SUPPLEMENTARY INFORMATION:

Background

Commerce regulations provide that it will publish in the **Federal Register** a list of scope rulings on a quarterly basis.¹ Our most recent notification of scope rulings was published on September 25, 2019.² This current notice covers all scope rulings and anti-circumvention determinations made by Enforcement and Compliance between January 1, 2019 through March 31, 2019.

Scope Rulings Made January 1, 2019 Through March 31, 2019:

Italy

A-475-818 and C-475-819: Certain Pasta From Italy

Requestor: European Imports, Inc. Nine gnocchi potato dumpling varieties are outside the scope of the antidumping and countervailing duty orders on certain pasta from Italy because the antidumping and countervailing duty orders pertain to non-egg *dry* pasta, which does not include the nine gnocchi potato dumpling varieties that European Imports distributes; January 30, 2019.

People's Republic of China (China)

A-570-967 and C-570-968: Aluminum Extrusions From China

Requestor: Tosoh SMD, Inc. The requestor's sputtering target backing plates are not covered by the scope of the antidumping and countervailing duty orders on aluminum extrusions from China, because they contain no extruded aluminum; January 31, 2019.

A-570-899: Artist Canvas From China

Requestors: Impact Images. Polyester fabric coated with flame retardant and polyurethane (PFCPU) imported by Impact Images is outside the scope of the order, because it is not primed/coated with a solution designed to promote the adherence of artist materials, such as paint or ink, to the fabric. Specifically, PFCPU is coated only with flame retardant and polyurethane, which do not promote the adherence of artistic materials, such as paint or ink, to the fabric. The priming/coating material, and the application thereof, commonly known as 'gesso' or 'gessoing', is a requisite component of the subject merchandise and, therefore, the PFCPU imported by Impact Images is not within the scope of the

antidumping duty order on certain artist canvas from China; February 8, 2019.

A-570-922 and C-570-923: Raw Flexible Magnets From China; A-583-842: Raw Flexible Magnets From Taiwan

Requestor: Magnum Magnetics Corporation. Granulated flexible magnets are outside the scope of the orders on raw flexible magnets from China and Taiwan because the product cannot be bent, folded, or manipulated and, thus, are not flexible; March 14, 2019.

Anti-Circumvention Determinations Made January 1, 2019 Through March 31, 2019

Mexico

A-201-830: Carbon and Certain Alloy Steel Wire Rod From Mexico

Requestor: Nucor Corporation. Wire rod produced and/or exported by Deacero S.A.P.I. de CV with an actual diameter less than 4.75 millimeters, and otherwise meeting the description of the scope of the order constitutes merchandise altered in form or appearance in minor respects from in-scope merchandise and is subject to the antidumping duty order on carbon and certain alloy steel wire rod from Mexico; March 13, 2019.

Correction

*A-570-814: Carbon Steel Butt-Weld Pipe Fittings from China*³

Requestor: SIGMA Corporation. SAFELET and UNILET fire-protection weld outlets it imports from China are subject to the China carbon steel butt-weld order because both products feature a beveled end, each has a single butt-welded connection, and they otherwise meet the physical description of merchandise covered by the scope; December 11, 2018.

Notification to Interested Parties

Interested parties are invited to comment on the completeness of this list of completed scope inquiries and anti-circumvention determinations made during the period January 1, 2019 through March 31, 2019. Any comments should be submitted to the Deputy

³ In the scope rulings notice that published on September 25, 2019 (84 FR 50385) covering scope rulings and anti-circumvention decisions that were signed or published between October 1, 2018 and December 31, 2018, the notice inadvertently stated that Commerce determined that the SAFELET and UNILET fire-protection weld outlets were outside the scope of the antidumping duty order on carbon steel butt-weld pipe fittings from China. Instead, Commerce determined that the merchandise under review was covered by the scope of the order. This is a correction to the September 25, 2019, notice.

Certain Hot-Rolled Steel Flat Products From Republic of Turkey: Preliminary Results of Antidumping Duty Administrative Review and Preliminary Determination of No Shipments; 2017-2018

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily finds that Colakoglu Metalurji A.S. and Colakoglu Dis Ticaret A.S. (collectively, Colakoglu), a producer and exporter of certain hot-rolled steel flat products (hot-rolled steel) from the Republic of Turkey (Turkey), sold subject merchandise in the United States at prices below normal value during the period of review (POR) October 1, 2017 through September 30, 2018. In addition, Commerce preliminarily determines that Eregli Demir ve Celik Fabrikalari T.A.S. and Iskenderun Iron & Steel Works Co. (collectively, Erdemir Group) had no shipments during the POR. We invite all interested parties to comment on these preliminary results.

DATES: Applicable December 17, 2019.

FOR FURTHER INFORMATION CONTACT: Lingjun Wang, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-2316.

SUPPLEMENTARY INFORMATION:

Background

Commerce is conducting an administrative review of the antidumping duty order on hot-rolled steel from Turkey in accordance with section 751(a)(1)(B) of Tariff Act of

¹ See 19 CFR 351.225(o).

² See *Notice of Scope Rulings*, 84 FR 50385 (September 25, 2019).

1930, as amended (the Act).¹ On December 11, 2018, in accordance with 19 CFR 351.221(c)(1)(i), we initiated this administrative review of the *Order* covering thirteen producers and/or exporters of the subject merchandise.²

Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018 through the resumption of operations on January 28, 2019.³ On August 6, 2019, we postponed the deadline for the preliminary results of this review until November 8, 2019.⁴ On November 4, 2019, we postponed the preliminary results of this review until December 10, 2019.⁵ For a detailed description of the events that followed the initiation of this review, see the Preliminary Decision Memorandum, dated concurrently with these preliminary results and hereby adopted by this notice.⁶

Scope of the Order

The merchandise covered by the *Order* is certain hot-rolled steel flat products. For a complete description of the scope of the *Order*, see the Preliminary Decision Memorandum.⁷

Methodology

Commerce is conducting this review in accordance with section 751(a) of the Act. Constructed export prices are calculated in accordance with section 772 of the Act. Normal value is calculated in accordance with section 773 of the Act. For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum. A list of topics

discussed in the Preliminary Decision Memorandum is attached as an appendix to this notice.

The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>, and to all parties in the Central Records Unit, Room B8024 of the main Commerce building. The signed and electronic versions of the Preliminary Decision Memorandum are identical in content.

Preliminary Determination of No Shipments

Among the companies under review, Eregli Demir ve Celik Fabrikalari T.A.S. and Iskenderun Iron & Steel Works Co. (collectively, the Erdemir Group) properly filed a certification reporting that they made no shipments of subject merchandise to the United States during the POR.⁸ Based on the certification submitted and our analysis of Customs and Border Protection (CBP) information, we preliminarily determine that the Erdemir Group had no shipments during the POR.⁹ Consistent with our standard practice,¹⁰ Commerce finds that it is not appropriate to rescind the review with respect to Erdemir Group, but rather to complete the review and issue appropriate instructions to CBP based on the final results of this review.

Rate for Non-Examined Companies

The statute and Commerce’s regulations do not address the

establishment of a rate to be applied to companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in a market economy investigation, for guidance when calculating the rate for companies which were not selected for individual examination in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally “an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or *de minimis* margins, and any margins determined entirely {on the basis of facts available}.”

In this review, we have preliminarily calculated a weighted-average dumping margin for Colakoglu that is not zero, *de minimis*, or determined entirely on the basis of facts available. Accordingly, we have preliminarily assigned to the companies not individually examined a margin of 2.55 percent, which is Colakoglu’s weighted-average dumping margin.

Preliminary Results

We preliminarily determine the following weighted-average dumping margins for the period October 1, 2017 through September 30, 2018:

Exporter or producer	Weighted-average dumping margin (percent)
Colakoglu Metalurji A.S. and Colakoglu Dis Ticaret A.S	2.55

Assessment Rates

Upon issuance of the final results, Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review. Pursuant to 19 CFR 351.212(b)(1), we calculated an importer-specific *ad valorem* duty assessment rate based on the ratio of the total amount of dumping calculated for the examined sales to the total entered value of those sales. Where the mandatory respondent did not report entered value, we calculated the entered value in order to calculate the assessment rate. Where either the respondent's weighted-average dumping margin is zero or *de minimis* within the meaning of 19 CFR 351.106(c)(1), or an importer-specific assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

For the companies which were not selected for individual review, we will assign an assessment rate equal to the weighted-average dumping margin determined for the non-examined companies in the final results of this review.

For entries of subject merchandise during the POR produced by the respondent for which it did not know that its merchandise was destined for the United States, including for the Erdemir Group (which we have preliminarily found had no shipments during the POR), we will instruct CBP to liquidate such unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.¹¹

We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

¹¹ See section 751(a)(2)(C) of the Act.

Cash Deposit Requirements

The following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for each specific company listed above will be equal to each company's weighted-average dumping margin established in the final results of this review, except if the rate is less than 0.50 percent, and therefore *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously investigated companies not participating in this review, the cash deposit will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review, or the underlying investigation, but the producer is, then the cash deposit rate will be the rate established for the completed segment for the most recent POR for the producer of the merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 6.41 percent, the all-others rate established in the underlying investigation.¹² These deposit requirements, when imposed, shall remain in effect until further notice.

Verification

Pursuant to section 782(i) of the Act, and 19 CFR 351.307(b)(iv), we conducted verification of the questionnaire responses of Carbon Activated.⁶

Changes Since the Preliminary Results

Based on our review of the record and comments received from interested parties regarding our *Preliminary Results*, we made certain revisions to the margin calculations for Carbon Activated and Datong Juqiang,⁷ and consequently, to the rate assigned to the non-examined, separate rate respondents. The Issues and Decision Memorandum contains additional details of these revisions.⁸

Final Determination of No Shipments

In the *Preliminary Results*, we preliminarily determined that Charter Link Logistics Limited, Datong Municipal Yunguang Activated Carbon Co., Ltd., Jilin Bright Future Chemicals Co., Ltd., Shanxi Dapu International Trade Co., Ltd., Shanxi Industry Technology Trading Co., Ltd., Shanxi Tianxi Purification Filter Co., Ltd., and Tianjin Channel Filters Co., Ltd. had no shipments of subject merchandise to the United States during the POR.⁹ We received no information to contradict this determination. Therefore, we continue to find that these companies had no shipments of subject merchandise during the POR and will issue appropriate liquidation instructions that are consistent with our "automatic assessment" clarification for these final results.¹⁰
