### Farm Service Agency

**Title:** 2019 Market Facilitation Program Application.

**OMB Control Number:** 0560–0293.

**Summary of Collection:** This information collection is required for the Farm Service Agency (FSA) to make Market Facilitation Program (MFP) payments to domestic crop and commodity producers. Specifically, the Commodity Credit Corporation (CCC) Charter Act (15 U.S.C. 714c) authorizes CCC to assist in the disposition of surplus commodities and to increase the domestic consumption of agricultural commodities by expanding or aiding in the expansion of domestic markets or by developing or aiding in the development of new and additional markets, marketing facilities, and uses for such commodities. The purpose of 2019 MFP is to aid producers in the disposition of surplus commodities and aid in the expansion of domestic markets or aid in the development of new and additional markets and uses for the specific crops or commodities that are negatively impacted by actions of foreign governments.

**Need and Use of the Information:** In order to determine whether a producer is eligible for 2019 MFP and to calculate a payment, a producer is required to submit the following forms: CCC–913, Market Facilitation Program (MFP) 2019 Application, and CCC–913 continuation form for adding more information for Part D; CCC–941, Average Adjusted Gross Income (AGI) Certification, CCC–942 Request for an Exception to Average AGI limitation, and Consent to Disclosure of Tax Information; CCC–902, Farm Operating Plan for Payment Eligibility; FSA–578, Report of Acreage; and AD–1026, Highly Erodible Land Conservation (HELC) and Wetland Conservation Certification. Most applicants will already have FSA–578, CCC–902, CCC–941, and AD–1026 on file at the time of application; however, a percentage of applicants who have not previously participated in FSA programs may need to file these forms to become eligible. The new producers

will complete the forms if have not yet filed with FSA. Lack of adequate information to make the determination could result in the improper administration and appropriation of CCC funds.

**Description of Respondents:** Farms.

**Number of Respondents:** 1,445,500.

**Frequency of Responses:** Reporting; Other (one-time).

**Total Burden Hours:** 550,317.

Agriculture, and Related Agencies Appropriation Bill for fiscal year 1988. The NACMCF provides scientific advice and recommendations to the USDA and HHS on public health issues relative to the safety and wholesomeness of the U.S. food supply, including development of microbiological criteria and review and evaluation of epidemiological and risk assessment data and methodologies for assessing microbiological hazards in foods.

The USDA, in cooperation with HHS, is announcing its intent to renew the NACMCF's charter. The charter is available on the FSIS web page at <https://www.fsis.usda.gov/wps/portal/fsis/topics/data-collection-and-reports/nacmcf/committee-charter>. The renewal of NACMCF's charter is necessary and in the public interest because of the need for external expert advice on the range of scientific and technical issues that must be addressed by the USDA and HHS to ensure the safety of domestic, imported, and exported foods.

Members of NACMCF will be appointed by the Secretary of Agriculture after consultation with an Executive Committee that represents five participating Agencies in NACMCF: The Food Safety and Inspection Service (FSIS), the U.S. Food and Drug Administration (FDA), Centers for Disease Control and Prevention (CDC), the National Marine Fisheries Service (NMFS), and the Department of Defense's Defense Logistics Agency for advice on membership appointments. Because NACMCF reviews and evaluates complex issues, NACMCF is expected to meet one or more times per year.
