

the same date FDA determined was the beginning of the regulatory review period for BRIVIACT ORAL TABLETS approved under NDA 205836 and for BRIVIACT INJECTION approved under NDA 205837. The regulatory review period determinations for BRIVIACT ORAL TABLETS and BRIVIACT INJECTION are published in this issue of the **Federal Register**.

2. *The date the application was initially submitted with respect to the human drug product under section 505(b) of the FD&C Act:* November 20, 2014. FDA has verified the applicant's claim that the NDA for BRIVIACT ORAL SOLUTION (NDA 205838) was initially submitted on November 20, 2014.

3. *For a drug recommended for controls under the CSA, the later of the date the NDA was approved under section 505 of the FD&C Act or the date of issuance of the interim final rule controlling the drug:* May 12, 2016. FDA has verified the applicant's claim that NDA 205838 was approved on February 18, 2016. FDA has also verified that the date of issuance of the interim final rule controlling the drug, placing BRIVIACT ORAL SOLUTION (brivaracetam) in schedule V of the CSA as revised by the Improving Regulatory Transparency for New Medical Therapies Act, was May 12, 2016.

This determination of the regulatory review period establishes the maximum potential length of a patent extension. However, the USPTO applies several statutory limitations in its calculations of the actual period for patent extension. In its application for patent extension, this applicant seeks 698 days of patent term extension.

III. Petitions

Anyone with knowledge that any of the dates as published are incorrect may submit either electronic or written comments and, under 21 CFR 60.24, ask for a redetermination (see **DATES**). Furthermore, as specified in § 60.30 (21 CFR 60.30), any interested person may petition FDA for a determination regarding whether the applicant for extension acted with due diligence during the regulatory review period. To meet its burden, the petition must comply with all the requirements of § 60.30, including but not limited to: Must be timely (see **DATES**), must be filed in accordance with § 10.20, must contain sufficient facts to merit an FDA investigation, and must certify that a true and complete copy of the petition has been served upon the patent applicant. (See H. Rept. 857, part 1, 98th Cong., 2d sess., pp. 41–42, 1984.) Petitions should be in the format specified in 21 CFR 10.30.

Submit petitions electronically to <https://www.regulations.gov> at Docket No. FDA–2013–S–0610. Submit written petitions (two copies are required) to the Dockets Management Staff (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.
