that competition for order flow is ‘fierce.’ . . . As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’ . . . ’.24 Accordingly, the Exchange does not believe its proposed changes to extend the above-mentioned fee waivers and incentive programs impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act25 and paragraph (f) of Rule 19b–426 thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

Cboe BZX Exchange, Inc. (the “Exchange” or “BZX”) is filing with the Securities and Exchange Commission (“Commission”) a proposed rule change to amend its Fee Schedule. The text of the proposed rule change is provided in Exhibit 5.

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its fee schedule for its equity options platform (“BZX Options”), effective January 2, 2020. The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 16 options venues to which market participants can add liquidity in Penny Pilot Securities 4 under footnote 6, which provide an enhanced contract for Market Maker orders that meet certain add liquidity criteria. The Exchange believes that the ever-shifting competitive environment, the Exchange also offers tiered pricing which provides Members opportunities to qualify for higher rebates or reduced fees where certain volume criteria and thresholds are met. Tiered pricing provides an incremental incentive for Members to strive for higher tier levels, which provides increasingly higher benefits or discounts for satisfying increasingly more stringent criteria. For example, the Exchange currently offers nine Market Maker Penny Pilot Add Vol Tiers (“MM Penny Add Tiers”) under footnote 6, which provide an enhanced rebate between $0.33 and $0.46 per contract for qualifying Market Maker orders which meet certain add liquidity thresholds and yield fee code PM. Under the current MM Penny Add Tiers, a Member receives an enhanced rebate where the Member has an ADV, ADAV, or ADRV (depending on the Tier) 5 in Market Maker orders greater than or equal to a specified percentage of OCV 6 or TCV 7 (currently in Tier 4).

2. Market share among the exchanges from month to month demonstrates that market participants can shift order flow, or discontinue to reduce use of certain categories of products, in response to fee changes. Accordingly, competitive forces constrain the Exchange’s transaction fees, and market participants can readily trade on competing venues if they deem pricing levels at those other venues to be more favorable.

The Exchange’s Fees Schedule sets forth standard rebates and rates applied per contract. For example, if the Exchange assesses a standard rebate of $0.29 per contract for Market Maker orders that add liquidity in Penny Pilot Securities 4 and $0.40 per contract for such orders in non-Penny Pilot Securities. Additionally, in response to the competitive environment, the Exchange also offers tiered pricing which provides Members opportunities to qualify for higher rebates or reduced fees where certain volume criteria and thresholds are met. Tiered pricing provides an incremental incentive for Members to strive for higher tier levels, which provides increasingly higher benefits or discounts for satisfying increasingly more stringent criteria. For example, the Exchange currently offers nine Market Maker Penny Pilot Add Vol Tiers (“MM Penny Add Tiers”) under footnote 6, which provide an enhanced rebate between $0.33 and $0.46 per contract for qualifying Market Maker orders which meet certain add liquidity thresholds and yield fee code PM.

Under the current MM Penny Add Tiers, a Member receives an enhanced rebate where the Member has an ADV, ADAV, or ADRV (depending on the Tier) 5 in Market Maker orders greater than or equal to a specified percentage of OCV 6 or TCV 7 (currently in Tier 4).

4 “Penny Pilot Securities” are those issues quoted pursuant to Exchange Rule 21.5, Interpretation and Policy .01.
5 “ADAV” means average daily added volume calculated as the number of contracts added, “ADRV” means average daily removed volume calculated as the number of contracts removed, and “ADV” means average daily volume calculated as the number of contracts added or removed, per day. ADRV and ADV are calculated on a monthly basis.
6 “OCC Customer Volume” or “OCV” means the total equity and ETF options volume that clears in the Customer range at the Options Clearing Corporation (“OCC”) for the month for which the fees apply, excluding volume on any day that the Exchange experiences an Exchange System Disruption and on any day with a scheduled early market close.
7 “TCV” means total consolidated volume calculated as the volume reported by all exchanges to the consolidated transaction reporting plan for the month for which the fees apply, excluding volume on any day that the Exchange experiences an Exchange System Disruption and on any day with a scheduled early market close.
