**FEDERAL HOUSING FINANCE AGENCY**

[No. 2019–N–8]

**Proposed Collection; Comment Request**

**AGENCY:** Federal Housing Finance Agency.

**ACTION:** 60-Day notice of submission of information collection for approval from Office of Management and Budget.

**SUMMARY:** In accordance with the requirements of the Paperwork Reduction Act of 1995 (PRA), the Federal Housing Finance Agency (FHFA) is seeking public comments concerning an information collection known as the “National Survey of Mortgage Originations” (NSMO), which has been assigned control number 2590–0012 by the Office of Management and Budget (OMB). FHFA intends to submit the information collection to OMB for review and approval of a three-year extension of the control number, which is due to expire on April 30, 2020.

**DATES:** Interested persons may submit comments on or before February 10, 2020.

**ADDRESSES:** Submit comments to FHFA, identified by “Proposed Collection; Comment Request: National Survey of Mortgage Originations, (No. 2019–N–8)”, by any of the following methods:

- Agency Website: www.fhfa.gov/open-for-comment-or-input.
- Federal eRulemaking Portal: http://www.regulations.gov. Follow the instructions for submitting comments. If you submit your comment to the Federal eRulemaking Portal, please also send it by email to FHFA at RegComments@fhfa.gov to ensure timely receipt by the agency.

We will post all public comments we receive without change, including any personal information you provide, such as your name and address, email address, and telephone number, on the FHFA website at http://www.fhfa.gov. In addition, copies of all comments received will be available for examination by the public through the electronic comment docket for this PRA Notice also located on the FHFA website.

**SUPPLEMENTARY INFORMATION:**

A. Need For and Use of the Information Collection

The NSMO is a recurring quarterly survey of individuals who have recently obtained a loan secured by a first mortgage on single-family residential property. The survey questionnaire is sent to a representative sample of mortgages and the characteristics of the associated borrowers and properties associated with those mortgages, in order to enable it to prepare a detailed annual report on the mortgage market activities of the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac) for review by the appropriate Congressional oversight committees. Section 1324(c) also authorizes and requires FHFA to compile a database of otherwise unavailable residential mortgage market information and to make that information available to the public in a timely fashion.

As a means of fulfilling those and other statutory requirements, as well as to support policymaking and research regarding the residential mortgage markets, FHFA and CFPB jointly established the NMDB Program in 2012. The Program is designed to provide comprehensive information about the U.S. mortgage market and has two primary components: (1) The NMDB; (2) the NSMO; and (3) the American Survey of Mortgage Borrowers (ASMB).

The NMDB is a de-identified loan-level database of closed-end first-lien residential mortgage loans that is representative of the market as a whole, contains detailed loan-level information on the terms and performance of the mortgages and the characteristics of the associated borrowers and properties, is continually updated, has an historical component dating back to 1998, and provides a sampling frame for surveys to collect additional information. The core data in the NMDB are drawn from a random 1-in-20 sample of all closed-end first-lien mortgage files outstanding at any time between January 1998 and the present in the files of Experian, one of the three national credit repositories. A random 1-in-20 sample of mortgages...

2In addition, copies of the questionnaire in both English and Spanish can be accessed online at: http://www.fhfa.gov/Homeownerbuyer/Pages/National-Survey-of-Mortgage-Originations.aspx.

3 12 U.S.C. 4544(c).
newly reported to Experian is added each quarter.

The NMDB draws additional information on mortgages in the NMDB datasets from other existing sources, including the Home Mortgage Disclosure Act (HMDA) data that are maintained by the Federal Financial Institutions Examination Council (FFIEC), property valuation models, and data files maintained by Fannie Mae and Freddie Mac and by federal agencies. FHFA also obtains data from the ASMB, which solicits information on borrowers’ experience with maintaining their existing mortgages, including their experience maintaining mortgages under financial stress, their experience in soliciting financial assistance, their success in accessing federally-sponsored programs designed to assist them, and, where applicable, any challenges they may have had in terminating a mortgage loan.4

While the ASMB focuses on borrowers’ experience with maintaining existing mortgages, the NSMO solicits information on newly-originated mortgages and the borrowers’ experiences with the mortgage origination process. It was developed to complement the NMDB by providing critical and timely information—not available from existing sources—on the range of nontraditional and subprime mortgage products being offered, the methods by which these mortgages are being marketed, and the characteristics of borrowers for these types of loans. In particular, the survey questionnaire is designed to elicit directly from mortgage borrowers information on the characteristics of the borrowers and on their experiences in finding and obtaining a mortgage loan, including: Their mortgage shopping behavior; their mortgage closing experiences; their expectations regarding house price appreciation; and critical financial and other life events affecting their households, such as unemployment, large medical expenses, or divorce. The survey questions do not focus on the terms of the borrowers’ mortgage loans because these fields are available in the Experian data. However, the NSMO collects a limited amount of information on each respondent’s mortgage to verify that the Experian records and survey responses pertain to the same mortgage. Each wave of the NSMO is sent to the primary borrowers on about 6,000 mortgage loans, which are drawn from a simple random sample of the 80,000 to 100,000 newly originated mortgage loans that are added to the National Mortgage Database from the Experian files each quarter (at present, this represents an approximately 1-in-15 sample of loans added to the National Mortgage Database and an approximately 1-in-300 sample of all mortgage loan originations). By contract with FHFA, the conduct of the NSMO is administered through Experian, which has subcontracted the survey administration through a competitive process to Westat, a nationally-recognized survey vendor.5 Westat also carries out the pre-testing of the survey materials.

B. Need For and Use of the Information Collection

FHFA views the NMDB Program as a whole, including the NSMO, as the monthly “survey” that is required by section 1324 of the Safety and Soundness Act. Core inputs to the NMDB, such as a regular refresh of the Experian data, occur monthly, though NSMO itself does not. In combination with the other information in the NMDB, the information obtained through the NSMO is used to prepare the report to Congress on the mortgage market activities of Fannie Mae and Freddie Mac that FHFA is required to submit under section 1324, as well as for research and analysis by FHFA and CFPB in support of their regulatory and supervisory responsibilities related to the residential mortgage markets. The NSMO is especially critical in ensuring that the NMDB contains uniquely comprehensive information on the range of nontraditional and subprime mortgage products being offered, the methods by which these mortgages are being marketed and the characteristics—and particularly the creditworthiness—of borrowers for these types of loans. In November 2018, FHFA and the CFPB released a loan-level dataset collected through the NSMO for public use.6 The information provides a resource for research and analysis by federal agencies, by Fannie Mae and Freddie Mac, and by academics and other interested parties outside of the government. FHFA is also seeking OMB approval to continue to conduct cognitive pre-testing of the survey materials. The Agency uses information collected through that process to assist in drafting and modifying the survey questions and instructions, as well as the related communications, to read in the way that will be most readily understood by the survey respondents and that will be most likely to elicit usable responses. Such information is also used to help the Agency decide on how best to organize and format the survey questionnaires.

The OMB control number for this information collection is 2590–0012. The current clearance for the information collection expires on April 30, 2020.

C. Burden Estimate

FHFA has analyzed the hour burden on members of the public associated with conducting the survey (12,000 hours) and with pre-testing the survey materials (50 hours) and estimates the total annual hour burden imposed on the public by this information collection to be 12,050 hours. The estimate for each phase of the collection was calculated as follows:

I. Conducting the Survey

FHFA estimates that the NSMO questionnaire will be sent to 24,000 recipients annually (6,000 recipients per quarterly survey x 4 calendar quarters). Although, based on historical experience, the Agency expects that only 20 to 30 percent of those surveys will be returned, it has assumed that all of the surveys will be returned for purposes of this burden calculation. Based on the reported experience of respondents to prior NSMO questionnaires, FHFA estimates that it will take each respondent 30 minutes to complete the survey, including the gathering of necessary materials to respond to the questions. This results in a total annual burden estimate of 12,000 hours for the survey phase of this collection (24,000 respondents x 30 minutes per respondent = 12,000 hours annually).

II. Pre-Testing the Materials

FHFA estimates that it will pre-test the survey materials with 50 cognitive testing participants annually. The estimated participation time for each participant is one hour, resulting in a total annual burden estimate of 50 hours for the pre-testing phase of the collection (50 participants x 1 hour per participant = 50 hours annually).

D. Comment Request

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions,
including whether the information has practical utility; (2) the accuracy of FHFA’s estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Improving Mortgages in America

National Survey of Mortgage Originations

We are conducting this survey of people who have taken out or co-signed for a mortgage loan to purchase a housing property or to refinance or modify an existing loan.

Learning directly from borrowers like you about your mortgage experiences will help us improve lending practices and the mortgage process for future borrowers like you. It is important to get the perspective of all borrowers for making government policies.

You can mail back the paper survey in the enclosed business reply envelope or complete the survey online. The online version may be easier to complete, because it skips any questions that do not apply to you. Online responses are also processed more quickly making it less likely that you will receive reminders to complete this survey. We appreciate your help either way.

ABOUT THE SPONSORS: The Federal Housing Finance Agency and the Consumer Financial Protection Bureau are working together to sponsor this survey. We are doing this because both agencies are concerned with improving the safety of the U.S. housing finance system and making sure all consumers have better access to mortgages. Thanks so much for helping us assist future borrowers.

You can find more information on our websites - www.fhfa.gov/nsmo and www.consumerfinance.gov
Your answers to this survey will help us as we improve the safety of the U.S. housing finance system and help to ensure that people have access to funds needed to build or improve housing.

We look forward to hearing from you.

Privacy Act Notice: In accordance with the Privacy Act, as amended (5 U.S.C. § 552a), the following notice is provided. The information requested on this Survey is collected pursuant to 12 U.S.C. 4544 for the purposes of gathering information for the National Mortgage Database. Routine uses which may be made of the collected information can be found in the Federal Housing Finance Agency's System of Records Notice (SORN) FHFA-21 National Mortgage Database. Providing the requested information is voluntary. Submission of the survey authorizes FHFA to collect the information provided and to disclose it as set forth in the referenced SORN.

Paperwork Reduction Act Statement: Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Agency for Healthcare Research and Quality

Supplemental Evidence and Data Request on Maternal and Fetal Effects of Mental Health Treatments in Pregnant and Breastfeeding Women: A Systematic Review of Pharmacological Interventions

AGENCY: Agency for Healthcare Research and Quality (AHRQ), HHS.

ACTION: Request for supplemental evidence and data submissions.

SUMMARY: The purpose of this notice is to inform Federal agencies that FTR Bulletin 20–02, pertaining to travel, transportation, and relocation allowances impacted by recent changes to Federal tax law, has been published and is now available online at www.gsa.gov/ftrbulletin. This bulletin contains certain examples and tables that were removed from the FTR as a result of FTR Amendment 2020–02, published by GSA on November 25, 2019, and issued as a direct final rule. This bulletin also rescinds FTR Bulletins 18–05 and 19–02 now that FTR Amendment 2020–02 has been issued, amending the FTR in line with changes to the Internal Revenue Code.

DATES: Applicable: This notice applies to employees who are authorized reimbursement for relocation expenses under the FTR and who receive some or all reimbursements, direct payments, or indirect payments on or after January 1, 2018, and on or before December 31, 2025.

FOR FURTHER INFORMATION CONTACT: For clarification of content, please contact Mr. Rick Miller, Program Analyst, Office of Government-wide Policy, Office of Asset and Transportation Management, at 202–501–3822, or by email at travelpolicy@gsa.gov. Please cite Notice of FTR Bulletin 20–02.

The EPC Program is dedicated to identifying as many studies as possible that are relevant to the questions for each of its reviews. In order to do so, we are supplementing the usual manual and electronic database searches of the literature by requesting information from the public (e.g., details of studies conducted). We are looking for studies that report on Maternal and Fetal Effects of Mental Health Treatments in Pregnant and Breastfeeding Women: A Systematic Review of Pharmacological Interventions, including those that describe adverse events. The entire research protocol, including the key questions, is also available online at: https://effectivehealthcare.ahrq.gov/topics/mental-health-pregnancy/protocol.

This is to notify the public that the EPC Program would find the following information on Maternal and Fetal Effects of Mental Health Treatments in Pregnant and Breastfeeding Women: A Systematic Review of Pharmacological Interventions helpful:

- A list of completed studies that your organization has sponsored for this indication. In the list, please indicate whether results are available on ClinicalTrials.gov along with the ClinicalTrials.gov trial number.

- For completed studies that do not have results on ClinicalTrials.gov, a summary, including the following elements: Study number, study period, design, methodology, indication and diagnosis, proper use instructions, inclusion and exclusion criteria, primary and secondary outcomes, baseline characteristics, number of patients screened/eligible/enrolled/lost to follow-up/withdrawn/analyzed, effectiveness/efficacy, and safety results.

- A list of ongoing studies that your organization has sponsored for this indication. In the list, please provide the ClinicalTrials.gov trial number or, if the trial is not registered, the protocol for the study including a study number, the study period, design, methodology, indication and diagnosis, proper use instructions, inclusion and exclusion criteria, and primary and secondary outcomes.

- Description of whether the above studies constitute ALL Phase II and above clinical trials sponsored by your organization for this indication and an index outlining the relevant information in each submitted file.

Your contribution is very beneficial to the Program. Materials submitted must be publicly available or able to be made public. Materials that are considered confidential; marketing materials; study types not included in the review; or information on indications not included...
