

125-mile Agency Preferred Alternative described in the Final EIS as the Selected Alternative in the ROD. The Selected Alternative will allow authorization of a ROW grant to the Applicant to use public land administered by the BLM for the Project for 50 years.

The Selected Alternative includes an amendment to the Yuma RMP to allow consideration of ROWs outside of designated BLM utility corridors based on project-specific analysis. The Selected Alternative also includes an amendment to the CDCA Plan to allow construction of the Ten West Link project, within 0.25-mile of occurrences of Harwood's eriostrom, a BLM-identified sensitive plant species.

Publication of the Notice of Availability of the Final EIS and Proposed Plan Amendments initiated a 30-day protest period for the plan amendments, which concluded on October 15, 2019. Simultaneously with the protest period, the Governors of Arizona and California conducted a 60-day consistency review of the Final EIS and Proposed land use plan amendments to identify any inconsistencies with State or local plans, policies, or programs.

During the 30-day protest period, the BLM Director received two protest letters. All protests were resolved prior to the issuance of the ROD. No comments regarding potential inconsistencies with State and local plans, programs, and policies were received from the Arizona or California Governor's Offices.

An errata sheet has been prepared to make minor corrections and clarifications to information presented in the Final EIS. This is included as an attachment to the ROD.

The decision to issue a ROW grant may be appealed to the Interior Board of Land Appeals (IBLA), Office of the Secretary, in accordance with regulations contained in 43 CFR, Part 4 and Form 1842-1. If an appeal is taken, your notice of appeal must be filed within 30 days from receipt of this decision. The appellant has the burden of showing the decision appealed is in error.
