to make oral statements of three minutes or less. Individuals wishing to make an oral statement should request in writing by Monday, January 27, 2020, to be scheduled on the agenda. Anyone who would like to bring related matters to the attention of the committee may file written statements with the committee staff before or after the meeting. Written comments and requests for time for oral comments must be sent to Rachael Koke, PO Box 460, Superior, MT 59872; or by email to rachael.koke@usda.gov.

Meeting Accommodations: If you are a person requiring reasonable accommodation, please make requests in advance for sign language interpreting, assistive listening devices, or other reasonable accommodation. For access to the facility or proceedings, please contact the person listed in the section titled FOR FURTHER INFORMATION CONTACT. All reasonable accommodation requests are managed on a case by case basis.

Cikena Reid,
USDA, Committee Management Officer.

DEPARTMENT OF AGRICULTURE
Forest Service
Lincoln Resource Advisory Committee
AGENCY: Forest Service, USDA.
ACTION: Notice of meeting.

SUMMARY: The Lincoln Resource Advisory Committee (RAC) will meet in Libby, Montana. The committee is authorized under the Secure Rural Schools and Community Self-Determination Act (the Act) and operates in compliance with the Federal Advisory Committee Act. The purpose of the committee is to improve collaborative relationships and to provide advice and recommendations to the Forest Service concerning projects and funding consistent with Title II of the Act. RAC information can be found at the following website: https://www.fs.usda.gov/main/pts/specialprojects/racs.

DATES: The meeting will be held on Monday, January 27, 2020, at 1:00 p.m.

All RAC meetings are subject to cancellation. For status of the meeting prior to attendance, please contact the person listed under FOR FURTHER INFORMATION CONTACT. ADDRESSES: The meeting will be held at the Kootenai National Forest Supervisor’s Office, 31374 U.S. Hwy. 2, Libby, Montana 59923.

Written comments may be submitted to the RAC Coordinator, Katie Andreessen.

FOR FURTHER INFORMATION CONTACT: Katie Andreessen, RAC Coordinator, by phone at 406–283–7781 or via email at marikate.andreessen@fs.usda.gov.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8:00 a.m. and 8:00 p.m., Eastern Standard Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to:
1. Vote on a RAC Chair;
2. Discuss, prioritize, and approve project proposals;
3. Discuss and/or approve recreation proposal; and
4. Receive public comment.

The meeting is open to the public. The agenda will include time for people to make oral statements, subject to time requirements by RAC facilitator. Anyone who would like to bring related matters to the attention of the committee may file written statements with the committee staff before or after the meeting.

Meeting Accommodations: If you are a person requiring reasonable accommodation, please make requests in advance for sign language interpreting, assistive listening devices, or other reasonable accommodation. For access to the facility or proceedings, please contact the person listed in the section titled FOR FURTHER INFORMATION CONTACT. All reasonable accommodation requests are managed on a case by case basis.

Cikena Reid,
USDA, Committee Management Officer.

Commodity Credit Corporation
Rural Business- Cooperative Service
[Docket ID RBS–20–Business–0002]
Request for Information on a Higher Blends Infrastructure Incentive Program

AGENCY: Rural Business-Cooperative Service and the Commodity Credit Corporation, USDA.

ACTION: Notice of request for information (RFI) for a Higher Blends Infrastructure Incentive Program (HBIIIP).

SUMMARY: The United States Department of Agriculture requests input from all interested parties on a Higher Blends Infrastructure Incentive Program (HBIIIP). The Department Agency is exploring options to expand domestic ethanol and biodiesel availability and is seeking information on opportunities to consider infrastructure projects to facilitate increased sales of higher biofuel blends (E15/B20 or higher.) This effort will build on biofuels infrastructure investments and experience gained through the Biofuels Infrastructure Partnership (BIP). USDA administered BIP from 2016–2019 through state and private partners to expand the availability of E15 and E85 infrastructure to make available higher ethanol blends at retail gas stations around the country.

DATES: Interested persons are invited to submit comments on or before 11:59 p.m. Eastern Time on January 30, 2020. Comments received after the posted deadline will not be considered, regardless of postmark.

ADDRESSES: Comments submitted in response to this notice may be submitted online via the Federal eRulemaking Portal. Go to http://www.regulations.gov and search for the Docket ID RBS–20–Business–0002. Follow the online instructions for submitting comments.

All comment received will be posted without change and publicly available on www.regulations.gov.

FOR FURTHER INFORMATION CONTACT: Mark Brodziski: telephone (202)690–4730, email: mark.brodziski@usda.gov. Persons with disabilities that require alternative means for communication should contact the U.S. Department of Agriculture (USDA) Target Center at (202)720–2600 (voice).

SUPPLEMENTARY INFORMATION: Overview

This Request for Information (RFI) solicits information on options for fuel ethanol and biodiesel infrastructure, innovation, products, technology, and data derived from all HBIIIP processes and/or science that drive economic growth, promote health, and increase public benefit. Through this RFI, USDA seeks input from the public, including but not limited to: (a) Retail fueling stations, convenience stores, hypermarket fueling stations, fleet facilities, and similar entities with capital investments; (b) equipment providers, equipment installers, certification entities and other stakeholder/manufacturers (both upstream and down); (c) fuel distribution centers, including terminals
This RFI is intended to inform notable gaps, vulnerabilities, and areas to promote and protect in the HBIP that may benefit from Federal government attention. The information can include suggestions on those areas of greatest priority within the HBIP, as well as past or future Federal government efforts to build, promote, and sustain the sale and use of renewable fuels. The public input provided in response to this RFI will inform USDA as well as private sector and other stakeholders with interest in and expertise relating to such a promotion.

Instructions

Response to this RFI is voluntary. Each individual or institution is requested to submit only one response as directed in theADDRESSES section of this notice. Submission must not exceed 10 pages in 12 point or larger font, with a page number provided on each page. Responses should include the name of the person(s) or organization(s) filing the comment. Comments containing references, studies, research, and other empirical data that are not widely published should include copies or electronic links of the referenced materials. Comments containing profanity, vulgarity, threats, or other inappropriate language or content will not be considered. Comments submitted in response to this notice are subject to Freedom of Information Act (FOIA). Responses to this RFI may also be posted, without change, on a Federal website.

Therefore, we request that no business proprietary information, copyrighted information, or personally identifiable information be submitted in response to this RFI. In accordance with FAR 15–202(3), responses to this notice are not offers and cannot be accepted by the Government to form a binding contract. Additionally, the U.S. Government will not pay for response preparation or for the use of any information contained in the response.

To inform the Federal government’s decision-making and establish the Nation’s guiding principles in the promotion of the HBIP, USDA now seeks public input on how U.S. Government action might support appropriately the expansion of a nationwide effort. To that end, responders are specifically requested to answer one or more of the following questions in their submissions.

Consortia responses are also encouraged.

1. What type of assistance/incentive would encourage the increased sales/ use of fuel ethanol and/or biodiesel in a way that is most cost-effective to the government?
   a. Should a potential biofuels infrastructure program incentivize the lowest cost per incremental gallon of ethanol or biodiesel use/sales at the retail/fueling station level or terminal/depot/wholesale level or both retail/fueling station and terminal/depot/wholesale levels?
   b. What types of equipment and infrastructure should be eligible under the program?
   2. Should program funding provided to participants include: (a) Direct cost-share toward purchase of equipment, retrofitting, and enhancements; (b) higher blend biofuel sales or marketing incentives; (c) both; or (d) other?
   3. Should the program include minimum standards for equipment, such as equipment certified to dispense biofuel blends containing 25 percent ethanol (certified for use with E15) and/or B20-compatible or higher biofuel blend dispensers?
   4. From your perspective, what types of efforts have proven to be effective in increasing higher biofuel blends sales?
      a. What are the most appropriate higher biofuel blend levels (for both ethanol and biodiesel) that the program should be incentivizing?
      b. Should there be a minimum requirement on the number or percentage of dispensers converted to higher biofuel blends at a retail site or fueling station?
      c. Should there be a requirement for certain dispenser configurations such as shared hoses (as practicable and allowed by law), for higher biofuel blends to share a pump hose with existing fuels?
      d. Should there be a requirement for signage (as allowed by law) and marketing?
      e. Should USDA insist on consistent terminology and branding and naming of E15 and/or B20 or other higher biofuel blends?
   5. From your perspective, if cost-sharing is required, what minimum level of cost-share (owner contribution) should be required of recipients of funding? What would you consider to be the most cost-effective level of cost-share?
   6. What steps should a potential biofuels program take to ensure equitable program participation by small- to mid-sized station owners? (That is, owners of less than 10 to less than 20 sites/stations. We are especially interested to hear from small- to mid-sized station owners on this question.)
   7. From your perspective, how much post-award reporting is reasonable for recipients of funding? e.g. quarterly or annual reporting of higher blend fuel sales by the participant?

8. What other barriers exist that limit expansion of availability of biofuels to consumers? What specific actions could USDA take to guide a transformation and/or expansion of a nationwide biofuels-infrastructure program, in both the short- and long-term?

9. To what extent should infrastructure investments made today be required to accommodate fuels anticipated to be in the marketplace of tomorrow?

Robert Stephenson,
Executive Vice President, Commodity Credit Corporation.

Bette B. Brand,
Administrator, Rural Business-Cooperative Service.

Information Systems Technical Advisory Committee; Notice of Partially Closed Meeting

The Information Systems Technical Advisory Committee (ISTAC) will meet on January 29, 2020, 9:00 a.m., in the Herbert C. Hoover Building, Room 3884, 14th Street between Constitution and Pennsylvania Avenues NW, Washington, DC. The Committee advises the Office of the Assistant Secretary for Export Administration on technical questions that affect the level of export controls applicable to information systems equipment and technology.

Wednesday, January 29

Open Session

1. Welcome and Introductions
2. Working Group Reports
3. Old Business
4. NIST AI Standardization Program
5. Industry presentation: AI Chips
6. New Business

Closed Session

7. Discussion of matters determined to be exempt from the provisions
