POLICY JUSTIFICATION

Pakistan—Technical Security Team (TST) in Continued Support of the F-16 Program

The Government of Pakistan requested a continuation of technical support services; U.S. Government and contractor technical and logistics support services; and other related elements of logistics support to assist in the oversight of operations in support of the Pakistan Peace Drive advanced F-16 program. The total estimated program cost is \$125 million.

This proposed sale will support the foreign policy and national security of the United States by protecting U.S. technology through the continued presence of U.S. personnel that provide 24/7 end-use monitoring.

Congress required 24/7 monitoring of the advanced F-16s and AMRAAMs in the original LOA, which is carried out by the Technical Security Teams (TST) at Shahbaz and Mushaf Air Force bases. The TST exists to protect sensitive U.S. technology through 24/7 observation and reporting. TST members are not authorized to train Pakistan Air Force (PAF) service members or perform maintenance on PAF aircraft.

The proposed sale of this support will not alter the basic military balance in the region.

The principal contractor is Booz Allen Hamilton Engineering Services LLC, Fairborn, Ohio.

Implementation of this proposed sale will require the assignment of 60 contractor representatives to Pakistan to

assist in the oversight of operations as part of the Peace Drive F-16 program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
