

*Comments Due:* 5 p.m. ET 1/6/20.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: December 16, 2019.

**Nathaniel J. Davis, Sr.,**  
*Deputy Secretary.*

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project No. 3452-017]

#### Erie Boulevard Hydropower, L.P.; Notice of Application Accepted for Filing and Soliciting Motions To Intervene and Protests

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

a. *Type of Application:* Subsequent Minor License.

b. *Project No.:* 3452-017.

c. *Date Filed:* June 28, 2019.

d. *Applicant:* Erie Boulevard Hydropower, L.P.

e. *Name of Project:* Oak Orchard Hydroelectric Project.

f. *Location:* The project is located adjacent to the New York State Canal Corporation's barge canal in the Village of Medina, Orleans County, New York. The project does not occupy any federal land.

g. *Filed Pursuant to:* Federal Power Act 16 U.S.C. 791(a)-825(r).

h. *Applicant Contact:* Mr. Steven P. Murphy, Director, U.S. Licensing, Erie Boulevard Hydropower, L.P., 33 West 1st Street South, Fulton, NY 13069; (315) 598-6130; email—[steven.murphy@brookfieldrenewable.com](mailto:steven.murphy@brookfieldrenewable.com).

i. *FERC Contact:* Laurie Bauer at (202) 502-6519; or email at [laurie.bauer@ferc.gov](mailto:laurie.bauer@ferc.gov).

j. *Deadline for filing motions to intervene and protests:* 60 days from the issuance date of this notice.

The Commission strongly encourages electronic filing. Please file motions to intervene and protests using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. The first page of any filing should include docket number P-3452-017.

The Commission's Rules of Practice require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. This application has been accepted, but is not ready for environmental analysis at this time.

l. *The Oak Orchard Project consists of the following existing facilities:* (1) A concrete gravity dam containing a spillway with a crest elevation of 507.6 feet mean sea level (msl) surmounted by 2-foot-high flashboards and two 5-foot-high, 5-foot-wide flood gates; (2) a forebay with a surface area of 0.25 acre and a storage capacity of 3 acre-feet at the normal pool elevation of 509.6 feet msl; (3) an intake structure with trashracks; (4) a 7-foot-diameter, 85-foot-long welded steel penstock from the intake to the turbine; (5) a 20-foot-long, 43-foot-wide powerhouse containing a single turbine-generator unit with a rated capacity of 350 kilowatts; (6) a tailrace located on the left (west) bank of Oak Orchard Creek; (7) a 55-foot-long underground generation lead; (8) three single-phase 167 kilovolt-ampere pole-mounted power transformers; (9) a 400-foot-long access road; and (10) appurtenant facilities.

The Oak Orchard Project is operated in a run-of-river mode with an average annual generation of 1,147 megawatt-hours between 2009 and 2018.

m. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the

"eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support. A copy is also available for inspection and reproduction at the address in item h above.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

n. Anyone may submit a protest or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, and .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any protests or motions to intervene must be received on or before the specified comment date for the particular application.

*All filings must:* (1) Bear in all capital letters the title PROTEST or MOTION TO INTERVENE; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application.

o. *Procedural schedule and final amendments:* The application will be processed according to the following preliminary schedule. Revisions to the schedule will be made as appropriate.

Issue Scoping Document 1 for comments—January 2020

Request Additional Information (if necessary)—March 2020

Issue Scoping Document 2 (if necessary)—April 2020

Issue notice of ready for environmental analysis—April 2020

Commission issues EA—October 2020  
Comments on EA—November 2020

p. Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of the notice of ready for environmental analysis.

Dated: December 16, 2019.

**Nathaniel J. Davis, Sr.,**  
Deputy Secretary.

BILLING CODE 6717-01-P

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. RM19-12-000]

#### Revisions to the Filing Process for Commission Forms; Notice of Technical Conference

Take notice that the Federal Energy Regulatory Commission (Commission) will hold a staff-led technical conference in the above-referenced proceedings on Tuesday through Thursday, February 4-6, 2020, from 9:00 a.m. to 5:00 p.m. Eastern time. The conference will be held in the Commission Meeting Room at Commission headquarters, 888 First Street NE, Washington, DC 20426. Staff anticipates issuing a supplemental notice and an agenda to provide additional information and a list of topics to be addressed prior to the technical conference.

In Order No. 859,<sup>1</sup> the Commission adopted a final rule requiring the use of XBRL format for filing Commission Form Nos. 1, 1-F, 2, 2-A, 3-Q electric, 3-Q natural gas, 6, 6-Q, 60, and 714 (collectively, Commission Forms). The Commission instructed staff to convene a technical conference or conferences to enable interested industry members, vendors, and the public to discuss and propose revisions to the draft taxonomy, along with other important components of the XBRL system. The Commission stated that at the conclusion of the technical conference process, the Commission will solicit comments and, after reviewing those comments, will issue an order adopting the final taxonomy, protocols, implementation guide and other documents, and establishing an implementation schedule.

For the purposes of discussion at the conference, Commission staff has developed a draft FERC XBRL taxonomy that can be found at <http://www.ferc.gov/docs-filing/forms/forms-refresh.asp>. Prior to the conference, parties interested in making technical comments on the draft FERC Taxonomy code may do so. We encourage parties submitting technical comments to use the Yeti review tool provided by the

Commission. The Yeti review tool provides an efficient method for interested parties to view and comment on the code of the draft XBRL taxonomies. To use this tool, parties should refer to the FERC Taxonomy Guide, which details the architecture of the FERC Taxonomy, and the FERC Yeti Taxonomy Viewer Guide, which explains how to submit comments using the Yeti taxonomy review tool. The FERC Taxonomy Guide, FERC Yeti Taxonomy Viewer Guide, and Yeti review tool are available at the FERC Forms Refresh website: <http://www.ferc.gov/docs-filing/forms/forms-refresh.asp>.

The purpose of the technical conference is to discuss the draft FERC Taxonomy and filing processes for implementing the XBRL data standard. Participants at the technical conference will have the opportunity to discuss any of the related documents, technical issues, and other issues related to the transition to XBRL, including the implementation schedule for the new data collection standard. The draft FERC Taxonomy referenced in this notice will be supplemented by documents containing the draft definitions, draft validations, draft visual renderings of the blank forms, and draft user guides for filing the Commission Forms, as they are completed. The additional documents also will be provided for review at the FERC Forms Refresh website: <http://www.ferc.gov/docs-filing/forms/forms-refresh.asp>.

Any person can review the draft FERC Taxonomy using the Yeti review tool, or by downloading the FERC Taxonomy file at the FERC Forms Refresh website. However, to gain Contributor access to make comments on the draft FERC Taxonomy in the Yeti review tool, interested persons must create a Yeti account by using the sign up link within the Yeti review tool and then email [XBRLFormsRefresh@ferc.gov](mailto:XBRLFormsRefresh@ferc.gov) to request Contributor access with the following information:

- (1) The first and last name of requester;
- (2) the email address of the requester;
- (3) the company name, if applicable;
- (4) a statement noting whether the requester is filing as an individual or on behalf of the company;
- (5) the requester's phone number; and
- (6) "Yeti Contributor Access Request" in the subject line of the email.

In addition to filing technical comments on the taxonomy code using the Yeti review tool, parties may file written comments on issues related to the draft FERC Taxonomy or related draft documents listed above by January 17, 2020. After January 17, 2020, and

before the technical conference, Commission staff will compile the comments made through Yeti and submit them into the record of this proceeding on the Commission's eLibrary. Parties also will have the opportunity to submit comments after the conference.

Based on comments received by January 17, 2020, the Commission will release a revised version of the draft FERC Taxonomy on the FERC Forms Refresh website prior to the commencement of the technical conference. The revised draft FERC Taxonomy will be discussed at the technical conference on February 4-6, 2020.

The technical conference will be open for the public to attend. Advanced registration is not required to attend but is encouraged. Attendees may register at the following link: <https://www.ferc.gov/whats-new/registration/02-04-s20-form.asp>. In-person attendees should allow time to pass through building security procedures before the start time of the technical conference.

The conference will be transcribed and webcast. Transcripts will be available immediately for a fee from Ace Reporting (202-347-3700). A link to the webcast of this event will be available in the Commission Calendar of Events at [www.ferc.gov](http://www.ferc.gov). The Capitol Connection provides technical support for the webcasts and offers the option of listening to the conferences via phone-bridge for a fee. For additional information, visit [www.CapitolConnection.org](http://www.CapitolConnection.org) or call (703) 993-3100.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to [accessibility@ferc.gov](mailto:accessibility@ferc.gov) or call toll free 1-866-208-3372 (voice) or 202-208-8659 (TTY), or send a fax to 202-208-2106 with the required accommodations.

For more information about this technical conference, please contact Robert Hudson at [Robert.Hudson@ferc.gov](mailto:Robert.Hudson@ferc.gov) or (202) 502-6889, or email [XBRLFormsRefresh@ferc.gov](mailto:XBRLFormsRefresh@ferc.gov). For information related to logistics, please contact Sarah McKinley at [Sarah.McKinley@ferc.gov](mailto:Sarah.McKinley@ferc.gov) or (202) 502-8368.

Dated: December 16, 2019.

**Nathaniel J. Davis, Sr.,**  
Deputy Secretary.
