review until December 13, 2019. On September 24, 2019, Commerce issued post preliminary results of the particular market situation and pricing agreement alleged by the petitioner.

**Scope of the Order**

The product covered by this order is phosphor copper from Korea. For a complete description of the scope of this order, see the Issues and Decision Memorandum.

**Analysis of Comments Received**

All issues raised in the case and rebuttal briefs by parties are addressed in the Issues and Decision Memorandum and are identified in the appendix to this notice. The Issues and Decision Memorandum is a public document and is on-file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov, and to all parties in the Central Records Unit, Room B8024 of the main Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed at http://enforcement.trade.gov/frn/index.html. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

**Changes Since the Preliminary Results**

Based on a review of the record and comments received from interested parties regarding our Preliminary Results, we have revised the reported financial expense ratio to the preliminary margin calculations for Bongsan.

**Final Results**

As a result of this review, Commerce determines the following weighted-average dumping margin for Bongsan for the period October 14, 2016 through March 31, 2018:

<table>
<thead>
<tr>
<th>Exporter or producer</th>
<th>Weighted-average dumping margin (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bongsan Co., Ltd.</td>
<td>0.00</td>
</tr>
</tbody>
</table>

**Assessment Rates**

Pursuant to section 751(a)(2)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.212(b)(1), Commerce will determine, and U.S. Customs and Border Protections (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. For Bongsan, we will calculate importer-specific assessment rates on the basis of the ratio of the total amount of dumping calculated for each importer’s examined sales and the total entered value of those sales in accordance with 19 CFR 351.212(b)(1). When either Bongsan’s weighted-average dumping margin is zero or de minimis (i.e., less than 0.5 percent), or an importer-specific assessment rate is zero or de minimis, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties. For entries of subject merchandise during the POR produced by Bongsan for which it did not know its own weighted-average dumping margin, we will instruct CBP to liquidate such entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

**Cash Deposit Requirements**

The following cash deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for Bongsan will be equal to the weighted-average dumping margin established in the final results of this administrative review, except if that rate is de minimis, in which situation the cash deposit rate will be zero; (2) for merchandise exported by a producer or exporter not covered in this administrative review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate established for the most recently completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation, but the producer is, then the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the producer of the subject merchandise; (4) the cash deposit rate for all other producers or exporters will continue to be 8.43 percent, the all-others rate determined in the LTFV investigation.

These cash deposit requirements, when imposed, shall remain in effect until further notice.

**Notification to Importers Regarding the Reimbursement of Duties**

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during the POR. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

**Administrative Protective Order (APO)**

This notice also serves as a reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

**Notification to Interested Parties**

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(3) of the Act and 19 CFR 351.221(b)(5).

Jeffrey I. Kessler,
Assistant Secretary for Enforcement and Compliance.

We invite interested parties to comment on these preliminary results.

Background

On October 29, 2002 Commerce published the Wire Rod Order in the Federal Register.1 On December 11, 2018, pursuant to section 751(a)(1) of the Tariff Act of 1930, as amended (the Act), Commerce initiated an administrative review of the Wire Rod Order covering Deacero S.A.P.I de C.V. (Talleres y Aceros).2 Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018 through the resumption of operations on January 28, 2019.3 As a result, the revised deadline for the preliminary results of this administrative review became August 12, 2019. On July 26, 2019, Commerce extended the deadline for the preliminary results to December 10, 2019.4 For a complete description of the events that followed the initiation of this review, see the Preliminary Decision Memorandum.5

The HTSUS subheadings are provided for convenience and customs purposes only; the written product description remains dispositive. A full description of the scope of the Wire Rod Order is contained in the Preliminary Decision Memorandum.

Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(B) of the Act. Export and constructed export price were calculated in accordance with section 772 of the Act. Normal value was calculated in accordance with section 773 of the Act. For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov and is available to all parties in the Central Records Unit, Room B8024 of the main Department of Commerce building. A list of topics discussed in the Preliminary Decision Memorandum is attached as an Appendix to this notice.

Preliminary Results of the Review

As a result of this review, we preliminarily determine the following weighted-average dumping margins exist for the POR:

Assessment Rates

Upon issuance of the final results, Commerce shall determine, and CBP shall assess, antidumping duties on all appropriate entries covered by this review. If the weighted-average dumping margin for Deacero is not zero or de minimis (i.e., less than 0.5 percent), we will calculate importer-specific ad valorem antidumping duty assessment rates based on the ratio of the total amount of dumping calculated for the importer’s examined sales to the total entered value of those same sales in accordance with 19 CFR...
