SUPPLEMENTARY INFORMATION: The Pension Benefit Guaranty Corporation (PBGC) administers the pension plan termination insurance program under title IV of the Employee Retirement Income Security Act of 1974 (ERISA). Section 4006(a)(7) of ERISA provides for a "termination premium" (in addition to the flat-rate and variable-rate premiums under section 4006(a)(3) and (8) of ERISA) that is payable for three years following certain distress and involuntary plan terminations. PBGC's regulations on Premium Rates (29 CFR part 4006) and Payment of Premiums (29 CFR part 4007) implement the termination premium. Sections 4007.3 and 4007.13(b) of the premium payment regulation require the filing of termination premium information and payments with PBGC. PBGC has promulgated Form T and instructions for paying the termination premium.

In general, the termination premium applies where a single-employer plan terminates in a distress termination under ERISA section 4041(c) (unless contributing sponsors and controlled group members meet the bankruptcy liquidation requirements of ERISA section 4041(c)(2)(B)(i)) or in an involuntary termination under ERISA section 4042, and the termination date under section 4048 of ERISA is after 2005. The termination premium does not apply in certain cases where termination occurs during a bankruptcy proceeding filed before October 18, 2005.

The termination premium is payable for three years. The same amount is payable each year. The amount of each payment is based on the number of participants in the plan as of the day before the termination date. In general, the amount of each payment is equal to \$1,250 times the number of participants. However, the rate is increased from \$1,250 to \$2,500 in certain cases involving commercial airline or airline catering service plans. The termination premium is due on the 30th day of each of three consecutive 12-month periods.

The first 12-month period generally begins shortly after the termination date or after the conclusion of bankruptcy proceedings in certain cases.

The termination premium and related information must be filed by a person liable for the termination premium. The persons liable for the termination premium are contributing sponsors and members of their controlled groups, determined on the day before the plan termination date. Interest on late termination premiums is charged at the rate imposed under section 6601(a) of the Internal Revenue Code, compounded daily, from the due date to the payment date. Penalties based on facts and circumstances may be assessed both for failure to timely pay the termination premium and for failure to timely file required related information and may be waived in appropriate circumstances. A penalty for late payment will not exceed the amount of termination premium paid late. Section 4007.10 of the premium payment regulation requires the retention of records supporting or validating the computation of premiums paid and requires that the records be made available to PBGC.

OMB has approved the termination premium collection of information (Form T and instructions) under control number 1212-0064 through May 31, 2020. PBGC intends to request that OMB extend approval of this collection of information for three years, without change. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that it will each year receive an average of about one filing for the first year a termination premium is due, one filing for the second year a termination premium is due, and one filing for the third year a termination premium is due, from a total of about 3 respondents. PBGC estimates that the total annual burden of—the collection of information will be about 15 minutes and \$200.

PBGC is soliciting public comments to—

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodologies and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

Issued in Washington, DC.

Deputy Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation.
