SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of the information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this proposed information collection request was published on September 9, 2019 (84 FR 47317). One comment was received that discussed protection of American citizens, and opposition to drilling surveys.

BOEM is again soliciting comments on the proposed ICR that is described below. BOEM is especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure this information will be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments that you submit in response to this notice are a matter of public record. BOEM will include or summarize each comment in its request to the Office of Management and Budget (OMB) for approval of this ICR. You should be aware that your entire comment—including your address, phone number, email address, or other personal identifying information—may be made publicly available at any time. In order for BOEM to withhold from disclosure your personally identifiable information, you must identify any information contained in the submittal of your comments that, if released, would clearly constitute an unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequences of the disclosure of your information, such as embarrassment, injury, or other harm. While you can ask BOEM in your comment to withhold your personally identifiable information from public

review, BOEM cannot guarantee that it will be able to do so.

BOEM protects proprietary information in accordance with the Freedom of Information Act (5 U.S.C. 552) and the Department of the Interior's implementing regulations (43 CFR part 2), and under regulations at 30 CFR parts 550 and 552 promulgated pursuant to the Outer Continental Shelf Lands Act (OCSLA) at 43 U.S.C. 1352(c).

Abstract: This information collection request concerns the paperwork requirements in the regulations in 30 CFR part 550, subparts A and K, which deal with regulatory requirements of oil, gas, and sulfur operations on the OCS. This request also covers the related Notices to Lessees and Operators (NTL) that BOEM issues to clarify and provide guidance on some aspects of our regulations, and forms BOEM-0127, BOEM-0140, BOEM-1123, and BOEM-1832.

The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations apply to all operations conducted under a lease. Operations in the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources expeditiously available to meet the Nation's energy needs: To balance orderly energy resources development with protection of human, marine and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition. Section 1332(6) states that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well-trained personnel using technology, precautions, and techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control . . . physical obstruction to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property, or endanger life or health."

BOEM uses the information collected under the regulations affected by this ICR to ensure that operations in the OCS are carried out in a safe and environmentally sound manner, do not interfere with the rights of other users on the OCS, and balance the protection and development of OCS resources.
