I. Abstract

Abstract: The “USAID National Survey of U.S. Adults about Global Food Security” is a 20-minute nationally-representative voluntary survey of U.S. adults conducted for USAID by a professional research company. The purpose of the research is to inform the communications strategy, education, and outreach efforts for the Feed the Future Initiative. The research contractor will gather information and feedback by telephone and online from 1,000 voluntary adult participants using a nationally representative survey

sampling method. Using the information collected in the survey, the research consultant will measure opinions about global food security and hunger, program awareness, reasons for improving global food security and reducing hunger, questions and concerns about the initiative, as well as consumer segments and insights for each segment to more effectively hone communication, education and outreach efforts. Information will be used to improve the effectiveness of Agency communications and education efforts with the public.

Likely Respondents: This study includes one respondent group, U.S. adults 18 years and older living in the fifty states and the District of Columbia.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions and survey screening criteria; to develop, acquire, install and utilize technology and systems for the purpose of providing opinions and feedback; to be able to respond to and complete the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated are summarized in the table below.

ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (hours)	Total burden hours
USAID Feed the Future Initiative Audience Segmentation	1,000	1	1,000	.333	333
Screened households	1,200	1	1,200	.0167	20.04
Total	2,200	353.04

USAID specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency’s functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
