

disputes the reseller received to the CRC that provided the reseller with the disputed information.

4. Conclusion

The Bureau will continue to publish Supervisory Highlights to aid Bureau-supervised entities in their efforts to comply with Federal consumer financial law. The report shares information regarding general supervisory and examination findings regarding the FCRA and Regulation V (without identifying specific institutions). This information is shared, in part, to communicate the Bureau's supervisory expectations to CRCs and furnishers that those institutions comply with the applicable provisions of the FCRA and Regulation V.

Supervision's work in the consumer reporting market is ongoing and remains a high priority. As detailed in this report, CFPB examiners have continued to identify violations and CMS weaknesses regarding critical FCRA and Regulation V protections. However, examiners have also observed significant improvements in these areas, including continued investment in FCRA-related CMS. Supervision will continue to conduct reviews at CRCs, including resellers, as well as at furnishers and users of consumer reports within our supervisory jurisdiction.

Abstract: The proposed information collection activity provides a means to elicit qualitative customer and stakeholder feedback in an efficient, timely manner. By qualitative feedback we mean information that provides useful insights on perceptions and opinions but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between the agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the agency's services will be unavailable.

CNCS seeks to renew the current information collection. The information collection will be used in the same manner as the existing application. CNCS also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on November 30, 2020.
