SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Project Based Vouchers (PBV) Online Form.

OMB Approval Number: Pending OMB Approval.

Type of Request: New.

Form Number: HUD is developing a standardized electronic system and data exchange standard for this collection and will provide a web service to support electronic file transfer using Java Script Object Notation (JSON).”. Within the scope of this collection, HUD requests the information in this notice from participating PHAs

Description of the need for the information and proposed use: Public Housing Agencies (PHAs) apply for funding to assist low-income families to lease housing. One of the programs through which PHAs provide housing assistance is the Housing Choice Voucher (HCV) Program, a tenant-based rental assistance program. This program operates by providing vouchers that cover a portion of the contract rent for a unit. Some PHAs project-base their vouchers (the rental assistance is connected to a unit, not a family). Project-based vouchers (PBVs) are becoming a larger percentage of PHAs overall HCV portfolios, rising from just over 110,000 in 2016 to approximately 215,000 in mid-2019. The PBV portfolio is expected to grow even more with the on-going conversion of up to 455,000

public housing units to project-based assistance under the Congressionally authorized Rental Assistance Demonstration (RAD). HUD currently collects information on individual participants in the HCV program who are in PBV units and Project certificate (PBC) housing through the PIC system. In addition, HUD collects aggregate information on the total number of PBVs under contract at the PHA level. HUD currently does not systematically collect information on the project or development level for PBVs.

This leaves a gap in HUD’s information collection of PBVs between the individual tenant data and the aggregated PHA data. HUD does not systematically collect information on the development or project level, including the number of units at PBV projects, what exceptions apply, their rents, the terms of contract, and numerous other potential data points. This creates a challenge for monitoring, tracking and analyzing PBV projects, and limits HUD’s ability to respond to requests for information on the PBV program from Congress and other sources. Additionally, it prevents HUD from having data with which to make informed decisions on risk-mitigation strategies with respect to PBVs.

Potential risks are particularly heightened in the case of two specific program categories; Rental Assistance Demonstration (RAD) that transition to be Project Based Vouchers and PHA-owned units where an independent entity performs inspections and determines the rent amounts. What distinguishes RAD PBVs from regular Project-Based Vouchers is their initial construction was paid for by HUD, rents are initially set below market level, and they are supposed to remain affordable in perpetuity. Currently, HUD has very limited information about RAD–PBV properties after their conversion and is unable to adequately monitor their long-term viability. PHA-owned PBVs pose a risk because PHAs may assist properties they own, subject to the independent entity requirement. PHAs may assist properties they own, subject to the independent entity requirement. In addition, many other non-RAD or PHA-owned projects, such as those with 100% PBVs serving disabled or requiring supporting services represent crucial affordable housing resources for vulnerable communities that cannot be quickly and easily replaced through providing a voucher.

Through this collection, HUD is requiring the submission of project-level data on all Project-Based Vouchers, including but not limited to Rental Assistance Demonstration Project

Based-Vouchers, mixed finance Project-Based Vouchers, all Project-Based Vouchers at Moving to Work Agencies, and all Project Based Vouchers at non-Moving to Work Agencies.

Unique Project Building Code *

Code may be produced by the system or a protocol for numbering may be established by HUD.

Use Restriction End Date

Provide an answer (yes/no) to the question of whether the project is subject to a use restriction imposed by HUD. If yes, provide the end date of the use restriction.

Number of RAD PBVs

Number of PBVs that converted under the Rental Assistance Demonstration Program.

HAP Contract Amount

Code may be produced by the system or a protocol for numbering may be established by HUD.

Year Built

The year the project's construction was first completed.

Number and Bedroom Distribution of PBV-Assisted Section 504 Mobility Units at the Project

This field captures the number of PBV-assisted units at the project that are accessible for persons with mobility impairments in accordance with Section

504 of the Rehabilitation Act of 1973 and HUD's implementing regulations at 24 CFR part 8. Such units must meet either the Uniform Federal Accessibility Standards (UFAS) or 2010 Americans with Disabilities Act (ADA) Standards (in accordance with HUD's Deeming Notice published in the **Federal Register** on May 23, 2014 (79 FR 29671)).

Number and Bedroom Distribution of PBV-Assisted Section 504 Hearing/Vision Units at the Project

PHAs would be required to enter this information into the online form when a new project came under Housing

Assistance Payment (HAP) contract, and when project or development information changed. The unique project code identifier will tie to future potential changes to the 50058 which will permit linking HUD assisted-tenants to HUD assisted-properties. This is a new information collection.

Respondents (i.e. affected public): Public housing authorities (PHAs) that have project-based vouchers (PBVs) as a part of their portfolio.

Note: Preparer of this notice may substitute the chart for everything beginning with estimated number of respondents above:

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
PBV Property Information	668	6	4,008	1,5	6,012	\$40.10	\$241,0188

Our burden estimate for the number of respondents is based on a recent VMS total of the number of PHAs reporting PBVs in VMS. It is assumed PHAs will have to do a one-time submission for all the projects as well as potentially make updates when changes occur to the PBV projects (frequency of responses). The "responses per annum" represents an estimate of the amount of PBV projects that will need to be entered into the system. This number is multiplied by the frequency of responses to arrive at an annual estimate of burden hours. This is then multiplied by median average wage of a "Management Analyst" according to the Bureau of Labor Statistics for 2019 to arrive at a total annual cost.¹ It is anticipated that this cost will decline in subsequent years as PHAs only need to update information already in the system when changes are made to PBV projects.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

- (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) The accuracy of the agency's estimate of the burden of the proposed collection of information;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) Ways to minimize the burden of the collection of information on those who are to respond; including through

the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

(5) In this information collection, HUD has proposed collecting information on PBV-assisted units in PBV projects that are Section 504 accessible. Would it be feasible and useful to also collect this information on non-assisted units at PBV projects that do not receive PBV assistance Project-Based Voucher projects? Are there any potential barriers to collecting this information?

HUD encourages interested parties to submit comment in response to these questions.
