to the demonstration do not appear to be implementing the program or issuing many FUP-Youth vouchers. To this end, while many of the core evaluation questions are focused on implementation questions and challenges, the study will also necessarily explore why some demonstration sites do not appear to be fully engaged with the program. Finally, a goal of the evaluation is to measure short-term outcomes for participating youth and determine any emerging common attributes among them.

This notice announces HUD’s intent to collect information through the following methods: (1) Study investigators (from Urban Institute) will administer an agency-level web-based survey to all PHAs and PCWAs participating in the demonstration. (2) Investigators will conduct one-time telephone interviews with a sample of staff from 10 PHAs in the demonstration to gather more nuanced information than can be collected in the web-based surveys. (3) Investigators will also visit three FUP/FSS demonstration sites to conduct interviews with PHA and PCWA administrators, front-line workers, community service providers, as well as interviews with youth participants. (4) To describe the characteristics of the participating PHAs and FUP/FSS participants and measure short-term outcomes, the study investigators will analyze HUD Public and Indian Housing Information Center (PIC) and Voucher Management System (VMS) administrative data.

Respondents: Youth participants in the FUP/FSS demonstration and staff at the PHAs, PCWAs, CoCs, and other service providers.

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

In a Complaint that was filed simultaneously with the Consent Decree, the United States and seven states and state or local agencies seek injunctive relief against Lehigh Cement Company LLC (“Lehigh”) and Lehigh White Cement Company, LLC (“Lehigh White”) and penalties against Lehigh pursuant to Sections 113(b) and 167 of the Clean Air Act (“the Act”), 42 U.S.C. 7413(b) and 7477, for alleged violations of the Prevention of Significant Deterioration provisions of the Act, 42 U.S.C. 7470–7472; the nonattainment New Source Review provisions of the Act, 42 U.S.C. 7501–7515; the federal–approved and enforceable state implementation plans, which incorporate and/or implement the above listed requirements; and corresponding state laws. The Complaint alleges claims at one or more of eleven Portland cement facilities located in eight states owned or operated by Lehigh or Lehigh White. The states and state or local agencies that have joined the Complaint and are signatories to the Consent Decree consist of Indiana, Iowa, Maryland, New York, the Pennsylvania Department of Environmental Protection, the Jefferson County Board of Health (Alabama), and the Bay Area Air Quality Management District (California).

The Consent Decree would require installation of emissions control technology for nitrogen oxides (NOx) and sulfur dioxide (SO2), emissions monitoring systems, and specified NOx and SO2 emission limits (except that the emission limit for SO2 at the Cupertino, CA facility would be established through a testing program). The Decree would also require Lehigh to pay a civil penalty of $1.3 million, and perform a mitigation project involving upgrading two off-road vehicle engines at an estimated cost of $650,000, which is expected to reduce smog-forming NOx by approximately 25 tons per year.

Notice of the lodging of the proposed Consent Decree was originally published in the Federal Register on December 11, 2019. See 84 FR 67758 (Dec. 11, 2019). The publication of the original notice opened a 30-day period for public comment on the proposed Consent Decree that was scheduled to end on January 10, 2020. The publication of the current notice extends the period for public comment on the Consent Decree to February 10, 2020.

Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to United States, et al. v. Lehigh Cement Company LLC and Lehigh White Cement Company, LLC, D.J. Ref. No. 90–5–2–1–08531/1. All comments must be submitted no later than 30 days after the publication date of this notice. DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On January 7, 2020, the Department of Justice lodged a proposed Consent Decree with the District Court of the Southern District of New York in a lawsuit entitled United States v. Dover Greens, LLC, Civil Action No. 20–124.

In this action the United States seeks, as provided under the Clean Air Act (“CAA”) and EPA’s National Emissions Standards for Asbestos (“Asbestos NESHAP”), civil penalties and injunctive relief from Dover Greens in connection with its renovation of the former Harlem Valley Psychiatric Center in Wingdale, New York. The proposed Consent Decree resolves the United States’ claims and requires Dover Greens to pay $575,000 and imposes injunctive relief.

The publication of this notice opens the public comment period on the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to United States v. Dover Greens, LLC, Civil Action No. 20–124, D.J. Ref. No. 90–5–2–11427. All comments must be submitted no later than 30 days after the publication date of this notice. Comments may be submitted either by email or by mail:
