency (or other monetary instrument) was considered *de minimis* where the following conditions are met:

- The aggregate value of the currency, goods, and/or services taken was \$500 or less at the time of conviction or program entry; and
- The person has no other conviction or program entry described in Section 205(d); and
- It has been five years since the conviction or program entry (or 30 months in the case of a person 21 years or younger at the time of the conviction or program entry); and
- It does not involve an insured depository institution or insured credit union.

For purposes of the exception, simple theft did not include the offenses of burglary, forgery, robbery, identity theft, or fraud. Under the proposal, these crimes continued to require an application for the Board's consent, unless otherwise qualifying as *de minimis*.

Stakeholders providing comment on this aspect of the proposed IRPS generally supported the exception for small-dollar, simple theft. Several commenters supported the express exclusion of burglary, forgery, robbery, identity theft, and fraud from the exception and agreed those offenses should continue to require an application for the Board's consent. Several commenters asked the Board to clarify that all of the stated conditions must be met in order for the exception to apply. A number of commenters also asked the Board to confirm and emphasize in the final IRPS that simple theft, of any value, involving a depository institution or credit union falls outside the *de minimis* exception and will require an application to the Board. One commenter suggested the condition that the conviction or program entry does not involve an insured depository institution or insured credit union should be revised to eliminate the "insured" modifier.

One comment letter was generally in favor of an exception for simple theft, but contended the practical application of the proposed exception is limited because most simple theft convictions involving \$500 or less are likely already covered as *de minimis* under the general criteria (*i.e.*, unlikely to be punishable by imprisonment for a term of more than one year or a fine of more than \$2,500, and the covered person is

unlikely to have served more than three days in jail). Thus, the comment letter urged that the Board go further to exclude from Section 205(d) coverage certain minor dishonesty offenses, such as all convictions for the use of a fake ID (not only limited to alcohol-related use), shoplifting, fare evasion, and other lesser offenses. Alternatively, at a minimum, the comment letter suggested these types of convictions should be excluded from Section 205(d) coverage after one year from the time of conviction or program entry.

Upon careful consideration of the public comments, the Board continues to take the view that the exception is appropriately tailored to streamline the application process without creating undue or substantial risk to insured credit unions, and declines to expand it further at this time to include additional offenses. Accordingly, the final Second Chance IRPS adopts the small-dollar, simple theft exception largely as proposed. A conviction or pretrial diversion program entry based on a simple theft of goods, services and/or currency (or other monetary instrument) is considered *de minimis* where all of the above-listed conditions are met. As discussed above, the Board agrees, however, that the distinction between insured and uninsured institutions is immaterial in this context. Thus, the final Second Chance IRPS eliminates the "insured" modifier in this exception category. Simple theft, of any value, involving a depository institution or credit union, whether insured or not, falls outside the *de minimis* exception and will require an application to the Board. Where pertinent throughout, the final Second Chance IRPS also adds the word "all" to clarify that all the described conditions must be met in order for the exception to apply.

Convictions or program entries for the use of a fake identification card. Under the proposed Second Chance IRPS, the use of a fake, false, or altered identification card by a person under the legal age to obtain or purchase alcohol, or to enter a premises where alcohol is served and age appropriate identification is required, was considered *de minimis*, provided there is no other conviction or program entry for the covered offense.

All commenters that provided feedback on this aspect of the proposal were supportive of the exception and agreed that individuals with convictions or program entries for the use of a fake identification card pose little risk to insured credit unions. Accordingly, the Board adopts as proposed the provision allowing *de minimis* treatment for the use of fake identification by a person

under the legal age for alcohol-related purposes.

Convictions or program entries for simple misdemeanor drug possession. While not discounting the public health implications of illegal drug use and possession, the Board continues to believe covered persons with single convictions or program entries for simple drug possession pose minimal risk to insured credit unions.

As discussed in the proposed Second Chance IRPS, there are already a host of significant extrajudicial consequences for individuals with nonviolent drug possession convictions, including not only employment bans but the loss of federal financial aid, eviction from public housing, disqualification from occupational licenses, loss of voting rights, and denial of public assistance. Moreover, research shows that drug convictions disproportionately burden people of color. In addition, the Board recognizes that some uncertainty and confusion exists with respect to marijuana-related offenses, with marijuana now legal in many states but still illegal at the federal level.¹¹

Accordingly, the proposed Second Chance IRPS also classified as *de minimis* those convictions or entries for drug offenses meeting the following conditions:

- The person has no other conviction or program entry described in Section 205(d); and
- The single conviction or program entry for simple possession of a controlled substance was classified as a misdemeanor and did not involve the illegal distribution (including an intent to distribute), sale, trafficking, or manufacture of a controlled substance or other related offense; and
- It has been five years since the conviction or program entry (or 30 months in the case of a person 21 years or younger at the time of the conviction or program entry).

Under the proposal, convictions or program entries for intent to distribute, illegal distribution, illegal sale or trafficking of a controlled substance, or illegal manufacture of a controlled substance continued to require an application for the Board's consent, unless otherwise qualifying as *de minimis*.

Most commenters that provided input on this part of the proposed Second

¹¹ Marijuana laws are rapidly evolving across all 50 states. Multiple states have legalized or decriminalized marijuana in some form at the state level. However, marijuana remains a Schedule I drug under the Federal Controlled Substances Act. See 21 U.S.C. 812(b)(1). Further information about marijuana legalization may be found online at <https://disa.com/map-of-marijuana-legality-by-state>.

Chance IRPS supported the exception and agreed that individuals with convictions or program entries for single convictions for simple drug possession pose minimal risk to insured credit unions. Several commenters echoed the Board's view that the exception is appropriate given the current uncertainty and confusion with respect to marijuana-related offenses, with marijuana legal under various state laws but still federally illegal. A number of commenters also shared the Board's observation that drug convictions disproportionately burden people of color and impose significant extrajudicial consequences on convicted individuals.

One comment letter, however, recommended the Board more broadly expand the exception to include most drug convictions (beyond simple possession), arguing that drug offenses are not criminal offenses involving dishonesty or breach of trust that should be covered by Section 205(d). The comment letter urged the Board to eliminate the requirement to request consent for persons with a conviction or program entry for any drug possession offense (*i.e.*, not limited to misdemeanors that occurred more than five years ago), as well as for drug offenses involving sales or distribution of a controlled substance. The comment letter further argued that mandatory minimum federal sentences imposed for drug offenses limits the effectiveness of the proposed exception.

After careful review of the comments, the Board maintains that an application should be required for most drug offenses so it can determine the nature of the offense and elements of the crime; thus, it will continue the current requirement that an application be filed for drug offenses that do not qualify as *de minimis*. Moreover, while the Board recognizes the *de minimis* treatment for single convictions or program entries for simple misdemeanor drug possession is relatively narrowly tailored, it once again emphasizes that, as with any offense that does not fit a *de minimis* category, an application can still be filed for any drug crime that does not qualify for *de minimis* treatment. Accordingly, the Board adopts this exception category, without change, in the final IRPS.

Fidelity bond coverage. The proposed Second Chance IRPS maintained the agency's current policy to require that any person who meets the *de minimis* criteria must be covered by a fidelity bond to the same extent as other employees in similar positions. In addition, that person must disclose the presence of the conviction or pretrial

diversion program entry to all insured credit unions or insured depository institutions in the affairs of which he or she intends to participate.

One commenter noted that, historically, insurers have increased premiums where an employee has a theft or fraud conviction; thus, some credit unions are concerned about their ability to obtain insurance coverage for covered individuals. This commenter asked the NCUA to weigh the costs and benefits of requiring a fidelity bond for individuals that meet the *de minimis* criteria under the final Second Chance IRPS.

Several commenters expressed some degree of concern that increasing the number of excepted offenses not requiring application could ultimately lead to increased theft or fraud, thereby resulting in increased insurance costs to credit unions (costs that ultimately would be borne by members). However, most of those commenters shared the view that this is a fairly remote possibility and, at least in the short-term, no immediate premium increases are likely to result from the proposed IRPS. Commenters noted that if such a result were to occur, the Board should revisit the IRPS to determine if it should be modified.

Comments from one insurer that provides fidelity bond coverage to credit unions were particularly helpful on this point. Specifically, the commenter indicated that, while the full implications of the proposal may not be known for several years, it currently does not anticipate any immediate premium adjustments for credit unions to result from the proposed changes. The commenter noted, however, that beyond fidelity bond coverage, there could be potential future impacts for risk management services provided to credit unions, as well as business auto and business liability coverages, as new general, safety concerns may arise. This commenter also indicated that, as a fidelity insurer, it will reexamine its own *de minimis* category to consider if updates to its policies are necessary given the important goals underlying the agency's amendments.

The Board continues to maintain that any person who meets the *de minimis* criteria must still be covered by a fidelity bond to the same extent as other employees in similar positions. Fidelity bond coverage provides important protection against losses caused by fraud, dishonesty, theft, and similar activities committed by credit union employees, directors, officers, supervisory committee members, and credit committee members. Based on stakeholder feedback, the Board is

satisfied that, at least in the immediate near-term, the final Second Chance IRPS will not result in higher premiums for insured credit unions. The Board is cognizant of the possibility that, should the incidence of theft or fraud increase as a result of its amendments to the *de minimis* exception, future impacts could mean higher insurance premiums. The Board will continue to monitor whether updates to its policy are necessary if concerns regarding premium adjustments arise.

Expunged convictions. Under the NCUA's current policy, a conviction that has been "completely expunged" is not considered a conviction of record and will not require an application for the Board's consent under Section 205(d). However, the Board is aware that it is sometimes unclear whether certain state set-aside provisions constitute a complete expungement for Section 205(d) purposes (*i.e.*, where the conviction may still be revealed under certain circumstances or otherwise remains on the individual's record). Accordingly, the proposed Second Chance IRPS clarified the circumstances under which a conviction is deemed expunged for purposes of Section 205(d). Specifically, if an order of expungement has been issued in regard to a conviction or program entry and is intended by the language in the order itself, or in the legislative provisions under which the order was issued, to be a complete expungement, then the jurisdiction, either in the order or the underlying legislative provisions, cannot allow the conviction or program entry to be used for any subsequent purpose. This includes, but is not limited to, an evaluation of a person's fitness or character. Under the proposal, the failure to destroy or seal the records did not prevent the expungement from being considered complete for purposes of Section 205(d). Expungements of pretrial diversion or similar program entries are treated the same as expungements for convictions. Moreover, under the proposed Second Chance IRPS, convictions set aside or reversed after the applicant has completed sentencing were treated consistently with pretrial diversion programs unless the court records reflect that the underlying conviction was set aside based on a finding on the merits that such conviction was wrongful.

Commenters generally indicated the proposal's clarifications regarding expunged convictions were helpful. Several commenters were particularly supportive of the clarification regarding state set-aside provisions as it is sometimes unclear whether those

provisions constitute a complete expungement for purposes of Section 205(d). One commenter indicated the clarification that the failure to destroy or seal records would not preclude them from being considered expunged is a positive modification that will allow greater flexibility for credit unions.

One comment letter, however, recommended that all expungements be treated as complete expungements for purposes of Section 205(d), regardless of whether the conviction or program entry can subsequently be used for an evaluation of the person's fitness or character. The same comment letter opposed the proposal's clarification regarding state set-aside provisions, interpreting the proposed clarification as creating a new expansion of the Section 205(d) consent requirements to now cover individuals with set aside or reversed convictions where there was not a finding of wrongful conviction.

The Board is adopting this aspect of the proposed guidance unchanged in the final Second Chance IRPS. It notes that its decision to add clarifying language regarding expunged convictions to the Second Chance IRPS is intended to promote transparency in the consent application process and, thereby, to streamline the process and give a measure of regulatory relief to covered individuals and insured credit unions seeking consent from the Board. While the Board acknowledges that making policy clarifications may actually result in a temporary spike in applications (due to an increased awareness of the Section 205(d) employment restrictions generally and/or greater awareness of what constitutes a conviction of record specifically), the Board does not view the clarifying language regarding expunged convictions to represent an expansion of the Section 205(d) consent requirements to cover individuals with set aside or reversed convictions who were not previously covered under IRPS 08-1. Indeed, prior Board decisions on Section 205(d) consent requests have found that certain state set-aside provisions are not the equivalent of an expungement within the meaning of IRPS 08-1, as the conviction may still be revealed under certain circumstances.¹² Thus, the clarifying language regarding expunged convictions does not represent a departure from the Board's past policy in any regard.

¹² See, e.g., BD-05-16, fn 7 (Dec. 20, 2016) (citing *McCully v. Schwenn*, 220 F. App'x 475 (9th Cir. 2007) ("[Ariz. Rev. Stat.] section 13-907 . . . does not expunge or remove the fact of conviction in Arizona.")).

Further, the Board does not consider it appropriate to treat all expungements, set asides, reversed convictions, or other similar case dispositions as complete expungements for purposes of Section 205(d). State law varies and, in some jurisdictions, an expungement is not "complete" and is still subject to subsequent use. In the Board's view, expungements that reflect the intent of the particular jurisdiction to completely purge a conviction or program entry from an individual's background records supports an interpretation that, from a legal and policy perspective, the intent is to place the individual in the same position as if there were no conviction or program entry in the first place. However, an expunged criminal record that is still accessible to be used for subsequent purposes, including an evaluation of the person's fitness or character, reflects the jurisdiction's public policy that that record is still relevant and germane to certain subsequent inquiries. In considering whether an expungement is one that should fall outside the scope of Section 205(d), the Board's key consideration is whether the respective jurisdiction, by statute or court order, intended for the conviction or program entry to be fully purged from the individual's background. Preservation in a jurisdiction's expungement statute or by court order of the ability to use the conviction or program entry for a subsequent purpose indicates the record has not been completely expunged. Under these circumstances, the Board's interpretation is the conviction or program entry comes within the scope of Section 205(d). Again, however, the Board reiterates that covered individuals with expunged convictions or program entries still qualifying as convictions or record for purposes of Section 205(d) may still apply to the NCUA for the Board's consent.

C. Duty Imposed on Credit Unions

Section 205(d) imposes a duty upon every federally insured credit union to make a reasonable inquiry regarding the history of every applicant for employment, including taking appropriate steps to avoid hiring or permitting the participation of convicted persons. Under the NCUA's current policy, federally insured credit unions should, at a minimum, establish a screening process to obtain information about convictions and program entries from job applicants. However, the current policy is unclear as to what steps a credit union should or must take when it learns about a job applicant's *de minimis* offense. Thus, the proposed Second Chance IRPS

clarified that when a credit union learns a prospective employee has a prior conviction or program entry for a *de minimis* offense, the credit union should document in its files that an application is not required because the covered offense is considered *de minimis* and meets the criteria for the exception.

Comments on this aspect of the proposal were generally positive. A number of commenters, however, asked for reassurance that a credit union's failure to maintain a record that an application is not necessary because the *de minimis* exception applies will not be subject to supervisory action. These commenters asked for clarification that the recordkeeping requirement is a suggested best practice, not a mandatory compliance obligation. In addition, one commenter noted that, irrespective of the guidance, each credit union retains the right to consider an applicant's past crime(s) and maintains individual discretion in making hiring decisions.

The Board emphasizes that while the source of the consent requirements stem from federal statute, namely Section 205(d), this final IRPS is supervisory guidance, not regulation. The NCUA, along with the other federal prudential regulators, in 2018 issued an interagency statement to reaffirm the role of supervisory guidance.¹³ The statement confirmed that, unlike a law or regulation, supervisory guidance does not have the force and effect of law, and the NCUA does not take enforcement actions based on supervisory guidance. Rather, supervisory guidance outlines the NCUA's supervisory expectations or priorities and articulates the agency's general views regarding appropriate practices for a given subject area.

The Board wishes to underscore that documentation of an employee's or applicant's *de minimis* offense is a recommended practice that does not have the force and effect of law, and the NCUA will not take enforcement action based on this guidance. Nevertheless, the Board continues to believe it is helpful to both industry and supervisory staff to clarify the steps a credit union should take when it learns about an employee's or applicant's *de minimis* offense; as such, the Board is adopting this clarification in the final Second Chance IRPS.

The Board encourages industry to offer second chances and to expand employment opportunities for former offenders seeking redemptive paths forward, but no insured credit union is under any obligation to hire or retain an

¹³ See FFIEC "Interagency Statement Clarifying the Role of Supervisory Guidance," (Sept. 11, 2018).

employee with a criminal background. Insured credit unions have discretion to establish their own internal employment policies and should make hiring decisions that best suit their own individual needs and risk tolerance.

Conditional offers. The proposal provided for extensions of conditional offers of employment to prospective employees requiring the Board's consent under Section 205(d). A credit union may extend a conditional offer of employment contingent on the completion of a satisfactory background check to determine if the applicant is barred by Section 205(d). If a conditional offer is extended, however, the job applicant may not commence work for or be employed by the credit union until the applicant is determined to not be barred under Section 205(d) or receives consent from the Board.

One commenter was skeptical of the practical benefit of this provision, if the credit union does not have a reasonable expectation of the timing of the approval process. Thus, the commenter recommended the Board clarify in the final IRPS the general length of time necessary for the agency to process a consent application. One comment letter urged the Board to instruct credit unions to inquire into an applicant's criminal background only after the conditional offer stage of the hiring process, to safeguard against credit unions unfairly discarding the applications of people with conviction histories. Alternatively, at a minimum, this comment letter urged that the Board clarify credit unions are not required to make criminal record inquiries on an initial job application and may adopt a policy to collect criminal background history only after the conditional offer stage (*i.e.*, credit unions may adopt so-called "ban the box" policies).

The Board is mindful that the Section 205(d) consent application process may impose inconveniences and uncertainties to covered individuals and credit unions, as both applicant and employer remain in indeterminate state during the process of seeking consent from the Board. While the industry's desire for certainty as to the timing of the consent application process is understandable, the Board maintains it is impracticable to establish a timetable for action on consent applications because each individual application is fact specific and varies in complexity. However, past applications submitted to the Board have generally been adjudicated within 60 days from receipt, and, in most cases, the processing time was significantly less. The Board remains committed to streamlining the application process and endeavors to

decide on consent applications as quickly as possible. The Board anticipates that its decision to delegate responsibility for reviewing certain applications, discussed in more detail below, will further speed up the application process and reduce burdens on credit unions and applicants.

The Board also reiterates that insured credit unions are responsible for establishing their own internal employment policies and have discretion to make hiring decisions in their best judgment. The proposal's provision for extensions of conditional offers of employment to prospective employees requiring the Board's consent under Section 205(d) was intended to reduce burdens in the hiring and consent application process; accordingly, the Board is adopting this provision in the final Second Chance IRPS. An insured credit union choosing to adopt a policy to extend conditional offers may establish its own procedures to make criminal record inquiries at any stage of its choosing in its hiring process, so long as applicants do not commence work for or be employed by the credit union until the applicant is determined to not be barred under Section 205(d) or receives consent from the Board.

D. Procedures for Requesting the Board's Consent Under Section 205(d)

Application types. The proposed Second Chance IRPS did not modify the current procedures for requesting the Board's consent under Section 205(d). However, the proposal added language to clarify the distinction between a credit union-sponsored application filed by the institution on behalf of a covered individual and an individual application filed on a covered person's own behalf. Generally, an application must be filed by an insured credit union on behalf of a person (credit union-sponsored application) unless the Board, for substantial good cause, grants a waiver of that requirement and allows the person to file an application in their own right (individual application). In most cases, a credit union-sponsored application is for a particular person, in a particular job, at a particular credit union. On the other hand, an individual application is typically requesting a blanket waiver for the applicant to be employed or participate in the conduct of the affairs of any insured credit union. The Section 205(d) application form was also revised to more clearly distinguish between the two types of applications and the supporting information required for each.

One comment letter urged the Board to go further than the proposal to

expressly encourage individuals to directly file applications in their own right, rather than requiring that a credit union sponsor the application. This letter noted that while the FDIC's Statement of Policy (SOP) on Section 19 contains similar "substantial good cause" language, in practice the FDIC routinely accepts individual applications and the vast majority of applications it processes are not sponsored by a financial institution.

The Board notes that both credit union-sponsored applications and individual applications were permitted under IRPS 08-1 and both options will continue to be available under this final IRPS. While historically consent applications submitted to the NCUA are more typically credit union-sponsored, individuals are not precluded from filing an application in their own right if there is substantial good cause. In the Board's view, highlighting the distinction between individual applications and credit union-sponsored applications in the final Second Chance IRPS may help encourage more individuals to apply for consent without sponsorship by a credit union. The NCUA also intends to publish in the near term an informational brochure to further educate the public about the Section 205(d) process and will highlight the two different application options.

Regional office for application submission. Additionally, the proposed IRPS clarified that the appropriate regional office for submission of a credit union-sponsored application is the program office that oversees the credit union (*i.e.*, the program office covering the state where the credit union's home office is located, or the Office of National Examinations and Supervision), and the appropriate regional office for an individual application and waiver of the credit union-sponsored filing requirement is the program office covering the state where the person resides.

One comment letter urged the NCUA to consider creating a central office to accept and review Section 205(d) consent applications and to be a resource to credit unions seeking to verify that covered individuals have received the Board's consent to work. The comment letter further suggested that this centralized office could be delegated the responsibility to only forward applications for Board review that significantly merit additional scrutiny.

Historically, the Board has received less than ten Section 205(d) consent applications on an annual basis. Given this relatively low volume, it is

unnecessary to establish a centralized office to process consent applications. The Board continues to maintain that the appropriate office for submission of a credit union-sponsored application is the program office that oversees the credit union, and the appropriate office for an individual application and waiver of the credit union-sponsored filing requirement is the program office covering the state where the person resides. Accordingly, the Board adopts these clarifications in the final IRPS.

Delegation of authority. The proposal requested public comment on whether delegating responsibility for reviewing certain applications could further streamline the application process and reduce burdens on credit unions and applicants.

One commenter was strongly supportive of delegating authority to regional directors to consider 205(d) consent applications, noting that such delegation will likely ensure a more timely response given the region's greater understanding of any relevant local factors or information that may be pertinent to the decision. The same commenter, however, recommended the Board establish a reasonable timeframe for the region's response so that applications are processed expeditiously. One comment letter agreed that delegating responsibility for reviewing certain applications would help streamline the process, but suggested responsibility should be delegated to a central office specifically created to accept and review Section 205(d) applications. A different commenter was not opposed to delegating the review of certain applications, but expressed concern that delegation to third-party entities could compromise sensitive credit union information. This commenter urged the agency to institute proper data security protocols, and requested additional information on the process of delegation, including efforts the NCUA will take to protect sensitive credit union and individual applicant data.

Upon review and careful consideration of the public comments, the Board has determined that in order to further streamline the application process it will delegate authority to program offices to process, review, and act upon credit union-sponsored consent applications. But the Board will retain authority to decide on individual applications, which tend to be more complex and fact-specific. Individual applications also require the Board's waiver of the institution filing requirement for substantial good cause and, typically, request a blanket waiver for the applicant to be employed or

participate in the conduct of the affairs of any insured credit union. These factors support the Board's retention of its authority to consider individual applications for Section 205(d) consent.

However, in delegating responsibility for reviewing credit union-sponsored applications, the Board wishes to assure stakeholders that the NCUA will make all reasonable efforts to duly secure all sensitive information it receives in connection with any consent application. Toward that end, the NCUA has conducted a Privacy Impact Assessment (PIA) on the Second Chance IRPS. Sensitive personally identifiable information (PII) is encrypted if shared intra-agency and data is stored on secured drives with restricted access. The Board does not anticipate that PII will generally be shared outside the agency, however, the NCUA's Office of Continuity and Security Management may conduct criminal background checks that may require contacting a federal, state, or local agency which maintains civil, criminal or other relevant enforcement information or other pertinent information relevant to the Board's decision on a Section 205(d) consent request.

E. Application Form

The proposed Second Chance IRPS also revised and updated the application form that is required to be used to submit a Section 205(d) consent request, "Application to Request Consent Pursuant to Section 205(d)," to reflect the proposed changes and to conform to current regulatory requirements. The Section 205(d) application form was also modified to more clearly delineate between the two types of applications (credit union-sponsored versus individual) and the supporting documentation required for each.

Stakeholders who commented on this aspect of the proposal were generally supportive of the proposed edits to the Section 205(d) application form. One commenter, however, noted some credit unions have found the current information requested to be lengthy and onerous to both the credit union and the covered individual, particularly in cases where background information is difficult to obtain from old criminal record systems. Another commenter urged the Board to go further in more expressly encouraging covered individuals to submit individual applications.

Upon review of the comments, the Board is adopting the improvements to the Section 205(d) application form in the final Second Chance IRPS. The revised application form will more

clearly delineate between the two application options, which will make it more user friendly and may encourage more applicants to file individual applications for blanket waivers.

While the Board recognizes it may be difficult to obtain older records pertaining to offenses that occurred long ago, it remains incumbent on the applicant to provide pertinent documentation to support the application in order for the NCUA to properly evaluate the merits of the consent request. The purpose of an application is to provide the applicant an opportunity to demonstrate that, notwithstanding the statutory employment restrictions under Section 205(d), the individual is fit to participate in the conduct of the affairs of an insured credit union without posing undue risks to its safety and soundness or impairing public confidence in the insured credit union. The Board maintains that the information requested on the application form is the minimum amount necessary for the agency to gain an understanding of the circumstances surrounding the conviction or program entry and to evaluate all the relevant factors and criteria the NCUA will consider in determining whether to grant consent. Finally, the Board reiterates that the burden remains upon the applicant to establish that the application warrants approval.

IV. Regulatory Procedures

A. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) generally requires the NCUA to prepare an analysis of any significant economic impact a regulation may have on a substantial number of small entities (those with less than \$100 million in assets).¹⁴ This final IRPS will provide regulatory relief by decreasing the number of covered offenses that will require an application to the Board. Accordingly, the NCUA certifies that final IRPS 19-1 will not have a significant economic impact on a substantial number of small credit unions.

B. Paperwork Reduction Act

The Paperwork Reduction Act of 1995 (PRA), 44 U.S.C. 3501 *et seq.*, requires that the Office of Management and Budget (OMB) approve all collections of information by a federal agency from the public before they can be implemented. Respondents are not required to respond to any collection of information unless it displays a valid OMB control number.

¹⁴ 5 U.S.C. 603(a).

In accordance with the PRA, the information collection requirements included in this final IRPS has been submitted to OMB for approval under control number 3133-0203.

C. Executive Order 13132

Executive Order 13132 encourages independent regulatory agencies to consider the impact of their actions on state and local interests.¹⁵ The NCUA, an independent regulatory agency, as defined in 44 U.S.C. 3502(5), voluntarily complies with the executive order to adhere to fundamental federalism principles. The final IRPS does not have a substantial direct effect on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. As such, the NCUA has determined that this IRPS does not constitute a policy that has federalism implications for purposes of the executive order.

D. Assessment of Federal Regulations and Policies on Families

The NCUA has determined that this final IRPS will not affect family well-being within the meaning of Section 654 of the Treasury and General Government Appropriations Act, 1999, Public Law 105-277, 112 Stat. 2681 (1998).

E. Small Business Regulatory Enforcement Fairness Act

The Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA)¹⁶ generally provides for congressional review of agency rules. A reporting requirement is triggered in instances where the NCUA issues a final rule as defined by section 551 of the Administrative Procedure Act.¹⁷ An agency rule, in addition to being subject to congressional oversight, may also be subject to a delayed effective date if the rule is a “major rule.” The NCUA does not believe this final IRPS is a “major rule” within the meaning of the relevant sections of SBREFA. As required by SBREFA, the NCUA submitted this final IRPS to OMB for it to determine if the final IRPS is a “major rule” for purposes of SBREFA. The OMB determined that the final IRPS is not major. The NCUA also will file appropriate reports with Congress and the Government Accountability Office so this rule may be reviewed.

Authority: 12 U.S.C. 1752a, 1756, 1766, 1785.

By the National Credit Union Administration Board, on November 21, 2019.

Gerard Poliquin,

Secretary of the Board.

Note: The following text will not appear in the Code of Federal Regulations.

Interpretive Ruling and Policy Statement 19-1; Exceptions to Employment Restrictions Under Section 205(d) of the Federal Credit Union Act (“Second Chance IRPS”)

I. Background

This Interpretive Ruling and Policy Statement (IRPS) provides requirements, direction, and guidance to federally insured credit unions (insured credit unions) and individuals regarding the prohibition imposed by operation of law by Section 205(d) of the Federal Credit Union Act (FCU Act), 12 U.S.C. 1785(d). Section 205(d)(1) provides that, except with the prior written consent of the National Credit Union Administration Board (Board), a person who has been convicted of any criminal offense involving dishonesty or breach of trust, or has agreed to enter into a pretrial diversion or similar program in connection with a prosecution for such offense may not:

- Become, or continue as, an institution-affiliated party with respect to any insured credit union; or
- Otherwise participate, directly or indirectly, in the conduct of the affairs of any insured credit union.

Section 205(d)(1)(B) further provides that an insured credit union may not allow any person described above to engage in any conduct or to continue any relationship prohibited by Section 205(d). The statute imposes a ten-year ban against the Board granting consent for a person convicted of certain crimes enumerated in Title 18 of the United States Code. In order for the Board to grant consent during the ten-year period, the Board must file a motion with, and obtain the approval of, the sentencing court. Finally, Section 205(d)(3) states that “whoever knowingly violates” (d)(1)(A) or (d)(1)(B) is committing a felony, punishable by up to five years in jail and a fine of up to \$1,000,000 a day.

This IRPS provides guidance to credit unions and individuals regarding who is subject to the prohibition provision of Section 205(d). The IRPS defines what offenses come within the prohibition provision of Section 205(d) and thus require an application for the Board’s consent to participate in the affairs of an insured credit union. The IRPS also identifies certain offenses that will be excluded from Section 205(d) and do

not require the Board’s consent. In order to assist those who may need the consent of the Board to participate in the affairs of an insured credit union, the IRPS explains the procedures to request such consent, specifies the application form that must be used, clarifies the duty imposed on credit unions by Section 205(d), and identifies the factors the Board will consider in deciding whether to provide such consent. Finally, the IRPS explains how an applicant may appeal a decision by the Board denying an application for its consent. This IRPS supersedes and replaces former IRPS 08-1.¹⁸

II. Policies and Procedures Regarding Prohibitions Imposed by Section 205(d)

A. Scope of Section 205(d) of the FCU Act

1. Persons Covered by Section 205(D)

Section 205(d) of the FCU Act applies to institution-affiliated parties, as defined by Section 206(r) of the FCU Act, 12 U.S.C. 1786(r), and others who are participants in the conduct of the affairs of a federally insured credit union. This IRPS applies only to insured credit unions, their institution-affiliated parties, and those participating in the affairs of an insured credit union.

Institution-affiliated parties.

Institution-affiliated parties include any committee member, director, officer, or employee of, or agent for, and insured credit union; any consultant, joint venture partner, and any other person as determined by the Board (by regulation or on a case-by-case basis) who participates in the conduct of the affairs of an insured credit union; or any independent contractor (including any attorney, appraiser, or accountant). Therefore, all officials, committee members and employees of an insured credit union fall within the scope of Section 205(d) of the FCU Act. Additionally, anyone the NCUA determines to be a *de facto* employee, applying generally applicable standards of employment law, will also be subject to Section 205(d). Typically, an independent contractor does not have a relationship with the insured credit union other than the activity for which the insured credit union has contracted. As a general rule, an independent contractor who influences or controls the management or affairs of an insured credit union, is covered by Section 205(d). In addition, a “person” for purposes of Section 205(d) means an individual, and does not include a corporation, firm or other business entity.

¹⁸ 73 FR 48399 (Aug. 19, 2008).

¹⁵ 64 FR 43255 (Aug. 4, 1999).

¹⁶ Public Law 104-121.

¹⁷ 5 U.S.C. 551.

Participants in the affairs of an insured credit union.

A person who does not meet the definition of institution-affiliated party is nevertheless prohibited by Section 205(d) if he or she is considered to be participating, directly or indirectly, in the conduct of the affairs of an insured credit union. Whether persons who are not institution-affiliated parties are covered depends upon their degree of influence or control over the management or affairs of an insured institution. Those who exercise major policymaking functions of an insured institution are deemed participants in the affairs of that institution and covered by Section 205(d). Participants in the affairs of a credit union is a term of art and is not capable of more precise definition. The NCUA does not define what constitutes participation in the conduct of the affairs of an insured credit union but will analyze each individual's conduct on a case-by-case basis and make a determination. Agency and court decisions will provide the guide as to what standards will be applied. As a general proposition, however, participation will depend upon the degree of influence or control over the management or affairs of the insured credit union. Those who exercise major policymaking functions at an insured credit union fall within this category.

2. Offenses Covered by Section 205(D)

Except as indicated in subsection 3, below, an application requesting the consent of the Board under Section 205(d) is required where any adult, or minor treated as an adult, has received a conviction by a court of competent jurisdiction for any criminal offense involving dishonesty or breach of trust (a covered offense), or where such person has entered a pretrial diversion or similar program regarding a covered offense. Before an application is considered by the Board, all of the sentencing requirements associated with a conviction or conditions imposed by the pretrial diversion or similar program, including but not limited to, imprisonment, fines, condition of rehabilitation, and probation requirements, must be completed, and the case must be considered final by the procedures of the applicable jurisdiction. The following definitions apply:

Conviction. There must be a conviction of record. Section 205(d) does not apply to arrests, pending cases not brought to trial, acquittals, or any conviction which has been reversed on appeal. A conviction with regard to which an appeal is pending will require

an application until or unless reversed. A conviction for which a pardon has been granted will require an application.

Pretrial diversion or similar program. A pretrial diversion program, whether formal or informal, is characterized by a suspension or eventual dismissal of charges or criminal prosecution upon agreement by the accused to treatment, rehabilitation, restitution, or other non-criminal or non-punitive alternatives. Whether a program constitutes a pretrial diversion is determined by relevant federal, state or local law, and, if not so designated under applicable law then the determination of whether it is a pretrial diversion or similar program will be made by the Board on a case-by-case basis.

Dishonesty or breach of trust. The conviction or entry into a pretrial diversion program must have been for a criminal offense involving dishonesty or breach of trust.

"Dishonesty" means directly or indirectly to cheat or defraud; to cheat or defraud for monetary gain or its equivalent; or wrongfully to take property belonging to another in violation of any criminal statute. Dishonesty includes acts involving want of integrity, lack of probity, or a disposition to distort, cheat, or act deceitfully or fraudulently, and may include crimes which federal, state or local laws define as dishonest.

"Breach of trust" means a wrongful act, use, misappropriation or omission with respect to any property or fund which has been committed to a person in a fiduciary or official capacity, or the misuse of one's official or fiduciary position to engage in a wrongful act, use, misappropriation or omission.

Whether a crime involves dishonesty or breach of trust will be determined from the statutory elements of the crime itself. All convictions or pretrial diversion program entries for offenses concerning the illegal manufacture, sale, distribution of or trafficking in controlled substances require an application for the Board's consent under Section 205(d) unless they fall within the provisions for the *de minimis* offenses set out below.

3. Offenses Not Covered by Section 205(D)

De minimis offenses.

In general. Approval is automatically granted and an application for the Board's consent under Section 205(d) will not be required where the covered offense is considered *de minimis*, because it meets all of the following criteria:

- There is only one conviction or entry into a pretrial diversion program of record for a covered offense;
- The offense was punishable by imprisonment for a term of one year or less and/or a fine of \$2,500 or less, and the individual served three (3) days or less of jail time. The Board considers jail time to include any significant restraint on an individual's freedom of movement which includes, as part of the restriction, confinement to a specific facility or building on a continuous basis where the person may leave temporarily only to perform specific functions or during specified time periods or both. However, this definition is not intended to include those on probation or parole who may be restricted to a particular jurisdiction, or who must report occasionally to an individual or to a specified location;
- The conviction or pretrial diversion program was entered at least five years prior to the date an application would otherwise be required;
- The offense did not involve a depository institution or credit union; and
- The Board or any other federal financial institution regulatory agency has not previously denied consent under Section 205(d) of the FCU Act or Section 19 of the FDIA, respectively, for the same conviction or participation in a pretrial diversion program.

Additional applications of the de minimis offenses exception to filing.

Age at time of covered offense. If the actions that resulted in a covered conviction or pretrial diversion program entry of record all occur when the individual was 21 years of age or younger, then the subsequent conviction or program entry, that otherwise meets the general *de minimis* criteria above will be considered *de minimis* if the conviction or program entry was entered at least 30 months prior to the date an application would otherwise be required and all sentencing or program requirements have been met.

Convictions or program entries for insufficient funds checks. Convictions or pretrial diversion program entries of record based on the writing of "bad" or insufficient funds check(s) will be considered a *de minimis* offense and will not be considered as having involved a depository institution or credit union if the all of the following applies:

- Other than for "bad" or insufficient funds check(s), there is no other conviction or pretrial diversion program entry subject to Section 205(d) and the aggregate total face value of all "bad" or insufficient funds check(s) cited across all the conviction(s) or program entry or

entries for bad or insufficient checks is \$1,000 or less and;

- No depository institution or credit union was a payee on any of the “bad” or insufficient funds checks that were the basis of the conviction(s) or program entry or entries.

Convictions or program entries for small-dollar, simple theft. A conviction or pretrial diversion program entry based on a simple theft of goods, services and/or currency (or other monetary instrument) where the aggregate value of the currency, goods, and/or services taken was \$500 or less at the time of conviction or program entry, where the person has no other conviction or program entry described in Section 205(d), and where it has been five years since the conviction or program entry (or 30 months in the case of a person 21 years or younger at the time of the conviction or program entry) and which does not involve a depository institution or credit union is considered *de minimis*. Simple theft excludes burglary, forgery, robbery, identity theft, and fraud.

Convictions or program entries for the use of a fake, false, or altered identification card. The use of a fake, false, or altered identification card used by a person under the legal age for the purpose of obtaining or purchasing alcohol, or used for the purpose of entering a premises where alcohol is served but for which age appropriate identification is required, provided that there is no other conviction or pretrial diversion program entry for the covered offense, will be considered *de minimis*.

Convictions or program entries for simple misdemeanor drug possession. A conviction or pretrial diversion program entry based on simple drug possession or illegal possession of a controlled substance where the offense was classified as a misdemeanor at the time of conviction or program entry, where the person has no other conviction or program entry described in Section 205(d), and where it has been five years since the conviction or program entry (or 30 months in the case of a person 21 years or younger at the time of the conviction or program entry) and which does not involve the illegal distribution (including an intent to distribute), sale, trafficking, or manufacture of a controlled substance or other related offense is considered *de minimis*. Simple possession excludes intent to distribute, illegal distribution, illegal sale or trafficking of a controlled substance, or illegal manufacture of a controlled substance.

Any person who meets all of the foregoing *de minimis* criteria must be covered by a fidelity bond to the same

extent as other employees in similar positions. An insured credit union may not allow any person to participate in its affairs, even if that person has a conviction for what would constitute a *de minimis* covered offense, if the person cannot obtain required fidelity bond coverage.

Any person who meets all the foregoing criteria for a *de minimis* offense must disclose the presence of the conviction or pretrial diversion program entry to all insured credit unions or other insured institutions in the affairs of which he or she intends to participate.

Further, no conviction or pretrial diversion program entry for a violation of the Title 18 sections set out in 12 U.S.C. 1785(d)(2) can qualify under any of the *de minimis* exceptions to filing set out above.

Youthful offender adjudgments. An adjudgment by a court against a person as a “youthful offender” under any youth offender law, or any adjudgment as a “juvenile delinquent” by any court having jurisdiction over minors as defined by state law does not require an application for the Board’s consent. Such adjudgments are not considered convictions for criminal offenses. Such adjudgments do not constitute a matter covered under Section 205(d) and is not an offense or program entry for determining the applicability of the *de minimis* offenses exception to the filing of an application.

Expunged convictions. A conviction that has been completely expunged is not considered a conviction of record and will not require an application for the Board’s consent under Section 205(d). If an order of expungement has been issued in regard to a conviction or pretrial diversion program entry and is intended by the language in the order itself, or in the legislative provisions under which the order was issued, to be a complete expungement, then the jurisdiction, either in the order or the underlying legislative provisions, cannot allow the conviction or program entry to be used for any subsequent purpose including, but not limited to, an evaluation of a person’s fitness or character. The failure to destroy or seal the records will not prevent the expungement from being considered complete for the purposes of Section 205(d) in such a case. Expungements of pretrial diversion or similar program entries will be treated the same as those for convictions. Convictions that are set aside or reversed after the applicant has competed sentencing will be treated consistent with pretrial diversions or similar programs unless the court records reflect that the underlying

conviction was set aside based on a finding on the merits that such conviction was wrongful.

B. Duty Imposed on Credit Unions

Insured credit unions are responsible for establishing their own internal employment policies and have discretion to make hiring decisions, consistent with applicable law, that best suit their own individual needs and risk tolerance. However, Section 205(d) imposes a duty upon every insured credit union to make a reasonable inquiry regarding the history of every applicant for employment. The NCUA maintains that inquiry should consist of taking steps appropriate under the circumstances, consistent with applicable law, to avoid hiring or permitting participation in its affairs by a person who has a conviction or entry into a pretrial diversion program for a covered offense. At a minimum, each insured credit union should establish a screening process which provides the insured credit union with information concerning any convictions or pretrial diversion programs pertaining to a job applicant. This includes, for example, the completion of a written employment application which requires a listing of all convictions and pretrial diversion program entries.¹⁹ When the credit union learns that a prospective employee has a prior conviction or entered into a pretrial diversion program for a covered offense, the credit union should document in its files that an application is not required because the covered offense is considered *de minimis* and meets all of the criteria for the exception, or submit an application requesting the Board’s consent under Section 205(d) prior to hiring the person or otherwise permitting him or her to participate in its affairs. In the alternative, for the purposes of Section 205(d), a credit union may extend a conditional offer of employment contingent on the completion of a background check satisfactory to the credit union and to determine if the applicant is barred by Section 205(d). In such a case, the job applicant may not commence work for or be employed by the credit union until such time that the applicant is determined to not be barred under Section 205(d).

If an insured credit union discovers that an employee, official, or anyone

¹⁹ Consistent with applicable law, an insured credit union may establish its own procedures to make conviction history inquiries at any stage of its choosing in its hiring process, so long as applicants do not commence work for or be employed by the credit union until the applicant is determined to not be barred under Section 205(d) or receives consent from the Board.

else who is an institution-affiliated party or who participates, directly or indirectly, in its affairs, is in violation of Section 205(d), the credit union must immediately place that person on a temporary leave of absence from the credit union and file an application seeking the Board's consent under Section 205(d). The person must remain on such temporary leave of absence until such time as the Board has acted on the application. When the NCUA learns that an institution-affiliated party or a person participating in the affairs of an insured credit union should have received the Board's consent under Section 205(d) but did not, the NCUA will look at the circumstances of each situation to determine whether the inquiry made by the credit union was reasonable under the circumstances.

C. Procedures for Requesting the NCUA Board's Consent Under Section 205(d)

Section 205(d) of the FCU Act serves, by operation of law, as a statutory bar to participation in the affairs of an insured credit union, absent the written consent of the Board. When an application for the Board's consent under Section 205(d) is required, the insured credit union must file a written application using the attached form with the appropriate NCUA regional office. The purpose of an application is to provide the applicant an opportunity to demonstrate that, notwithstanding the bar, the person is fit to participate in the conduct of the affairs of an insured credit union without posing a risk to its safety and soundness or impairing public confidence in that institution. Such an application should thoroughly explain the circumstances surrounding the conviction or pretrial diversion program. The applicant may also address the relevant factors and criteria the Board will consider in determining whether to grant consent, specified below. The burden is upon the applicant to establish that the application warrants approval.

The application must be filed by an insured credit union on behalf of a person (credit union-sponsored application) unless the Board grants a waiver of that requirement and allows the person to file an application in their own right (individual application). Such waivers will be considered on a case-by-case basis where substantial good cause for granting a waiver is shown. The appropriate regional office for a credit union-sponsored application is the program office that oversees the credit union (*i.e.*, the program office covering the state where the credit union's home office is located, or the Office of National Examinations and

Supervision). The appropriate regional office for an individual filing for waiver of the credit union-sponsored filing requirement is the program office covering the state where the person resides.

When an application is not required because the covered offense is considered *de minimis*, the credit union should document in its files and be prepared to demonstrate that the covered offense meets the *de minimis* criteria enumerated above.

D. Evaluation of Section 205(d) Applications

The essential criteria in assessing an application for consent under Section 205(d) are whether the person has demonstrated his or her fitness to participate in the conduct of the affairs of an insured credit union, and whether the employment, affiliation, or participation by the person in the conduct of the affairs of the insured credit union may constitute a threat to the safety and soundness of the institution or the interests of its members or threaten to impair public confidence in the insured credit union.

In evaluating an application, the Board will consider:

1. The conviction or pretrial diversion program entry and the specific nature and circumstances of the covered offense;
2. Evidence of rehabilitation, including the person's reputation since the conviction or pretrial diversion program entry, the person's age at the time of conviction or program entry, and the time which has elapsed since the conviction or program entry;
3. Whether participation, directly or indirectly, by the person in any manner in the conduct of the affairs of the insured credit union constitutes a threat to the safety or soundness of the insured credit union or the interest of its members, or threatens to impair public confidence in the insured credit union;
4. The position to be held or the level of participation by the person at the insured credit union;
5. The amount of influence and control the person will be able to exercise over the management or affairs of the insured credit union;
6. The ability of management of the insured credit union to supervise and control the person's activities;
7. The applicability of the insured institution's fidelity bond coverage to the person;
8. For state-chartered, federally insured credit unions, the opinion or position of the state regulator; and
9. Any additional factors in the specific case that appear relevant.

The foregoing criteria will also be applied by the Board to determine whether the interests of justice are served in seeking an exception in the appropriate court when an application is made to terminate the ten-year ban for certain enumerated offenses in violation of Title 18 of the United States Code prior to its expiration date. The NCUA believes such requests will be extremely rare and will be made only upon a showing of compelling reasons.

Some applications can be approved without an extensive review because the person will not be in a position to present any substantial risk to the safety and soundness of the insured credit union. Persons who will occupy clerical, maintenance, service or purely administrative positions generally fall into this category. A more detailed analysis will be performed in the case of persons who will be in a position to influence or control the management or affairs of the insured credit union. Approval by the Board will be subject to the condition that the person shall be covered by a fidelity bond to the same extent as others in similar positions.

In cases in which the Board has granted a waiver of the credit union-sponsored filing requirement to allow a person to file an application in their own right, approval of the application will be conditioned upon that person disclosing the presence of the conviction(s) or program entry or entries to all insured credit unions or insured depository institutions in the affairs of which he or she wishes to participate. When deemed appropriate, credit union-sponsored applications are to allow the person to work in a specific job at a specific credit union and may also be subject to the condition that the prior consent of the Board will be required for any proposed significant changes in the person's duties and/or responsibilities. Such proposed changes may, in the discretion of the appropriate Regional Director, require a new application for the Board's consent. When approval has been granted for a person to participate in the affairs of a particular insured credit union and subsequently that person seeks to participate in the affairs of another insured credit union, approval does not automatically follow. In such cases, another application must be submitted. Moreover, any person who has received consent from the Board under Section 205(d) and subsequently wishes to become an institution-affiliated party or participate in the affairs of an FDIC-insured institution, he or she must obtain the prior approval of the FDIC pursuant to Section 19 of the FDIA.

E. Right To Request a Hearing Following the Denial of an Application Under Section 205(d)

If a consent application is denied under Section 205(d), the insured credit

union (or, in the case where a good-cause waiver has been granted, the individual that submitted the application) may request a hearing by submitting a written request within 30 days following the date of notification of

the denial. The Board will apply the process contained in regulations governing prohibitions based on felony convictions, found at 12 CFR part 747, to any request for a hearing.

BILLING CODE 7535-01-P

OMB No. 3133-0203

NATIONAL CREDIT UNION ADMINISTRATION

APPLICATION TO REQUEST CONSENT PURSUANT TO SECTION 205(d)

The estimated average public reporting burden associated with this information collection is 3 hours per response. Comments concerning the accuracy of this burden estimate and or any other aspect of this information collection, including suggestions for reducing this burden should be address to the National Credit Union Administration, ATTN: NCUA PRA Clearance Officer, 1775 Duke Street, Alexandria, Virginia 22314. An agency may not conduct or sponsor, and a person is not required to respond to, an information collection unless it displays a valid OMB control number.

Section 205(d)(1) of the Federal Credit Union Act, 12 U.S.C. §1785(d)(1), provides that, except with the prior written consent of the National Credit Union Administration Board (Board), a person who has been convicted of any criminal offense involving dishonesty or breach of trust, or has agreed to enter into a pretrial diversion or similar program in connection with a prosecution for such offense may not become, or continue as an institution-affiliated party with respect to any insured credit union; or otherwise participate, directly or indirectly, in the conduct of the affairs of any insured credit union.

Section 205(d)(1)(B) further provides that an insured credit union may not allow any person described above to engage in any conduct or to continue any relationship prohibited by Section 205(d). Section 205(d)(3) states that “whoever knowingly violates” (d)(1)(A) or (d)(1)(B) is committing a felony, punishable by up to five years in jail and a fine of up to \$1,000,000 a day. The statute also prescribes a minimum ten-year prohibition period for certain offenses.

The Board issued Interpretive Ruling and Policy Statement (IRPS) 19-1, entitled *Exceptions to Employment Restrictions under Section 205(d) of the Federal Credit Union Act (“Second Chance IRPS”)*, to assist credit unions and individuals in requesting the Board’s consent pursuant to Section 205(d). IPRS 19-1 is available on the NCUA’s website at <https://www.ncua.gov/regulation-supervision/rules-regulations/interpretive-rulings-policy-statements>, by contacting the Office of General Counsel at 703-518-6540 or OGCmail@ncua.gov or from any NCUA Regional Office.

All requests for the Board’s consent pursuant to Section 205(d) should be submitted using the attached form. Please consult IRPS 19-1 prior to completing the attached application, as not all criminal convictions require an application to be submitted. IRPS 19-1 also lists the factors the Board will consider when evaluating any application for consent.

Any questions regarding the process to request the Board’s consent pursuant to Section 205(d), including whether an application is required, may be directed to the Office of General Counsel at 703-518-6540 or OGCmail@ncua.gov.

Completed application should be sent to the appropriate NCUA Regional Office or other program office.

NATIONAL CREDIT UNION ADMINISTRATION
APPLICATION TO REQUEST CONSENT PURSUANT TO SECTION 205(d)

SECTION A – APPLICANT INFORMATION

1. Applicant: Credit union-sponsored Individual

Generally, an application must be filed by an insured credit union on behalf of a person. If the applicant is an individual, please explain why there is substantial good cause for the NCUA Board to grant a waiver of the institution filing requirement.

2. Applicant Name:

3. Date of Application:

4. Address of Applicant (Street, City, County, State, and Zip Code):

I/We have, in connection with preparing this Application, read Section 205(d)(1) & (3) of the Federal Credit Union Act, 12 U.S.C. §1785(d)(1) & (3), which governs requests by insured credit unions for the consent of the National Credit Union Administration Board for a person who has been convicted of a crime involving dishonesty or breach of trust, or who has agreed to enter into a pretrial diversion or similar program in connection with a prosecution for such offense, to become or continue as an institution-affiliated party, or otherwise participate, directly or indirectly, in the conduct of the affairs of an insured credit union.

In support of this Application, the following statements, representations and information are submitted for the purpose of inducing the National Credit Union Administration Board to grant its written consent to the person identified below (the prohibited person), who has been convicted of a crime involving dishonesty or breach of trust or has agreed to enter into a pretrial diversion or similar program in connection with a prosecution for such offense, to become or continue as an institution-affiliated party, or otherwise participate, directly or indirectly, in the conduct of the affairs of this credit union. **NOTE:** the Biographical Information Concerning the Prohibited Person (Section B) and Information Relative to the Prohibited Person's Convictions (Section C) should be completed by the prohibited person.

SECTION B – BIOGRAPHICAL INFORMATION CONCERNING THE PROHIBITED PERSON

1. Name of Prohibited Person:

2. Address of Prohibited Person (Street, City, County, State, and Zip Code):

3. Date of Birth (Month, Day, Year):

4. Place of Birth (City, State, and Country):

5. Social Security Number (See Privacy Act Statement on page 4):

6. Name and Address of Present of Most Recent Employer (Street, City, County, State, and Zip Code):

SECTION C – INFORMATION RELATIVE TO THE PROHIBITED PERSON’S CONVICTIONS

1. Description or Nature of Crime:

a. Date of Conviction:

b. Name and Address of Court:

c. Disposition of the Charges:

NOTE: Additional conviction(s) or program entry or entries for a crime involving dishonesty or breach of trust discovered subsequent to approval of this Application will require the submission of another application.

2. Briefly describe the nature of the offense and the circumstances surrounding it. Include age of the prohibited person at the time of conviction, date of the offense, and any mitigating circumstances (parole, suspension of sentence, pardon, etc.). Attach additional pages if necessary.

3. Briefly describe the extent of rehabilitation the prohibited person completed (attach supporting documents, if any).

4. Attach documentation of the Indictment, Information, or Complaint and Final Decree of Judgment, if available (Normally these can be obtained from the clerk of court of the relevant jurisdiction. If not provided, explain reasons for unavailability).

5. List any other pertinent facts relative to the crime which are not disclosed in the indictment or other court documents. Attach additional pages if necessary.

I do hereby certify that the Biographical Information Concerning the Prohibited Person (Section B) and Information Relative to the Prohibited Person's Convictions (Section C) are true and correct to the best of my knowledge and belief.

SIGNATURE OF THE PROHIBITED PERSON

DATE SIGNED

PRIVACY ACT NOTICE

Authority: 12 U.S.C. § 1785(d) ("Section 205(d)")

Purpose: The NCUA will use the information provided on this form to evaluate your application for the NCUA Board's consent to allow you to become or continue as an institution-affiliated party, or otherwise participate, directly or indirectly, in the conduct of the affairs of an insured credit union.

Routine Uses: This form may be disclosed to render legal advice, as part of judicial or administrative proceedings, to appropriate Federal or State credit union regulatory agencies and law enforcement or other governmental agencies if relevant to processing or necessary for administrative reasons or otherwise. A complete list of Routine Uses is available at www.ncua.gov/privacy.

Effects of Not Providing Information: Failure to complete this form or omission of any item of information, except for disclosure of your social security number, may result in a delay in the processing of this application. In accordance with Section 792.68 of NCUA's regulations, you are not required to furnish your social security number on this form. Your social security number, if voluntarily provided, will be used to more easily verify the information required by this form.

DEPARTMENT OF HOMELAND SECURITY**Federal Emergency Management Agency****44 CFR Part 64**

[Docket ID FEMA-2019-0003; Internal Agency Docket No. FEMA-8607]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: This rule identifies communities where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP) that are scheduled for suspension on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency (FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will not occur and a notice of this will be provided by publication in the **Federal Register** on a subsequent date. Also, information identifying the current participation status of a community can be obtained from FEMA's Community Status Book (CSB). The CSB is available at <https://www.fema.gov/national-flood-insurance-program-community-status-book>.

DATES: Effective Dates: The effective date of each community's scheduled suspension is the third date ("Susp.") listed in the third column of the following tables.

FOR FURTHER INFORMATION CONTACT: If you want to determine whether a particular community was suspended on the suspension date or for further information, contact Adrienne L. Sheldon, PE, CFM, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 400 C Street SW, Washington, DC 20472, (202) 212-3966.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase Federal flood insurance that is not otherwise generally available from private insurers. In return, communities agree to adopt and administer local floodplain management measures aimed at protecting lives and new construction

from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits the sale of NFIP flood insurance unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed in this document no longer meet that statutory requirement for compliance with program regulations, 44 CFR part 59. Accordingly, the communities will be suspended on the effective date in the third column. As of that date, flood insurance will no longer be available in the community. We recognize that some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities will not be suspended and will continue to be eligible for the sale of NFIP flood insurance. A notice withdrawing the suspension of such communities will be published in the **Federal Register**.

In addition, FEMA publishes a Flood Insurance Rate Map (FIRM) that identifies the Special Flood Hazard Areas (SFHAs) in these communities. The date of the FIRM, if one has been published, is indicated in the fourth column of the table. No direct Federal financial assistance (except assistance pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act not in connection with a flood) may be provided for construction or acquisition of buildings in identified SFHAs for communities not participating in the NFIP and identified for more than a year on FEMA's initial FIRM for the community as having flood-prone areas (section 202(a) of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4106(a), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column. The Administrator finds that notice and public comment procedures under 5 U.S.C. 553(b), are impracticable and unnecessary because communities listed in this final rule have been adequately notified.

Each community receives 6-month, 90-day, and 30-day notification letters addressed to the Chief Executive Officer stating that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension

date. Since these notifications were made, this final rule may take effect within less than 30 days.

National Environmental Policy Act. FEMA has determined that the community suspension(s) included in this rule is a non-discretionary action and therefore the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*) does not apply.

Regulatory Flexibility Act. The Administrator has determined that this rule is exempt from the requirements of the Regulatory Flexibility Act because the National Flood Insurance Act of 1968, as amended, Section 1315, 42 U.S.C. 4022, prohibits flood insurance coverage unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed no longer comply with the statutory requirements, and after the effective date, flood insurance will no longer be available in the communities unless remedial action takes place.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

Paperwork Reduction Act. This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

List of Subjects in 44 CFR Part 64

Flood insurance, Floodplains.

Accordingly, 44 CFR part 64 is amended as follows:

PART 64—[AMENDED]

■ 1. The authority citation for Part 64 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp.; p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp.; p. 376.

§ 64.6 [Amended]

■ 2. The tables published under the authority of § 64.6 are amended as follows:

| State and location | Community No. | Effective date authorization/cancellation of sale of flood insurance in community | Current effective map date | Date certain Federal assistance no longer available in SFHAs |

BILLING CODE 9110–12–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 660

[Docket No. 191125–0091]

RIN 0648–BI67

Magnuson-Stevens Act Provisions; Fisheries Off West Coast States; Pacific Coast Groundfish Fishery; Annual Specifications and Management Measures for the 2019 Tribal and Non-Tribal Fisheries for Pacific Whiting, and Requirement To Consider Chinook Salmon Bycatch Before Reapportioning Tribal Whiting; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; correcting amendment.

SUMMARY: This action contains a correction to the final rule published on May 10, 2019, to establish the harvest specifications and management measures for the 2019 Pacific whiting

fishery under the authority of the Pacific Coast Groundfish Fishery Management Plan, the Magnuson-Stevens Fishery Conservation and Management Act, and the Pacific Whiting Act of 2006. This action restores language inadvertently omitted from the final rule that explains that NMFS will consider Chinook salmon bycatch and bycatch rates prior to reapportionment of the tribal Pacific whiting allocation. These corrections are necessary to restore this language so that the regulations accurately implement the National Marine Fisheries Service’s intent, as described in the preamble to the final rule.

DATES: Effective December 2, 2019.

FOR FURTHER INFORMATION CONTACT: Stacey Miller (West Coast Region, NMFS), phone: 503–231–6290, and email: *Stacey.Miller@noaa.gov*.

SUPPLEMENTARY INFORMATION: NMFS published a final rule on May 10, 2019 (84 FR 20578), that implemented the 2019 harvest specifications and management measures for Pacific whiting harvested in the U.S. exclusive economic zone off the coasts of Washington, Oregon and California. The final rule inadvertently omitted regulatory language explaining that NMFS will consider the level of Chinook bycatch and bycatch rates prior to determining reapportionment of the treaty tribes’ whiting to the non-treaty sectors. This action is required under Terms of Conditions 2.c. of the 2017 ESA section 7(a)(2) biological opinion on the effects of the Pacific Coast Groundfish Fishery Management Plan on salmonids. The proposed rule (84 FR 9471) published on March 15, 2019,

contained this language and the preamble and response to comment in the final rule discussed the reconsideration in detail. This correction action restores the inadvertently omitted regulatory text.

This correction is consistent with NMFS action for the 2019 Pacific whiting harvest specifications and is a minor correction to correctly implement NMFS intent in their final action taken in May 2019.

Classification

Pursuant to 5 U.S.C. 553(b)(B), the Assistant Administrator for Fisheries (AA) finds there is good cause to waive prior notice and an opportunity for additional public comment on this action, as notice and comment would be unnecessary and contrary to public interest. Providing prior notice and the opportunity for additional public comment is unnecessary because the public received notice and an opportunity to comment on the proposed rule (84 FR 9471), including this regulatory text. This correcting amendment reinstates the regulatory text that was inadvertently omitted from the final rule that published on May 10, 2019 (84 FR 20578). If the rule was delayed to allow for prior notice and an additional opportunity for public comment, it would cause confusion because the public and fishery participants believe that the omitted text is already included in the regulations. Additionally, public comment and notice would be contrary to the public interest because immediate correction of the error is necessary to manage the Pacific whiting stock to optimal yield,

ensure that the Pacific Coast Groundfish Fishery Management Plan (FMP) is implemented in a manner consistent with treaty rights of treaty tribes to fish for Pacific whiting in their “usual and accustomed grounds and stations” in common with non-tribal citizens, and protect salmon stocks listed under the Endangered Species Act. To effectively correct the error, the change in this action must be effective upon publication as the fishery has already begun. The correction will not affect the results of analyses conducted to support management decisions in the Pacific whiting fishery. The correction is consistent with NMFS’ intent for regulations and the public expects the regulations to be written as in the correction. No change in operating practices in the fishery is required.

For the same reasons stated above, the AA has determined good cause exists to waive the 30-day delay in effectiveness pursuant to 5 U.S.C. 553(d). This notice only makes a minor correction to the final rule, which was effective May 10, 2019. Delaying effectiveness of this correction would result in conflicts in the regulations and confusion among fishery participants.

Because prior notice and an opportunity for public comment are not required to be provided for this rule by 5 U.S.C. 553, or any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are not applicable. Accordingly, no Regulatory Flexibility Analysis is required for this rule and none has been prepared.

This final rule is not significant under Executive Order 12866. This final rule was developed after meaningful consultation with the tribal representative on the Council who has agreed with the provisions that apply to tribal vessels.

List of Subjects in 50 CFR Part 660

Fisheries, Fishing, and Indian Fisheries.

Dated: November 25, 2019.

Samuel D. Rauch III,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

For the reasons set out in the preamble, 50 CFR part 660 is corrected as follows:

PART 660—FISHERIES OFF WEST COAST STATES

■ 1. The authority citation for 50 CFR part 660 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*, 16 U.S.C. 773 *et seq.*, and 16 U.S.C. 7001 *et seq.*

■ 2. Amend § 660.131 by revising paragraph (h)(4) and adding paragraph (h)(5) to read as follows:

§ 660.131 Pacific whiting fishery management measures.

* * * * *

(h) * * *

(4) Estimates of the portion of the tribal allocation that will not be used by the end of the fishing year will be based on the best information available to the Regional Administrator.

(i) Salmon bycatch. This fishery may be closed through automatic action at § 660.60(d)(1)(v) and (vi).

(ii) [Reserved]

(5) Prior to reapportionment, NMFS will consider Chinook salmon take numbers and bycatch rates in each sector of the Pacific whiting fishery, in order to prevent a reapportionment that would limit Pacific Coast treaty Indian Tribes’ access to the tribal allocation by triggering inseason closure of the Pacific whiting fishery as described at § 660.60(d)(1)(v).

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 660

[Docket No. 191125–0089]

RIN 0648–BJ22

Fisheries Off West Coast States; Coastal Pelagic Species Fisheries; Biennial Specifications

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: Through this final rule, NMFS is implementing allowable catch levels, an overfishing limit, an allowable biological catch, and an annual catch limit for Pacific mackerel in the U.S. exclusive economic zone off the West Coast (California, Oregon and Washington) for the fishing seasons 2019–2020 and 2020–2021, pursuant to the Coastal Pelagic Species Fishery Management Plan. The harvest guideline and annual catch target for the 2019–2020 fishing season are 11,109 metric tons (mt) and 10,109 mt, respectively. The harvest guideline and annual catch target for the 2020–2021 fishing season are 7,950 mt and 6,950 mt, respectively. If the fishery attains

the annual catch target in either fishing season, the directed fishery will close, reserving the 1,000-mt difference between the harvest guideline and annual catch target as a set-aside for incidental landings in other Coastal Pelagic Species fisheries and other sources of mortality. This rule is intended to conserve and manage the Pacific mackerel stock off the U.S. West Coast.

DATES: Effective January 2, 2020.

ADDRESSES: Copies of the report, “Pacific Mackerel Stock Assessment for U.S. Management in 2019–2020 and 2020–2021” may be obtained from the Long Beach NMFS office or viewed at the following website: https://www.pcouncil.org/wpcontent/uploads/2019/05/F3_Att1_Mackerel_Stock_Assessment_Full_Electric_Only_Jun2019BB.pdf.

FOR FURTHER INFORMATION CONTACT:

Lynn Massey, West Coast Region, NMFS, Lynn.Massey@noaa.gov.

SUPPLEMENTARY INFORMATION: Under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1801 *et seq.*, NMFS manages the Pacific mackerel fishery in the U.S. exclusive economic zone (EEZ) off the West Coast in accordance with the Coastal Pelagic Species (CPS) Fishery Management Plan (FMP). The CPS FMP and its implementing regulations require NMFS to set annual harvest specifications for the Pacific mackerel fishery based on the annual specification framework and control rules in the FMP. The control rules in the CPS FMP include the harvest guideline (HG) control rule, which in conjunction with the overfishing limit (OFL) and acceptable biological catch (ABC) rules, are used to manage harvest levels for Pacific mackerel. According to the FMP, the quota for the principal commercial fishery, the HG, is determined using the FMP-specified HG formula. The HG is based, in large part, on the current estimate of stock biomass. The biomass estimate is an explicit part of the various harvest control rules for Pacific mackerel, and as the estimated biomass decreases or increases from one year to the next, the resulting allowable catch levels similarly trend. More information on the Pacific Fishery Management Council’s (Council) process for developing Pacific mackerel harvest specifications and more detail on the HG control rule are provided in the proposed rule for this action (August 23, 2019, 84 FR 44272) and are not repeated here.

The purpose of this final rule is to implement these harvest specifications,

which include allowable harvest levels (*i.e.*, annual catch target (ACT) and HG), an annual catch limit (ACL), and annual catch reference points (*i.e.*, OFL and ABC). The uncertainty surrounding the current biomass estimates for Pacific mackerel for the 2019–2020 and 2020–2021 fishing seasons was taken into consideration in the development of these harvest specifications. The Pacific mackerel fishing season runs from July 1 to June 30. Any Pacific mackerel harvested between July 1, 2019, and the effective date of the final rule would count toward the 2019–2020 ACT and HG.

The Council has recommended, and NMFS is implementing, Pacific mackerel harvest specifications for both the 2019–2020 and 2020–2021 fishing seasons. For the 2019–2020 Pacific mackerel fishing season these include an OFL of 14,931 mt, an ABC and ACL of 13,169 mt, a HG of 11,109 mt, and an annual ACT of 10,109 mt. For the 2020–2021 Pacific mackerel fishing season these include an OFL of 11,772 mt, and ABC and ACL of 10,289 mt, a HG of 7,950 mt, and an ACT of 6,950 mt. These catch specifications are based on the control rules established in the CPS FMP and biomass estimates of 71,099 mt (2019–2020) and 56,058 mt (2020–2021). The biomass estimates are the result of a full stock assessment the NMFS SWFSC completed in June 2019 (see **ADDRESSES**). The Council's SSC and the Council approved this stock assessment as the best scientific information available for management at the June 2019 Council meeting.

Under this action, in the unlikely event that catch reaches the ACT in either fishing season, directed fishing would close, reserving the difference between the HG and ACT (1,000 mt) as a set-aside for incidental landings in other fisheries and other sources of mortality.¹ For the remainder of the fishing season, incidental landings in CPS fisheries would be constrained to a 45-percent incidental catch allowance (in other words, no more than 45 percent by weight of the CPS landed per trip may be Pacific mackerel); in non-CPS fisheries, up to 3 mt of Pacific mackerel may be landed incidentally per fishing trip. The incidental set-aside is intended to allow continued operation of fisheries for other stocks, particularly other CPS stocks that may school with Pacific mackerel.

The NMFS West Coast Regional Administrator will publish a notice in the **Federal Register** announcing the

date of any closure of directed fishing (when harvest levels reach or exceed the ACT). Additionally, to ensure the regulated community is informed of any closure, NMFS will also make announcements through other means available, including email to fishermen, processors, and state fishery management agencies.

On August 23, 2019, NMFS published a proposed rule in the **Federal Register** (84 FR 44272) soliciting public comments through September 23, 2019. NMFS received two comments from private citizens in support of the proposed rule. This final rule contains no changes from the proposed rule.

Classification

Pursuant to section 304(b)(1)(A) of the Magnuson-Stevens Act, the NMFS Assistant Administrator has determined that this rule is consistent with the CPS FMP, other provisions of the Magnuson-Stevens Act, and other applicable law, subject to further consideration after public comment.

Pursuant to the procedures established to implement Executive Order 12866, the Office of Management and Budget has determined that this final rule is not significant.

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration during the proposed rule stage that this action would not have a significant economic impact on a substantial number of small entities. The factual basis for the certification was published in the proposed rule and is not repeated here. No comments were received regarding this certification. As a result, a regulatory flexibility analysis was not required and none was prepared.

This action does not contain a collection-of-information requirement for purposes of the Paperwork Reduction Act.

List of Subjects in 50 CFR Part 660

Fisheries, Fishing, Reporting and recordkeeping requirements.

Dated: November 25, 2019.

Samuel D. Rauch III,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

For the reasons set out in the preamble, 50 CFR part 660 is amended as follows:

PART 660—FISHERIES OFF WEST COAST STATES

■ 1. The authority citation for part 660 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*, 16 U.S.C. 773 *et seq.*, and 16 U.S.C. 7001 *et seq.*

■ 2. In § 660.511, add paragraphs (i) and (j) to read as follows:

§ 660.511 Catch restrictions.

* * * * *

(i) The following harvest specifications apply for Pacific mackerel:

(1) For the Pacific mackerel fishing season July 1, 2019, through June 30, 2020, the harvest guideline is 11,109 mt and the ACT is 10,109 mt; and

(2) For the Pacific mackerel fishing season July 1, 2020, through June 30, 2021, the harvest guideline is 7,950 mt and the ACT of 6,950 mt.

(j) When an ACT in paragraph (i) of this section has been reached or exceeded, then for the remainder of the Pacific mackerel fishing season, Pacific mackerel may not be targeted and landings of Pacific mackerel may not exceed: 45 percent of landings when Pacific mackerel are landed in CPS fisheries (in other words, no more than 45 percent by weight of the CPS landed per trip may be Pacific mackerel), or up to 3 mt of Pacific mackerel when landed in non-CPS fisheries. The Regional Administrator shall announce in the **Federal Register** the date that an ACT is reached or exceeded, and the date and time that the restrictions described in this paragraph go into effect.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 180713633-9174-02; RTID 0648-XY056]

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Bering Sea Subarea of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific ocean perch in the Bering Sea subarea of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2019 Pacific

¹Directed fishing for live bait and minor directed fishing is allowed to continue during a closure of the directed fishery.

Ocean perch total allowable catch (TAC) in the Bering Sea subarea of the BSAI.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), November 27, 2019, through 2400 hrs, A.l.t., December 31, 2019.

FOR FURTHER INFORMATION CONTACT:

Steve Whitney, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2019 Pacific ocean perch TAC in the Bering Sea subarea of the BSAI is 14,675 metric tons (mt) as established by the final 2019 and 2020 harvest specifications for groundfish in the BSAI and groundfish reserve release (84 FR 9000, March 13, 2019 and 84 FR 57653, October 28, 2019).

The Regional Administrator has determined that the 2019 TAC for Pacific Ocean perch in the Bering Sea subarea of the BSAI will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 14,625 mt, and is setting aside the remaining 50 mt as bycatch to support other anticipated groundfish fisheries. Consequently, in accordance with § 679.20(d)(1)(iii), NMFS is prohibiting directed fishing for Pacific ocean perch in the Bering Sea subarea of the BSAI. While this closure remains in effect the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is

impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the directed fishing closure of Pacific ocean perch in the Bering Sea subarea of the BSAI. NMFS was unable to publish a notification providing time for public comment because the most recent, relevant data only became available as November 25, 2019.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 26, 2019.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Proposed Rules

Federal Register

Vol. 84, No. 231

Monday, December 2, 2019

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1216

[Document Number AMS–SC–19–0073]

Peanut Promotion, Research, and Information Order; Amendment to Primary Peanut-Producing States and Adjustment of Membership

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposal invites comments on adding the State of Missouri as a primary peanut-producing State under the Peanut Promotion, Research, and Information Order (Order). The Order is administered by the National Peanut Board (Board) with oversight by the U.S. Department of Agriculture (USDA). This proposal would also add a producer member and alternate member to the Board to represent the State of Missouri. The Board recommended this action to ensure that the Board's representation reflects changes in the geographical distribution of the production of peanuts.

DATES: Comments must be received by January 2, 2020.

ADDRESSES: Interested persons are invited to submit written comments concerning this proposal. Comments must be submitted on the internet at: <http://www.regulations.gov> or to the Docket Clerk, Promotion and Economics Division, Specialty Crops Program, Agricultural Marketing Service (AMS), USDA, 1400 Independence Avenue SW, Room 1406–S, Stop 0244, Washington, DC 20250–0244; facsimile: (202) 205–2800. Comments should reference the document number and the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the Office of the Docket Clerk during regular business hours, or can be viewed at: <http://www.regulations.gov>. All comments

submitted in response to this proposal will be included in the record and will be made available to the public. Please be advised that the identity of the individuals or entities submitting the comments will be made public on the internet at the address provided above.

FOR FURTHER INFORMATION CONTACT:

Jeanette Palmer, Marketing Specialist, Promotion and Economics Division, Specialty Crop Program, AMS, USDA, Stop 0244, 1400 Independence Avenue SW, Room 1406–S, Washington, DC 20250–0244; telephone: (202) 720–9915; facsimile: (202) 205–2800; or electronic mail: Jeanette.Palmer@usda.gov.

SUPPLEMENTARY INFORMATION: This proposal affecting the Order (7 CFR part 1216) is authorized under the Commodity Promotion, Research, and Information Act of 1996 (1996 Act) (7 U.S.C. 7411–7425).

Executive Orders 12866, 13563, and 13771

Executive Orders 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules and promoting flexibility. This action falls within a category of regulatory actions that the Office of Management and Budget (OMB) exempted from Executive Order 12866 review. Additionally, because this proposed rule does not meet the definition of a significant regulatory action it does not trigger the requirements contained in Executive Order 13771. See OMB's Memorandum titled "Interim Guidance Implementing Section 2 of the Executive Order of January 30, 2017, titled 'Reducing Regulation and Controlling Regulatory Costs'" (February 2, 2017).

Executive Order 13175

This action has been reviewed in accordance with the requirements of Executive Order 13175, Consultation and Coordination with Indian Tribal Governments. The review reveals that this proposed regulation would not have substantial and direct effects on Tribal

governments and would not have significant Tribal implications.

Executive Order 12988

This proposal has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect. Section 524 of the 1996 Act (7 U.S.C. 7423) provides that it shall not affect or preempt any other Federal or State law authorizing promotion or research relating to an agricultural commodity.

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), the Office of Information and Regulatory Affairs designated this rule as not a major rule, as defined by 5 U.S.C. 804(2).

Under section 519 of the 1996 Act (7 U.S.C. 7418), a person subject to an order may file a written petition with USDA stating that an order, any provision of an order, or any obligation imposed in connection with an order, is not established in accordance with the law, and request a modification of the order or an exemption from an order. Any petition filed challenging an order, any provision of an order, or any obligation imposed in connection with an order, shall be filed within two years after the effective date of an order, provision, or obligation subject to challenge in the petition. The petitioner will have the opportunity for a hearing on the petition. Thereafter, USDA will issue a ruling on the petition. The 1996 Act provides that the district court of the United States for any district in which the petitioner resides or conducts business shall have the jurisdiction to review a final ruling on the petition, if the petitioner files a complaint for that purpose not later than 20 days after the date of the entry of USDA's final ruling.

Background

This proposed rule invites comments on adding the State of Missouri as a primary peanut-producing State under the Order. The Order is administered by the Board with oversight by USDA. This proposal would also add a producer member and alternate member to the Board to represent the State of Missouri. Under the Order, primary peanut-producing states must maintain a 3-year average production of at least 10,000 tons of peanuts to maintain this classification. Missouri's peanut production meets this requirement. Primary peanut-producing states also have a seat on the Board. The members

and alternates are nominated by producers or producer groups. This action would ensure that the Board's representation reflects changes in the geographical distribution of the production of peanuts covered by the Order.

The Order became effective on July 30, 1999. Under the Order, the Board administers a nationally-coordinated program of promotion, research and information designed to strengthen the position of peanuts in the market place and to develop, maintain and expand the demand for peanuts in the United States. Under the program, assessments are levied on all farmers stock peanuts sold at a rate of \$3.55 per ton for Segregation 1 peanuts and \$1.25 per ton for Segregation 2 peanuts and 3 peanuts, as those terms are defined in §§ 996.13(b)–(d) of title 7. The assessments are remitted to the Board by handlers and, for peanuts under loan, by the Commodity Credit Corporation.

The Order distinguishes between the terms “minor peanut-producing states” and “primary peanut-producing states” for purposes of Board representation and voting at meetings. Section 1216.21 currently defines primary peanut-producing states as Alabama, Arkansas, Florida, Georgia, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Texas and Virginia. These States must maintain a 3-year average production of at least 10,000 tons of peanuts. All other peanut-producing States are defined as minor peanut-producing States in § 1217.15.

Pursuant to § 1216.40(b), at least once in each five-year period, the Board must review the geographical distribution of peanuts in the United States and make a recommendation to the Secretary of Agriculture (Secretary) to continue the program without change or recommend that changes should be made in the number of representatives on the Board to reflect changes in the geographical distribution of the production of peanuts.

Board Recommendation

As required by the Order, the Board met and reviewed the geographical distribution of peanuts. According to data from the USDA's Federal State Inspection Service, for the years 2016, 2017 and 2018, 9,552, 13,059 and 12,597 tons of peanuts were inspected in Missouri, respectively. Based on this data, the 3-year average annual peanut production for Missouri totals 11,736 tons per year which exceeds the requirement in the Order of maintaining a 3-year average of 10,000 tons per year to be considered a primary peanut-producing State.

Based on Federal State Inspection Service data, the Board voted unanimously on August 28, 2019, to add Missouri as a primary peanut-producing State under the Order. Therefore, one producer member and one alternate member will be added to the Board to represent the State of Missouri.

These changes would help ensure that the Board's representation reflect changes in the geographical distribution of the production of peanuts. Accordingly, this proposed rule would amend §§ 1216.15 and 1216.21 to add the State of Missouri as a primary peanut-producing State. This proposal would also revise § 1216.40(a) to specify that the Board would be composed of no more than 13 peanut producer members and their alternates rather than 12. Further, § 1216.40(a)(1) would be revised to reflect the new number of primary peanut-producing states, by changing 11 to 12.

Initial Regulatory Flexibility Act Analysis

In accordance with the Regulatory Flexibility Act (RFA) (5 U.S.C. 601–612), AMS is required to examine the impact of the proposed rule on small entities. Accordingly, AMS has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions so that small businesses will not be disproportionately burdened. The Small Business Administration (SBA) defines, in 13 CFR part 121, small agricultural producers as those having annual receipts of no more than \$1 million and small agricultural service firms (handlers) as those having annual receipts of no more than \$30 million.

According to the Board, there were approximately 8,126 producers and 34 handlers of peanuts who were subject to the program in 2018.

Most producers would be classified as small agricultural production businesses under the criteria established by the SBA (no more than \$1 million in annual sales). USDA's NASS reports that the crop values of the peanuts produced in the top 11 peanut-producing states in the years 2016 through 2018 were \$1.09 billion, \$1.63 billion and \$1.16 billion, respectively. The 3-year crop average was \$1.29 billion. With a 2018 crop value of \$1.16 billion and a total of 8,126 producers, average peanut sales per producer were approximately \$142,000. With a 2015–2018 average crop value of \$1.29 billion, average sales per producer were approximately \$159,000. Both figures are well below the \$1 million threshold for a small

producer, providing strong evidence that most peanut producers are small businesses.

With 34 handlers, the average annual peanut crop value per handler from 2016 to 2018 ranged from \$32 million to \$48 million, with a 3-year average of \$38 million. With average sales figures moderately higher than the small business threshold size of \$30 million, it appears that a number of handlers are small businesses and there are also a number that are large businesses—no definitive statement can be made.

The pounds of U.S. peanut production from the 11 primary peanut-producing states for 2016 through 2018 are 5.58 billion, 7.12 billion and 5.46 billion, respectively. The 3-year average was 6.05 billion pounds. Computations based on NASS data show that Georgia was the largest producer, with 50.8 percent of the 3-year average quantity, followed by Alabama (10.3 percent), Texas (9.6 percent), Florida (9.3 percent), North Carolina (6.7 percent), South Carolina (6.0 percent), Mississippi (2.3 percent), Arkansas (2.1 percent), Virginia (1.6 percent), with Oklahoma and New Mexico both under one percent.

This proposal would amend §§ 1216.15, 1216.21 and 1216.40 to add the State of Missouri as a primary peanut-producing State and to add a member and alternate to the Board to represent Missouri. The Order is administered by the Board with oversight by USDA. Under the Order, primary peanut-producing States must maintain a 3-year average production of at least 10,000 tons of peanuts. Missouri's peanut production meets this requirement. This action would ensure that the Board's representation reflects changes in the geographical distribution of the production of peanuts covered under the Order. This action is authorized under § 1216.40(b) and Section 515(b)(3) of the 1996 Act.

Regarding the economic impact of this proposed rule on affected entities, this action would impose no costs on producers or handlers. The changes would define the State of Missouri as a primary peanut-producing State based on recent production data and add a seat on the Board for the State of Missouri.

With regard to alternatives, the Board reviewed the peanut distribution for all the minor peanut-producing States and determined that Missouri was the only State so designated that met the Order's requirement for a 3-year average peanut production of at least 10,000 tons in order to qualify to become a primary peanut-producing State.

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the background form (AD-755), which represents the information collection and recordkeeping requirements that may be imposed by this proposed rule, was previously approved under OMB control number 0581-0093.

Adding a producer member and alternate member representing the State of Missouri to the Board would require four additional producers to submit background forms (AD-755) to USDA, once every three years, in order to be considered for appointment to the Board. The Secretary requires two names to be submitted for each open seat on the Board. The public reporting burden is estimated to increase the total burden hours by less than one hour. This additional burden would be included in the existing information collection approved for use under OMB control number 0581-0093. In addition, serving on the Board is optional, and the burden of submitting the background form would be offset by the benefits of additional representation on the Board.

As with all Federal promotion programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies. USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this proposed rule.

AMS is committed to complying with the E-Government Act, to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

Regarding outreach efforts, the Board discussed Missouri's peanut production level at its December 4-5, 2018 meeting. All the Board's meetings are open to the public and interested persons are invited to participate and express their views. The Board notified the primary peanut-producing States (Georgia, Alabama, Texas, Florida, North Carolina, South Carolina, Mississippi, Arkansas, Virginia, Oklahoma and New Mexico) of Missouri's production numbers by disseminating information through the Board's weekly newsletter, which is titled *News in a Nutshell*. The Board voted on August 28, 2019 to recommend adding the State of Missouri as a primary peanut-producing state.

We have performed this initial RFA regarding the impact of this proposed action on small entities and we invite comments concerning potential effects of this action on small businesses.

While this proposed rule as set forth below has not yet received the approval of USDA, it has been determined that it is consistent with and would effectuate the purposes of the 1996 Act.

A 30-day comment period is provided to allow interested persons to respond to this proposal. All written comments received in response to this proposed rule will be considered prior to finalizing this action.

List of Subjects in 7 CFR Part 1216

Administrative practice and procedure, Advertising, Consumer information, Marketing agreements, Reporting and recordkeeping requirements, Peanut promotion.

For the reasons set forth in the preamble, 7 CFR part 1216 is proposed to be amended as follows:

PART 1216—PEANUT PROMOTION, RESEARCH, AND INFORMATION ORDER

- 1. The authority citation for 7 CFR part 1216 continues to read as follows:

Authority: 7 U.S.C. 7411-7425; 7 U.S.C. 7401.

- 2. Section 1216.15 is revised to read as follows:

§ 1216.15 Minor peanut-producing states.

Minor peanut-producing states means all peanut-producing states with the exception of Alabama, Arkansas, Florida, Georgia, Mississippi, Missouri, New Mexico, North Carolina, Oklahoma, South Carolina, Texas and Virginia.

- 3. Section 1216.21 is revised to read as follows:

§ 1216.21 Primary peanut-producing states.

Primary peanut-producing states means Alabama, Arkansas, Florida, Georgia, Mississippi, Missouri, New Mexico, North Carolina, Oklahoma, South Carolina, Texas and Virginia, *Provided*, these states maintain a 3-year average production of at least 10,000 tons of peanuts.

- 4. Amend § 1216.40 by revising paragraph (a) introductory text and paragraph(a)(1) to read as follows:

§ 1216.40 Establishment and membership.

(a) *Establishment of a National Peanut Board.* There is hereby established a National Peanut Board, hereinafter called the Board, composed of no more than 13 peanut producers and alternates, appointed by the Secretary from nominations as follows:

- (1) *Twelve members and alternates.* One member and one alternate shall be appointed from each primary peanut-

producing state, who are producers and whose nominations have been submitted by certified peanut producer organizations within a primary peanut-producing state.

* * * * *

Dated: November 25, 2019.

Bruce Summers,

Administrator.

RIN 2120-AA64

Airworthiness Directives; The Boeing Company Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Supplemental notice of proposed rulemaking (SNPRM); reopening of comment period.

SUMMARY: The FAA is revising an earlier proposal for all The Boeing Company Model 757 airplanes. This action revises the notice of proposed rulemaking (NPRM) by reducing the compliance time for certain airplane configurations. The FAA is proposing this airworthiness directive (AD) to address the unsafe condition on these products. Since these actions would impose an additional burden over those in the NPRM, the FAA is reopening the comment period to allow the public the chance to comment on these changes.

DATES: The comment period for the NPRM published in the **Federal Register** on June 28, 2019 (84 FR 30958), is reopened.

The FAA must receive comments on this SNPRM by January 16, 2020.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to <https://www.regulations.gov>. Follow the instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* U.S. Department of

Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590.

- *Hand Delivery:* U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room

W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

For service information identified in this SNPRM, contact Boeing Commercial Airplanes, Attention: Contractual & Data Services (C&DS), 2600 Westminister Blvd., MC 110-SK57, Seal Beach, CA 90740-5600; telephone 562-797-1717; internet <https://www.myboeingfleet.com>. You may view this service information at the FAA, Transport Standards Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206-231-3195. It is also available on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2019-0438.

Examining the AD Docket

You may examine the AD docket on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2019-0438; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this SNPRM, the regulatory evaluation, any comments received, and other information. The street address for Docket Operations is listed above. Comments will be available in the AD docket shortly after receipt.

FOR FURTHER INFORMATION CONTACT: Peter Jarzomb, Aerospace Engineer, Airframe Section, FAA, Los Angeles ACO Branch, 3960 Paramount Boulevard, Lakewood, CA 90712-4137; phone: 562-627-5234; fax: 562-627-5210; email: peter.jarzomb@faa.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA invites you to send any written relevant data, views, or arguments about this proposal. Send your comments to an address listed under the **ADDRESSES** section. Include "Docket No. FAA-2019-0438; Product Identifier 2019-NM-033-AD" at the beginning of your comments. The FAA specifically invites comments on the overall regulatory, economic, environmental, and energy aspects of this SNPRM. The FAA will consider all comments received by the closing date and may amend this SNPRM because of those comments.

The FAA will post all comments, without change, to <https://www.regulations.gov>, including any personal information you provide. The FAA will also post a report summarizing each substantive verbal

contact the agency receives about this SNPRM.

Discussion

The FAA issued an NPRM to amend 14 CFR part 39 by adding an AD that would apply to all The Boeing Company Model 757 airplanes. The NPRM published in the **Federal Register** on June 28, 2019 (84 FR 30958). The NPRM was prompted by a report that during a maintenance check an operator discovered cracking of the aft cargo compartment frames in the station 1460 frame web and inner chord between stringers S-26 and S-27 near an existing repair. The NPRM proposed to require an inspection of the fuselage frames for any existing repair, repetitive surface high frequency eddy current (HFEC) inspections of the fuselage frames with a cargo liner support channel for any cracking, and applicable on-condition actions.

Actions Since the NPRM was Issued

Since the FAA issued the NPRM, the agency has determined that, for certain airplane configurations, the compliance time must be reduced because these airplanes are subject to higher fatigue loads, which could result in cracking at the frame web and inner chord prior to the compliance times specified in the NPRM.

Comments

The FAA gave the public the opportunity to comment on the NPRM. The following presents the comments received on the NPRM and the FAA's response to each comment.

Support for the NPRM

Boeing, United Airlines (UAL), and Patrick Imperatrice stated their support for the NPRM.

Effect of Winglets on Accomplishment of the Proposed Actions

Aviation Partners Boeing stated that accomplishing Supplemental Type Certificate (STC) ST01518SE does not affect the actions specified in the proposed AD.

The FAA agrees with the commenter. The FAA has redesignated paragraph (c) of the proposed AD (in the NPRM) as paragraph (c)(1) of this proposed AD and added paragraph (c)(2) to this proposed AD to state that installation of STC ST01518SE does not affect the ability to accomplish the actions required by this AD. Therefore, for airplanes on which STC ST01518SE is installed, a "change in product" alternative method of compliance (AMOC) approval request is not

necessary to comply with the requirements of 14 CFR 39.17.

Request To Use Later-Approved Service Information

An anonymous commenter requested that the FAA allow the use of later-approved service information. The commenter stated that doing so would ensure that operators are promptly in compliance with the proposed AD and that all maintenance is certified to the latest-approved version of the maintenance data. The commenter stated that this allowance would remove the wait-time for the proposed AD to be revised to require later revisions of service information, and it would reduce the time it takes to implement the service information and the maintenance costs associated with requesting an AMOC. The commenter noted that the European Union Aviation Safety Agency (EASA) already incorporates the "or later revision" statement in its ADs, and this could demonstrate further harmonization of regulatory control.

The FAA disagrees with the commenter's request. The FAA may not refer to any document that does not yet exist in an AD. In general terms, the FAA is required by Office of the Federal Register (OFR) regulations for approval of materials incorporated by reference, as specified in 1 CFR 51.1(f), to either publish the service document contents as part of the actual AD language; or submit the service document to the OFR for approval as referenced material, in which case the FAA may only refer to such material in the text of an AD. ADs may refer to the service document only if the OFR approved it for incorporation by reference. See 1 CFR 51.

To allow operators to use later revisions of the referenced document (issued after publication of the AD), either the FAA must revise the AD to reference specific later revisions, or operators or the manufacturer must request approval to use later revisions as an AMOC with the AD. The FAA has not changed this proposed AD regarding this issue.

Request To Use an Approved Document for the Inspections

FedEx requested that the proposed AD be revised to include FAA Form 8110-3 as an approved document for alternative inspections provision in note (a) 2. of Boeing Alert Requirements Bulletin 757-53A0113 RB, dated February 22, 2019. FedEx stated that note (a) 2. to tables 1 through 6 of Boeing Alert Requirements Bulletin 757-53A0113 RB, dated February 22, 2019, states that it is not a requirement

to do the inspections, in accordance with Boeing Alert Requirements Bulletin 757–53A0113 RB, in areas where a repair covers the affected inspection area if the repair was approved by the Boeing Organization Designation Authorization (ODA) using an FAA Form 8100–9, which contains a repetitive inspection program for the subject area.

The FAA disagrees with the commenter's request. Note (a) 2. of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, addresses repairs that are designed as corrective actions to address the unsafe condition, which include a follow-on inspection program. The FAA allows FAA Form 8100–9 for approved repairs that meet the specified criteria, because it is used by the Boeing ODA. The ODA staff are familiar with the unsafe condition addressed by this proposed AD and are able to develop a repair and repetitive inspection program that adequately addresses the unsafe condition. FAA Form 8110–3 is for use by a consultant designated engineering representative (DER), who may not have the same data or knowledge of the unsafe condition as the ODA. For this reason, the FAA does not allow approvals granted via an FAA Form 8110–3 under the provisions of note (a) 2. of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019. However, operators may request approval of an AMOC under the provisions of paragraph (i) of this proposed AD. The FAA has not changed this proposed AD regarding this issue.

Request That Certain Notes Not Be Required in the Service Information

FedEx requested that the notes in paragraph “5.A., General Information,” of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, only be applied to Boeing Alert Service Bulletin 757–53A0113, dated February 22, 2019. FedEx stated that these notes are just for general information and should not be subject to the proposed AD. FedEx commented that other operators and maintenance, repair, and overhaul (MRO) facilities have acceptable maintenance practices that are approved under 14 CFR 121 and 14 CFR 145. FedEx stated if a note is to be regulated by the proposed AD, then the note should be listed under paragraph “5.B., Work Instructions” of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019.

The FAA agrees to clarify. The notes contained in paragraph “5.A., General Information,” of Boeing Alert Requirements Bulletin 757–53A0113

RB, dated February 22, 2019, provide provisions to define or explain different aspects of the service information, including inspection types, dimensions and tolerances, and other information. In general, these notes are relieving. If certain notes were not included in Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, operators would need to request AMOC approvals for items like fastener substitutions and tolerances for different dimensions or torque values. Therefore, operators should not need AMOCs for items covered by the notes. The FAA has not changed this proposed AD regarding this issue.

Request To Remove Open and Close Access Requirements

FedEx requested that either open and close access requirements be removed from Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, or Boeing should return to issuing only “Alert Service Bulletins” with marked “RC” (required for compliance) steps. FedEx stated that tables 1 through 8 of paragraph “5.B.1., Requirements” of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, include actions for open and close access. FedEx commented that having these actions within the Requirements Bulletin makes them mandatory and regulated under the proposed AD. FedEx stated that the reason for moving to Requirements Bulletins was to eliminate the need for an AMOC for items like access and general maintenance practices.

The FAA agrees to clarify. The open and close access steps are not identified in the “Action” column in the tables in the Accomplishment Instructions of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, and therefore are not required by this AD. The open and close access steps in the “Refer to” column in the tables in the Accomplishment Instructions of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, are only there to specify one method for open and close access if needed. Operators may use accepted methods for open and close access in accordance with the operator's maintenance or inspection program without obtaining approval of an AMOC. The FAA has not changed this proposed AD regarding this issue.

Request To Revise the NPRM for Certain Airplane Configurations

FedEx requested that the NPRM be revised for certain airplane configurations. FedEx stated that its Model 757–200 airplanes were

converted to a configuration similar to Boeing Model 757–200SF airplanes using VTMAE STC ST03562AT, and are no longer configured as a passenger airplane. FedEx commented that according to Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, its Model 757–200 fleet falls under groups 2, 7, and 10. FedEx also commented that per VTMAE STC ST03562AT, the area addressed by the proposed AD are not altered, but are subject to Model 757–200SF loads. Therefore, FedEx requested to utilize the inspections and methods for groups 2, 7, and 10 airplanes, but utilize the compliance times for groups 3 and 5 airplanes; this would reduce the repetitive interval from 6,000 flight cycles to 4,000 flight cycles. In addition, FedEx requested that this change be incorporated into the proposed AD so that it will not have to request an AMOC.

The FAA agrees with the commenter that VTMAE STC ST03562AT converts Model 757–200 passenger airplanes to a cargo configuration that is similar to Model 757–200SF airplanes. Since airplanes that have been modified from a passenger configuration to a freighter configuration by STC ST03562AT are subjected to increased freighter fatigue loads, these airplanes need to be inspected at the reduced compliance times. Therefore, the FAA has added paragraph (g)(2) to this proposed AD, which requires airplanes that have been converted from a passenger to freighter configuration using VTMAE STC ST03562AT, to do all applicable actions for groups 2, 7, and 10 airplanes as identified in, and in accordance with, the Accomplishment Instructions of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, at the times specified for groups 3 and 5 airplanes, as applicable, in the “Compliance” paragraph of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019.

Related Service Information Under 1 CFR Part 51

The FAA reviewed Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019. This service information describes procedures for a general visual inspection of the fuselage frames with a cargo liner support channel for any existing repair, repetitive surface HFEC inspections of the fuselage frames with a cargo liner support channel for any cracking, and applicable on-condition actions. On-condition actions include a general visual inspection of the fuselage frames adjacent to a frame with a

severed inner chord for any existing repair, a detailed inspection and a surface HFEC inspection of the fuselage frames adjacent to a frame with a severed inner chord for any cracking, and repair. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the ADDRESSES section.

FAA's Determination

The FAA is proposing this AD because the agency evaluated all the relevant information and determined the unsafe condition described previously is likely to exist or develop in other products of the same type design. Certain changes described above expand the scope of the NPRM. As a result, the FAA has determined that it is necessary to reopen the comment

period to provide additional opportunity for the public to comment on this SNPRM.

Proposed Requirements of This SNPRM

This SNPRM would require accomplishing the actions specified in the service information described previously, except as discussed under "Differences Between this Proposed AD and the Service Information." For information on the procedures and compliance times, see this service information at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2019-0438.

Differences Between This SNPRM and the Service Information

This proposed AD requires that airplanes that have been converted from a passenger to freighter configuration

using VTMAE STC ST03562AT, do all applicable actions identified in, and in accordance with groups 2, 7 and 10 airplanes, of the Accomplishment Instructions of Boeing Alert Requirements Bulletin 757-53A0113 RB, dated February 22, 2019, at the applicable times specified in the "Compliance" paragraph for groups 3 and 5 airplanes, of Boeing Alert Requirements Bulletin 757-53A0113 RB, dated February 22, 2019. These airplanes are subject to higher fatigue loads and require a reduced compliance time from 6,000 flight cycles to 4,000 flight cycles.

Costs of Compliance

The FAA estimates that this proposed AD affects 544 airplanes of U.S. registry. The FAA estimates the following costs to comply with this proposed AD:

ESTIMATED COSTS FOR REQUIRED ACTIONS

| Action | Labor cost | Parts cost | Cost per product | Cost on U.S. operators |
|--------------------------------------|---|------------|-------------------------------------|---|
| General visual inspection. | 37 work-hours × \$85 per hour = \$3,145 | \$0 | \$3,145 | \$1,710,880. |
| Repetitive surface HFEC inspections. | Up to 37 work-hours × \$85 per hour = Up to \$3,145 per inspection cycle. | 0 | Up to \$3,145 per inspection cycle. | Up to \$1,710,880 per inspection cycle. |

The FAA estimates the following costs to do any necessary on-condition

inspections that would be required. The FAA has no way of determining the

number of aircraft that might need these on-condition inspections:

ESTIMATED COSTS OF ON-CONDITION ACTIONS

| Labor cost | Parts cost | Cost per product |
|---|------------|-------------------------------------|
| Up to 20 work-hour × \$85 per hour = Up to \$1,700 per inspection cycle | \$0 | Up to \$1,700 per inspection cycle. |

The FAA has received no definitive data that would enable us to provide cost estimates for the on-condition repair specified in this proposed AD.

Authority for this Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. "Subtitle VII: Aviation Programs" describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: "General requirements." Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of

that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

This proposed AD is issued in accordance with authority delegated by the Executive Director, Aircraft Certification Service, as authorized by FAA Order 8000.51C. In accordance with that order, issuance of ADs is normally a function of the Compliance and Airworthiness Division, but during this transition period, the Executive Director has delegated the authority to issue ADs applicable to transport category airplanes and associated appliances to the Director of the System Oversight Division.

Regulatory Findings

The FAA determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the

States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify this proposed regulation:

- (1) Is not a "significant regulatory action" under Executive Order 12866,
- (2) Will not affect intrastate aviation in Alaska, and
- (3) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator,

the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

The Boeing Company: Docket No. FAA–2019–0438; Product Identifier 2019–NM–033–AD.

(a) Comments Due Date

The FAA must receive comments by January 16, 2020.

(b) Affected ADs

None.

(c) Applicability

(1) This AD applies to all The Boeing Company Model 757–200, –200PF, –200CB, and –300 series airplanes, certificated in any category.

(2) Installation of Supplemental Type Certificate (STC) ST01518SE does not affect the ability to accomplish the actions required by this AD. Therefore, for airplanes on which STC ST01518SE is installed, a “change in product” alternative method of compliance (AMOC) approval request is not necessary to comply with the requirements of 14 CFR 39.17.

(d) Subject

Air Transport Association (ATA) of America Code 53, Fuselage.

(e) Unsafe Condition

This AD was prompted by a report that during a maintenance check an operator discovered cracking of the aft cargo compartment frames in the station 1460 frame web and inner chord between certain stringers. The FAA is issuing this AD to address cracking at the frame web and inner chord; such cracks could propagate until they cause a severed frame, which could result in additional undetected cracking in adjacent fuselage frames, and could ultimately result in reduced structural integrity of the aft cargo frames and consequent rapid decompression of the airplane.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

(1) Except as specified by paragraphs (g)(2) and (h) of this AD: At the applicable times specified in the “Compliance” paragraph of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, do all applicable actions identified in, and in accordance with, the Accomplishment Instructions of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019.

Note 1 to paragraph (g): Guidance for accomplishing the actions required by this AD can be found in Boeing Alert Service Bulletin 757–53A0113, dated February 22, 2019, which is referred to in Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019.

(2) For airplanes that have been converted from a passenger to freighter configuration using VT Mobile Aerospace Engineering (VTMAE) STC ST03562AT: Except as specified by paragraph (h) of this AD, at the times specified for groups 3 and 5 airplanes, as applicable, in the “Compliance” paragraph of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, do all applicable actions for groups 2, 7, and 10 airplanes as identified in, and in accordance with the Accomplishment Instructions of Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019.

(h) Exceptions to Service Information Specifications

(1) For purposes of determining compliance with the requirements of this AD: Where Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, uses the phrase “the original issue date of Requirements Bulletin 757–53A0113 RB,” this AD requires using “the effective date of this AD,” except where Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, uses the phrase “the original issue date of Requirements Bulletin 757–53A0113 RB” in a note or flag note.

(2) Where Boeing Alert Requirements Bulletin 757–53A0113 RB, dated February 22, 2019, specifies contacting Boeing for repair instructions or for alternative inspections: This AD requires doing the repair, or doing the alternative inspections and applicable on-condition actions before further flight using a method approved in accordance with the procedures specified in paragraph (i) of this AD.

(i) Alternative Methods of Compliance (AMOCs)

(1) The Manager, Los Angeles ACO Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the certification office, send it to the attention of the person identified in paragraph (j)(1) of this AD. Information may be emailed to: 9-ANM-LAACO-AMOC-Requests@faa.gov.

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(3) An AMOC that provides an acceptable level of safety may be used for any repair, modification, or alteration required by this AD if it is approved by The Boeing Company Organization Designation Authorization (ODA) that has been authorized by the Manager, Los Angeles ACO Branch, FAA, to make those findings. To be approved, the repair method, modification deviation, or alteration deviation must meet the

certification basis of the airplane, and the approval must specifically refer to this AD.

(j) Related Information

(1) For more information about this AD, contact Peter Jarzomb, Aerospace Engineer, Airframe Section, FAA, Los Angeles ACO Branch, 3960 Paramount Boulevard, Lakewood, CA 90712–4137; phone: 562–627–5234; fax: 562–627–5210; email: peter.jarzomb@faa.gov.

(2) For service information identified in this AD, contact Boeing Commercial Airplanes, Attention: Contractual & Data Services (C&DS), 2600 Westminister Blvd., MC 110–SK57, Seal Beach, CA 90740–5600; telephone 562–797–1717; internet <https://www.myboeingfleet.com>. You may view this referenced service information at the FAA, Transport Standards Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206–231–3195.

Issued in Des Moines, Washington, on November 20, 2019.

Dorr Anderson,

Acting Director, System Oversight Division, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. FAA–2019–0877; Product Identifier 2019–NM–146–AD]

RIN 2120–AA64

Airworthiness Directives; Bombardier, Inc., Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to adopt a new airworthiness directive (AD) for certain Bombardier, Inc., Model CL–600–2B19 (Regional Jet Series 100 & 440) airplanes. This proposed AD was prompted by a report that a fouling condition was found between the generator power cables and the support brackets of the auxiliary-aft fuel tank during production. This proposed AD would require a visual inspection of the generator power cables for damage, installation of protective conduits and edging grommets, and applicable corrective actions. The FAA is proposing this AD to address the unsafe condition on these products.

DATES: The FAA must receive comments on this proposed AD by January 16, 2020.

ADDRESSES: You may send comments, using the procedures found in 14 CFR

11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal*: Go to <https://www.regulations.gov>. Follow the instructions for submitting comments.

- *Fax*: 202-493-2251.
- *Mail*: U.S. Department of

Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590.

- *Hand Delivery*: Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

For service information identified in this NPRM, contact Bombardier, Inc., 400 Côte-Vertu Road West, Dorval, Québec H4S 1Y9, Canada; Widebody Customer Response Center North America toll-free telephone 1-866-538-1247 or direct-dial telephone 1-514-855-2999; fax 514-855-7401; email ac.yul@aero.bombardier.com; internet <http://www.bombardier.com>. You may view this service information at the FAA, Transport Standards Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206-231-3195.

Examining the AD Docket

You may examine the AD docket on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2019-0877; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this NPRM, the regulatory evaluation, any comments received, and other information. The street address for Docket Operations is listed above. Comments will be available in the AD docket shortly after receipt.

FOR FURTHER INFORMATION CONTACT:

Thomas Niczky, Aerospace Engineer, Avionics and Electrical Systems Services Section, FAA, New York ACO Branch, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone

516-228-7347; fax 516-794-5531; email 9-avs-nyaco-cos@faa.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA invites you to send any written relevant data, views, or arguments about this proposal. Send your comments to an address listed under the **ADDRESSES** section. Include “Docket No. FAA-2019-0877; Product Identifier 2019-NM-146-AD” at the beginning of your comments. The FAA specifically invites comments on the overall regulatory, economic, environmental, and energy aspects of this NPRM. The FAA will consider all comments received by the closing date and may amend this NPRM because of those comments.

The FAA will post all comments received, without change, to <https://www.regulations.gov>, including any personal information you provide. The FAA will also post a report summarizing each substantive verbal contact received about this NPRM.

Discussion

Transport Canada Civil Aviation (TCCA), which is the aviation authority for Canada, has issued Canadian Airworthiness Directive CF-2019-22, dated May 27, 2019 (referred to after this as the Mandatory Continuing Airworthiness Information, or “the MCAI”), to correct an unsafe condition for certain Bombardier, Inc., Model CL-600-2B19 (Regional Jet Series 100 & 440) airplanes. You may examine the MCAI in the AD docket on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2019-0877.

This proposed AD was prompted by a report that a fouling condition was found between the generator power cables and the support brackets of the auxiliary-aft fuel tank during production. The FAA is proposing this AD to address damage to the insulation sleeve of the generator power cables that

can potentially cause a short circuit, arcing, and a malfunction of one or both main generators. See the MCAI for additional background information.

Related Service Information Under 1 CFR Part 51

Bombardier has issued Service Bulletin 601R-24-131, dated June 28, 2012. This service information describes procedures for visual inspection of the generator power cables for damage, installation of protective insulation and edging grommets, and applicable corrective actions. Corrective actions include repair. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the **ADDRESSES** section.

FAA’s Determination

This product has been approved by the aviation authority of another country, and is approved for operation in the United States. Pursuant to a bilateral agreement with the State of Design Authority, the FAA has been notified of the unsafe condition described in the MCAI and service information referenced above. The FAA is proposing this AD because the agency evaluated all the relevant information and determined the unsafe condition described previously is likely to exist or develop on other products of the same type design.

Proposed Requirements of This NPRM

This proposed AD would require accomplishing the actions specified in the service information described previously.

Costs of Compliance

The FAA estimates that this proposed AD affects 9 airplanes of U.S. registry. The FAA estimates the following costs to comply with this proposed AD:

ESTIMATED COSTS FOR REQUIRED ACTIONS

| Labor cost | Parts cost | Cost per product | Cost on U.S. operators |
|---|------------|------------------|------------------------|
| 22 work-hours × \$85 per hour = \$1,870 | \$524 | \$2,394 | \$21,546 |

The FAA has received no definitive data that would enable the agency to provide cost estimates for the on-condition actions specified in this proposed AD.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more

detail the scope of the Agency’s authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: “General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil

aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

This proposed AD is issued in accordance with authority delegated by the Executive Director, Aircraft Certification Service, as authorized by FAA Order 8000.51C. In accordance with that order, issuance of ADs is normally a function of the Compliance and Airworthiness Division, but during this transition period, the Executive Director has delegated the authority to issue ADs applicable to transport category airplanes and associated appliances to the Director of the System Oversight Division.

Regulatory Findings

The FAA determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify this proposed regulation:

- (1) Is not a "significant regulatory action" under Executive Order 12866,
- (2) Will not affect intrastate aviation in Alaska, and
- (3) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

- 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

- 2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

Bombardier, Inc.: Docket No. FAA-2019-0877; Product Identifier 2019-NM-146-AD.

(a) Comments Due Date

The FAA must receive comments by January 16, 2020.

(b) Affected ADs

None.

(c) Applicability

This AD applies to Bombardier, Inc., Model CL-600-2B19 (Regional Jet Series 100 & 440) airplanes, certificated in any category, as identified in Bombardier Service Bulletin 601R-24-131, dated June 28, 2012.

(d) Subject

Air Transport Association (ATA) of America Code 24, Electrical power.

(e) Reason

This AD was prompted by a report that a fouling condition was found between the generator power cables and the support brackets of the auxiliary-aft fuel tank during production. The FAA is issuing this AD to address damage to the insulation sleeve of the generator power cables that can potentially cause a short circuit, arcing, and a malfunction of one or both main generators.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

Within 18 months after the effective date of this AD, visually inspect the generator power cables and wire strands for damage, install protective conduits and edging grommets, and do all applicable corrective actions in accordance with the Accomplishment Instructions of Bombardier Service Bulletin 601R-24-131, dated June 28, 2012. Do all applicable corrective actions before further flight.

(h) Other FAA AD Provisions

The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs):* The Manager, New York ACO Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the certification office, send it to ATTN: Program Manager, Continuing Operational Safety, FAA, New York ACO Branch, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone 516-228-7300; fax 516-794-5531. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(2) *Contacting the Manufacturer:* For any requirement in this AD to obtain instructions from a manufacturer, the instructions must be accomplished using a method approved

by the Manager, New York ACO Branch, FAA; or Transport Canada Civil Aviation (TCCA); or Bombardier, Inc.'s TCCA Design Approval Organization (DAO). If approved by the DAO, the approval must include the DAO-authorized signature.

(i) Related Information

(1) Refer to Mandatory Continuing Airworthiness Information (MCAI) Canadian Airworthiness Directive CF-2019-22, dated May 27, 2019, for related information. This MCAI may be found in the AD docket on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2019-0877.

(2) For more information about this AD, contact Thomas Niczky, Aerospace Engineer, Avionics and Electrical Systems Services Section, FAA, New York ACO Branch, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone 516-228-7347; fax 516-794-5531; email 9-avs-nyaco-cos@faa.gov.

(3) For service information identified in this AD, contact Bombardier, Inc., 400 Côte-Vertu Road West, Dorval, Québec H4S 1Y9, Canada; Widebody Customer Response Center North America toll-free telephone 1-866-538-1247 or direct-dial telephone 1-514-855-2999; fax 514-855-7401; email ac.yul@aero.bombardier.com; internet <http://www.bombardier.com>. You may view this service information at the FAA, Transport Standards Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206-231-3195.

Issued in Des Moines, Washington, on November 21, 2019.

Dorr Anderson,

Acting Director, System Oversight Division, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 1

[REG-105474-18]

RIN 1545-BO59, 1545-BM69

Guidance on Passive Foreign Investment Companies; Hearing Cancellation

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Cancellation of notice of public hearing on proposed rulemaking.

SUMMARY: This document cancels a public hearing on proposed regulations under sections 1291, 1297, and 1298 of the Internal Revenue Code ("Code") regarding the determination of ownership in a passive foreign investment company within the meaning of section 1297(a) ("PFIC") and

the treatment of certain income received or accrued by a foreign corporation and assets held by a foreign corporation for purposes of section 1297.

DATES: The public hearing, originally scheduled for December 9, 2019 at 10:00 a.m. is cancelled.

ADDRESSES: The cancelled hearing was originally scheduled to be held at the Internal Revenue Service Building, 1111 Constitution Avenue NW, Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT: Regina Johnson, Publications and Regulations Specialist at (202) 317-6901 (not a toll-free number).

SUPPLEMENTARY INFORMATION: A notice of public hearing that appeared in the *Federal Register* on Thursday, October 3, 2019 (84 FR 52835) announced that a public hearing was scheduled December 9, 2019 at 10:00 a.m. in the IRS Auditorium, Internal Revenue Service Building, 1111 Constitution Avenue NW, Washington, DC. The subject of the public hearing is under sections 1291, 1297, and 1298 of the Internal Revenue Code.

The public comment period for these regulations expired on September 9, 2019. The notice of hearing instructed those interested in testifying at the public hearing to submit an outline of the topics to be discussed. The outline of topics to be discussed was due by November 22, 2019. As of November 22, 2019, no one has requested to speak. Therefore, the public hearing scheduled for December 9, 2019 at 10:00 a.m. is cancelled.

Martin V. Franks,

Branch Chief, Publications and Regulations Branch, Legal Processing Division, Associate Chief Counsel.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 55

[EPA-R10-OAR-2019-0433; FRL-10002-52-Region 10]

Outer Continental Shelf Air Regulations; Consistency Update for Alaska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; consistency update.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to update a portion of the Outer Continental Shelf

(OCS) Air Regulations. Requirements applying to OCS sources located within 25 miles of states' seaward boundaries must be updated periodically to remain consistent with the requirements of the corresponding onshore area (COA), as mandated by the Clean Air Act (CAA). The portion of the OCS air regulations that is being updated pertains to the requirements for OCS sources subject to requirements of the State of Alaska. The State of Alaska's requirements discussed in this document, and listed in the appendix to the Federal OCS air regulations, are proposed to be incorporated into the compilation of state provisions that is incorporated by reference.

DATES: Written comments must be received on or before January 2, 2020.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R10-OAR-2019-0433 at <https://www.regulations.gov>, or via email to greaves.natasha@epa.gov. For comments submitted at *Regulations.gov*, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. For either manner of submission, EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be confidential business information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Natasha Greaves, (206) 553-7079, or by email at greaves.natasha@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On September 4, 1992, EPA promulgated 40 CFR part 55,¹ which

established requirements to control air pollution from OCS sources in order to attain and maintain Federal and state ambient air quality standards and to comply with the provisions of part C of title I of the CAA. The regulations at 40 CFR part 55 apply to all OCS sources except those located in the Gulf of Mexico west of 87.5 degrees longitude. See 40 CFR 55.3(a). Section 328 of the CAA requires that for such sources located within 25 miles of a state's seaward boundary, the requirements shall be the same as would be applicable if the sources were located in the COA. Because the OCS requirements are based on onshore requirements, and onshore requirements may change, section 328(a)(1) requires that EPA update the OCS requirements as necessary to maintain consistency with onshore requirements.

Pursuant to 40 CFR 55.12, consistency reviews will occur at least annually. Additionally, consistency reviews will occur upon receipt of a Notice of Intent (NOI) under 40 CFR 55.4 and when a State or local agency submits a rule to EPA to be considered for incorporation by reference in 40 CFR part 55. This proposed action is being taken in response to the submittal of a NOI on October 1, 2019, by Hilcorp Alaska, LLC. Public comments received within 30 days of publication of this document will be considered by EPA before publishing a final rule.

Section 328(a) of the CAA requires that EPA establish requirements to control air pollution from OCS sources located within 25 miles of States' seaward boundaries that are the same as onshore requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into 40 CFR part 55 as they exist onshore. This limits EPA's flexibility in deciding which requirements will be incorporated into 40 CFR part 55 and prevents EPA from making substantive changes to the requirements it incorporates. As a result, EPA may be incorporating rules into 40 CFR part 55 that do not conform to all of EPA's state implementation plan (SIP) guidance or certain requirements of the CAA. Consistency updates may result in the inclusion of state or local rules or regulations into 40 CFR part 55, even though the same rules may ultimately be disapproved for inclusion as part of the SIP. Inclusion in the OCS rule does not imply that a rule meets the requirements of the CAA for SIP approval, nor does

¹ The reader may refer to the Notice of Proposed Rulemaking, December 5, 1991 (56 FR 63774), and the preamble to the final rule promulgated

September 4, 1992 (57 FR 40792) for further background and information on the OCS regulations.

it imply that the rule will be approved by EPA for inclusion in the SIP.

II. EPA Analysis

EPA reviewed Alaska's rules for incorporation by reference in 40 CFR part 55 to ensure that they are rationally related to the attainment or maintenance of Federal or state ambient air quality standards and compliance with part C of title I of the CAA, that they are not designed expressly to prevent exploration and development of the OCS, and that they are potentially applicable to OCS sources. *See* 40 CFR 55.1. EPA has also evaluated the rules to ensure they are not arbitrary or capricious. *See* 40 CFR 55.12(e). In addition, EPA has excluded administrative or procedural rules.² EPA has also proposed to exclude those provisions that would not reasonably be expected to apply to an OCS source.

EPA is soliciting public comments on this proposed action, and these comments will be considered before taking final action. Interested parties may participate in this rulemaking procedure by submitting written comments to the EPA Regional Office listed in the ADDRESSES section of this Federal Register.

III. Proposed Action

EPA is proposing to incorporate by reference the rules potentially applicable to sources for which the State of Alaska will be the COA. The rules that EPA proposes to incorporate are applicable provisions of Title 18 of the Alaska Administrative Code, specifically, the provisions of Air Quality Control Chapter 50 identified below. The intended effect of proposing approval of various Alaska air pollution control requirements for inclusion in the updated compilation of "State of Alaska Requirement Applicable to OCS Sources" dated September 15, 2018, is to regulate emissions from OCS sources in accordance with the requirements for onshore sources.

IV. Incorporation by Reference

In this document, EPA is proposing to include in a final EPA rule, regulatory text that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, EPA is proposing to incorporate by reference provisions of Chapter 50 of the Alaska

Administrative Code set forth below. EPA has made, and will continue to make, these materials available through www.regulations.gov and at the EPA Region 10 Office (please contact the person identified in the "For Further Information Contact" section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to establish requirements to control air pollution from OCS sources located within 25 miles of states' seaward boundaries that are the same as onshore air pollution control requirements. To comply with this statutory mandate, the EPA must incorporate applicable onshore rules into 40 CFR part 55 as they exist onshore. *See* 42 U.S.C. 7627(a)(1); 40 CFR 55.12. Thus, in promulgating OCS consistency updates, EPA's role is to maintain consistency between OCS regulations and the regulations of onshore areas, provided that they meet the criteria of the CAA. Accordingly, this action simply updates the existing OCS requirements to make them consistent with requirements onshore, without the exercise of any policy direction by EPA. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 regulatory action because this action is not significant under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rule incorporating by reference sections of Title 18 of the Alaska Administrative Code, does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because this action is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

Under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. OMB has approved the information collection requirements contained in 40 CFR part 55 and, by extension, this update to the rules, and has assigned OMB control number 2060-0249. OMB approved the EPA Information Collection Request (ICR) No. 1601.08 on September 18, 2017.³ The current approval expires September 30, 2020. The annual public reporting and recordkeeping burden for collection of information under 40 CFR part 55 is estimated to average 643 hours per response, using the definition of burden provided in 44 U.S.C. 3502(2).

EPA is proposing to incorporate the rules potentially applicable to sources for which the State of Alaska will be the COA. The rules that EPA proposes to incorporate are the identified provisions of Title 18 of the Alaska Administrative Code, specifically, Air Quality Control Chapter 50.

List of Subjects in 40 CFR Part 55

Environmental protection, Administrative practice and procedure, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Outer continental shelf, Ozone, Particulate matter, Permits, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

³ OMB's approval of the ICR can be viewed at www.reginfo.gov.

² Each COA which has been delegated the authority to implement and enforce 40 CFR part 55 will use its administrative and procedural rules as onshore. However, in those instances where EPA has not delegated authority to implement and enforce 40 CFR part 55, EPA will use its own administrative and procedural requirements to implement the substantive requirements. *See* 40 CFR 55.14(c)(4).

Dated: November 14, 2019.
Chris Hladick,
Regional Administrator, Region 10.

Part 55 of Chapter I, title 40 of the Code of Federal Regulations is proposed to be amended follows:

PART 55—OUTER CONTINENTAL SHELF AIR REGULATIONS

■ 1. The authority citation for part 55 continues to read as follows:

Authority: Section 328 of the Clean Air Act (42 U.S.C. 7401 et seq.) as amended by Public Law 101–549.

■ 2. Section 55.14 is amended by revising paragraph (e)(2)(i)(A) and removing and reserving (e)(2)(ii)(A) to read as follows:

§ 55.14 Requirements that apply to OCS sources located within 25 miles of States' seaward boundaries, by State.

* * * * *

- (e) * * *
(2) * * *
(i) * * *

(A) State of Alaska Requirements Applicable to OCS Sources, September 15, 2018.

* * * * *

■ 3. Appendix A to part 55 is amended by revising paragraph (a)(1) under the heading "Alaska" to read as follows:

Appendix A to Part 55—Listing of State and Local Requirements Incorporated by Reference Into Part 55, by State

* * * * *

Alaska

(a) * * *

(1) The following State of Alaska requirements are applicable to OCS Sources, September 15, 2018, Alaska Administrative Code—Department of Environmental Conservation. The following sections of Title 18, Chapter 50:

Article 1. Ambient Air Quality Management

- 18 AAC 50.005. Purpose and Applicability of Chapter (effective 10/01/2004)
18 AAC 50.010. Ambient Air Quality Standards (effective 08/20/2016)
18 AAC 50.015. Air Quality Designations, Classification, and Control Regions (effective 04/17/2015) except (b)(3) and (d)(2)

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 257**

[EPA-HQ-OLEM-2019-0172; FRL-10002-02-OLEM]

RIN 2050-AH10

Hazardous and Solid Waste Management System: Disposal of Coal Combustion Residuals From Electric Utilities; A Holistic Approach to Closure Part A: Deadline To Initiate Closure**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: On April 17, 2015, the Environmental Protection Agency (EPA or the Agency) promulgated national minimum criteria for existing and new coal combustion residuals (CCR) landfills and existing and new CCR surface impoundments. On August 21, 2018, the D.C. Circuit Court of Appeals issued its opinion in the case of *Utility Solid Waste Activities Group, et al. v. EPA (USWAG)*. This rule proposes regulations to implement the court's vacatur of the provisions that allow unlined impoundments to continue receiving coal ash unless they leak, and that classify "clay-lined" impoundments as lined, thereby allowing such units to operate indefinitely. In addition, EPA is proposing to establish a revised date by which unlined surface impoundments must cease receiving waste and initiate closure, following its reconsideration of those dates in light of the *USWAG* decision.

DATES: Comments must be received on or before January 31, 2020. *Public Hearing.* The EPA will hold a public hearing on January 7, 2020.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-HQ-OLEM-2019-0172. The EPA has previously established a docket for the April 17, 2015, CCR final rule under Docket ID No. EPA-HQ-RCRA-2009-0640, and docket for the CCR Phase One Part One Rule under Docket ID No. EPA-HQ-OLEM-2017-0286. All documents in the docket are listed in the <https://www.regulations.gov> index. Publicly available docket materials are available either electronically at <https://www.regulations.gov> or in hard copy at the EPA Docket Center. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone

number for the EPA Docket Center is (202) 566-1742. You may send comments, identified by Docket ID No. EPA-HQ-OLEM-2019-0172, by any of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov/> (our preferred method). Follow the online instructions for submitting comments.
- *Mail:* U.S. Environmental Protection Agency, EPA Docket Center, Docket ID No. EPA-HQ-OLEM-0172, Mail Code 28221T, 1200 Pennsylvania Avenue NW, Washington, DC 20460.
- *Hand Delivery/Courier:* EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Avenue NW, Washington, DC 20004. The Docket Center's hours of operations are 8:30 a.m.–4:30 p.m., Monday–Friday (except Federal Holidays).

Instructions: All submissions received must include the Docket ID No. for this rulemaking. Comments received may be posted without change to <https://www.regulations.gov/>, including any personal information provided. For detailed instructions on sending comments and additional information on the rulemaking process, see the "Public Participation" heading of the **SUPPLEMENTARY INFORMATION** section of this document.

A public hearing will be held either virtually or in person in the Washington, DC metro area. The EPA will announce further details on the public hearing on EPA's CCR website (<https://www.epa.gov/coalash>). The hearing will convene at 9:00 a.m. (local time) and conclude at 6:00 p.m. (local time). If necessary, the hearing may go later to accommodate all those wishing to speak. For additional information on the public hearing see the "Public Participation" heading of the **SUPPLEMENTARY INFORMATION** section of this document.

Please note that if this hearing is held at a U.S. government facility, individuals planning to attend the hearing should be prepared to show valid picture identification to the security staff in order to gain access to the meeting room. Please note that the REAL ID Act, passed by Congress in 2005, established new requirements for entering federal facilities. For purposes of the REAL ID Act, EPA will accept government-issued IDs, including driver's licenses, from the District of Columbia and all states and territories except from American Samoa. If your identification is issued by American Samoa, you must present an additional form of identification to enter the federal building where the public hearing will be held. Acceptable alternative forms of identification

include: Federal employee badges, passports, enhanced driver's licenses, and military identification cards. For additional information for the status of your state regarding REAL ID, go to: <https://www.dhs.gov/real-id-enforcement-brief-frequently-asked-questions>. Any objects brought into the building need to fit through the security screening system, such as a purse, laptop bag, or small backpack. Demonstrations will not be allowed on federal property for security reasons.

FOR FURTHER INFORMATION CONTACT: For information concerning this proposed rule, contact Kirsten Hillyer, Office of Resource Conservation and Recovery, Materials Recovery and Waste Management Division, Environmental Protection Agency, 1200 Pennsylvania Avenue NW, MC: 5304P, Washington, DC 20460; telephone number: (703) 347-0369; email address: Hillyer.Kirsten@epa.gov. For more information on this rulemaking please visit <https://www.epa.gov/coalash>.

SUPPLEMENTARY INFORMATION:**I. Executive Summary***A. Purpose of the Regulatory Action*

The EPA is publishing this proposed rule to revise portions of the federal CCR regulations in title 40 of the Code of Federal Regulations (CFR) Part 257 so that they accurately reflect the regulations as they now stand in light of the decision by the D.C. Circuit Court of Appeals in the case of *Utility Solid Waste Activities Group, et al. v. EPA*, 901 F.3d 414 (D.C. Cir. 2018) (*USWAG* decision), on August 21, 2018. Specifically, the D.C. Circuit vacated (1) the provisions that permit unlined impoundments to continue receiving coal ash unless they leak (see 40 CFR 257.101(a)); and (2) the provisions that classify "clay-lined" impoundments as lined (see 40 CFR 257.71(a)(1)(i)).

In addition, this proposed rule addresses the October 31, 2020 deadline in §§ 257.101(a) and (b)(1)(i), by which CCR surface impoundments must cease receipt of waste; these regulatory provisions were remanded back to EPA by the D.C. Circuit Court of Appeals for further reconsideration in light of the *USWAG* decision. See, *Waterkeeper Alliance Inc, et al. v. EPA* No. 18-1289 (D.C. Circuit).

B. Summary of the Major Provisions of the Regulatory Action

In this action, EPA is proposing three categories of amendments to the part 257 regulations. First, EPA is proposing to change the classification of compacted-soil lined or "clay-lined" surface impoundments from "lined" to

“unlined” under § 257.71(a)(1)(i). This merely reflects the vacatur ordered in the USWAG decision. Second, EPA is proposing revisions to the initiation of closure deadlines for unlined CCR surface impoundments, and for units that failed the aquifer location restriction, found in §§ 257.101(a) and (b)(1). This section includes revisions to address the USWAG decisions with respect to all unlined and “clay-lined” impoundments, as well as revisions to

the provisions remanded back to the Agency for further reconsideration by the court in the *Waterkeeper* decision. Specifically, EPA is proposing a new deadline of August 31, 2020 to replace the current deadline of October 31, 2020 for CCR units to cease receipt of waste and initiate closure because the unit either (1) is an unlined or formerly “clay-lined” CCR surface impoundment (§ 257.101(a)) or (2) failed the aquifer location standard (§ 257.101(b)(1)).

Lastly, EPA is proposing revisions to the alternate closure provisions, §§ 257.103(a), (b), (e), and (f). These revisions will grant facilities additional time to develop alternate capacity to manage their wastestreams (both CCR and non-CCR), to achieve cease receipt of waste and initiate closure of their CCR surface impoundments. The table below summarizes the deadlines proposed in this action.

| Proposed Compliance Deadlines for CCR Surface Impoundments | Deadline Date |
|--|---|
| New cease receipt of waste deadline for unlined and formerly clay-lined surface impoundments (§ 257.101(a)(1)). | August 31, 2020. |
| New cease receipt of waste deadline for surface impoundments that failed the minimum depth to aquifer location standard (§ 257.101(b)(1)(i)). | August 31, 2020. |
| New short-term alternate to initiation of closure (up to 3-month extension to cease receipt of waste deadline) (§ 257.103(e)). | No later than November 30, 2020. |
| New site specific alternate to initiation of closure due to lack of capacity (§ 257.103(f)(1)). | No later than October 15, 2023 (maximum of 5 years after USWAG decision mandate date). |
| New site specific alternate to initiation of closure due to permanent cessation of a coal-fired boiler(s) by a date certain (§ 257.103(f)(2)). | No later than October 17, 2023 for surface impoundments 40 acres or smaller. No later than October 17, 2028 for surface impoundments larger than 40 acres. |

C. Costs and Benefits

Several developments have changed the estimated costs of the CCR program since the publication of the final rule in 2015. First, reporting data show that the affected universe of surface impoundments is composed of more unlined units, and that more surface impoundments regardless of liner type are leaking than was modeled in the 2015 RIA. The affected universe is therefore incurring higher closure costs sooner, which increases the overall cost of the program. Second, the D.C. Circuit Court vacated provisions of the rule that allowed certain classes of impoundments to continue operating until they leaked. This decision will force these units to close next year, sooner than they were modeled to close in the 2015 RIA. This also increases the overall cost of the CCR program. The absolute costs of the CCR program have increased since they were estimated in 2015. For the sake of accuracy and transparency this cost increase is estimated and shown in the RIA. This increase in costs is attributable solely to the existing provisions of the CCR rule. The provisions of the proposed rule decrease costs by extending certain existing compliance deadlines. The proposed rule is therefore considered a cost savings rule. This action is expected to result in net cost savings amounting to an annualized \$39.5 million per year when discounting at 7%. Further information on the

economic effects of this action can be found in Unit VI of this preamble.

II. Public Participation

A. Written Comments

Submit your comments, identified by Docket ID No. EPA-HQ-OLEM-2019-0172, at <https://www.regulations.gov> (our preferred method), or the other methods identified in the ADDRESSES section. Once submitted, comments cannot be edited or removed from the docket. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

B. Participation in Public Hearing

The EPA will begin pre-registering speakers for the hearing upon publication of this document in the **Federal Register**. To register to speak at the hearing, please use the online registration form available on EPA’s CCR website (<https://www.epa.gov/coalash>) or contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to register to speak at the hearing. The last day to pre-register to speak at the hearing will be January 3, 2020. On January 6, 2020, the EPA will post a general agenda for the hearing on EPA’s CCR website (<https://www.epa.gov/coalash>).

The EPA will make every effort to follow the schedule as closely as possible on the day of the hearing; however, please plan for the hearings to run either ahead of schedule or behind schedule. Additionally, requests to speak will be taken the day of the hearing at the hearing registration desk or through the virtual hearing platform. The EPA will make every effort to accommodate all speakers who arrive and register, although preferences on speaking times may not be able to be fulfilled.

Each commenter will have 5 minutes to provide oral testimony. The EPA encourages commenters to provide the EPA with a copy of their oral testimony electronically (via email) or in hard copy form. If EPA is anticipating a high attendance, the time allotment per testimony may be shortened to no

shorter than 3 minutes to accommodate all those wishing to provide testimony and have pre-registered. All comments and materials received at the public hearing will be placed in the docket for this rule, as well as a transcript from this hearing.

The EPA may ask clarifying questions during the oral presentations but will not respond to the presentations at that time. Written statements and supporting information submitted during the comment period will be considered with the same weight as oral comments and supporting information presented at the public hearing. Verbatim transcripts of the hearings and written statements will be included in the docket for the rulemaking.

Please note that any updates made to any aspect of the hearing is posted online on EPA's CCR website (<https://www.coalash.gov/coalash>). While the EPA expects the hearing to go forward as set forth above, please monitor our website or contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to determine if there are any updates. The EPA does not intend to publish a document in the **Federal Register** announcing updates.

If you require the service of a translator please pre-register for the hearing and describe your needs by December 23, 2019. If you require special accommodations such as audio description or closed captioning (if the hearing is held virtually), please pre-register for the hearing and describe your needs by December 30, 2019. We may not be able to arrange accommodations without advanced notice. Commenters should notify the person listed in the **FOR FURTHER INFORMATION CONTACT** section and indicate on the registration form of any such needs when they pre-register to speak.

III. General Information

A. Does this action apply to me?

This proposed rule applies to all CCR generated by electric utilities and independent power producers that fall within the North American Industry Classification System (NAICS) code 221112 and may affect the following entities: Electric utility facilities and independent power producers that fall under the NAICS code 221112. This discussion is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be regulated by this action. This discussion lists the types of entities that EPA is now aware could potentially be regulated by this action. Other types of entities not described here could also be

regulated. To determine whether your entity is regulated by this action, you should carefully examine the applicability criteria found in § 257.50 of Title 40 of the Code of Federal Regulations. If you have questions regarding the applicability of this action to a particular entity, consult the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

B. What action is the Agency taking?

The EPA is proposing to revise certain provisions of the CCR regulations at 40 CFR part 257 in response to the decisions issued by the United States Court of Appeals for the D.C. Circuit on August 21, 2018, in *Utility Solid Waste Activities Group, et al. v. EPA* 901 F.3d 414 (D.C. Cir. 2018), and on March 13, 2019 in *Waterkeeper Alliance Inc. et al. v. EPA*.

This proposed rule addresses the vacatur of the regulatory provisions that permitted unlined impoundments to continue receiving waste unless they leak, 40 CFR 275.101(a), and that classified "clay-lined" impoundments as lined, thereby allowing such units to operate 40 CFR 257.71(a)(1)(i). The *USWAG* decision also vacated the exemption from the 2015 rule for inactive surface impoundments at inactive power plants. This will be addressed in a subsequent rulemaking.

This proposed rule also addresses the date by which unlined CCR surface impoundments and CCR units that failed the aquifer location standard must cease receiving waste, and initiate closure which the D.C. Circuit Court remanded to EPA on March 13, 2019 in the *Waterkeeper* decision.

EPA intends that the provisions of this rule would be severable. In the event that any individual provision or part of this rule is invalidated, EPA intends that this would not render the entire rule invalid, and that any individual provisions that can continue to operate will be left in place.

C. What is the Agency's authority for taking this action?

These regulations are established under the authority of sections 1008(a), 2002(a), 4004, and 4005(a) and (d) of the Solid Waste Disposal Act of 1970, as amended by the Resource Conservation and Recovery Act of 1976 (RCRA), the Hazardous and Solid Waste Amendments of 1984 (HSWA), and the Water Infrastructure Improvements for the Nation (WIIN) Act of 2016, 42 U.S.C. 6907(a), 6912(a), 6944, and 6945(a) and (d).

D. What are the incremental costs and benefits of this action?

This action is expected to result in net cost savings amounting to an annualized \$39.5 million per year when discounting at 7%. Further information on the economic effects of this action can be found in Unit VI of this preamble.

IV. Background

A. The "2015 CCR Rule"

On April 17, 2015, EPA finalized national minimum criteria for the disposal of CCR as solid waste under Subtitle D of RCRA titled, "Hazardous and Solid Waste Management System; Disposal of Coal Combustion Residuals from Electric Utilities," (80 FR 21302) (2015 rule). The 2015 rule regulated existing and new CCR landfills and existing and new CCR surface impoundments and all lateral expansions of CCR units. It is codified in subpart D of part 257 of Title 40 of the CFR. The criteria consist of location restrictions, design and operating criteria, groundwater monitoring and corrective action requirements, closure and post-closure care requirements, and recordkeeping, notification and internet posting requirements. The rule also required any existing unlined CCR surface impoundment that is contaminating groundwater above a regulated constituent's groundwater protection standard to stop receiving wastes and either close or retrofit, except in certain circumstances. This closure requirement applied only to unlined CCR surface impoundments; units with either a composite liner or "clay-lined" that met the requirements of section 257.71(a) were allowed to operate indefinitely.

The rule was challenged by several parties, including a coalition of regulated entities and a coalition of environmental organizations ("Environmental Petitioners"). See *USWAG et al. v. EPA*, 901 F.3d 414 (D.C. Cir. 2018). The Environmental Petitioners raised two challenges¹ that are relevant to this proposed rule: First, they challenged the provision that allowed existing, unlined surface impoundments to continue to operate until they cause groundwater

¹ Environmental Petitioners also challenged the provisions exempting inactive surface impoundments at inactive power plants from regulation. The court also ruled for the Petitioners on these claims, vacating and remanding these provisions back to EPA. However, in contrast to the other provisions addressed in this rule, additional rulemaking is necessary to effectuate the court's order, as the court's vacatur alone did not subject these units to regulation. This aspect of the decision will be addressed in a subsequent proposal.

contamination. See 40 CFR 257.101(a)(1). They contended that EPA failed to show how continued operation of unlined impoundments met RCRA's baseline requirement that any solid waste disposal site pose "no reasonable probability of adverse effects on health or the environment." See 42 U.S.C. 6944(a). The Environmental Petitioners also challenged the provisions that allowed impoundments lined with two-feet of clay to continue operating even when they leak, requiring only that they remediate the resulting contamination. The petitioners pointed to record evidence that "clay-lined" units are likely to leak and contended that the EPA's approach "authorizes an endless cycle of spills and clean-ups" in violation of RCRA.

B. USWAG Decision

The U.S. Court of Appeals for the D.C. Circuit issued its decision on August 21, 2018 (*USWAG* decision). The Court upheld most of the rule but ruled for the Environmental Petitioners on these two claims. The court held that EPA acted "arbitrarily and capriciously and contrary to RCRA" in failing to require the closure of unlined surface impoundments and in classifying so-called "clay-lined" impoundments as lined, based on the record supporting the rule. See 901 F.3d at 431–432. The court ordered that "the Final Rule be vacated and remanded with respect to the provisions that permit unlined impoundments to continue receiving coal ash unless they leak, § 257.101(a), [and] classify "clay-lined" impoundments as lined, see 40 CFR 257.71(a)(1)(i)." See *Id.* The Court issued the mandate for this decision on October 15, 2018. Therefore, part of this proposed rulemaking action updates the regulations to reflect the provisions that the Court vacated.

C. Waterkeeper Decision

Prior to the August 21, 2018 decision in *USWAG v. EPA*, EPA issued a final rule in July 2018. In this rulemaking EPA extended the deadlines for two categories of CCR surface impoundments to cease receipt of waste and to initiate closure: (1) Unlined CCR surface impoundments with a groundwater protection standard (GWPS) exceedance of an Appendix IV constituent² and (2) units that failed to

² A groundwater protection standard (GWPS) is established using the methods in § 257.95(h). For constituents with a maximum contaminant level (MCL), the GWPS is the MCL for that constituent. For the constituents that do not have an established MCL, the GWPS is the health-based levels EPA established in the July 2018 rule. If the background level is higher than the MCL or the health-based

meet the location criteria in 257.60(a) (requiring either a minimum five feet between the unit base and the uppermost aquifer or a demonstration that there will not be an intermittent, recurring, or sustained hydraulic connection between any portion of the base of the unit and the uppermost aquifer). These deadlines were extended until October 31, 2020.

The July 2018 final rule was challenged by Waterkeeper Alliance, who also requested an expedited review of the October 31, 2020 deadline. See *Waterkeeper Alliance Inc, et al. v. EPA*, No. 18–1289 (D.C. Cir. 2018) (*Waterkeeper* decision). On March 13, 2019 the court granted EPA's request to remand the July 2018 rule, "to allow the agency to reconsider that rule in light of th[e] court's decision in [*USWAG*]." This proposed rulemaking action reflects EPA's reconsideration to date of the current deadline of October 31, 2020 for unlined surface impoundments to cease receiving waste. EPA will address its reconsideration of other aspects of the July 2018 rule in subsequent rulemaking actions.

D. Reconsideration of October 31, 2020 Deadline To Cease Receipt of Waste

EPA is proposing to require that facilities cease placement of all wastes (both CCR and non-CCR) as soon as technically feasible. To determine what is technically feasible, EPA reviewed currently available construction and engineering data for each step that owners and operators need to take to cease the receipt of waste and initiate closure of the unit. Based on this review, EPA is proposing to establish a new deadline of August 31, 2020 for unlined surface impoundments to cease receiving waste.

However, the information that EPA reviewed also indicated that some of these facilities will not be able to complete all of the construction and/or engineering needed to cease receiving waste into their unlined impoundment(s) by this deadline. In addition, the *USWAG* decision brought in a new group of units that are required to close under § 257.101(a); specifically, "clay-lined" impoundments and unlined impoundments that were not leaking and were in compliance with all location restrictions. Facilities with such units did not anticipate having to cease using their surface impoundments prior to the *USWAG* decision. A number of these facilities only have the capacity to manage their CCR and/or non-CCR wastes in their existing unlined CCR

level, then background should be used as the GWPS.

surface impoundment(s) and will not be able to complete all of the construction and/or engineering necessary to stop using the unlined surface impoundment by the new deadline. Consequently, EPA is also proposing to establish procedures by which such facilities may obtain additional time to complete construction.

V. What is EPA proposing to amend?

This action proposes to amend the regulatory language to accurately reflect the aspects of the *USWAG* decision relating to compacted soil "clay-lined" CCR surface impoundments and the continued operation and closure of unlined CCR surface impoundments. It also presents the proposals resulting from EPA's reconsideration of the July 30, 2018 rule in light of the decision in *USWAG*. See *Waterkeeper Alliance Inc, et al. v. EPA* (*Waterkeeper* decision).

A. Definition of Compacted Soil Liner

The *USWAG* decision affected the regulatory definition of a "lined" CCR surface impoundment. The court vacated the provisions at § 257.71(a)(1)(i) that defined existing CCR surface impoundments constructed with a clay liner (*i.e.*, a compacted soil liner that met certain criteria) to be "lined," and, therefore, excluded from mandated closure under § 257.101(a). To reflect this decision, EPA is proposing to amend the CFR to delete subparagraph § 257.71(a)(1)(i). The EPA is also making conforming revisions to § 257.71(a)(3)(i) and § 257.71(a)(3)(ii), by deleting the references to subparagraph (a)(1)(i). In the remainder of this preamble the term "unlined CCR surface impoundment" is inclusive of the units that were formerly considered "clay-lined". Based on the data on the CCR publicly accessible websites there are 28 active surface impoundments that certified as "clay-lined". Of these 28, seven failed at least one location restriction and therefore would have been to close irrespective of the court decision.

B. Closure of CCR Surface Impoundments

As noted previously, the *USWAG* court held that EPA acted "arbitrarily and capriciously and contrary to RCRA" in failing to require the closure of all unlined surface impoundments and ordered that "the Final Rule be vacated and remanded with respect to the provisions that permit unlined impoundments to continue receiving coal ash unless they leak." See 901 F.3d at 449. The EPA interprets this as only a partial vacatur of section 257.101(a). The EPA interprets the court as having

vacated only the following phrase in § 257.101(a)(1): “if at any time after October 19, 2015 an owner or operator of an existing unlined CCR surface impoundment determines in any sampling event that the concentrations of one or more constituents listed in appendix IV to this part are detected at statistically significant levels above the groundwater protection standard established under § 257.95(h) for such CCR unit.” EPA does not interpret this as a vacatur of the entire provision because that would remove the requirement for such units to close and would be inconsistent with the holding that it was arbitrary and capricious for EPA not to have required unlined impoundments to close. With the vacatur of that phrase, § 257.101(a)(1) required owners and operators to cease placement of both CCR and non-CCR wastestreams into all unlined CCR surface impoundments, including those that were formerly “clay-lined”, no later than October 31, 2020.

The October 31, 2020 timeframe was established by the rule published on July 30, 2018 at 83 FR 36435, rather than by the original 2015 final rule. The July 2018 amendment had not yet been challenged when the USWAG court rendered its decision. Since the USWAG decision, however, the Waterkeeper Alliance challenged the EPA’s July 2018 rule, requesting expedited review of the October 31, 2020 deadline. In response, EPA requested a remand of the July 2018 rule, which the court granted on March 13, 2019 “to allow the agency to reconsider that rule in light of this court’s decision in [USWAG].”

1. EPA’s Reconsideration

The USWAG court faulted EPA for failing to fully estimate the risks associated with the continued operation (and leakage) of unlined impoundments and for failing to address the risks from allowing these units to continue to operate until they leak, holding that RCRA requires the Agency to determine that such risks would be acceptable under the § 4004(a) standard in order to authorize the continued operation of such units during this time. In the absence of such an assessment, the D.C. Circuit stated that, based on the record before the court, all unlined surface impoundment must cease receiving waste, whether or not the unit is leaking.

Further, any assessment to support continued operation likely would need to address the more recent information developed since 2015. For example, more recent data suggest that a greater number of units are leaking than EPA originally estimated during the

rulemaking. The EPA has also learned that some units were constructed such that the base of the unit is located within the underlying aquifer, conditions that were not evaluated in the 2014 risk assessment. Unfortunately, this new information is not presented in a form that can be readily incorporated into a nationwide risk assessment. Additionally, given the expedited timeframe needed to complete the reconsideration of the deadline for a unit to cease receiving waste and initiate closure, EPA was unable to develop a nationwide risk assessment of continued operation of these units.

However, many utilities currently could not immediately cease the placement of wastestreams into their surface impoundments without causing potentially significant disruptions to plant operations and thus the provision of electricity to their customers, as they lack additional capacity to manage these wastes elsewhere as laid out in their filings to the *Waterkeeper* court, as discussed further in the following section of this preamble. The *Waterkeeper* court recognized this, declining to vacate the July 2018 Rule partly because “EPA and the intervenors have shown that the consequences of vacatur would be disruptive.”

To address these competing considerations in a manner consistent with the statute and the D.C. Circuit’s decisions, EPA is proposing to require that facilities cease placement of all wastes (both CCR and non-CCR) as soon as technically feasible, and below describes what the agency considers this to mean. EPA considers that such a requirement would meet the RCRA § 4004(a) standard because it requires the facility to do what is possible in the shortest achievable time. The EPA cannot impose more protective measures than can be technically feasibly implemented, as the law cannot compel the impossible. *See USWAG* at 448; *Hughey v. JMS Development Corp.*, 78 F.3d 1523 (11th Cir 1996); *Cherry-Burrell Corp v. US*, 367 F.2d 669 (8th Cir 1966). The EPA also considers that requiring facilities to expedite the initiation of closure of unlined surface impoundments is consistent with the court’s finding that further evidence is needed to permit such units to continue to operate. *See Id.* at 429–430. The EPA currently lacks such evidence on a national level, and it does not anticipate being able to develop such information in the near-term.

To determine what is technically feasible, EPA evaluated the steps that owners and operators need to take to cease receipt of waste and initiate closure. For each surface impoundment,

the precise steps and the actual time needed to complete each step are unique. However, each unit must undertake the same fundamental steps in order to cease receipt of waste and initiate closure. The first and most important step to cease receipt of waste in an unlined CCR surface impoundment is that the CCR and/or non-CCR wastestreams need to be diverted to another unit (*i.e.*, alternate disposal capacity). Based on information from industry stakeholders, EPA understands that alternate capacity will need to be developed for these wastestreams at a number of these facilities. Consequently, EPA began by evaluating the various types of alternate capacity currently available and the processes and time frames necessary for facilities to implement them to be able to cease receipt of waste and initiate closure.

2. Alternate Capacity Approaches

Alternate capacity must be developed for the wastestreams that are being disposed of in the impoundment. The alternate capacity could range from the construction of a new CCR surface impoundment, to a new non-CCR wastewater basin, to the development of a wastewater treatment unit or to the conversion to dry-handling of CCR. These alternate capacities require various times for construction and incorporation into plant operations. In addition, the engineering and design for each of these capacities requires a different timeframe and is highly dependent on the current plant design, complexity of the wastestreams going into the new alternate capacity, and the volume of wastestreams needing to be rerouted.

Industry stakeholders submitted information to EPA on the time needed to develop various types of alternate capacity. The EPA also examined the declarations submitted in the *Waterkeeper* decision briefs and the closure plans on the publicly accessible websites. Few closure plans contained information on the time the facility planned on needing to cease receipt of waste prior to beginning closure. If a closure plan did indicate an amount of time needed to prepare for initiation of closure, it did not discuss the specific processes that were occurring during that amount of time. As a result, EPA relied principally on the industry stakeholder submissions on timing to initiate closure and the declarations from the *Waterkeeper* briefs. The EPA found from examining these sources of information, there are six main approaches for alternate capacity. The main approaches of alternate capacity

and the average time to complete them are:

1. *Conversion to Dry Handling*: 36 months
2. *Non-CCR wastewater basin*: 21 months
3. *Wastewater Treatment Facility*: 16 to 21 months
4. *New CCR surface impoundment*: 27 months
5. *Retrofit of a CCR surface impoundment*: 31.5 months (shorter is possible for small surface impoundments, 4 to 12 months)
6. *Multiple technology system*: 21 to 36 months

Each of these approaches for alternate capacity are discussed further in the subsequent sections of this preamble. The discussion for each approach examines the average time required to complete the approach and have the capacity operational. This average amount of time captures some of the variability due to site-specific needs and provides for a more accurate national benchmark of how long it will take to develop that specific alternate capacity approach.

(a) Conversion to Dry Handling of CCR

Based on information submitted by stakeholders, many facilities are converting to the dry handling of CCR. The conversion to dry handling lowers the amount of water used at the plant and reduces the need for CCR surface impoundments. The conversion process for the various sluiced CCR wastestreams can be complex and lengthy. The conversion to dry handling for some CCR wastestreams has taken 36 months at some facilities.³ Based on information collected in conjunction with the Effluent Limit Guidelines (ELG) rule, EPA believes that the 36-month timeframe is a reasonable central tendency estimate of the time need to complete the conversion to dry handling. Depending on the system installed to transport the bottom ash, it is possible for the conversion process to be completed faster or slower. An engineering firm estimated the following times for each phase for completing the conversion to dry handling of CCR.⁴ The phases to complete the conversion to dry handling includes a planning, design and engineering phase (approximately 6 months), procurement and contractor bid phase (approximately 5 months), fabrication and delivery of new

equipment phase (approximating 16 months), and lastly a construction and transition phase (approximately 21 months). The timeframes for each phase are dependent on the site-specific circumstances of the plant such as plant size, the number of boilers at the plant, number and volume of wastestreams affected by the conversion, and location of the plant.

During the planning, design and engineering phase the facility must conduct a complete water mass balance of the plant and figure out how the water mass balance will change with the implementation of the new dry handling machinery. The water mass balance determines the number and volume of flows going into the plant and produced by the plant. It also analyzes the chemical composition, the flow path, the volumetric flow rate, and temperature of each wastestream. Conversion to dry handling requires an overhaul to the water mass balance of the plant and reconfiguration of water streams in the operation of the plant. To assist in the reconfiguration of the water streams of the plant a new process flow diagram (PFD) and piping and instrument drawing (P&ID) for the plant will need to be developed. A PFD depicts the general flow of the plant processes and the equipment. The P&ID shows more detail than the PFD by including minor flows, control loops, piping details, and instrumentation. The design of the new P&ID and PFD is a critical planning step to properly transition plant operations to dry handling. These diagrams assist engineers in selecting the correct grade, material, and size of piping for the volume and compositions of wastestreams being rerouted during the conversion process.

Once the engineering and design phase is complete, the design can go out for procurement and contractor bidding. This second phase of the conversion process is approximately 5 months. During this phase the project is put out for contractor bid and is awarded. Once a contractor is selected the necessary equipment is ordered, fabricated, and delivered to the site. In the timeline provided by an engineering firm the fabrication and delivery of the equipment phase has approximately 9 months of overlap with the construction phase of the conversion process. The delivery of the equipment is coordinated with the construction schedule. The main process of the construction phase is changing how the bottom ash is removed from the bottom of the boiler. Other steps during the construction phase can also involve the building of a new power house, new

process building, new power supplies and lines, new pneumatic lines and piping, new dry ash storage silos, new filter separators, and new piping.

Facilities currently remove bottom ash from the boiler by letting the bottom ash fall to the bottom of the furnace and then quenching it in a water-filled hopper. Most plants then sluice (using water to transport) the ash from the hopper to a CCR surface impoundment. There are various systems a facility can install to convert to dry handling of bottom ash. The most common systems are remote drag chain systems and dense slurry systems. The remote mechanical drag system requires the installation of a drag chain conveyor that pulls the bottom ash out of the water filled hopper to dewater the ash and transport it to a storage silo or truck. The dense slurry system uses a dry vacuum to transport the ash to a silo where it is then mixed with a small amount of water to be pumped to an onsite landfill. There are other conveyor systems a facility may install in lieu of the two previously mentioned such as a mechanical drag system, dry mechanical conveyor, vibratory belt system, or submerged grind conveyor where the system involves installing a conveyor system directly underneath the boiler. These systems replace the pumping and piping system currently in place to transport the sluiced CCR to the existing CCR surface impoundment. The removal of the sluicing process flows requires modifying the boilers. To capture and transport dry CCR, a conveyer system needs to be installed under the boiler, which cannot be installed while the boiler is online. Duke Energy stated that the installation of a submerged conveyer system required a 12-week outage of the boiler.⁵ Therefore, the construction schedule must be carefully orchestrated with scheduled boiler shutdown.

The facility is required to schedule and agree upon boiler shutdown periods with their Regional Transmission Organization (RTO) to ensure grid reliability. Most plants have regular boiler shutdowns on an annual basis with a more substantial one every few years. Since regular boiler shutdowns are already scheduled, the facility should plan the construction around the already scheduled outage; however, the outage may need to be extended depending on the work needing to be completed for the conversion. The RTOs require various lead times of consultation or notice prior to any retirements, outages, or extended

³ See Southern Company timing to initiate closure information submission and Southern Company comments from Phase 1 proposal in the docket.

⁴ See *What Happens to My non-CCR Streams?* in the docket.

⁵ See Duke Energy timing to initiate closure information submission in the docket.

periods of non-operation. For example: Midcontinent Independent System Operator (MISO) requires at least 26 weeks, Electric Reliability Council of Texas (ERCOT) requires at least 22 weeks, and PJM requires at least 13 weeks.⁶

Once the sluicing process flows are removed and the construction is completed, the plant is fully transitioned to dry handling. At this point in time the facility no longer needs the CCR surface impoundment for CCR wastestreams and can cease receipt of CCR. Information submitted to EPA suggests that the process to complete the conversion to dry handling for a facility requires the most amount of time (36 to 48 months) out of all the alternate capacity methods; however, a majority of coal-fired plants have completed the conversion to dry handling. Based on information collected in conjunction with the ELG rule, approximately 20% of coal-fired plants are still producing bottom ash being sluiced to a CCR surface impoundment. The remaining 80% have either converted to a complete dry handling system or are using a system recycling their wet sluicing bottom ash streams.⁷ The facilities that are managing their CCR dry, are either storing it in silos to be beneficially reused or they are disposing the CCR in a landfill. To accommodate the influx of CCR, new landfills or landfill cells may need to be constructed, in the event off-site disposal options are already at full capacity or otherwise not available. The EPA did not receive any information from stakeholders on the time needed or the process to construct a new landfill. Therefore, the construction of a new landfill is not discussed in this section. However, it is possible a facility may be constructing a new landfill for alternate capacity. The EPA seeks comment on whether landfills are being constructed for alternate capacity and if so, the specifics for the steps and time involved.

Several stakeholders are currently using CCR surface impoundments for disposal of only non-CCR wastestreams, discussed more in the section below, after the conversion to dry handling. For some facilities prior to the USWAG decision, it was unnecessary to build a new basin for non-CCR wastestreams

after converting to dry handling or switching to natural gas due to the ease of using the existing disposal unit. Some facilities have indicated they planned to construct a new non-CCR wastestream basin during the conversion process and are able to complete the non-CCR wastestream basin concurrently with the conversion construction. Facilities that are operating a completely dry handling system or who have switched to natural gas may lack alternate capacity for the non-CCR wastestreams disposed of into the CCR surface impoundment.

(b) Non-CCR Wastestream Basins

Some examples of non-CCR wastestreams are coal pile run-off, leachate collection, storm water collection, process recycle water, boiler blow down, and chemical metal cleaning waste. To meet the need for handling non-CCR wastestreams a facility may decide to construct a basin for the non-CCR wastestreams, assuming they have the space to construct the new unit. Since, the CCR design criteria and groundwater monitoring network regulations do not apply to new non-CCR wastestream basins, such units may be constructed faster.

The EPA has received data from stakeholders stating the process of building and transitioning from a unit that comingled CCR and non-CCR wastestreams to a non-CCR wastestream only basin takes 18 to 41 months to complete.⁸ The variation of time needed to complete the basin is often due to permitting processes and site-specific construction factors. The low end of the time range is derived from stakeholder provided information indicating that all the other phases of constructing the basin can happen concurrently with permitting, resulting in completion of the basin in 18 months.⁹ While the high end of the range is derived from information provided by another stakeholder indicating that only limited steps can happen prior to approval of all permits, which made the overall timeframe significantly longer (a high end estimate of 41 months).¹⁰ However, when removing the permitting timeframe considerations from the schedules both stakeholders provided, the average time to design, engineer, and construct a non-CCR wastewater basin is 21 months. This average amount of time captures some of the variability due to site-specific needs and provides for a more accurate national

benchmark. The phases to complete the non-CCR wastestreams basin are an engineering and design phase (approximately four months), a contracting, procurement, and construction phase (approximately 16 months), and a start-up and testing phase (one month).

The engineering and design phase is the first step in construction of the basin. The engineering and design phase takes approximately four months to complete. The engineering phase includes site survey, engineering and design of the basin, design of the new piping to be installed, and designing a new process flow diagram of how the new basin will be connected to plant operations. The basin design is critical to ensure there is proper residence time and the construction materials selected are compatible with the water chemistry of the non-CCR wastestreams. The residence time is the necessary time for any reactions or settling to be completed before the wastewater is recycled back to the facility or discharged. The design of the new piping and the process flow diagram is a critical planning step to properly incorporate the new basin into plant operations. The diagram assists engineers in selecting the correct grade, material, and size of piping for the volume and compositions of wastestreams being routed into and out of the new non-CCR basin.

The next phase of contracting, procurement, and construction occurs after the completion of the engineering and design. This phase takes approximately 16 months to complete. The design from the first phase is put out for contract selection and the necessary equipment is ordered and delivered. During the procurement process the necessary materials, such as the correct type and amount of piping and the materials to construct and line the basin are selected, as well as any equipment or machinery needed to assist in installation and construction are ordered and delivered to the facility. The equipment is commonly delivered in accordance with the construction schedule. The procurement and construction periods typically have a large amount of overlap with each other due to equipment being ordered and delivered to the facility as it is needed during construction. The approximate time to complete construction for a non-CCR wastewater basin is 14 months. This timeframe includes the construction of the new basin, installation of the liner material selected, such as concrete, rerouting and installation of new piping to the new non-CCR wastewater basin, and installation of any mechanical and

¹⁰ See TVA timing to initiate closure information submission in the docket.

electrical components such as pumps and valves. The timeframe for construction could be quite variable depending on environmental conditions, the procurement of materials, the site design, and the size of the basin being constructed. For example, if the facility layout requires the new basin to be constructed farther away from the plant than the existing surface impoundment, or if the basin is large in size, or if the site of the new basin requires a large amount of preparation such as leveling or clearing of plants, trees, or other debris, or if the basin is being constructed in an area of the plant with limited ingress and egress, then the speed of construction could be affected. In addition, depending on the location of the facility there could be delays and limitations to the construction schedule due to weather. For example, one stakeholder indicated their site has experienced many delays in construction and delivery of equipment due to the hurricanes in the past year.¹¹ As a result, the facility is now behind schedule and having to redo previously completed work. Similarly, if the plant is located in a cold climate area, the construction schedule will be implemented around the thawing and freezing of the soil.

The startup and testing of the new basin is the final phase. This step takes approximately one month to complete however it may vary depending on the site-specific conditions to achieve proper outfall water chemistry and settling time of the basin. The basin is engineered to have a specific residence time to obtain proper water chemistry and settling time. Both of these design factors are important to obtain the proper water outfall chemistry to meet the National Permit Discharge Elimination System (NPDES) standards. Prior to allowing the basin's outfall to be discharged, the water chemistry needs to be tested to ensure it meets the NPDES standards. If the outfall does not meet the standards, the operating conditions will have to be adjusted, such as flow rate into the basin to adjust residence time and settling time. Alternatively, the water from the basin may not be discharged and may be recycled back to the plant. The recycle stream would need to meet the site-specific standards for the given facility. Additionally, the water could also be treated downstream from the basin prior to discharge, for example a series of basins or in water treatment facility. These factors can lead to a longer

startup phase for the basin. Once proper water chemistry and settling times are achieved, the new basin is fully operational, and the old CCR surface impoundment can cease receiving waste. Once proper water chemistry and settling times are achieved and treatment standards are met, the new basin is fully operational, and the old CCR surface impoundment can cease receiving waste.

Since some facilities have not or will not convert to dry handling, there are some facilities that still require capacity for their wet CCR wastestreams. These facilities most likely will not be able to solely rely on a non-CCR wastestreams basin because the liner usually does not meet the requirements of the CCR rule; therefore, non-CCR wastestream basins are unable to accept CCR. Under the current Part 257 regulations, a facility has two main options for managing wet CCR wastestreams, a wastewater treatment facility and a CCR surface impoundment.

(c) Wastewater Treatment Facility

The development of a wastewater treatment facility would provide one type of alternate capacity for facilities. A wastewater treatment facility is able to remove heavy metals and reduce the amount of Total Dissolved Solids (TDS) and Total Suspended Solids (TSS) from the wastestreams. Wastewater treatment facilities can potentially utilize a vast number of components and methods for treatment. One method of water treatment facility is a chemical precipitation system. Based on information obtained in connection with the development of the Effluent Limit Guidelines (ELG) rule, the development, construction, and implementation of this type of wastewater treatment unit would take on average 16 to 21 months. This range of time is highly dependent on the volumes of the wastewater streams that need to be treated. There are a variety of materials to choose from to construct the treatment tanks. One type of water treatment tank is concrete treatment tanks.¹² A system utilizing concrete tanks is capable of handling large volumes of CCR wastestreams such as bottom ash transport water; however, it greatly increases the amount of time to complete the system. The total time needed to complete construction of concrete treatment tanks is approximately 27 months. The time needed for the concrete treatment tanks

is longer due to a longer start up and transitioning phase.

The water treatment facilities are completed in 5 phases: (1) Initial engineering and design (approximately 3 months), (2) contractor selection (approximately 3 to 5 months), (3) finalization of engineering and design (approximately 2 to 3 months), (4) equipment procurement, and construction (approximately 7 to 8 months), and (5) start up and transitioning (approximately one month).

The initial engineering and design phase mainly focus on the evaluation of the water mass balance of the plant. On average approximately three months are needed complete this first phase of the initial engineering and design. To evaluate the water mass balance of the plant, all the water streams coming into the plant, going out of the plant, and any specific steps that would change the water chemistry need to be evaluated for volumetric flow rate and chemical composition. At large facilities, complex water balances are common, which require more time than three months for the initial engineering evaluation and design. A complex water mass balance contains numerous water streams, with variable composition changes within a stream, and various volumes and flow rates. The more water streams there are, the more complex, and challenging it is to determine the overall water mass balance for the plant. One stakeholder indicated a simple water mass balance at a plant had nine wastestreams; whereas, a significantly more complex water mass balance at a plant had over 50 wastestreams.¹³

After the first phase of the initial engineering and design, the owner or operator is then able to put the project out for contractor bidding, thus beginning the second phase of contractor selection. The bidding and selection of the contractor is typically three to five months. The range in time is driven by the complexity and volume of wastewater. Large volumes and complex flows mean that it will take longer to properly submit an initial design of the wastewater treatment facility. This in turn makes the bidding and selection process longer as well. The initial design of the water treatment facility includes the recommended treatment methods and the order in which they should occur, and the recommended materials for the treatment methods.

After selection of the contractor, the third phase is finalization of engineering

¹¹ See Southern Company timing to initiate closure information submission in the docket.

¹² See declaration of Jeffery Jenkins, Arizona Public Service in the docket.

¹³ See Southern Company comments on Phase 1 proposed rule in the docket.

and design. Two to three months are typically needed to complete this second step of engineering and design phase. The design process could extend past this timeframe if the wastestreams are complex and large in volume. During this phase, the design from the contractor bid and selection is finalized and fine-tuned. This finalization of the design for the wastewater treatment facility ensures the water mass balance was done correctly and selects the necessary technologies, proper equipment, and chemicals needed for each treatment stage. This stage also ensures the materials selected are compatible with the water chemistry, and the order of treatment methods achieve maximum treatment efficiency for the plant's operations.

Once the finalization of engineering and design phase is complete, the necessary materials must be obtained and installed during the fourth phase, procurement and construction. This phase requires approximately seven to eight months to complete. Some necessary materials are treatment tanks, piping, polymer and instrumentation. The procurement period typically can take five months. However, if the wastestreams are large in volume or if the water chemistry is particularly complex, the equipment will need to be custom ordered and require longer fabrication times which could lead to a procurement time of 12 months or longer. For example, one stakeholder indicated for a complex water mass balance system of more than 50 wastestreams with streams that contain a high amount of variability, that the procurement period (procure, fabricate, and deliver to the site) took 13 months.¹⁴ Installation can take approximately two to three months.

The final phase is start up and transitioning the wastestreams to the water treatment facility and conducting system testing to ensure it is running properly and effectively treating the water to meet the discharge levels or recycled water requirements. The discharge of the water treatment facility is required to meet NPDES discharge limits. Such limits may include for example maximum amount of Total Suspended Solids (TSS), oil and grease, and iron and copper for metal cleaning wastes.¹⁵ The treatment system will need to be tuned and periodically checked to ensure the discharge is within the acceptable limits. The treatment is able to be tuned by

adjusting the flow rate, the amount of reactants in the system, and the recycle stream flow rates. This process can be as short as one month, however for the concrete treatment tanks this phase can take 9 months to complete. Once the treatment facility has completed start up testing, the CCR surface impoundment is no longer needed. The owner or operator can then initiate closure because the wastestreams are rerouted to the water treatment facility and waste is no longer being received in the CCR surface impoundment.

(d) New CCR Surface Impoundment

Facilities may have the need to construct a new CCR surface impoundment rather than a water treatment facility. A CCR surface impoundment could be capable of handling a wider variety of CCR and non-CCR wastestreams both in chemical composition and in volume. A new CCR surface impoundment takes on average 27 months to construct. This average was obtained from available data submitted by stakeholders indicating how long it will take to construct a new surface impoundment in compliance with the CCR rule.^{16 17 18}

The construction timeframe includes four phases: (1) Engineering and design, (2) permitting, (3) obtaining contractors, equipment and construction, and (4) system testing. The first phase of engineering and design takes on average six months to complete. During the engineering phase the new surface impoundment is designed to be the proper size, the site survey conducted, the liner materials selected, and designing any necessary methods to transport the wastestreams to the new surface impoundment. The new surface impoundment must be designed to specific dimensions (length, width, and depth) to achieve the necessary residence time for the volume of wastestreams disposed of into the surface impoundment. The residence time is a critical design element of the surface impoundment because it allows the wastestreams to undergo the proper settling time and treatment time to obtain proper water chemistry at the outfall to meet appropriate discharge limits. The residence time assists in determining the necessary size of the surface impoundment.

The second phase, permitting, can take between 6 to 18 months to complete. This phase of construction is

highly variable depending on the type of permit(s) needed and the state's permit application processing time. In some cases, the other phases such as obtaining contractors, equipment and construction can continue and have some overlap with the permitting phase. The EPA acknowledges that in some rare circumstances the permitting process may take significantly longer. For example, one stakeholder indicated that due to the necessary permits for constructing the surface impoundment, they are unable to proceed with the next phases until the permit applications are approved.¹⁹ For this stakeholder, the process of needing the permit to be approved prior to the next step added 19–25 months to time needed to complete a new surface impoundment.

The third phase is obtaining contractors, purchasing materials and equipment, and completing construction. This phase on average takes 14 months to complete. This phase includes contractor selection, material procurement, construction of the surface impoundment, liner installation, and installation of piping, any other machinery, and/or electrical components to transport the wastestreams to the new surface impoundment. Depending on the size of the surface impoundment and the location of the facility it is possible the construction phase may take longer or shorter than 14 months. The average of 14 months was obtained by averaging the timeframes provided by the stakeholders who indicated the need to construct a new surface impoundment. The shortest timeframe to obtain contractors, equipment, and construct the impoundment was 10 months for a small surface impoundment of 7 acres.²⁰ The longest timeframe to construct a new impoundment is approximately 12 months due to the facility being located in a cold climate and is only able to plan on performing construction from late April to late October thus requiring two construction seasons to complete the work.²¹

The new CCR surface impoundment is required to be constructed with the new CCR surface impoundment liner requirements in § 257.72. This requires a composite liner containing an upper component of a 30-mil geomembrane liner (GM) and a lower component of two feet of compacted soil with a

¹⁹ See declaration of Rudy Navarro Jr., Salt River Project Agricultural Improvement and Power District and timing to initiate closure information submission.

²⁰ See declaration of Jeffery Jenkins, Arizona Public Service in the docket.

¹⁴ See Southern Company comments on Phase 1 proposal in docket.

¹⁵ See "What Happens to my non-CCR Streams?" in the docket.

¹⁶ See Southern Company timing to initiate closure information submission in the docket.

¹⁷ See Excel Energy timing to initiate closure information submission in the docket.

¹⁸ See declaration of Jeffery Jenkins, Arizona Public Service in the docket.

hydraulic conductivity of no more than 1×10^{-7} centimeters per second (cm/sec). A GM consisting of a high density polyethylene (HDPE) must be at least 60 mil thick. An alternate composite liner may be allowed if it follows the requirements outlined in § 257.70(c). During the construction phase, the installation and sampling of the groundwater monitoring system should be completed. The new groundwater monitoring wells must be placed at the unit boundary per § 257.90(a)(2). The new CCR surface impoundment is required to comply with the groundwater monitoring requirements in § 257.90(b)(2). This includes installation of a groundwater monitoring system (see § 257.91), completion of eight background samples, and the first round of detection monitoring. These groundwater monitoring requirements must be concluded prior to placement of waste in the new CCR surface impoundment. In rare scenarios, the installation of the new groundwater monitoring wells may not be able to be done during the construction of the new unit. This process could add a minimum of 14 months to the start-up of a new CCR surface impoundment.²² The minimum of 14 months accounts for two months to install the necessary monitoring wells and 12 months to complete the eight background samples to accurately capture any seasonal variation.

The final phase of construction is the startup and transition phase. This phase can take up to a month to complete. Once the sampling of the new groundwater monitoring system and construction of the surface impoundment is complete, the CCR and non-CCR wastestreams can be diverted to the new CCR surface impoundment from the existing CCR surface impoundment.

(e) Retrofit of Existing Unlined CCR Surface Impoundment

Some stakeholders indicated plans on retrofitting a part or an entire existing unlined CCR surface impoundment at a facility.^{23 24} For some facilities this may be the only option available for developing alternate capacity due to space limitations at the site or being unable to acquire more land to build alternate capacity.

One stakeholder indicated the necessary time to retrofit an impoundment is approximately 64.5

months including a six-month buffer.²⁵ Therefore, the total time minus the six-month buffer is 58.5 months. This stakeholder's submission involves retrofitting four CCR surface impoundments sequentially. The timeline included: 4 months to prepare and select an engineering firm, 7 months to finalize engineering designs and prepare construction bid documents, 5 months to bid and select a construction firm, and 6 months to receive materials and equipment and reroute non-CCR wastestreams. Additionally, the stakeholder indicated the time needed to dewater, remove ash, and reline takes 9 months per surface impoundment. The largest surface impoundment at the facility is approximately 50 acres. Therefore, the total time needed to retrofit a single pond, large in size, including engineering, design, bidding and selecting engineering and construction firms, and retrofit construction would take approximately 31.5 months. This is a reasonable estimate for a complete retrofit for a pond of this size considering the time needed to complete construction for a new surface impoundment. The EPA would expect the retrofit of a surface impoundment to take longer than the construction of a new unit because of the time needed to dewater and remove the CCR.

From data on the CCR publicly accessible websites, a couple of facilities, Keystone Generating Station (PA), Weston Generating Station (WI), and Mt. Storm Power Station (WV), have completed retrofits of CCR surface impoundments.²⁶ These facilities completed retrofitting CCR surface impoundments in 4 to 12 months. However, these ponds were small in size with the largest being 9 acres and the smallest 1.3 acres. The EPA would expect smaller surface impoundments to be able to be retrofitted in less time than larger surface impoundments. There is less water and ash to remove from the surface impoundment and a smaller surface area to reline.

The existing CCR surface impoundment is required to be retrofitted in accordance with § 257.102(k). First, the owner or operator must prepare a written retrofit plan in accordance with § 257.102(k)(2). After the retrofit plan is complete, the first step in retrofitting an existing surface impoundment is to drain the liquids from the impoundment and

remove all the existing CCR from the unit. While the surface impoundment is undergoing retrofit, the owner or operator is required to remain in compliance with the other aspects of the CCR rule including corrective action.

Once the CCR is removed, the new surface impoundment can be constructed. The new surface impoundment is constructed as described previously and must be in compliance with the liner requirements at § 257.72. If the retrofit process changed the waste boundary for the new surface impoundment, then a new groundwater monitoring system will need to be installed. An additional 14 months could be needed for proper installation and sampling of the new groundwater monitoring system. If a new groundwater monitoring system is needed the wastestreams can only be diverted into the newly retrofitted CCR surface impoundment once the initial sampling of the new groundwater monitoring system is complete. If the waste boundary of the retrofitted surface impoundment does not change, then a new groundwater monitoring system may not be needed, eliminating the need for the additional 14 months.

(f) Multiple Technology Systems

Some stakeholders have indicated that they are utilizing multiple alternate capacity technologies,²⁷ such as constructing both a water treatment facility and either a non-CCR wastewater basin or a new CCR surface impoundment. Stakeholders have indicated that the construction of the water treatment facility can occur at the same time as the construction of the new basin or CCR surface impoundment. Therefore, the overall timeframe for implementing a multi-unit system at the facility can take a similar amount of time as implementing just a single technology. However, the design phase could be expected to last a few months longer due to the overall system being more complex. The overall time for constructing a multiple technology system ranges from 16 to 30 months. This is highly dependent on which of the previously discussed alternate capacities are being constructed and how much of the construction can overlap of each system being installed.²⁸ These timeframes do not include the time required for engineering, design, and permitting. The average amount of time for engineering and design for the previously discussed

²² See declaration of Jeffery Jenkins, Arizona Public Service in the docket.

²³ See Duke Energy timing to initiate closure information submission in the docket.

²⁴ See declaration of Jeffery Jenkins, Arizona Public Service in the docket.

²⁵ See Cynthia Vodopivec of Vistra Energy Corporation letter in the docket.

²⁶ See Compiled Retrofit Plans from Keystone Generating Station, Weston Generating Station, and Mt. Storm Power Station in the docket.

²⁷ See declaration of Jeffery Jenkins, Arizona Public Service in the docket.

²⁸ See Duke Energy timing to initiate closure information submission in the docket.

capacities is 5 months. Therefore, the overall time to construct and start up a multiple technology system is approximately 21 to 36 months, assuming permitting can happen concurrently with the other steps. However, there may be instances that permitting cannot be completed concurrently. EPA is unable to estimate the timeframe for this process since it is site specific. EPA requests comment on the timeframe it would take to obtain permits.

3. Establishment of New Cease Receipt of Waste Deadline

(a) Amendments to Closure Due to Groundwater Monitoring (§ 257.101(a))

The time needed to construct alternate capacity for both CCR and non-CCR wastestreams is critical in determining how much time facilities truly need to cease receipt of waste. The previous section of this preamble discussed the various approaches a facility may develop and incorporate alternate capacity into plant operations to enable CCR surface impoundments to cease receipt of waste and initiate closure. The following summarizes the approaches and the average time required for each:

1. *Conversion to Dry Handling*: 36 months
2. *Non-CCR wastewater basin*: 21 months
3. *Wastewater Treatment Facility*: 16 to 21 months
4. *New CCR surface impoundment*: 27 months
5. *Retrofit of a CCR surface impoundment*: 31.5 months (shorter is possible for small surface impoundments, 4 to 12 months)
6. *Multiple technology system*: 21 to 36 months

By using the construction and implementation timeframes summarized above for the various alternate capacity approaches the average amount of time required to obtain alternate capacity is 22.5 months. This timeframe, although an average, would appear to provide enough time for a substantial proportion of facilities to comply. It is only 1.5 months longer than the average time estimated to be needed to construct a non-CCR wastewater basin, as well as the outer bound of the time needed to construct a wastewater treatment facility, and the shortest amount of time needed to construct a multiple technology system. The primary outliers would be facilities converting to dry handling or retrofitting an existing CCR surface impoundment. However, many facilities have already converted to dry handling; EPA estimates that

approximately 80% of coal-fired plants that at one time employed wet handling of CCR waste have already converted to dry handling.²⁹ Furthermore, 22.5 months would be a sufficient amount of time to retrofit most but the largest surface impoundments and smaller surface impoundments with unique design situations or in locations that will require more time. Consistent with ensuring that this transition occurs as quickly as technically feasible, EPA considers that these outliers shouldn't extend the time for the remainder of facilities, as the outliers can be accommodated by the proposed alternative closure provisions discussed in the next section.

The EPA has chosen to rely on a single average construction time to establish the new deadline for several reasons. First, as just discussed, 22.5 months would provide sufficient (but not excessive) time for a substantial proportion of facilities, under a variety of approaches. Second, EPA recognizes that some facilities will need less than the average amount of time to complete construction and some will need more. Each of the averages summarized above reflects ranges of estimated construction times, which can vary depending on site conditions and the specific facility operations. To reliably determine which facilities need less time, EPA would need to make individual facility-specific determinations. The EPA is concerned that trying to craft individualized time frames would ultimately result in longer delays in the initiation of closure for a greater number of facilities than would potentially be caused by reliance on an overall average that most facilities can meet. Based on similar concerns, EPA is proposing to establish an individualized variance process that is intended to be used infrequently to address unusual or unique situations; and to ensure that such requests are infrequent, EPA has attempted to craft a regulatory deadline that most facilities can confidently meet.

Although a single deadline has a number of advantages, EPA recognizes that a single deadline is necessarily less precise; some facilities may in fact be able to construct alternate capacity more quickly than EPA's proposed deadline. Therefore, EPA is considering an alternative under which the deadline would vary according to the technology adopted. For example, a facility that

chose to install a non-CCR wastewater basin would have a different deadline than a facility that constructed a new wastewater treatment facility. The various timeframes could be based on the averages presented earlier in this section. The EPA is concerned that this option could be challenging to implement and track compliance. The EPA is also concerned that this approach may not result in measurably shorter time frames for most facilities, given the range of estimates discussed above, and could lead to a greater number of variance requests. EPA requests comment on this approach, including, for example, whether this more complicated regulatory approach will result in measurably shorter time frames for most facilities.

Accordingly, EPA considers 22.5 months to represent the fastest technically feasible timeframe needed to construct alternate capacity and for CCR surface impoundments to cease receipt of waste.

Therefore, EPA is proposing a new date of August 31, 2020 for facilities to cease placement of CCR and non-CCR wastestreams into unlined surface impoundments. The EPA believes, based on its technical feasibility analysis, that many facilities will be able to meet this date. The court's mandate for the *USWAG* decision was issued on October 15, 2018, and by adding the 22.5 months to that date, the new cease receipt of waste deadline becomes August 31, 2020. The EPA is seeking comment and specifically data, on the time needed to develop alternate capacity at the various facilities that are currently developing alternate capacities for their CCR and non-CCR wastestreams. The data submitted during the comment period will be used to strengthen EPA's analysis of the time needed to develop alternate capacity. Based on this information, EPA could revise its calculations and could potentially change the cease receipt of waste deadline.

The EPA considered that the start of the 22.5 months could instead be from the *Waterkeeper* decision date of March 13, 2019. However, given that the language of the *USWAG* decision was clear that all units that do not have a composite or alternate liner will be required to cease receiving waste and close EPA believes that owners and operators of unlined CCR surface impoundments would have started preparing for such an event upon issuance of the mandate on October 15, 2018. This is consistent with information received from industry stakeholders.

²⁹ "Supplemental Technical Development Document for the Reconsideration of the Effluent Limitations Guidelines and Standards for the Steam Electric Power Generating Point Source Category." See Effluent Limitations Guidelines and Standards for the Steam Electric Power Generating Point Source Category docket (EPA-HQ-OW-2009-0819).

Accordingly, EPA is proposing to amend the regulatory language of § 257.101(a)(1) to delete the phrase, “if at any time after October 19, 2015 an owner or operator of an existing unlined CCR surface impoundment determines in any sampling event that the concentrations of one or more constituents listed in appendix IV to this part are detected at statistically significant levels above the groundwater protection standard established under § 257.95(h) for such CCR unit.” The proposed new regulatory language of § 257.101(a)(1) will read “Except as provided by paragraph (a)(3) of this section, no later than August 31, 2020, an owner or operator of an existing unlined CCR surface impoundment must cease placing CCR and non-CCR wastestreams into such CCR surface impoundment and either retrofit or close the CCR unit in accordance with the requirements of § 257.102.”

Additionally, EPA is making a conforming change to § 257.91(d)(2), which contained similar language. Specifically, EPA is deleting all of § 257.91(d)(2), which clarified how the closure requirement applied in the context of a groundwater monitoring system that covers multiple unlined impoundments. Since all unlined CCR impoundments must now close or retrofit, this clarification is no longer relevant.

(b) Amendments to Closure Due to Location Restrictions (§ 257.101(b)(1))

The October 2020 date applied not only to the unlined leaking units subject to § 257.101(a), but also to the units that failed the minimum depth to aquifer location restriction standard subject to § 257.101(b)(1)(i). Therefore, EPA is proposing that the deadline to cease receipt of waste for these units also be amended to August 31, 2020. This new date was selected based on the same rationale explained previously. These units are similarly situated in that these facilities need additional time to develop alternate capacity to transition away from their surface impoundments. As previously discussed, based on the data from and information received from stakeholders, EPA calculated that the average amount of time to take the necessary steps to cease placement of waste into a surface impoundment is approximately 22.5 months. In addition, based on the data on facilities’ public websites regarding compliance with the location restriction standards, the majority of the units that failed the aquifer location restriction are also unlined and must close under § 257.101(a). It is therefore logical to establish the same deadline of August

31, 2020 to cease receipt of waste. The EPA believes it is technically infeasible for a majority of these units in question to be able to cease receipt of waste prior to August 31, 2020 due to the lack of alternate capacities and the immediate initiation of closure that requires units to cease receiving waste that would cause disruptions to operations at the power plants. Therefore, EPA is proposing the date of August 31, 2020 for the cease placement of waste for § 257.101(b)(1)(i) to replace the current date of October 31, 2020 established in the July 2018 Final Rule.

The amended regulatory language of § 257.101(b)(1)(i) would read “Except as provided by paragraph (b)(4) of this section, the owner or operator of an existing CCR surface impoundment that has not demonstrated compliance with the location standard specified in § 257.60(a) must cease placing CCR and non-CCR wastestreams into such CCR unit no later than August 31, 2020, and close the CCR unit in accordance with the requirements of § 257.102.”

C. Alternate Closure Standards

The information that EPA has reviewed indicates that some facilities will be unable to cease receiving waste by the new deadline of August 31, 2020. In some cases, it may be due to circumstances beyond the facility’s control, such as extreme weather. Similarly, delays may result from permitting requirements; as previously discussed some states do not allow construction to begin until all permits have been issued. In addition, the USWAG decision brought in a new group of units that are required to close under § 257.101(a); specifically, “clay-lined” impoundments and unlined impoundments that were not leaking and passed location restrictions. Facilities with such units did not anticipate having to cease using their surface impoundments so rapidly. Therefore, they had not planned for such an event prior to the USWAG decision. A number of these facilities only have the capacity to manage their CCR and/or non-CCR wastes in their existing unlined CCR surface impoundment; therefore, it is not technically feasible or them to stop using the unlined surface impoundment by the new deadline of August 31, 2020. For example, if the facility will continue to burn coal and has decided to convert to dry handling that process can take 36 months. Even if the facility had begun on the day after the USWAG decision, it is possible that, despite best efforts, the conversion would not be complete by August 31, 2020. However, since most facilities (approximately 80%)

have already converted to dry handling,³⁰ EPA will handle such a facility with the proposed alternate cease receipt of waste deadlines (§§ 257.103(e) and (f)), rather than a longer default time frame.

Currently the regulations allow the continued use of CCR units due to the lack of alternate capacity for CCR, under the alternate closure requirements in § 257.103. The current alternate closure provision of § 257.103(a) allows for the continued use of a CCR unit for disposal of CCR if there is no alternate capacity available, on-site and off-site. This provision grants a facility up to 5 years to find alternate capacity for the CCR. Once additional capacity is found, the CCR unit must cease receipt of waste and initiate closure.

Additionally, under § 257.103(b), a facility may continue to operate a CCR unit and receive CCR if they are planning to cease operation of the coal-fired boilers by a date certain. Under this provision, since the boiler is ceasing operation and CCR will no longer be generated after a known date, the facility will not have to find alternate capacity. For surface impoundments 40 acres or smaller the boiler must cease operation and the CCR surface impoundment must complete closure by October 17, 2023. For a surface impoundment larger than 40 acres, the boiler must cease operation and the CCR surface impoundment must complete closure by October 17, 2028. For landfills the coal-fired boiler must cease operation and complete closure no later than April 19, 2021.

However, both provisions only allow for the continued receipt of CCR past the deadline in §§ 257.101(a), (b)(1), and (d). The alternate closure provisions in § 257.103 do not address the situations in which a facility needs alternate capacity for non-CCR wastestreams.³¹ In the record before the Agency many facilities highlighted that not having capacity for non-CCR wastestreams is a critical issue that places the operation of the facility at risk. Evidence suggests that the average time to develop alternative capacity for non-CCR wastestreams is often the primary driver of determining a technically feasible

³⁰ “Supplemental Technical Development Document for the Reconsideration of the Effluent Limitations Guidelines and Standards for the Steam Electric Power Generating Point Source Category.” See Effluent Limitations Guidelines and Standards for the Steam Electric Power Generating Point Source Category docket (EPA-HQ-OW-2009-0819).

³¹ In March 2018 Phase One proposed rule, EPA proposed amendments to 257.103. The EPA received comments on those proposed provisions. Therefore, EPA is still considering those comments from the proposed amendments from March 2018 and may take final action in a future rulemaking.

timeframe for being able to initiate closure of surface impoundments that combine CCR and non-CCR wastestreams.

To address this, EPA is proposing a series of amendments to the alternate closure requirements in § 257.103(a) and (b) that will coordinate with the new regulatory framework governing the closure of CCR surface impoundments. The EPA is proposing two new subparagraphs specific to CCR surface impoundments: § 257.103(e), which would establish a short-term extension to the new cease receipt of waste deadline in § 257.101; and § 257.103(f), which would establish the process and criteria for facilities to obtain a site-specific extension based on one of two demonstrations that additional time is needed to cease receipt of waste in the unit. Rather than amending the alternate cease receipt of waste deadlines for CCR surface impoundments (§§ 257.103(a) and (b)), which could potentially cause complications for the CCR landfills that are also covered under those provisions, EPA is proposing to establish separate provisions to comprehensively address the issues specific to the closure of CCR surface impoundments.

The short-term extension under § 257.103(e) would grant facilities a three-month extension to continue to receive CCR and/or non-CCR wastestreams in order to complete the development of alternate capacity. This short-term alternative is designed to be self-implementing and for units that need three additional months or less to complete the necessary measures to achieve cease receipt of waste into the CCR surface impoundment in question. For units that qualify under this provision, the deadline to cease receipt of waste and initiate closure would be no later than November 30, 2020. The site-specific alternate to initiation of closure (at § 257.103(f)) will allow facilities to submit a demonstration to EPA or the Participating State Director for approval, either requesting the exact amount of time necessary to complete the measures to obtain alternate capacity, with a maximum of 5 years, or requesting an extension based on a showing that the risks of continued operation of the impoundment will be offset by the shorter time to complete closure. The EPA is proposing that facilities could rely on either § 257.103(e) or (f) to obtain additional time to operate a unit but could not rely on both to aggregate the maximum time periods authorized.

1. Applicability of Alternative Timeframes

The EPA is proposing to allow all CCR surface impoundments required to close under § 257.101(a), and (b) to be eligible for these two alternative timeframes to initiate closure. The July 2018 final rule extended the deadlines to cease receipt of waste for all units required to close under § 257.101(a) (unlined leaking impoundments) and for a subset of units required to close under § 257.101(b) (the surface impoundments that failed the aquifer location restriction); therefore, owner or operators of those units anticipated having to cease receipt of waste no later than October 2020. However, some of those facilities have demonstrated that it will not be technically feasible to reroute the non-CCR wastestreams and create alternate capacity within that timeframe. In addition, the *USWAG* decision mandated the closure of a small group of surface impoundments that were either formerly certified as “clay-lined” or that were unlined, but not leaking and compliant with all location standards. This group of CCR surface impoundments, approximately 45 impoundments (based on data from the publicly accessible websites), were not required to close prior to the *USWAG* decision and would not have conducted any preliminary planning for such an activity. Therefore, these units in particular may need more time beyond August 31, 2020. EPA is seeking comment on whether the new alternative closure provisions should apply only to the universe of CCR units affected by *USWAG* decision. Lastly, EPA is also proposing that the CCR surface impoundments which failed location restrictions other than the depth to aquifer location restriction are also eligible to apply for an alternate compliance deadline. The date extension in the July 2018 rule did not apply to the “clay-lined” or the unlined units that were not leaking because as of July 2018 those units were not subject to the closure requirements of the CCR rule under § 257.101. However, EPA is proposing to include them in this new approach to create a consistent regulatory system to move CCR surface impoundments to initiate closure as quickly as possible.

2. Short Term Alternative To Cease Receipt of Waste Deadline (§ 257.103(e))

The EPA acknowledges that the time frames used to develop the August 2020 deadline were estimated average durations and in reality, due to unique circumstances, it may take some facilities slightly longer than others to

cease receipt of waste. To accommodate those facilities that require some additional time to complete construction, EPA is proposing that such facilities demonstrate and certify that they will need additional time before they have the technically feasibility to able to cease receipt of waste and initiate closure. The provision, which is proposed at § 257.103(e), would allow for no more than a three-month extension, which means that the latest that a facility could continue to operate a CCR surface impoundment under this provision would be November 30, 2020. The EPA acknowledges that events can occur which are completely out of the facility’s control, such as extreme weather or a delay in material fabrication. In essence, this would be a limited “force majeure” provision.

The owner or operator would have to certify that the facility continues to lack alternate capacity to manage their CCR and/or non-CCR wastestreams, and that it was technically infeasible to meet the August 31, 2020 deadline to cease receipt of waste and initiate closure. This certification, along with the supporting documentation, would then be placed into the operating record and posted on the facility website, for the unit in question, and sent to EPA as a notification. This process grants the unit up to a three-month extension to allow the unit to continue to operate until construction is complete, or until November 30, 2020, whichever is earlier, without further action by EPA. The requirements of the certification are similar to the requirements of § 257.103(a). The owner or operator would have to certify the following: (1) No alternative disposal capacity is available on-site or off-site (an increase in costs or inconvenience is not sufficient support); (2) The owner or operator has made and continues to make efforts to obtain additional capacity; and (3) The owner or operator is (and must remain) in compliance with all other requirements of part 257. A brief narrative of each component of the certification would be required to explain why a three-month extension is necessary. The certification is to be placed in the facility’s operating record, placed on the facility’s CCR website, and submitted to EPA as a notification of the facility’s intent to comply with the alternate deadline under this provision.

The EPA is proposing to make this extension self-implementing because it is of such short duration. Facilities will need to have fundamentally completed construction in order for a three-month extension to be useful. Moreover, were

EPA to approve each of these limited extensions, it would divert the Agency's resources away from review of requests for more substantial amounts of time. The EPA believes that these requests for longer amounts of time should be subject to a closer review and thus is proposing to devote its resources accordingly.

The EPA is proposing to amend the regulatory language of § 257.103 and add a new paragraph, § 257.103(e), to reflect this proposal. The EPA is seeking comment on whether the short-term alternate cease receipt of waste deadline should be only for non-CCR wastestreams rather than CCR and/or non-CCR wastestreams.

3. Site Specific Alternative To Cease Receipt of Waste Deadline (§ 257.103(f))

The EPA acknowledges that the timeframe used to reach the new deadline of August 31, 2020 was a calculated average and that some facilities will need more time for CCR surface impoundments to cease receipt of waste than a three-month extension. To accommodate the units that will need longer than November 30, 2020 to complete their arrangements, EPA is proposing to establish a site-specific alternative (at § 257.103(f)) that would allow the owner or operator to seek approval from EPA or the Participating State Director to continue to operate the CCR surface impoundment for a specified amount of time. The EPA is proposing two bases on which a facility can obtain a site-specific deadline to cease receipt of waste: (1) A demonstration that development of alternate capacity for CCR and/or non-CCR cannot be completed prior to November 30, 2020; and (2) a demonstration of lack of capacity and permanent cessation of coal-fired boiler(s) by a date certain. These two bases generally mirror the existing provisions at §§ 257.103(a) and (b). As noted, EPA is proposing to consolidate the new procedures applicable to initiating the closure of CCR surface impoundments into separate sections to avoid inadvertently affecting the requirements for CCR landfills.

To obtain approval from EPA or the Participating State Director for the first method, the owner or operator must demonstrate that it is not technically feasible to complete the development/installation of alternate capacity prior to November 30, 2020. In this demonstration, the facility will need to present in detail the specifics of the process they are undertaking to develop alternate capacities for the necessary CCR and/or non-CCR wastestreams to support the claim that additional time is

necessary. To obtain approval from EPA or the Participating State Director for the second method, the owner or operator must demonstrate that the facility will permanently cease operation of the coal fired boiler(s) by a date certain and that there is currently no alternate capacity available on site or off site for the CCR and/or non-CCR wastestreams. In this demonstration the owner or operator will have to provide a plan for mitigating the potential risks from the CCR surface impoundment for the duration of the continued operation of the CCR surface impoundment until the expedited closure of the unit. This alternative would allow the facilities that are currently closing in accordance with § 257.103(b) to continue to receive non-CCR wastestreams, as well as CCR. Neither demonstrations may rely solely on cost considerations as EPA cannot grant additional time on this basis. See *USWAG 901 F.3d at 448–449*.

The EPA is seeking comment on whether the site-specific alternatives to the cease receipt of waste deadline should be only for non-CCR wastestreams rather than CCR and/or non-CCR wastestreams. If the site-specific alternatives only applied for facilities with the need for continued disposal of non-CCR wastestreams in CCR surface impoundments, EPA would not be amending §§ 257.103(a) and (b). As such, EPA is seeking comment on whether the site-specific alternatives should be only for non-CCR wastestreams.

(a) Proposed Demonstration Requirements for Development of Alternate Capacity Infeasible

The EPA is proposing that the owner or operator must demonstrate the time needed to obtain alternate capacity and cease receipt of waste for CCR and/or non-CCR wastestreams to be submitted to EPA or the Participating State Director at § 257.103(f)(1). The demonstration must include a detailed narrative of the plan the facility is implementing to obtain alternate capacity so that their units that must initiate closure can cease receipt of waste. The demonstration must show that it is technically infeasible to manage the CCR and/or non-CCR wastestreams on-site or off-site other than in the CCR surface impoundment in question. The EPA is proposing to require that the demonstration for each unit provide the lines of evidence to document that the facility lacks capacity for CCR or non-CCR wastestreams: (1) A demonstration of the lack of alternate capacity available on-site or off-site; (2) a demonstration that CCR and/or non-CCR wastestreams must continue to be

managed in the CCR surface impoundment due to the technical infeasibility of obtaining alternate capacity prior to November 30, 2020; this demonstration must include an analysis of the adverse impact to plant operations if the CCR surface impoundment in question were to no longer be available for use; (3) a detailed workplan on obtaining alternate capacity for CCR and/or non-CCR wastestreams; and (4) a narrative on how the owner or operator will continue to maintain compliance with all other aspects of the CCR rule.

The first and second lines of evidence are the same lines of evidence required in § 257.103(a). The owner or operator must demonstrate that the CCR and/or non-CCR wastestreams must continue to be managed in the CCR surface impoundment due to the technical infeasibility of alternate capacity being available sooner than November 30, 2020. An increase in costs or the inconvenience of existing capacity is insufficient support to qualify for this alternative. If the owner or operator provides no evidence other than increased cost or inconvenience, EPA will consider the submission incomplete and will return it to the owner/operator without further action. The owner/operator may resubmit the demonstration with the appropriate evidence (*i.e.*, the owner or operator must discuss the site-specific circumstances leading to the continued lack of capacity and technical infeasibility of obtaining capacity for their CCR and/or non-CCR wastestreams prior to November 30, 2020). These discussions will tie into the workplan submitted as the third line of evidence.

The third proposed line of evidence in the demonstration is a detailed workplan on the development and process to achieve alternate handling capacity for CCR and/or non-CCR wastestreams. The EPA is proposing that the workplan include the following elements at § 257.103(f)(1)(i)(D): (1) A narrative discussion of the steps and process that remain necessary to complete development of alternate capacity for the wastestream(s); (2) a visual timeline depicting the remaining steps needed to obtain alternate capacity; (3) a discussion of the timeline and the processes that occur during each step; and (4) a discussion of the steps already taken to achieve alternate capacity including what steps have been completed and what steps remain. The EPA believes facilities should already have most of these workplan elements developed as part of their planning process for CCR surface impoundments to cease receipt of waste.

The narrative discussion of the workplan is designed to explain to the EPA how alternate capacity will be developed with an explanation as to why that method was chosen over others. An owner or operator may choose from several options to obtain alternate capacity, such as building a new disposal unit, construction of a wastewater treatment facility, converting to dry handling, etc. The narrative discussion should describe why the option was selected and explain why other options that could have been implemented sooner were not selected. This discussion should include an in-depth analysis of the site and the site-specific conditions that led to the decision to implement the selected alternate capacity. Inclusion of visuals such as a facility map, facility process flow diagram, the design of the new capacity, etc. would be beneficial to any discussion on the new capacity and of the facility as a whole. The narrative must also explain why the owner or operator needs the amount of time being requested.

The second section of the workplan should include a visual timeline, such as a Gantt chart, depicting the necessary steps required to obtain the alternate capacity discussed in the narrative. A visual timeline clearly indicates how each phase and the steps within that phase interact with each other and the other phases. It will also show any possible overlap of the steps and phases in achieving alternate capacity. This timeline will show the total time needed to obtain the alternate capacity and how long each step is expected to take. For an example of a timeline see Southern Company's comments from the March 2018 Phase One Proposed rule in the docket³² or the sample Gantt chart in the docket.³³ The sample Gantt chart in the docket demonstrates the level of detail that would be required in the workplans submitted for approval. Similarly, as discussed in section B of this preamble on the various alternate capacity technologies, each phase for obtaining the alternate capacity must be broken out for the time they take on the chart. Such phases include engineering and design, contractor selection, equipment fabrication and delivery, construction, and start up and implementation. Then within each phase, the steps to complete that phase must be broken out to show how long each step takes. As shown in the example Gantt chart in the docket, each

phase contains an overarching timeframe and then the time needed for necessary steps to complete the phase. For example, the engineering and design phase is 4 months and the steps to complete the engineering and design phase are shown, site selection and survey, design of the impoundment, process flow diagram edits, piping design, and how long each of those steps take. This level of detail is expected for each phase of obtaining the alternate capacity. The timeline also acts as a visual assistant to the proposed third section of the work plan, a narrative of the timeline.

The proposed third section for the workplan is a detailed narrative of the schedule and a timeline of all the necessary phases and steps in the workplan, in addition to the overall timeframe that will be realistically required to obtain capacity and cease receipt of waste. The owner or operator should identify the time required for each phase and step accurately to obtain alternate capacity. For an example of a good narrative and description of the processes on obtaining alternate capacity, see Declaration of Jeffery Jenkins, Arizona Public Service in the docket.³⁴ The discussion in this declaration is a good starting point for the level of detail EPA is proposing to require for this section of the workplan. In addition, further discussions and more clarity on how the phases and steps interact with each other and an explanation on the amount of time needed would be beneficial for EPA.

This section of the workplan should discuss why the length of time for each phase and step is needed, including a discussion of the tasks that occur during the specific stage of obtaining alternate capacity. The workplan should discuss why each major step shown on the chart is necessary to happen in the order it is occurring, including a justification for the overall length of the phase. It should also discuss the tasks that occur during each of the major steps within the phase; for example, rather than simply stating "order and fabrication of impoundment liner," the workplan would need to discuss what material must be ordered, where the fabrication takes place, and how long it takes to fabricate and deliver the new liner material. Other major discussion items on the overall time of the schedule should include anticipated worker schedule, and any anticipated areas for which the schedule could slip. The anticipated areas of delays could include items outside of the facility's

control, such as severe weather events or delays in fabrication of materials. The schedule should also indicate the time limiting factors in completing the plan, such as having to take boilers off-line or if a certain step can only happen during a specific time of year. The schedule should indicate the fastest technically feasible timeline.

The proposed fourth section of the workplan contains a narrative of the steps already taken to initiate closure and develop alternate capacities for the CCR and/or non-CCR wastestreams. This section would discuss all the steps taken, starting from when the owner or operator started the design phase all the way up to the current steps occurring while the workplan is being drafted and submitted for approval. In addition, this discussion should indicate where the facility currently is on the timeline and the processes that are currently being undertaken at the facility to develop the selected alternate capacity. This section of the workplan assists EPA in determining if the submitted schedule for obtaining alternate capacity is accurate.

The overall workplan would need to document the efforts the owner or operator has put into obtaining alternate capacities, the various methods researched for alternate capacity, and the planning for the alternate capacity for the wastestreams that needs to be redirected from the CCR surface impoundment. The EPA seeks comment on additional elements the workplan should contain.

The fourth line of evidence that would be required in the demonstration is a compliance strategy for the CCR surface impoundment in question. The EPA is proposing that to obtain approval for an extension for the cease receipt of waste date, the CCR surface impoundment in question must remain in compliance with all other aspects of the CCR rule. This includes the requirement to conduct any necessary corrective action and continual groundwater monitoring. This line of evidence also includes compliance with other requirements of the rule. The facilities' CCR compliance website must be completely up-to-date and contain all the necessary notification postings. The strategy would discuss the most recent groundwater monitoring data results, the statistical analysis used to obtain the results, and the next steps for the groundwater monitoring. If the unit has exceeded any of the Appendix IV GWPS, the owner or operator must conduct an assessment of corrective measures followed by selection of a remedy. The current regulations do not permit waiting to implement a remedy

³² Southern Company timing to initiate closure information submissions and public comment on Phase 1 proposed rule in the docket.

³³ See Sample Gantt Chart in the docket.

³⁴ See declaration of Jeffery Jenkins, Arizona Public Service in the docket.

until initiation of closure of the unit. As such, if the facility is undergoing remedy selection, a thorough discussion of the possible remedies for corrective action is vital to obtaining approval for an extension to the cease receipt of waste and initiation of closure deadline. Without a demonstration of a compliance strategy and proper corrective action measures, if necessary, the alternate compliance deadline will not be granted.

Once a complete demonstration is submitted to EPA or the Participating State Director for approval, EPA or the Participating State Director will review the demonstration for completeness and post a tentative approval or denial. The approval and implementation process will be discussed later in this preamble in paragraph (e) of this section.

(b) Proposed Demonstration Requirements for Permanent Cessation of Coal-Fired Boiler(s) by a Date Certain

Currently under § 257.103(b)(1), a CCR unit that would otherwise be required to cease receiving CCR under § 257.101(a), (b)(1), or (d), may continue to receive CCR provided the owner or operator of the facility certifies that the facility will cease operation of the coal-fired boilers within the timeframes specified in paragraphs (b)(2) through (b)(4) and that the CCR generated at that facility (before the plant ceases to operate) must continue to be managed in that unit due to the absence of alternative disposal capacity both on-site and off-site. In such cases, the unit is allowed to continue receiving CCR (and only CCR wastestreams), provided the facility completes closure of the unit by the dates specified: 2023 or 2028 for surface impoundments less than 40 acres or more than 40 acres, respectively. In contrast to subsection (a), under § 257.103(b), the owner or operator does not need to demonstrate any efforts to develop alternative capacity because of the impending closure of the power plant itself. As explained in the 2015 preamble, there are long-term risks to human health and the environment from a leaking CCR unit and those risks justify requiring those units to either meet the federal criteria or close. However, EPA concluded that the risks associated with allowing these units to continue to receive CCR would be mitigated by the requirement that the facility comply with all other requirements of the rule, including initiating groundwater monitoring and corrective action where necessary. Critically, facilities that choose to rely on this alternative must complete closure of their disposal unit in an expedited timeframe; thus, the

risks from these units will be fully addressed sooner. Consequently, EPA concluded that while over the short term the risks will be higher, however, in the long term, the risks may be potentially lower than if the CCR unit had closed in accordance with the normal closure timeframes. See 80 FR 21424 (April 17, 2015). These principles continue to apply. Since the coal-boiler will shortly cease power generation, it would be illogical to require these facilities to construct new capacity to manage CCR and non-CCR wastestreams. The EPA is therefore proposing to adopt a comparable provision in § 257.103(f)(2), which will allow facilities permanently ceasing operation of coal-fired boiler(s) to continue to receive both CCR and non-CCR wastestreams, upon a showing of a continued need to use the surface impoundment.

Specifically, EPA is proposing that facilities would need to submit a demonstration to EPA or the Participating State Director for approval that includes all of the following elements. First, the facility would need to document that no alternative disposal capacity is available on-site or off-site. This is the same showing currently required under § 257.103(b). Consistent with the existing provision, an increase in costs or the inconvenience of existing capacity is not sufficient to support qualification under this section.

Second, EPA is proposing that the facility submit a plan to mitigate any potential risks to human health or the environment from the CCR surface impoundment. This plan could include: A discussion of the groundwater monitoring data and any found exceedances, the assessment of corrective measures (if necessary from the groundwater monitoring data), steps to keep the public aware of any possible risks from the impoundment, a plan to ensure that drinking water wells are not contaminated and if they are the steps to ensure the public has access to clean drinking water, etc. This would be a new requirement; because the current provision at § 257.103(b) does not authorize continued use of the impoundment for non-CCR wastewaters, and the record for that provision does not account for those risks. As previously explained, EPA lacks the data and time required to develop national estimates of the risks from continued operation of these units over the short term. The EPA is seeking comment on whether the owner or operator should be required to submit a more in-depth site-specific risk assessment of the CCR surface

impoundment as part of their plan to mitigate the risk from the unit.

The remaining elements are the same as those currently found in § 257.103(b). The facility must certify that it remains in compliance with all other requirements of this subpart and must document that the coal-fired boilers and closure of the impoundment will be completed within the timeframes specified in paragraph (f)(2)(ii) of this section. The deadlines of 2023 for surface impoundments less than 40 acres and 2028 for surface impoundments larger than 40 acres, respectively, were selected to ensure (1) that closure of these units will be completed in a measurably shorter timeframe; and (2) that overall the risks will be lower, or at least equivalent to, the level of risk that would be achieved under the rule's "standard" closure timeframes. Unlike the other provisions in this proposal, § 257.103(f)(2) does not establish a specific deadline by which the facility must stop operating the impoundment. Nevertheless, the expedited closure timeframes will effectively work to limit the additional time that facilities can continue to receive waste. Given the length of time needed to dewater an impoundment, EPA expects that in many instances, facilities will not be able to extend operation of the unit substantially and still be able to complete closure by the deadline. The RIA that accompanies this proposed rulemaking action estimates that approximately 37 facilities will apply for an extension under this provision.

(c) Extensions of Alternate Compliance Deadline

The EPA acknowledges that projects can run behind schedule and events may occur outside the facility's control. Therefore, EPA is proposing that in such cases, a facility may request an extension to the approved deadline under § 257.103 (f)(1). However, EPA is proposing a maximum of 5 years that could be authorized under paragraph (f)(1). This means that no extension could extend past the maximum cease receipt of waste deadline of October 15, 2023. If at any point a facility becomes aware that they will not meet the approved deadline, they would need to notify EPA or the Participating State Director. Depending on the severity of the event, additional time may be granted provided it would not extend past the maximum cease receipt of waste deadline of October 15, 2023. The EPA is proposing this potential extension in § 257.103(f)(1)(iii). To obtain an extension of the approved compliance deadline, the facility must

submit updated demonstration materials to EPA or the Participating State Director with a detailed discussion of why an extension is necessary. The owner or operator must also discuss the measures taken to limit the additional amount of time needed. An explanation of any problems that caused this significant delay of schedule would be further discussed in the semi-annual progress report as described in the next section.

(d) Semi-Annual Progress Reports

To provide transparency to the public that the facility is following the approved alternate compliance deadline, EPA is proposing to require posting on the facility's CCR publicly accessible website of semi-annual progress reports on obtaining alternate capacity. Given that these units could be operating and receiving waste for several additional years, it is important to keep the public aware of the facility's progress on obtaining alternate capacity. It is also important for EPA to know if facilities are on track to meet their new alternate compliance deadline.

Currently in § 257.103(c) there is the requirement for annual progress reports for the units who have certified for alternative deadlines under §§ 257.103(a) and (b). The EPA believes that for the site-specific alternate cease receipt of waste deadline, semi-annual rather than annual progress reports are more appropriate. The time allowed under this new alternate in § 257.103(f), will vary site to site and could be shorter than the deadline alternative granted for §§ 257.103(a) and (b). Accordingly, EPA believes the reporting frequency should also be more frequent for the progress reports. Therefore, EPA is proposing a new semi-annual progress report requirement for the units that successfully demonstrate and are approved for the site-specific alternate to cease receipt of waste deadline. The proposed regulation text for the requirement of semi-annual progress reports will be located in § 257.103(f)(1)(ix).

The semi-annual progress report will heavily rely on the workplan and the timeline submitted with the workplan. The EPA is proposing the reports contain the following components: (1) Discussion on progress of obtaining alternate capacity and (2) discussion of any planned operational changes at the facility. The first section of the report would discuss the progress the facility has made since the previous report or if it is the first report, since approval of the alternate compliance deadline.

The first section of the report would be required to discuss the following: (1)

The current stage of obtaining alternate capacity in reference to the timeline required in the workplan; (2) whether the owner or operator is on schedule for obtaining alternate capacity; (3) any problems encountered and a description of the actions taken to resolve the problems; and (4) the goals for the next 6 months and major milestones to be achieved. The first subsection discussion would indicate what phase of the workplan timeline is currently happening at the site and what has been accomplished in the past 6 months. This discussion would include the major milestones that were accomplished over the past 6 months. The second subsection would discuss if the facility is on schedule to obtain alternate capacity by the approved alternate deadline for cease receipt of waste. This section would discuss if the facility is expecting to meet their deadline or if they are anticipating being ahead or behind schedule. If the facility is behind schedule, the discussion would be required to indicate what steps are necessary to either catch up to the approved schedule or if they are expecting to ask for an extension, how much more time is needed. The third subsection would discuss whether any problems were encountered, and a description of the actions taken to resolve those problems. This subsection could potentially tie in to the previous subsection's discussion of if the project is on track. It is possible a problem arose causing a delay in the schedule; such problems would need to be discussed in detail in this section. This could include a delay of delivery of equipment, severe weather, delay of a permit, etc. There would need to be a thorough discussion of what caused the problem, the effects of the problem, and the plan to resolve the problem. It is also possible problems were encountered that did not result in a delay of the schedule; these too should be discussed in this subsection. This demonstrates that the facility is able to resolve problems quickly without affecting the project's deadline. The last subsection would discuss the goals for the next 6 months and major milestones to be achieved. This subsection makes the public and EPA aware of the progress the facility plans on achieving in the coming months, up until the next semi-annual progress report is due.

The EPA is seeking comment regarding whether a facility that is fully on schedule or ahead of schedule with the approved timeline from their demonstration and no significant problems have arisen or changes in operational status, should be afforded a relaxation of the reporting requirements

to complete the first two subsections of the first section of the semi-annual progress reports. In the semi-annual progress reports the facility would indicate the stage they are currently on (as specified in § 257.103(f)(1)(ix)(A)(1)) and they are fully on schedule or ahead of schedule (as specified in § 257.103(f)(1)(ix)(A)(2)). The reports for the facility on schedule or ahead of schedule should be significantly more condensed than the full reporting requirements. The EPA believes facilities should be focusing on obtaining alternate capacity rather than completing progress reports, especially for the facilities that are on schedule with little to report.

The second section of the progress reports would discuss any planned operation changes of the facility. It is possible while the facility is working to achieve alternate capacity, a decision is made to either permanently shut down the plant or switch to an alternate fuel source such as natural gas or biomass. Any such decisions would be indicated in this section of the semi-annual progress report.

The EPA is proposing that the semi-annual reports be completed and placed in the facility's operating record and posted on the facility's CCR web page on April 1st and October 1st of each year until the alternate compliance deadline. The first report will be due on whichever posting deadline is soonest after approval of the alternate compliance deadline is granted. The most current progress report should not replace any previous version of the semi-annual progress report on the facility's website. Therefore, the facility is expected to maintain the previous reports on their website. The EPA seeks comment on whether the dates of April 1 and October 1 are appropriate or whether alternate months should be selected. The RIA which accompanies this proposed rulemaking action estimates the cost associated with the additional documentation required by the rule's provisions in Chapter 3.

(e) Procedures for Approval and Implementation

The EPA is proposing that the demonstrations for further time under § 257.103(f)(1) be submitted to EPA or the Participating State Director for approval no later than June 30, 2020, or 2 months prior to the facility's deadline to cease receiving waste. This deadline would also apply to any extensions requested under § 257.103(f)(1)(iii). Two months should normally provide sufficient time for EPA to evaluate the request and complete its review process. The EPA acknowledges that the review

time is shorter than normal; however, this is a unique circumstance where the Agency needs to establish a new compliance deadline for the facility. Although two months prior to the current deadline is the latest date to submit a request, EPA would encourage submissions at the earliest point at which the facility knows further time to complete its arrangements is needed. By contrast, requests for additional time to operate a CCR surface impoundment under paragraph § 257.103(f)(2) must be submitted to EPA for approval no later than May 15, 2020. The decision to shut down a boiler is not reached quickly and can require approvals from (or at least coordination with) state regulatory officials, among others. The EPA, therefore, expects that facilities know now (or will decide shortly) whether they will seek to rely upon the proposed provisions in § 257.103(f)(2).

Upon receiving the demonstration for an alternate compliance deadline, EPA or the Participating State Director will evaluate the demonstration and could ask for additional information to complete its review and/or discuss the demonstration with the facility. Submission of a complete demonstration will toll, or to suspend, the facility's deadline to cease receipt of waste until issuance of a final decision. This ensures that a facility that has submitted a package in good faith would not be penalized by any inadvertent administrative delays. However incomplete submissions will not toll the facility's deadline; here the equities lie squarely against granting any more time.

When the owner or operator submits the demonstration to EPA or the Participating State Director for approval, the owner or operator must prepare and place into the facility's operating record and on their CCR website a notice of intent of applying for the site-specific alternative to cease receipt of waste. The EPA or the Participating State Director will then post the proposed decision to grant or deny the request in whole or in part on EPA's website for public notice and comment. The public will have 15 days to comment on the proposed decision. If the demonstration is particularly complex, EPA or the Participating State Director will provide a longer comment period of 20 to 30 days. The EPA acknowledges that the comment period is shorter than normal; however, this is a unique circumstance where the Agency needs to establish a new compliance deadline for the facility. The EPA or the Participating State Director will evaluate the comments and amend its decision accordingly. The EPA will post the final

decision on the demonstrations on EPA's website.

The EPA or the Participating State Director will finalize the decision on the alternate compliance deadline no later than 4 months after receiving a complete demonstration. This is the longest amount of time EPA expects it should take to issue a final decision, although as noted above, EPA believes it should normally take less time. If no substantive comments are received on a proposed decision, it will become effective 5 days from the close of the comment period.

The facility must post an approved or denied demonstration and alternate compliance deadline decision on the facility's public CCR website. The EPA is seeking comment on whether a Participating State Director (*i.e.*, a state director with an approved State CCR Permit Program) should also have the authority to grant approvals. If a facility completes the necessary alternate capacity prior to approval from EPA, then the facility should notify EPA and withdraw their demonstration.

4. Conforming Amendments to §§ 257.103(a), (b), and (c)

To create a consistent framework for all CCR impoundments, EPA is also proposing a series of amendments to the § 257.103 introductory paragraph and at §§ 257.103(a), (b), and (c). Amending these sections of § 257.103, will simplify the framework for units that require more time to the cease receipt of waste deadline triggered by either §§ 257.101(a), (b)(1), or (d). Additionally, EPA is proposing to amend §§ 257.103(a) and (b) to only be applicable to CCR landfills.

(a) Amendments to §§ 257.103(a) and (b)

The EPA is proposing to revise the introductory paragraph to § 257.103 to add the phrase "and/or non-CCR wastestreams" and to add references to the proposed new paragraphs (e) and (f) to § 257.103 for the short-term alternative and the alternate compliance deadline respectively. The introductory paragraph would read as: "The owner or operator of a CCR landfill, CCR surface impoundment, or any lateral expansion of a CCR unit that is subject to closure pursuant to 257.101(a), (b)(1), or (d) may continue to receive CCR and/or non-CCR in the unit provided the owner or operator meets the requirements of either paragraph (a), (b), (e), or (f) of this section."

The EPA is proposing conforming revisions to §§ 257.103(a) and (b) to reflect the proposals discussed above. The current §§ 257.103(a) and (b) apply to both CCR landfills and CCR surface

impoundments undergoing closure under § 257.101 that need additional time to find alternate capacity only for CCR wastestreams. To be consistent with the proposals in §§ 257.103 (e) and (f), EPA is proposing to amend §§ 257.103(a) and (b) to only apply to CCR landfills. Some facilities have posted certifications under the current § 257.103(a) and (b) to allow continued receipt of CCR into their surface impoundment. For these facilities, EPA will either implement a transition period to allow sufficient time to complete the documentation that may be required under §§ 257.103 (e) or (f) for their CCR surface impoundments, or, for those facilities that need to continue to receive only CCR into the impoundment, a system that would grandfather these units in. The EPA asks for comment on each of these options. To reflect this proposed change the references to § 257.101(a) and (b)(1) are being removed, as those sections apply only to CCR surface impoundments. Additionally, EPA is proposing to revise the term "CCR unit" to "CCR landfill" to ensure clarity that §§ 257.103(a) and (b) apply only to CCR landfills.

(b) Amendments to § 257.103(c)

When EPA amended the cease receipt of waste date in the July 2018 rule in §§ 257.101(a) and (b)(1), EPA neglected to make the conforming changes to the notification requirements in § 257.103(c). Therefore, EPA is proposing to amend the notification requirements in § 257.103(c) with the necessary conforming changes due to the change in the cease receipt of waste date and in light of the *USWAG* decision. The current text of § 257.103(c)(1) requires the owner or operator to prepare a notification within six months of becoming subject to closure pursuant to § 257.101(a), (b)(1), or (d). In light of the *USWAG* decision and the change of date for cease receipt of waste, this language no longer makes sense. The EPA is proposing to amend § 257.103(c)(1) by adding new paragraphs (i) through (iii) for CCR units closing pursuant to §§ 257.101(a), (b)(1), and (d), respectively. Each respective subparagraph then requires the owner or operator to prepare the notification no later than the cease receipt of waste date according to §§ 257.101(a), (b)(1), and (d).

VI. The Projected Economic Impacts of This Action

A. Introduction

The EPA estimated the costs and benefits of this action in an Economic Analysis (EA) which is available in the

docket for this action. The EA estimates the incremental costs and cost savings attributable to the provisions of this action, against the baseline costs and practices in place as a result of the 2015 CCR final rule and, the 2018 CCR Phase 1 final rule.

EPA updates the 2015 CCR final rule baseline to account for two developments. These are the availability of new publicly accessible universe data and the effect of the 2018 court decisions. These updates increase the baseline costs estimated for the CCR program against which the RIA estimates the incremental effects of this proposed rulemaking action.

The RIA estimates that the net annualized impact of this proposed regulation will be annual cost savings of \$39.5 million. This action is not considered an economically significant action under Executive Order 12866.

B. Affected Universe

The proposed rule affects coal fired electric utility plants (assigned to the utility sector North American Industry Classification System (NAICS) code 22). The rule is estimated to potentially impact 522 units at 230 facilities.

C. Costs and Cost Savings of the Proposed Rule

The costs attributable to this proposed rule are reporting and documentation that must be completed by regulated entities and submitted to EPA in order to qualify for some of the closure deadline extension provisions of the rule as well as other reporting requirements related to the closure of CCR units. These costs are estimated to amount to an annualized \$0.204 million per year when discounting at 7%.

The cost savings attributable to this proposed rule include cost savings from extending the deadlines by which units must cease receiving waste and initiate closure. Cost savings also follow from the avoided cost of new unit construction for CCR units associated with qualified coal fired boilers which are closing by 2023 or 2028. Overall, the proposed rule is expected to result in net cost savings of an annualized \$39.5 million when discounting at 7%.

VII. Statutory and Executive Order (E.O.) Reviews

Additional information about these statutes and Executive Orders can be found at <http://www2.epa.gov/laws-regulations/laws-and-executive-orders>.

A. Executive Order 12866: Regulatory Planning and Review and Executive Order 13563: Improving Regulation and Regulatory Review

This is a significant regulatory action that was submitted to the Office of Management and Budget (OMB) for review because it raises novel legal or policy issues. Any changes made in response to OMB recommendations have been documented in the docket. The EPA prepared an analysis of the potential costs and benefits associated with this action. This analysis is available in the docket and is summarized in section VI of this preamble.

B. Executive Order 13771: Reducing Regulation and Controlling Regulatory Costs

This action is expected to be an Executive Order 13771 deregulatory action. Details on the estimated costs of this proposed rule can be found in EPA's analysis of the potential costs and benefits associated with this action.

B. Paperwork Reduction Act (PRA)

The information collection activities in this proposed rule have been submitted for approval to the Office of Management and Budget (OMB) under the PRA. The Information Collection Request (ICR) document that the EPA prepared has been assigned EPA ICR number 1189.32. You can find a copy of the ICR in the docket for this rule, and it is briefly summarized here.

The information to be collected as a part of this rule includes applications for the two alternatives to cease receipt or waste deadlines. These applications are to ensure that the alternatives are used only by facilities for which the August 31, 2020 cease receipt of waste date is technically unfeasible.

Applications for the short term alternative deadline must certify the following: (1) No alternative disposal capacity is available on-site or off-site (an increase in costs or inconvenience is not sufficient support); (2) The owner or operator has made and continues to make efforts to obtain additional capacity; and (3) The owner or operator is (and must remain) in compliance with all other requirements of part 257. A brief narrative of each component of the certification would be required to explain why a three-month extension is necessary.

Applications for the site specific alternative deadline must certify the following: (1) A demonstration of the lack of alternate capacity available on-site or off-site; (2) a demonstration that CCR and/or non-CCR wastestreams must

continue to be managed in the CCR surface impoundment due to the technical infeasibility of obtaining alternate capacity prior to November 30, 2020; this demonstration must include an analysis of the adverse impact to plant operations if the CCR surface impoundment in question were to no longer be available for use; (3) a detailed workplan on obtaining alternate capacity for CCR and/or non-CCR wastestreams; and (4) a narrative on how the owner or operator will continue to maintain compliance with all other aspects of the CCR rule. Facilities that intend to continue to generate electricity from their coal fired boilers must also post semi-annual progress reports on obtaining alternative capacity on their publicly available website, while facilities with coal fired boilers closing by a date certain must submit a plan to EPA to mitigate any potential risks to human health and the environment from their CCR surface impoundment.

Respondents/affected entities: Coal-fired electric utility plants that will be affected by the rule.

Respondent's obligation to respond: The recordkeeping, notification, and posting are mandatory as part of the minimum national criteria being promulgated under Sections 1008, 4004, and 4005(a) of RCRA

Estimated number of respondents: 300.

Frequency of response: The frequency of response varies.

Total estimated burden: 21,476 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$4,257,909 (per year), includes \$21,408 annualized capital or operation & maintenance costs.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the EPA's regulations in 40 CFR are listed in 40 CFR part 9.

Submit your comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the EPA using the docket identified at the beginning of this rule. You may also send your ICR-related comments to OMB's Office of Information and Regulatory Affairs via email to OIRA_submission@omb.eop.gov, Attention: Desk Officer for the EPA. Since OMB is required to make a decision concerning the ICR between 30 and 60 days after receipt, OMB must receive comments no later than January 2, 2020. The EPA will

respond to any ICR-related comments in the final rule.

D. Regulatory Flexibility Act (RFA)

I certify that this action will not have a significant economic impact on a substantial number of small entities under the RFA. In making this determination, the impact of concern is any significant adverse economic impact on small entities. An agency may certify that a rule will not have a significant economic impact on a substantial number of small entities if the rule relieves regulatory burden, has no net burden or otherwise has a positive economic effect on the small entities subject to the rule. This action is expected to result in net cost savings of an annualized \$39.5 million per year. These cost savings will accrue to all regulated entities. We have therefore concluded that this action will relieve regulatory burden for all directly regulated small entities. EPA requests comment on the effect of this rule on regulated small entities.

E. Unfunded Mandates Reform Act (UMRA)

This action does not contain any unfunded mandate of \$100 million or more as described in UMRA, 2 U.S.C. 1531–1538, and does not significantly or uniquely affect small governments. This action imposes no enforceable duty on any state, local or tribal governments or the private sector. The costs involved in this action are imposed only by participation in a voluntary federal program. UMRA generally excludes from the definition of “federal intergovernmental mandate” duties that arise from participation in a voluntary federal program.

F. Executive Order 13132: Federalism

This action does not have federalism implications. It will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government.

G. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications as specified in Executive Order 13175. For the “Final Rule: Hazardous and Solid Waste Management System; Disposal of Coal Combustion Residuals from Electric Utilities” published April 17, 2015 (80 FR 21302), EPA identified three of the 414 coal-fired electric utility plants (in operation as of 2012) as being located on

tribal lands; however, they are not owned by tribal governments. These are: (1) Navajo Generating Station in Coconino County, Arizona, owned by the Arizona Salt River Project; (2) Bonanza Power Plant in Uintah County, Utah, owned by the Deseret Generation and Transmission Cooperative; and (3) Four Corners Power Plant in San Juan County, New Mexico owned by the Arizona Public Service Company. The Navajo Generating Station and the Four Corners Power Plant are on lands belonging to the Navajo Nation, while the Bonanza Power Plant is located on the Uintah and Ouray Reservation of the Ute Indian Tribe. Under the WIIN Act, EPA is the permitting authority for CCR units located in Indian Country. Thus, Executive Order 13175 does not apply to this action.

H. Executive Order 13045: Protection of Children From Environmental Health Risk and Safety Risks

This action is not subject to Executive Order 13045 because it is not economically significant as defined in Executive Order 12866, and because the EPA does not believe the environmental health risks or safety risks addressed by this action present a disproportionate risk to children. This action’s health and risk assessments are contained in the document titled “Human and Ecological Risk Assessment of Coal Combustion Residuals,” which is available in the docket for the final rule as docket item EPA–HQ–RCRA–2009–0640–11993.

As ordered by E.O. 13045 Section 1–101(a), for the “Final Rule: Hazardous and Solid Waste Management System; Disposal of Coal Combustion Residuals from Electric Utilities” published April 17, 2015 (80 FR 21302), EPA identified and assessed environmental health risks and safety risks that may disproportionately affect children in the revised risk assessment. The results of the screening assessment found that risks fell below the criteria when wetting and run-on/runoff controls required by the rule are considered. Under the full probabilistic analysis, composite liners required by the rule for new waste management units showed the ability to reduce the 90th percentile child cancer and non-cancer risks for the groundwater to drinking water pathway to well below EPA’s criteria. Additionally, the groundwater monitoring and corrective action required by the rule reduced risks from current waste management units. This action does not adversely affect these requirements and EPA believes that this rule will be protective of children’s health.

I. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution or Use

This action is not a “significant energy action” because it is not likely to have a significant adverse effect on the supply, distribution or use of energy. For the 2015 CCR rule, EPA analyzed the potential impact on electricity prices relative to the “in excess of one percent” threshold. Using the Integrated Planning Model (IPM), EPA concluded that the 2015 CCR Rule may increase the weighted average nationwide wholesale price of electricity between 0.18 percent and 0.19 percent in the years 2020 and 2030, respectively. As the proposed rule represents a cost savings rule relative to the 2015 CCR rule, this analysis concludes that any potential impact on wholesale electricity prices will be lower than the potential impact estimated of the 2015 CCR rule; therefore, this proposed rule is not expected to meet the criteria of a “significant adverse effect” on the electricity markets as defined by Executive Order 13211.

J. National Technology Transfer and Advancement Act (NTTAA)

This rulemaking does not involve technical standards.

K. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

The EPA believes that this action does not have disproportionately high and adverse human health or environmental effects on minority populations, low-income populations and/or indigenous peoples, as specified in Executive Order 12898 (59 FR 7629, February 16, 1994). The documentation for this decision is contained in EPA’s Regulatory Impact Analysis (RIA) for the CCR rule which is available in the docket for the 2015 CCR final rule as docket item EPA–HQ–RCRA–2009–0640–12034.

The EPA’s risk assessment did not separately evaluate either minority or low-income populations. However, to evaluate the demographic characteristics of communities that may be affected by the CCR rule, the RIA compares the demographic characteristics of populations surrounding coal-fired electric utility plants with broader population data for two geographic areas: (1) One-mile radius from CCR management units (*i.e.*, landfills and impoundments) likely to be affected by groundwater releases from both landfills and impoundments; and (2) watershed catchment areas

downstream of surface impoundments that receive surface water run-off and releases from CCR impoundments and are at risk of being contaminated from CCR impoundment discharges (e.g., unintentional overflows, structural failures, and intentional periodic discharges).

For the population as a whole 24.8 percent belong to a minority group and 11.3 percent falls below the Federal Poverty Level. For the population living within one mile of plants with surface impoundments 16.1 percent belong to a minority group and 13.2 percent live below the Federal Poverty Level. These minority and low-income populations are not disproportionately high compared to the general population. The percentage of minority residents of the entire population living within the catchment areas downstream of surface impoundments is disproportionately high relative to the general population, i.e., 28.7 percent, versus 24.8 percent for the national population. Also, the percentage of the population within the catchment areas of surface impoundments that is below the Federal Poverty Level is disproportionately high compared with the general population, i.e., 18.6 percent versus 11.3 percent nationally.

Comparing the population percentages of minority and low income residents within one mile of landfills to those percentages in the general population, EPA found that minority and low-income residents make up a smaller percentage of the populations near landfills than they do in the general population, i.e., minorities comprised 16.6 percent of the population near landfills versus 24.8 percent nationwide and low-income residents comprised 8.6 percent of the population near landfills versus 11.3 percent nationwide. In summary, although populations within the catchment areas of plants with surface impoundments appear to have disproportionately high percentages of minority and low-income residents relative to the nationwide average, populations surrounding plants with landfills do not. Because landfills are less likely than impoundments to experience surface water run-off and releases, catchment areas were not considered for landfills.

The CCR rule is risk-reducing with reductions in risk occurring largely within the surface water catchment zones around, and groundwater beneath, coal-fired electric utility plants. Since the CCR rule is risk-reducing and this action does not add to risks, this action will not result in new

disproportionate risks to minority or low-income populations.

List of Subjects in 40 CFR Part 257

Environmental protection, Waste treatment and disposal.

Dated: November 4, 2019.

Andrew R. Wheeler,
Administrator.

For the reasons set out in the preamble, EPA proposes to amend title 40, chapter I, of the Code of Federal Regulations as follows:

PART 257—CRITERIA FOR CLASSIFICATION OF SOLID WASTE DISPOSAL FACILITIES AND PRACTICES

■ 1. The authority citation for part 257 continues to read as follows:

Authority: 42 U.S.C. 6907(a)(3), 6912(a)(1), 6944(a), 6945(d); 33 U.S.C. 1345(d) and (e).

■ 2. Amend § 257.71 by:

■ a. Removing and reserving paragraph (a)(1)(i); and

■ b. Revising paragraphs (a)(3)(i) and (ii).

The revisions read as follows:

§ 257.71 Liner design criteria for existing CCR surface impoundments.

(a) * * *

(3) * * *

(i) The owner or operator of the CCR unit determines that the CCR unit is not constructed with a liner that meets the requirements of paragraphs (a)(1)(ii) or (iii) of this section; or

(ii) The owner or operator of the CCR unit fails to document whether the CCR unit was constructed with a liner that meets the requirements of paragraphs (a)(1)(ii) or (iii) of this section.

* * * * *

■ 3. Amend § 257.91 by removing and reserving paragraph (d)(2).

§ 257.91 [Amended]

■ 4. Amend § 257.101 by revising paragraphs (a)(1) and (b)(1) to read as follows:

§ 257.101 Closure or retrofit of CCR units.

(a) * * *

(1) Except as provided by paragraph (a)(3) of this section, no later than August 31, 2020, an owner or operator of an existing unlined CCR surface impoundment must cease placing CCR and non-CCR wastestreams into such CCR surface impoundment and either retrofit or close the CCR unit in accordance with the requirements of § 257.102.

* * * * *

(b) * * *

(1)(i) *Location standard under § 257.60.* Except as provided by

paragraph (b)(4) of this section, the owner or operator of an existing CCR surface impoundment that has not demonstrated compliance with the location standard specified in § 257.60(a) must cease placing CCR and non-CCR wastestreams into such CCR unit no later than August 31, 2020 and close the CCR unit in accordance with the requirements of § 257.102.

* * * * *

■ 5. Amend § 257.103 by:

■ a. Revising introductory text;

■ b. Revising paragraphs (a)(1) introductory text, (2) and (3);

■ c. Revising paragraph (b)(1) introductory text;

■ d. Removing and reserving paragraphs (b)(2) and (3);

■ e. Revising paragraph (c)(1); and

■ f. Adding paragraphs (e) and (f).

The additions and revisions read as follows:

§ 257.103 Alternate closure requirements.

The owner or operator of a CCR landfill, CCR surface impoundment, or any lateral expansion of a CCR unit that is subject to closure pursuant to § 257.101(a), (b)(1), or (d) may continue to receive CCR and/or non-CCR wastestreams in the unit provided the owner or operator meets the requirements of either paragraph (a), (b), (e), or (f) of this section.

(a)(1) *No alternative CCR disposal capacity.* Notwithstanding the provisions of § 257.101(d), a CCR landfill may continue to receive CCR if the owner or operator of the CCR landfill certifies that the CCR must continue to be managed in that CCR landfill due to the absence of alternative disposal capacity both on-site and off-site of the facility. To qualify under this paragraph, the owner or operator of the CCR landfill must document that all of the following conditions have been met:

* * * * *

(2) Once alternative capacity is available, the CCR landfill must cease receiving CCR and initiate closure following the timeframes in § 257.102(e) and (f).

(3) If no alternative capacity is identified within five years after the initial certification, the CCR landfill must cease receiving CCR and close in accordance with the timeframes in § 257.102(e) and (f).

(b)(1) *Permanent cessation of a coal-fired boiler(s) by a date certain.*

Notwithstanding the provisions of § 257.101(d), a CCR landfill may continue to receive CCR if the owner or operator certifies that the facility will cease operation of the coal-fired boilers within the timeframes specified in

paragraphs (b)(2) through (4) of this section, but in the interim period (prior to closure of the coal-fired boiler), the facility must continue to use the CCR unit due to the absence of alternative disposal capacity both on-site and off-site of the facility. To qualify under this paragraph, the owner or operator of the CCR unit must document that all of the following conditions have been met:

* * * * *

(2) [Reserved]

(3) [Reserved]

* * * * *

(c) * * *

(1) The owner or operator must prepare and place in the facility's operating record a notification of intent to comply with the alternative closure requirements of this section. The notification must describe why the CCR unit qualifies for the alternative closure provisions under either paragraph (a) or (b) of this section, in addition to providing the documentation and certifications required by paragraph (a) or (b) of this section. The deadlines to prepare the notification are specified in paragraphs (c)(1)(i) through (iii) of this section.

(i) If the CCR unit is closing pursuant to § 257.101(a)(1), the owner or operator must prepare the notification no later than August 31, 2020.

(ii) If the CCR unit is closing pursuant to § 257.101(b)(1), the owner or operator must prepare the notification no later than August 31, 2020.

(iii) If the CCR unit is closing pursuant to § 257.101(d)(1), the owner or operator must prepare the notification no later than six months after the date it is determined that the CCR unit is not in compliance with the requirements of § 257.64(a).

* * * * *

(e)(1) *Short-Term Alternate to Initiation of Closure.* Notwithstanding the provisions of § 257.101(a), or (b)(1), a CCR surface impoundment may continue to receive CCR and/or non-CCR wastestreams if the owner or operator of the CCR surface impoundment certifies that the CCR and/or non-CCR wastestreams must continue to be managed in that CCR surface impoundment to allow the facility to complete the measures necessary to provide alternative disposal capacity, either on-site or off-site of the facility. Qualification under this paragraph lasts only until alternative capacity is available or until November 30, 2020, whichever is sooner. To qualify under this paragraph, the owner or operator of the CCR surface impoundment must document that all of the following conditions have been met:

(i) No alternative disposal capacity is available on-site or off-site. An increase in costs or the inconvenience of existing capacity is not sufficient to support qualification under this section;

(ii) The owner or operator has made, and continues to make, efforts to obtain additional capacity that will become available no later than November 30, 2020. Once alternative capacity is identified, the owner or operator must arrange to use such capacity as soon as feasible; and

(iii) The owner or operator must remain in compliance with all other requirements of this subpart, including the requirement to conduct any necessary corrective action. The owner or operator at all times bears responsibility for demonstrating qualification under this section. Failure to remain in compliance with any of the requirements of this subpart could result in the automatic loss of authorization under this section.

(2) Once alternative capacity is available, the CCR surface impoundment must cease receiving CCR and non-CCR wastestreams and initiate closure following the timeframes in § 257.102(e) and (f).

(3) If no alternative capacity is identified by November 30, 2020, the CCR surface impoundment must cease receiving CCR and non-CCR wastestreams and close in accordance with the timeframes in § 257.102(e) and (f).

(4) An owner or operator of a CCR surface impoundment that closes in accordance with paragraphs (e) of this section must complete the notices as specified in paragraphs (d) and (e)(4)(i) through (ii) of this section.

(i) No later than August 31, 2020 the owner or operator must prepare and place in the facility's operating record a notification of intent to comply with alternative closure requirements of this section. The notification must describe the factual basis to support the facility's conclusion that the CCR unit qualifies for the alternative closure provisions under this paragraph, in addition to providing the documentation and certifications required by this paragraph.

(ii) An owner or operator of a CCR surface impoundment must also prepare the notification of intent to close a CCR unit as required by § 257.102(g).

(f) *Site Specific Alternate to Initiation of Closure Deadline.* Notwithstanding the provisions of § 257.101(a), and (b)(1), a CCR surface impoundment may continue to receive CCR and/or non-CCR wastestreams if the owner or operator of the CCR surface impoundment demonstrates to the

Administrator or the Participating State Director that the CCR and/or non-CCR wastestreams must continue to be managed in that CCR surface impoundment either: Because it was infeasible to complete the measures necessary to provide alternative disposal capacity on-site or off-site of the facility by November 30, 2020; or because the owner or operator certifies that the facility will permanently cease operation of the coal-fired boilers within the timeframes specified in paragraph (f)(2)(ii) of this section. Authorization under this paragraph is not available for units that have continued operation pursuant to § 257.103(e). The demonstration must be submitted to the Administrator or the Participating State Director no later than the relevant deadline in paragraph (f)(3) of this section and will act on the submission in accordance with the procedures in paragraph (f)(3) of this section.

(1) *Development of Alternative Capacity Infeasible.*

(i) To obtain approval under this paragraph, the owner or operator of the CCR surface impoundment must submit a demonstration that includes documents all of the following:

(A) Documentation that no alternative disposal capacity is available on-site or off-site. An increase in costs or the inconvenience of existing capacity is not sufficient to support qualification under this section;

(B) A certification from the owner or operator of the CCR surface impoundment that CCR and/or non-CCR wastestreams must continue to be managed in that CCR surface impoundment because it was infeasible to complete the measures necessary to obtain alternative disposal capacity either on-site or off-site of the facility by November 30, 2020;

(C) A certification from the owner or operator of the CCR surface impoundment that the facility is in compliance with all of the requirements of this Subpart;

(D) A workplan that contains the following elements:

(1) A narrative discussing the approach selected to obtain alternative capacity for CCR and/or non-CCR wastestreams;

(2) A detailed schedule of the fastest feasible time to complete the measures necessary for alternate capacity to be available including a visual timeline representation;

(3) A narrative discussion of the schedule and visual timeline representation; and

(4) A narrative discussion of the progress the owner or operator has made

to obtain alternative capacity for the CCR and/or non-CCR wastestreams;

(5) A narrative discussion of the strategy the owner or operator will utilize to remain in compliance with all other requirements of this subpart, including the requirement to conduct any necessary corrective action;

(ii) Once alternative capacity for a CCR or non-CCR wastestream is available, the existing CCR surface impoundment must cease receiving that CCR or non-CCR wastestream. The new alternate capacity must be utilized as soon as available. Once the existing CCR surface impoundment ceases receipt of all CCR and/or non-CCR wastestreams, the existing CCR surface impoundment must initiate closure following the timeframes in 257.102(e) and (f).

(iii) An owner or operator may seek additional time beyond the time granted in the initial approval by making the showing in paragraph (f)(1)(i) of this section, provided that no facility may be granted time to operate the impoundment beyond October 15, 2023. No later than October 15, 2023, all CCR surface impoundments covered by this section must cease receiving CCR and non-CCR wastestreams and close in accordance with the timeframes in § 257.102(e) and (f).

(iv) The owner or operator at all times bears responsibility for demonstrating qualification under this section. Failure to remain in compliance with any of the requirements of this subpart will result in the automatic loss of authorization under this section.

(v) An owner or operator of a CCR surface impoundment that closes in accordance with paragraph (f)(1) of this section must complete the notices and progress reports as specified in paragraphs (d) and (f)(1)(vi) through (xi) of this section.

(vi) Upon submission of the demonstration to the Administrator or the Participating State Director the owner or operator must prepare and place in the facility's operating record a notification of submitting the demonstration.

(vii) Upon approval or denial from the Administrator or the Participating State Director the owner or operator must prepare and place in the facility's operating record the notification of approval or denial and the approved or denied demonstration required by paragraph (f)(1) of this section.

(viii) If at any time after approval, the owner or operator discovers the need to seek additional time due to infeasibility to achieve cease receipt of waste prior to the granted alternative deadline under paragraph (f)(1)(iii) of this section, the owner or operator must

submit a notification to the Administrator or the Participating State Director as soon as possible. The owner or operator must prepare and place the notification in the facility's operating record.

(ix) The owner or operator must prepare semi-annual progress reports. The semi-annual progress reports are to contain the following:

(A) Discussion on progress obtaining alternative capacity, including:

(1) Discussion on the current stage of obtaining the capacity in reference to the timeline required under paragraph (f)(1)(i)(D)(2) of this section;

(2) Discussion on if the owner or operator is on schedule for obtaining alternative capacity;

(3) Discussion of any problems encountered, and a description of the actions taken to resolve the problems; and

(4) Discussion of the goals for the next 6 months and major milestones to be achieve for obtaining alternative capacity; and

(B) Discussion of any planned operational changes at the facility.

(x) The progress reports are to be completed according to the following schedule:

(A) The semi-annual progress reports are to be prepared and posted on April 1 and October 1 of each year for the duration of the alternate cease receipt of waste deadline.

(B) The first semi-annual progress report is to be prepared and posted by whichever date, April 1 or October 1, is soonest after receiving approval from the Administrator or the Participating State Director; and

(C) The owner or operator has completed the progress reports specified in paragraph (f)(1)(ix) of this section when the reports are placed in the facility's operating record as required by § 257.105(i)(17).

(xi) An owner or operator of a CCR surface impoundment must also prepare the notification of intent to close a CCR unit as required by § 257.102(g).

(2) *Permanent cessation of a coal-fired boiler(s) by a date certain.*

(i) Notwithstanding the provisions of § 257.101(a), and (b)(1), a CCR surface impoundment may continue to receive CCR and non-CCR wastestreams if the owner or operator certifies that the facility will cease operation of the coal-fired boilers and complete closure of the impoundment within the timeframes specified in paragraphs (f)(2)(ii) of this section, but in the interim period (prior to closure of the coal-fired boiler), the facility must continue to use the CCR unit due to the absence of alternative disposal capacity both on-site and off-

site of the facility. To qualify under this paragraph, the owner or operator of the CCR unit must submit a demonstration to the Administrator or Participating State Director that contains all of the following:

(A) Documentation that no alternative disposal capacity is available on-site or off-site. An increase in costs or the inconvenience of existing capacity is not sufficient to support qualification under this section.

(B) A plan to mitigate potential risks to human health and the environment from the CCR surface impoundment;

(C) Certification that the owner or operator remains in compliance with all other requirements of this subpart, including the requirement to conduct any necessary corrective action; and

(D) Documentation that the coal-fired boilers and closure of the impoundment will be completed within the timeframes specified in paragraphs (f)(2)(ii) of this section.

(ii) *Timeframes*

(A) For a CCR surface impoundment that is 40 acres or smaller, the coal-fired boiler must cease operation and the CCR surface impoundment must have completed closure no later than October 17, 2023.

(B) For a CCR surface impoundment that is larger than 40 acres, the coal-fired boiler must cease operation, and the CCR surface impoundment must complete closure no later than October 17, 2028.

(iii) The owner or operator at all times bears responsibility for demonstrating qualification for authorization under section. Failure to remain in compliance with any of the requirements of this subpart will result in the automatic loss of authorization under this section.

(iv) An owner or operator of a CCR surface impoundment that closes in accordance with paragraph (f)(2) of this section must complete the notices and progress reports as specified in paragraphs (d) and (f)(2)(v) through (vii) of this section.

(v) Upon submission of the demonstration to the Administrator or the Participating State Director the owner or operator must prepare and place in the facility's operating record a notification of submitting the demonstration.

(vi) Upon approval or denial from the Administrator or the Participating State Director the owner or operator must prepare and place in the facility's operating record the notification of approval or denial and the approved or denied demonstration required by paragraph (f)(2) of this section.

(vii) The owner or operator must prepare an annual progress report

documenting the continued lack of alternative capacity and the progress towards the closure of the CCR surface impoundment.

(3) *Process to Obtain Authorization*
(i) *Deadlines for Submission*

(A) The owner or operator must submit the demonstration required under paragraph (f)(1)(i) of this section, for an alternative cease receipt of waste deadline for a CCR surface impoundment pursuant to paragraph (f)(1) of this section, to EPA for approval no later than 2 months prior to the unit's deadline to cease receiving waste.

(B) An owner or operator may seek additional time beyond the time granted in the initial approval, as allowed under paragraph (f)(1)(iii) of this section, by submitting a new demonstration, as required under paragraph (f)(1)(i) of this section, to EPA for approval. No facility may be granted time to operate the impoundment beyond October 15, 2023.

(C) The owner or operator must submit the demonstration required under paragraph (f)(2)(i) of this section, for an alternative cease receipt of waste deadline for a CCR surface impoundment under paragraph (f)(2) of this section, to EPA for approval no later than May 15, 2020.

(ii) EPA will evaluate the demonstration and may request additional information to complete its review. Submission of a complete demonstration will toll the facility's deadline to cease receipt of waste until issuance of a final decision under paragraph (f)(3)(iv) of this section. Incomplete submissions will not toll the facility's deadline.

(iii) EPA will publish a proposed decision on EPA's website for a 15-day comment period. If the demonstration is particularly complex, EPA will provide a comment period of 20 to 30 days.

(iv) After consideration of the comments, EPA will issue its decision on the alternate compliance deadline within 4 months of receiving a complete demonstration. If no substantive comments are received, the proposed decision will become effective 5 days from the close of the comment period.

■ 6. Amend § 257.105 by adding paragraphs (i)(14) through (21).

§ 257.105 Recordkeeping requirements.

* * * * *
(i) * * *

(14) The notification of intent to comply with the short-term alternative to initiation of closure as required by § 257.103(e)(4)(i).

(15) The notification of intent to comply with the site-specific alternative to initiation of closure due to development of alternate capacity

infeasible as required by § 257.103(f)(1)(vi).

(16) The approved or denied demonstration for the site-specific alternative to initiation of closure due to development of alternate capacity infeasible as required by § 257.103(f)(1)(vii).

(17) The notification for requesting additional time to the alternative cease receipt of waste deadline as required by § 257.103(f)(1)(viii).

(18) The semi-annual progress reports as for the site-specific alternative to initiation of closure due to development of alternate capacity infeasible as required by § 257.103(f)(1)(ix).

(19) The notification of intent to comply with the site-specific alternative to initiation of closure due to permanent cessation of a coal-fired boiler(s) by a date certain as required by § 257.103(f)(2)(v).

(20) The approved or denied demonstration for the site-specific alternative to initiation of closure due to permanent cessation of a coal-fired boiler(s) by a date certain as required by § 257.103(f)(2)(vi).

(21) The annual progress report for the site-specific alternative to initiation of closure due to permanent cessation of a coal-fired boiler(s) by a date certain as required by § 257.103(f)(2)(vii).

* * * * *

■ 7. Amend § 257.106 by adding paragraphs (i)(14) through (21).

§ 257.106 Notification requirements.

* * * * *
(i) * * *

(14) Provide the notification of intent to comply with the short-term alternative to initiation of closure as specified under § 257.105(i)(14).

(15) Provide the notification of intent to comply with the site-specific alternative to initiation of closure due to development of alternate capacity infeasible as specified under § 257.105(i)(15).

(16) Provide the approved or denied demonstration for the site-specific alternative to initiation of closure due to development of alternate capacity infeasible as required by as specified under § 257.105(i)(16).

(17) Provide the notification for requesting additional time to the alternative cease receipt of waste deadline as required by § 257.1035(i)(17).

(18) The semi-annual progress reports as for the site-specific alternative to initiation of closure due to development of alternate capacity infeasible as specified under § 257.105(i)(18).

(19) Provide the notification of intent to comply with the site-specific

alternative to initiation of closure due to permanent cessation of a coal-fired boiler(s) by a date certain as specified under § 257.105(i)(19).

(20) Provide the approved or denied demonstration for the site-specific alternative to initiation of closure due to permanent cessation of a coal-fired boiler(s) by a date certain as required by § 257.105(i)(20).

(21) The annual progress report for the site-specific alternative to initiation of closure due to permanent cessation of a coal-fired boiler(s) by a date certain as required by § 257.105(i)(21).

* * * * *

■ 8. Amend § 257.107 by adding paragraphs (i)(14) through (21).

§ 257.107 Publicly accessible internet site requirements.

* * * * *
(i) * * *

(14) The notification of intent to comply with the short-term alternative to initiation of closure as specified under § 257.105(i)(14).

(15) The notification of intent to comply with the site-specific alternative to initiation of closure due to development of alternate capacity infeasible as specified under § 257.105(i)(15).

(16) The approved or denied demonstration for the site-specific alternative to initiation of closure due to development of alternate capacity infeasible as required by as specified under § 257.105(i)(16).

(17) The notification for requesting additional time to the alternative cease receipt of waste deadline as required by § 257.1035(i)(17).

(18) The semi-annual progress reports as for the site-specific alternative to initiation of closure due to development of alternate capacity infeasible as specified under § 257.105(i)(18).

(19) The notification of intent to comply with the site-specific alternative to initiation of closure due to permanent cessation of a coal-fired boiler(s) by a date certain as specified under § 257.105(i)(19).

(20) The approved or denied demonstration for the site-specific alternative to initiation of closure due to permanent cessation of a coal-fired boiler(s) by a date certain as required by § 257.105(i)(20).

(21) The annual progress report for the site-specific alternative to initiation of closure due to permanent cessation of a coal-fired boiler(s) by a date certain as required by § 257.105(i)(21).

Notices

Federal Register

Vol. 84, No. 231

Monday, December 2, 2019

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

Agency Information Collection Activities: Proposed Collection; Comment Request—Supplemental Nutrition Assistance Program (SNAP): Operating Guidelines, Forms and Waivers

AGENCY: Food and Nutrition Service (FNS), USDA.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice invites the general public and other public agencies to comment on this information collection. This is a revision of a currently approved collection. This information collection consists of five components of State agency reporting and/or recordkeeping: A budget projection statement, a program activity report, State plans of operation updates, waiver requests, and other plans and submissions such as advance planning documents for information systems and for electronic benefit transfer (EBT) systems.

DATES: Written comments must be received on or before January 31, 2020.

ADDRESSES: Comments may be sent to: Jane Duffield, Branch Chief, State Administration Branch, Program Accountability and Administration Division, Food and Nutrition Service, U.S. Department of Agriculture, 3101 Park Center Drive, Room 818, Alexandria, VA 22302. Comments may also be submitted via email to SM.FN.SNAPSAB@usda.gov. Comments will also be accepted through the Federal eRulemaking Portal. Go to <http://www.regulations.gov>, and follow the online instructions for submitting comments electronically.

All responses to this notice will be summarized and included in the request for Office of Management and Budget

approval. All comments will be a matter of public record.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of this information collection should be directed to Evan Sieradzki 703-605-3212.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions that were used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Title: Operating Guidelines, Forms and Waivers.

OMB Number: 0584-0083.

Forms: SNAP Waiver Request Template.

Expiration Date: July 31, 2020.

Type of Request: Revision of a currently approved collection.

Abstract: Section 16(a) of the Food and Nutrition Act of 2008 (the Act) authorizes 50 percent Federal reimbursement for State agency costs to administer the program. 7 CFR 272.2(a) of SNAP regulations states that State agencies shall periodically plan and budget program operations and establish objectives for the next year. The basic components of the State Plan of Operation are the Federal/State Agreement, the Budget Projection Statement (FNS-366A) and the Program Activity Statement (FNS-366B) (7 CFR 272.2(a)(2)). Under 7 CFR 272.2(c), the State agency shall annually submit to FNS for approval a Budget Projection Statement which shall contain projections for each quarter of the next Federal Fiscal Year and a narrative justification document explaining the assumptions used to arrive at the projections. The reporting burden [a total of 3,876 burden hours and 267 total annual responses] for forms FNS-366A, has 696 burden hours and 55 total

annual responses and FNS-366B has 3,180 total burden hours and 212 total annual responses) was merged in the burden for the Food Programs Reporting System (OMB control number 0584-0594, expiration date September 30, 2019, currently under review); therefore, reporting hours associated with these forms are not included in this notice. However, recordkeeping requirements for these forms remains in this OMB Control Number. The State agency shall also submit quarterly a Program Activity Statement soliciting a summary of Program activity for the State agency's operations during the preceding reporting period. In addition, certain attachments to the plan as specified in subparagraphs (c) and (d) are to be submitted. As specified in subparagraph (f), State agencies only have to provide FNS with changes to these attachments as they occur. Consequently, these attachments are considered State plan updates. Under Section 11(o) of the Act, each State agency is required to develop and submit plans for the use of automated data processing (ADP) and information retrieval systems to administer SNAP. Section 16(a) of the Act authorizes partial Federal reimbursement of State costs for State ADP systems that the Secretary determines will assist meeting the requirements of the Act, meets conditions prescribed by the Secretary, are likely to provide more efficient and effective administration of the program, and are compatible with certain other Federally-funded systems. Under 7 CFR 277.18(c)(1) of SNAP regulations, State agencies must obtain prior written approval from FNS when it plans to enhance, replace, or acquire Information System (IS) equipment with a total acquisition cost of \$6 million or more in Federal and State funds. The State agency must submit an Advance Planning Document (APD) prior to acquiring planning services and an Implementation APD prior to acquiring ADP equipment or services. Additionally, State agencies administering SNAP may submit formal written requests, SNAP waiver requests, to obtain approval from FNS to deviate from a specific program rule or regulation. Current procedures require that in order for FNS to approve a SNAP waiver request, the State agency must submit the SNAP Waiver Request template to FNS. Due to ongoing

technical complications, the SNAP Workflow Information Management (SWIM) system has been suspended however, FNS may consider its use in the future. This suspension does not modify the currently approved burden hours in any way and States will continue to submit the SNAP Waiver Requests electronically via email.

Burden Estimates: The burden within this collection consists of reporting and recordkeeping burden for the State Plan of Operation Updates and APD Plans or Updates; and only recordkeeping burden for forms FNS-366A and FNS-366B. The current burden is 1,095.76 hours (1,056.04 reporting hours and 39.72 recordkeeping hours. The calculation of the burden for each of these components is described below:

Reporting

Reporting Burden Estimates: Affected Public: State, Local and Tribal Government Agencies.

Estimated Number of Respondents: 53.

Estimated Number of Responses per Respondent: 8.35.

Estimated Total Annual Responses: 442.3.

Estimated Reporting Time per Response: 2.3876.

Estimated Annual Reporting Burden Hours: 1,056.04.

State Plan of Operation Updates. 53 State agencies submit one 1 response annually for a total of 53 annual responses. The reporting burden for submission of updates to State Plans of Operation is 6.58 hours per respondent,

resulting in estimated burden hours of 348.74 (53 × 6.58 = 348.74).

APD Plans or Updates. We estimate that up to 53 State agencies may submit on an average of 4 APD, plan, or update submission for a total of 212 annual responses at an average estimate of 2.5 hours per respondent. The reporting burden is 530 hours.

SNAP Waiver Requests. FNS estimates that out of 53 State agencies 45 State will submit 3.94 of the three identified waivers annually for a total number of 177.3 Waivers annually. Completion and submission of these waivers take approximately 1 hour for a total of 177.3 burden hours annually.

Reporting

| Affected public | Burden activities | Forms | CFR citations | Number of respondents | Frequency of response | Total annual responses | Time per response (hrs) | Annual reporting burden hours |
|--|---------------------------|-----------------------|---------------|-----------------------|-----------------------|------------------------|-------------------------|-------------------------------|
| State Agencies | Plan of Operations | | 272.2 | 53.00 | 1.00 | 53.00 | 6.58 | 348.74 |
| | Other APD Plan or Update. | | 277.18 | 53.00 | 4.00 | 212.00 | 2.50 | 530.00 |
| | SNAP Waiver Requests. | SNAP Waiver Template. | 272.3(c) | 45.00 | 3.94 | 177.30 | 1.00 | 177.30 |
| Reporting Total Burden Estimates | | | | 53.00 | 8.35 | 442.30 | 2.3876 | 1,056.04 |

Recordkeeping

Recordkeeping Burden Estimates: Affected Public: State, Local and Tribal Government Agencies.

Estimated Number of Recordkeepers: 53.

Estimated Number of Records per Recordkeepers: 9.85.

Estimated Total Annual Records: 522.

Estimated Recordkeeping Time per Recordkeepers: 0.07609.

Estimated Annual Recordkeeping Burden Hours: 39.72.

FNS-366A. State agencies are required to submit to FNS for approval a Budget Projection Statement, Form FNS-366A, which includes projections of the total Federal costs for major areas of program operations. There is a total of 53 recordkeepers for each activity.

Each State agency submits 1 response annually for a total of 53 annual responses. A copy is maintained for 3 years. It takes approximately 0.05 minutes to maintain each record. Total annual recordkeeping burden for FNS-366A is estimated at 2.65 hours annually per recordkeeper.

FNS-366B. State agencies are required to submit to FNS quarterly, a Program Activity Statement, Form FNS-366B, providing a summary of program activity for the State agency's operations during its preceding quarter. Each State agency submits 4 responses annually for a total of 212 annual responses; each record takes approximately 0.05 minutes to maintain. The annual recordkeeping burden for FNS-366B is

estimated annually at 2.65 hours per recordkeeper.

State Plan of Operation Updates. Each State agency submits 1 response annually for a total of 45 annual responses; each record takes approximately 0.07 minutes to maintain. The annual recordkeeping burden for updates to State Plans of Operation as attachments to the FNS-366B is 3.15 hours per recordkeeper.

Other APD Plans and Updates. FNS estimated that up to 53 State agencies may submit an average of 4 APD, Plan, or Update submissions and approximately 212 records at an average estimate of 0.11 minutes per recordkeeper for an estimated total of 23.32 recordkeeping burden for this activity hours.

| Affected public | Form No. or activity | Number recordkeepers | Number records per respondent | Estimate total annual records (c × d) | Hours per recordkeeper | Total burden (e × f) |
|---------------------------------------|----------------------------|----------------------|-------------------------------|---------------------------------------|------------------------|----------------------|
| | (b) | (c) | (d) | (e) | (f) | (g) |

BILLING CODE 3410-30-P

DEPARTMENT OF AGRICULTURE

Forest Service

Information Collection: Youth Conservation Corps Application and Medical History

AGENCY: Forest Service, USDA.

ACTION: Notice and request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the USDA Forest Service and certain Department of Interior agencies are seeking comments from all interested individuals and organizations on the extension of a currently approved information collection, Youth Conservation Corps Application and Medical History.

DATES: Comments must be received in writing on or before January 31, 2020 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Comments concerning this notice should be addressed to Volunteers & Service Program Manager, USDA, Forest Service, Recreation, Heritage, and Volunteer Resources, 201 14th Street NW, Mailstop 1125, Washington, DC 20024.

Comments also may be submitted via facsimile to 202-205-1145 or by email to: keyana.ellis@fs.fed.us.

The public may inspect comments received at USDA, Forest Service, Washington Office, Sidney R. Yates Building during normal business hours. Visitors are encouraged to call ahead to 202-205-0650 to facilitate entry to the building.

FOR FURTHER INFORMATION CONTACT:

Keyana C. Ellis Reynolds, Ph.D., Recreation, Heritage, and Volunteer Resources staff, at 202-205-0650, keyana.ellis@fs.fed.us.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 between 8:00 a.m. and 8:00 p.m., Eastern Standard Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title: Youth Conservation Corps Application and Medical History.

OMB Number: 0596-0084.

Expiration Date of Approval: 01/31/2020.

Type of Request: Extension of a currently approved information collection.

Abstract: Under the Youth Conservation Corps Act of August 13, 1970, as amended (U.S. 18701-1706), the Forest Service, U.S. Department of Agriculture, the Fish and Wildlife Service, National Park Service, and U.S. Department of Interior; cooperate to provide seasonal employment for eligible youth 15 through 18 years old. The Youth Conservation Corps stresses three important objectives:

1. Accomplish needed conservation work on public lands;
2. Provide gainful employment for 15 to 18 year-old males and females from all social, economic, ethnic, and racial backgrounds; and
3. Foster, on the part of the 15 through 18 year-old youth, an understanding and appreciation of the Nation's natural resources and heritage.

Youths seeking training and employment with the Youth Conservation Corps must complete the following forms: FS-1800-18 Youth Conservation Corps Application, and FS-1800-3, Youth Conservation Corps Medical History. The applicant's parent or guardian must sign both forms. The application and medical history form are evaluated by participating agencies to determine the eligibility of each youth for employment with the Youth Conservation Corps.

FS-1800-18, Youth Conservation Corps (YCC) Application: Applicants are asked to answer questions that include their name; date of birth; age; mailing address; telephone numbers; email address; gender; desired work location; where they learned about the program; certification of ability to apply for/provide social security number, citizenship or permanent residency documentation, work permit, and understanding of the conditions of job/role; Parent/Guardian Contact Information (if under 18); and why they want to enroll in a YCC program.

Estimate of Annual Burden: 23 minutes per form per respondent.

Type of Respondents: Youth 15 through 18 years old seeking seasonal employment with the above-named agencies through the YCC program. Please note that if an applicant is under the age of 18; a Parent/Guardian may respond for the youth.

Estimated Annual Number of Respondents: 8,500 respondents.

Estimated Total Annual Burden on Respondents: 3,256 hours.

FS-1800-3, Youth Conservation Corps Medical History: Accepted applicants are asked to provide contact information, age, date of birth, gender,

emergency contact information, parent or guardian's contact information and signature, medical insurance information, medical history including vaccination history, previous and current illnesses or conditions that may affect ability to perform certain tasks, primary language, ethnic background (optional), exercise currently undertaken, and swimming ability.

The purpose of this form is to certify the youth's physical fitness to work in the seasonal employment program.

Estimate of Annual Burden: 23 minutes per form per respondent.

Type of Respondents: Youth 15 through 18 years old seeking seasonal employment with the above-named agencies, through the YCC program. Please note that if an applicant is under the age of 18, a Parent/Guardian may respond for the youth.

Estimated Annual Number of Respondents: 2,909 respondents.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 1,105 hours.

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission request toward Office of Management and Budget approval.

Dated: November 6, 2019.

Michiko Martin,

Director, Recreation, Heritage, and Volunteer Resources.

BILLING CODE 3411-15-P

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the Wyoming Advisory Committee

AGENCY: U.S. Commission on Civil Rights.

ACTION: Announcement of meeting.

SUMMARY: Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights (Commission) and the Federal Advisory Committee Act (FACA) that the meeting of the Wyoming Advisory Committee (Committee) to the Commission will be held at 1:00 p.m. (MDT) Tuesday, December 17, 2019. The purpose of this meeting is for the Committee to debrief their hearing on hate crimes.

DATES: Tuesday, December 17, 2019 at 1:00 p.m. MDT.

Public Call Information: Dial: 800–367–2403, Conference ID: 9016420.

FOR FURTHER INFORMATION CONTACT: Ana Victoria Fortes (DFO) at *afortes@usccr.gov* or (213) 894–3437.

SUPPLEMENTARY INFORMATION: This meeting is available to the public through the following toll-free call-in number: 800–367–2403, conference ID number: 9016420. Any interested member of the public may call this number and listen to the meeting. Callers can expect to incur charges for calls they initiate over wireless lines, and the Commission will not refund any incurred charges. Callers will incur no charge for calls they initiate over land-line connections to the toll-free telephone number. Persons with hearing impairments may also follow the proceedings by first calling the Federal Relay Service at 1–800–877–8339 and providing the Service with the conference call number and conference ID number.

Members of the public are entitled to make comments during the open period at the end of the meeting. Members of the public may also submit written comments; the comments must be

received in the Regional Programs Unit within 30 days following the meeting. Written comments may be mailed to the Western Regional Office, U.S. Commission on Civil Rights, 300 North Los Angeles Street, Suite 2010, Los Angeles, CA 90012. They may be faxed to the Commission at (213) 894–0508, or emailed Ana Victoria Fortes at *afortes@usccr.gov*. Persons who desire additional information may contact the Regional Programs Unit at (213) 894–3437.

Records and documents discussed during the meeting will be available for public viewing prior to and after the meetings at *https://www.facadatabase.gov/FACA/FACAPublicViewCommitteeDetails?id=a10t0000001gzliAAA*.

Please click on “Committee Meetings” tab. Records generated from these meetings may also be inspected and reproduced at the Regional Programs Unit, as they become available, both before and after the meetings. Persons interested in the work of this Committee are directed to the Commission’s website, *https://www.usccr.gov*, or may contact the Regional Programs Unit at the above email or street address.

Agenda

- I. Welcome
- II. Debrief Hearing
- III. Public Comment
- IV. Adjournment

Dated: November 25, 2019.

David Mussatt,
Supervisory Chief, Regional Programs Unit.

BILLING CODE P

DEPARTMENT OF COMMERCE

International Trade Administration

Initiation of Five-Year (Sunset) Reviews

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is automatically initiating the five-year reviews (Sunset Reviews) of the antidumping and countervailing duty (AD/CVD) order(s) listed below. The International Trade Commission (the Commission) is publishing concurrently with this notice its notice of *Institution of Five-Year Reviews* which covers the same order(s).

DATES: Applicable (December 1, 2019).

FOR FURTHER INFORMATION CONTACT: Commerce official identified in the *Initiation of Review* section below at AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230. For information from the Commission contact Mary Messer, Office of Investigations, U.S. International Trade Commission at (202) 205–3193.

SUPPLEMENTARY INFORMATION:

Background

Commerce’s procedures for the conduct of Sunset Reviews are set forth in its *Procedures for Conducting Five-Year (Sunset) Reviews of Antidumping and Countervailing Duty Orders*, 63 FR 13516 (March 20, 1998) and 70 FR 62061 (October 28, 2005). Guidance on methodological or analytical issues relevant to Commerce’s conduct of Sunset Reviews is set forth in *Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain Antidumping Duty Proceedings; Final Modification*, 77 FR 8101 (February 14, 2012).

Initiation of Review

In accordance with section 751(c) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.218(c), we are initiating the Sunset Reviews of the following antidumping and countervailing duty order(s):

| DOC case No. | ITC case No. | Country | Product | Commerce contact |
|-----------------|--------------|-------------|---|---------------------------------|
| A–570–008 | 731–TA–1245 | China | Calcium Hypochlorite (1st Review) | Matthew Renke, (202) 482–2312. |
| C–570–009 | 701–TA–510 | China | Calcium Hypochlorite (1st Review) | Matthew Renkey, (202) 482–2312. |
| A–570–012 | 731–TA–1248 | China | Carbon and Certain Alloy Steel Wire Rod (1st Review). | Mary Kolberg, (202) 482–1785. |
| C–570–013 | 701–TA–512 | China | Carbon and Certain Alloy Steel Wire Rod (1st Review). | Mary Kolberg, (202) 482–1785. |
| A–570–919 | 731–TA–1125 | China | Electrolytic Manganese Dioxide (2nd Review). | Matthew Renkey, (202) 482–2312. |
| A–570–920 | 731–TA–1126 | China | Lightweight Thermal Paper (2nd Review). | Mary Kolberg, (202) 482–1785. |
| C–570–921 | 701–TA–451 | China | Lightweight Thermal Paper (2nd Review). | Mary Kolberg, (202) 482–1785. |

Filing Information

As a courtesy, we are making information related to sunset proceedings, including copies of the pertinent statute and Commerce's regulations, Commerce's schedule for Sunset Reviews, a listing of past revocations and continuations, and current service lists, available to the public on Commerce's website at the following address: <http://enforcement.trade.gov/sunset/>. All submissions in these Sunset Reviews must be filed in accordance with Commerce's regulations regarding format, translation, and service of documents. These rules, including electronic filing requirements via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS), can be found at 19 CFR 351.303.¹

Any party submitting factual information in an AD/CVD proceeding must certify to the accuracy and completeness of that information.² Parties must use the certification formats provided in 19 CFR 351.303(g).³ Commerce intends to reject factual submissions if the submitting party does not comply with applicable revised certification requirements.

On April 10, 2013, Commerce modified two regulations related to AD/CVD proceedings: The definition of factual information (19 CFR 351.102(b)(21)), and the time limits for the submission of factual information (19 CFR 351.301).⁴ Parties are advised to review the final rule, available at <http://enforcement.trade.gov/frn/2013/1304frn/2013-08227.txt>, prior to submitting factual information in these segments. To the extent that other regulations govern the submission of factual information in a segment (such as 19 CFR 351.218), these time limits will continue to be applied. Parties are also advised to review the final rule concerning the extension of time limits for submissions in AD/CVD proceedings, available at <http://enforcement.trade.gov/frn/2013/1309frn/2013-22853.txt>, prior to

submitting factual information in these segments.⁵

Letters of Appearance and Administrative Protective Orders

Pursuant to 19 CFR 351.103(d), Commerce will maintain and make available a public service list for these proceedings. Parties wishing to participate in any of these five-year reviews must file letters of appearance as discussed at 19 CFR 351.103(d). To facilitate the timely preparation of the public service list, it is requested that those seeking recognition as interested parties to a proceeding submit an entry of appearance within 10 days of the publication of the Notice of Initiation. Because deadlines in Sunset Reviews can be very short, we urge interested parties who want access to proprietary information under administrative protective order (APO) to file an APO application immediately following publication in the **Federal Register** of this notice of initiation. Commerce's regulations on submission of proprietary information and eligibility to receive access to business proprietary information under APO can be found at 19 CFR 351.304–306.

Information Required From Interested Parties

Domestic interested parties, as defined in section 771(9)(C), (D), (E), (F), and (G) of the Act and 19 CFR 351.102(b), wishing to participate in a Sunset Review must respond not later than 15 days after the date of publication in the **Federal Register** of this notice of initiation by filing a notice of intent to participate. The required contents of the notice of intent to participate are set forth at 19 CFR 351.218(d)(1)(ii). In accordance with Commerce's regulations, if we do not receive a notice of intent to participate from at least one domestic interested party by the 15-day deadline, Commerce will automatically revoke the order without further review.⁶

If we receive an order-specific notice of intent to participate from a domestic interested party, Commerce's regulations provide that *all parties* wishing to participate in a Sunset Review must file complete substantive responses not later than 30 days after the date of publication in the **Federal Register** of this notice of initiation. The required contents of a substantive response, on an order-specific basis, are set forth at 19 CFR 351.218(d)(3). Note that certain information requirements

differ for respondent and domestic parties. Also, note that

Commerce's information requirements are distinct from the Commission's information requirements. Consult Commerce's regulations for information regarding Commerce's conduct of Sunset Reviews. Consult Commerce's regulations at 19 CFR part 351 for definitions of terms and for other general information concerning antidumping and countervailing duty proceedings at Commerce.

This notice of initiation is being published in accordance with section 751(c) of the Act and 19 CFR 351.218(c).

Dated: November 25, 2019.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

International Trade Administration

Corporation for Travel Promotion Board of Directors

AGENCY: International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of opportunity.

SUMMARY: The Department of Commerce is currently seeking applications from travel and tourism leaders from specific industries for membership on the Board of Directors (Board) of the Corporation for Travel Promotion (doing business as Brand USA). The purpose of the Board is to guide the Corporation for Travel Promotion on matters relating to the promotion of the United States as a travel destination and communication of travel facilitation issues, among other tasks. This is the third notice of an opportunity for travel and tourism industry leaders to apply for membership on the Board of Directors of the Corporation for Travel Promotion. Previous notices for this opportunity were published on Friday, July 19, 2019 and Thursday, September 12, 2019. This **Federal Register** Notice also adds a fifth sector as the Department is now also seeking a leader with state tourism office experience.

DATES: All applications must be received by the National Travel and Tourism Office by close of business on Wednesday, December 11, 2019. Applicants who applied in response to the previously published **Federal Register** Notices (84 FR 34862, 48104) do not need to re-apply.

¹ See also *Antidumping and Countervailing Duty Proceedings: Electronic Filing Procedures; Administrative Protective Order Procedures*, 76 FR 39263 (July 6, 2011).

² See section 782(b) of the Act.

³ See also *Certification of Factual Information to Import Administration During Antidumping and Countervailing Duty Proceedings*, 78 FR 42678 (July 17, 2013) (*Final Rule*). Answers to frequently asked questions regarding the *Final Rule* are available at http://enforcement.trade.gov/tei/notices/factual_info_final_rule_FAQ_07172013.pdf.

⁴ See *Definition of Factual Information and Time Limits for Submission of Factual Information: Final Rule*, 78 FR 21246 (April 10, 2013).

⁵ See *Extension of Time Limits*, 78 FR 57790 (September 20, 2013).

⁶ See 19 CFR 351.218(d)(1)(iii).

ADDRESSES: Please submit application information by email to CTPBoard@trade.gov.

FOR FURTHER INFORMATION CONTACT: Julie Heizer, National Travel and Tourism Office, U.S. Department of Commerce, 1401 Constitution Avenue NW, MS10003, Washington, DC 20230; telephone: 202-482-0140; email: CTPBoard@trade.gov.

SUPPLEMENTARY INFORMATION: The Travel Promotion Act of 2009 (TPA) was signed into law on March 4, 2010 and was amended in July 2010 and December 2014. The TPA established the Corporation for Travel Promotion (the Corporation) as a non-profit corporation charged with the development and execution of a plan to (A) provide useful information to those interested in traveling to the United States; (B) identify and address misperceptions regarding U.S. entry policies; (C) maximize economic and diplomatic benefits of travel to the United States through the use of various promotional tools; (D) ensure that international travel benefits all States and the District of Columbia; (E) identify opportunities to promote tourism to rural and urban areas equally, including areas not traditionally visited by international travelers; and (F) give priority to countries and populations most likely to travel to the United States.

The Corporation is governed by a Board of Directors, consisting of 11 members with knowledge of international travel promotion or marketing, broadly representing various regions of the United States. The TPA directs the Secretary of Commerce (after consultation with the Secretary of Homeland Security and the Secretary of State) to appoint the Board of Directors for the Corporation.

At this time, the Secretary will be selecting five individuals with the appropriate expertise and experience from specific sectors of the travel and tourism industry to serve on the Board as follows:

(A) One (1) shall have appropriate expertise and experience in the *attractions or recreations* sector;

(B) One (1) shall have appropriate expertise and experience in *immigration law and policy*, including visa requirements and United States entry procedures;

(C) One (1) shall have appropriate expertise and experience in the *land or sea passenger transportation* sector;

(D) One (1) shall have appropriate expertise and experience in the *passenger air* sector; and

(E) One (1) shall have appropriate expertise and experience as an official of a *State tourism office*.

To be eligible for Board membership, individuals must have knowledge of international travel promotion or marketing, be a current or former chief executive officer, chief financial officer, or chief marketing officer or have held an equivalent management position. Additional consideration will be given to individuals who have experience working in U.S. multinational entities with marketing budgets, and/or who are audit committee financial experts as defined by the Securities and Exchange Commission (in accordance with 15 U.S.C. 7265). Individuals must be U.S. citizens, and in addition, cannot be federally registered lobbyists or registered as a foreign agent under the Foreign Agents Registration Act of 1938, as amended.

Those selected for the Board must be able to meet the time and effort commitments of the Board.

Board members serve at the discretion of the Secretary of Commerce (who may remove any member of the Board for good cause). The term of office for the member of the Board having appropriate expertise and experience as an official of a *State tourism office* shall be two (2) years, as this individual will be appointed by the Secretary to fill a vacancy occurring prior to the expiration term for which that member's predecessor was appointed. The terms of office for the other members of the Board appointed by the Secretary shall be three (3) years. Board members can serve a maximum of two consecutive full three-year terms. Board members are not considered Federal government employees by virtue of their service as a member of the Board and will receive no compensation from the Federal government for their participation in Board activities. Members participating in Board meetings and events may be paid actual travel expenses and per diem by the Corporation when away from their usual places of residence.

Individuals who want to be considered for appointment to the Board should submit the following information by the Wednesday, December 11, 2019 deadline to the address listed in the **ADDRESSES** section above:

1. Name, title, and personal resume of the individual requesting consideration, including address, email address and phone number.

2. A brief statement of why the person should be considered for appointment to the Board. This statement should also address the individual's relevant international travel and tourism

marketing experience and audit committee financial expertise, if any, and indicate clearly the sector or sectors enumerated above in which the individual has the requisite expertise and experience. Individuals who have the requisite expertise and experience in more than one sector can be appointed for only one of those sectors. Appointments of members to the Board will be made by the Secretary of Commerce.

3. An affirmative statement that the applicant is a U.S. citizen, is not a federally-registered lobbyist and further, is not required to register as a foreign agent under the Foreign Agents Registration Act of 1938, as amended.

4. If applicable, a statement acknowledging that the applicant is an audit committee financial expert as defined by the Securities and Exchange Commission (in accordance with 15 U.S.C. 7265).

Dated: November 16, 2019.

Julie Heizer,

Deputy Director, National Travel and Tourism Office.

BILLING CODE 3510-DR-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XR015]

Notice of Availability of Draft Environmental Assessment on the Effects of Issuing an Incidental Take Permit No. 23148

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; availability of a Draft Environmental Assessment; request for comments.

SUMMARY: NMFS announces the availability of the Draft Environmental Assessment (EA) on the effects of issuing an Incidental Take Permit (ITP) (No. 23148) to Exelon Generating Company, LLC, pursuant to the Endangered Species Act (ESA) of 1973, as amended, for the incidental take of shortnose (*Acipenser brevirostrum*) and Atlantic (*Acipenser oxyrinchus*) sturgeon associated with the otherwise lawful operation of the Eddystone Generating Station in Eddystone, PA. The facility is requesting the permit be issued for a duration of 10 years. NMFS is requesting comment on the draft EA. **DATES:** Written comments must be received at the appropriate address or

fax number (see **ADDRESSES**) on or before January 2, 2020.

ADDRESSES: The EA is available for download and review at <https://www.fisheries.noaa.gov/action/incidental-take-permit-eddystone-generating-station> under the section heading Supporting Materials. The application and conservation plan are also available upon written request or by appointment in the following office: Endangered Species Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13631, Silver Spring, MD 20910; phone (301) 427-8402; fax (301) 713-4060.

You may submit comments, identified by NOAA-NMFS-2019-0076, by any of the following methods:

- **Electronic Submissions:** Submit all electronic public comments via the Federal eRulemaking Portal. Go to www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2019-0076 click the “Comment Now” icon, complete the required fields, and enter or attach your comments.

- **Fax:** (301) 713-4060; Attn: Celeste Stout.

- **Mail:** Submit written comments to the Endangered Species Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13631, Silver Spring, MD 20910; Attn: Celeste Stout.

Instructions: You must submit comments by one of the above methods to ensure that we receive, document, and consider them. Comments sent by any other method, to any other address or individual, or received after the end of the comment period may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on <http://www.regulations.gov> without change. All personal identifying information (e.g., name, address, etc.) confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. We will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Celeste Stout, Phone: (301) 427-8436 or Email: celeste.stout@noaa.gov.

SUPPLEMENTARY INFORMATION: Publication of this notice begins the official public comment period for this draft EA. Per the National Environmental Policy Act (NEPA), the purpose of the draft EA is to evaluate the potential direct, indirect, and cumulative impacts caused by the issuance of Permit No. 23148 to Exelon Generating Company, LLC, for the

incidental take of shortnose (*Acipenser brevirostrum*) and Atlantic (*Acipenser oxyrinchus*) sturgeon. All comments received will become part of the public record and will be available for review.

Section 9 of the ESA and Federal regulations prohibit the “taking” of a species listed as endangered or threatened. The ESA defines “take” to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may issue permits, under limited circumstances to take listed species incidental to, and not the purpose of, otherwise lawful activities. Section 10(a)(1)(B) of the ESA provides a mechanism for authorizing incidental take of listed species. NMFS regulations governing permits for threatened and endangered species are promulgated at 50 CFR 222.307.

Background

Exelon Generating Company, LLC, owns Eddystone Generating Station (the facility), a natural gas/fuel oil-fired electric power generating facility that operates as a peaking plant, (*i.e.*, typically running at higher levels of generation capacity during the summer and winter periods). The facility is located at 1 Industrial Highway, Eddystone, PA 19022. The facility presently consists of two natural gas/fuel oil-fired electric generating units that are steam-electric generators. Cooling water for each unit is withdrawn from the Delaware River through a cooling water intake structure (CWIS), which is located along the west shore of the River, directly in front of the facility. The operation of the CWIS is the primary aspect of the facility operations under consideration for this ITP due to the potential impacts to ESA-listed sturgeon. Exelon conducted entrainment sampling at the facility in 2005–2006, 2016, and 2017. One Atlantic sturgeon yolk-sac larva was collected in May 2017. Thus, Exelon determined it was necessary to apply for an ITP in accordance with the requirements under Section 10(a)(1)(B) of the ESA.

NMFS received a draft permit application from Exelon on June 28, 2018. Based on our review of the draft application, we requested further information and clarification. On December 21, 2018, Exelon submitted an application. Based on review of the updated application, NMFS and Exelon held further discussions regarding what needed to be incorporated in the Conservation Plan. On June 21, 2019, Exelon submitted a revised application and Conservation plan. This application was considered complete and on July

16, 2019, NMFS published a notice of receipt of the Exelon application for the Eddystone facility in the **Federal Register** (84 FR 33924). The comment period ended on August 15, 2019. No comments were received.

Conservation Plan

Section 10 of the ESA specifies that no permit may be issued unless an applicant submits an adequate conservation plan. The conservation plan prepared by Exelon Generation Company, LLC, describes measures to monitor, minimize and mitigate the impacts of incidental takes of ESA-listed shortnose and Atlantic sturgeon. To avoid and minimize take of sturgeon, Exelon will only operate Eddystone’s circulating water pumps (CWPs): (1) When the station is generating electricity; and (2) for incidental maintenance or testing (generally once per month) (referred to collectively as “Essential Station Operations”); or as required by a governmental agency or other entity with jurisdiction to require operations. Depending on station generation and ambient water temperatures, Exelon will also limit operations to one CWP per unit when possible. In addition, Exelon will rely on the river water pumps (RWPs) to provide cooling water for other critical station operations outside of Essential Station Operations. These measures will avoid and minimize the incidental take of sturgeon due to entrainment or impingement by eliminating or reducing water withdrawals at times when such withdrawals are not specifically required for Essential Station Operations or for governmental agency-mandated use. Additionally, Exelon will make all reasonable efforts to schedule fuel oil deliveries outside March 15–July 15. Continued monitoring related to the take of shortnose and Atlantic sturgeon will be ongoing and funding will be provided through the facility’s annual operating budget.

National Environmental Policy Act

This notice is provided pursuant to section 10(c) of the ESA and the National Environmental Policy Act (NEPA) regulations (40 CFR 1506.6). The draft EA was prepared in accordance with NEPA (42 U.S.C. 4321, *et seq.*), 40 CFR 1500–1508 and NOAA policy and procedures (NAO 216–6A and the Companion Manual for the NAO 216–6A).

Alternatives Considered

In preparing the draft EA, NMFS considered the following 2 alternatives for the action.

Alternative 1: No Action. In accordance with the NOAA Companion Manual (CM) for NAO 216–6A, Section 6.B.i, NMFS is defining the no action alternative as not authorizing the requested incidental take of ESA-listed shortnose (*Acipenser brevirostrum*) and Atlantic sturgeon (*Acipenser oxyrinchus*). This is consistent with our statutory obligation under Section 10(a)(1)(B) of the ESA to either: (1) Deny the requested ITP or (2) grant the requested ITP and prescribe mitigation, monitoring, and reporting requirements. Under the no action alternative, NMFS would not issue the ITP, in which case we assume Exelon would continue to operate the Eddystone facility as described in the application without implementing the full suite of specific mitigation measures, monitoring, reporting explained in the Conservation Plan. The CEQ Regulations and the Companion Manual for NAO 216–6A require consideration and analysis of a no action alternative for the purposes of presenting a comparative analysis to the action alternatives. The no action alternative, serves as a baseline against which the impacts of the action alternatives will be compared and contrasted.

Alternative 2: Issue Permit as Requested in Application (Proposed Action): Under Alternative 2, an ITP would be issued to exempt Exelon Generating Company, LLC, from the ESA prohibition on taking of shortnose (*Acipenser brevirostrum*), Atlantic sturgeon (*Acipenser oxyrinchus*) during the otherwise lawful operation of the Eddystone Generating Station. As required under Section 10(a)(1)(B), the ITP would require Eddystone to operate as described in the proposed Conservation Plan to avoid and minimize take of shortnose and Atlantic sturgeon.

Final permit determinations will not be completed until after the end of the 30-day comment period and will fully consider all public comments received during the comment period. NMFS will publish a record of its final action in the **Federal Register**.

Dated: November 26, 2019.

Angela Somma,

Chief, Endangered Species Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510–22–P

BUREAU OF CONSUMER FINANCIAL PROTECTION

[Docket No. CFPB–2019–0060]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Bureau of Consumer Financial Protection.

ACTION: Notice and request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Consumer Financial Protection (Bureau) is requesting to reinstate the Office of Management and Budget (OMB) approval for the previously-approved information collection titled, “Application for the Bureau’s Advisory Committees.”

DATES: Written comments are encouraged and must be received on or before January 2, 2020 to be assured of consideration.

ADDRESSES: Comments in response to this notice are to be directed towards OMB and to the attention of the OMB Desk Officer for the Bureau. You may submit comments, identified by the title of the information collection, OMB Control Number (see below), and docket number (see above), by any of the following methods:

- **Electronic:** <http://www.regulations.gov>. Follow the instructions for submitting comments.
- **Email:** OIRA_submission@omb.eop.gov.
- **Fax:** (202) 395–5806.
- **Mail:** Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.

In general, all comments received will become public records, including any personal information provided. Sensitive personal information, such as account numbers or Social Security numbers, should not be included.

FOR FURTHER INFORMATION CONTACT:

Documentation prepared in support of this information collection request is available at www.reginfo.gov (this link becomes active on the day following publication of this notice). Select “Information Collection Review,” under “Currently under Review,” use the dropdown menu “Select Agency” and select “Consumer Financial Protection Bureau” (recent submissions to OMB will be at the top of the list). The same documentation is also available at <http://www.regulations.gov>. Requests for additional information should be directed to Darrin King, PRA Officer, at (202) 435–9575, or email: CFPB_PRA@cfpb.gov. If you require this document

in an alternative electronic format, please contact CFPB_Accessibility@cfpb.gov. Please do not submit comments to these email boxes.

SUPPLEMENTARY INFORMATION:

Title of Collection: Application for the Bureau’s Advisory Committees.

OMB Control Number: 3170–0037.

Type of Review: Reinstatement with change of a previously-approved OMB Control Number.

Affected Public: Individuals.

Estimated Number of Respondents: 425.

Estimated Total Annual Burden Hours: 491.

Abstract: The Director of the Bureau may invite individuals with special expertise to serve on the Bureau’s advisory committees. The selection-related material will allow the Bureau to obtain information on the qualifications of individuals nominated to an advisory committee and will aid the Bureau in selecting members for service on an advisory committee. The selection-related information will also aid the Bureau in determining the appropriateness of participation in particular matters. The information collected from applicants will aid the Bureau in the exercise of its functions. The feedback collected will allow the Bureau to evaluate and improve its advisory committee program. Information collected will be used for vetting candidates, issue travel orders or provide reimbursement for travel expenses, as applicable. This is a routine request for OMB to renew its approval of the collections of information currently approved under this OMB control number. The Bureau is not proposing any new or revised collections of information pursuant to this request.

Request for Comments: The Bureau issued a 60-day **Federal Register** notice on July 31, 2019, (84 FR 37263, Docket Number: CFPB–2019–0042). No comments were received. Comments were solicited and continue to be invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau’s estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information

technology. Comments submitted in response to this notice will be reviewed by OMB as part of its review of this request. All comments will become a matter of public record.

Dated: November 26, 2019.

Darrin King,

Paperwork Reduction Act Officer, Bureau of Consumer Financial Protection.

[FR Doc. 2019-25994 Filed 11-29-19; 8:45 am]

BILLING CODE 4810-AM-P

BUREAU OF CONSUMER FINANCIAL PROTECTION

[Docket No. CFPB-2019-0059]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Bureau of Consumer Financial Protection.

ACTION: Notice and request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Consumer Financial Protection (Bureau) is requesting, to renew the Office of Management and Budget (OMB) approval for an existing information collection titled, “Generic Information Collection Plan for Surveys Using the Consumer Credit Panel.”

DATES: Written comments are encouraged and must be received on or before January 2, 2020 to be assured of consideration.

ADDRESSES: Comments in response to this notice are to be directed towards OMB and to the attention of the OMB Desk Officer for the Bureau. You may submit comments, identified by the title of the information collection, OMB Control Number (see below), and docket number (see above), by any of the following methods:

- *Electronic:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

• *Email:* OIRA_submission@omb.eop.gov.

- *Fax:* (202) 395-5806.

• *Mail:* Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.

In general, all comments received will become public records, including any personal information provided.

Sensitive personal information, such as account numbers or Social Security numbers, should not be included.

FOR FURTHER INFORMATION CONTACT:

Documentation prepared in support of this information collection request is available at www.reginfo.gov (this link becomes active on the day following

publication of this notice). Select “Information Collection Review,” under “Currently under Review,” use the dropdown menu “Select Agency” and select “Consumer Financial Protection Bureau” (recent submissions to OMB will be at the top of the list). The same documentation is also available at <http://www.regulations.gov>. Requests for additional information should be directed to Darrin King, PRA Officer, at (202) 435-9575, or email: CFPB_PRA@cfpb.gov. If you require this document in an alternative electronic format, please contact CFPB_Accessibility@cfpb.gov. Please do not submit comments to these email boxes.

SUPPLEMENTARY INFORMATION:

Title of Collection: Generic Information Collection Plan for Surveys Using the Consumer Credit Panel.

OMB Control Number: 3170-0066.

Type of Review: Reinstatement without change of an existing information collection.

Affected Public: Individuals and households.

Estimated Number of Annual Respondents: 6,000.

Estimated Total Annual Burden Hours: 3,000.

Abstract: Under the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act), the Bureau is charged with researching, analyzing, and reporting on topics relating to the Bureau’s mission, including consumer behavior, consumer awareness, and developments in markets for consumer financial products and services. In order to improve its understanding of how consumers engage with financial markets, the Bureau has used the Consumer Credit Panel (CCP), a proprietary sample dataset from one of the national credit reporting agencies, as a frame to survey people about their experiences in consumer credit markets. The Bureau seeks to obtain approval for a generic information collection plan for these types of surveys. Surveys conducted under this generic information collection plan will support the Bureau’s mission to conduct research in areas related to consumer finance including research to monitor developments in consumers’ financial situations, related changes in their use of financial products, and the impacts that these decisions have on their balance sheets. All research under this plan will be for general, formative, and informational research on consumer financial markets and consumers’ use of financial products and will not directly provide the basis for specific policymaking at the Bureau. The Bureau requests approval from OMB for a

generic information collection plan which will allow the Bureau to collect data by administering surveys which use the CCP as a survey frame.

Request for Comments: The Bureau issued a 60-day **Federal Register** notice on September 3, 2019, 84 FR 45998, Docket Number: CFPB-2019-0049. Comments were solicited and continue to be invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau’s estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be reviewed by OMB as part of its review of this request. All comments will become a matter of public record.

Dated: November 26, 2019.

BILLING CODE 6355-01-P

DEPARTMENT OF DEFENSE**Office of the Secretary****Department of Defense Military Family Readiness Council; Notice of Federal Advisory Committee Meeting**

AGENCY: Under Secretary of Defense for Personnel and Readiness, Department of Defense (DoD).

ACTION: Notice of Federal Advisory Committee meeting.

SUMMARY: The DoD is publishing this notice to announce that the following Federal Advisory Committee meeting of the Department of Defense Military Family Readiness Council (MFRC) will take place.

DATES: Open to the public Tuesday, December 17, 2019, from 10:00 a.m. to 12:00 p.m.

ADDRESSES: Pentagon, 1155 Defense Pentagon PLC2 Pentagon Library & Conference Center, Room B6, Washington, DC 20301.

FOR FURTHER INFORMATION CONTACT: William Story, (571) 372-5345 (Voice), (571) 372-0884 (Facsimile), OSD Pentagon OUSD P-R Mailbox Family Readiness Council, osd.pentagon.ousd-p-r.mbx.family-readiness-council@mail.mil (Email). Mailing address is Office of the Deputy Assistant Secretary of Defense (Military Community & Family Policy), Office of Family Readiness Policy, 4800 Mark Center Drive, Alexandria, VA 22350-2300, Room 3G15. Website: <http://www.militaryonesource.mil/those-who-support-mfrc>. The most up-to-date changes to the meeting agenda can be found on the website.

SUPPLEMENTARY INFORMATION: This meeting is being held under the provisions of the Federal Advisory Committee Act (FACA) of 1972 (5 U.S.C., Appendix, as amended), the Government in the Sunshine Act of 1976 (5 U.S.C. 552b, as amended), and 41 CFR 102-3.140 and 102-3.150.

Purpose of the Meeting: This is the first meeting of the Council for Fiscal Year 2020 (FY2020). During this meeting the Director, Defense Health Agency, will present information to the Council including changes in dependent health care systems and implications for military family readiness, the first of two focus areas chosen by the Council for FY2020.

Agenda: Opening Remarks; Administrative Items; Review of Written Submissions; Ethics Briefing; Focus Area Presentation: The Transformation of the Military Health System; Readiness, Reform, and the Priorities of the Defense Health Agency; Questions

and Answers; Council Discussion; Closing Remarks. Note: Exact order may vary.

Meeting Accessibility: Members of the public who are interested in attending this meeting must RSVP online to: osd.pentagon.ousd-p-r.mbx.family-readiness-council@mail.mil no later than Thursday, December 5, 2019. Meeting attendee RSVPs should indicate if an escort is needed to the meeting location (non-CAC Card holders need an escort) and if handicapped accessible transportation is needed. All visitors without CAC cards who are attending the MFRC meeting must pre-register prior to entering the Pentagon. RSVPs to the MFRC mailbox needing escort to the meeting will be contacted by email from the Pentagon Force Protection Agency with instructions for registration. Please follow these instructions carefully. Otherwise, members of the public may be denied access to the Pentagon on the day of the meeting. Members of the public who are approved for Pentagon access should arrive at the Pentagon Visitors Center waiting area (Pentagon Metro Entrance) no later than 9:00 a.m. on the day of the meeting to allow time to pass through security check points and be escorted to the meeting location. Contact Eddy Mentzer, (571) 372-0857 (Voice), (571) 372-0884, (Facsimile) if you have any questions about your RSVP.

Written Statements: Persons interested in providing a written statement for review and consideration by Council members attending the December 17, 2019 meeting must do so no later than close of business Thursday, December 5, 2019, through the Council mailbox (osd.pentagon.ousd-p-r.mbx.family-readiness-council@mail.mil). Written statements received after this date will be provided to Council members in preparation for the next MFRC meeting. The Designated Federal Officer will review all timely submissions and ensure submitted written statements are provided to Council members prior to the meeting that is subject to this notice. Written statements must not be longer than two type-written pages and should address the following details: issue or concern, discussion, and a recommended course of action. Those who make submissions are requested to avoid including personally identifiable information such as names of adults and children, phone numbers, addresses, social security numbers and other contact information within the body of the written statement.

Dated: November 26, 2019.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE**Office of the Secretary****Reserve Forces Policy Board; Notice of Federal Advisory Committee Meeting**

AGENCY: Under Secretary of Defense for Personnel and Readiness, Department of Defense (DoD).

ACTION: Notice of Federal Advisory Committee meeting.

SUMMARY: The DoD is publishing this notice to announce that the following Federal Advisory Committee meeting of the Reserve Forces Policy Board (RFPB) will take place.

DATES: The RFPB will hold a closed meeting on Wednesday, December 11, 2019 from 9:10 a.m. to 3:25 p.m.

ADDRESSES: The RFPB meeting address is the Pentagon, Room 3E863, Arlington, VA.

FOR FURTHER INFORMATION CONTACT: Alexander Sabol, (703) 681-0577 (Voice), 703-681-0002 (Facsimile), Alexander.J.Sabol.Civ@Mail.Mil (Email). Mailing address is Reserve Forces Policy Board, 5113 Leesburg Pike, Suite 601, Falls Church, VA 22041. Website: <http://rfpb.defense.gov/>. The most up-to-date changes to the meeting agenda can be found on the website and the **Federal Register**.

SUPPLEMENTARY INFORMATION: Due to circumstances beyond the control of the Department of Defense (DoD) and the Designated Federal Officer, the Reserve Forces Policy Board was unable to provide public notification required by 41 CFR 102-3.150(a) concerning the meeting on December 11, 2019 of the Reserve Forces Policy Board. Accordingly, the Advisory Committee Management Officer for the Department of Defense, pursuant to 41 CFR 102-3.150(b), waives the 15-calendar day notification requirement.

This meeting is being held under the provisions of the Federal Advisory Committee Act (FACA) (5 U.S.C., Appendix), the Government in the Sunshine Act (5 U.S.C. 552b), and 41 CFR 102-3.140 and 102-3.150.

Purpose of the Meeting: The purpose of the meeting is to obtain, review, and evaluate information related to strategies, policies, and practices designed to improve and enhance the

capabilities, efficiency, and effectiveness of the Reserve Components.

Agenda: The RFPB will hold a meeting from 9:10 a.m. to 3:25 p.m. The meeting will be closed to the public and will consist of remarks to the RFPB from following invited speakers: The Assistant Secretary of Defense for Manpower and Reserve Affairs, Performing the Duties of the Under Secretary of Defense for Personnel and Readiness will provide an update on the Under Secretary of Defense for Personnel and Readiness' goals and updates on personnel system reforms under consideration for the Reserve Components; the Deputy Assistant Secretary of Defense for Strategy and Force Development will discuss the Department's development of the National Defense Strategy and the Defense Planning Guidance for the defense strategy, force development, and strategic analysis with the integration of the Reserve Components; the Commander, Marine Force Reserve and Marine Forces North will discuss the Marine Corps Reserve's national military strategy and priorities for improving the Marine Corps Reserve's readiness; the Assistant Secretary of Defense for Legislative Affairs will provide a discussion on legislation actions supporting the Department's policies, strategies and budget in achieving the National Military Strategy with the integration of the Reserve Components; and the Director for Strategy, Plans and Policy of the Joint Chiefs of Staff, J5 will provide the Joint Staff's perspective on the Department's strategies to execute the National Military Strategy with the integration of the Reserve Components.

Meeting Accessibility: In accordance with section 10(d) of the FACA, 5 U.S.C. 552b(c), and 41 CFR 102-3.155, the DoD has determined that this meeting will be closed to the public. Specifically, the Assistant Secretary of Defense for Manpower and Reserve Affairs, Performing the Duties of the Under Secretary of Defense for Personnel and Readiness, in coordination with the Department of Defense FACA Attorney, has determined in writing that this meeting will be closed to the public because it is likely to disclose classified matters covered by 5 U.S.C. 552b(c)(1).

Written Statements: Pursuant to section 10(a)(3) of the FACA and 41 CFR 102-3.105(j) and 102-3.140, interested persons may submit written statements to the RFPB about its approved agenda or at any time on the RFPB's mission. Written statements should be submitted to the RFPB's Designated Federal Officer at the address, email, or facsimile

number listed in the **FOR FURTHER INFORMATION CONTACT** section. If statements pertain to a specific topic being discussed at the planned meeting, then these statements must be submitted no later than five (5) business days prior to the meeting in question. Written statements received after this date may not be provided to or considered by the RFPB until its next meeting. The Designated Federal Officer will review all timely submitted written statements and provide copies to all the RFPB members before the meeting that is the subject of this notice. Please note that since the RFPB operates in accordance with the provisions of the FACA, all submitted comments and public presentations will be treated as public documents and will be made available for public inspection, including, but not limited to, being posted on the RFPB's website.

Dated: November 25, 2019.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF EDUCATION

[Docket No. ED-2019-ICCD-0117]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Borrower Defenses Regulations

AGENCY: Federal Student Aid (FSA), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, ED is proposing a revision of an existing information collection.

DATES: Interested persons are invited to submit comments on or before January 2, 2020.

ADDRESSES: To access and review all the documents related to the information collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED-2019-ICCD-0117. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. If the www.regulations.gov site is not available to the public for any reason, ED will temporarily accept comments at ICDocketMgr@ed.gov. Please include the docket ID number and the title of the information collection request when requesting documents or submitting comments. *Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted.* Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Strategic Collections and Clearance Governance and Strategy Division, U.S. Department of Education, 400 Maryland Ave. SW, LBJ, Room 6W208, D, Washington, DC 20202-4537.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection

activities, please contact Beth Grebeldinger, 202-377-4018.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Borrower Defenses Regulations.

OMB Control Number: 1845-0142.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals or Households; Private Sector.

Total Estimated Number of Annual Responses: 11,487.

Total Estimated Number of Annual Burden Hours: 5,531.

Abstract: The Department of Education (the Department) requests a revision of the current information collection associated with OMB Control Number 1845-0142 due to an increase in the number of borrowers asserting a borrower defense to repayment claim. The only change to the collection is an update to increase the number of respondents, responses and burden hours.

The regulations in § 685.222 provide a framework for the borrower defense individual and group process that applies to loans first disbursed on or after July 1, 2017 and before July 1, 2020, including descriptions of the circumstances under which group

borrower defense claims could be considered, and the process the Department will follow for borrower defenses for a group. The regulations establish a process for review and determination of a borrower defense for groups identified by the Secretary for which the borrower defense is made regarding a Direct Loans for attendance at a closed school that has not provided financial protection currently available to the Secretary from which to recover any losses based on borrower defense claims, and for which there is no appropriate entity from which the Secretary can otherwise practicably recover such losses. The regulations also establish the process for groups identified by the Secretary for which the borrower defense is asserted with respect to Direct Loans to attend an open school.

Dated: November 26, 2019.

Kate Mullan,

PRA Coordinator, Strategic Collections and Clearance Governance and Strategy Division, Office of Chief Data Officer.

AGENCY: Federal Student Aid (FSA), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, ED is proposing a revision of an existing information collection.

DATES: Interested persons are invited to submit comments on or before January 31, 2020.

ADDRESSES: To access and review all the documents related to the information collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED-2019-ICCD-0149. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. If the [regulations.gov](http://www.regulations.gov) site is not available to the public for any reason, ED will temporarily accept comments at ICDocketMgr@ed.gov. Please include the docket ID number and the title of the information collection request when requesting documents or submitting

comments. *Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted.* Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Strategic Collections and Clearance Governance and Strategy Division, U.S. Department of Education, 400 Maryland Ave. SW, LBJ, Room 6W208, D, Washington, DC 20202-4537.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Beth Grebeldinger, 202-377-4018.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Cash Management Contract URL Collection.

OMB Control Number: 1845-0147.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Private Sector; State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 552.

Total Estimated Number of Annual Burden Hours: 45.

Abstract: The Department of Education (the Department) is seeking to renew OMB control number 1845-0147 for the collection of URLs hosting

institutional contracts and contract data relating to campus banking agreements. The Department has created a Cash Management Contract electronic form to allow institutions to report their contract and contract URL to the Department. The Department has also created a central repository for the information provided by the institution that includes the contract data and the web addresses that is publicly available for research and comparison purposes. Both of these are located on *studentaid.gov*. The database allows interested parties, such as students, families, press, institutions, and researchers to easily access and compare banking agreements available at different institutions.

Dated: November 25, 2019.

Kate Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Energy Information Administration

Agency Information Collection Extension

AGENCY: U.S. Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Notice and request for comments.

SUMMARY: EIA is requesting a three-year extension without changes of the *Coal Markets Reporting System* as required under the Paperwork Reduction Act of 1995. The *Coal Markets Reporting System* (CMRS) consists of 5 surveys including, Form EIA-3 *Quarterly Survey of Non-Electric Sector Coal Data*, Form EIA-7A *Annual Survey of Coal Production and Preparation*, Form EIA-8A *Annual Survey of Coal Stocks and Coal Exports*, Form EIA-6 *Emergency Coal Supply Survey (Standby)*, and Form EIA-20 *Emergency Weekly Coal Monitoring Survey for Coal Burning Power Producers (Standby)*. The CMRS collects data on U.S. coal production, quality, consumption, receipts, stocks, and prices.

DATES: EIA must receive all comments on this proposed information collection no later than January 31, 2020. If you anticipate any difficulties in submitting your comments by the deadline, contact the person listed in the **ADDRESSES** section of this notice as soon as possible.

ADDRESSES: Send your comments to Sara Hoff electronically at *coal2020@eia.gov* or by mail to Office of Energy Production, Conversion, & Delivery, U.S. Energy Information Administration, Forrestal Building, U.S. Department of Energy, 1000 Independence Ave. SW, EI-23, Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Sara Hoff, (202) 586-1242. The forms and instructions are available on EIA's website at <http://www.eia.gov/survey/changes/coal/2020/>.

SUPPLEMENTARY INFORMATION:

This information collection request contains:

- (1) *OMB Control Number:* 1905-0167;
- (2) *Information Collection Request Title:* Coal Markets Reporting System;
- (3) *Type of Request:* Three-year extension without changes;

(4) *Purpose:* The Coal Markets Reporting System (CMRS) program collects, evaluates, assembles, analyzes, and disseminates information on coal production, sales, technology, reserves, and related economic and statistical information. This information is used to assess the adequacy of coal and other energy resources to meet near and longer term domestic demands and to promote sound policymaking, efficient markets, and public understanding of energy and its interaction with the economy and the environment.

Form EIA-3 collects quarterly data on the use of coal at U.S. manufacturing plants, coal transformation/processing plants, coke plants, and commercial and institutional users of coal. Form EIA-7A collects characteristics of coalbeds mined, recoverable reserves, production capacity, coal sales and revenue, stocks held at mines, and the disposition of the coal mined. For coal preparation, information collected includes operations, locations, production capacity, disposition, and volume of coal prepared. Form EIA-8A collects data on coal stocks by state location, exported coal by origin state, and export revenue of coal sold during the reporting year.

Form EIA-6 *Emergency Coal Supply Survey* and Form EIA-20 *Emergency Weekly Coal Monitoring Survey for Coal Burning Power Producers* are standby surveys used during periods of coal supply and transportation disruptions. In the event of a supply or transportation disruption, these two standby surveys activate and operate weekly over a ten week period. Once activated, Form EIA-6 collects weekly coal production and stocks data from U.S. coal mining companies. Data are aggregated and reported at the state

level. During disruptive events, Form EIA-20 collects available coal-fired capacity, generation, consumption, and stocks from coal-fired electric power generators.

The CMRS collects coal market data and information pertaining to the quality of the coal, including heat content, ash content, sulfur content and contents of mercury and chlorides. Aggregates of this collection are used to support analysis on the effects of public policy on the coal industry, economic modeling, forecasting, coal supply and demand studies, and in guiding research and development programs. The data are included in EIA publications, such as the *Monthly Energy Review*, *Quarterly Coal Report*, *Quarterly Coal Distribution Report*, *Annual Coal Report*, and *Annual Coal Distribution Report*.

EIA also uses the data in short-term and long-term forecast models such as the Short-Term Integrated Forecasting System (STIFS) and the National Energy Modeling System (NEMS) Coal Market Module. The forecast data also appear in the *Short-Term Energy Outlook* and the *Annual Energy Outlook* publications.

(5) *Estimated Number of Survey Respondents:* 1,164.

- Form EIA-3 has 397 respondents;
- Form EIA-7A has 692 respondents;
- Form EIA-8A has 48 respondents;
- Form EIA-6 (standby) has 15 respondents;
- Form EIA-20 (standby) has 12 respondents.

(6) *Annual Estimated Number of Total Responses:* 2,598.

(7) *Annual Estimated Number of Burden Hours:* 4,417.

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* \$346,823 (4,417 burden hours times \$78.52 per hour). EIA estimates that there are no additional costs to respondents associated with the surveys other than the costs associated with the burden hours since the information is maintained during normal course of business.

Comments are invited on whether or not: (a) The proposed collection of information is necessary for the proper performance of agency functions, including whether the information will have a practical utility; (b) EIA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used, is accurate; (c) EIA can improve the quality, utility, and clarity of the information it will collect; and (d) EIA can minimize the burden of the collection of information on respondents, such as automated collection techniques or other forms of information technology.

Statutory Authority: 15 U.S.C. 772(b) and 42 U.S.C. 7101 *et seq.*

Signed in Washington, DC, on November 26, 2019.

Nanda Srinivasan,

Director, Office of Statistical Methods & Research, U.S. Energy Information Administration.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2007-0563; FRL-10002-60-OAR]

Proposed Information Collection Request; Comment Request; National Volatile Organic Compound Emission Standards for Consumer Products (40 CFR Part 59, Subpart C) (Renewal)

AGENCY: Environmental Protection Agency (EPA)

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), “National Volatile Organic Compound Emission Standards for Consumer Products (Renewal),” EPA ICR No. 1764.08, OMB Control No. 2060-0348, to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). Before doing so, the EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through August 31, 2020. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before January 31, 2020.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OAR-2007-0563 online using <https://www.regulations.gov> (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

The EPA’s policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information, or other

information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Ms. Kaye Whitfield, U.S. Environmental Protection Agency, Office of Air Quality Planning and Standards, Sector Policies and Programs Division, Minerals and Manufacturing Group (D243-04), Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: 919-541-2509; fax number: 919-541-4991; email address: whitfield.kaye@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov> or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about the EPA’s public docket, visit <https://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another **Federal Register** document to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The information collection includes initial reports and periodic recordkeeping necessary for the EPA to ensure compliance with Federal standards for volatile organic compounds in consumer products. Respondents are manufacturers, distributors, and importers of consumer products. All information submitted to

the EPA for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in 40 CFR part 2, subpart B, Confidentiality of Business Information.

Form Numbers: None.

Respondents/affected entities: Manufacturers, distributors, and importers of consumer products.

Respondent’s obligation to respond: Responses to the collection are mandatory under 40 CFR part 59, subpart C, National Volatile Organic Compound Emission Standards for Consumer Products.

Estimated number of respondents: 300 (total).

Frequency of response: On occasion.

Total estimated burden: 16,126 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$1,765,427 (per year), includes \$0 annualized capital or operation and maintenance costs.

Changes in Estimates: There is no change in the burden estimate currently approved by OMB.

Dated: November 22, 2019.

Penny Lassiter,

Director, Sector Policies and Programs Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-10002-73-OMS]

Senior Executive Service Performance Review Board; Membership

AGENCY: U.S. Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Notice is hereby given of the membership of the U.S. Environmental Protection Agency (EPA) Performance Review Board for 2019.

FOR FURTHER INFORMATION CONTACT: Lizabeth Engebretson, Deputy Director, Policy, Planning & Training Division, 3601M, Office of Human Resources, Office of Mission Support, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW, Washington, DC 20460, (202) 564-0804.

SUPPLEMENTARY INFORMATION: Section 4314(c)(1) through (5) of Title 5, U.S.C., requires each agency to establish in accordance with regulations prescribed by the Office of Personnel Management, one or more SES performance review boards. This board shall review and evaluate the initial appraisal of a senior executive’s performance by the

supervisor, along with any recommendations to the appointment authority relative to the performance of the senior executive.

Members of the 2019 EPA Performance Review Board are:

Barry Breen, Principal Deputy Assistant Administrator, Office of Land and Emergency Management
 John Blevins, Director, Laboratory Services & Applied Science Division, Region 4
 David Bloom, Deputy Chief Financial Officer, Office of the Chief Financial Officer
 Richard Buhl, Director, Mission Support Division, Region 8
 Wesley Carpenter, Deputy Assistant Administrator for Administration and Resources Management, Office of Mission Support
 Katrina Cherry, Director, Office of Management and International Services, Office of International and Tribal Affairs
 Edward Chu, Deputy Regional Administrator, Region 7
 Kevin DeBell, (Ex-Officio) Acting Deputy Chief of Staff, Office of the Administrator
 Jonathan Edwards, Director, Office of Radiation and Indoor Air, Office of Air and Radiation
 Lizabeth Engebretson, (Ex-Officio) Deputy Director, Policy, Planning and Training Division, Office of Human Resources, Office of Mission Support
 Diana Esher, Deputy Regional Administrator, Region 3
 William Fisher, Associate Director, Watershed & Community Sustainability, Center for Environmental Measurement and Modeling, Office of Research and Development
 Jeanneanne Gettle, Director, Water Division, Region 4
 Tim Hamlin, Director, Land, Chemicals & Redevelopment Division, Region 10
 Aaron Helm, Director, Office of Administration and Resources Management—Research Triangle Park, Office of Mission Support
 Randy Hill, Director, Enforcement Targeting and Data Division, Office of Enforcement and Compliance Assurance
 Carolyn Hoskinson, Director, Office of Underground Storage Tanks, Office of Land and Emergency Management
 Deborah Jordan, Deputy Regional Administrator, Region 9
 Mara J. Kamen, (Ex-Officio) Director, Office of Human Resources, Office of Mission Support
 Mark Kasman, Director, Office of Regional and Bilateral Affairs, Office of International and Tribal Affairs
 Arnold Layne, Deputy Director, Office of Pesticides Programs, Office of Chemical Safety and Pollution Prevention
 Matthew Leopard, Director, Office of Information Management, Office of Mission Support
 Rohit Mathur, Senior Atmospheric Scientist, Center for Environmental Measurement and Modeling, Office of Research and Development
 James McDonald, Director, Mission Support Division, Region 6

Albert McGartland, Director, National Center for Environmental Economics, Office of the Administrator
 Jennifer McLean, Director, Office of Ground Water and Drinking Water, Office of Water
 John Michaud, Associate General Counsel, Solid Waste & Emergency Response Law, Office of General Counsel
 Kenneth Moraff, Director, Water Division, Region 1
 Tanya Mottley, Director, National Program Chemicals Division, Office of Chemical Safety and Pollution Prevention
 Deborah Nagle, Director, Office of Science and Technology, Office of Water
 Ed Nam, Director, Land, Chemicals & Redevelopment Division, Region 5
 Duc Nguyen, Senior Debarment Official, Office of Grants and Debarment, Office of Mission Support
 Jennifer Orme-Zaveleta, Principal Deputy Assistant Administrator for Science, Office of Research and Development
 Robin Richardson, Principal Deputy Associate Administrator, Office of Congressional and Intergovernmental Relations, Office of the Administrator
 Cecil Rodrigues, Regional Counsel, Region 3
 Sylvia Quast, Regional Counsel—Region 9, Office of Enforcement and Compliance Assurance
 Gregory Sayles, Director, Center for Environmental Solutions and Emergency Response, Office of Research and Development
 Lorie Schmidt, Principal Associate General Counsel, Office of General Counsel
 Vicki Simons, (Ex-Officio), Director, Office of Civil Rights, Office of the Administrator
 Carolyn Snyder, Director, Climate Protection Partnerships Division, Office of Air and Radiation
 Carol Terris, Associate Chief Financial Officer, Office of the Chief Financial Officer
 Donna J. Vizian, (Ex-Officio), Principal Deputy Assistant Administrator, Office of Mission Support
 Anahita Williamson, Director, Laboratory Services & Applied Science Division, Region 2

Dated: November 19, 2019.

BILLING CODE 6560-50-P

FEDERAL DEPOSIT INSURANCE CORPORATION

FDIC Advisory Committee of State Regulators; Notice of Establishment

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Notice of establishment of the FDIC Advisory Committee of State Regulators.

SUMMARY: The Chairman of the FDIC is establishing the FDIC Advisory Committee of State Regulators (the

ACSR). The ASCR will provide advice and recommendations to the FDIC on a broad range of policy issues regarding the regulation of state-chartered financial institutions throughout the United States, including its territories. The ASCR will provide a forum where state regulators and the FDIC can discuss a variety of current and emerging issues that have potential implications regarding the regulation and supervision of state-chartered financial institutions. The ASCR is intended to facilitate regular discussion of: Safety and soundness and consumer protection issues; the creation of new banks; the protection of our nation's financial system from risks such as cyber-attacks or money laundering; and other timely issues. The ASCR will serve solely in an advisory capacity and will have no final decision-making authority, nor will it have access to or discuss any non-public, confidential or institution-specific information. The Chairman certifies that the establishment of the ASCR is in the public interest in connection with the performance of duties imposed on the FDIC by law. ASCR members will not receive any compensation for their services other than reimbursement for reasonable travel expenses incurred to attend ASCR meetings.

FOR FURTHER INFORMATION CONTACT:

Robert E. Feldman, Executive Secretary, FDIC, 550 17th Street NW, Washington, DC 20429; telephone (202) 898-7043.

SUPPLEMENTARY INFORMATION:

In accordance with the requirements of the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2, notice is hereby given that the Chairman of the FDIC intends to establish the FDIC ASCR. After consultation with the General Services Administration as required by section 9(a)(2) of FACA and 41 CFR 102-3.65, the Chairman of the FDIC certifies that she has determined that the establishment of the ASCR is in the public interest in connection with the performance of duties imposed on the FDIC by law. The ASCR will function solely as an advisory body, and in compliance with the provisions of FACA. To ensure relevant expertise on the ASCR, members of the ASCR should include regulators of state-chartered financial institutions from across the United States, including its territories, or other individuals with expertise in the regulation of state-chartered financial institutions.

Dated at Washington, DC, on November 26, 2019.

Federal Deposit Insurance Corporation.
Annamarie H. Boyd,
Assistant Executive Secretary.

BILLING CODE 6700–01–P

FEDERAL FINANCIAL INSTITUTIONS EXAMINATION COUNCIL

[Docket No. AS19–09]

Appraisal Subcommittee; Notice of Termination of Residential Temporary Waiver Relief

AGENCY: Appraisal Subcommittee of the Federal Financial Institutions Examination Council.

ACTION: Notice of termination of residential temporary waiver relief.

SUMMARY: The Appraisal Subcommittee (ASC) of the Federal Financial

Institutions Examination Council (FFIEC) is providing notice of termination of temporary waiver relief of appraiser credentialing requirements for appraisals of federally related transactions (FRTs) under \$500,000 for 1-to-4 family residential real estate transactions throughout the State of North Dakota which was granted by Order for a period of one year pursuant to section 1119(b) of Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, as amended (Title XI) and the rules promulgated thereunder. The Order provided that the temporary waiver for residential real estate transactions would terminate 60 days after the effective date of a final rule issued by the federal banking agencies increasing the appraisal exemption threshold limit for residential real estate transactions. The federal banking agencies issued a final rule that increased the appraisal exemption threshold for residential real estate transactions with an effective date of October 9, 2019. The Order specified that the temporary waiver for residential real estate transactions will terminate 60 days after the effective date of that rule, which will occur on December 8, 2019.

FOR FURTHER INFORMATION CONTACT:

James R. Park, Executive Director, at (202) 595–7575, or Alice M. Ritter, General Counsel, at (202) 595–7577, ASC, 1325 G Street NW, Suite 500, Washington, DC 20005.

SUPPLEMENTARY INFORMATION: Section 1119(b) of Title XI authorizes the ASC to waive, on a temporary basis and with concurrence of the FFIEC, “any requirement relating to certification or licensing of a person to perform appraisals under [Title XI]” upon “a written determination that there is a scarcity of certified or licensed appraisers to perform appraisals in connection with [FRTs] ¹ in a State, or in any geographical political subdivision of a State, leading to such appraisals.” ² The ASC has promulgated regulations that set forth procedures ³ governing the processing of temporary waiver requests.

On August 1, 2018, the Governor of North Dakota, the North Dakota Department of Financial Institutions, and the North Dakota Bankers Association (Requester) submitted a temporary waiver request to the ASC.

¹ “Federally related transaction” (FRT) refers to any real estate related financial transaction which: (a) A federal financial institutions regulatory agency engages in, contracts for, or regulates; and (b) requires the services of an appraiser. (Title XI § 1121 (4), 12 U.S.C. 3350.)

² 12 U.S.C. 3348(b).

³ 12 CFR part 1102, subpart A.

The Requester sought a temporary waiver of not less than five years of appraiser credentialing requirements for appraisals of FRTs under \$500,000 for 1-to-4 family residential real estate transactions and under \$1,000,000 for agricultural and commercial real estate transactions throughout the State of North Dakota.⁴

On July 9, 2019, the ASC convened a Special Meeting to consider the request. Based on the information provided by the Requester, the North Dakota Real Estate Appraiser Qualifications and Ethics Board (Appraiser Board), and by the public through comment letter submissions, the ASC issued an Order approving a limited version of the waiver request.⁵

The Order, which was published in the **Federal Register**,⁶ in pertinent part included the following:

- A temporary waiver of appraiser credentialing requirements for appraisals of FRTs under \$500,000 for 1-to-4 family residential real estate transactions throughout the State of North Dakota for a period of one year, unless the federal banking agencies issue a rule increasing appraisal exemption threshold limits for residential real estate transactions, in which case the residential waiver will terminate 60 days after the effective date of that threshold increase.

The federal banking agencies issued a final rule increasing the appraisal exemption threshold limits for residential real estate transactions with an effective date of October 9, 2019.⁷ The temporary waiver for residential real estate transactions terminates by its own terms 60 days after the effective date of that rule, which will occur on December 8, 2019.

* * * * *

By the Appraisal Subcommittee.

Dated: November 26, 2019.

Arthur Lindo,

Chairman.

[FR Doc. 2019–26030 Filed 11–29–19; 8:45 am]

BILLING CODE 6700–01–P

⁴ On September 7, 2018, the ASC responded with a request for clarification and additional information, and on April 10, 2019, the Requester submitted an additional letter with a clarification of the request and additional information.

⁵ An approval of a temporary waiver by the ASC is subject to the approval of the FFIEC. (See 12 U.S.C. 3348(b); 12 CFR 1102.5.) On July 12, 2019, the FFIEC approved the temporary waiver granted by the ASC on July 9, 2019.

⁶ 84 FR 38630 (Aug. 7, 2019).

⁷ 84 FR 53579 (Oct. 8, 2019).

DEPARTMENT OF DEFENSE**GENERAL SERVICES
ADMINISTRATION****NATIONAL AERONAUTICS AND
SPACE ADMINISTRATION**

[OMB Control No. 9000–0136; Docket No. 2019–0003; Sequence No. 27]

**Submission for OMB Review;
Commercial Item Acquisitions**

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice.

SUMMARY: Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat Division has submitted to the Office of Management and Budget (OMB) a request to review and approve a revision and renewal of a previously approved information collection requirement regarding commercial item acquisitions.

DATES: Submit comments on or before January 2, 2020.

ADDRESSES: Submit comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for GSA, Room 10236, NEOB, Washington, DC 20503 or at Oira_submission@omb.eop.gov. Additionally submit a copy to GSA by any of the following methods:

- *Federal eRulemaking Portal:* This website provides the ability to type short comments directly into the comment field or attach a file for lengthier comments. Go to <http://www.regulations.gov> and follow the instructions on the site.

- *Mail:* General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW, Washington, DC 20405. ATTN: Lois Mandell/IC 9000–0136, Commercial Item Acquisitions.

Instructions: All items submitted must cite Information Collection 9000–0136, Commercial Item Acquisitions. Comments received generally will be posted without change to <http://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check www.regulations.gov, approximately two to three days after submission to verify posting (except allow 30 days for posting of comments submitted by mail).

FOR FURTHER INFORMATION CONTACT: Mr. Michael O. Jackson, Procurement Analyst, at telephone 202–208–4949, or email at michaelo.jackson@gsa.gov.

SUPPLEMENTARY INFORMATION:**A. OMB Control Number, Title, and Any Associated Form(s)**

9000–0136, Commercial Item Acquisitions.

B. Needs and Uses

The Federal Acquisition Streamlining Act of 1994 reformed Federal acquisition statutes to encourage and facilitate the acquisition of commercial items and services by the Federal Government. Accordingly, DoD, NASA, and GSA amended the Federal Acquisition Regulation (FAR) to include streamlined/simplified procedures for the acquisition of commercial items. Pertinent to this information collection, FAR Provision 52.212–3, “Offeror Representations and Certifications—Commercial Items,” was implemented to combine the multitude of individual provisions used in Government solicitations into a single provision for use in commercial acquisitions. The provision is among the representations and certifications that are available for completion in the System for Award Management (SAM).

C. Annual Burden

Respondents: 430,324.

Total Annual Responses: 628,273.

Total Burden Hours: 314,137.

D. Public Comment

A 60-day notice was published in the **Federal Register** at 84 FR 48619, on September 16, 2019. No comments were received.

Obtaining Copies: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW, Washington, DC 20405, telephone 202–501–4755. Please cite OMB Control No. 9000–0136, Commercial Item Acquisitions, in all correspondence.

Dated: November 25, 2019.

BILLING CODE 6820–EP–P

**DEPARTMENT OF HEALTH AND
HUMAN SERVICES****Centers for Disease Control and
Prevention****Delegation of Authority**

Notice is hereby given that the Director, Centers for Disease Control and Prevention (CDC), has delegated to the Director, National Institute for Occupational Safety and Health, CDC, without the authority to redelegate, the authorities under the Firefighter Cancer Registry Act of 2018 (Pub. L. 115–194).

This delegation became effective on November 25, 2019. In addition, the Director, CDC, hereby adopts any actions taken that involve the exercise of the authorities delegated herein prior to the effective date of the delegation.

Dated: November 25, 2019.

Robert K. McGowan,

Chief of Staff, CDC.

[FR Doc. 2019–25983 Filed 11–29–19; 8:45 am]

BILLING CODE 4163–18–P

**DEPARTMENT OF HEALTH AND
HUMAN SERVICES****Administration for Children and
Families****Submission for OMB Review:
Evaluation of the Child Welfare
Capacity Building Collaborative, Part
Two (OMB Number: 0970–0494)**

AGENCY: Children’s Bureau; Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: The Administration for Children and Families (ACF) is requesting a three-year extension of the previously approved forms that include satisfaction surveys; surveys to assess jurisdiction’s foundational capacity; a workshop follow-up survey; webinar and online learning registration forms; and service-specific feedback forms and interview protocol (OMB Number: 0970–0494, expiration March 31, 2020). This request includes one new innovation survey, and requests minor changes to the webinar and online learning registration forms. Three instruments from the original approval are not included with this request. This requested extension relates to a second set of instruments, which are part of a larger data collection effort being conducted for the evaluation of the Child Welfare Capacity Building Collaborative. An extension request for the first group of evaluation instruments

was submitted on April 24, 2019, (OMB Number: 0970-0484, FR, 84(79)).

DATES: *Comments due within 30 days of publication.* OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent directly to the following:

Office of Management and Budget,
Paperwork Reduction Project, *Email:*
OIRA_SUBMISSION@OMB.EOP.GOV,
Attn: Desk Officer for the
Administration for Children and
Families.

Copies of the proposed collection may be obtained by emailing *infocollection@acf.hhs.gov*. Alternatively, copies can also be obtained by writing to the Administration for Children and Families, Office of Planning, Research, and Evaluation, 330 C Street SW, Washington, DC 20201, ACF Reports Clearance Officer. All requests, emailed or written, should be identified by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The Evaluation of the Child Welfare Capacity Building Collaborative is sponsored by the Children’s Bureau, Administration for Children and Families of the U.S. Department of Health and Human

Services. The Capacity Building Collaborative includes three centers (Center for States, Center for Tribes, and Center for Courts) funded by the Children’s Bureau to provide national child welfare expertise and evidence-informed training and technical assistance services to state, tribal, and territorial public child welfare agencies and Court Improvement Programs (CIPs). The Centers offer a wide array of services including, but not limited to: Web-based content and resources, product development and dissemination, self-directed and group-based training, virtual learning and peer networking events, and tailored consultation and coaching. During the project period, Center services are evaluated by both Center-specific evaluations and a Cross-Center Evaluation. The Center-specific evaluations are designed to collect data on Center-specific processes and outcomes, which are used to support service delivery and continuous quality improvement. The Cross-Center Evaluation is designed to respond to a set of cross-cutting evaluation questions posed by the Children’s Bureau, which examines: How and to what extent key partners across and within Centers collaborate; whether Center capacity building service interventions are evaluable; the degree to which Centers follow common protocols; what service interventions are delivered and which jurisdictions participate; how satisfied recipients are with services; what outcomes are achieved in jurisdictions

receiving Center services and under what conditions are services effective; and what are the costs of services.

The Cross-Center Evaluation uses a longitudinal, mixed methods approach to evaluate Center services as they develop and mature over the study period. Multiple data collection strategies are used to efficiently capture quantitative and qualitative data to enable analyses that address each evaluation question. Cross-Center Evaluation data sources for this effort for which an extension is being sought include: (1) A foundational assessment to capture contextual data regarding the organizational health and functioning of child welfare agencies and courts; (2) a workshop follow-up survey that examines short-term and intermediate outcomes among CIPs that receive different levels of tailored services following continuous quality improvement (CQI) workshops, and (3) a tailored services satisfaction survey. Center-specific data sources for this effort include: (1) Registration forms for webinar registration and CapLearn, a learning management system; and (2) service-specific feedback forms and interviews, such as the Center for States Tailored Services interview protocol, the Center for States Innovation survey, and the Center for Courts Universal and Constituency Services survey.

Respondents: (1) Child welfare agency staff and stakeholders who directly receive services from Centers; and (2) CIP coordinators, CIP Directors, and other project staff.

ANNUAL BURDEN ESTIMATES

| Instrument | Total number of respondents | Annual number of respondents | Number of responses per respondent | Average burden hours per response | Total annual burden hours |
|---|-----------------------------|------------------------------|------------------------------------|-----------------------------------|---------------------------|
| Foundational Assessment Survey | 831 | 277 | 1 | .1 | 28 |
| CQI Workshop Follow-Up Survey | 144 | 48 | 2 | .12 | 12 |
| Tailored Services Satisfaction Survey | 1,386 | 462 | 1 | .083 | 38 |
| CapLearn Registration | 1,800 | 600 | 1 | .083 | 50 |
| Webinar Registration | 13,950 | 4,650 | 1 | .03 | 140 |
| Center for Courts: Universal and Constituency Services | 312 | 104 | 1 | .41 | 43 |
| Center for States: Tailored Services Interviews | 180 | 60 | 1 | 1 | 60 |
| Center for States: Assessment and Workplanning Survey | 450 | 150 | 1 | .25 | 38 |
| Center for States: Innovation Survey | 150 | 50 | 1 | .083 | 4 |
| Total | | | | | 413 |

Estimated Total Annual Burden Hours: 413.

Authority: 42 U.S.C. 5106.

Mary B. Jones,
ACF/OPRE Certifying Officer.

BILLING CODE 4184-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA-2018-D-3124]

Adaptive Designs for Clinical Trials of Drugs and Biologics; Guidance for Industry; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a final guidance for industry entitled “Adaptive Designs for Clinical Trials of Drugs and Biologics.” This guidance provides guidance to sponsors and applicants submitting investigational new drug applications (INDs), new drug applications (NDAs), biologics license applications (BLAs), or supplemental applications on the appropriate use of adaptive designs for clinical trials to provide evidence of the effectiveness and safety of a drug or biological product. The guidance describes important principles for designing, conducting, and reporting the results from an adaptive clinical trial. This guidance finalizes the draft guidance entitled “Adaptive Designs for Clinical Trials of Drugs and Biologics” issued in October 2018.

FDA is also announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: The announcement of the guidance is published in the **Federal Register** on December 2, 2019. Submit either electronic or written comments on the collection of information by January 2, 2020.

ADDRESSES: To ensure that comments on the information collection are received, please note that late, untimely filed comments will not be considered. Electronic comments must be submitted on or before January 2, 2020. The <https://www.regulations.gov> electronic filing system will accept comments until 11:59 p.m. Eastern Time at the end of January 2, 2020. Comments received by mail/hand delivery/courier (for written/paper submissions) will be considered timely if they are postmarked or the delivery service acceptance receipt is on or before that date. OMB recommends that written comments be faxed to the Office of Information and Regulatory Affairs, OMB, Attn: FDA Desk Officer, Fax: 202-

395-7285, or emailed to oir_submission@omb.eop.gov. All comments should be identified with the title “Adaptive Designs for Clinical Trials of Drugs and Biologics” and the OMB control number 0910-0014. Also include the FDA docket number found in brackets in the heading of this document.

Electronic Submissions

Submit electronic comments in the following way:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to <https://www.regulations.gov> will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else’s Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on <https://www.regulations.gov>.

- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see “Written/Paper Submissions” and “Instructions”).

Written/Paper Submissions

Submit written/paper submissions as follows:

- *Mail/Hand delivery/Courier (for written/paper submissions):* Dockets Management Staff (HFA-305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in “Instructions.”

Instructions: All submissions received must include the Docket No. FDA-2018-D-3124 for “Adaptive Designs for Clinical Trials of Drugs and Biologics.” Received comments will be placed in the docket and, except for those submitted as “Confidential Submissions,” publicly viewable at <https://www.regulations.gov> or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday.

- **Confidential Submissions—**To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states “THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION.” The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on <https://www.regulations.gov>. Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as “confidential.” Any information marked as “confidential” will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA’s posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: <https://www.gpo.gov/fdsys/pkg/FR-2015-09-18/pdf/2015-23389.pdf>.

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to <https://www.regulations.gov> and insert the docket number, found in brackets in the heading of this document, into the “Search” box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

You may submit comments on any guidance at any time (see 21 CFR 10.115(g)(5)).

Submit written requests for single copies of this guidance to the Division of Drug Information, Center for Drug Evaluation and Research, Food and Drug Administration, 10001 New Hampshire Ave., Hillandale Building, 4th Floor, Silver Spring, MD 20993-0002; or to the Office of Communication, Outreach and Development, Center for Biologics Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 71, Rm. 3128, Silver Spring, MD 20993-0002. Send one self-addressed adhesive label to assist that office in processing your requests. See the **SUPPLEMENTARY INFORMATION** section for electronic access to the guidance document.

FOR FURTHER INFORMATION CONTACT:

Regarding the guidance: Scott Goldie, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 21, Rm. 3557, Silver Spring, MD 20993-0002, 301-794-2055; or Stephen Ripley, Center for Biologics Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 71, Rm. 7301, Silver Spring, MD 20993-0002, 240-402-7911.

Regarding the information collection: Domini Bean, Office of Operations, Food and Drug Administration, Three White Flint North, 10A-12M, 11601 Landsdown St., North Bethesda, MD 20852, 301-796-5733, PRASStaff@fda.hhs.gov.

SUPPLEMENTARY INFORMATION:**I. Background**

FDA is announcing the availability of a final guidance for industry entitled “Adaptive Designs for Clinical Trials of Drugs and Biologics.” The guidance provides recommendations to sponsors and applicants submitting INDs, NDAs, BLAs, or supplemental applications on the appropriate use of adaptive designs for clinical trials to provide evidence of the effectiveness and safety of a drug or biologic. Agency regulations in 21 CFR parts 312, 314, and 601 govern the format and content of information that must be included in IND, NDA, and BLA submissions, respectively, and set forth general requirements regarding supporting documentation and recordkeeping associated with the various applicable provisions.

Recommendations found in the guidance describe principles we consider important for designing, conducting, and reporting the results from an adaptive clinical trial. The guidance also discusses the types of information FDA will evaluate from clinical trials with adaptive designs, including Bayesian adaptive and complex trials that rely on computer simulations for their design. The primary focus of this guidance is on adaptive designs for clinical trials intended to support the effectiveness and safety of drugs and biological products.

This guidance finalizes the draft guidance of the same title issued on October 1, 2018 (83 FR 49400). FDA considered comments received on the draft guidance as the guidance was finalized. Changes from the draft to the final guidance include: (1) Reworking the subsection on Bayesian adaptive designs to clarify the Agency’s recommendations and (2) clarifying the

extent of prespecification required for the rules governing adaptations. In addition, editorial changes were made to improve clarity.

This guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on “Adaptive Designs for Clinical Trials of Drugs and Biologics.” It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Investigational New Drug Regulations OMB Control Number 0910-0014—Revision

In accordance with 21 CFR 312.145, we are making this guidance available under our good guidance practices regulations in 21 CFR 10.115 to help respondents comply with regulatory requirements associated with submitting INDs, NDAs (currently approved under OMB control number 0910-0001), and BLAs (currently approved under OMB control number 0910-0338). In section VIII.B., the guidance states that the documented plan for a clinical trial with a proposed adaptive design should include certain information. The information could be included in the clinical trial protocol and/or in separate documents, such as: (1) A statistical analysis plan, (2) a data monitoring committee (DMC) charter, or (3) an adaptation committee charter. Although different types of information might be included in different documents, all important information described below should be submitted to FDA during the design stage so that FDA has sufficient time to provide feedback prior to initiation of the clinical trial:

- A rationale for the selected design;
- A detailed description of the monitoring and adaptation plan, including the anticipated number and timing of interim analyses, the specific aspects of the design that may be modified, and the rule that will be used to make adaptation decisions;
- Information on the roles of the bodies responsible for implementing the adaptive design, such as the DMC and/or the dedicated adaptation committee, if applicable;
- Prespecification of the statistical methods that will be used to produce interim results, guide adaptation

decisions, carry out hypothesis tests, estimate treatment effects, and estimate uncertainty in treatment effect estimates at the end of the trial;

- Evaluation and discussion of the design operating characteristics; and
- In cases where simulations are the primary or sole technique for evaluating trial operating characteristics, a detailed simulation report should be submitted, including:

- An overall description of the trial design;
- Example trials, in which a small number of hypothetical trials are described with different conclusions, such as a positive trial with the original sample size, a trial stopped for futility after the first interim look, a positive trial after increasing the sample size, etc.;
- A description of the set of parameter configurations used for the simulation scenarios, including a justification of the adequacy of the choices;
 - The number of simulated trials (iterations) evaluated for each scenario and a rationale for the adequacy of this number;
 - Simulation results detailing the estimated operating characteristics under the various scenarios;
 - Simulation code that is readable and adequately commented and should include the random seeds used to generate the simulation results; and
 - A summary providing overall conclusions.
- A comprehensive written data access plan defining how trial integrity will be maintained in the presence of the planned adaptations. This documentation should include information regarding: (1) The personnel who will perform the interim analyses, (2) the personnel who will have access to interim results, (3) how that access will be controlled, (4) how adaptive decisions will be made, and (5) what type of information will be disseminated following adaptive decisions, and to whom it will be disseminated. The data access plan should describe what information (and under what circumstances) is permitted to be passed to the sponsor or investigators. In addition, it is recommended that sponsors establish procedures to evaluate compliance with the data access plan and to document all interim meetings of the committee tasked with making adaptation decisions (*i.e.*, the DMC or other adaptation committee). For example, interim meetings should be documented with written meeting minutes describing what was reviewed, discussed, and decided.

In section VIII.C., the guidance states that a marketing application to FDA that relies on a trial with an adaptive design should include sufficient information and documentation to allow FDA to thoroughly review the results, including:

- All prospective plans, any relevant committee charters (e.g., the DMC or adaptation committee charter), and any supporting documentation (e.g., literature references, programming code, simulation report);
- Information on compliance with the planned adaptation rule and with the procedures outlined in the data access plan to maintain trial integrity;
- Records of deliberations and participants for any interim discussions by any committees involved in the adaptive process;
- Results of the interim analyses or analyses used for the adaptation decisions; and
- Appropriate reporting of the adaptive design and trial results in section 14 of the proposed package insert. For example, the trial summary should describe the adaptive design utilized. In addition, treatment effect

estimates should adequately take the design into account, or if naïve estimates such as unadjusted sample means are used, the extent of bias should be evaluated, and estimates should be presented with appropriate cautions regarding their interpretation.

Discussion of the plans for an adaptive trial can be the basis for requesting a Type C meeting. Regulatory mechanisms for obtaining formal, substantive feedback from FDA on clinical trials may also include end-of-phase-2 meetings. The guidance also recommends that special protocol assessments (given the 45-day response timeline) be submitted for trials with complex adaptive designs only if there has been extensive previous discussion between FDA and the sponsor regarding the proposed trial and design. The guidance explains that in their submissions, sponsors should prespecify the details of the adaptive design and provide justification that the chances of erroneous conclusions will be adequately controlled, estimation of treatment effects will be sufficiently reliable, and trial integrity will be appropriately maintained. The guidance

notes that the sponsor should advise FDA during the course of a trial of any proposed changes to the trial design (usually through protocol amendments) and that FDA may request that the sponsor submit minutes from open sessions of a monitoring committee during an ongoing trial.

As noted above, in the **Federal Register** of October 1, 2018, FDA published a 60-day notice requesting public comment on the proposed collection of information.

There were 21 distinct commenters during this time frame, including from industry, drug associations, individuals, and academia, with multiple comments from each distinct commenter.

The majority of comments on the guidance related to format, clarity, or word choice, providing specific technical recommendations on statistical methodologies. Because we do not believe these considerations have any effect on the information collection burden, we have made no changes to our estimate.

We estimate the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN ¹

| Guidance for industry on adaptive designs for clinical trials of drugs and biologics | Number of respondents | Number of responses per respondent | Total annual responses | Hours per response | Total hours |
|--|-----------------------|------------------------------------|------------------------|--------------------|-------------|
| Clinical trial protocols and related submissions to FDA with an adaptive design and analysis plan should contain the information in section VIII.B. | 40 | 6 | 240 | 50 | 12,000 |
| Marketing applications that rely on studies with an adaptive design should contain the information in section VIII.C. | 15 | 1.33 | 20 | 50 | 1,000 |
| Total | | | | | 13,000 |

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

Based on our review of INDs, NDAs, BLAs, and supplemental applications for the use of adaptive designs for clinical trials to provide evidence of effectiveness and safety, we estimate that approximately 40 sponsors or applicants will prepare approximately 240 documented plans for clinical trials containing a proposed adaptive design and analysis plan and will submit this information to FDA in a clinical trial protocol and/or in separate documents such as a statistical analysis plan, a data monitoring committee charter, or an adaptation committee charter. In addition, we estimate that preparing and submitting this information will take approximately 50 hours per sponsor or applicant.

Furthermore, we estimate that approximately 15 sponsors or applicants will prepare and submit to FDA

approximately 20 marketing applications that rely on a trial with an adaptive design and that preparing and submitting this information will take approximately 50 hours per sponsor or applicant.

FDA is issuing this final guidance subject to OMB approval of the collections of information. Before implementing the information collection provisions of the guidance, FDA will publish a notice in the **Federal Register** announcing OMB's decision to approve, modify, or disapprove the collections of information, including OMB control number(s) for newly approved collections.

III. Electronic Access

Persons with access to the internet may obtain the guidance at <https://www.fda.gov/Drugs/Guidance>

ComplianceRegulatoryInformation/Guidances/default.htm, https://www.fda.gov/vaccines-blood-biologics/guidance-compliance-regulatory-information-biologics/biologics-guidances, or https://www.regulations.gov.

Dated: November 25, 2019.

Lowell J. Schiller,
Principal Associate Commissioner for Policy.

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA-2019-N-4590]

Morton Grove Pharmaceuticals, Inc., et al.; Withdrawal of Approval of 21 Abbreviated New Drug Applications

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA or Agency) is

withdrawing approval of 21 abbreviated new drug applications (ANDAs) from multiple applicants. The applicants notified the Agency in writing that the drug products were no longer marketed and requested that the approval of the applications be withdrawn.

DATES: Approval is withdrawn as of January 2, 2020.

FOR FURTHER INFORMATION CONTACT: Martha Nguyen, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 75, Rm. 1676, Silver Spring, MD 20993-0002, 240-

402-6980, Martha.Nguyen@fda.hhs.gov.
SUPPLEMENTARY INFORMATION: The applicants listed in the table have informed FDA that these drug products are no longer marketed and have requested that FDA withdraw approval of the applications under the process described in § 314.150(c) (21CFR 314.150(c)). The applicants have also, by their requests, waived their opportunity for a hearing. Withdrawal of approval of an application or abbreviated application under § 314.150(c) is without prejudice to refiling.

| Application No. | Drug | Applicant |
|-----------------|---|--|
| ANDA 040759 | Phenytoin Sodium Capsules, 30milligrams (mg) (Extended) | Morton Grove Pharmaceuticals, Inc., 6451 Main St., Morton Grove, IL 60053. |
| ANDA 062349 | Nystatin Oral Suspension, 100,000 units/milliliters (mL) | G&W Laboratories, Inc., 301 Helen St., South Plainfield, NJ 07080. |
| ANDA 062483 | Griseofulvin V (griseofulvin microsize) Oral Suspension, 125 mg/5 mL. | Valeant Pharmaceuticals North America, LLC, 400 Somerset Corporate Blvd., Bridgewater, NJ 08807. |
| ANDA 063264 | Amikacin Sulfate Injection USP, Equivalent to (EQ) 250 mg base/mL. | Hospira, Inc., 275 North Field Dr., Bldg. H1, Lake Forest, IL 60045. |
| ANDA 072655 | Amantadine Hydrochloride (HCl) Syrup USP, 50 mg/5 mL | G&W Laboratories, Inc. |
| ANDA 074176 | Cimetidine HCl Oral Solution, EQ 300 mg base/5 mL | Do. |
| ANDA 075366 | Sotalol HCl Tablets USP 80 mg, 120 mg, 160 mg, and 240 mg. | Upsher-Smith Laboratories, LLC, 6701 Evenstad Dr., Maple Grove, MN 55369. |
| ANDA 075887 | Fluvoxamine Maleate Tablets, 25 mg, 50 mg, and 100 mg | Do. |
| ANDA 076709 | Fentanyl Extended-Release Film, 25 micrograms (mcg)/hr, 50 mcg/hr, 75 mcg/hr, 100 mcg/hr. | Actavis Laboratories UT, Inc., Subsidiary of Teva Pharmaceuticals USA, Inc, 577 Chipeta Way, Salt Lake City, UT 84108. |
| ANDA 076841 | Mesalamine Enema, 4 grams (gm)/60 mL | G&W Laboratories, Inc. |
| ANDA 077062 | Fentanyl Extended-Release Film, 25 mcg/hr, 50 mcg/hr, 75 mcg/hr, and 100 mcg/hr. | Mayne Pharma LLC, 1240 Sugg Parkway, Greenville, NC 27834. |
| ANDA 078426 | Zolpidem Tartrate Tablets, 5 mg and 10 mg | Morton Grove Pharmaceuticals Inc. |
| ANDA 078653 | Ranitidine HCl Tablets USP, EQ 150 mg base | Do. |
| ANDA 078701 | Ranitidine HCl Tablets USP, EQ 150 mg base and EQ 300 mg base. | Do. |
| ANDA 078884 | Ranitidine HCl Tablets USP, EQ 75 mg base | Do. |
| ANDA 087811 | Phrenilin (acetaminophen and butalbital) Tablets, 325 mg/50 mg. | Bausch Health US, LLC. |
| ANDA 088761 | Prometh VC Plain (promethazine HCl and phenylephrine HCl) Syrup, 5 mg/5mL, and 6.25 mg/5 mL. | G&W Laboratories, Inc. |
| ANDA 088762 | Prometh w/Dextromethorphan (promethazine HCl and dextromethorphan hydrobromide) Syrup, 6.25 mg/5 mL and 15 mg/5 mL. | Do. |
| ANDA 090786 | Carbidopa, Entacapone, and Levodopa Tablets, 12.5 mg/200 mg/50 mg. | Morton Grove Pharmaceuticals Inc. |
| ANDA 091267 | Donepezil HCl Tablets, 5 mg and 10 mg | Do. |
| ANDA 201947 | Morphine Sulfate Oral Solution, 10 mg/5 mL and 20 mg/5 mL. | VistaPharm, Inc., 7265 Ulmerton Rd., Largo, FL 33771. |

Do = Ditto.

Therefore, approval of the applications listed in the table, and all amendments and supplements thereto, is hereby withdrawn as of January 2, 2020. Approval of each entire application is withdrawn, including any strengths or products inadvertently missing from the table. Introduction or delivery for introduction into interstate commerce of products without approved new drug applications violates section 301(a) and (d) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 331(a) and (d)). Drug

products that are listed in the table that are in inventory on January 2, 2020 may continue to be dispensed until the inventories have been depleted or the drug products have reached their expiration dates or otherwise become violative, whichever occurs first.

Dated: November 25, 2019.

Lowell J. Schiller,

Principal Associate Commissioner for Policy.

BILLING CODE 4164-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA-2016-N-3995]

Agency Information Collection Activities; Proposed Collection; Comment Request; Submission of Information on Pediatric Uses of Medical Devices

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing an opportunity for public comment on the proposed collection of certain information by the Agency. Under the Paperwork Reduction Act of 1995 (PRA), Federal Agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on information collection associated with the requirement for submission of information on pediatric subpopulations that suffer from a disease or condition that a device is intended to treat, diagnose, or cure.

DATES: Submit either electronic or written comments on the collection of information by January 31, 2020.

ADDRESSES: You may submit comments as follows. Please note that late, untimely filed comments will not be considered. Electronic comments must be submitted on or before January 31, 2020. The <https://www.regulations.gov> electronic filing system will accept comments until 11:59 p.m. Eastern Time at the end of January 31, 2020. Comments received by mail/hand delivery/courier (for written/paper submissions) will be considered timely if they are postmarked or the delivery service acceptance receipt is on or before that date.

Electronic Submissions

Submit electronic comments in the following way:

- **Federal eRulemaking Portal:** <https://www.regulations.gov>. Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to <https://www.regulations.gov> will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on <https://www.regulations.gov>.

- If you want to submit a comment with confidential information that you do not wish to be made available to the

public, submit the comment as a written/paper submission and in the manner detailed (see "Written/Paper Submissions" and "Instructions").

Written/Paper Submissions

Submit written/paper submissions as follows:

- **Mail/Hand Delivery/Courier (for written/paper submissions):** Dockets Management Staff (HFA-305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in "Instructions."

Instructions: All submissions received must include the Docket No. FDA-2016-N-3995 for "Pediatric Uses of Devices; Requirement for Submission of Information on Pediatric Subpopulations That Suffer From a Disease or Condition That a Device Is Intended To Treat, Diagnose, or Cure." Received comments, those filed in a timely manner (see **ADDRESSES**), will be placed in the docket and, except for those submitted as "Confidential Submissions," publicly viewable at <https://www.regulations.gov> or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday.

- **Confidential Submissions—**To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states "THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION." The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on <https://www.regulations.gov>. Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as "confidential." Any information marked as "confidential" will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA's posting of comments to public dockets, see 80

FR 56469, September 18, 2015, or access the information at: <https://www.gpo.gov/fdsys/pkg/FR-2015-09-18/pdf/2015-23389.pdf>.

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to <https://www.regulations.gov> and insert the docket number, found in brackets in the heading of this document, into the "Search" box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

FOR FURTHER INFORMATION CONTACT:

Amber Sanford, Office of Operations, Food and Drug Administration, Three White Flint North, 10A-12M, 11601 Landsdown St., North Bethesda, MD 20852, 301-796-8867, PRAStaff@fda.hhs.gov.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501-3521), Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on these topics: (1) Whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

Pediatric Uses of Devices; Requirement for Submission of Information on Pediatric Subpopulations That Suffer From a Disease or Condition That a Device Is Intended To Treat, Diagnose, or Cure Under Section 515A of the Federal Food, Drug, and Cosmetic Act—21 CFR 814

OMB Control Number 0910-0748—Extension

Section 515A(a) of the Food, Drug, and Cosmetic Act (21 U.S.C. 360e-1) (FD&C Act) requires applicants who submit certain medical device applications to include readily available information providing a description of any pediatric subpopulations that suffer from the disease or condition that the device is intended to treat, diagnose, or cure, and the number of affected pediatric patients. The information submitted will allow FDA to track the number of approved devices for which there is a pediatric subpopulation that suffers from the disease or condition that the device is intended to treat, diagnose, or cure and the review time for each such device application.

These requirements apply to applicants who submit humanitarian

device exemption requests (HDEs), premarket approval applications (PMAs) or PMA amendments or supplements, or a product development protocol (PDP).

FDA expects to receive approximately 47 original PMA/PDP/HDE applications each year, 1 of which FDA expects to be HDEs. This estimate is based on the average of FDA's receipt of new PMA applications. The Agency estimates that 11 of the estimated 47 original PMA submissions will fail to provide the required pediatric use information and their sponsors will therefore be required to submit PMA amendments. The Agency also expects to receive approximately 928 supplements that will include the pediatric use information required by section 515A(a) of the FD&C Act and part 814 (21 CFR part 814).

All that is required is to gather, organize, and submit information that is readily available, using any approach that meets the requirements of section 515A(a) of the FD&C Act and part 814. We believe that because the applicant is required to organize and submit only readily available information, no more than 8 hours will be required to comply.

Furthermore, because supplements may include readily available information on pediatric populations by referencing a previous submission, FDA estimates the average time to obtain and submit the required information is a supplement to be 2 hours. FDA estimates that the total estimated burden is 2,392 hours.

Additionally, the guidance document entitled "Providing Information About Pediatric Uses of Medical Devices—Guidance for Industry and Food and Drug Administration Staff" describes how to compile and submit the readily available pediatric use information required under section 515A(a) of the FD&C Act. Respondents are permitted to submit information relating to uses of the device outside the approved or proposed indication if such uses are described or acknowledged in acceptable sources of readily available information. We estimate that 20 percent of respondents submitting information required by section 515A(a) of the FD&C Act will choose to submit this information and that it will take 30 minutes for them to do so.

FDA estimates the burden of this collection of information as follows:

| Activity | Number of respondents | Number of responses per respondent | Total annual responses | Average burden per response | Total hours |
|---|-----------------------|------------------------------------|------------------------|-----------------------------|--------------|
| Pediatric information in an original PMA or PDP—814.20(b)(13) | 11 | 1 | 11 | 8 | 88 |
| Pediatric information in a PMA amendment—814.37(b)(2) | 5 | 1 | 5 | 8 | 40 |
| Pediatric information in a PMA supplement—814.39(c)(2)(i) | 928 | 1 | 928 | 2 | 1,856 |
| Pediatric information in an HDE—814.104(b)(6) | 1 | 1 | 1 | 8 | 8 |
| Pediatric information for uses outside approved indication | 800 | 1 | 800 | .5 | 400 |
| Total | | | | | 2,392 |

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

Our estimated burden and corresponding responses reflect the requirements under section 515A(a) of the FD&C Act, in addition to the submission of data related to pediatric uses outside an approved indication, as described in the guidance document entitled "Providing Information About Pediatric Uses of Medical Devices—Guidance for Industry and Food and Drug Administration Staff." OMB previously approved the information collection related to uses outside an approved indication under OMB control number 0910-0762. As the information collection uses the same data and relies upon the same legal authority as OMB control number 0910-0748, we have discontinued OMB control number 0910-0762 and merged the information collection accordingly. Additionally, we

have altered the title of the collection to reflect all collections of pediatric uses.

Our estimated burden for the information collection reflects an overall increase of 632 hours and a corresponding increase of supplements and of uses outside of approved indications. We attribute this adjustment to an increase in the number of supplements we received over the last 5 years and merging data from discontinued OMB control number 0910-0762.

Dated: November 22, 2019.

Lowell J. Schiller,

Principal Associate Commissioner for Policy.

BILLING CODE 4164-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Submission to OMB for Review and Approval; Public Comment Request; Health Center Patient Survey, OMB No. 0915-0368—Reinstatement

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, HRSA has submitted an Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and approval. Comments

submitted during the first public review of this ICR will be provided to OMB. OMB will accept further comments from the public during the review and approval period. OMB may act on HRSA's ICR only after the 30-day comment period for this notice has closed.

DATES: Comments on this ICR should be received no later than January 2, 2020.

ADDRESSES: Submit your comments, including the ICR Title, to the desk officer for HRSA, either by email to OIRA_submission@omb.eop.gov or by fax to 202-395-5806.

FOR FURTHER INFORMATION CONTACT: To request a copy of the clearance requests submitted to OMB for review, email Lisa Wright-Solomon, the HRSA Information Collection Clearance Officer at paperwork@hrsa.gov or call (301) 443-1984.

SUPPLEMENTARY INFORMATION:

Information Collection Request Title: Health Center Patient Survey OMB No. 0915-0368—Reinstatement.

Abstract: HRSA supported health centers (those entities funded under section 330 of the Public Health Service (PHS) Act) deliver comprehensive, affordable, quality primary health care to over 28 million patients nationwide, regardless of their ability to pay. Nearly 1,400 health centers operate approximately 12,000 service delivery sites in every U.S. state, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and the Pacific Basin. In the past, HRSA has conducted the Health Center Patient Survey (HCPS), which surveys patients of HRSA-funded health

centers. The HCPS collects information about sociodemographic characteristics, health conditions, health behaviors, access to and utilization of health care services, and satisfaction with health care received at HRSA-funded health centers. The reinstatement of the HCPS will utilize the same modules from the 2014 HCPS (OMB #0915-0368). Overarching changes will streamline the questionnaire to minimize burden, standardize questions with other national surveys to enable comparative analyses with particular focus on HHS and HRSA priority areas (e.g., mental health and substance use). Survey results come from in-person, one-on-one interviews with patients who are selected as nationally representative of the Health Center Program patient population.

A 60-day notice was published in the **Federal Register** on July 24, 2019, vol. 84, No. 142; pp. 35683-84. There were two public comments.

Need and Proposed Use of the Information: The HCPS is unique because it focuses on comprehensive, nationally representative, individual level data from the perspective of health center patients. By investigating how well HRSA-funded health centers meet health care needs of the medically underserved and how patients perceive their quality of care, the HCPS serves as an empirically based resource to inform HRSA policy, funding, and planning decisions.

HRSA updated this Notice to reflect the following changes since the publication of the 60-day Notice. The number of estimated respondents

changed from 9,058 to 9,000. This change came about because of the separation of the cognitive testing package from the national survey package. Based on completing the cognitive testing, the estimated overall burden on survey respondents dropped from 1.25 hours to 1.00 hour. HRSA discontinued use of the term "Grantee" when referring to recipients of HRSA funding; therefore, in its place in the burden table below, the term "Grantee Recruitment" has been changed to "Awardee Recruitment." HRSA added a Short Blessed Scale to account for the patient's time if they are screened for impairment before or during the survey administration. HRSA utilized The Short Blessed Scale for 0.2 percent of respondents in the 2014 HCPS.

Likely Respondents: Patients at HRSA-supported health centers.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

| Form name | Number of respondents | Number of responses per respondent | Total responses | Average burden per response (in hours) | Total burden hours |
|--|-----------------------|------------------------------------|-----------------|--|--------------------|
| Awardee Recruitment | 220 | 1 | 220 | 2.00 | 440.00 |
| Site Recruitment and Training | 700 | 1 | 700 | 3.15 | 2,205.00 |
| Patient Screening | 13,120 | 1 | 13,120 | 0.17 | 2,230.40 |
| Patient Screening: Short Blessed Scale | 18 | 1 | 18 | 0.05 | 0.90 |
| Patient Survey | 9,000 | 1 | 9,000 | 1.00 | 9,000.00 |
| Total National Study | 23,058 | | 23,058 | | 13,876.30 |

Maria G. Button,

Director, Executive Secretariat.

BILLING CODE 4165-15-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Proposed Collection; 60-Day Comment Request NCI Genomic Data Commons (GDC) Data Submission Request Form (National Cancer Institute)

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

SUMMARY: In compliance with the requirement of the Paperwork Reduction Act of 1995 to provide opportunity for public comment on proposed data collection projects, the National Cancer Institute (NCI) will publish periodic summaries of propose projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

DATES: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

FOR FURTHER INFORMATION CONTACT: To obtain a copy of the data collection plans and instruments, submit comments in writing, or request more information on the proposed project, contact: Zhining Wang, Ph.D., Project Officer, Center for Cancer Genomics

(CCG), National Cancer Institute, Building 31 Room 3A20, 31 Center Drive, Bethesda, MD 20814 or call non-toll-free number 301-402-1892 or Email your request, including your address to: zhining.wang@mail.nih.gov. Formal requests for additional plans and instruments must be requested in writing.

SUPPLEMENTARY INFORMATION: Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 requires: Written comments and/or suggestions from the public and affected agencies are invited to address one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Proposed Collection Title: NCI Genomic Data Commons (GDC) Data

Submission Request Form, 0925-0752, Expiration Date 05/31/2020, EXTENSION, National Cancer Institute (NCI), National Institutes of Health (NIH).

Need and Use of Information Collection: The purpose of the NCI Genomic Data Commons (GDC) Data Submission Request Form is to provide a vehicle for investigators to request submission of their cancer genomic data into the GDC in support of data sharing. The purpose is to also provide a mechanism for the GDC Data Submission Review Committee to review and assess the data submission request for applicability to the GDC mission. The scope of the form involves obtaining information from investigators that: (1) Would like to submit data about their study into the GDC, (2) are affiliated with studies that adhere to GDC data submission conditions. The benefits of the collection are that it provides the needed information for investigators to understand the types of studies and data that the GDC supports, and that it provides a standard mechanism for the GDC to assess incoming data submission requests.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 50 hours.

ESTIMATED ANNUALIZED BURDEN HOURS

| Type of respondent | Number of respondents | Number of responses per respondent | Average time per response (in hours) | Total annual burden hour |
|--------------------|-----------------------|------------------------------------|--------------------------------------|--------------------------|
| Investigator | 200 | 1 | 15/60 | 50 |
| Total | | 200 | | 50 |

Dated: November 20, 2019.
Diane Kreinbrink,
Project Clearance Liaison, National Cancer Institute, National Institutes of Health.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Cancer Institute; Notice of Closed Meetings

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the

provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Cancer Institute Special Emphasis Panel; TEP-2: SBIR Contract Review.
Date: January 15-16, 2020.
Time: 10:00 a.m. to 5:00 p.m.
Agenda: To review and evaluate contract proposals.
Place: National Cancer Institute Shady Grove, 9609 Medical Center Drive, Room 7W102, Rockville, MD 20850 (Telephone Conference Call).

Contact Person: Shakeel Ahmad, Ph.D., Chief Research Technology and Contract Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W102, Rockville, MD 20850, 240-276-6442, ahmads@mail.nih.gov.

Name of Committee: National Cancer Institute Special Emphasis Panel; NCI Program Project (P01) Review IV.
Date: January 16-17, 2020.
Time: 7:30 a.m. to 1:00 p.m.
Agenda: To review and evaluate grant applications.
Place: Hilton Washington/Rockville, 1750 Rockville Pike, Rockville, MD 20852.
Contact Person: Clifford W Schweinfest, Ph.D., Scientific Review Officer, Special Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W108, Bethesda, MD 20892-8329, 240-276-6343, schweinfestcw@mail.nih.gov.

Name of Committee: National Cancer Institute Special Emphasis Panel; SEP-2: NCI Clinical and Translational R21 and Omnibus R03.

Date: January 30–31, 2020.

Time: 7:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: Hyatt Regency Bethesda, One Bethesda Metro Center, 7400 Wisconsin Avenue, Bethesda, MD 20814.

Contact Person: Ombretta Salvucci, Ph.D., Scientific Review Officer, Special Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W264, Rockville, MD 20850, 240-276-7286, salvucco@mail.nih.gov.

Name of Committee: National Cancer Institute Special Emphasis Panel; TEP-4: Cloud-Based Software for the Cancer Research Data Common.

Date: February 6, 2020.

Time: 10:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate contract proposals.

Place: National Cancer Institute Shady Grove, 9609 Medical Center Drive, Room 7W246, Rockville, MD 20850 (Telephone Conference Call).

Contact Person: Jun Fang, Ph.D., Scientific Review Officer, Research Technology & Contract Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W246, Rockville, MD 20850, (240) 276-5460, jfang@mail.nih.gov.

Name of Committee: National Cancer Institute Initial Review Group; Subcommittee F—Institutional Training and Education.

Date: February 24–25, 2020.

Time: 6:00 p.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: Bethesda Marriott Suites, 6711 Democracy Boulevard, Bethesda, MD 20817.

Contact Person: Adriana Stoica, Ph.D., Scientific Review Officer, Resources and Training Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, 7W234, Bethesda, MD 20892-9750, 240-276-6368, Stoicaa2@mail.nih.gov.

Name of Committee: National Cancer Institute Special Emphasis Panel; Innovative Molecular and Cellular Analysis Technologies.

Date: March 4–5, 2020.

Time: 4:00 p.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: Bethesda North Marriott Hotel & Conference Center, Montgomery County Conference Center Facility, 5701 Marinelli Road, North Bethesda, MD 20852.

Contact Person: Jun Fang, Ph.D., Scientific Review Officer, Research Technology & Contract Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W246, Rockville, MD 20850, (240) 276-5460, jfang@mail.nih.gov.

Name of Committee: National Cancer Institute Special Emphasis Panel; Participant Engagement and Cancer Genome Sequencing Centers.

Date: March 17–18, 2020.

Time: 4:00 p.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: Bethesda North Marriott Hotel & Conference Center, Montgomery County Conference Center Facility, 5701 Marinelli Road, North Bethesda, MD 20852.

Contact Person: Shakeel Ahmad, Ph.D., Chief, Research Technology and Contract Review Branch, Division of Extramural Activities, National Cancer Institute, NIH, 9609 Medical Center Drive, Room 7W102, Rockville, MD 20850, 240-276-6442, ahmads@mail.nih.gov.

Name of Committee: National Cancer Institute Special Emphasis Panel; SEP-5: NCI Clinical and Translational R21 and Omnibus R03 Review Meeting.

Date: March 26, 2020.

Time: 8:00 a.m. to 6:00 p.m.

Agenda: To review and evaluate grant applications.

Place: Bethesda North Marriott Hotel & Conference Center, Montgomery County Conference Center Facility, 5701 Marinelli Road, North Bethesda, MD 20852.

BILLING CODE 4140-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Request for Information on “Update on Selected Topics in Asthma Management 2020: A Report From the National Asthma Education and Prevention Program Coordinating Committee (NAEPPCC) Expert Panel Report 4 (EPR-4) Working Group”

AGENCY: National Institutes of Health, HHS.

ACTION: Request for Information.

SUMMARY: The Expert Panel Working Group of the NHLBI National Asthma Education and Prevention Program Coordinating Committee (NAEPPCC) is

soliciting comments and suggestions from the public on “Update on Selected Topics in Asthma Management 2020: A Report from the Expert Panel Report-4 (EPR-4) Working Group.” This Request for Information (RFI) invites the scientific community, health professionals, organizations, patient communities, and the general public to provide comments and suggestions, including particular emphasis on the feasibility, acceptability, and capacity for implementation, of the proposed recommendations and implementation guidance. Responses to this RFI will be used to update and revise the report as necessary.

DATES: The NHLBI NAEPPCC RFI is open for public comment for a period of 35 days. Comments must be received by January 6, 2020 to ensure consideration. After the public comment period has closed, the comments received will be considered in a timely manner by the NHLBI NAEPPCC Expert Panel Working Group.

ADDRESSES: Submissions may be submitted electronically to [<https://www.epr4workgroup.org/Asthma2020Guidelines>] or by mail to [Asthma2020Guidelines@westat.com].

FOR FURTHER INFORMATION CONTACT: Questions about this request for information should be directed to Susan T. Shero, RN, MS, Executive Secretary, NAEPPCC, National Heart, Lung, and Blood Institute, National Institutes of Health, 6701 Rockledge Blvd., Rm. 9182, Bethesda, MD 20892, Asthma2020Guidelines@westat.com, 301-496-1051.

SUPPLEMENTARY INFORMATION:

The NHLBI NAEPPCC

In August 2015, the National Asthma Education and Prevention Program Coordinating Committee (NAEPPCC) was chartered as a federal advisory committee in accordance with 424B of the Public Health Service Act, 42 U.S.C. 285b-7b, as amended. The committee is governed by the provisions of the Federal Advisory Committee Act (FACA), as amended (5 U.S.C App.), which sets forth standards for the formation and use of advisory committees. The NAEPPCC fulfills the charges of 424B of the Public Health Service Act, 42 U.S.C. 285b-7b, as amended:

- Identify all Federal programs that carry out asthma-related activities.
- Develop, in consultation with appropriate federal agencies and professional and voluntary health organizations, a Federal plan for responding to asthma.

The NAEPPCC also fulfills charges, similar to those above, set forth in the Children's Health Act of 2000 (Pub. L. 106–310). In addition, the Children's Health Act of 2000 tasks the NHLBI, through the NAEPPCC, with submitting recommendations to Congress on ways to strengthen and improve coordination of asthma-related activities of the federal government.

The NAEPPCC consists of representatives from the major scientific, professional, governmental, and voluntary organizations interested in asthma. The Committee's primary mission is to advise the NHLBI on matters concerning asthma and to facilitate the exchange of information on asthma activities among the member agencies and voluntary health organizations.

The NHLBI administers and coordinates the Coordinating Committee. The Coordinating Committee meetings are open to the public and include presentations and discussion on a variety of topics concerning asthma, including activities and projects of the Committee.

NHLBI Asthma Guidelines

NHLBI produced its first asthma clinical practice guidelines in 1991 and an update was issued in 2007, Guidelines for the Diagnosis and Management of Asthma (EPR–3). In 2011, the National Asthma Education and Prevention Program concluded another update was needed and an Advisory Council of the NHLBI determined in 2012 that a needs assessment should be conducted prior to engaging in any guideline activity. In 2014, NHLBI Council convened an Asthma Expert Panel Working Group to conduct a needs assessment. The Working Group recommended that an update should be made to the 2007 clinical practice guidelines; identified five priority topics for immediate systematic review and update (subsequently changed to six priority topics); and recommended that the NHLBI maintain the NAEPP structure, coordinate the systematic reviews, and update the report. After public comments on the draft needs assessment report were received and reviewed, the Working Group recommended adding a sixth priority topic to the report.

The six priority topic areas identified by the Working Group are: (1) Adjustable medication dosing in recurrent wheezing and asthma (“intermittent therapy”), (2) long acting anti-muscarinic agents in asthma management as add-on to inhaled corticosteroids, (3) bronchial thermoplasty in adult severe asthma, (4)

fractional exhaled nitric oxide (FeNO) in diagnosis, medication selection, and monitoring treatment response, (5) remediation of indoor allergens (house dust mites/pets), and (6) the role of immunotherapy in the treatment of asthma.

The Working Group also recommended that several emerging topic areas be acknowledged and monitored, but did not yet merit systematic review.

NAEPPCC Expert Panel Report 4 (EPR–4) Working Group

The NAEPPCC Expert Panel Working Group 4 (EPR–4) was established in 2018 to update selected topics in the 2007 Guidelines for the Diagnosis and Management of Asthma, Expert Panel Report 3 (EPR–3). The Expert Panel Working Group members used findings from the following NHLBI-supported systematic reviews to develop updates to the 2007 guidelines.

- Role of Immunotherapy in the Treatment of Asthma
- Intermittent Inhaled Corticosteroids and Long-Acting Muscarinic Antagonist for Asthma
- Effectiveness of Indoor Allergen Reduction in Management of Asthma
- Effectiveness and Safety of Bronchial Thermoplasty in Management of Asthma
- The Clinical Utility of Fractional Exhaled Nitric Oxide (FeNO) in Asthma Management

The Expert Panel Working Group members include asthma content experts, specialists and primary care clinicians, health policy experts, implementation and dissemination experts and individuals with experience using the GRADE (Grading of Recommendations Assessment, Development and Evaluation) approach. A methodologist provided technical support to the Working Group.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Center for Advancing Translational Sciences; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Center for Advancing Translational Sciences Special Emphasis Panel—SBIR.

Date: December 18, 2019.

Time: 1:00 p.m. to 2:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, One Democracy Plaza, 6701 Democracy Boulevard, Bethesda, MD 20892 (Telephone Conference Call).

Contact Person: Jing Chen, Ph.D., Scientific Review Officer, Office of Scientific Review, National Center for Advancing Translational Sciences (NCATS), National Institutes of Health, 6701 Democracy Blvd., Democracy 1, Room 1080, Bethesda, MD 20892–4874, chenjing@mail.nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos. 93.859, Pharmacology, Physiology, and Biological Chemistry Research; 93.350, B—Cooperative Agreements; 93.859, Biomedical Research and Research Training, National Institutes of Health, HHS)

Dated: November 25, 2019.

Melanie J. Pantoja,

Program Analyst, Office of Federal Advisory Committee Policy.

BILLING CODE 9111-23-P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS-2019-0063]

Homeland Security Advisory Council

AGENCY: Office of Partnership and Engagement (OPE), the Department of Homeland Security (DHS).

ACTION: Notice of open teleconference federal advisory committee meeting.

SUMMARY: The Homeland Security Advisory Council (“HSAC” or “Council”) will meet via teleconference on Tuesday, December 17, 2019 to review, deliberate, and vote on the final draft report of the Prevention of Targeted Violence Against Faith-Based Communities Subcommittee. The meeting will be open to the public.

DATES: The Council conference call will take place from 12:00 p.m. to 2:00 p.m. EST on Tuesday, December 17, 2019. Please note that the meeting may end early if the Council has completed its business.

ADDRESSES: The HSAC meeting will be held via teleconference. Members of the public interested in participating may do so by following the process outlined below (see “Public Participation”). Written comments can be submitted from December 2, 2019 to January 17, 2020. Comments must be identified by Docket No. DHS-2019-0063 and may be submitted by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *Email:* HSAC@hq.dhs.gov. Include Docket No. DHS-2019-0063 in the subject line of the message.
- *Fax:* (202) 282-9207. Include Mike Miron and the Docket No. DHS-2019-0017 in the subject line of the message.
- *Mail:* Mike Miron, Deputy Executive Director of Homeland Security Advisory Council, Office of Partnership and Engagement, Mailstop 0385, Department of Homeland Security, 2707 Martin Luther King Jr. Ave. SE, Washington, DC 20528.

Instructions: All submissions received must include the words “Department of Homeland Security” and “DHS-2019-0063,” the docket number for this action. Comments received will be posted without alteration at <http://www.regulations.gov>, including any personal information provided.

Docket: For access to the docket to read comments received by the Council, go to <http://www.regulations.gov>, search “DHS-2019-0063,” “Open Docket Folder” and provide your comments.

FOR FURTHER INFORMATION CONTACT:

Mike Miron at HSAC@hq.dhs.gov or at (202) 447-3135.

SUPPLEMENTARY INFORMATION: Notice of this meeting is given under Section 10(a) of the Federal Advisory Committee Act (FACA), Public Law 92-463 (5 U.S.C. Appendix), which requires each FACA committee meeting to be open to the public.

The Council provides organizationally independent, strategic, timely, specific, actionable advice, and recommendations to the Secretary of Homeland Security on matters related to homeland security. The Council is comprised of leaders of local law enforcement, first responders, Federal, State, and Local governments, the private sector, and academia.

The agenda for the meeting is as follows: The Council will review, deliberate, and vote on the Prevention of Targeted Violence Against Faith-Based Communities Final Draft Report. Following the review, there will be a break for public commentary. *Participation:* Members of the public will be in listen-only mode. The public may register to participate in this Council teleconference via the following procedures. Each individual must provide his or her full legal name and email address no later than 5:00 p.m. EDT on Friday, December 13, 2019 to Mike Miron of the Council via email to HSAC@hq.dhs.gov or via phone at (202) 447-3135. The conference call details will be provided to interested members of the public after the closing of the public registration period and prior to the start of the meeting.

For information on services for individuals with disabilities, or to request special assistance, contact Mike Miron at HSAC@hq.dhs.gov or (202) 447-3135 as soon as possible.

Information on Services for Individuals with Disabilities: For information on facilities or services for individuals with disabilities, or to request special assistance during the teleconference contact Mike Miron at (202) 447-3135.

Dated: November 25, 2019.

Matt Hayden,

Executive Director, Homeland Security Advisory Council, DHS.

BILLING CODE 9112-FN-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-7011-N-51]

30-Day Notice of Proposed Information Collection: Office of Housing Counseling; OMB Control No.: 2502-0261

AGENCY: Office of the Chief Information Officer, HUD.

ACTION: Notice.

SUMMARY: HUD is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act, HUD is requesting comment from all interested parties on the proposed collection of information. The purpose of this notice is to allow for 30 additional days of public comment.

DATES: *Comments Due Date:* January 2, 2020.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Colette Pollard, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW, Room 4176, Washington, DC 20410-5000; telephone 202-402-3400 (this is not a toll-free number) or email at Colette.Pollard@hud.gov for a copy of the proposed forms or other available information. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877-8339.

FOR FURTHER INFORMATION CONTACT:

Terri Ames, Housing Program Specialist, Office of Policy and Grants Administration: Office of Housing Counseling, Department of Housing and Urban Development, 451 7th Street SW, Washington, DC 20410; email Terri.ames@hud.gov, 202-402-3025. This is not a toll-free number. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877-8339.

Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A. The **Federal Register** that solicited public comments on the information for a period of 60 days was published on July 16, 2019.

A. Overview of Information Collection

Title of Information Collection:

Housing Counseling Program.

OMB Approval Number: 2502-0261.

Type of Request: Revision of a currently approved collection.

Form Number: HUD 9902, HUD 9906, SF-424, HUD-424CB, SF-425, SF-LLL, HUD 2880.

Description of the need for the information and proposed use: This information is collected in connection with HUD's Housing Counseling Program and will be used by HUD to determine that the Housing Counseling grant applicant meets the requirements of the Notice of Funding Availability (NOFA). Information collected is also used to assign points for awarding grant funds on a competitive and equitable basis. HUD's Office of Housing Counseling will also use the information to provide housing counseling services through private or public organizations with special competence and knowledge in counseling low and moderate-income families. The information is collected from housing counseling agencies that participate in the HUD Housing Counseling Program. The information is collected via the HUD 9902 (grant activity report) and the form 9906 (grant application chart).

Respondents (i.e., affected public): Not-for-profit institutions.

Estimated Number of Respondents: 3,375.

Estimated Number of Responses: 9,900.

Frequency of Response: 2.93333.

Average Hours per Response:

2.0428787.

Total Estimated Burden hours:

20,224.49.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Dated: November 12, 2019.

Colette Pollard,

*Department Reports Management Officer,
Office of the Chief Information Officer.*

[FR Doc. 2019-26048 Filed 11-29-19; 8:45 am]

BILLING CODE 4210-67-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-7014-N-09]

60-Day Notice of Proposed Information Collection: Housing Counseling Training Grant Program; OMB Control No.: 2502-0567

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice.

SUMMARY: HUD is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act, HUD is requesting comment from all interested parties on the proposed collection of information. The purpose of this notice is to allow for 60 days of public comment.

DATES: *Comments Due Date:* January 31, 2020.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Colette Pollard, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW, Room 4176, Washington, DC 20410-5000; telephone 202-402-3400 (this is not a toll-free number) or email at Colette.Pollard@hud.gov for a copy of the proposed forms or other available information. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877-8339.

FOR FURTHER INFORMATION CONTACT: Colette Pollard, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW, Washington, DC 20410; email Colette.Pollard@hud.gov or telephone 202-402-3400. Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Housing Counseling Training Grant Program.

OMB Approval Number: 2502-0567.
Type of Request: Revision of a currently approved collection.

Form Number: SF-424, Application for Federal Assistance; HUD-92910, Housing Counseling Training Charts; HUD-2880, Applicant/Recipient Disclosure/Update Report.

Description of the need for the information and proposed use: Eligible organizations submit information to HUD through *Grants.gov* when applying for grant funds to provide housing counseling training to housing counselors. HUD uses the information collected to evaluate applicants competitively and then select qualified organizations to receive funding that supplement their housing counseling training program. Post-award collection, such as quarterly reports, will allow HUD to evaluate grantees' performance.

Respondents: Not-for-profit institutions.

Estimated Number of Respondents: 24.

Estimated Number of Responses: 40.
Frequency of Response: One-time application and quarterly reports.

Average Hours per Response: 34.5.
Total Estimated Burdens: 1,380.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Dated: November 7, 2019.

John L. Garvin,

General Deputy Assistant Secretary for Housing.

BILLING CODE 4210-67-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-7011-N-52]

30-Day Notice of Proposed Information Collection Comment Request Fair Housing Initiatives Program Grant Application and Monitoring Reports 2529-0033

AGENCY: Office of the Chief Information Officer, HUD.

ACTION: Notice.

SUMMARY: HUD is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act, HUD is requesting comment from all interested parties on the proposed collection of information. The purpose of this notice is to allow for 30 additional days of public comment.

DATES: *Comments Due Date:* January 2, 2020.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Colette Pollard, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW, Room 4176, Washington, DC 20410-5000; telephone 202-402-3400 (this is not a toll-free number) or email at Colette.Pollard@hud.gov for a copy of the proposed forms or other available information. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877-8339.

FOR FURTHER INFORMATION CONTACT:

Colette Pollard, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW, Washington, DC 20410; email Colette.Pollard@hud.gov or telephone 202-402-3400. This is not a toll-free number. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877-8339.

Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A. The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on August 2, 2019.

A. Overview of Information Collection

Title of Information Collection: 25 CFR 125, Fair Housing Initiatives Program.

OMB Approval Number: 2529-0033.

Type of Request: Extension of currently approved collection.

Form Number: HUD 904 A, B and C, SF-425, SF-424, SF-LLL, HUD-2880, HUD-2990, HUD-2993, HUD-424CB, HUD-424-CBW, HUD2994-A, HUD-96010, and HUD-27061.

Description of the need for the information and proposed use: The collection is needed to allow the Fair Housing Initiatives Program (FHIP) to request information necessary to complete a grant application package during the Notice of Funding Availability (NOFA) grant application process. The collection is used to assist the Department in effectively evaluating grant application packages to select the highest ranked applications for funding to carry out fair housing enforcement and/or education and outreach activities under the following FHIP initiatives:

Private Enforcement, Education and Outreach, and Fair Housing Organization. The collection is also needed for the collection of post-award reports and other information used to monitor grants and grant funds. Information collected from quarterly and final progress reports and enforcement logs will enable the Department to evaluate the performance of agencies that receive funding and determine the impact of the program on preventing and eliminating discriminatory housing practices.

Respondents (i.e., affected public): Fair Housing Enforcement Organizations, Fair Housing organizations, non-profit and other organizations eligible to apply for FHIP funding.

| Information collection | Number of respondents | Frequency of response | Responses per annum | Burden hour per response | Annual burden hours |
|-----------------------------------|-----------------------|-----------------------|---------------------|--------------------------|---------------------|
| Application Development | 400 | 1 | 400 | 76.50 | 30,600 |
| Quarterly Report | 104 | 4 | 416 | 19 | 7,904 |
| Supplemental Outcome Report | 104 | 1 | 104 | 19 | 1,976 |
| Enforcement Log | 59 | 4 | 236 | 7 | 1,652 |
| Final Report | 102 | 1 | 102 | 20 | 2,040 |
| Recordkeeping | 104 | 1 | 104 | 21 | 2,184 |
| Total | 873 | 12 | 1362 | 162.50 | 46,356 |

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Dated: November 12, 2019.

Colette Pollard,

Department Reports Management Officer, Officer of the Chief Information Officer.

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[FWS-R7-ES-2019-N122; FF07Camm00.FX.ES111607MRG02; OMB Control Number 1018-0066]

Agency Information Collection Activities; Marine Mammal Marking, Tagging, and Reporting Certificates, and Registration of Certain Dead Marine Mammal Hard Parts

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Fish and Wildlife Service (Service), are proposing to renew an information collection.

DATES: Interested persons are invited to submit comments on or before January 31, 2020.

ADDRESSES: Send your comments on the information collection request by mail to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS: PRB/PERMA (JAO/1N), 5275 Leesburg Pike, Falls Church, VA 22041-3803 (mail); or by email to Info_Coll@fws.gov. Please reference OMB Control Number 1018-0066 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Madonna L. Baucum, Service Information Collection Clearance Officer, by email at Info_Coll@fws.gov, or by telephone at (703) 358-2503.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed information collection request

(ICR) that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the Service; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Service enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Service minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Under section 101(b) of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361–1407), Alaska Natives residing in Alaska and dwelling on the coast of the North Pacific or Arctic Oceans may harvest polar bears, northern sea otters, and Pacific walruses for subsistence or handicraft purposes. Section 109(i) of the MMPA authorizes the Secretary of the Interior to prescribe marking, tagging, and reporting regulations applicable to the Alaska Native subsistence and handicraft take.

On behalf of the Secretary, we implemented regulations at 50 CFR 18.23(f) for Alaska Natives harvesting polar bears, northern sea otters, and Pacific walruses. These regulations enable us to gather data on the Alaska Native subsistence and handicraft harvest and on the biology of polar bears, northern sea otters, and Pacific walruses in Alaska to determine what effect such take may be having on these populations. The regulations also provide us with a means of monitoring the disposition of the harvest to ensure that any commercial use of products created from these species meets the criteria set forth in section 101(b) of the MMPA. We use three forms to collect the information: FWS Form 3–2414 (Polar Bear Tagging Certificates), FWS Form 3–2415 (Walrus Tagging Certificates), and FWS Form 3–2416 (Sea Otter Tagging Certificates). The information we collect includes, but is not limited to:

- Date of kill;
- Sex of the animal;
- Kill location;
- Age of the animal (*i.e.*, adult, subadult, cub, or pup);
- Form of transportation used to make the kill of polar bears;
- Amount of time (*i.e.*, hours/days hunted) spent hunting polar bears;
- Type of take (live-killed or beach-found) for walrus;
- Number of otters present in and number of otters harvested from pod;
- Condition of the polar bear and whether or not bear cubs were present; and
- Name of the hunter or possessor of the specified parts at the time of marking, tagging, and reporting.

We use FWS Form 3–2406 (Registration of Certain Dead Marine Mammal Hard Parts) to record the collection of bones, teeth, or ivory of dead marine mammals by non-Native and Natives not eligible to harvest marine mammals under the MMPA. It is legal to collect such parts from a beach or from land within a quarter of a mile of the ocean (50 CFR 18.26). The information we collect via Form 3–2406 includes, but is not limited to:

- Date and location found.
- Age, sex, and size of the animal.
- Tag numbers.
- Name, address, phone number, and birthdate of the collector.

As part of this renewal process, the Service plans to carefully review each form to determine whether any updates need to be made to the forms. If updates are made, we will clearly annotate those updates in the required submission to OMB.

Title of Collection: Marine Mammal Marking, Tagging, and Reporting Certificates, and Registration of Certain Dead Marine Mammal Hard Parts, 50 CFR 18.23(f) and 18.26.

OMB Control Number: 1018–0066.

Form Number: FWS Forms 3–2406, 3–2414, 3–2415, and 3–2416.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Individuals and households, private sector, and State/local/Tribal governments.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Total Estimated Annual Nonhour Burden Cost: None.

| Activity | Number of respondents | Number of responses | Completion time per response (minutes) | Total annual burden hours |
|----------------------------|-----------------------|---------------------|--|---------------------------|
| 3–2414 (Polar Bear) | 25 | 60 | 15 | 15 |
| 3–2415 (Walrus) | 100 | 500 | 15 | 125 |
| 3–2416 (Sea Otter) | 75 | 1,280 | 15 | 320 |
| 3–2406 (Beach Found) | 300 | 300 | 15 | 75 |
| Totals | 500 | 2,140 | | 535 |

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Dated: November 25, 2019.

Madonna L. Baucum,
Information Collection Clearance Officer, U.S. Fish and Wildlife Service.

DEPARTMENT OF THE INTERIOR**Bureau of Land Management**

[L13200000 DS0000 LXSSK1700000 20X LLWYP07000]

Notice of Availability of the Record of Decision and Approved Amendment to the Resource Management Plan for the Buffalo Field Office, Wyoming**AGENCY:** Bureau of Land Management, Interior.**ACTION:** Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Land Policy and Management Act of 1976, as amended, the Bureau of Land Management (BLM) Buffalo Field Office prepared a Record of Decision (ROD) for the Supplemental Environmental Impact Statement (EIS) and Resource Management Plan (RMP) Amendment for the 2015 Buffalo Field Office RMP. This effort was in response to a United States District Court of Montana opinion and order (*Western Organization of Resource Councils, et al. v. BLM*; 3/26/2018 and 7/31/2018). The Wyoming State Director signed the ROD, which constitutes the final plan amendment decision of the BLM, on November 22, 2019.

ADDRESSES: Copies of the ROD are available at the Buffalo Field Office at 1425 Fort Street, Buffalo, WY 82834, and online at <http://go.usa.gov/xP6S3>.

FOR FURTHER INFORMATION CONTACT: Contact Thomas (Tom) Bills, RMP Supplemental EIS Project Manager; telephone: 307-684-1133; email: tbills@blm.gov. Persons who use a telecommunications device for the deaf may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact Mr. Bills during normal business hours. The FRS is available 24 hours a day, seven days a week, to leave a message or question. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The 2015 Buffalo Field Office Approved RMP provided a single, comprehensive land use plan to guide management of BLM-administered lands and minerals in the Buffalo Field Office, which includes approximately 800,000 acres of BLM surface land and 4.7 million acres of BLM mineral estate in Campbell, Johnson and Sheridan counties in north-central Wyoming.

Based on the above-referenced court decision, feedback from cooperating agencies and stakeholders, and public scoping, the BLM developed the supplemental EIS and analyzed a No Action Alternative and an Action Alternative. The alternatives focused on the allocation of lands open for leasing federal coal, in response to the court order.

The No Action Alternative represented the decision area from the 2015 RMP and brought forward all management decisions that precluded coal development in the 2015 RMP. It relied on decisions from the 2001 coal screening process that informed the 2015 RMP, but used an updated 2018 coal production baseline. The BLM also used the 2019 U.S. Energy Information Administration development forecast to project development in the Buffalo Field Office over the 20-year planning period. The No Action Alternative analyzed 686,896 acres for consideration of coal leasing, which included approximately 73.66 billion tons of BLM-administered coal reserves.

The Action Alternative also used the 2018 coal production baseline and the 2019 U.S. Energy Information Administration development forecast. In addition, the Action Alternative applied new coal screens (as described in 43 CFR 3420.1-4(e)), considered new scientific and geospatial data, and evaluated issues identified through internal and public scoping. Based on these factors, the Action Alternative area analyzed 455,467 acres for consideration of coal leasing, which included approximately 52.24 billion tons of BLM-administered coal reserves.

The Final Supplemental EIS was published on October 4, 2019 (84 FR 53170). During the 30-day protest period, the BLM Director received four protest letters. All protests were resolved prior to the issuance of the ROD. Simultaneously with the protest period, the Governor of Wyoming conducted a 60-day consistency review of the Final Supplemental EIS and Proposed Plan Amendment and found no inconsistencies.

The approved RMP amendment is a modification of the Supplemental EIS's Action Alternative that makes 495,251 acres of federal coal available for consideration for leasing. This area includes all the acreage identified as available under the Action Alternative, as well as 40,847 additional acres that were included under the No Action

Alternative. The BLM made this decision as a result of public, stakeholder, and cooperating agency input on the Supplemental EIS as well as updated best available information and special expertise provided by cooperating agencies and the public.

The ROD summarizes the decisions, clarifications, and modifications included in the Approved RMP Amendment.

Authority: 43 CFR 1610.2(c), 40 CFR 1506.6.

Valori Armstrong,*Acting State Director.*

Public Land Order No. 7889; Extension of Public Land Order No. 7420; Arizona**AGENCY:** Bureau of Land Management, Interior.**ACTION:** Public Land Order.

SUMMARY: This Public Land Order (PLO) extends the duration of the withdrawal created by PLO No. 7420 for an additional 20-year term. PLO No. 7420 would otherwise expire on December 3, 2019. This extension is necessary to continue to protect the value of the capital investments, water-oriented developments, and dispersed recreation in the Bureau of Reclamation's (BOR) Lake Roosevelt expansion area. PLO No. 7420 withdrew 9,175 acres of National Forest System lands from location and entry under the United States mining laws, but not from leasing under the mineral leasing laws, for a 20-year period. The lands have been and will remain open to mineral and geothermal leasing.

DATES: This PLO takes effect on December 4, 2019.

FOR FURTHER INFORMATION CONTACT: Sara Ferreira, Land Law Examiner, at 602-417-9598 or by email at sferreir@blm.gov, Bureau of Land Management, Arizona State Office, One North Central Ave., Suite 800, Phoenix, AZ 85004. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-

877-8339 to contact the above individual. The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: This Order extends the existing withdrawal to continue to protect the capital investments, water-oriented developments, and dispersed recreation resources in the Lake Roosevelt Expansion area.

Order

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714, it is ordered as follows:

1. Subject to valid existing rights, PLO No 7420, (64 FR 67929, (1999)), which withdrew National Forest System lands from location and entry under the United States mining laws, but not from leasing under the mineral leasing laws, is hereby extended for an additional 20-year period to protect the Bureau of Reclamation's Lake Roosevelt expansion area.

2. The withdrawal extended by this Order will expire on December 3, 2039, unless as a result of review conducted prior to the expiration date pursuant to Section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f), the Secretary determines the withdrawal shall be further extended.

Dated: November 25, 2019.

Timothy R. Petty,

Assistant Secretary for Water and Science.

Notice of Availability of the Record of Decision and Approved Resource Management Plan Amendment for the Miles City Field Office, Montana

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Land Policy and Management Act of 1976, as amended, the Bureau of Land Management (BLM) Montana Miles City Field Office has prepared a Record of

Decision and Amendment to the 2015 Miles City Field Office Approved Resource Management Plan (RMP). This effort is in response to a United States District Court for the District of Montana opinion and order (*Western Organization of Resource Councils, et al. v. BLM*; 3/26/2018 and 7/31/2018). By this notice, the BLM is announcing the availability of the Record of Decision and Approved RMP Amendment.

ADDRESSES: Copies of the Record of Decision and Approved RMP Amendment are available at the Miles City Field Office at the Miles City Field Office, 111 Garryowen Road, Miles City, MT 59301, or may be viewed online at: <https://go.usa.gov/xmbE4>.

FOR FURTHER INFORMATION CONTACT: Irma Nansel, RMP Supplemental EIS Project Manager, Miles City Field Office, at telephone: (406) 233-3653, or at the above Miles City mailing address or website. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact Ms. Nansel during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The 2015 Miles City Approved RMP provides a single, comprehensive land use plan that guides management of BLM-administered lands and minerals in the Miles City Field Office, which consists of approximately 2.7 million acres of BLM surface land and 11.9 million acres of BLM mineral estate (11.7 million acres of subsurface Federal mineral coal estate) across 17 counties in eastern Montana.

The RMP Amendment approved by the Record of Decision includes land use allocations of areas acceptable for further consideration of leasing for coal and those that are not. The Approved RMP Amendment is Alternative B from the Supplemental EIS, which allocates 1,214,380 acres as areas acceptable for further consideration of leasing for coal and 530,420 acres that are not acceptable.

The Notice of Availability for the Proposed Amendment to the Approved RMP for the Miles City Field Office was published in the **Federal Register** on October 4, 2019 (84 FR 53171), which initiated a 30-day protest period and a 60-day Governor's Consistency Review period. The BLM received six timely protest submissions. All protests have been resolved and/or dismissed. For a full description of the issues raised during the protest period and how they

were addressed, please refer to the Director's Protest Resolution Report, which is available at the previously listed website (see **ADDRESSES**).

Authority: 43 CFR 1610.5.

John Mehlhoff,

State Director, Montana/Dakotas BLM.

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS-WASO-NCR-HAFE-NPS0028746; PPWOHAFCD4, PMO00HF05.D00000, 19XP103905 (200); OMB Control Number 1024-NEW]

Agency Information Collection Activities; National Park Service History Collection User Agreement and Request Form

AGENCY: National Park Service, Interior.

ACTION: Notice of Information Collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the National Park Service (NPS) are proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before January 31, 2020.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to Phadrea Ponds, NPS Information Collection Clearance Officer, 1201 Oakridge Drive, Fort Collins, CO 80525; or by email at phadrea_ponds@nps.gov; or by telephone at 970-267-7231. Please reference OMB Control Number 1024-HAFE in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR by mail, contact Katrina Gonzalez, Digital Media Specialist, 67 Mather Place PO Box 50, Harpers Ferry, WV 25425-0050, or by email at Katrina_Gonzalez@nps.gov, or by telephone at 304-535-6211. Please reference OMB Control Number 1024-HAFE in the subject line of your comments.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the

public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the NPS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the NPS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the NPS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The NPS History Collection comprises over 3.5 million objects, documents, audio recordings, still photographic images, and motion picture films, providing a rich source of information for diverse users interested in the history of the NPS cultural and natural resources. The Harpers Ferry Center (HFC) is responsible for managing this collection. Authorized by 43 U.S.C. 1460, HFC provides copies of museum, archival, and art collections available to increase access to NPS museum collections, to enhance preservation of original materials, for education and public enjoyment, and in general support of the NPS mission.

Each year, staff managing these collections receive hundreds of requests for copies of materials. These requests are typically for hard copy and/or digital scans of documents, prints, slides, negatives, audiovisual materials, and works of art. The forms in this collection of information is necessary to appropriately respond to the large number of requests received. Without the information, timely and effective communication with the requestor is not possible.

The information collected will be used to determine what is requested, how it will be used, and the timeframe in which it is needed. This aids in

determining legal restrictions, standards being requested (scan resolution), and our ability to meet those needs.

Understanding the intended use of the materials is important as many materials in the collections have copyright, contractual, or other legal restrictions that prohibit anything except “fair use” under U.S. copyright laws.

This request is to approve two forms currently in use without a valid OMB control number. The “User Agreement Document” and “Art Request Form” facilitate requests for copies of materials managed by HFC. We are now requesting approval to use these forms on our Harpers Ferry website as fillable forms.

Title of Collection: NPS History Collection User Agreement and Request Form.

OMB Control Number: 1024–NEW.

Form Number: None.

Type of Review: Collection in use without OMB Approval.

Respondents/Affected Public: Individual researchers, businesses, universities, museums, State, tribal, and federal government agencies and offices.

Total Estimated Number of Annual Respondents: 840.

Total Estimated Number of Annual Responses: 1,200.

Estimated Completion Time per Response: 20 minutes.

Total Estimated Number of Annual Burden Hours: 400.

Respondent’s Obligation: Voluntary.

Frequency of Collection: One Time.

Total Estimated Annual Non-Hour Burden Cost: None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Phadrea Ponds

Acting, Information Collection Clearance Officer, National Park Service.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[RR02142100, XXXR5537F3, RX.198722001000000]

Notice of Intent To Prepare an Environmental Impact Statement and Public Scoping Meeting for the Friant-Kern Canal Middle Reach Capacity Correction Project, Tulare and Kern Counties, California

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of intent; request for comments.

SUMMARY: The Bureau of Reclamation (Reclamation) intends to prepare an Environmental Impact Statement (EIS) on the Friant-Kern Canal Middle Reach Capacity Correction Project. Reclamation is requesting public and agency comment to identify significant issues or other alternatives to be addressed in the EIS.

DATES: Submit written comments on the scope of the EIS on or before January 2, 2020.

A scoping meeting will be held on December 18, 2019, 5:30 p.m. to 7:30 p.m., Porterville CA at the U.S. Forest Service Sequoia National Forest Headquarters, 1839 S. Newcomb Street, Porterville CA 93257.

ADDRESSES: Provide written scoping comments, requests to be added to the mailing list, or requests for sign language interpretation for the hearing impaired or other special assistance needs to Ms. Rain Emerson, Environmental Compliance Branch Chief, Bureau of Reclamation, South-Central California Area Office, 1243 N Street, Fresno CA 93721;

FOR FURTHER INFORMATION CONTACT: Ms. Rain Emerson, Bureau of Reclamation, South-Central California Area Office, 1243 N Street, Fresno CA 93721; telephone (559) 262–0335; facsimile (559) 262–0371; email remerson@usbr.gov. Persons who use a telecommunications device for the deaf may call the Federal Relay Service (FedRelay) at 1–800–877–8339 TTY/ASCII to contact the above individual during normal business hours or to leave a message or question after hours. You will receive a reply during normal business hours. Information on this project may also be found at: https://www.usbr.gov/mp/nepa/nepa_project_details.php?Project_ID=41341.

SUPPLEMENTARY INFORMATION: Reclamation is issuing this notice pursuant to the National Environmental Policy Act of 1969, as amended (NEPA),

42 U.S.C. 4321 *et seq.*; the Council on Environmental Quality's (CEQ) regulations for implementing NEPA, 43 CFR parts 1500 through 1508; and the Department of the Interior's NEPA regulations, 43 CFR part 46.

Background

A 33-mile-long section (milepost 88 to milepost 121) of the Friant-Kern Canal located within Tulare and Kern Counties referred to as the Middle Reach has lost 50 percent of its original design capacity due to regional land subsidence. This has resulted in water delivery impacts to Friant Division long-term contractors and reduces the ability of the Friant-Kern Canal to convey flood waters during wet years.

Reclamation, in partnership with the Friant Water Authority (FWA), proposes to restore the capacity of this 33-mile-long section. The proposed action includes two alternatives to address subsidence impacts: (1) A Canal Enlargement (CE) Alternative, and (2) a Canal Enlargement and Realignment (CER) Alternative. Under the CE Alternative, the entire 33-mile long section of the Middle Reach would be enlarged by widening and raising the canal banks. Under the CER Alternative, approximately 10 miles of the existing canal would be widened and raised and approximately 23 miles of the canal corridor would be realigned to newly constructed canal segments. Reclamation is proposing to provide cost-share funding for the project pursuant to the San Joaquin River Restoration Settlement Act (Pub. L. 111-11 § 10201) and the Water Infrastructure Improvement for the Nation Act (Pub. L. 114-322 § 4007).

Reclamation is not presently aware of Indian Trust Assets or environmental justice issues associated with the proposed action but requests any information relative to this issue be submitted during the scoping period.

Reclamation intends to complete an EIS for this project pursuant to NEPA to ensure consideration of potential environmental effects from implementing the proposed action. As such, Reclamation will also consider a reasonable range of alternatives that could meet the purpose for the project. Reclamation and FWA are requesting public and agency input to assist in identifying significant issues or alternatives to be addressed in the EIS.

To determine the scope of issues relevant to environmental concerns, Reclamation and the FWA prepared an environmental assessment and initial study, which is available at https://www.usbr.gov/mp/nepa/nepa_project_details.php?Project_ID=41341. Effects to

certain resources were determined to be potentially significant, and effects to other resources were found to be absent or relatively minor. Reclamation will focus the EIS on analyzing the effects to resources where a potentially significant effect exists. The resources to be discussed are: Agricultural Resources, Air Quality, Biological Resources, Cultural Resources including Tribal Cultural Resources, Geology and Soils, Greenhouse Gases and Climate Change, Hazards and Hazardous Materials including Wildfire, Hydrology and Water Quality, Land Use, Noise, Environmental Justice, Socioeconomics, Transportation, and Utilities and Service Systems. Agencies and the public are encouraged to review the environmental assessment and initial study, and provide input regarding potentially significant issues to be addressed, or to identify potential alternatives that would meet the purpose of the project.

Special Assistance for Public Scoping and Open House Meetings

If special assistance is required to participate in the public scoping meeting, please contact Ms. Rain Emerson, Bureau of Reclamation, South-Central California Area Office, 1243 N Street, Fresno CA 93721; telephone (559) 262-0335; facsimile (559) 262-0371; email remerson@usbr.gov. Persons who use a telecommunications device for the deaf may call the FedRelay at 1-800-877-8339 TTY/ASCII to contact the above individual during normal business hours or to leave a message or question after hours. You will receive a reply during normal business hours. All meeting facilities are physically accessible to people with disabilities.

Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Ernest A. Conant,

Regional Director, Bureau of Reclamation,
California-Great Basin—Interior Region 10.

BILLING CODE 4332-90-P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-510 and 731-TA-1245 (Review)]

Calcium Hypochlorite From China: Institution of Five-Year Reviews

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted reviews pursuant to the Tariff Act of 1930 (“the Act”), as amended, to determine whether revocation of the antidumping and countervailing duty orders on calcium hypochlorite from China would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

DATES: Instituted December 2, 2019. To be assured of consideration, the deadline for responses is January 2, 2020. Comments on the adequacy of responses may be filed with the Commission by February 13, 2020.

FOR FURTHER INFORMATION CONTACT: Mary Messer (202-205-3193), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this proceeding may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On January 30, 2015, the Department of Commerce (“Commerce”) issued antidumping and countervailing duty orders on imports of calcium hypochlorite from China (80 FR 5082 and 5085). The Commission is conducting reviews pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission's Rules of Practice and

Procedure at 19 CFR part 201, subparts A and B, and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission's determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to these reviews:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.

(2) The *Subject Country* in these reviews is China.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determinations, the Commission defined a single *Domestic Like Product* consisting of all calcium hypochlorite coextensive with Commerce's scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determinations, the Commission defined the *Domestic Industry* to include the two U.S. producers of granular/powder calcium hypochlorite: Arch Chemical, Inc. and Axiall Corp. The Commission also concluded that independent or stand-alone tableters were not included in the *Domestic Industry* definition, but that the *Domestic Industry* definition encompassed all integrated producer operations involved in producing the *Domestic Like Product*, including those pertaining to granular/powder calcium hypochlorite and calcium hypochlorite tablets.

(5) The *Order Date* is the date that the antidumping and countervailing duty orders under review became effective. In these reviews, the *Order Date* is January 30, 2015.

(6) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the proceeding and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is

sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission's designated agency ethics official has advised that a five-year review is not the same particular matter as the underlying original investigation, and a five-year review is not the same particular matter as an earlier review of the same underlying investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 79 FR 3246 (Jan. 17, 2014), 73 FR 24609 (May 5, 2008). Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation or an earlier review of the same underlying investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Charles Smith, Office of the General Counsel, at 202–205–3408.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in this proceeding available to authorized applicants under the APO issued in the proceeding, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the proceeding. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with this

proceeding must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will acknowledge that information submitted in response to this request for information and throughout this proceeding or other proceeding may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. All contract personnel will sign appropriate nondisclosure agreements.

Written submissions.—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is January 2, 2020. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct expedited or full reviews. The deadline for filing such comments is February 13, 2020. All written submissions must conform with the provisions of section 201.8 of the Commission's rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures*, available on the Commission's website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission's procedures with respect to filings. Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the proceeding must be served on all other parties to the proceeding (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the proceeding you do not need to serve your response).

No response to this request for information is required if a currently valid Office of Management and Budget (“OMB”) number is not displayed; the OMB number is 3117 0016/USITC No. 19–5–445, expiration date June 30, 2020. Public reporting burden for the request is estimated to average 15 hours

per response. Please send comments regarding the accuracy of this burden estimate to the Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436.

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act (19 U.S.C. 1677e(b)) in making its determinations in the reviews.

Information to be provided in response to this notice of institution: As used below, the term "firm" includes any related firms.

(1) The name and address of your firm or entity (including World Wide Web address) and name, telephone number, fax number, and Email address of the certifying official.

(2) A statement indicating whether your firm/entity is an interested party under 19 U.S.C. 1677(9) and if so, how, including whether your firm/entity is a U.S. producer of the *Domestic Like Product*, a U.S. union or worker group, a U.S. importer of the *Subject Merchandise*, a foreign producer or exporter of the *Subject Merchandise*, a U.S. or foreign trade or business association (a majority of whose members are interested parties under the statute), or another interested party (including an explanation). If you are a union/worker group or trade/business association, identify the firms in which your workers are employed or which are members of your association.

(3) A statement indicating whether your firm/entity is willing to participate in this proceeding by providing information requested by the Commission.

(4) A statement of the likely effects of the revocation of the antidumping and countervailing duty orders on the *Domestic Industry* in general and/or your firm/entity specifically. In your response, please discuss the various factors specified in section 752(a) of the Act (19 U.S.C. 1675a(a)) including the likely volume of subject imports, likely

price effects of subject imports, and likely impact of imports of *Subject Merchandise* on the *Domestic Industry*.

(5) A list of all known and currently operating U.S. producers of the *Domestic Like Product*. Identify any known related parties and the nature of the relationship as defined in section 771(4)(B) of the Act (19 U.S.C. 1677(4)(B)).

(6) A list of all known and currently operating U.S. importers of the *Subject Merchandise* and producers of the *Subject Merchandise* in the *Subject Country* that currently export or have exported *Subject Merchandise* to the United States or other countries since the *Order Date*.

(7) A list of 3–5 leading purchasers in the U.S. market for the *Domestic Like Product* and the *Subject Merchandise* (including street address, World Wide Web address, and the name, telephone number, fax number, and Email address of a responsible official at each firm).

(8) A list of known sources of information on national or regional prices for the *Domestic Like Product* or the *Subject Merchandise* in the U.S. or other markets.

(9) If you are a U.S. producer of the *Domestic Like Product*, provide the following information on your firm's operations on that product during calendar year 2018, except as noted (report quantity data in pounds and value data in U.S. dollars, f.o.b. plant). If you are a union/worker group or trade/business association, provide the information, on an aggregate basis, for the firms in which your workers are employed/which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total U.S. production of the *Domestic Like Product* accounted for by your firm's(s') production;

(b) Capacity (quantity) of your firm to produce the *Domestic Like Product* (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix);

(c) the quantity and value of U.S. commercial shipments of the *Domestic Like Product* produced in your U.S. plant(s);

(d) the quantity and value of U.S. internal consumption/company transfers of the *Domestic Like Product* produced in your U.S. plant(s); and

(e) the value of (i) net sales, (ii) cost of goods sold (COGS), (iii) gross profit, (iv) selling, general and administrative (SG&A) expenses, and (v) operating income of the *Domestic Like Product* produced in your U.S. plant(s) (include both U.S. and export commercial sales, internal consumption, and company transfers) for your most recently completed fiscal year (identify the date on which your fiscal year ends).

(10) If you are a U.S. importer or a trade/business association of U.S. importers of the *Subject Merchandise* from the *Subject Country*, provide the following information on your firm's(s') operations on that product during calendar year 2018 (report quantity data in pounds and value data in U.S. dollars). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) The quantity and value (landed, duty-paid but not including antidumping or countervailing duties) of U.S. imports and, if known, an estimate of the percentage of total U.S. imports of *Subject Merchandise* from the *Subject Country* accounted for by your firm's(s') imports;

(b) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. commercial shipments of *Subject Merchandise* imported from the *Subject Country*; and

(c) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. internal consumption/company transfers of *Subject Merchandise* imported from the *Subject Country*.

(11) If you are a producer, an exporter, or a trade/business association of producers or exporters of the *Subject Merchandise* in the *Subject Country*, provide the following information on your firm's(s') operations on that product during calendar year 2018 (report quantity data in pounds and value data in U.S. dollars, landed and duty-paid at the U.S. port but not including antidumping or countervailing duties). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total production of *Subject Merchandise* in the *Subject Country* accounted for by your firm's(s') production;

(b) Capacity (quantity) of your firm(s) to produce the *Subject Merchandise* in the *Subject Country* (that is, the level of production that your establishment(s) could reasonably have expected to

attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix); and

(c) the quantity and value of your firm's(s') exports to the United States of *Subject Merchandise* and, if known, an estimate of the percentage of total exports to the United States of *Subject Merchandise* from the *Subject Country* accounted for by your firm's(s') exports.

(12) Identify significant changes, if any, in the supply and demand conditions or business cycle for the *Domestic Like Product* that have occurred in the United States or in the market for the *Subject Merchandise* in the *Subject Country* since the *Order Date*, and significant changes, if any, that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the *Domestic Like Product* produced in the United States, *Subject Merchandise* produced in the *Subject Country*, and such merchandise from other countries.

(13) (Optional) A statement of whether you agree with the above definitions of the *Domestic Like Product* and *Domestic Industry*; if you disagree with either or both of these definitions, please explain why and provide alternative definitions.

Authority: This proceeding is being conducted under authority of Title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.61 of the Commission's rules.

By order of the Commission.

Issued: November 25, 2019.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-1125 (Second Review)]

Electrolytic Manganese Dioxide From China; Institution of a Five-Year Review

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted a review pursuant to the Tariff Act of 1930 ("the Act"), as amended, to determine whether revocation of the antidumping duty order on electrolytic manganese dioxide from China would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

DATES: Instituted December 2, 2019. To be assured of consideration, the deadline for responses is January 2, 2020. Comments on the adequacy of responses may be filed with the Commission by February 13, 2020.

FOR FURTHER INFORMATION CONTACT: Mary Messer (202-205-3193), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this proceeding may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On October 7, 2008, the Department of Commerce ("Commerce") issued an antidumping duty order on imports of electrolytic manganese dioxide from China (73 FR 58537). Following the five-year reviews by Commerce and the Commission, effective January 9, 2015, Commerce issued a continuation of the antidumping duty order on imports of electrolytic manganese dioxide from China (80 FR 1393). The Commission is now conducting a second review pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to

determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time.

Provisions concerning the conduct of this proceeding may be found in the Commission's Rules of Practice and Procedure at 19 CFR part 201, subparts A and B, and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full review or an expedited review. The Commission's determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The *Subject Country* in this review is China.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determination and its full first five-year review determination, the Commission defined one *Domestic Like Product* consisting of all electrolytic manganese dioxide coextensive with Commerce's scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determination and its full first five-year review determination, the Commission defined the *Domestic Industry* as all domestic producers of electrolytic manganese dioxide.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the proceeding and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the

Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission's designated agency ethics official has advised that a five-year review is not the same particular matter as the underlying original investigation, and a five-year review is not the same particular matter as an earlier review of the same underlying investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 79 FR 3246 (Jan. 17, 2014), 73 FR 24609 (May 5, 2008). Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation or an earlier review of the same underlying investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Charles Smith, Office of the General Counsel, at 202-205-3408.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in this proceeding available to authorized applicants under the APO issued in the proceeding, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the proceeding. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with this proceeding must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will acknowledge that information submitted in response to this request for

information and throughout this proceeding or other proceeding may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. All contract personnel will sign appropriate nondisclosure agreements.

Written submissions.—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is January 2, 2020. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct an expedited or full review. The deadline for filing such comments is February 13, 2020. All written submissions must conform with the provisions of section 201.8 of the Commission's rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures*, available on the Commission's website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission's procedures with respect to filings. Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the proceeding must be served on all other parties to the proceeding (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the proceeding you do not need to serve your response).

No response to this request for information is required if a currently valid Office of Management and Budget ("OMB") number is not displayed; the OMB number is 3117 0016/USITC No. 19-5-447, expiration date June 30, 2020. Public reporting burden for the request is estimated to average 15 hours per response. Please send comments regarding the accuracy of this burden estimate to the Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436.

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act (19 U.S.C. 1677e(b)) in making its determination in the review.

Information to be provided in response to this notice of institution: As used below, the term "firm" includes any related firms.

(1) The name and address of your firm or entity (including World Wide Web address) and name, telephone number, fax number, and Email address of the certifying official.

(2) A statement indicating whether your firm/entity is an interested party under 19 U.S.C. 1677(9) and if so, how, including whether your firm/entity is a U.S. producer of the *Domestic Like Product*, a U.S. union or worker group, a U.S. importer of the *Subject Merchandise*, a foreign producer or exporter of the *Subject Merchandise*, a U.S. or foreign trade or business association (a majority of whose members are interested parties under the statute), or another interested party (including an explanation). If you are a union/worker group or trade/business association, identify the firms in which your workers are employed or which are members of your association.

(3) A statement indicating whether your firm/entity is willing to participate in this proceeding by providing information requested by the Commission.

(4) A statement of the likely effects of the revocation of the antidumping duty order on the *Domestic Industry* in general and/or your firm/entity specifically. In your response, please discuss the various factors specified in section 752(a) of the Act (19 U.S.C. 1675a(a)) including the likely volume of subject imports, likely price effects of subject imports, and likely impact of imports of *Subject Merchandise* on the *Domestic Industry*.

(5) A list of all known and currently operating U.S. producers of the *Domestic Like Product*. Identify any

known related parties and the nature of the relationship as defined in section 771(4)(B) of the Act (19 U.S.C. 1677(4)(B)).

(6) A list of all known and currently operating U.S. importers of the *Subject Merchandise* and producers of the *Subject Merchandise* in the *Subject Country* that currently export or have exported *Subject Merchandise* to the United States or other countries after 2013.

(7) A list of 3–5 leading purchasers in the U.S. market for the *Domestic Like Product* and the *Subject Merchandise* (including street address, World Wide Web address, and the name, telephone number, fax number, and Email address of a responsible official at each firm).

(8) A list of known sources of information on national or regional prices for the *Domestic Like Product* or the *Subject Merchandise* in the U.S. or other markets.

(9) If you are a U.S. producer of the *Domestic Like Product*, provide the following information on your firm's operations on that product during calendar year 2018, except as noted (report quantity data in short tons and value data in U.S. dollars, f.o.b. plant). If you are a union/worker group or trade/business association, provide the information, on an aggregate basis, for the firms in which your workers are employed/which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total U.S. production of the *Domestic Like Product* accounted for by your firm's(s') production;

(b) Capacity (quantity) of your firm to produce the *Domestic Like Product* (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix);

(c) the quantity and value of U.S. commercial shipments of the *Domestic Like Product* produced in your U.S. plant(s);

(d) the quantity and value of U.S. internal consumption/company transfers of the *Domestic Like Product* produced in your U.S. plant(s); and

(e) the value of (i) net sales, (ii) cost of goods sold (COGS), (iii) gross profit, (iv) selling, general and administrative (SG&A) expenses, and (v) operating income of the *Domestic Like Product* produced in your U.S. plant(s) (include both U.S. and export commercial sales,

internal consumption, and company transfers) for your most recently completed fiscal year (identify the date on which your fiscal year ends).

(10) If you are a U.S. importer or a trade/business association of U.S. importers of the *Subject Merchandise* from the *Subject Country*, provide the following information on your firm's(s') operations on that product during calendar year 2018 (report quantity data in short tons and value data in U.S. dollars). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) The quantity and value (landed, duty-paid but not including antidumping duties) of U.S. imports and, if known, an estimate of the percentage of total U.S. imports of *Subject Merchandise* from the *Subject Country* accounted for by your firm's(s') imports;

(b) the quantity and value (f.o.b. U.S. port, including antidumping duties) of U.S. commercial shipments of *Subject Merchandise* imported from the *Subject Country*; and

(c) the quantity and value (f.o.b. U.S. port, including antidumping duties) of U.S. internal consumption/company transfers of *Subject Merchandise* imported from the *Subject Country*.

(11) If you are a producer, an exporter, or a trade/business association of producers or exporters of the *Subject Merchandise* in the *Subject Country*, provide the following information on your firm's(s') operations on that product during calendar year 2018 (report quantity data in short tons and value data in U.S. dollars, landed and duty-paid at the U.S. port but not including antidumping duties). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total production of *Subject Merchandise* in the *Subject Country* accounted for by your firm's(s') production;

(b) Capacity (quantity) of your firm(s) to produce the *Subject Merchandise* in the *Subject Country* (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix); and

(c) the quantity and value of your firm's(s') exports to the United States of

Subject Merchandise and, if known, an estimate of the percentage of total exports to the United States of *Subject Merchandise* from the *Subject Country* accounted for by your firm's(s') exports.

(12) Identify significant changes, if any, in the supply and demand conditions or business cycle for the *Domestic Like Product* that have occurred in the United States or in the market for the *Subject Merchandise* in the *Subject Country* after 2013, and significant changes, if any, that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the *Domestic Like Product* produced in the United States, *Subject Merchandise* produced in the *Subject Country*, and such merchandise from other countries.

(13) (Optional) A statement of whether you agree with the above definitions of the *Domestic Like Product* and *Domestic Industry*; if you disagree with either or both of these definitions, please explain why and provide alternative definitions.

Authority: This proceeding is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.61 of the Commission's rules.

By order of the Commission.

Issued: November 25, 2019.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-512 and 731-TA-1248 (Review)]

Carbon and Certain Alloy Steel Wire Rod From China; Institution of Five-Year Reviews

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted reviews pursuant to the Tariff Act of 1930 (“the Act”), as amended, to determine whether revocation of the antidumping and countervailing duty orders on carbon and certain alloy steel wire rod (“wire rod”) from China would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

DATES: Instituted December 2, 2019. To be assured of consideration, the deadline for responses is January 2, 2020. Comments on the adequacy of responses may be filed with the Commission by February 13, 2020.

FOR FURTHER INFORMATION CONTACT:

Mary Messer (202–205–3193), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission’s TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this proceeding may be viewed on the Commission’s electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On January 8, 2015, the Department of Commerce (“Commerce”) issued antidumping and countervailing duty orders on imports of wire rod from China (80 FR 1015 and 1018). The Commission is conducting reviews pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission’s Rules of Practice and Procedure at 19 CFR part 201, subparts A and B, and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission’s determinations in any expedited reviews will be based on the facts available, which may include

information provided in response to this notice.

Definitions.—The following definitions apply to these reviews:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.

(2) The *Subject Country* in these reviews is China.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determinations, the Commission defined one *Domestic Like Product* comprised of all wire rod products coextensive with Commerce’s scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determinations, the Commission defined the *Domestic Industry* as all U.S. producers of wire rod.

(5) The *Order Date* is the date that the antidumping and countervailing duty orders under review became effective. In these reviews, the *Order Date* is January 8, 2015.

(6) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the proceeding and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission’s rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission’s

designated agency ethics official has advised that a five-year review is not the same particular matter as the underlying original investigation, and a five-year review is not the same particular matter as an earlier review of the same underlying investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 79 FR 3246 (Jan. 17, 2014), 73 FR 24609 (May 5, 2008). Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation or an earlier review of the same underlying investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Charles Smith, Office of the General Counsel, at 202–205–3408.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission’s rules, the Secretary will make BPI submitted in this proceeding available to authorized applicants under the APO issued in the proceeding, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the proceeding. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission’s rules, any person submitting information to the Commission in connection with this proceeding must certify that the information is accurate and complete to the best of the submitter’s knowledge. In making the certification, the submitter will acknowledge that information submitted in response to this request for information and throughout this proceeding or other proceeding may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. All contract personnel will

sign appropriate nondisclosure agreements.

Written submissions.—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is January 2, 2020. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct expedited or full reviews. The deadline for filing such comments is February 13, 2020. All written submissions must conform with the provisions of section 201.8 of the Commission's rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures*, available on the Commission's website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission's procedures with respect to filings. Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the proceeding must be served on all other parties to the proceeding (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the proceeding you do not need to serve your response).

No response to this request for information is required if a currently valid Office of Management and Budget ("OMB") number is not displayed; the OMB number is 3117 0016/USITC No. 19–5–446, expiration date June 30, 2020. Public reporting burden for the request is estimated to average 15 hours per response. Please send comments regarding the accuracy of this burden estimate to the Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436.

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification

inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act (19 U.S.C. 1677e(b)) in making its determinations in the reviews.

Information to be provided in response to this notice of institution: As used below, the term "firm" includes any related firms.

(1) The name and address of your firm or entity (including World Wide Web address) and name, telephone number, fax number, and Email address of the certifying official.

(2) A statement indicating whether your firm/entity is an interested party under 19 U.S.C. 1677(9) and if so, how, including whether your firm/entity is a U.S. producer of the *Domestic Like Product*, a U.S. union or worker group, a U.S. importer of the *Subject Merchandise*, a foreign producer or exporter of the *Subject Merchandise*, a U.S. or foreign trade or business association (a majority of whose members are interested parties under the statute), or another interested party (including an explanation). If you are a union/worker group or trade/business association, identify the firms in which your workers are employed or which are members of your association.

(3) A statement indicating whether your firm/entity is willing to participate in this proceeding by providing information requested by the Commission.

(4) A statement of the likely effects of the revocation of the antidumping and countervailing duty orders on the *Domestic Industry* in general and/or your firm/entity specifically. In your response, please discuss the various factors specified in section 752(a) of the Act (19 U.S.C. 1675a(a)) including the likely volume of subject imports, likely price effects of subject imports, and likely impact of imports of *Subject Merchandise* on the *Domestic Industry*.

(5) A list of all known and currently operating U.S. producers of the *Domestic Like Product*. Identify any known related parties and the nature of the relationship as defined in section 771(4)(B) of the Act (19 U.S.C. 1677(4)(B)).

(6) A list of all known and currently operating U.S. importers of the *Subject Merchandise* and producers of the *Subject Merchandise* in the *Subject Country* that currently export or have exported *Subject Merchandise* to the United States or other countries since the *Order Date*.

(7) A list of 3–5 leading purchasers in the U.S. market for the *Domestic Like Product* and the *Subject Merchandise*

(including street address, World Wide Web address, and the name, telephone number, fax number, and Email address of a responsible official at each firm).

(8) A list of known sources of information on national or regional prices for the *Domestic Like Product* or the *Subject Merchandise* in the U.S. or other markets.

(9) If you are a U.S. producer of the *Domestic Like Product*, provide the following information on your firm's operations on that product during calendar year 2018, except as noted (report quantity data in short tons and value data in U.S. dollars, f.o.b. plant). If you are a union/worker group or trade/business association, provide the information, on an aggregate basis, for the firms in which your workers are employed/which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total U.S. production of the *Domestic Like Product* accounted for by your firm's(s') production;

(b) Capacity (quantity) of your firm to produce the *Domestic Like Product* (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix);

(c) the quantity and value of U.S. commercial shipments of the *Domestic Like Product* produced in your U.S. plant(s);

(d) the quantity and value of U.S. internal consumption/company transfers of the *Domestic Like Product* produced in your U.S. plant(s); and

(e) the value of (i) net sales, (ii) cost of goods sold (COGS), (iii) gross profit, (iv) selling, general and administrative (SG&A) expenses, and (v) operating income of the *Domestic Like Product* produced in your U.S. plant(s) (include both U.S. and export commercial sales, internal consumption, and company transfers) for your most recently completed fiscal year (identify the date on which your fiscal year ends).

(10) If you are a U.S. importer or a trade/business association of U.S. importers of the *Subject Merchandise* from the *Subject Country*, provide the following information on your firm's(s') operations on that product during calendar year 2018 (report quantity data in short tons and value data in U.S. dollars). If you are a trade/business association, provide the information, on

an aggregate basis, for the firms which are members of your association.

(a) The quantity and value (landed, duty-paid but not including antidumping or countervailing duties) of U.S. imports and, if known, an estimate of the percentage of total U.S. imports of *Subject Merchandise* from the *Subject Country* accounted for by your firm's(s') imports;

(b) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. commercial shipments of *Subject Merchandise* imported from the *Subject Country*; and

(c) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. internal consumption/company transfers of *Subject Merchandise* imported from the *Subject Country*.

(11) If you are a producer, an exporter, or a trade/business association of producers or exporters of the *Subject Merchandise* in the *Subject Country*, provide the following information on your firm's(s') operations on that product during calendar year 2018 (report quantity data in short tons and value data in U.S. dollars, landed and duty-paid at the U.S. port but not including antidumping or countervailing duties). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total production of *Subject Merchandise* in the *Subject Country* accounted for by your firm's(s') production;

(b) Capacity (quantity) of your firm(s) to produce the *Subject Merchandise* in the *Subject Country* (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix); and

(c) the quantity and value of your firm's(s') exports to the United States of *Subject Merchandise* and, if known, an estimate of the percentage of total exports to the United States of *Subject Merchandise* from the *Subject Country* accounted for by your firm's(s') exports.

(12) Identify significant changes, if any, in the supply and demand conditions or business cycle for the *Domestic Like Product* that have occurred in the United States or in the market for the *Subject Merchandise* in

the *Subject Country* since the *Order Date*, and significant changes, if any, that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the *Domestic Like Product* produced in the United States, *Subject Merchandise* produced in the *Subject Country*, and such merchandise from other countries.

(13) (*Optional*) A statement of whether you agree with the above definitions of the *Domestic Like Product* and *Domestic Industry*; if you disagree with either or both of these definitions, please explain why and provide alternative definitions.

Authority: This proceeding is being conducted under authority of Title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.61 of the Commission's rules.

By order of the Commission.

Issued: November 25, 2019.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-621 and 731-TA-1447 (Final)]

Ceramic Tile From China; Scheduling of the Final Phase of Countervailing Duty and Anti-Dumping Duty Investigations

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the scheduling of the final phase of antidumping and countervailing duty investigations Nos. 701-TA-621 and 731-TA-1447 (Final) pursuant to the Tariff Act of 1930 ("the Act") to determine whether an industry in the United States is materially injured or threatened with material injury, or the establishment of an

industry in the United States is materially retarded, by reason of imports of ceramic tile from China, provided for in subheadings 6905.10.00, 6905.90.00, 6907.21.10, 6907.21.20, 6907.21.30, 6907.21.40, 6907.21.90, 6907.22.10, 6907.22.20, 6907.22.30, 6907.22.40, 6907.22.90, 6907.23.10, 6907.23.20, 6907.23.30, 6907.23.40, 6907.23.90, 6907.30.10, 6907.30.20, 6907.30.30, 6907.30.40, 6907.30.90, 6907.40.10, 6907.40.20, 6907.40.30, 6907.40.40, 6907.40.90, 6914.10.80, and 6914.90.80 of the Harmonized Tariff Schedule of the United States, preliminarily determined by the Department of Commerce ("Commerce") to be subsidized and sold at less-than-fair-value.

DATES: November 14, 2019.

FOR FURTHER INFORMATION CONTACT: Christopher W. Robinson ((202) 205-2542), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for these investigations may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Scope.—For purposes of these investigations, Commerce has defined the subject merchandise as "The merchandise covered by this investigation is ceramic flooring tile, wall tile, paving tile, hearth tile, porcelain tile, mosaic tile, flags, finishing tile, and the like (hereinafter ceramic tile). Ceramic tiles are articles containing a mixture of minerals including clay (generally hydrous silicates of alumina or magnesium) that are fired so the raw materials are fused to produce a finished good that is less than 3.2 cm in actual thickness. All ceramic tile is subject to the scope regardless of end use, surface area, and weight, regardless of whether the tile is glazed or unglazed, regardless of the water absorption coefficient by weight, regardless of the extent of vitrification, and regardless of whether or not the tile is on a backing. Subject merchandise includes ceramic tile with decorative features that may in spots exceed 3.2 cm in thickness and includes ceramic tile

“slabs” or “panels” (tiles that are larger than 1 meter² (11 ft.²)).

Subject merchandise includes ceramic tile that undergoes minor processing in a third country prior to importation into the United States. Similarly, subject merchandise includes ceramic tile produced that undergoes minor processing after importation into the United States. Such minor processing includes, but is not limited to, one or more of the following: Beveling, cutting, trimming, staining, painting, polishing, finishing, additional firing, or any other processing that would otherwise not remove the merchandise from the scope of the investigation if performed in the country of manufacture of the in-scope product.

Background.—The final phase of these investigations is being scheduled pursuant to sections 705(b) and 731(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b) and 1673d(b)), as a result of affirmative preliminary determinations by Commerce that certain benefits which constitute subsidies within the meaning of section 703 of the Act (19 U.S.C. 1671b) are being provided to manufacturers, producers, or exporters in China of ceramic tile, and that such products are being sold in the United States at less than fair value within the meaning of section 733 of the Act (19 U.S.C. 1673b). The investigations were requested in petitions filed on April 10, 2019, by the Coalition for Fair Trade in Ceramic Tile.

For further information concerning the conduct of this phase of the investigations, hearing procedures, and rules of general application, consult the Commission’s Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

Participation in the investigations and public service list.—Persons, including industrial users of the subject merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the final phase of these investigations as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11 of the Commission’s rules, no later than 21 days prior to the hearing date specified in this notice. A party that filed a notice of appearance during the preliminary phase of the investigations need not file an additional notice of appearance during this final phase. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and BPI service list.—Pursuant to section 207.7(a) of the Commission’s rules, the Secretary will make BPI gathered in the final phase of these investigations available to authorized applicants under the APO issued in the investigations, provided that the application is made no later than 21 days prior to the hearing date specified in this notice. Authorized applicants must represent interested parties, as defined by 19 U.S.C. 1677(9), who are parties to the investigations. A party granted access to BPI in the preliminary phase of the investigations need not reapply for such access. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Staff report.—The prehearing staff report in the final phase of these investigations will be placed in the nonpublic record on March 19, 2020, and a public version will be issued thereafter, pursuant to section 207.22 of the Commission’s rules.

Hearing.—The Commission will hold a hearing in connection with the final phase of these investigations beginning at 9:30 a.m. on Thursday, April 2, 2020, at the U.S. International Trade Commission Building. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission on or before March 26, 2020. A nonparty who has testimony that may aid the Commission’s deliberations may request permission to present a short statement at the hearing. All parties and nonparties desiring to appear at the hearing and make oral presentations should participate in a prehearing conference to be held on April 1, 2020, at the U.S. International Trade Commission Building, if deemed necessary. Oral testimony and written materials to be submitted at the public hearing are governed by sections 201.6(b)(2), 201.13(f), and 207.24 of the Commission’s rules. Parties must submit any request to present a portion of their hearing testimony *in camera* no later than 7 business days prior to the date of the hearing.

Written submissions.—Each party who is an interested party shall submit a prehearing brief to the Commission. Prehearing briefs must conform with the provisions of section 207.23 of the Commission’s rules; the deadline for filing is March 26, 2020. Parties may also file written testimony in connection with their presentation at the hearing, as provided in section 207.24 of the Commission’s rules, and posthearing briefs, which must conform with the

provisions of section 207.25 of the Commission’s rules. The deadline for filing posthearing briefs is April 9, 2020. In addition, any person who has not entered an appearance as a party to the investigations may submit a written statement of information pertinent to the subject of the investigations, including statements of support or opposition to the petition, on or before April 9, 2020. On April 23, 2020, the Commission will make available to parties all information on which they have not had an opportunity to comment. Parties may submit final comments on this information on or before April 27, 2020, but such final comments must not contain new factual information and must otherwise comply with section 207.30 of the Commission’s rules. All written submissions must conform with the provisions of section 201.8 of the Commission’s rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission’s rules. The Commission’s *Handbook on Filing Procedures*, available on the Commission’s website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission’s procedures with respect to filings.

Additional written submissions to the Commission, including requests pursuant to section 201.12 of the Commission’s rules, shall not be accepted unless good cause is shown for accepting such submissions, or unless the submission is pursuant to a specific request by a Commissioner or Commission staff.

In accordance with sections 201.16(c) and 207.3 of the Commission’s rules, each document filed by a party to the investigations must be served on all other parties to the investigations (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Authority: These investigations are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.21 of the Commission’s rules.

By order of the Commission.

Issued: November 26, 2019.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020–02–P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–451 and 731–
TA–1126 (Second Review)]

Lightweight Thermal Paper From China; Institution of Five-Year Reviews

AGENCY: United States International
Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted reviews pursuant to the Tariff Act of 1930 (“the Act”), as amended, to determine whether revocation of the antidumping and countervailing duty orders on lightweight thermal paper from China would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

DATES: Instituted December 2, 2019. To be assured of consideration, the deadline for responses is January 2, 2020. Comments on the adequacy of responses may be filed with the Commission by February 13, 2020.

FOR FURTHER INFORMATION CONTACT: Mary Messer (202–205–3193), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission’s TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this proceeding may be viewed on the Commission’s electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On November 24, 2008, the Department of Commerce (“Commerce”) issued antidumping and countervailing duty orders on imports of lightweight thermal paper from China (73 FR 70958 and 70959). Following the five-year reviews by Commerce and the Commission, effective January 30, 2015, Commerce issued a continuation of the antidumping and countervailing duty orders on imports of lightweight thermal paper from China (80 FR 5083). The Commission is now conducting second reviews pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the

orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission’s Rules of Practice and Procedure at 19 CFR part 201, subparts A and B, and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission’s determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to these reviews:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.

(2) The *Subject Country* in these reviews is China.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determinations and first full reviews, the Commission defined a single *Domestic Like Product* consisting of lightweight thermal paper coextensive with Commerce’s scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determinations and first full reviews, the Commission defined one *Domestic Industry* consisting of all converters and coaters of lightweight thermal paper consistent with Commerce’s scope.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the proceeding and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission’s rules, no later than 21

days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission’s designated agency ethics official has advised that a five-year review is not the same particular matter as the underlying original investigation, and a five-year review is not the same particular matter as an earlier review of the same underlying investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 79 FR 3246 (Jan. 17, 2014), 73 FR 24609 (May 5, 2008).

Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation or an earlier review of the same underlying investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Charles Smith, Office of the General Counsel, at 202–205–3408.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission’s rules, the Secretary will make BPI submitted in this proceeding available to authorized applicants under the APO issued in the proceeding, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the proceeding. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission’s rules, any person submitting information to the Commission in connection with this proceeding must certify that the information is accurate and complete to the best of the submitter’s knowledge. In making the certification, the submitter will acknowledge that information submitted in response to this request for information and throughout this

proceeding or other proceeding may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. All contract personnel will sign appropriate nondisclosure agreements.

Written submissions.—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is January 2, 2020. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct expedited or full reviews. The deadline for filing such comments is February 13, 2020. All written submissions must conform with the provisions of section 201.8 of the Commission's rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures*, available on the Commission's website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission's procedures with respect to filings. Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the proceeding must be served on all other parties to the proceeding (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the proceeding you do not need to serve your response).

No response to this request for information is required if a currently valid Office of Management and Budget ("OMB") number is not displayed; the OMB number is 3117 0016/USITC No. 19–5–448, expiration date June 30, 2020. Public reporting burden for the request is estimated to average 15 hours per response. Please send comments regarding the accuracy of this burden estimate to the Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436.

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act (19 U.S.C. 1677e(b)) in making its determinations in the reviews.

Information to be provided in response to this notice of institution: As used below, the term "firm" includes any related firms.

(1) The name and address of your firm or entity (including World Wide Web address) and name, telephone number, fax number, and Email address of the certifying official.

(2) A statement indicating whether your firm/entity is an interested party under 19 U.S.C. 1677(9) and if so, how, including whether your firm/entity is a U.S. producer of the *Domestic Like Product*, a U.S. union or worker group, a U.S. importer of the *Subject Merchandise*, a foreign producer or exporter of the *Subject Merchandise*, a U.S. or foreign trade or business association (a majority of whose members are interested parties under the statute), or another interested party (including an explanation). If you are a union/worker group or trade/business association, identify the firms in which your workers are employed or which are members of your association.

(3) A statement indicating whether your firm/entity is willing to participate in this proceeding by providing information requested by the Commission.

(4) A statement of the likely effects of the revocation of the antidumping and countervailing duty orders on the *Domestic Industry* in general and/or your firm/entity specifically. In your response, please discuss the various factors specified in section 752(a) of the Act (19 U.S.C. 1675a(a)) including the likely volume of subject imports, likely price effects of subject imports, and likely impact of imports of *Subject Merchandise* on the *Domestic Industry*.

(5) A list of all known and currently operating U.S. producers of the *Domestic Like Product*. Identify any

known related parties and the nature of the relationship as defined in section 771(4)(B) of the Act (19 U.S.C. 1677(4)(B)).

(6) A list of all known and currently operating U.S. importers of the *Subject Merchandise* and producers of the *Subject Merchandise* in the *Subject Country* that currently export or have exported *Subject Merchandise* to the United States or other countries after 2013.

(7) A list of 3–5 leading purchasers in the U.S. market for the *Domestic Like Product* and the *Subject Merchandise* (including street address, World Wide Web address, and the name, telephone number, fax number, and Email address of a responsible official at each firm).

(8) A list of known sources of information on national or regional prices for the *Domestic Like Product* or the *Subject Merchandise* in the U.S. or other markets.

(9) If you are a U.S. producer of the *Domestic Like Product*, provide the following information on your firm's operations on that product during calendar year 2018, except as noted (report quantity data in short tons and value data in U.S. dollars, f.o.b. plant). If you are a union/worker group or trade/business association, provide the information, on an aggregate basis, for the firms in which your workers are employed/which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total U.S. production of the *Domestic Like Product* accounted for by your firm's(s') production;

(b) Capacity (quantity) of your firm to produce the *Domestic Like Product* (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix);

(c) the quantity and value of U.S. commercial shipments of the *Domestic Like Product* produced in your U.S. plant(s);

(d) the quantity and value of U.S. internal consumption/company transfers of the *Domestic Like Product* produced in your U.S. plant(s); and

(e) the value of (i) net sales, (ii) cost of goods sold (COGS), (iii) gross profit, (iv) selling, general and administrative (SG&A) expenses, and (v) operating income of the *Domestic Like Product* produced in your U.S. plant(s) (include both U.S. and export commercial sales,

internal consumption, and company transfers) for your most recently completed fiscal year (identify the date on which your fiscal year ends).

(10) If you are a U.S. importer or a trade/business association of U.S. importers of the *Subject Merchandise* from the *Subject Country*, provide the following information on your firm's(s') operations on that product during calendar year 2018 (report quantity data in short tons and value data in U.S. dollars). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) The quantity and value (landed, duty-paid but not including antidumping or countervailing duties) of U.S. imports and, if known, an estimate of the percentage of total U.S. imports of *Subject Merchandise* from the *Subject Country* accounted for by your firm's(s') imports;

(b) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. commercial shipments of *Subject Merchandise* imported from the *Subject Country*; and

(c) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. internal consumption/company transfers of *Subject Merchandise* imported from the *Subject Country*.

(11) If you are a producer, an exporter, or a trade/business association of producers or exporters of the *Subject Merchandise* in the *Subject Country*, provide the following information on your firm's(s') operations on that product during calendar year 2018 (report quantity data in short tons and value data in U.S. dollars, landed and duty-paid at the U.S. port but not including antidumping or countervailing duties). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total production of *Subject Merchandise* in the *Subject Country* accounted for by your firm's(s') production;

(b) Capacity (quantity) of your firm(s) to produce the *Subject Merchandise* in the *Subject Country* (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and

cleanup, and a typical or representative product mix); and

(c) the quantity and value of your firm's(s') exports to the United States of *Subject Merchandise* and, if known, an estimate of the percentage of total exports to the United States of *Subject Merchandise* from the *Subject Country* accounted for by your firm's(s') exports.

(12) Identify significant changes, if any, in the supply and demand conditions or business cycle for the *Domestic Like Product* that have occurred in the United States or in the market for the *Subject Merchandise* in the *Subject Country* after 2013, and significant changes, if any, that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the *Domestic Like Product* produced in the United States, *Subject Merchandise* produced in the *Subject Country*, and such merchandise from other countries.

(13) (*Optional*) A statement of whether you agree with the above definitions of the *Domestic Like Product* and *Domestic Industry*; if you disagree with either or both of these definitions, please explain why and provide alternative definitions.

Authority: This proceeding is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.61 of the Commission's rules.

By order of the Commission.

Issued: November 25, 2019.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020-02-P

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. DEA-508E]

Established Aggregate Production Quotas for Schedule I and II Controlled Substances and Assessment of Annual Needs for the List I Chemicals Ephedrine, Pseudoephedrine, and Phenylpropanolamine for 2020

AGENCY: Drug Enforcement Administration, Department of Justice.

ACTION: Final order.

SUMMARY: This final order establishes the initial 2020 aggregate production quotas for controlled substances in schedules I and II of the Controlled Substances Act and the assessment of annual needs for the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine.

DATES: *Effective Date:* This order is effective December 2, 2019.

FOR FURTHER INFORMATION CONTACT: Scott A. Brinks, Diversion Control Division, Drug Enforcement Administration, 8701 Morrisette Drive, Springfield, VA 22152, Telephone: (571) 362-3261.

SUPPLEMENTARY INFORMATION:

Legal Authority

Section 306 of the Controlled Substances Act (CSA) (21 U.S.C. 826) requires the Attorney General to establish aggregate production quotas for each basic class of controlled substance listed in schedule I and II and for the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine. The Attorney General has delegated this function to the Administrator of the Drug Enforcement Administration (DEA) pursuant to 28 CFR 0.100.

Background

The 2020 aggregate production quotas and assessment of annual needs represent those quantities of schedule I and II controlled substances and the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine that may be manufactured in the United States in 2020 to provide for the estimated medical, scientific, research, and industrial needs of the United States, for lawful export requirements, and for the establishment and maintenance of reserve stocks. These quotas include imports of ephedrine, pseudoephedrine, and phenylpropanolamine, but do not include imports of controlled substances for use in industrial processes.

On September 12, 2019, a notice titled “Proposed Aggregate Production Quotas for Schedule I and II Controlled Substances and Assessment of Annual Needs for the List I Chemicals Ephedrine, Pseudoephedrine, and Phenylpropanolamine for 2020” was published in the **Federal Register**. 84 FR 48170. This notice proposed the 2020 aggregate production quotas for each basic class of controlled substance listed in schedules I and II, and the 2020 assessment of annual needs for the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine. All interested persons were invited to comment on or object to the proposed aggregate production quotas and the proposed assessment of annual needs on or before October 15, 2019.

Comments Received

Within the public comment period, DEA received 731 comments from DEA registrants, hospital associations, professional associations, doctors, nurses, health system organizations, State Attorneys General, and others. The comments included concerns about the quota process, concerns that further quota reductions will lead to drug shortages, requests for less interference in the doctor-patient relationship, availability of prescription drugs for chronic pain patients, requests for hearings, requests for increase in specific production quotas, and other comments outside the scope of this notice. DEA received a joint comment from two Senators urging DEA to apply DEA’s new authorities to prevent and limit opioid diversion due to excessively high production levels. Although this comment was received after the close of the comment period, DEA shares the Senators’ concerns and is working to improve its ability to use available databases to better quantify diversion as part of the quota process.

Shortages

There were non-DEA registered commenters that expressed concerns about the decrease in aggregate production quotas. These commenters alleged that decreases to the aggregate production quotas have resulted in a shortage of injectable opioid medications and interfere with the treatment of patients. Some of these commenters also suggested that DEA separate quotas for solid oral controlled substances and injectable controlled substances, and that DEA allow consideration by individual pharmaceutical dosage forms.

DEA also received letters from many doctors, nurses, hospital administrators,

and others in the medical field regarding the proposed quota reduction for fentanyl and other schedule II narcotics. These letters characterized the reductions as “extremely problematic for American healthcare providers,” stating that the reduction for fentanyl and other schedule II narcotics will lead to drug shortages, raise drug prices, lead to hardships on hospitals and surgical facilities, and negatively impact patients. These letters discussed fentanyl’s appearance on the Food and Drug Administration’s (FDA) drug shortage list and that fentanyl is the least diverted among the covered controlled substances.

DEA is committed to ensuring an adequate and uninterrupted supply of controlled substances in order to meet legitimate medical, scientific, and export needs of the United States. Although DEA sets the aggregate production quota, it is possible that manufacturers’ business practices may lead to a shortage of controlled substances at the consumer level, despite the adequacy of the aggregate production quota set by DEA. The aggregate production quotas are set by DEA in a manner to include both injectable opioids and solid oral opioids in order to ensure that the estimated medical needs of the United States are met.

Pursuant to 21 U.S.C. 826(a)(1), “production quotas shall be established in terms of quantities of each basic class of controlled substance and not in terms of individual pharmaceutical dosage forms prepared from or containing such a controlled substance.” However, the Substance Use-Disorder Prevention that Promotes Opioid Recovery Treatment for Patients and Communities Act of 2018 (SUPPORT Act), (Pub. L. 115–271), provides an exception to that general rule by now giving DEA the authority to establish quotas in terms of pharmaceutical dosage forms if the agency determines that doing so will assist in avoiding the overproduction, shortages, or diversion of a controlled substance. While DEA is now allowed to issue quotas in terms of pharmaceutical dosage form, it is not required to do so. DEA will not be utilizing this authority at the aggregate production quota level, but will be doing so at the individual dosage-form manufacturing level where it will have a greater impact on averting potential shortages. Because quotas set at the individual dosage-form manufacturing level are more directly connected to distributions of current and new FDA-approved drug products, they allow DEA to manage manufacturing quotas to alleviate any potential shortage in a more timely

manner than with quotas set at the aggregate production quota level. This is also true because the aggregate production quota is initially established prior to the start of the quota calendar year.

Additionally, DEA and FDA can coordinate efforts to prevent or alleviate drug shortages pursuant to 21 U.S.C. 826(h). Such efforts may include adjusting domestic competitors’ quota, completion of FDA approval to increase the number of competitors, and determining a foreign manufacturer that can meet FDA approval. For example, the domestic shortage of injectable hydromorphone that occurred in 2018 was alleviated through the collaboration of FDA and DEA to determine who were the other dosage-form manufacturers with injectable hydromorphone products in the market, whether other dosage-form manufacturers had the capability to increase their production levels to meet legitimate patient need in a timely manner, and when it was determined that the domestic manufacturers could not increase production significantly to meet legitimate patient need, DEA and FDA coordinated their regulatory authority to allow for the limited importation of injectable hydromorphone into the United States.

Relevant Information Obtained From the States

Pursuant to 21 CFR 1303.11, DEA must consider relevant information from the States when setting the aggregate production quota. Seven State Attorneys General submitted a joint comment expressing concerns about the estimation of diversion for all controlled substances, not accounting for over-prescribing, and the consideration of additional information to set quotas. Their concerns are addressed in more detail below.

I. Diversion Analysis for All Controlled Substances

The seven State Attorneys General commented that DEA should not take different approaches when accounting for diversion for the five covered controlled substances and the remaining controlled substances. In the letter, they discussed the mandates from the SUPPORT Act, as well as the requirements implemented through 21 CFR 1303.11 by the Controlled Substances Quota rule. 83 FR 32784. They expressed that they have similar language and purposes, even though the SUPPORT Act goes a bit further in its mandate by requiring the estimation of diversion for the five covered controlled substances. They pointed out that DEA

estimated diversion and made straightforward quota reductions by the corresponding quantities, whereas DEA only noted that the databases contained usable information in regards to the remaining controlled substances. DEA did not indicate that diversion estimates were conducted for any other controlled substance, nor did DEA indicate that any corresponding decreases were made for other controlled substances. They commented that if DEA believes they have a sound method for estimating diversion, then it is unreasonable not to apply that method for estimating diversion to all controlled substances.

The States also commented that there is a lack of transparency in the setting of quotas. The States believe that DEA needs to explain the logic behind using different approaches in setting quotas. They commented that DEA must include the findings of fact when setting the quota and that transparency is essential in allowing parties to evaluate DEA's 2020 Proposed Aggregate Production Quota notice.

DEA considered various data sources in order to determine the extent of diversion of all controlled substances as is required by the recent amendments to the CSA and changes to DEA's own regulations. In accordance with factor six in 21 CFR 1303.11(b), DEA formally solicited the Department of Health and Human Services (HHS), U.S. Centers for Disease Control and Prevention (CDC), the Centers for Medicare and Medicaid Services (CMS), and the states in August 2018, requesting information including rates of overdose deaths and abuse and overall public health impact related to controlled substances. This information was also considered pursuant to the SUPPORT Act. DEA determined that due to the grouping of drug classes in all of the sources provided, the data could not be used to estimate diversion for the purpose of setting the aggregate production quotas. However, DEA estimated diversion of the covered controlled substances defined in the SUPPORT Act utilizing DEA's internal data sources. DEA will continue to further define sources that will be useful in analyzing diversion of the remaining controlled substances.

II. Methods and Data That Capture Over-Prescribing as Part of its Diversion Analysis

The States acknowledged that DEA's current approach for accounting for diversion is a significant improvement but commented that DEA does not adequately account for over-prescribing. They commented that over-prescribing results when there is overproduction, which allows legitimate prescriptions to

be diverted. Assuming a controlled substance is validly dispensed for a legitimate medical purpose, both the physician and patient will use their judgement to determine how much medication will be prescribed and how much they will consume. The physician's decisions may be influenced by recommendations from CDC, FDA, and professional medical organizations that have conducted and/or reviewed clinical studies used to determine prescription guidelines. Patients are ultimately going to decide for themselves how much of the legitimately prescribed medication they will consume. DEA does not control the quantity of a substance prescribed to a patient, and DEA cannot control how much of the prescription a patient decides to consume. DEA also receives assistance in curbing overprescribing from programs in place, such as the President's Safer Prescribing Plan, which seeks to reduce nationwide opioid prescription fills by one-third. DEA has observed a decline in the number of prescriptions written for schedule II opioids since 2014 and will continue to set aggregate production quotas to meet the medical needs of the United States while combating the opioid crisis. These decreases take into account the combined efforts of DEA, FDA, and CDC enforcing regulations and issuing guidance documents, as well as many states enacting prescription monitoring database programs to stem the opiate/opioid epidemic.

There are ample reasons not to pursue the methods suggested by the State Attorneys General, including that the studies on which they relied are limited in scope of procedures and number of hospitals, such that the methodology is insufficient to expand to a national level.

As pointed out by the States, "there is no perfect system of measuring other sources of diversion like over-prescription." The States pointed to data from drug takeback programs, but currently that data is not usable for consideration in determining the aggregate production quota. There is no method in place to determine how much of the prescription medications are schedule I or II substances and which controlled substances are being returned. DEA and HHS are working together to consider options for quantifying Take-Back Program data.

III. Consideration of Additional Information To Determine Production Quotas

The State Attorneys General commented that DEA should expand its

sources of data used to set aggregate production quotas. They suggested three steps that DEA should take to gather information to set quotas which are listed below.

1: Improve Usability of the Automated Reports and Consolidated Ordering System (ARCOS) and the Suspicious Order Reporting System (SORS)

The State Attorneys General commented that DEA should improve usability of the ARCOS and SORS databases to gather better information on prescribing practices. They also note that DEA did not indicate whether SORS was used and minimally referred to ARCOS not being used because it contained identical information to the Theft Loss Report Database. The States commented that DEA needs to reform its process to upload SORS reports into the SORS database. Further, they commented that overdose data received from States and the CDC should be cross-referenced with ARCOS to provide context that should inform the quota-setting process.

SORS was not centralized until its recent launch on October 23, 2019. DEA will need time to sort through the system to determine its utility for aggregate production quota purposes. The submission of a suspicious order alone is not an automatic determination that the order is illicit in nature. Further investigations need to be completed to determine if a transgression has occurred.

The differences in reporting frequencies to ARCOS are specified in 21 CFR 1304.33(b). Acquisition and distribution transaction reports must be completed every quarter no later than the 15th day of the month succeeding the quarter for which it is being submitted. In the same section of the CFR, it does mention that a registrant may be given permission to file a report more frequently, but no more than on a monthly basis. The State Attorneys General request to change this regulation is outside of the scope of this final order.

2: Improve Data Collection in Prescription Drug Takeback Programs To Capture the Quantities of Drugs Overprescribed in Particular Areas

The State Attorneys General expressed that DEA should expand the National Take Back Program to assist with gathering more precise data on over-prescribing. They noted that the takeback programs do not track the types and quantities of what the public turns in, limiting their value. Currently, DEA and HHS are working together to consider methods that improve data

collection and subsequently the usability of data obtained from the Take-Back Program.

3: Consider Medical Best Practices as Part of the Holistic Diversion Analysis

The letter submitted by the State Attorneys General also suggested that DEA study the best practices developed by the medical community and state regulators to determine what opioid quantities are “medically necessary.” They expressed that relying exclusively on evidence of illegal activity assumes that any legally-sold controlled substance is a part of the medical and scientific needs of the United States.

DEA is responsible for enforcing the provisions of the CSA and DEA regulations that require prescriptions for controlled substances to be issued by a practitioner for a legitimate medical purpose in the usual course of his/her professional practice. However, beyond that context, DEA does not regulate the practice of medicine generally and thus does not have a role in establishing the type of “best practices” to which the commenter refers.

Pain Management and Medical Associations Letters

DEA also received 106 comments that expressed concern that DEA’s proposed reduction of opioids would adversely impact the availability of pain relieving prescription drugs for people with chronic pain. These comments were general in nature, and raised issues of specific medical illnesses and medical treatment, and therefore are outside of the scope of this Final Order. As a result, these comments did not provide new discrete data for consideration, and they do not impact the original analysis involved in establishing the 2020 aggregate production quotas.

DEA sets aggregate production quotas in a manner to ensure that all prescriptions that are authorized for legitimate medical purposes can be filled. Prescribers who are authorized to dispense controlled substances are responsible for adhering to the laws and regulations set forth under the CSA, which require doctors to only write prescriptions for legitimate medical needs. Any practitioner issuing an invalid prescription for controlled substances, and any pharmacy knowingly filling such a prescription, would be in violation of the CSA.

Hearings

Two commenters urged DEA to hold a public hearing to receive feedback from stakeholders. They asked that DEA bring together all stakeholders, allowing

stakeholders to publicly discuss their concerns.

Under the DEA regulations, the decision of whether to grant this type of a hearing on the issues raised by the commenters lies solely within the discretion of the Administrator. (21 CFR 1303.11(c) and 21 CFR 1303.13(c)). I find that neither of the foregoing two requests presented any evidence that would lead me to conclude that a hearing is necessary or warranted. Therefore, I decline to order a hearing on the issues presented by the commenters.

Specific Quota for DEA-Registered Manufacturers

The DEA received comments from five DEA-registered manufacturers regarding twenty-four different schedule I and II controlled substances. Commenters stated the proposed aggregate production quotas for amphetamine (for sale), fentanyl, hydromorphone, methylphenidate, morphine, noroxycodone (for conversion), and oxycodone (for sale) were potentially insufficient to provide for the estimated medical, scientific, research, and industrial needs of the United States, export requirements, and the establishment and maintenance of reserve stocks. Commenters requested the proposed aggregate production quotas for FUB-144, 5F-AB-PINACA, 5F-EDMB-PINACA, 5F-MDMB-PICA, MMB-CHMICA, FUB-AKB48 (FUB-APINACA), 5F-CUMYL-PINACA, 5F-CUMYL-P7AICA, 4-CN-CUMYL-BUTINACA, NM2201, 4-Methyl-alpha-ethylaminopentiophenone (4-MEAP), N-Ethylhexedrone, 4-Chloro-alpha-pyrrolidinovalerophenone (4-Chloro-alpha-PVP), 4'-Methyl-alpha-pyrrolidinohexiophenone (MPHP), N-Ethylpentylone, alpha-Pyrrolidinohexanophenone (alpha-PHP), and alpha-Pyrrolidinoheptaphenone (PV8), be sufficient for additional quota requests.

DEA has considered the comments for specific controlled substances and made adjustments as needed which are described below in the section titled Determination of 2020 Aggregate Production Quotas and Assessment of Annual Needs. DEA received one comment to the proposed established 2020 assessment of annual needs for ephedrine, pseudoephedrine, and phenylpropanolamine regarding the difficulty in procuring finished dosage-forms of ephedrine. DEA has considered this comment in the section regarding drug shortages of controlled substances. This letter characterized the reductions of controlled substances and ephedrine as “extremely problematic for American

healthcare providers,” stating that these reductions will lead to drug shortages, raise drug prices, lead to hardships on hospitals and surgical facilities, and negatively impact patients.

DEA is required under the CSA to establish quotas for ephedrine, pseudoephedrine, and phenylpropanolamine to provide for the estimated medical, scientific, research, and industrial needs of the United States, for lawful export requirements, and for the establishment and maintenance of reserve stocks. Although DEA sets the assessment of annual needs, it is possible that manufacturers’ business practices may lead to a shortage of ephedrine drug products at the consumer level, despite the adequacy of the assessment of annual needs set by DEA. For instance, DEA does not have the authority to dictate when during the calendar year the manufacturer actually utilizes the quota granted to them. Also, DEA cannot dictate how much of the granted quota the manufacturer allocates for use in a single production run. The assessment of annual needs is set by DEA in a manner to include all dosage forms of ephedrine in order to ensure that the estimated medical needs of the United States are met.

Additionally, DEA and FDA can coordinate efforts to prevent or alleviate drug shortages. Such efforts may include adjusting competitors’ domestic or import quotas and completion of FDA approval to increase the number of competitors.

Out of Scope

DEA received comments which addressed issues that are outside the scope of this final order. The comments were general in nature and raised issues of specific medical illnesses, medical treatments, and medication costs and, therefore, are outside of the scope of this Final Order. DEA also received comments asserting that illicit drug use, and not prescription drug use, is the main factor in the opioid crisis. Although DEA is genuinely concerned with illicit drug use and its involvement in the opioid crisis, the manufacturing of illicit substances is not considered when determining the aggregate production quotas because such illicit manufacturing cannot be tempered by adjusting the aggregate production quotas, therefore it is outside the scope of this final order.

All of these out of scope issues do not impact the original analysis involved in establishing the 2020 aggregate production quotas.

Determination of 2020 Aggregate Production Quotas and Assessment of Annual Needs

In determining the 2020 aggregate production quotas and assessment of annual needs, DEA has taken into consideration the above comments along with the factors set forth in 21 CFR 1303.11 and 21 CFR 1315.11, in accordance with 21 U.S.C. 826(a), and other relevant factors, including the 2019 manufacturing quotas, current 2019 sales and inventories, anticipated 2020 export requirements, industrial use, additional applications for 2020 quotas, as well as information on research and product development requirements. Based on all of the above, the Administrator is adjusting the 2020 aggregate production quotas for 4-Methyl-alpha-ethylaminopentiophenone (4-MEAP), N-Ethylhexedrone, 4-Chloro-alpha-pyrrolidinovalerophenone (4-Chloro-alpha-PVP), 4'-Methyl-alpha-pyrrolidinohexiophenone (MHPH), alpha-Pyrrolidinohexanophenone (alpha-PHP), alpha-Pyrrolidinoheptaphenone (PV8), amphetamine (for sale), oxycodone (for sale), and oxymorphone (for sale).

Regarding FUB-144, 5F-AB-PINACA, 5F-EDMB-PINACA, 5F-MDMB-PICCA, MMB-CHMICA, FUB-AKB48 (FUB-

APINACA), 5F-CUMYL-PINACA, 5F-CUMYL-P7AICA, 4-CN-CUMYL-BUTINACA, NM2201, N-Ethylpentylone, fentanyl, hydromorphone, methylphenidate, morphine, noroxymorphone (for conversion), and oxycodone (for sale), DEA has determined the proposed aggregate production quotas and assessment of annual needs are sufficient to provide for the 2020 estimated medical, scientific, research, industrial needs of the United States, export requirements, and the establishment and maintenance of reserve stocks. This final order establishes these aggregate production quotas and assessment of annual needs at the same amounts as proposed.

Estimates of Diversion Pursuant to the SUPPORT Act

The SUPPORT Act (21 U.S.C. 826(i)(1)(a)) requires that "in establishing any quota under this section . . . , for [the covered controlled substances], the Attorney General shall estimate the amount of diversion of the [covered controlled substances] that occurs in the United States." To estimate diversion as is required by the SUPPORT Act, DEA aggregated the active pharmaceutical ingredient (API) of each covered controlled substance by

metric weight where the data was available in the aforementioned databases. Based on the individual entries into the aforementioned databases, DEA calculated the estimated amount of diversion by multiplying the strength of the API listed for each finished dosage form by the total amount of units reported to estimate the metric weight in kilograms of the controlled substance being diverted. The estimate of diversion for each of the covered controlled substances is reported below.

DIVERSION ESTIMATES FOR 2018 (KG)

| | |
|---------------------|--------|
| Fentanyl | 0.109 |
| Hydrocodone | 24.259 |
| Hydromorphone | 1.219 |
| Oxycodone | 57.051 |
| Oxymorphone | 1.157 |

In accordance with 21 U.S.C. 826, 21 CFR 1303.11, and 21 CFR 1315.11, the Administrator hereby establishes the 2020 aggregate production quotas for the following schedule I and II controlled substances and the 2020 assessment of annual needs for the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine, expressed in grams of anhydrous acid or base, as follows:

| Basic class | Established 2020 quotas (g) |
|---|-----------------------------|
| Schedule I | |
| 1-[1-(2-Thienyl)cyclohexyl]pyrrolidine | 20 |
| 1-(1-Phenylcyclohexyl)pyrrolidine | 15 |
| 1-(2-Phenylethyl)-4-phenyl-4-acetoxypiperidine | 10 |
| 1-(5-Fluoropentyl)-3-(1-naphthoyl)indole (AM2201) | 30 |
| 1-(5-Fluoropentyl)-3-(2-iodobenzoyl)indole (AM694) | 30 |
| 1-Benzylpiperazine | 25 |
| 1-Methyl-4-phenyl-4-propionoxypiperidine | 10 |
| 1-[1-(2-Thienyl)cyclohexyl]piperidine | 15 |
| 2-(2,5-Dimethoxy-4-ethylphenyl)ethanamine (2C-E) | 30 |
| 2-(2,5-Dimethoxy-4-methylphenyl)ethanamine (2C-D) | 30 |
| 2-(2,5-Dimethoxy-4-nitro-phenyl)ethanamine (2C-N) | 30 |
| 2-(2,5-Dimethoxy-4-n-propylphenyl)ethanamine (2C-P) | 30 |
| 2-(2,5-Dimethoxyphenyl)ethanamine (2C-H) | 100 |
| 2-(4-Bromo-2,5-dimethoxyphenyl)-N-(2-methoxybenzyl)ethanamine (25B-NBOMe; 2C-B-NBOMe; 25B; Cimbi-36) | 30 |
| 2-(4-Chloro-2,5-dimethoxyphenyl)ethanamine (2C-C) | 30 |
| 2-(4-Chloro-2,5-dimethoxyphenyl)-N-(2-methoxybenzyl)ethanamine (25C-NBOMe; 2C-C-NBOMe; 25C; Cimbi-82) | 25 |
| 2-(4-Iodo-2,5-dimethoxyphenyl)ethanamine (2C-I) | 30 |
| 2-(4-Iodo-2,5-dimethoxyphenyl)-N-(2-methoxybenzyl)ethanamine (25I-NBOMe; 2C-I-NBOMe; 25I; Cimbi-5) | 30 |
| 2,5-Dimethoxy-4-ethylamphetamine (DOET) | 25 |
| 2,5-Dimethoxy-4-n-propylthiophenethylamine | 25 |
| 2,5-Dimethoxyamphetamine (DMA) | 25 |
| 2-[4-(Ethylthio)-2,5-dimethoxyphenyl]ethanamine (2C-T-2) | 30 |
| 2-[4-(Isopropylthio)-2,5-dimethoxyphenyl]ethanamine (2C-T-4) | 30 |
| 3,4,5-Trimethoxyamphetamine | 30 |
| 3,4-Methylenedioxyamphetamine (MDA) | 55 |
| 3,4-Methylenedioxymethamphetamine (MDMA) | 50 |
| 3,4-Methylenedioxy-N-ethylamphetamine (MDEA) | 40 |
| 3,4-Methylenedioxy-N-methylcathinone (methylone) | 40 |
| 3,4-Methylenedioxypropylvalerone (MDPV) | 35 |
| 3-FMC; 3-Fluoro-N-methylcathinone | 25 |
| 3-Methylfentanyl | 30 |
| 3-Methylthiofentanyl | 30 |

| Basic class | Established 2020 quotas (g) |
|--|-----------------------------------|
| 4-Bromo-2,5-dimethoxyamphetamine (DOB) | 30 |
| 4-Bromo-2,5-dimethoxyphenethylamine (2-CB) | 25 |
| 4-Chloro- α -pyrrolidinovalesterophenone (4-chloro- α -PVP) | 25 |
| 4CN-Cumyl-Butanica, 1-(4-Cyanobutyl)-N-(2-phenylpropan-2-yl)-1H-indazole-3-carboximide | 25 |
| 4-Fluoroisobutyl fentanyl | 30 |
| 4-FMC; Flephedrone | 25 |
| 4-MEC; 4-Methyl-N-ethylcathinone | 25 |
| 4-Methoxyamphetamine | 150 |
| 4-Methyl-2,5-dimethoxyamphetamine (DOM) | 25 |
| 4-Methylaminorex | 25 |
| 4-Methyl-N-methylcathinone (mephedrone) | 45 |
| 4-Methyl- α -ethylaminopentiophenone (4-MEAP) | 25 |
| 4-Methyl- α -pyrrolidinohexiophenone (MPHP) | 25 |
| 4-Methyl- α -pyrrolidinopropiophenone (4-MePPP) | 25 |
| 5-(1,1-Dimethylheptyl)-2-[(1R,3S)-3-hydroxycyclohexyl]-phenol | 50 |
| 5-(1,1-Dimethyloctyl)-2-[(1R,3S)-3-hydroxycyclohexyl]-phenol (cannabicyclohexanol or CP-47,497 C8-homolog) | 40 |
| 5F-CUMYL-PINACA | 25 |
| 5F-EDMB-PINACA | 25 |
| 5F-MDMB-PICA | 25 |
| 5F-AB-PINACA; N-(1-amino-3-methyl-1-oxobutan-2-yl)-1-(5-fluoropentyl)-1H-indazole-3-carboxamide | 25 |
| 5F-CUMYL-P7AICA; (1-(5-fluoropentyl)-N-(2-phenylpropan-2-yl)-1H-pyrrolo[2,3-b]pyridine-3-carboximide) | 25 |
| 5F-ADB; 5F-MDMB-PINACA (methyl 2-(1-(5-fluoropentyl)-1H-indazole-3-carboxamido)-3,3-dimethylbutanoate) | 30 |
| 5F-AMB (methyl 2-(1-(5-fluoropentyl)-1H-indazole-3-carboxamido)-3-methylbutanoate) | 30 |
| 5F-APINACA; 5F-AKB48 (N-(adamantan-1-yl)-1-(5-fluoropentyl)-1H-indazole-3-carboxamide) | 30 |
| 5-Fluoro-PB-22; 5F-PB-22 | 20 |
| 5-Fluoro-UR144, XLR11 ([1-(5-fluoro-pentyl)-1H-indol-3-yl]([2,2,3,3-tetramethylcyclopropyl)methanone | 25 |
| 5-Methoxy-3,4-methylenedioxyamphetamine | 25 |
| 5-Methoxy-N,N-diisopropyltryptamine | 25 |
| 5-Methoxy-N,N-dimethyltryptamine | 25 |
| AB-CHMINACA | 30 |
| AB-FUBINACA | 50 |
| AB-PINACA | 30 |
| ADB-FUBINACA (N-(1-amino-3,3-dimethyl-1-oxobutan-2-yl)-1-(4-fluorobenzyl)-1H-indazole-3-carboxamide) | 30 |
| Acetorphine | 25 |
| Acetyl Fentanyl | 100 |
| Acetyl- <i>alpha</i> -methylfentanyl | 30 |
| Acetyldihydrocodeine | 30 |
| Acetylmethadol | 25 |
| Acryl Fentanyl | 25 |
| ADB-PINACA (N-(1-amino-3,3-dimethyl-1-oxobutan-2-yl)-1-pentyl-1H-indazole-3-carboxamide) | 50 |
| AH-7921 | 30 |
| Allylprodine | 25 |
| Alphacetylmethadol | 2 |
| <i>alpha</i> -Ethyltryptamine | 25 |
| Alphameprodine | 2 |
| Alphamethadol | 2 |
| Alphaprodine | 25 |
| <i>alpha</i> -Methylfentanyl | 30 |
| <i>alpha</i> -Methylthiofentanyl | 30 |
| <i>alpha</i> -Methyltryptamine (AMT) | 25 |
| <i>alpha</i> -Pyrrolidinobutiophenone (α -PBP) | 25 |
| <i>alpha</i> -Pyrrolidinoheptaphenone (PV8) | 25 |
| <i>alpha</i> -Pyrrolidinohexanophenone (α -PHP) | 25 |
| <i>alpha</i> -Pyrrolidinopentiophenone (α -PVP) | 25 |
| Aminorex | 25 |
| Anileridine | 20 |
| APINCA, AKB48 (N-(1-adamantyl)-1-pentyl-1H-indazole-3-carboxamide) | 25 |
| Benzethidine | 25 |
| Benzylmorphine | 30 |
| Betacetylmethadol | 2 |
| <i>beta</i> -Hydroxy-3-methylfentanyl | 30 |
| <i>beta</i> -Hydroxyfentanyl | 30 |
| <i>beta</i> -Hydroxythiofentanyl | 30 |
| Betameprodine | 25 |
| Betamethadol | 4 |
| Betaprodine | 25 |
| Bufotenine | 15 |
| Butylone | 25 |
| Butyryl fentanyl | 30 |
| Cathinone | 40 |
| Clonitazene | 25 |

| Basic class | Established 2020 quotas (g) |
|--|-----------------------------------|
| Codeine methylbromide | 30 |
| Codeine-N-oxide | 192 |

The Administrator also establishes aggregate production quotas for all other schedule I and II controlled substances included in 21 CFR 1308.11 and 1308.12 at zero. In accordance with 21

CFR 1303.13 and 21 CFR 1315.13, upon consideration of the relevant factors, the Administrator may adjust the 2020 aggregate production quotas and assessment of annual needs as needed.

Dated: November 27, 2019.

Uttam Dhillon,
Acting Administrator.

BILLING CODE 4410-09-P

DEPARTMENT OF JUSTICE

[OMB Number 1121-0311]

Agency Information Collection Activities; Proposed eCollection eComments Requested; Reinstatement, With Change, of Previously Approved Collection: National Inmate Survey in Prisons (NIS-4P)**AGENCY:** Bureau of Justice Statistics, Department of Justice.**ACTION:** 60-Day notice.

SUMMARY: The Department of Justice (DOJ), Office of Justice Programs, Bureau of Justice Statistics, will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

DATES: Comments are encouraged and will be accepted for 60 days until January 31, 2020.

FOR FURTHER INFORMATION CONTACT: If you have additional comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Amy Lauger, Supervisory Statistician, Institutional Research and Special Projects Unit, Bureau of Justice Statistics, 810 Seventh Street NW, Washington, DC 20531 (email: Amy.Lauger@ojp.usdoj.gov; telephone: 202-307-0711).

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether, and if so how, the quality, utility, and clarity of the

information to be collected can be enhanced; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Overview of this information collection:

1 *Type of Information Collection:* Reinstatement, with change, of a previously approved collection.

2 *The Title of the Form/Collection:* National Inmate Survey in Prisons (NIS-4P).

3 *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* There is no agency form number at this time. The applicable component within the Department of Justice is the Bureau of Justice Statistics, in the Office of Justice Programs.

4 *Affected public who will be asked or required to respond, as well as a brief abstract:* Respondents will primarily be State, Local, or Tribal Government entities. The work under this clearance will be used to produce estimates for the incidence and prevalence of sexual victimization within correctional facilities as required under the Prison Rape Elimination Act of 2003 (Pub. L. 108-79). The Bureau of Justice Statistics uses this information in published reports and for the U.S. Congress, Executive Office of the President, practitioners, researchers, students, the media, and others interested in criminal justice statistics.

In 2003, the Prison Rape Elimination Act (PREA or the Act) was signed into law. The Act requires BJS to “carry out, for each calendar year, a comprehensive statistical review and analysis of the incidence and effects of prison rape.” The Act further instructs BJS to collect survey data: “. . . the Bureau shall . . . use surveys and other statistical studies of current and former inmates . . .”

To implement the Act, BJS developed the National Prison Rape Statistics Program (NPRS), which includes four separate data collection efforts: The Survey on Sexual Violence (SSV), the National Inmate Survey (NIS), the National Survey of Youth in Custody (NSYC), and the National Former Prisoner Survey (NFPS). The NIS

collects information on sexual victimization self-reported by inmates held in adult correctional facilities, both prisons and jails. The NIS has been conducted three times, in 2007 (NIS-1), in 2008-09 (NIS-2), and in 2011-12 (NIS-3). Each iteration of NIS was conducted in at least one facility in all 50 states and the District of Columbia. In each iteration of the survey, inmates completed the survey using an audio computer-assisted self-interview (ACASI), whereby they heard questions and instructions via headphones and responded to the survey items via a touch-screen interface.

The collection requested in this notice is the fourth iteration of the National Inmate Survey. For NIS-4, administration of the survey in prisons will take place separately from survey administration in jails. This collection request is specific to conducting the survey in adult prison facilities.

The survey instrument for the NIS-4 in Prisons is slightly modified from the previous iterations. The main difference is the addition of a new set of incident-specific questions administered to respondents who affirmatively indicate they were sexually victimized at some point in the previous 12 months while housed in their current prison facility. These incident-specific questions will provide information to the public on the nature of sexual victimization in prisons, such as where incidents occurred within the facility, the relationship between the victim and the alleged perpetrator(s), and whether the victim suffered any injuries as a result of the incident, among other incident characteristics.

5 *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* Prior to data collection commencing in 2020, BJS will coordinate the logistics of NIS-4 survey administration with staff at state, local, and tribal correction facilities. Because the administration of this survey in jails is not included in this request, the overall number of burden hours is lower than in the last request approved in 2010 (the jail survey will be submitted under a new OMB number). It is estimated that 150 facility respondents will devote 180 minutes of time to this coordination effort. During data collection in 2020, 77,000 state, local, and tribal adult inmates held in prisons

will be interviewed, with the average interview lasting an estimated 35 minutes.

6 *An estimate of the total public burden (in hours) associated with the collection:* This collection was previously approved for implementation in both adult prisons and jails. The current request will only be implemented in adult prisons, thereby reducing the total number of facility staff and respondents required to participate. The total estimated NIS-4 public burden, inclusive of facility staff and respondent burden estimates, is 45,367 hours. This comprises 450 hours of facility staff burden and 44,917 hours of respondent interviewing burden.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Dated: November 26, 2019.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410-18-P

DEPARTMENT OF LABOR

Wage and Hour Division

Notice of Approved Agency Information Collection; Information Collection: Records to be Kept by Employers—Fair Labor Standards Act

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA), the Wage and Hour Division (WHD) is providing notice to the public that the WHD sponsored information collection request (ICR) titled, “Records to be Kept by Employers—Fair Labor Standards Act,” has been approved by the Office of Management and Budget (OMB). WHD is notifying the public that the information collection has been revised and extended effective immediately through November 30, 2022.

DATES: The OMB approval of the revision and extension of this information collection is effective immediately with an expiration date of November 30, 2022.

FOR FURTHER INFORMATION CONTACT: Robert Waterman, Division of Regulations, Legislation, and Interpretations, Wage and Hour, U.S. Department of Labor, Room S-3502, 200

Constitution Avenue NW, Washington, DC 20210; telephone: (202) 693-0406 (this is not a toll-free number) or by sending an email to WHDPRAComments@dol.gov. Copies of this notice may be obtained in alternative formats (Large Print, Braille, Audio Tape or Disc), upon request, by calling (202) 693-0023 (not a toll-free number). TTY/TDD callers may dial toll-free (877) 889-5627 to obtain information or request materials in alternative formats.

SUPPLEMENTARY INFORMATION: The Department of Labor submitted a proposed revision to the information collection titled: Records to be Kept by Employers—Fair Labor Standards Act (OMB Control Number 1235-0018), in conjunction with a Notice of Proposed Rulemaking (NPRM). This NPRM proposed updating and revising the regulations issued under the Fair Labor Standards Act implementing the exemptions from minimum wage and overtime pay requirements for executive, administrative, professional, outside sales, and computer employees (RIN 1235-AA20, “Defining and Delimiting the Exemptions for Executive, Administrative, Professional, Outside Sales and Computer Employees.”) The NPRM published in the **Federal Register** on March 22, 2019 (84 FR 10900). OMB asked the Department to resubmit the information collection request upon promulgation of the final rule and after considering public comments on the proposed rule. On September 27, 2019, the Department published the final rule, “Defining and Delimiting the Exemptions for Executive, Administrative, Professional, Outside Sales and Computer Employees” (84 FR 51230), and submitted to OMB for approval a revision to this ICR, “Records to be Kept by Employers—Fair Labor Standards Act.” OMB authorization for an ICR cannot be for more than three (3) years without renewal and the approval for this collection was scheduled to expire on December 31, 2019. As a result, the Department submitted the revised burden estimates associated with the final rule and sought to extend PRA authorization for the information collection for three (3) more years. The Department provided notice of the submission of the information collection to OMB in the **Federal Register** on September 27, 2019 (84 FR 51179).

On November 19, 2019, the OMB issued a Notice of Action approving the revision and extension of this information collection under OMB Control Number 1235-0018. Section (k) of 5 CFR 1320.11, “Clearance of

Collections of Information in Proposed Rules” states, “After receipt of notification of OMB’s approval, instruction to make a substantive or material change to, disapproval of a collection of information, or failure to act, the agency shall publish a notice in the **Federal Register** to inform the public of OMB’s decision.” This notice fulfills the Department’s obligation to notify the public of OMB’s approval of the information collection request.

Dated: November 25, 2019.

Amy DeBisschop,

Director, Division of Regulations, Legislation, and Interpretation.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Federal Council on the Arts and the Humanities

Arts and Artifacts Indemnity Panel Advisory Committee

AGENCY: Federal Council on the Arts and the Humanities; National Endowment for the Humanities; National Foundation on the Arts and the Humanities.

ACTION: Notice of Charter Renewal for Arts and Artifacts Indemnity Panel advisory committee.

SUMMARY: The Federal Council on the Arts and the Humanities (the Council) gives notice that the Charter for the Arts and Artifacts Indemnity Panel advisory committee was renewed for an additional two-year period on November 22, 2019.

FOR FURTHER INFORMATION CONTACT: Elizabeth Voyatzis, Committee Management Officer, 400 Seventh Street SW, Washington, DC 20506. Telephone: (202) 606–8322, facsimile (202) 606–8600, or email at gencounsel@neh.gov. Hearing-impaired individuals are advised that information on this matter may be obtained by contacting the National Endowment for the Humanities’ TDD terminal at (202) 606–8282.

SUPPLEMENTARY INFORMATION: Pursuant to section 9(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App.) and its implementing regulations, 31 CFR 102–3.65, the Council gives notice that the Charter for the Arts and Artifacts Indemnity Panel advisory committee was renewed for an additional two-year period on November 22, 2019. The Council determined that the renewal of the Arts and Artifacts Indemnity Panel is necessary and in the public interest in connection with the performance of duties imposed upon the Council by the Arts and Artifacts Indemnity Act, 20 U.S.C. 971 *et seq.*, as amended.

Elizabeth Voyatzis,

Committee Management Officer, National Endowment for the Humanities.

BILLING CODE 7536–01–P

NATIONAL SCIENCE FOUNDATION (NSF)

Sunshine Act Meetings; National Science Board

The National Science Board (NSB), pursuant to NSF regulations (45 CFR part 614), the National Science Foundation Act, as amended, (42 U.S.C. 1862n–5), and the Government in the Sunshine Act (5 U.S.C. 552b), hereby gives an update to the scheduling of a previously noticed meeting for the transaction of NSB business as described below. The meeting was originally noticed in the **Federal Register** on November 18, 2019 at 84 FR 63680–81.

TIME AND DATE: The final session of the meeting on Wednesday, November 20, 2019 from 1:00 p.m. to 1:30 p.m. EST, a plenary open session, was to be held in the boardroom on the 2nd floor of the NSF headquarters, 2415 Eisenhower Avenue, Alexandria, VA 22314. However, a fire alarm required NSF and NSB staff to evacuate that floor just as the session was to begin. Because most NSB members had airplane flights leaving shortly after the meeting was to end, the NSB members and other staff gathered in the lobby of a nearby hotel and conducted the session. One of the items was time-sensitive and the vote could not practically be rescheduled in a timely way.

Plenary Board

Open Session: 1:00–1:30 p.m.

- NSB Chair’s Opening Remarks
- Approval of Prior Minutes
- Open Committee Reports
- Vote on Merit Review Digest
- Votes on OIG Semiannual Report and NSF Management Response
- NSB Chair’s Closing Remarks

The agenda items were covered as indicated. An audio recording of the session is available upon request.

CONTACT PERSONS FOR MORE INFORMATION:

The contact for a copy of the audio file is NSB Counsel Ann Bushmiller, abushmil@nsf.gov, 703/292–7000. The NSB Office contact is Brad Gutierrez, bgutierr@nsf.gov, 703/292–7000.

Chris Blair,

Executive Assistant to the National Science Board Office.

BILLING CODE 7590-01-P**POSTAL REGULATORY COMMISSION****[Docket Nos. MC2020-36 and CP2020-34]****New Postal Product****AGENCY:** Postal Regulatory Commission.**ACTION:** Notice.**SUMMARY:** The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning a negotiated service agreement. This notice informs the public of the filing, invites public comment, and takes other administrative steps.**DATES:** *Comments are due:* December 3, 2019.**ADDRESSES:** Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.**FOR FURTHER INFORMATION CONTACT:**

David A. Trissell, General Counsel, at 202-789-6820.

SUPPLEMENTARY INFORMATION:**Table of Contents**

- I. Introduction
- II. Docketed Proceeding(s)

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the market dominant or the competitive product list, or the modification of an existing product currently appearing on the market dominant or the competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3007.301.¹

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern market dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3010, and 39 CFR part 3020, subpart B. For request(s) that the Postal Service states concern competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3015, and 39 CFR part 3020, subpart B. Comment deadline(s) for each request appear in section II.

II. Docketed Proceeding(s)

1. *Docket No(s).*: MC2020-36 and CP2020-34; *Filing Title:* USPS Request to Add Priority Mail Express & Priority Mail Contract 106 to Competitive Product List and Notice of Filing

¹ See Docket No. RM2018-3, Order Adopting Final Rules Relating to Non-Public Information, June 27, 2018, Attachment A at 19-22 (Order No. 4679).

Materials Under Seal; *Filing Acceptance Date*: November 22, 2019; *Filing Authority*: 39 U.S.C. 3642, 39 CFR 3020.30 *et seq.*, and 39 CFR 3015.5; *Public Representative*: Christopher C. Mohr; *Comments Due*: December 3, 2019.

This Notice will be published in the **Federal Register**.

Darcie S. Tokioka,

Acting Secretary.

BILLING CODE 7710-FW-P

RAILROAD RETIREMENT BOARD

2020 Railroad Experience Rating Proclamations, Monthly Compensation Base and Other Determinations

AGENCY: Railroad Retirement Board.

ACTION: Notice.

SUMMARY: As required by the Railroad Unemployment Insurance Act (Act), the Railroad Retirement Board (RRB) hereby publishes its notice for calendar year 2020 of account balances, factors used in calculating experience-based employer contribution rates, computation of amounts related to the monthly compensation base, and the maximum daily benefit rate for days of unemployment or sickness.

DATES: The balance in notice (1) and the determinations made in notices (3) through (7) are based on data as of June 30, 2019. The balance in notice (2) is based on data as of September 30, 2019. The determinations made in notices (5) through (7) apply to the calculation, under section 8(a)(1)(C) of the Act, of employer contribution rates for 2020. The determinations made in notices (8) through (11) are effective January 1, 2020. The determination made in notice (12) is effective for registration periods beginning after June 30, 2020.

ADDRESSES: Secretary to the Board, Railroad Retirement Board, 844 N. Rush Street, Chicago, Illinois 60611-1275.

FOR FURTHER INFORMATION CONTACT: Michael J. Rizzo, Bureau of the Actuary and Research, Railroad Retirement Board, 844 N. Rush Street, Chicago, Illinois 60611-1275, telephone (312) 751-4771.

SUPPLEMENTARY INFORMATION: The RRB is required by section 8(c)(1) of the Railroad Unemployment Insurance Act (Act) (45 U.S.C. 358(c)(1)) as amended by Public Law 100-647, to proclaim by October 15 of each year certain system-wide factors used in calculating experience-based employer contribution rates for the following year. The RRB is further required by section 8(c)(2) of the

Act (45 U.S.C. 358(c)(2)) to publish the amounts so determined and proclaimed. The RRB is required by section 12(r)(3) of the Act (45 U.S.C. 362(r)(3)) to publish by December 11, 2019, the computation of the calendar year 2020 monthly compensation base (section 1(i) of the Act) and amounts described in sections 1(k), 2(c), 3 and 4(a-2)(i)(A) of the Act which are related to changes in the monthly compensation base. Also, the RRB is required to publish, by June 11, 2020, the maximum daily benefit rate under section 2(a)(3) of the Act for days of unemployment and days of sickness in registration periods beginning after June 30, 2020. Pursuant to section 8(c)(2) and section 12(r)(3) of the Railroad Unemployment Insurance Act (Act) (45 U.S.C. 358(c)(2) and 45 U.S.C. 362(r)(3), respectively), the Board gives notice of the following:

1. The balance to the credit of the Railroad Unemployment Insurance (RUI) Account, as of June 30, 2019, is \$157,488,983.12;
2. The September 30, 2019, balance of any new loans to the RUI Account, including accrued interest, is zero;
3. The system compensation base is \$4,207,873,508.12 as of June 30, 2019;
4. The cumulative system unallocated charge balance is (\$443,788,751.14) as of June 30, 2019;
5. The pooled credit ratio for calendar year 2020 is zero;
6. The pooled charged ratio for calendar year 2020 is zero;
7. The surcharge rate for calendar year 2020 is zero;
8. The monthly compensation base under section 1(i) of the Act is \$1,655 for months in calendar year 2020;
9. The amount described in sections 1(k) and 3 of the Act as “2.5 times the monthly compensation base” is \$4,137.50 for base year (calendar year) 2020;
10. The amount described in section 4(a-2)(i)(A) of the Act as “2.5 times the monthly compensation base” is \$4,137.50 with respect to disqualifications ending in calendar year 2020;
11. The amount described in section 2(c) of the Act as “an amount that bears the same ratio to \$775 as the monthly compensation base for that year as computed under section 1(i) of this Act bears to \$600” is \$2,138 for months in calendar year 2020;
12. The maximum daily benefit rate under section 2(a)(3) of the Act is \$80 with respect to days of unemployment and days of sickness in registration periods beginning after June 30, 2020.

Surcharge Rate

A surcharge is added in the calculation of each employer's contribution rate, subject to the applicable maximum rate, for a calendar year whenever the balance to the credit of the RUI Account on the preceding June 30 is less than the greater of \$100 million or the amount that bears the same ratio to \$100 million as the system compensation base for that June 30 bears to the system compensation base as of June 30, 1991. If the RUI Account balance is less than \$100 million (as indexed), but at least \$50 million (as indexed), the surcharge will be 1.5 percent. If the RUI Account balance is less than \$50 million (as indexed), but greater than zero, the surcharge will be 2.5 percent. The maximum surcharge of 3.5 percent applies if the RUI Account balance is less than zero.

The ratio of the June 30, 2019 system compensation base of \$4,207,873,508.12 to the June 30, 1991 system compensation base of \$2,763,287,237.04 is 1.52277818. Multiplying 1.52277818 by \$100 million yields \$152,277,818.00. Multiplying \$50 million by 1.52277818 produces \$76,138,909.00. The Account balance on June 30, 2019, was \$157,488,983.12. Accordingly, the surcharge rate for calendar year 2020 is zero.

Monthly Compensation Base

For years after 1988, section 1(i) of the Act contains a formula for determining the monthly compensation base. Under the prescribed formula, the monthly compensation base increases by approximately two-thirds of the cumulative growth in average national wages since 1984. The monthly compensation base for months in calendar year 2020 shall be equal to the greater of (a) \$600 or (b) \$600 [1 + {(A-37,800)/56,700}], where A equals the amount of the applicable base with respect to tier 1 taxes for 2020 under section 3231(e)(2) of the Internal Revenue Code of 1986. Section 1(i) further provides that if the amount so determined is not a multiple of \$5, it shall be rounded to the nearest multiple of \$5.

Using the calendar year 2020 tier 1 tax base of \$137,700 for A above produces the amount of \$1,657.14, which must then be rounded to \$1,655. Accordingly, the monthly compensation base is determined to be \$1,655 for months in calendar year 2020.

Amounts Related to Changes in Monthly Compensation Base

For years after 1988, sections 1(k), 3, 4(a-2)(i)(A) and 2(c) of the Act contain

formulas for determining amounts related to the monthly compensation base.

Under section 1(k), remuneration earned from employment covered under the Act cannot be considered subsidiary remuneration if the employee's base year compensation is less than 2.5 times the monthly compensation base for months in such base year. Under section 3, an employee shall be a "qualified employee" if his/her base year compensation is not less than 2.5 times the monthly compensation base for months in such base year. Under section 4(a-2)(i)(A), an employee who leaves work voluntarily without good cause is disqualified from receiving unemployment benefits until he has been paid compensation of not less than 2.5 times the monthly compensation base for months in the calendar year in which the disqualification ends.

Multiplying 2.5 by the calendar year 2020 monthly compensation base of \$1,655 produces \$4,137.50. Accordingly, the amount determined under sections 1(k), 3 and 4(a-2)(i)(A) is \$4,137.50 for calendar year 2020.

Under section 2(c), the maximum amount of normal benefits paid for days of unemployment within a benefit year and the maximum amount of normal benefits paid for days of sickness within a benefit year shall not exceed an employee's compensation in the base year. In determining an employee's base year compensation, any money remuneration in a month not in excess of an amount that bears the same ratio to \$775 as the monthly compensation base for that year bears to \$600 shall be taken into account.

The calendar year 2020 monthly compensation base is \$1,655. The ratio of \$1,655 to \$600 is 2.75833333. Multiplying 2.75833333 by \$775 produces \$2,138. Accordingly, the amount determined under section 2(c) is \$2,138 for months in calendar year 2020.

Maximum Daily Benefit Rate

Section 2(a)(3) contains a formula for determining the maximum daily benefit rate for registration periods beginning after June 30, 1989, and after each June 30 thereafter. Legislation enacted on October 9, 1996, revised the formula for indexing maximum daily benefit rates. Under the prescribed formula, the maximum daily benefit rate increases by approximately two-thirds of the cumulative growth in average national wages since 1984. The maximum daily benefit rate for registration periods beginning after June 30, 2020, shall be equal to 5 percent of the monthly compensation base for the base year

immediately preceding the beginning of the benefit year. Section 2(a)(3) further provides that if the amount so computed is not a multiple of \$1, it shall be rounded down to the nearest multiple of \$1.

The calendar year 2019 monthly compensation base is \$1,605. Multiplying \$1,605 by 0.05 yields \$80.25. Accordingly, the maximum daily benefit rate for days of unemployment and days of sickness beginning in registration periods after June 30, 2020, is determined to be \$80.

By Authority of the Board.

Stephanie Hillyard,

Secretary to the Board.

BILLING CODE 7905-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33-10729; 34-87628; File No. 265-32]

SEC Small Business Capital Formation Advisory Committee; Meeting

AGENCY: Securities and Exchange Commission.

ACTION: Notice of meeting.

SUMMARY: The Securities and Exchange Commission Small Business Capital Formation Advisory Committee, established pursuant to Section 40 of the Securities Exchange Act of 1934 as added by the SEC Small Business Advocate Act of 2016, is providing notice that it will hold a public telephone meeting. The public is invited to submit written statements to the Committee.

DATES: The meeting will be held on Wednesday, December 11, 2019, from 11:00 a.m. to 12:30 p.m. (ET) and will be open to the public. Written statements should be received on or before December 11, 2019.

ADDRESSES: Members of the public may attend the meeting by listening to the audiocast accessible on the Commission's website at www.sec.gov. Written statements may be submitted by any of the following methods:

Electronic Statements

- Use the Commission's internet submission form (<http://www.sec.gov/rules/other.shtml>); or
- Send an email message to rule-comments@sec.gov. Please include File Number 265-32 on the subject line; or

Paper Statements

- Send paper statements to Vanessa A. Countryman, Secretary, Securities

and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File No. 265-32. This file number should be included on the subject line if email is used. To help us process and review your statement more efficiently, please use only one method. The Commission will post all statements on the SEC's website at www.sec.gov.

Statements also will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. (ET). All statements received will be posted without change; we do not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.

FOR FURTHER INFORMATION CONTACT: Julie Z. Davis, Senior Special Counsel, Office of the Advocate for Small Business Capital Formation, at (202) 551-5407, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-3628.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public. Persons needing special accommodations because of a disability should notify the contact person listed in the section above entitled **FOR FURTHER INFORMATION CONTACT**. The agenda for the meeting includes matters relating to rules and regulations affecting small and emerging companies under the federal securities laws.

Dated: November 26, 2019.

Eduardo A. Aleman,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87618; File No. SR-NYSE-2019-28]

Self-Regulatory Organizations; NYSE National, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Adopt New NYSE National Rule 11.5190

November 25, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 20, 2019, NYSE National, Inc. ("NYSE National" or "Exchange") filed with the

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to adopt new NYSE National Rule 11.5190 that is substantially the same as Financial Industry Regulatory Authority (“FINRA”) Rule 5190. The proposed rule change is intended to harmonize Exchange rules with the rules of the Exchange’s affiliates and FINRA and thus promote consistency within the securities industry. The proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to adopt new NYSE National Rule 11.5190 that is substantially the same as FINRA Rule 5190.³ The proposed rule change will further harmonize the Exchange’s rules

³ See Securities Exchange Act Release No. 58514 (September 11, 2008), 73 FR 54190 (September 18, 2008) (SR-FINRA-2008-039). The Exchange’s affiliates, New York Stock Exchange LLC (“NYSE”), NYSE American LLC (“NYSE American”), and NYSE Arca, Inc. (“NYSE Arca”), previously adopted versions of FINRA Rule 5190. See Securities Exchange Act Release No. 59965 (May 21, 2009), 74 FR 25783 (May 29, 2009) (SR-NYSE-2009-25); Securities Exchange Act Release No. 59975 (May 26, 2009), 74 FR 26449 (June 2, 2009) (SR-NYSEALTR-2009-26); and Securities Exchange Act Release No. 66311 (February 2, 2012), 77 FR 6613 (February 8, 2012) (SR-NYSEArca-2012-07).

with the rules of FINRA and the Exchange’s affiliates. The Exchange believes the proposed rule change will help reduce duplicative reporting requirements for ETP Holders who are also FINRA members, NYSE or NYSE American member organizations, and/or NYSE Arca ETP Holders because ETP Holders will not be required to submit an additional Regulation M notification to the Exchange if they have already provided a notification to FINRA, NYSE, or NYSE American pursuant to their respective rules.

Proposed Rule Change

The Exchange proposes to adopt Regulation M-related notification rules harmonized with the rules of FINRA, NYSE, NYSE American and NYSE Arca both to provide uniformity in the marketplace as well as to reduce duplicative reporting obligations for the same subject matter. The Exchange accordingly proposes to adopt new Rule 11.5190, which is based on FINRA Rule 5190, NYSE Rule 5190, NYSE American Rule 5190—Equities, and NYSE Arca Rule 9.5190—E.

Proposed Rule 11.5190 would require, in part, that an ETP Holder acting as a manager (or in a similar capacity) of an offering to provide the following information:

- The ETP Holder’s determination as to whether a one-day or five-day restricted period applies under Rule 101 of SEC Regulation M and the basis for such determination, including the contemplated date and time of the commencement of the restricted period, the listed security name and symbol, and identification of the distribution participants and affiliated purchasers, no later than the business day prior to the first complete trading session of the applicable restricted period, unless later notification is necessary under specific circumstances;
- the pricing of the distribution, including the listed security name and symbol, the type of security, the number of shares offered, the offering price, the last sale before the distribution, the pricing basis, the SEC effective date and time, the trade date, the restricted period, and identification of the distribution participants and affiliated purchasers, no later than the close of business the next business day following the pricing of the distribution, unless later notification is necessary under specific circumstances; and
- the cancellation or postponement of any distribution for which prior notification of commencement of the restricted period has been submitted under paragraph (c)(1)(A), immediately upon the cancellation or postponement

of such distribution. If no ETP Holder is acting as a manager (or in a similar capacity) of such distribution, then each ETP Holder that is a distribution participant or affiliated purchaser shall provide the notice required under paragraph (c)(1), unless another ETP Holder has assumed responsibility in writing for compliance therewith.

Proposed Rule 11.5190 is substantially similar to FINRA Rule 5190, except that the term “member” has been replaced with “ETP Holder” throughout to reflect the Exchange’s membership. Also, in proposed subsection (e), the Exchange proposes to replace “OTC Security” with “security” and add the phrase “stabilizing bids” to the first sentence. These changes are consistent with NYSE Rule 5190(e), NYSE American Rule 5190(e)—Equities, and NYSE Arca Rule 9.5190—E.

Consistent with current practice that notifications “to the Exchange” are submitted directly to FINRA,⁴ notification under proposed Rule 11.5190 may be satisfied by making an electronic submission through the secure FINRA website at <https://firms.finra.org>.⁵ Further, because notifications submitted pursuant to FINRA Rule 5190 or the rules of the Exchange’s affiliates will meet the requirements of proposed Rule 11.5190, such notifications will also satisfy the notification requirements of proposed Rule 11.5190. ETP Holders will therefore not need to make duplicative filings to the Exchange if notifications have been submitted to FINRA pursuant to FINRA rules or the rules of the Exchange’s affiliates.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 (the “Act”),⁶ in general, and furthers the objectives of Section 6(b)(5),⁷ in particular, because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to, and perfect the mechanism of, a free and open market and a national market system and, in

⁴ Under Exchange Rule 0, ETP Holders required to submit notifications to the Exchange may submit such notifications to FINRA departments acting on the Exchange’s behalf.

⁵ The filing process is described in FINRA Regulatory Notice 12-19 (June 4, 2012), available at <https://www.finra.org/rules-guidance/notices/12-19>.

⁶ 15 U.S.C. 78f(b).

⁷ 15 U.S.C. 78f(b)(5).

general, to protect investors and the public interest.

The Exchange believes that the proposed rule change will harmonize its rules with the rules of FINRA and the Exchange's affiliates. The Exchange accordingly believes that the proposed rule change supports the objectives of the Act by providing greater harmonization between Exchange Rules and FINRA Rules of similar purpose, resulting in less burdensome and more efficient regulatory compliance for dual members of both self-regulatory organizations ("SROs"). To the extent the Exchange has proposed changes that differ from the FINRA version of the rules, such changes are technical in nature and do not change the substance of the proposed Rule.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposal is intended to harmonize the Exchange's rules with the rules of other SROs with respect to Regulation M compliance. The Exchange believes that any burden on competition would be clearly outweighed by the important regulatory goal of ensuring clear and consistent requirements applicable across SROs, avoiding duplication, and mitigating any risk of SROs implementing different standards in these important areas. Further, the proposed changes would apply to all ETP Holders in the same manner and therefore would not impose any unnecessary intramarket burdens.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act⁸ and Rule 19b-4(f)(6) thereunder.⁹ Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the

Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6)(iii) thereunder.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁰ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NYSENAT-2019-28 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.
- All submissions should refer to File Number SR-NYSENAT-2019-28. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and

printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSENAT-2019-28, and should be submitted on or before December 23, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹

Jill M. Peterson,

Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87606; File No. SR-MIAX-2019-47]

Self-Regulatory Organizations; Miami International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Rule 510, Minimum Price Variations and Minimum Trading Increments To Extend the Penny Pilot Program

November 25, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 13, 2019, Miami International Securities Exchange, LLC ("MIAX Options" or the "Exchange") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend Rule 510, Minimum Price Variations and Minimum Trading

¹¹ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

⁸ 15 U.S.C. 78s(b)(3)(A)(iii).

⁹ 17 CFR 240.19b-4(f)(6).

¹⁰ 15 U.S.C. 78s(b)(2)(B).

Increments, Interpretation and Policy .01 to extend the pilot program for the quoting and trading of certain options in pennies.

The text of the proposed rule change is available on the Exchange's website at <http://www.miaxoptions.com/rule-filings/> at MIAX Options' principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is a participant in an industry-wide pilot program that provides for the quoting and trading of certain option classes in penny increments (the "Penny Pilot Program" or "Program"). The Penny Pilot Program allows the quoting and trading of certain option classes in minimum increments of \$0.01 for all series in such option classes with a price of less than \$3.00; and in minimum increments of \$0.05 for all series in such option classes with a price of \$3.00 or higher. Options overlying the PowerShares QQQ™ ("QQQ"), SPDR® S&P 500® ETF ("SPY"), and iShares® Russell 2000 ETF ("IWM"), however, are quoted and traded in minimum increments of \$0.01 for all series regardless of the price. The Penny Pilot Program was initiated at the then existing option exchanges in January 2007³ and currently includes more than 300 of the most active option classes. The Penny Pilot Program is currently scheduled to expire on

December 31, 2019.⁴ The purpose of the proposed rule change is to extend the Penny Pilot Program in its current format through June 30, 2020.

2. Statutory Basis

The Exchange believes that its proposed rule change is consistent with Section 6(b) of the Act⁵ in general, and furthers the objectives of Section 6(b)(5) of the Act⁶ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

In particular, the proposed rule change, which extends the Penny Pilot Program for six months, allows the Exchange to continue to participate in a program that has been viewed as beneficial to traders, investors and public customers and viewed as successful by the other options exchanges participating in it.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the Exchange believes that, by extending the expiration of the Pilot Program, the proposed rule change will allow for further analysis of the Penny Pilot Program and a determination of how the Program should be structured in the future. In doing so, the proposed rule change will also serve to promote regulatory clarity and consistency, thereby reducing burdens on the marketplace, facilitating investor protection, and fostering a competitive environment. In addition, consistent with previous practices, the Exchange believes the other options exchanges will be filing similar extensions of the Penny Pilot Program.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to 19(b)(3)(A) of the Act⁷ and Rule 19b-4(f)(6)⁸ thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-MIAX-2019-47 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-MIAX-2019-47. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87609; File No. SR-PEARL-2019-34]

Self-Regulatory Organizations; MIAX PEARL, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Rule 510, Minimum Price Variations and Minimum Trading Increments To Extend the Penny Pilot Program

November 25, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 13, 2019, MIAX PEARL, LLC ("MIAX PEARL" or the "Exchange") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange.

⁹ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend Rule 510, Minimum Price Variations and Minimum Trading Increments, Interpretation and Policy .01 to extend the pilot program for the quoting and trading of certain options in pennies.

The text of the proposed rule change is available on the Exchange's website at <http://www.miaxoptions.com/rule-filings/pearl>, at MIAX PEARL's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is a participant in an industry-wide pilot program that provides for the quoting and trading of certain option classes in penny increments (the "Penny Pilot Program" or "Program"). The Penny Pilot Program allows the quoting and trading of certain option classes in minimum increments of \$0.01 for all series in such option classes with a price of less than \$3.00; and in minimum increments of \$0.05 for all series in such option classes with a price of \$3.00 or higher. Options overlying the PowerShares QQQTM ("QQQ"), SPDR[®] S&P 500[®] ETF ("SPY"), and iShares[®] Russell 2000 ETF ("IWM"), however, are quoted and traded in minimum increments of \$0.01 for all series regardless of the price. The Penny Pilot Program was initiated at the then existing option exchanges in January 2007³ and currently includes

³ See Securities Exchange Act Release Nos. 55154 (January 23, 2007), 72 FR 4743 (February 1, 2007)

more than 300 of the most active option classes. The Penny Pilot Program is currently scheduled to expire on December 31, 2019.⁴ The purpose of the proposed rule change is to extend the Penny Pilot Program in its current format through June 30, 2020.

2. Statutory Basis

The Exchange believes that its proposed rule change is consistent with Section 6(b) of the Act⁵ in general, and furthers the objectives of Section 6(b)(5) of the Act⁶ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

In particular, the proposed rule change, which extends the Penny Pilot Program for six months, allows the Exchange to continue to participate in a program that has been viewed as beneficial to traders, investors and public customers and viewed as successful by the other options exchanges participating in it.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the Exchange believes that, by extending the expiration of the Pilot Program, the proposed rule change will allow for further analysis of the Penny Pilot Program and a determination of how the Program should be structured in the future. In doing so, the proposed rule change will also serve to promote regulatory clarity and consistency, thereby reducing burdens on the marketplace, facilitating investor protection, and fostering a competitive environment. In addition, consistent with previous practices, the Exchange

(SR-CBOE-2006-92); 55161 (January 24, 2007), 72 FR 4754 (February 1, 2007) (SR-ISE-2006-62); 54886 (December 6, 2006), 71 FR 74979 (December 13, 2006) (SR-Phlx-2006-74); 54590 (October 12, 2006), 71 FR 61525 (October 18, 2006) (SR-NYSEArca-2006-73); and 54741 (November 9, 2006), 71 FR 67176 (November 20, 2006) (SR-Amex-2006-106).

⁴ See Securities Exchange Act Release No. 86049 (June 6, 2019), 84 FR 27381 (June 12, 2019) (SR-PEARL-2019-20) (extending the Penny Pilot Program from June 30, 2019 to December 31, 2019).

⁵ 15 U.S.C. 78f(b).

⁶ 15 U.S.C. 78f(b)(5).

believes the other options exchanges will be filing similar extensions of the Penny Pilot Program.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to 19(b)(3)(A) of the Act⁷ and Rule 19b-4(f)(6)⁸ thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-PEARL-2019-34 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-PEARL-2019-34. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-PEARL-2019-34 and should be submitted on or before December 23, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁹

Eduardo A. Aleman,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87620; File No. SR-NYSECHX-2019-22]

Self-Regulatory Organizations; NYSE Chicago, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Adopt New NYSE Chicago Rule 11.5190

November 25, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 20, 2019, the NYSE Chicago, Inc. (“NYSE Chicago” or “Exchange”) filed

with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to adopt new NYSE Chicago Rule 11.5190 that is substantially the same as Financial Industry Regulatory Authority (“FINRA”) Rule 5190. The proposed rule change is intended to harmonize Exchange rules with the rules of the Exchange’s affiliates and FINRA and thus promote consistency within the securities industry. The proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to adopt new NYSE Chicago Rule 11.5190 that is substantially the same as FINRA Rule 5190.³ The proposed rule change will

³ See Securities Exchange Act Release No. 58514 (September 11, 2008), 73 FR 54190 (September 18, 2008) (SR-FINRA-2008-039). The Exchange’s affiliates, New York Stock Exchange LLC (“NYSE”), NYSE American LLC (“NYSE American”), and NYSE Arca, Inc. (“NYSE Arca”), previously adopted versions of FINRA Rule 5190. See Securities Exchange Act Release No. 59965 (May 21, 2009), 74 FR 25783 (May 29, 2009) (SR-NYSE-2009-25); Securities Exchange Act Release No. 59975 (May 26, 2009), 74 FR 26449 (June 2, 2009) (SR-NYSEALTR-2009-26); and Securities Exchange Act Release No. 66311 (February 2, 2012), 77 FR 6613 (February 8, 2012) (SR-NYSEArca-2012-07).

further harmonize the Exchange’s rules with the rules of FINRA and the Exchange’s affiliates. The Exchange believes the proposed rule change will help reduce duplicative reporting requirements for Participants who are also FINRA members, NYSE or NYSE American member organizations, and/or NYSE Arca ETP Holders because Participants will not be required to submit an additional Regulation M notification to the Exchange if they have already provided a notification to FINRA, NYSE, or NYSE American pursuant to their respective rules.

Proposed Rule Change

The Exchange proposes to adopt Regulation M-related notification rules harmonized with the rules of FINRA, NYSE, NYSE American and NYSE Arca both to provide uniformity in the marketplace as well as to reduce duplicative reporting obligations for the same subject matter. The Exchange accordingly proposes to adopt new Rule 11.5190, which is based on FINRA Rule 5190, NYSE Rule 5190, NYSE American Rule 5190—Equities, and NYSE Arca Rule 9.5190—E.

Proposed Rule 11.5190 would require, in part, that a Participant acting as a manager (or in a similar capacity) of an offering to provide the following information:

- The Participant’s determination as to whether a one-day or five-day restricted period applies under Rule 101 of SEC Regulation M and the basis for such determination, including the contemplated date and time of the commencement of the restricted period, the listed security name and symbol, and identification of the distribution participants and affiliated purchasers, no later than the business day prior to the first complete trading session of the applicable restricted period, unless later notification is necessary under specific circumstances;
- the pricing of the distribution, including the listed security name and symbol, the type of security, the number of shares offered, the offering price, the last sale before the distribution, the pricing basis, the SEC effective date and time, the trade date, the restricted period, and identification of the distribution participants and affiliated purchasers, no later than the close of business the next business day following the pricing of the distribution, unless later notification is necessary under specific circumstances; and
- the cancellation or postponement of any distribution for which prior notification of commencement of the restricted period has been submitted under paragraph (c)(1)(A), immediately

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ See Securities Exchange Act Release No. 86608 (August 8, 2019), 84 FR 40456 (“Notice”).

⁴ 15 U.S.C. 78s(b)(3)(A). A proposed rule change may take effect upon filing with the Commission if it is designated by the exchange as “establishing or changing a due, fee, or other charge imposed by the self-regulatory organization on any person, whether or not the person is a member of the self-regulatory organization.” 15 U.S.C. 78s(b)(3)(A)(ii).

⁵ See Notice, *supra* note 3.

⁶ See Letter to Vanessa Countryman, Secretary, Commission, from Ellen Greene, Managing Director, Securities Industry and Financial Markets Association, dated August 27, 2019.

⁷ See Securities Exchange Act Release No. 87169, 84 FR 53195 (October 4, 2019).

⁸ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

upon the cancellation or postponement of such distribution. If no Participant is acting as a manager (or in a similar capacity) of such distribution, then each Participant that is a distribution participant or affiliated purchaser shall provide the notice required under paragraph (c)(1), unless another Participant has assumed responsibility in writing for compliance therewith.

Proposed Rule 11.5190 is substantially similar to FINRA Rule 5190, except that the term “member” has been replaced with “Participant” throughout to reflect the Exchange’s membership. Also, in proposed subsection (e), the Exchange proposes to replace “OTC Security” with “security” and add the phrase “stabilizing bids” to the first sentence. These changes are consistent with NYSE Rule 5190(e), NYSE American Rule 5190(e)—Equities, and NYSE Arca Rule 9.5190–E.

Consistent with current practice that notifications “to the Exchange” are submitted directly to FINRA,⁴ notification under proposed Rule 11.5190 may be satisfied by making an electronic submission through the secure FINRA website at <https://firms.finra.org>.⁵ Further, because notifications submitted pursuant to FINRA Rule 5190 or the rules of the Exchange’s affiliates will meet the requirements of proposed Rule 11.5190, such notifications will also satisfy the notification requirements of proposed Rule 11.5190. Participants will therefore not need to make duplicative filings to the Exchange if notifications have been submitted to FINRA pursuant to FINRA rules or the rules of the Exchange’s affiliates.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 (the “Act”),⁶ in general, and furthers the objectives of Section 6(b)(5),⁷ in particular, because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to, and perfect the mechanism of, a free and open market and a national market system and, in

general, to protect investors and the public interest.

The Exchange believes that the proposed rule change will harmonize its rules with the rules of FINRA and the Exchange’s affiliates. The Exchange accordingly believes that the proposed rule change supports the objectives of the Act by providing greater harmonization between Exchange Rules and FINRA Rules of similar purpose, resulting in less burdensome and more efficient regulatory compliance for dual members of both self-regulatory organizations (“SROs”). To the extent the Exchange has proposed changes that differ from the FINRA version of the rules, such changes are technical in nature and do not change the substance of the proposed Rule.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposal is intended to harmonize the Exchange’s rules with the rules of other SROs with respect to Regulation M compliance. The Exchange believes that any burden on competition would be clearly outweighed by the important regulatory goal of ensuring clear and consistent requirements applicable across SROs, avoiding duplication, and mitigating any risk of SROs implementing different standards in these important areas. Further, the proposed changes would apply to all Participants in the same manner and therefore would not impose any unnecessary intramarket burdens.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act⁸ and Rule 19b–4(f)(6) thereunder.⁹ Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if

consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b–4(f)(6)(iii) thereunder.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁰ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission’s internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR–NYSECHX–2019–22 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to File Number SR–NYSECHX–2019–22. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission’s internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission’s Public

⁴ Under Exchange Rule 0, Participants required to submit notifications to the Exchange may submit such notifications to FINRA departments acting on the Exchange’s behalf.

⁵ The filing process is described in FINRA Regulatory Notice 12–19 (June 4, 2012), available at <https://www.finra.org/rules-guidance/notices/12-19>.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

Sunshine Act Meetings

TIME AND DATE: Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Public Law 94-409, that the Commission will host the SEC State of Our Securities Markets Conference on Wednesday, December 4, 2019 beginning at 9:30 a.m. (ET).

PLACE: The event will be held at the SEC Headquarters, 100 F Street NE, Washington, DC 20549. The event's panel discussions will be webcast on the Commission's website at www.sec.gov.

STATUS: This meeting will be open to the public.

MATTERS TO BE CONSIDERED: This Sunshine Act notice is being issued because a majority of the Commission may attend the conference. The SEC Chairman will participate in a fireside chat during the event. Additionally, other SEC Commissioners may be in attendance. The event will include discussions concerning the ever-changing economic, risk and market environment and what those changes mean for the structure and function of the securities markets. Areas of focus will include global macroeconomic trends—and their impacts on capital markets; changes to the global equity and credit markets—including how today's markets differ from those of the

early 2000s; and market concentration and fragmentation within certain areas of the securities markets, including relevant causes and potential risks and effects.

CONTACT PERSON FOR MORE INFORMATION:

For further information, please contact Vanessa A. Countryman from the Office of the Secretary at (202) 551-5400.

Dated: November 27, 2019.

Vanessa A. Countryman,
Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87612; File No. SR-ICC-2019-013]

Self-Regulatory Organizations; ICE Clear Credit LLC; Notice of Filing of Proposed Rule Change Relating to the ICC Clearing Rules

November 25, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1) and Rule 19b-4, 17 CFR 240.19b-4, notice is hereby given that on November 15, 2019, ICE Clear Credit LLC (“ICE Clear Credit” or “ICC”) filed with the Securities and Exchange Commission the proposed rule change, security-based swap submission, or advance notice as described in Items I, II, and III below, which Items have been prepared primarily by ICC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change

The principal purpose of the proposed rule change is to make certain changes to the ICC Clearing Rules (the “Rules”)¹ to incorporate amendments to the industry-standard ISDA 2014 Credit Derivatives Definitions (the “2014 Definitions”) that are being adopted in the broader CDS market to address so-called narrowly tailored credit events and related matters.

II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, ICC included statements concerning the purpose of and basis for the proposed rule change, security-based swap submission, or advance notice and

discussed any comments it received on the proposed rule change, security-based swap submission, or advance notice. The text of these statements may be examined at the places specified in Item IV below. ICC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.

(A) *Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change*

(a) Purpose

ICE Clear Credit proposes amendments to its Rules to incorporate changes to the 2014 Definitions that are intended to address so-called “narrowly tailored credit events”. In the wake of certain credit events and potential credit events in the CDS market in recent years, the International Swaps and Derivatives Association, Inc. (“ISDA”), in consultation with market participants, has developed and published the 2019 Narrowly Tailored Credit Event Supplement to the 2014 ISDA Credit Derivatives Definitions (the “NTCE Supplement”).² The NTCE Supplement, if applied to a CDS transaction, effects two principal changes to the 2014 Definitions: (1) A change to the definition of the “Failure to Pay” credit event designed to exclude certain narrowly tailored credit events and (2) a change to the process for determining the Outstanding Principal Balance of an obligation to address certain obligations of a reference entity that were issued at a discount.

As described by ISDA in the attached guidance to the NTCE Supplement, the supplement was published in light of concerns among market participants and regulators about “instances of [CDS] market participants entering into arrangements with corporations that are narrowly tailored to trigger a credit event for CDS contracts while minimizing the impact on the corporation, in order to increase payment to the buyers of CDS protection.”³ ISDA has expressed concern that “narrowly tailored defaults . . . could negatively impact the efficiency, reliability and fairness of the overall CDS market.” Regulators have also expressed concern with narrowly tailored or manufactured credit events, including a joint statement by the heads of the Commission, the Commodity Futures Trading Commission and the UK Financial Conduct Authority that

² The NTCE Supplement is published on the ISDA website at <https://www.isda.org/a/KDqME/Final-NTCE-Supplement.pdf>.

³ NTCE Supplement, Guidance on the interpretation of the definition of “Failure to Pay”.

¹¹ 17 CFR 200.30-3(a)(12).

¹ Capitalized terms used but not defined herein have the meanings specified in the Rules.

such strategies “may adversely affect the integrity, confidence and reputation of the credit derivatives markets, as well as markets more generally. These opportunistic strategies raise various issues under securities, derivatives, conduct and antifraud laws, as well as policy concerns.”⁴

With respect to the Failure to Pay credit event, the NTCE Supplement adopts a concept of a “Credit Deterioration Requirement.” If applicable, this requirement will provide that a failure of a reference entity to make a payment on an obligation will not constitute a Failure to Pay Credit Event if the failure “does not directly or indirectly either result from, or result in, a deterioration in the creditworthiness or financial condition” of the reference entity. As such, a “narrowly tailored” or “manufactured” failure to pay, which does not reflect or result in a credit deterioration, would not constitute a Credit Event for CDS Contracts that incorporate the NTCE Supplement and apply the Credit Deterioration Requirement. The NTCE Supplement also includes guidance as to factors relevant to the determination of whether credit deterioration has occurred. That determination would, under the 2014 Definitions, in the ordinary course be made by the relevant Credit Derivatives Determinations Committee.

The NTCE Supplement also amends the method of calculating the Outstanding Principal Balance of obligations. The amendments are intended to address a potential scenario where a corporation agrees to issue a bond at a substantial discount to its principal amount, where the bond could be delivered in settlement of a CDS at its full principal amount. Under the 2014 Definitions, the Quantum of the Claim (which is used to determine the Outstanding Principal Balance used in calculating settlement obligations) is determined taking into account any applicable laws insofar as they reduce the size of the claim to reflect the original issue price or accrued value of the obligation. The NTCE Supplement clarifies that the applicable laws to be considered include any bankruptcy or insolvency law or other law affecting creditors’ rights to which the relevant obligation is or may become subject. In addition, the NTCE Supplement

includes the concept of “Fallback Discounting,” which if designated to be applicable, provides a method for discounting the Quantum of the Claim (where it is not otherwise reduced under applicable law or pursuant to its own terms) of an obligation that is issued at less than 95% of its principal amount, based on straight-line interpolation between the issue price and the principal amount.

ICE Clear Credit has been advised that CDS market participants are expected to commence transacting in CDS incorporating the NTCE Supplement (with Credit Deterioration Requirement and Fallback Discounting applicable) on or about January 27, 2020. In addition, ISDA has published, and opened for adherence, an NTCE Protocol pursuant to which parties may, on a multilateral basis, agree to amend outstanding, non-cleared CDS transactions to incorporate the NTCE Supplement. The amendments made by the NTCE Protocol are also expected to have an implementation date on or about January 27, 2020. Adherence to the protocol will thus make existing transactions fungible with transactions on the new terms. Accordingly, ICE Clear Credit is proposing to amend its Rules for relevant products to incorporate the NTCE Supplement, both for new and existing cleared transactions. For this purpose, the proposed ICC amendments will apply to all cleared CDS contracts with corporate (*i.e.*, non-sovereign) reference entities, consistent with the NTCE Protocol and the expected approach for new CDS transactions. ICC proposes to make such changes effective by the industry implementation date.

Specifically, ICC would amend Rule 20–102 to include new definitions for “NTCE Amending Contracts”, which would be those Contracts being amended to incorporate the NTCE Supplement, as specified in a list to be maintained by ICC, and “NTCE Effective Date”, which will be the date of implementation of the amendment. The NTCE Effective Date will initially be January 27, 2020 (or such later date as designated by ICC by Circular). Rule 20–102 would also include a definition for the NTCE Supplement.

ICC would further amend each relevant subchapter of Chapter 26 of the Rules to implement the NTCE Supplement. A set of amendments would apply to index CDS transactions and a separate set of amendments would apply to single-name CDS transactions.

In the case of index CDS, for CDX.NA Index CDS transactions, in subchapter 26A, in Rule 26A–102, the definition of CDX.NA Untranching Terms

Supplement would be amended to include the new 2020 standard terms supplement for such transactions, as published by ISDA, which incorporates the NTCE Supplement, along with conforming changes to cross-references. Rule 26A–316 would be amended by adding a new paragraph (e), which provides that open positions in CDX.NA Untranching Contracts that are NTCE Amending Contracts would be amended, effective as of the NTCE Effective Date, to reference the updated 2020 standard terms supplement in lieu of the standard terms supplement previously in effect. This will have the effect of converting all existing CDX.NA Untranching Contracts to reference the new standard terms supplement, such that they will be fungible with new CDX.NA Untranching Contracts, which will also reference the new standard terms supplement. New paragraph (e) would also provide that the amendments will be effective regardless of whether any transaction record in the Deriv/SERV warehouse is updated to reflect the change.

Substantially similar changes for other categories of index CDS would also be made in subchapters 26F (for iTraxx Europe Untranching Contracts) and 26J (for iTraxx Asia/Pacific Untranching Contracts).

In the case of single-name CDS, for Standard North American Corporate (SNAC) Contracts, in subchapter 26B, Rule 26B–616 would be amended by adding a new paragraph (c), which provides that open positions in SNAC Contracts that are NTCE Amending Contracts would be amended, effective as of the NTCE Effective Date, to incorporate the NTCE Supplement and specify that Fallback Discounting and Credit Deterioration Requirement will be applicable. The contracts would also be amended to reference the new ISDA physical settlement matrix, to be published as of the NTCE Effective Date (or other relevant implementation date as determined by ICC). The amendments will have the effect of converting existing SNAC Contracts to reference the updated physical settlement matrix, such that they will be fungible with new SNAC Contracts, which will also reference that matrix. New paragraph (c) would also provide that the amendments will be effective regardless of whether any transaction record in the Deriv/SERV warehouse is updated to reflect the change.

Substantially similar changes for other categories of single-name CDS would also be made in subchapters 26G (for Standard European Corporate Contracts), 26H (for Standard European Financial Corporate Contracts), 26M (for

⁴ Securities and Exchange Commission, Commodity Futures Trading Commission and UK Financial Conduct Authority, Joint Statement on Opportunistic Strategies in the Credit Derivatives Markets (June 24, 2019); see also Update to June 2019 Joint CFTC–SEC–FCA Statement on Opportunistic Strategies in the Credit Derivatives Market (Sept. 19, 2019).

Standard Australian Corporate Contracts), 26N (for Standard Australia Financial Corporate Contracts), 26O (for Standard Asia Corporate Contracts), 26P (for Standard Asia Financial Corporate Contracts) and 26Q (for Standard Emerging Market Corporate Contracts).

(b) Statutory Basis

ICC believes that the proposed rule changes are consistent with the requirements of Section 17A of the Act⁵ and the regulations thereunder applicable to it, including the applicable standards under Rule 17Ad-22.⁶ In particular, Section 17A(b)(3)(F) of the Act requires that the rule change be consistent with the prompt and accurate clearance and settlement of securities transactions and derivative agreements, contracts and transactions cleared by ICC, the safeguarding of securities and funds in the custody or control of ICC or for which it is responsible, and the protection of investors and the public interest.⁷

The amendments incorporate changes to the standard terms of CDS Contracts that are being widely adopted by market participants to address potential concerns that have arisen with so-called narrowly tailored credit events. The amendments reflect amendments to the 2014 Definitions, specifically with respect to the Failure to Pay and Outstanding Principal Balance definitions, that have been developed by ISDA, in consultation with market participants in both the cleared and uncleared CDS markets, and are set out in the NTCE Supplement. ICE Clear Credit understands that for the uncleared swap market, these amendments are expected to be widely implemented through the NTCE Protocol. ICE Clear Credit notes that the heads of the Commission, the Commodity Futures Trading Commission and the UK Financial Conduct Authority have stated that they welcome the efforts to implement the amendments set out in the NTCE Supplement and NTCE Protocol.⁸ ICE Clear Credit is proposing to adopt amendments to its Rules to implement these same changes for both new and existing contracts cleared by it. As a result, in ICE Clear Credit's view, the amendments will enhance the integrity of the credit derivatives markets and the confidence of market participants in those markets, and will therefore facilitate the prompt and accurate

clearance and settlement of such contracts at ICC and will further facilitate the protection of investors and the public interest, within the meaning of Section 17A(b)(3)(F) of the Act. ICE Clear Credit does not believe the amendments will materially affect the safeguarding of securities and funds in the custody or control of ICC or for which it is responsible.

The amendments will also satisfy relevant requirements of Rule 17Ad-22,⁹ as set forth in the following discussion.

Legal Framework. Rule 17Ad-22(d)(1) requires a clearing agency to establish, implement, maintain and enforce written policies and procedures reasonably designed to "provide for a well-founded, transparent and enforceable legal framework for each aspect of its activities in all relevant jurisdictions."¹⁰ The amendments to the Rules are designed to supplement the contractual terms, consistent with industry initiatives, to address and reduce the likelihood of certain situations involving narrowly tailored credit events that have given rise to concerns among market participants and regulators, as described above. As such, ICC believes that the amendments will enhance the legal framework for clearing of CDS Contracts, consistent with the requirements of Rule 17Ad-22(d)(1).¹¹

Operational Risk. Rule 17Ad-22(d)(4) requires a clearing agency to establish, implement, maintain and enforce written policies and procedures reasonably designed to "identify sources of operational risk and minimize them through the development of appropriate systems, controls and procedures."¹² ICC believes the amendments, by implementing the NTCE Supplement for existing and new CDS Contracts, will be consistent with, and eliminate basis risk as compared to, changes being made in the uncleared CDS markets. The changes will also ensure the fungibility of new and existing contracts in light of the NTCE Supplement amendments, which will facilitate ongoing risk management by the clearing house and market participants. As a result, in ICC's view, the amendments are consistent with the requirements of Rule 17Ad-22(d)(4).¹³

(B) Clearing Agency's Statement on Burden on Competition

ICE Clear Credit does not believe the proposed amendments would have any impact, or impose any burden, on competition not necessary or appropriate in furtherance of the purpose of the Act. The amendments reflect an industry-wide initiative designed to apply to all CDS market participants, in both the cleared and uncleared markets. ICC's specific amendments to its Rules will apply consistently across all Participants and Non-Participant Parties. ICC further expects that other market participants will make similar changes to their contracts and terms of trading. As a result, ICC does not expect that the proposed changes will adversely affect access to clearing or the ability of Participants, their customers or other market participants to continue to clear contracts, including CDS Contracts. ICC also does not believe the amendments would materially affect the cost of clearing or otherwise limit market Participants' choices for selecting clearing services. Accordingly, ICC does not believe the amendments would impose any burden on competition not necessary or appropriate in furtherance of the purpose of the Act.

(C) Clearing Agency's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

ICC has not solicited or received written comments with respect to the proposed rule changes. ICC will notify the Commission of any written comments on the proposed rule changes received by ICC.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve or disapprove such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, security-based swap

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87624; File No. SR-ICEEU-2019-026]

Self-Regulatory Organizations; ICE Clear Europe Limited; Notice of Filing and Immediate Effectiveness of Proposed Rule Change, Security-Based Swap Submission or Advance Notice Relating to Amendments to the ICE Clear Europe Delivery Procedures

November 25, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 21, 2019, ICE Clear Europe Limited ("ICE Clear Europe" or the "Clearing House") filed with the Securities and Exchange Commission ("Commission") the proposed rule changes described in Items I, II and III below, which Items have been prepared by ICE Clear Europe. ICE Clear Europe filed the proposed rule change pursuant to Section 19(b)(3)(A) of the Act³ and Rule 19b-4(f)(4)(ii) thereunder,⁴ such that the proposed rule change was immediately effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change, Security-Based Swap Submission, or Advance Notice

The principal purpose of the proposed amendments is for ICE Clear Europe to add delivery terms relating to the ICE Futures Europe Permian West Texas Light Crude Oil Futures Contracts (the "ICE WTL Futures Contracts") and the ICE Endex Austrian VTP Natural Gas Daily Futures Contracts (the "ICE Endex VTP Natural Gas Daily Futures"), and collectively, the "Contracts").⁵

² 17 CFR 240.19b-4.

³ 15 U.S.C. 78s(b)(3)(A).

⁴ 17 CFR 240.19b-4(f)(4)(ii).

⁵ Capitalized terms used but not defined herein have the meanings specified in the ICE Clear Europe Clearing Rules (the "Rules") and the Delivery Procedures.

II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change, Security-Based Swap Submission or Advance Notice

In its filing with the Commission, ICE Clear Europe included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. ICE Clear Europe has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) *Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change, Security-Based Swap Submission or Advance Notice*

(a) Purpose

ICE Clear Europe is proposing to amend its Delivery Procedures to amend Section 9 and Part CC to provide delivery procedures relating to the ICE WTL Futures Contracts, which will be traded on ICE Futures Europe and cleared by ICE Clear Europe. In addition, ICE Clear Europe is proposing to amend Part EE to provide delivery procedures relating to the ICE Endex VTP Natural Gas Daily Futures, which will be traded on ICE Endex and cleared by ICE Clear Europe.

Currently, Section 9 and Part CC set out the delivery specifications and procedures for deliveries under the ICE Futures Europe Permian West Texas Intermediate Crude Oil Futures Contracts ("ICE WTI Contracts"). The proposed amendments would extend Section 9 and Part CC to also apply to the ICE WTL Futures Contracts, on substantially the same basis as the ICE WTI Contracts. In this regard, the amended procedures would address, with respect to the ICE WTL Futures Contracts, among other matters, delivery options, delivery timetables, the nominations process, invoicing, provision of buyer's and seller's security, delivery tolerances, and relevant documentation. Amended Part CC would make clear that the ICE WTI Contracts and ICE WTL Futures Contracts remain separate contracts and would not be fungible, and that the various delivery documentation for each of the contract types would need to clearly reference the type to which they refer.

The amendments would add a new definition of "Permian WT," which is used to refer to both types of contracts where appropriate in the Delivery Procedures. The definition of "Tariffs" in Part CC would be extended to also

include Magellan Tariff R.C.T. 1.3.0 or BridgeTex Tariff F.E.R.C. 6.1.0 in respect of the ICE WTL Futures Contracts. Additional conforming amendments would be made throughout Part CC to incorporate the inclusion of the ICE WTL Futures Contracts.

Currently, Part EE sets out the delivery specifications and procedures for deliveries under the ICE Endex CEGH Austrian VTP Natural Gas Futures (“ICE Endex VTP Natural Gas Futures”). The proposed amendments would extend Part EE to also apply to the ICE Endex VTP Natural Gas Daily Futures, on a similar basis.

In this regard, the amended procedures would address, with respect to ICE Endex VTP Natural Gas Daily Futures, among other matters, trade nominations, the delivery process, delivery timetables, Clearing House liability, nominations process, invoicing, provision of buyer’s and seller’s security, delivery failures and relevant documentation. Separate delivery timetables (both for routine and failed deliveries) would be added for the ICE Index VTP Natural Gas Daily Futures, which would address in further detail the timing of the nominations process and the provision of buyer’s and seller’s security, among other matters. A new documentation summary would also be added for the ICE Endex VTP Natural Gas Daily Futures.

The amendments would also add a new definition for “ICE Endex VTP Natural Gas Daily Futures” and amend the defined term, “ICE Endex VTP Natural Gas,” to “ICE Endex VTP Natural Gas Futures”. Additional conforming amendments would be made throughout Part EE to incorporate the inclusion of the ICE Endex VTP Natural Gas Daily Futures, as well as to make certain typographical and similar corrections.

(b) Statutory Basis

Section 17A(b)(3)(F) of the Act⁶ requires, among other things, that the rules of a clearing agency be designed to promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivative agreements, contracts, and transactions, the safeguarding of securities and funds in the custody or control of the clearing agency or for which it is responsible, and the protection of investors and the public interest. The proposed amendments are designed to facilitate the clearing of new physically settled Contracts that are being launched for trading by the ICE Futures Europe and

ICE Endex exchanges and that will be cleared by ICE Clear Europe. The amendments would extend the existing Delivery Procedures for the ICE WTI Contracts and the ICE Endex VTP Natural Gas Futures to the obligations and roles of the Clearing House and the relevant parties for delivery under the ICE WTL Futures Contracts and the ICE Endex VTP Natural Gas Daily Futures, respectively. ICE Clear Europe believes that its financial resources, risk management, systems and operational arrangements are sufficient to support clearing of such Contracts (and to address physical delivery under such Contracts) and to manage the risks associated with such Contracts. As a result, in ICE Clear Europe’s view, the amendments would be consistent with the prompt and accurate clearance and settlement of the Contracts as set out in the proposed Delivery Procedures amendments, and the protection of investors and the public interest consistent with the requirements of Section 17A(b)(3)(F) of the Act.⁷ (In ICE Clear Europe’s view, the amendments would not adversely affect the safeguarding of funds or securities in the custody or control of the clearing agency or for which it is responsible, within the meaning of Section 17A(b)(3)(F).⁸)

In addition, Rule 17Ad–22(e)(10)⁹ requires that each covered clearing agency establish and maintain transparent written standards that state its obligations with respect to the delivery of physical instruments, and establish and maintain operational practices that identify, monitor and manage the risks associated with such physical deliveries. As discussed above, the amendments would clarify the application of the existing Delivery Procedures to establish the obligations and roles of the Clearing House and the relevant parties for delivery under the Contracts and facilitate identifying, monitoring and managing risks associated with delivery.

(B) Clearing Agency’s Statement on Burden on Competition

ICE Clear Europe does not believe the proposed rule changes would have any impact, or impose any burden, on competition not necessary or appropriate in furtherance of the purposes of the Act. The changes are being proposed in order to update the Delivery Procedures in connection with the listing of the Contracts for trading on the ICE Futures Europe and ICE Endex

markets. ICE Clear Europe believes that the Contracts would provide additional opportunities for interested market participants to engage in trading activity in the Permian West Texas light crude oil market and in the Austrian natural gas market. ICE Clear Europe does not believe the amendments would adversely affect competition among Clearing Members, materially affect the cost of clearing, adversely affect access to clearing in Contracts for Clearing Members or their customers, or otherwise adversely affect competition in clearing services. Accordingly, ICE Clear Europe does not believe that the amendments would impose any impact or burden on competition that is not appropriate in furtherance of the purpose of the Act.

(C) Clearing Agency’s Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments relating to the proposed amendments have not been solicited or received by ICE Clear Europe. ICE Clear Europe will notify the Commission of any comments received with respect to the proposed amendments.

III. Date of Effectiveness of the Proposed Rule Change, Security-Based Swap Submission and Advance Notice and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁰ and paragraph (f) of Rule 19b–4¹¹ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, security-based swap submission or advance notice is consistent with the Act. Comments may be submitted by any of the following methods:

Self-Regulatory Organizations; ICE Clear Credit LLC; Notice of Filing of Partial Amendment No. 1 and Order Instituting Proceedings To Determine Whether To Approve or Disapprove Proposed Rule Change Proposed Rule Change, as Modified by Partial Amendment No. 1, Relating to Amendments to the ICC Clearing Rules To Address Non-Default Losses

November 25, 2019.

I. Introduction

On August 8, 2019, ICE Clear Credit LLC ("ICC") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² a proposed rule change to amend ICC's Clearing Rules (the "Rules")³ to address treatment of losses not related to a Clearing Participant default. The proposed rule change was published for comment in the **Federal Register** on August 28, 2019.⁴ The Commission received comments regarding the proposed rule change.⁵ On October 4, 2019, the Commission designated a longer period of time for Commission action on the proposed rule change until November 26, 2019.⁶ On October 7, 2019, ICC filed a partial amendment ("Partial Amendment No. 1") to modify the proposed rule change.⁷ The Commission is publishing this notice and order to solicit comments on Partial Amendment No. 1 from interested persons and to institute proceedings pursuant to Section 19(b)(2)(B) of the Act⁸ to determine whether to approve or disapprove the

⁷ In Partial Amendment No. 1 to the proposed rule change, ICC provided additional details and analyses surrounding the proposed rule change in the form of a confidential Exhibit 3.

⁸ 15 U.S.C. 78s(b)(2)(B).

proposed rule change, as modified by Partial Amendment No. 1 (hereinafter, "proposed rule change").

II. Description of the Proposed Rule Change

As described more fully in the Notice, the proposed rule change would define three exclusive categories of losses not related to a Clearing Participant default: (i) Investment Losses, (ii) Custodial Losses, and (iii) Non-Default Losses. With respect to the treatment of such losses, the proposed rule change would: (i) Define the resources of ICC that ICC would apply to cover each such category of losses; (ii) assign responsibility to Clearing Participants, in certain circumstances, to make contributions with respect to Investment Losses and Custodial Losses; and (iii) address the treatment of recoveries by ICC with respect to such losses. The proposed rule change would also make additional changes related to such losses, including addressing the effect the proposed rule change would have on other ICC rules.

III. Proceedings To Determine Whether To Approve or Disapprove the Proposed Rule Change and Grounds for Disapproval Under Consideration

The Commission is instituting proceedings pursuant to Section 19(b)(2)(B) of the Act to determine whether the proposed rule change should be approved or disapproved.⁹ Institution of proceedings is appropriate at this time in view of the legal and policy issues raised by the proposed rule change. Institution of proceedings does not indicate that the Commission has reached any conclusions with respect to any of the issues involved.

Pursuant to Section 19(b)(2)(B) of the Act,¹⁰ the Commission is providing notice of the potential grounds for approval or disapproval under consideration. The Commission is instituting proceedings to allow for additional analysis and input concerning the proposed rule change's consistency with the Act and the rules thereunder, including the following:

- Section 17A(b)(3)(D) of the Act, which requires that the rules of ICC provide for the equitable allocation of reasonable dues, fees, and other charges among its participants;¹¹
- Section 17A(b)(3)(F) of the Act, which requires, among other things, that the rules of ICC be designed to promote the prompt and accurate clearance and settlement of securities transactions

⁹ 15 U.S.C. 78s(b)(2)(B).

¹⁰ 15 U.S.C. 78s(b)(2)(B).

¹¹ 15 U.S.C. 78q-1(b)(3)(D).

¹² 17 CFR 200.30-3(a)(12).

and, to the extent applicable, derivative agreements, contracts, and transactions, to assure the safeguarding of securities and funds which are in the custody or control of ICC or for which it is responsible, and, in general, to protect investors and the public interest;¹²

- Rule 17Ad-22(d)(3), which requires that ICC establish, implement, maintain and enforce written policies and procedures reasonably designed to hold assets in a way that minimizes risk of loss or of delay in its access to them;¹³ and

- Rule 17Ad-22(d)(8), which requires that ICC establish, implement, maintain and enforce written policies and procedures reasonably designed to have governance arrangements that are clear and transparent to fulfill the public interest requirements in Section 17A of the Act applicable to clearing agencies, to support the objectives of owners and participants, and to promote the effectiveness of ICC's risk management procedures.¹⁴

IV. Request for Written Comments

The Commission requests that interested persons provide written submissions of their views, data, and arguments regarding the proposed rule change and Partial Amendment No. 1 with respect to the issues identified above, as well as any other concerns they may have with the proposed rule change and Partial Amendment No. 1. In particular, the Commission invites the written views of interested persons concerning whether the proposed rule change is consistent with Section 17A(b)(3)(D) and (F) of the Act¹⁵ and Rules 17Ad-22(d)(3) and 17Ad-22(d)(8) under the Act,¹⁶ or any other provision of the Act or rules and regulations thereunder.

Although there do not appear to be any issues relevant to approval or disapproval that would be facilitated by an oral presentation of views, data, and arguments, the Commission will consider, pursuant to Rule 19b-4, any request for an opportunity to make an oral presentation.¹⁷

Interested persons are invited to submit written data, views, and arguments regarding Partial Amendment No. 1 and whether the proposed rule change should be approved or disapproved on or before December 17, 2019. Any person who wishes to file a rebuttal to any other person's submission must file that rebuttal on or before December 23, 2019.

Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number ICC-2019-010 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-ICC-2019-010. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of such filings will also be available for inspection and copying at the principal office of ICE Clear Credit and on ICE Clear Credit's website at <https://www.theice.com/clear-credit/regulation>. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-ICC-2019-010 and should be submitted on or before December 17, 2019. If comments are

received, any rebuttal comments should be submitted on or before December 23, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁸

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87619; File No. SR-NYSENAT-2019-27]

Self-Regulatory Organizations; NYSE National, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Rule 7.37 To Specify in Exchange Rules the Exchange's Use of Data Feeds From NYSE American LLC

November 25, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 15, 2019, NYSE National, Inc. ("NYSE National" or the "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 7.37 to update the Exchange's source of data feeds from NYSE American LLC ("NYSE American") for purposes of order handling, order execution, order routing, and regulatory compliance. The proposed rule change is available on the Exchange's website at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change

¹² 15 U.S.C. 78q-1(b)(3)(F).

¹³ 15 U.S.C. 17Ad-22(d)(3).

¹⁴ 15 U.S.C. 17Ad-22(d)(8).

¹⁵ 15 U.S.C. 78q-1(b)(3)(D) and (F).

¹⁶ 17 CFR 240.17Ad-22(d)(3) and (d)(8).

¹⁷ Section 19(b)(2) of the Act, as amended by the Securities Acts Amendments of 1975, Public Law 94-29, 89 Stat. 97 (1975), grants the Commission flexibility to determine what type of proceeding—either oral or notice and opportunity for written comments—is appropriate for consideration of a particular proposal by a self-regulatory organization. See Securities Acts Amendments of 1975, Report of the Senate Committee on Banking, Housing and Urban Affairs to Accompany S. 249, S. Rep. No. 75, 94th Cong., 1st Sess. 30 (1975).

¹⁸ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to update and amend the use of data feeds table in Rule 7.37, which sets forth on a market-by-market basis the specific securities information processor and proprietary data feeds that the Exchange utilizes for the handling, execution, and routing of orders, and for performing the regulatory compliance checks related to each of those functions. Specifically, the table would be amended to reflect that the Exchange will receive a direct feed from NYSE American as its primary source of data for order handling, order execution, order routing, and regulatory compliance.

Rule 7.37 currently provides that the Exchange will utilize the securities information processor ("SIP") data feed as its primary source for the handling, execution, and routing of orders, as well as for regulatory compliance. In connection with NYSE American's elimination of its delay mechanism,³ the Exchange will begin using a direct feed from NYSE American as its primary data feed. To reflect this change, the Exchange proposes to amend the table in Rule 7.37(d) to specify that it will use a direct feed from NYSE American, rather than the SIP data feed, as the primary source for that market, and that the Exchange would use the SIP data feed as a secondary source for that market.

The Exchange will implement this change on the same date that NYSE American eliminates its delay mechanism, which, subject to effectiveness of proposed rule changes, will be implemented in November 2019. The Exchange will announce this date via Trader Update.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 (the "Act"),⁴ in general, and furthers the

objectives of Section 6(b)(5),⁵ in particular, because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to, and perfect the mechanism of, a free and open market and a national market system and, in general, to protect investors and the public interest. The Exchange believes its proposal to amend the table in Rule 7.37(d) to update the data feed source for NYSE American will ensure that Rule 7.37 correctly identifies and publicly states on a market-by-market basis all of the specific securities information processor and proprietary data feeds that the Exchange utilizes for the handling, execution, and routing of orders, and for performing the regulatory compliance checks for each of those functions. The proposed rule change also removes impediments to and perfects the mechanism of a free and open market and protects investors and the public interest by providing additional specificity, clarity, and transparency in the Exchange's rules.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed change is not designed to address any competitive issue, but rather would provide the public and investors with up-to-date information about which data feeds the Exchange uses for the handling, execution, and routing of orders, as well as for regulatory compliance.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if

consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁶ and Rule 19b-4(f)(6) thereunder.⁷

A proposed rule change filed under Rule 19b-4(f)(6)⁸ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),⁹ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposed rule change may become operative immediately. The Exchange states that such waiver is consistent with the protection of investors and the public interest because NYSE American intends to eliminate the above-described delay mechanism in fewer than 30 days, and thus, the Exchange believes that waiver of the operative delay would allow NYSE National to immediately provide enhanced transparency in its rules regarding the data feed it intends to utilize for NYSE American, once NYSE American eliminates its delay mechanism. Based on the foregoing, the Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest in that it allows the Exchange to begin using the direct data feed from NYSE American at the same time that NYSE American eliminates its delay mechanism. For this reason, the Commission hereby waives the 30-day operative delay and designates the proposal operative upon filing.¹⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule

⁶ 15 U.S.C. 78s(b)(3)(A).

⁷ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

⁸ 17 CFR 240.19b-4(f)(6).

⁹ 17 CFR 240.19b-4(f)(6)(iii).

¹⁰ For purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

³ See SR-NYSEAmer-2019-48 (NYSE American proposal to eliminate its delay mechanism, which was filed on November 4, 2019).

⁴ 15 U.S.C. 78f(b).

⁵ 15 U.S.C. 78f(b)(5).

change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NYSEAT-2019-27 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NYSEAT-2019-27. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal offices of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSEAT-2019-27, and should be submitted on or before December 23, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹

Jill M. Peterson,

Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87623; File No. SR-NYSEArca-2019-84]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Rule 7.37-E To Specify in Exchange Rules the Exchange's Use of Data Feeds From NYSE American LLC

November 25, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 15, 2019, NYSE Arca, Inc. ("NYSE Arca" or the "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 7.37-E to update the Exchange's source of data feeds from NYSE American LLC ("NYSE American") for purposes of order handling, order execution, order routing, and regulatory compliance. The proposed rule change is available on the Exchange's website at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below.

¹¹ 17 CFR 200.30-3(a)(12), (59).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to update and amend the use of data feeds table in Rule 7.37-E, which sets forth on a market-by-market basis the specific securities information processor and proprietary data feeds that the Exchange utilizes for the handling, execution, and routing of orders, and for performing the regulatory compliance checks related to each of those functions. Specifically, the table would be amended to reflect that the Exchange will receive a direct feed from NYSE American as its primary source of data for order handling, order execution, order routing, and regulatory compliance.

Rule 7.37-E currently provides that the Exchange will utilize the securities information processor ("SIP") data feed as its primary source for the handling, execution, and routing of orders, as well as for regulatory compliance. In connection with NYSE American's elimination of its delay mechanism,³ the Exchange will begin using a direct feed from NYSE American as its primary data feed. To reflect this change, the Exchange proposes to amend the table in Rule 7.37-E(d) to specify that it will use a direct feed from NYSE American, rather than the SIP data feed, as the primary source for that market, and that the Exchange would use the SIP data feed as a secondary source for that market.

The Exchange will implement this change on the same date that NYSE American eliminates its delay mechanism, which, subject to effectiveness of proposed rule changes, will be implemented in November 2019. The Exchange will announce this date via Trader Update.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 (the "Act"),⁴ in general, and furthers the objectives of Section 6(b)(5),⁵ in particular, because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and

³ See SR-NYSEArca-2019-48 (NYSE American proposal to eliminate its delay mechanism, which was filed on November 4, 2019).

⁴ 15 U.S.C. 78f(b).

⁵ 15 U.S.C. 78f(b)(5).

equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to, and perfect the mechanism of, a free and open market and a national market system and, in general, to protect investors and the public interest. The Exchange believes its proposal to amend the table in Rule 7.37–E(d) to update the data feed source for NYSE American will ensure that Rule 7.37–E correctly identifies and publicly states on a market-by-market basis all of the specific securities information processor and proprietary data feeds that the Exchange utilizes for the handling, execution, and routing of orders, and for performing the regulatory compliance checks for each of those functions. The proposed rule change also removes impediments to and perfects the mechanism of a free and open market and protects investors and the public interest by providing additional specificity, clarity, and transparency in the Exchange's rules.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed change is not designed to address any competitive issue, but rather would provide the public and investors with up-to-date information about which data feeds the Exchange uses for the handling, execution, and routing of orders, as well as for regulatory compliance.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A)

of the Act⁶ and Rule 19b–4(f)(6) thereunder.⁷

A proposed rule change filed under Rule 19b–4(f)(6)⁸ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b–4(f)(6)(iii),⁹ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposed rule change may become operative immediately. The Exchange states that such waiver is consistent with the protection of investors and the public interest because NYSE American intends to eliminate the above-described delay mechanism in fewer than 30 days, and thus, the Exchange believes that waiver of the operative delay would allow NYSE Arca to immediately provide enhanced transparency in its rules regarding the data feed it intends to utilize for NYSE American, once NYSE American eliminates its delay mechanism. Based on the foregoing, the Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest in that it allows the Exchange to begin using the direct data feed from NYSE American at the same time that NYSE American eliminates its delay mechanism. For this reason, the Commission hereby waives the 30-day operative delay and designates the proposal operative upon filing.¹⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

⁶ 15 U.S.C. 78s(b)(3)(A).

⁷ 17 CFR 240.19b–4(f)(6). In addition, Rule 19b–4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

⁸ 17 CFR 240.19b–4(f)(6).

⁹ 17 CFR 240.19b–4(f)(6)(iii).

¹⁰ For purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR–NYSEArca–2019–84 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to File Number SR–NYSEArca–2019–84. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal offices of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–NYSEArca–2019–84, and should be submitted on or before December 23, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87608; File No. SR-EMERALD-2019-36]

Self-Regulatory Organizations; MIAX Emerald, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Exchange Rule 510, Minimum Price Variations and Minimum Trading Increments To Extend the Penny Pilot Program

November 25, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 13, 2019, MIAX Emerald, LLC (“MIAX Emerald” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend Exchange Rule 510, Minimum Price Variations and Minimum Trading Increments, to change the date on which the pilot program for the quoting and trading of certain options in pennies is scheduled to expire.

The text of the proposed rule change is available on the Exchange’s website at <http://www.miaxoptions.com/rule-filings/emerald>, at MIAX Emerald’s principal office, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these

statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is a participant in an industry-wide pilot program that provides for the quoting and trading of certain option classes in penny increments (the “Penny Pilot Program” or “Program”). The Penny Pilot Program allows the quoting and trading of certain option classes in minimum increments of \$0.01 for all series in such option classes with a price of less than \$3.00; and in minimum increments of \$0.05 for all series in such option classes with a price of \$3.00 or higher. Options overlying the PowerShares QQQ™ (“QQQ”), SPDR® S&P 500® ETF (“SPY”), and iShares® Russell 2000 ETF (“IWM”), however, are quoted and traded in minimum increments of \$0.01 for all series regardless of the price. The Penny Pilot Program was initiated at the then existing option exchanges in January 2007³ and currently includes more than 300 of the most active option classes. The Penny Pilot Program is currently scheduled to expire on December 31, 2019.⁴ The purpose of the proposed rule change is to extend the Penny Pilot Program in its current format through June 30, 2020.

2. Statutory Basis

The Exchange believes that its proposed rule change is consistent with Section 6(b) of the Act⁵ in general, and furthers the objectives of Section 6(b)(5) of the Act⁶ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to

remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

In particular, the proposed rule change, which extends the Penny Pilot Program for six months, allows the Exchange to continue to participate in a program that has been viewed as beneficial to traders, investors and public customers and viewed as successful by the other options exchanges participating in it.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the Exchange believes that, by extending the expiration of the Pilot Program, the proposed rule change will allow for further analysis of the Penny Pilot Program and a determination of how the Program should be structured in the future. In doing so, the proposed rule change will also serve to promote regulatory clarity and consistency, thereby reducing burdens on the marketplace, facilitating investor protection, and fostering a competitive environment. In addition, consistent with previous practices, the Exchange believes the other options exchanges will be filing similar extensions of the Penny Pilot Program.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to 19(b)(3)(A) of the Act⁷ and Rule 19b-4(f)(6)⁸ thereunder.

⁷ 15 U.S.C. 78s(b)(3)(A).

⁸ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

¹¹ 17 CFR 200.30-3(a)(12), (59).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ See Securities Exchange Act Release Nos. 55154 (January 23, 2007), 72 FR 4743 (February 1, 2007) (SR-CBOE-2006-92); 55161 (January 24, 2007), 72 FR 4754 (February 1, 2007) (SR-ISE-2006-62); 54886 (December 6, 2006), 71 FR 74979 (December 13, 2006) (SR-Phlx-2006-74); 54590 (October 12, 2006), 71 FR 61525 (October 18, 2006) (SR-NYSEArca-2006-73); and 54741 (November 9, 2006), 71 FR 67176 (November 20, 2006) (SR-Amex-2006-106).

⁴ See Securities Exchange Act Release No. 86048 (June 6, 2019), 84 FR 27382 (June 12, 2019) (SR-EMERALD-2019-23) (extending the Penny Pilot Program from June 30, 2019 to December 31, 2019).

⁵ 15 U.S.C. 78f(b).

⁶ 15 U.S.C. 78f(b)(5).

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-EMERALD-2019-36 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-EMERALD-2019-36. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit

personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-EMERALD-2019-36 and should be submitted on or before December 23, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁹

Eduardo A. Aleman,

Deputy Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87610; File No. SR-NYSEARCA-2019-83]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Commentary .02 to Rule 6.72-O To Extend the Penny Pilot

November 25, 2019.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the "Act")² and Rule 19b-4 thereunder,³ notice is hereby given that, on November 15, 2019, NYSE Arca, Inc. ("NYSE Arca" or the "Exchange") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II, below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Commentary .02 to Rule 6.72-O to extend the Penny Pilot in options classes in certain issues ("Pilot") previously approved by the Securities and Exchange Commission ("Commission") through June 30, 2020. The Pilot is currently scheduled to expire on December 31, 2019. The proposed rule change is available on the Exchange's website at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

⁹ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Commentary .02 to Rule 6.72-O to extend the time period of the Pilot,⁴ which is currently scheduled to expire on December 31, 2019, until June 30, 2020. The Exchange believes that extending the Pilot would allow for further analysis of the Pilot and a determination of how the Pilot should be structured in the future.

This filing does not propose any substantive changes to the Pilot: All classes currently participating will remain the same and all minimum increments will remain unchanged. The Exchange believes the benefits to public customers and other market participants who will be able to express their true prices to buy and sell options have been demonstrated to outweigh the increase in quote traffic.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b)⁵ of the Act, in general, and furthers the objectives of Section 6(b)(5),⁶ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanisms of a free and open market and a national market system.

In particular, the proposed rule change, which extends the Pilot for six months, allows the Exchange to continue to participate in a program that

⁴ See Securities and Exchange Act Release No. 86062 (June 7, 2019) 84 FR 27669 (June 13, 2019) (SR-NYSEARCA-2019-41).

⁵ 15 U.S.C. 78f(b).

⁶ 15 U.S.C. 78f(b)(5).

has been viewed as beneficial to traders, investors and public customers and viewed as successful by the other options exchanges participating in it. Accordingly, the Exchange believes that the proposal is consistent with the Act because it will allow the Exchange to extend the Pilot prior to its expiration on December 31, 2019. The Exchange notes that this proposal does not propose any new policies or provisions that are unique or unproven, but instead relates to the continuation of an existing program that operates on a pilot basis.

The Exchange believes that the Pilot promotes just and equitable principles of trade by enabling public customers and other market participants to express their true prices to buy and sell options to the benefit of all market participants.

The proposal to extend the Pilot is designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanisms of a free and open market and a national market system, by allowing the Exchange and the Commission additional time to analyze the impact of the Pilot while also allowing the Exchange to continue to compete for order flow with other exchanges in option issues trading as part of the Pilot.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the Exchange believes that, by extending the expiration of the Pilot, the proposed rule change will allow for further analysis of the Pilot and a determination of how this program should be structured in the future. In doing so, the proposed rule change will also serve to promote regulatory clarity and consistency, thereby reducing burdens on the marketplace and facilitating investor protection. The Pilot is an industry-wide initiative supported by all other option exchanges. The Exchange believes that extending the Pilot will allow for continued competition between Exchange market participants trading similar products as their counterparts on other exchanges, while at the same time allowing the Exchange to continue to compete for order flow with other exchanges in option issues trading as part of the Pilot.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act⁷ and Rule 19b-4(f)(6) thereunder.⁸ Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6)(iii) thereunder.⁹

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁰ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

⁷ 15 U.S.C. 78s(b)(3)(A)(iii).

⁸ 17 CFR 240.19b-4(f)(6).

⁹ 15 U.S.C. 78s(b)(3)(A)(iii). Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Commission notes that the Exchange satisfied this requirement.

¹⁰ 15 U.S.C. 78s(b)(2)(B).

- Send an email to rule-comments@sec.gov. Please include File Number SR-NYSEARCA-2019-83 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090. All submissions should refer to File Number SR-NYSEARCA-2019-83. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSEARCA-2019-83 and should be submitted on or before December 23, 2019.

SECURITIES AND EXCHANGE COMMISSION

Sunshine Act Meetings

TIME AND DATE: 1:00 p.m. on Wednesday, December 4, 2019.

¹¹ 17 CFR 200.30-3(a)(12).

PLACE: The meeting will be held at the Commission's headquarters, 100 F Street NE, Washington, DC 20549.

STATUS: This meeting will be closed to the public.

MATTERS TO BE CONSIDERED:

Commissioners, Counsel to the Commissioners, the Secretary to the Commission, and recording secretaries will attend the closed meeting. Certain staff members who have an interest in the matters also may be present.

In the event that the time, date, or location of this meeting changes, an announcement of the change, along with the new time, date, and/or place of the meeting will be posted on the Commission's website at <https://www.sec.gov>.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, one or more of the exemptions set forth in 5 U.S.C. 552b(c)(3), (5), (6), (7), (8), 9(B) and (10) and 17 CFR 200.402(a)(3), (a)(5), (a)(6), (a)(7), (a)(8), (a)(9)(ii) and (a)(10), permit consideration of the scheduled matters at the closed meeting.

The subject matters of the closed meeting will consist of the following topics:

- Institution and settlement of injunctive actions;

- Institution and settlement of administrative proceedings;

- Resolution of litigation claims; and

- Other matters relating to enforcement proceedings.

At times, changes in Commission priorities require alterations in the scheduling of meeting agenda items that may consist of adjudicatory, examination, litigation, or regulatory matters.

CONTACT PERSON FOR MORE INFORMATION:

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87613; File No. SR-BOX-2019-24]

Self-Regulatory Organizations; BOX Exchange LLC; Notice of Filing of Amendment No. 1 and Order Granting Accelerated Approval of a Proposed Rule Change, as Modified by Amendment No. 1, To Amend Rule 7600

November 25, 2019.

I. Introduction

On August 8, 2019, BOX Exchange LLC ("BOX" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to amend BOX Rule 7600 to permit split-price priority for Complex Qualified Open Outcry ("QOO") Orders and multi-leg QOO Orders.³ The proposed rule change was published for comment in the *Federal Register* on August 27, 2019.⁴ On October 9, 2019, pursuant to Section 19(b)(2) of the Act,⁵ the Commission extended to November 25, 2019, the time within which to approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether to approve or disapprove the proposed rule change.⁶ The Commission received no comment letters regarding the proposed rule change. On November 21, 2019, BOX submitted Amendment No. 1 to the proposed rule change.⁷

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ A QOO Order is a two-sided order that a Floor Broker submits to the BOX Trading Host for execution. QOO Orders include Complex Orders, as defined in BOX Rule 7240(a)(7) ("Complex QOO Orders"), and multi-leg orders that are not Complex Orders ("multi-leg QOO Orders"). Multi-leg QOO Orders must involve the simultaneous purchase and/or sale of two or more different options series in the same underlying security, for the same account, and for the purpose of executing a particular investment strategy. See BOX Rules 7600(a)(4) and (c). A QOO Order has an initiating side and a contra side. The initiating side must be filled in its entirety, and the contra-side must guarantee the full size of the initiating side of the QOO Order and may provide book sweep size, as provided in BOX Rule 7600(h). See BOX Rule 7600(a)(1).

⁴ See Securities Exchange Act Release No. 86723 (August 21, 2019), 84 FR 44954 ("Notice").

⁵ 15 U.S.C. 78s(b)(2).

⁶ See Securities Exchange Act Release No. 87266, 84 FR 55351 (October 16, 2019).

⁷ Amendment No. 1 revises the proposal to: (1) Add a paragraph to BOX Rule 7600(h) to describe the operation of book sweep size for Complex QOO Orders and multi-leg QOO Orders; (2) delete proposed BOX Rule 7600(i)(1)(i), which would have permitted split-price priority for Complex QOO and

Amendment No. 1 replaces and supersedes the original filing in its entirety. The Commission is publishing this notice to solicit comment on Amendment No. 1 to the proposed rule change from interested persons and is approving the proposed rule change, as modified by Amendment No. 1, on an accelerated basis.

II. Description of the Proposed Rule Change, as Modified by Amendment No. 1

BOX currently provides split-price priority for QOO Orders comprised of a single option series.⁸ BOX proposes to amend BOX Rule 7600(i) to permit split-price priority for Complex QOO Orders and multi-leg QOO Orders.⁹ Split-price priority will be available only for open outcry transactions.¹⁰ Under proposed BOX Rule 7600(i)(3), if an order or offer (bid) of a Complex QOO Order or multi-leg QOO Order with at least 100 contracts on each leg of the order is represented to the trading crowd, a Floor Participant that buys (sells) 50 or more contracts of each component leg at the permissible ratio of the Complex QOO Order or multi-leg QOO Order or offer (bid) at one price that complies with the priority requirements in BOX Rule 7600(c) will have priority over all other orders and quotes to buy (sell) up to the same number of contracts of those remaining from the same order or offer (bid) at the next lower (higher) price.¹¹ To obtain split-price priority, a Floor Participant must make its bid (offer) at the next lower (higher) price for the second (or later) transaction at the same time as the first bid (offer) or promptly following the announcement of the first

multi-leg QOO Orders with fewer than 100 contracts on each component leg of the order; (3) modify proposed BOX Rule 7600(i)(3) to make clear that split-price priority is available for Complex QOO and multi-leg QOO orders with at least 100 contracts on each component leg of the order and indicate that a Floor Participant must trade 50 or more contracts of each component leg of the Complex QOO or multi-leg QOO Order in a permissible ratio at a price that complies with the priority requirements of BOX Rule 7600(c) to obtain split-price priority; (4) delete a sentence from proposed BOX Rule 7600(i)(3) indicating that a Complex QOO or multi-leg QOO Order would have priority over all orders and quotes on the BOX Book and the Complex Order Book; (5) amend proposed BOX Rule 7600(i)(3)(i) and (ii) to more clearly describe the availability of split-price priority when the width of a quote for a strategy is \$0.01 based on interest in the Complex Order Book; and (6) modify examples and provide additional examples demonstrating the operation of the proposed functionality.

⁸ See BOX Rule 7600(i).

⁹ See proposed BOX Rule 7600(i)(3).

¹⁰ See proposed BOX Rule 7600(i)(5)(i).

¹¹ See proposed BOX Rule 7600(i)(3) and Amendment No. 1.

(or earlier) transaction.¹² The second (or later) purchase (sale) must represent the opposite side of a transaction with the same order or offer (bid) as the first (or earlier) purchase (sale).¹³

Split-price priority will not be available under certain circumstances. If the width of the quote for a strategy is \$0.01 based on interest in the Complex Order Book, and both the bid and offer represent Implied Orders or Public Customer Complex Orders resting in the Complex Order Book (*e.g.*, an Implied Order¹⁴ bidding \$2.00 for a strategy and a Public Customer offering \$2.01 for the strategy), split-price priority pursuant will not be available to a Floor Participant until the Implied Order or the Public Customer Complex Order resting in the Complex Order Book on either side of the market trades or is cancelled.¹⁵ If the width of the quote for the strategy is \$0.01 based on interest in Complex Order Book, and the bid and the offer do not represent Implied Orders or Public Customer Complex Orders, split price priority will be available subject to BOX Rule 7600(c).¹⁶

The proposal also amends BOX Rule 7600(h) to allow, but not require, a Floor Broker to provide a book sweep size for Complex QOO and multi-leg QOO Orders.¹⁷ The book sweep size is the number of contracts, if any, of the initiating side of the Complex QOO Order that the Floor Broker is willing to relinquish to orders and quotes on the BOX Complex Order Book and the BOX Book that have priority pursuant to BOX Rule 7240(b)(2) and (3).¹⁸ If the number of contracts on the BOX Complex Order Book or BOX Book that have priority over the contra-side order is greater than the book sweep size, the Complex QOO Order or multi-leg QOO Order will be rejected.¹⁹ If the number of contracts on the BOX Complex Order Book or BOX Book that have priority over the contra-side order is less than or equal to the book sweep size, then the Complex QOO Order or multi-leg QOO Order will execute.²⁰

BOX notes that another options exchange with a physical trading floor

currently offers split-price priority for complex orders.²¹

III. Discussion and Commission Findings

After careful review, the Commission finds that the proposed rule change, as modified by Amendment No. 1, is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.²² In particular, the Commission finds that the proposed rule change, as modified by Amendment No. 1, is consistent with Section 6(b)(5) of the Act,²³ which requires, among other things, that the Exchange's rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

Under the proposal, split-price priority will be available only for Complex QOO and multi-leg QOO Orders with at least 100 contracts on each component leg of the order.²⁴ The Commission believes that permitting split-price priority for these orders could help to facilitate the execution of Complex QOO and multi-leg QOO Orders which, because of their size, may be executed at multiple prices. To obtain split-price priority, a Floor Broker would be required to execute at least 50 contracts of each component leg of the Complex QOO or multi-leg QOO Order at the permissible ratio at a price that complies with the priority requirements in BOX Rule 7600(c).²⁵ The Commission notes that these requirements are consistent with split-price priority requirements for single-leg QOO orders of 100 or more contracts.²⁶

²¹ See Notice, 84 FR at 44954, n.4, and Nasdaq PHLX LLC Options 8 Floor Trading Rules, Section 22(a)(2)(D)(ii).

²² In approving this proposed rule change, as modified by Amendment No. 1, the Commission notes that it has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

²³ 15 U.S.C. 78f(b)(5).

²⁴ See proposed BOX Rule 7600(i)(3) and Amendment No. 1.

²⁵ See *id.*

²⁶ See BOX Rule 7600(i)(2) (providing that if an order or offer (bid) of 100 or more contracts of a series is represented to the trading crowd, a Floor Participant that buys (sells) 50 or more of the contracts of that order or offer (bid) at one price will have priority over all other orders and quotes to buy (sell) up to the same number of contracts of those remaining from the same order or offer (bid) at the next lower (higher) price). See also Amendment No. 1 (noting that the required quantities of at least 100 contracts per leg of the Complex QOO Order or multi-leg QOO order and at least 50 contracts per leg at the permissible ratio at the first price are the

The Commission believes that the proposed book sweep functionality for Complex QOO and multi-leg QOO Orders would protect the priority of resting interest and provide additional execution opportunities for such interest by allowing, but not requiring, a Floor Broker to relinquish contracts from the initiating side to trading interest on the Complex Order Book and the BOX Book that has priority over the contra-side order.²⁷ The proposal also protects resting interest by providing that split-price priority will not be available when the width of a quote for a strategy is \$0.01 based on interest on the Complex Order Book and both the bid and offer represent Implied Orders or Public Customer Complex Orders.²⁸

IV. Solicitation of Comments on Amendment No. 1

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether Amendment No. 1 to the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-BOX-2019-24 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-BOX-2019-24. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the

same quantities used for single leg orders using the split-price priority functionality, which could avoid investor confusion).

public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-BOX-2019-24 and should be submitted on or before December 23, 2019.

V. Accelerated Approval of Proposed Rule Change, as Modified by Amendment No. 1

The Commission finds good cause to approve the proposed rule change, as modified by Amendment No. 1, prior to the 30th day after the date of publication of notice of Amendment No. 1 in the **Federal Register**. As noted above, Amendment No. 1 revised the proposal to add text to BOX Rule 7600(h) to describe the operation of the book sweep functionality for Complex QOO and multi-leg QOO Orders, limit the availability of split-price priority to Complex QOO and multi-leg QOO Orders with at least 100 contracts on each component leg of the order, make clear that split-price priority is available for Complex QOO and multi-leg QOO orders with at least 100 contracts on each component leg of the order and indicate that a Floor Participant must trade 50 or more contracts of each component leg of the Complex QOO or multi-leg QOO Order in a permissible ratio at a price that complies with the priority requirements of BOX Rule 7600(c) to obtain split-price priority, more clearly describe the circumstances under which split-price priority is not available when the width of the market for a strategy is \$0.01 based on interest in the Complex Order Book, and modify examples and provide additional examples showing the operation of the proposed rules. The Commission notes that Amendment No. 1 provides that split-price priority is available only to Complex QOO and multi-leg QOO Orders with at least 100 contracts on each component leg of the order and that a Floor Broker seeking split-price priority must execute 50 or more contracts of each component leg at the permissible ratio at the first price to

obtain priority over the same number of contracts at the next less aggressive price, thereby assuring that split-price priority is available only to large Complex QOO and multi-leg QOO Orders and that a Floor Broker must trade a substantial portion of such an order at the first price to obtain split-price priority. In addition, Amendment No. 1 revises the text of BOX Rule 7600(h) to add a paragraph to the rule describing the operation of book sweep size for Complex and multi-leg QOO Orders, thereby assuring that the text of the rule indicates the availability and functioning of book sweep with respect to these orders.²⁹ The Commission believes that Amendment No. 1 provides additional clarity and detail to the rule text and additional analysis and examples of several aspects of the proposal, thereby facilitating the Commission's ability to make the findings set forth above to approve the proposal. For these reasons, the Commission finds good cause, pursuant to Section 19(b)(2) of the Act,³⁰ to approve the proposed rule change, as modified by Amendment No. 1, on an accelerated basis.

VI. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Exchange Act,³¹ that the proposed rule change (SR-BOX-2019-24), as modified by Amendment No. 1, is approved on an accelerated basis.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.³²

Eduardo A. Aleman,
Deputy Secretary.

DEPARTMENT OF STATE

[Public Notice 10936]

Additional Designations Pursuant of Executive Order 13382

ACTION: Designation of three Iranian entities pursuant to Executive Order 13382.

SUMMARY: Pursuant to the authority in section 1(ii) of Executive Order 13382, "Blocking Property of Weapons of Mass Destruction Proliferators and Their Supporter", the State Department, in consultation with the Secretary of Treasury and the Attorney General, has determined that the Iran Space Agency, The Iran Space and Research Center, and the Astronautics Research Institute engaged, or attempted to engage, in activities or transactions that have materially contributed to, or pose a risk of materially contributing to, the proliferation of weapons of mass destruction or their means of delivery (including missiles capable of delivering such weapons), including any efforts to manufacture, acquire, possess, develop, transport, transfer or use such items, by any person or foreign country of proliferation concern.

DATES: The designation by the Under Secretary of State for Arms Control and International Security of the entity identified in this notice pursuant of Executive Order 13382 is effective on September 3, 2019.

FOR FURTHER INFORMATION CONTACT: Rachael Jagielski, Office of Counterproliferation Initiatives, Bureau of International Security and Nonproliferation, Department of State, Washington, DC 20520, tel.: 202-647-5193.

SUPPLEMENTARY INFORMATION: On June 28, 2005, the President, invoking the authority, *inter alia*, of the International Emergency Economic Powers Act (50 U.S.C. 1701-1706) ("IEEPA"), issued Executive Order 13382 (70 CFR 38567, July 1, 2005) (the "Order"), effective at 12:01 a.m. eastern daylight time on June 30, 2005. In the Order the President took additional steps with respect to the national emergency described and declared in Executive Order 12938 of November 14, 1994, regarding the proliferation of weapons of mass destruction and the means of delivering them.

Section 1 of the Order blocks, with certain exceptions, all property and interests in property that are in the United States, or that hereafter come within the United States or that are or hereafter come within the possession or control of United States persons, of: (1) The persons listed in the Annex of the Order; (2) any foreign person determined by the Secretary of State in consultation with the Secretary of the Treasury, the Attorney General, and other relevant agencies, to have engaged, or attempted to engage, in activities or transactions that have materially contributed to, or pose a risk of materially contributing to, the proliferation of weapons of mass destruction or their means of delivery, including any efforts to manufacture, acquire, possess, develop, transport, transfer, or use such items, by any person or foreign country of proliferation concern; (3) any person determined by the Secretary of the Treasury, in consultation with the Secretary of State, the Attorney General, and other relevant agencies, to have provided, or attempted to provide, financial, material, technological or other support for, or goods or services in support of, any activity or transaction described in clause (2) above or any person whose property interests in property are blocked pursuant to the Order; and (4) any person determined by the Secretary of the Treasury, in consultation with the Secretary of State, the Attorney General, and other relevant agencies, to be owned or controlled by, or acting or purporting to act for or on behalf of, directly or indirectly, any person whose property and interests in property are blocked pursuant to the Order.

Information on the designee is as follows:

- The Iran Space Agency.
- Location: No. 57/2 Saie St., Vali E Asr St., Tehran Iran.
- The Iran Space Research Center.
- Location: Iran.
- Astronautics Research Institute (aka Aerospace Research Institute, aka Astronautics Systems Research Center).
- Location: P.O. Box 15875-3885, Tehran, Iran.
 - Alternative Location: 15th St., Mahestan St., Iran Zamin St., Shahrak Ghods, Tehran, 1465774111, Iran.
 - Alternative Location: Aerospace Rd., Mahestan Rd., Iran Zamin Rd., P.O. Box 14665-834, Tehran, Iran.
 - Alternative Location: Shahrak-E-Ghods, Iran Zamin St., Mahestan St., 15 Metri St.

[Public Notice: 10966]

Town Hall Meeting on Modernizing the Columbia River Treaty Regime

AGENCY: Department of State.

ACTION: Notice of meeting.

SUMMARY: The Department of State (Department) will hold a Town Hall meeting, co-hosted by the Northwest Power and Conservation Council (NWPCC), on December 16, 2019, in Richland, Washington, to discuss the modernization of the Columbia River Treaty (CRT) regime.

DATES: The meeting will be held on December 16, 2019, from 5:30 p.m. to approximately 7:00 p.m., Pacific Standard Time.

ADDRESSES: The meeting will be held in the Auditorium of the U.S. Federal Building, 825 Jadwin Ave., Richland, WA 99352.

FOR FURTHER INFORMATION CONTACT: Douglas D. Walker, Science and Technology Advisor, Office of Canadian Affairs, ColumbiaRiverTreaty@state.gov, 202-485-1883.

SUPPLEMENTARY INFORMATION: This Town Hall is part of the Department's public engagement on the modernization of the CRT regime. The meeting is open to the public, up to the capacity of the room. Attendees are advised to bring government-issued photo ID and to allow time for security screening to enter the federal building.

Requests for reasonable accommodation should be made to the email listed above, on or before December 9, 2019. The Department will consider requests made after that date but might not be able to accommodate them. Information about the meeting, including call-in information, can be found at <https://www.state.gov/p/wha/ci/ca/topics/c78892.htm> or by emailing the email address listed above.

BILLING CODE 4710-29-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Intent To Rule on Request To Release Airport Property at the San Marcos Regional Airport, San Marcos, Texas

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of request to release airport property.

SUMMARY: The FAA proposes to rule and invite public comment on the release of land at the San Marcos Regional Airport under the provisions of Section 125 of the Wendell H. Ford Aviation Investment Reform Act for the 21st Century (AIR 21).

DATES: Comments must be received on or before January 2, 2020.

ADDRESSES: Comments on this application may be mailed or delivered to the FAA at the following address: Mr. Ben Guttery, Manager, Federal Aviation Administration, Southwest Region, Airports Division, Texas Airports District Office, ASW-650, 10101 Hillwood Parkway, Fort Worth, Texas 76177.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Mr. Steve Parker, Assistant City Manager, at the following address: 630 E Hopkins, San Marcos, Texas 78666.

FOR FURTHER INFORMATION CONTACT: Mr. Todd Hebert, Program Manager, Federal Aviation Administration, Texas Airports District Office, ASW-650, 10101 Hillwood Parkway, Fort Worth, TX 76177, Telephone: (817) 222-5614, email: todd.hebert@faa.gov.

The request to release property may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA invites public comment on the request

to release property at the San Marcos Regional Airport under the provisions of the AIR 21.

The following is a brief overview of the request:

City of San Marcos requests the release of 19.16 acres of non-aeronautical airport property. The property is located on the west side of the airport, along the future development of FM 110. The property to be released will be used as roadway ROW for the construction of FM 110. FM 110 will provide improved access to the airport from IH 35. Proceeds from the disposition of the property will be used for engineering and construction for a new access from FM 110 to the airport. This new access will improve accessibility to the airport. Any person may inspect the request in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT.**

In addition, any person may, upon request, inspect the application, notice and other documents relevant to the application in person at the San Marcos Regional Airport, telephone number (512) 216-6042.

Issued in Fort Worth, Texas, on September 13, 2019.

Ignacio Flores,

Director, Airports Division.

BILLING CODE 4910-13-P

DEPARTMENT OF THE TREASURY

Bureau of the Fiscal Service

Proposed Collection of Information: Offering of U.S. Mortgage Guaranty Insurance Company Tax and Loss Bonds

ACTION: Notice and request for comments.

SUMMARY: The Department of the Treasury, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. Currently the Bureau of the Fiscal Service within the Department of the Treasury is soliciting comments concerning the Offering of U.S. Mortgage Guaranty Insurance Company Tax and Loss Bonds.

DATES: Written comments should be received on or before January 31, 2020 to be assured of consideration.

ADDRESSES: Direct all written comments and requests for additional information

to Bureau of the Fiscal Service, Bruce A. Sharp, Room #4006-A, P.O. Box 1328, Parkersburg, WV 26106-1328, or bruce.sharp@fiscal.treasury.gov.

SUPPLEMENTARY INFORMATION:

Title: Offering of U.S. Mortgage Guaranty Insurance Company Tax and Loss Bonds.

OMB Number: 1530-0051.

Abstract: Chapter 31 of Title 31 of the United States Code authorizes the Secretary of the Treasury to prescribe the terms and conditions, including the form, of United States Treasury bonds, notes and bills. The information collected is essential to establish and maintain Tax and Loss Bond accounts (31 CFR part 343). This regulation governs issues, reissues and redemptions of Tax and Loss bonds. The information requested will be used to issue a Statement of Account to the entity, establish issue and maturity dates for the bonds, and provide electronic payment routing instructions for the proceeds.

Current Actions: Extension of a currently approved collection.

Type of Review: Regular.

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 50.

Estimated Time per Respondent: 15 minutes.

Estimated Total Annual Burden Hours: 13.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: 1. Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; 2. the accuracy of the agency's estimate of the burden of the collection of information; 3. ways to enhance the quality, utility, and clarity of the information to be collected; 4. ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and 5. estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Dated: November 18, 2019.

Bruce A. Sharp,

Bureau Clearance Officer.

BILLING CODE 4810-AS-P

DEPARTMENT OF THE TREASURY**Office of Foreign Assets Control****Notice of OFAC Sanctions Actions**

AGENCY: Office of Foreign Assets Control, Treasury.

ACTION: Notice.

SUMMARY: The U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC) is publishing the names of one or more persons that have been placed on OFAC's Specially Designated Nationals and Blocked Persons List based on OFAC's determination that one or more applicable legal criteria were satisfied. All property and interests in property subject to U.S. jurisdiction of these persons are blocked, and U.S. persons are generally prohibited from engaging in transactions with them.

DATES: See **SUPPLEMENTARY INFORMATION** section for effective date(s).

FOR FURTHER INFORMATION CONTACT:

OFAC: Associate Director for Global Targeting, tel.: 202-622-2420; Assistant Director for Sanctions Compliance & Evaluation, tel.: 202-622-2490; Assistant Director for Licensing, tel.: 202-622-2480; or the Department of the Treasury's Office of the General Counsel: Office of the Chief Counsel (Foreign Assets Control), tel.: 202-622-2410.

SUPPLEMENTARY INFORMATION:**Electronic Availability**

The Specially Designated Nationals and Blocked Persons List and additional information concerning OFAC sanctions programs are available on OFAC's website (www.treas.gov/ofac).

Notice of OFAC Actions

On November 22, 2019, OFAC determined that the property and interests in property subject to U.S. jurisdiction of the following person are blocked under the relevant sanctions authorities listed below.

Individual

1. AZARI JAHROMI, Mohammad Javad, Iran; DOB 16 Sep 1981; POB Jahrom, Iran; Additional Sanctions Information—Subject to Secondary Sanctions; Gender Male (individual) [IRAN] [IRAN-TRA].

Designated pursuant to section 7(a)(v) of Executive Order 13846 of August 6, 2018, 83 FR 38939, 3 CFR, 2019 Comp., p. 854, for having engaged in censorship or other activities with respect to Iran on or after June 12, 2009, that prohibit limit, or penalize the exercise of freedom of expression or assembly by citizens of Iran, or that limit access to

print or broadcast media, including the facilitation or support of intentional frequency manipulation by the Government of Iran or an entity owned or controlled by the Government of Iran that would jam or restrict an international signal.

Dated: November 22, 2019.

Andrea M. Gacki,

Director, Office of Foreign Assets Control.

BILLING CODE 4810-AL-P

DEPARTMENT OF THE TREASURY**Internal Revenue Service****Proposed Extension of Information Collection Request Submitted for Public Comment; Comment Request on Application for Extension of Time To File Information Returns**

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice and request for comments.

SUMMARY: The Internal Revenue Service, as part of its continuing effort to reduce paperwork and respondent burden, invites the public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. Currently, the IRS is soliciting comments concerning the collection of information related to the requirements for reporting on returns regarding payments of interest.

DATES: Written comments should be received on or before January 31, 2020 to be assured of consideration.

ADDRESSES: Direct all written comments to Philippe Thomas, Internal Revenue Service, Room 6529, 1111 Constitution Avenue NW, Washington, DC 20224. Requests for additional information or copies of the regulations should be directed to R. Joseph Durbala, at Internal Revenue Service, Room 6129, 1111 Constitution Avenue NW, Washington, DC 20224, or through the internet, at RJoseph.Durbala@irs.gov.

SUPPLEMENTARY INFORMATION:

Title: Application for Extension of Time to File Information Returns.

OMB Number: 1545-1081.

Regulatory Number: TD 9838.

Form Number: 8809.

Abstract: Form 8809 is used to request an extension of time to file Forms W-2, W-2G, 1042-S, 1094-C, 1095, 1097, 1098, 1099, 3921, 3922, 5498, or 8027. The IRS reviews the information contained on the form to determine whether an extension should be granted.

Current Actions: There is no change to the burden previously approved by OMB. This form is being submitted for renewal purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit organizations, individuals, not-for-profit institutions, farms, and Federal, State, local or tribal governments.

Estimated Number of Respondents: 50,000.

Estimated Time per Respondent: 4 hrs., 44 min.

Estimated Total Annual Burden Hours: 237,000.

The following paragraph applies to all the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number.

Books or records relating to a collection of information must be retained if their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Desired Focus of Comments: The Internal Revenue Service (IRS) is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, by permitting electronic submissions of responses.

Comments submitted in response to this notice will be summarized and/or included in the ICR for OMB approval of the extension of the information collection; they will also become a matter of public record.

Approved: November 22, 2019.

R. Joseph Durbala,
IRS Tax Analyst.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Proposed Collection; Comment Request for Form 8873

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice and request for comments.

SUMMARY: The Internal Revenue Service as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on information collections, as required by the Paperwork Reduction Act of 1995. The IRS is soliciting comments concerning Form 8873, Extraterritorial Income Exclusion.

DATES: Written comments should be received on or before January 31, 2020 to be assured of consideration.

ADDRESSES: Direct all written comments to Dr. Philippe Thomas, Internal Revenue Service, Room 6526, 1111 Constitution Avenue NW, Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the form and instructions should be directed to Sara Covington, at (202) 317-6038, Internal Revenue Service, Room 6526, 1111 Constitution Avenue NW, Washington, DC 20224, or through the internet at Sara.L.Covington@irs.gov.

SUPPLEMENTARY INFORMATION:

Title: Extraterritorial Income Exclusion.

OMB Number: 1545-1722.

Form Number: 8873.

Abstract: The FSC and Extraterritorial Income Exclusion Act of 2000 added section 114 to the Internal Revenue Code. Section 114 provides for an exclusion from gross income for certain transactions occurring after September 30, 2000, with respect to foreign trading gross receipts. Form 8873 is used to compute the amount of extraterritorial income excluded from gross income for the tax year.

Current Actions: There are no changes being made to the form at this time. This submission is for renewal purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 750,000.

Estimated Time per Respondent: 24 hours, 27 minutes.

Estimated Total Annual Burden Hours: 19,087,500.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Approved: November 25, 2019.

ACTION: Notice and request for comments.

SUMMARY: The Internal Revenue Service, as part of its continuing effort to reduce

paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on information collections, as required by the Paperwork Reduction Act of 1995. The IRS is soliciting comments concerning Revenue Procedure 2007-12, Certification for No Information Reporting on the Sale or Exchange of a Principal Residence.

DATES: Written comments should be received on or before January 31, 2020 to be assured of consideration.

ADDRESSES: Direct all written comments to Dr. Philippe Thomas, Internal Revenue Service, Room 6526, 1111 Constitution Avenue NW, Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the revenue procedure should be directed to Sara Covington, at Internal Revenue Service, Room 6526, 1111 Constitution Avenue NW, Washington, DC 20224, or at (202) 317-6038, or through the internet at Sara.L.Covington@irs.gov.

SUPPLEMENTARY INFORMATION:

Title: Certification For No Information Reporting on The Sale or Exchange of a Principal Residence.

OMB Number: 1545-1592.

Revenue Procedure Number: Revenue Procedure 2007-12.

Abstract: This revenue procedure sets forth the acceptable form of the written assurances (certification) that a real estate reporting person must obtain from the seller of a principal residence to except such sale or exchange from the information reporting requirements for real estate transactions under section 6045(e)(5) of the Internal Revenue Code.

Current Actions: There are no changes being made to the revenue procedure at this time.

Type of Review: Extension of a currently approved collection.

Affected Public: Individuals or households, and business or other for-profit organizations.

Estimated Number of Respondents: 2,300,000.

Estimated Time per Respondent: 10 minutes.

Estimated Total Annual Burden Hours for Respondents: 383,000.

Estimated Number of Recordkeepers: 90,000.

Estimated Time per Recordkeeper: 25 minutes.

Estimated Total Annual Burden Hours for Recordkeepers: 37,500.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to

respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Approved: November 25, 2019.

Philippe Thomas,

IRS, Supervisory Tax Analyst.

BILLING CODE 4830-01-P

DEPARTMENT OF THE TREASURY

Survey of U.S. Ownership of Foreign Securities as of December 31, 2019

AGENCY: Departmental Offices, Department of the Treasury.

ACTION: Notice of reporting requirements.

SUMMARY: By this Notice, the Department of the Treasury is informing the public that it is conducting a

mandatory survey of ownership of foreign securities by U.S. residents as of December 31, 2019. This Notice constitutes legal notification to all United States persons (defined below) who meet the reporting requirements set forth in this Notice that they must respond to, and comply with, this survey. The reporting form SHCA (2019) and instructions may be printed from the internet at: <http://www.treasury.gov/resource-center/data-chart-center/tic/Pages/forms-sh.aspx#shc>.

Definition: Pursuant to 22 U.S.C. 3102, a United States person is any individual, branch, partnership, associated group, association, estate, trust, corporation, or other organization (whether or not organized under the laws of any State), and any government (including a foreign government, the United States Government, a State or local government, and any agency, corporation, financial institution, or other entity or instrumentality thereof, including a government-sponsored agency), who resides in the United States or is subject to the jurisdiction of the United States.

Who Must Report: The reporting panel is based upon the data submitted for the 2016 Benchmark survey and the June 2019 TIC report "Aggregate Holdings of Long-Term Securities by U.S. and Foreign Residents" (TIC SLT). Entities required to report will be contacted individually by the Federal Reserve Bank of New York. Entities not contacted by the Federal Reserve Bank of New York have no reporting responsibilities.

What To Report: This report will collect information on holdings by U.S. residents of foreign securities, including equities, long-term debt securities, and short-term debt securities (including selected money market instruments).

How To Report: Copies of the survey forms and instructions, which contain complete information on reporting procedures and definitions, may be obtained at the website address given above in the Summary. Completed reports can be submitted electronically

or mailed to the Federal Reserve Bank of New York, Data and Statistics Function, 6th Floor, 33 Liberty Street, New York, NY 10045-0001. Inquiries can be made to the survey staff of the Federal Reserve Bank of New York at (212) 720-6300 or email: SHC.help@ny.frb.org. Inquiries can also be made to Dwight Wolkow at (202) 622-1276, email: comments2TIC@do.treas.gov.

When To Report: Data must be submitted to the Federal Reserve Bank of New York, acting as fiscal agent for the Department of the Treasury, by March 6, 2020.

Paperwork Reduction Act Notice: This data collection has been approved by the Office of Management and Budget (OMB) in accordance with the Paperwork Reduction Act and assigned control number 1505-0146. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid control number assigned by OMB. The estimated average annual burden associated with this collection of information is 49 hours per respondent for end-investors and custodians that file Schedule 3 reports covering their foreign securities entrusted to U.S. resident custodians, 146 hours per respondent for large end-investors filing Schedule 2 reports, and 546 hours per respondent for large custodians of securities filing Schedule 2 reports. Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Department of the Treasury, Attention: Administrator, International Portfolio Investment Data Reporting Systems, Room 1050, Washington, DC 20220, and to OMB, Attention: Desk Officer for the Department of the Treasury, Office of Information and Regulatory Affairs, Washington, DC 20503.

Dwight Wolkow,

Administrator, International Portfolio Investment Data Reporting Systems.

Part II

The President

Executive Order 13898—Establishing the Task Force on Missing and Murdered American Indians and Alaska Natives

Presidential Documents

Title 3—**Executive Order 13898 of November 26, 2019****The President****Establishing the Task Force on Missing and Murdered American Indians and Alaska Natives**

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to enhance the operation of the criminal justice system and address the legitimate concerns of American Indian and Alaska Native communities regarding missing and murdered people—particularly missing and murdered indigenous women and girls—it is hereby ordered as follows:

Section 1. Purpose. My Administration has heard the ongoing and serious concerns of tribal governments regarding missing and murdered members of American Indian and Alaska Native communities, particularly women and girls. To address the severity of those concerns, top officials within the Federal Government will coordinate and engage with the tribal governments.

Sec. 2. Establishment. (a) There is hereby established the Task Force on Missing and Murdered American Indians and Alaska Natives (Task Force), co-chaired by the Attorney General and the Secretary of the Interior (Secretary) or their designees.

(b) The Department of Justice shall provide funding and administrative support as may be necessary for the performance and functions of the Task Force. The Attorney General, in consultation with the Secretary, shall designate an official of the Department of Justice to serve as the Executive Director of the Task Force, responsible for coordinating its day-to-day functions. As necessary and appropriate, the Co-Chairs may afford the other members of the Task Force an opportunity to provide input into the decision of whom to designate as the Executive Director.

Sec. 3. Membership. (a) In addition to the Co-Chairs, the Task Force shall be composed wholly of full-time, or permanent part-time, officers or employees of the Federal Government and shall include the following members:

- (i) the Director of the Federal Bureau of Investigation;
- (ii) the Assistant Secretary for Indian Affairs, Department of the Interior;
- (iii) the Director of the Office on Violence Against Women, Department of Justice;
- (iv) the Director of the Office of Justice Services, Bureau of Indian Affairs, Department of the Interior;
- (v) the Chair of the Native American Issues Subcommittee of the Attorney General's Advisory Committee;
- (vi) the Commissioner of the Administration for Native Americans, Department of Health and Human Services; and
- (vii) such representatives of other executive departments, agencies, and offices as the Co-Chairs may, from time to time, designate.

(b) In performing the functions set forth in sections 4 and 5 of this order, the Co-Chairs and members may designate representatives of their respective departments, agencies, offices, or entities under their direction to participate in the Task Force as necessary, and the Co-Chairs may also direct coordination with other Presidential task forces. In carrying out its functions, the Task Force shall coordinate with appropriate White House officials, including the Senior Counselor to the President, the Assistant

to the President for Domestic Policy, and the Deputy Assistant to the President and Director of Intergovernmental Affairs.

Sec. 4. Mission and Functions. (a) The Task Force shall:

(i) conduct appropriate consultations with tribal governments on the scope and nature of the issues regarding missing and murdered American Indians and Alaska Natives;

(ii) develop model protocols and procedures to apply to new and unsolved cases of missing or murdered persons in American Indian and Alaska Native communities, including best practices for:

(A) improving the way law enforcement investigators and prosecutors respond to the high volume of such cases, and to the investigative challenges that might be presented in cases involving female victims;

(B) collecting and sharing data among various jurisdictions and law enforcement agencies; and

(C) better use of existing criminal databases, such as the National Missing and Unidentified Persons System (NamUs), the National Crime Information Center (NCIC), and the Combined DNA Index System (CODIS) including the National DNA Index System (NDIS);

(iii) establish a multi-disciplinary, multi-jurisdictional team including representatives from tribal law enforcement and the Departments of Justice and the Interior to review cold cases involving missing and murdered American Indians and Alaska Natives;

(iv) address the need for greater clarity concerning roles, authorities, and jurisdiction throughout the lifecycle of cases involving missing and murdered American Indians and Alaska Natives by:

(A) developing and publishing best-practices guidance for use by Federal, State, local, and tribal law enforcement in cases involving missing and murdered American Indians and Alaska Natives, to include best practices related to communication with affected families from initiation of an investigation through case resolution or closure;

(B) facilitating formal agreements or arrangements among Federal, State, local, and tribal law enforcement to promote maximally cooperative, trauma-informed responses to cases involving missing and murdered American Indians and Alaska Natives;

(C) developing and executing an education and outreach campaign for communities that are most affected by crime against American Indians and Alaska Natives to identify and reduce such crime; and

(D) developing, in partnership with NamUs, a public-awareness campaign to educate both rural and urban communities about the needs of affected families and resources that are both needed and available.

Sec. 5. Reporting. (a) No later than 1 year after the date of this order, the Task Force shall develop and submit to the President, through the Assistant to the President for Domestic Policy, a written report regarding the activities and accomplishments of the Task Force, the status of projects the Task Force has not yet completed, and specific recommendations for future action of the Task Force.

(b) No later than 2 years after the date of this order, the Task Force shall develop and submit to the President, through the Assistant to the President for Domestic Policy, a final written report regarding the activities and accomplishments of the Task Force.

Sec. 6. Termination. The Task Force shall terminate 2 years after the date of this order, unless otherwise directed by the President.

Sec. 7. General Provisions. (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

A handwritten signature in black ink, appearing to be a stylized name, located on the right side of the page.
