ACTION: Notice.

SUMMARY: Notice is hereby given that the presiding administrative law judge ("ALJ") has issued an Initial Determination on Violation of Section 337 and Recommended Determination on Remedy and Bond in the above-captioned investigation. SUPPLEMENTARY INFORMATION: Section 337 of the Tariff Act of 1930, as amended ("Section 337"), provides that if the Commission finds a violation, it shall direct that the concerned articles be excluded from entry into the United States, unless, after considering the effect of such exclusion upon the public health and welfare, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, and United States consumers, it finds such articles should

not be excluded from entry. 19 U.S.C. 1337(d)(1). A similar provision applies to cease and desist orders. 19 U.S.C. 1337(f)(1).

The Commission is soliciting comments on public interest issues raised by the recommended relief should the Commission find a violation, specifically, whether the Commission should issue: (1) A limited exclusion order ("LEO") against infringing movable barrier operator systems and components thereof that are combined into infringing products after importation that are imported into the United States, sold for importation, or sold in the United States after importation by respondents Nortek, Inc. of Providence, Rhode Island; Nortek Security & Control, LLC of Carlsbad, California; and GTO Access Systems of Tallahassee, Florida (collectively, "Nortek"); and (2) cease and desist orders ("CDO") against the Nortek respondents.

Comments should address whether issuance of an LEO or CDO in this investigation, if a violation is found, would affect the public health and welfare in the United States, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

- (i) Explain how the articles potentially subject to the recommended orders are used in the United States;
- (ii) Identify any public health, safety, or welfare concerns in the United States relating to the recommended orders;
- (iii) Identify like or directly competitive articles that complainants, their licensees, or third parties make in the United States which could replace the subject articles if they were to be excluded;
- (iv) Indicate whether complainants, complainants' licensees, and/or third party suppliers have the capacity to replace the volume of articles potentially subject to the recommended exclusion order and/or a cease and
