SUPPLEMENTARY INFORMATION: The primary objective of the STEP Client Report form is to collect data on the quarterly progress of grantees of the SBA's State Trade and Export Promotion (STEP) program. These data will be used to understand how states have improved their trade and export activities and revenue. The STEP program has two primary objectives: (1) Increase the number of small businesses that are exporting and (2) increase the value of exports for small businesses that are currently exporting. To achieve these objectives, SBA provides state-level grant recipients with funding for nine activities, including participation in foreign trade missions, design of marketing media, and trade show exhibitions.

Data from the STEP Client Report will provide SBA with critical information about the impact of various strategies used to advance trade and export activities in each state. These data will also provide an understanding of the specific ways in which funded activities meet SBA's goal of improving small business trade and export productivity. These data may inform strategies that can be replicated by other small businesses. These data are not currently being collected elsewhere and are critical to understanding the outcomes of STEP grantee activities.

Solicitation of Public Comments

SBA is requesting comments on (a) whether the collection of information is necessary for the agency to properly perform its functions; (b) whether the burden estimates are accurate; (c) whether there are ways to minimize the burden, including through the use of automated techniques or other forms of information technology; and (d) whether there are ways to enhance the quality, utility, and clarity of the information.
