and lodged a proposed Consent Decree with the United States District Court for the Western District of Michigan in the lawsuit entitled United States of America and the State of Michigan v. NCR Corporation, Civil Action No. 1:19-cv–01041.

The United States, on behalf of the United States Environmental Protection Agency (“EPA”), and the State of Michigan (the “State”), on behalf of the Michigan Department of Environment, Great Lakes, and Energy (“EGLE”), filed suit against NCR Corporation (“NCR”) under the Comprehensive Environmental Response, Compensation, and Liability Act (“CERCLA”) for the recovery of response costs and the performance of response work at the Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site in Michigan (the “Site”). Under the terms of the Consent Decree, NCR will perform an estimated $135.7 million in cleanup work on the Kalamazoo River and the adjacent banks and floodplains. NCR also will pay $76.5 million to EPA and $6 million to the State for past and future Site response costs. Further, NCR will pay $27 million dollars to the Kalamazoo River Natural Resources Trustee Council for natural resources damages and assessment costs. The Kalamazoo River Natural Resources Trustee Council includes both state and federal trustees. The federal trustees include the United States Department of Interior (acting through the Fish and Wildlife Service) and the Department of Commerce (acting through the National Oceanic and Atmospheric Administration). The state trustees include EGLE, the Michigan Department of Natural Resources, and the Michigan Department of the Attorney General. The Consent Decree therefore provides a total estimated value of more than $245 million for cleanup work and payments.

Notice of the lodging of the proposed Consent Decree was originally published in the Federal Register on December 17, 2019. See 84 FR 242 (Dec. 17, 2019). The publication of the original notice opened a 30-day period for public comment on the proposed Consent Decree that was scheduled to end on January 16, 2020. The publication of the current notice extends the period for public comment on the Consent Decree to February 18, 2020.

Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, U.S. Department of Justice, 500 C Street, N.W., Room 2115, Washington, DC 20530-0001.

No. 90–11–2–07912/11. All comments must be submitted no later than February 18, 2020. Comments may be submitted either by email or by mail:

NUCLEAR REGULATORY COMMISSION

[Docket No. 52–047; NRC–2016–0119]

Tennessee Valley Authority; Clinch River Nuclear Site

AGENCY: Nuclear Regulatory Commission.

ACTION: Early site permit and record of decision; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has issued early site permit (ESP) number ESP–006 to Tennessee Valley Authority (TVA). In addition, the NRC has prepared a Summary Record of Decision (ROD) that supports the NRC’s decision to issue ESP number ESP–006.

DATES: Early site permit ESP–006 became effective on December 19, 2019 and is valid for 20 years, until midnight on December 19, 2039.

ADDRESSES: Please refer to Docket ID NRC–2016–0119 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

• Federal Rulemaking website: Go to https://www.regulations.gov and search for Docket ID NRC–2016–0119. Address questions about NRC docket IDs in Regulations.gov to Jennifer Borges; telephone: 301–287–9127; email: Jennifer.Borges@nrc.gov. SUPPLEMENTARY INFORMATION:

I. Introduction

Under section 2.106 of title 10 of the Code of Federal Regulations (10 CFR), the NRC is providing notice of the issuance of early site permit number ESP–006 to TVA, and under 10 CFR 51.102(c), the NRC is providing notice that the ROD has been issued. With respect to the early site permit application filed by TVA, the NRC finds that the applicable standards and requirements of the Atomic Energy Act of 1954, as amended (AEA), and the Commission’s regulations have been met. The NRC finds that any required notifications to other agencies or bodies have been duly made and that there is
reasonable assurance that the site is in conformity with the provisions of the AEA and the Commission’s regulations. Furthermore, the NRC finds that the Licensee is technically qualified to engage in the activities authorized, and that issuance of the permit will not be inimical to the common defense and security or to the health and safety of the public. Finally, the NRC finds that the findings required by subpart A of 10 CFR part 51 have been made.

Accordingly, the early site permit (ESP–006) was issued on December 19, 2019 and became effective immediately. The early site permit is valid for 20 years, until midnight on December 19, 2039.

II. Further Information

The NRC has prepared a Final Safety Evaluation Report (FSER) and Final Environmental Impact Statement (FEIS) that document the information reviewed and the NRC’s conclusion. The Commission has also issued its decision on the staff’s review after having held the mandatory hearing on August 14, 2019, which serves as the ROD in this proceeding. The NRC also prepared a document summarizing the ROD to accompany its actions on the ESP application; this Summary ROD incorporates by reference materials contained in the FEIS. The FSER, FEIS, Summary ROD, and accompanying documentation included in the ESP package, as well as the Commission’s hearing decision and ROD, are available online in the ADAMS Public Document collection at https://www.nrc.gov/reading-rm/adams.html. From this site, persons can access the NRC’s ADAMS, which provides text and image files of NRC’s public documents.

III. Availability of Documents

The documents identified in the following table are available to interested persons through the ADAMS Public Documents collection. A copy of the early site permit application is also available for public inspection at the NRC’s PDR and at https://www.nrc.gov/reactors/new-reactors.html.
