

Specified Activities

The planned activities occur on Southeast Farallon Island (SEFI), Año Nuevo Island (ANO), and Point Reyes National Seashore (PRNS). Point Blue, along with partners Oikonos Ecosystem Knowledge and PRNS, have been conducting seabird research activities at these locations for over 30 years. This research is conducted under cooperative agreements with the U.S. Fish and Wildlife Service (USFWS) in consultation with the Gulf of the Farallones National Marine Sanctuary. Point Blue's research activities have the potential to harass California sea lions (*Zalophus californianus*), harbor seals (*Phoca vitulina*), northern elephant seals (*Mirounga angustirostris*), northern fur seals (*Callorhinus ursinus*), Guadalupe fur seals (*Arctocephalus townsendi*), and Steller sea lions (*Eumetopias jubatus*).

Research on SEFI is conducted year round. At SEFI, seabird monitoring sites are visited ~ 1–3 times per day for a maximum of 500 visits per year. Most seabird monitoring visits are brief (~15 minutes), though seabird observers are present from 2–5 hours daily at North Landing from early April—early August each year to conduct observational studies on breeding common murrens (*Uria aalge*). Boat landings to re-supply the field station, lasting 1–3 hours, are conducted once every two weeks. At

ANI, research is conducted approximately once/week from April–August, with occasional intermittent visits made during the rest of the year. The maximum number of visits per year would be 20. Landings and visits to nest boxes are brief (~15 minutes). Research at PRNS is conducted year round, with an emphasis during the seabird nesting season with occasional intermittent visits the rest of the year. The maximum number of visits per year is 20. A component of the seabird research involves habitat restoration and monitoring which requires sporadic visits from September–November, between the seabird breeding season and the elephant seal pupping season.

Information Solicited

Interested persons may submit information, suggestions, and comments concerning Point Blue's request (see **ADDRESSES**). NMFS will consider all information, suggestions, and comments related to the request during the development of proposed regulations governing the incidental taking of marine mammals by Point Blue, if appropriate.

Dated: November 27, 2019.

201 12TH STREET SOUTH, SUITE 101
ARLINGTON, VA 22202-5408

OCT 10 2019

The Honorable Nancy Pelosi
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 19-56 concerning the Air Force's proposed Letter(s) of Offer and Acceptance to the Government of Tunisia for defense articles and services estimated to cost \$234 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

A handwritten signature in black ink, appearing to read "C. W. Hooper".

Charles W. Hooper
Lieutenant General, USA
Director

(viii) *Date Report Delivered to Congress*: October 10, 2019

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Tunisia—T–6C Texan Trainer Aircraft

The Government of Tunisia has requested a possible sale of twelve (12) T–6C Texan trainer aircraft, spare engines, cartridge actuated devices/propellant actuated devices operational flight trainer, spare parts, ground handling equipment, support

equipment, software delivery and support, publications and technical documentation, clothing, textiles and individual equipment, aircraft ferry support, technical and logistical support services, site surveys, minor modifications/class IV support, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated value is \$234 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the defense capabilities and capacity of a major non-NATO ally, which is an important force for political stability and economic progress in North Africa. This potential sale will provide additional opportunities for bilateral engagements and further strengthen the bilateral relationship between the United States and Tunisia.

The proposed sale will replace Tunisia's aging trainer fleet and allow Tunisia to continue training pilots to support Tunisia's counter-terrorism and border security missions. Tunisia will have no difficulty absorbing this aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Textron Aviation Defense LLC of Wichita, Kansas. There are no known offset agreement proposed with this potential sale. However, the purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will require the assignment of nine U.S. Government and one contractor representative to Tunisia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 19–56

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The T–6C is a single engine turboprop trainer aircraft that includes a virtual no-drop scoring capability. Its primary purpose is to teach air to ground operations. No hard points or weapons can be carried on the T–6C.

2. A determination has been made that the recipient country can provide substantially the same degree of protection for the technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

3. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Tunisia.
