**DEPARTMENT OF EDUCATION**

[Docket No. ED–2019–ICCD–0132]

**Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; DCIA Aging and Compliance Data Requirements for Guaranty Agencies**

**AGENCY:** Federal Student Aid (FSA), Department of Education (ED).

**ACTION:** Notice.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, ED is proposing a new information collection.

**DATES:** Interested persons are invited to submit comments on or before February 20, 2020.

**ADDRESS:** To access and review all the documents related to the information collection listed in this notice, please use http://www.regulations.gov by searching the Docket ID number ED–2019–ICCD–0132. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at http://www.regulations.gov by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. If the regulations.gov site is not available to the public for any reason, ED will temporarily accept comments at ICCDocketMgr@ed.gov. Please include the docket ID number and the title of the information collection request when requesting documents or submitting comments. Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Strategic, Collections, and Clearance Governance and Strategy Division, U.S. Department of Education, 400 Maryland Ave SW, LBJ, Room 6W–208D, Washington, DC 20202–4537.

**FOR FURTHER INFORMATION CONTACT:** For specific questions related to collection activities, please contact Beth Grebeldinger, 202–377–4018.

**SUPPLEMENTAL INFORMATION:** The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public’s reporting burden. It also helps the public understand the Department’s information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

**Title of Collection:** DCIA Aging and Compliance Data Requirements for Guaranty Agencies

**OMB Control Number:** 1845–NEW

**Type of Review:** A new information collection.

**Respondents/Affected Public:** State, Local, and Tribal Governments; Private Sector.

**Total Estimated Number of Annual Responses:** 550.

**Total Estimated Number of Annual Burden Hours:** 1,430.

**Abstract:** The Department is required to report to the U.S. Department of the Treasury (Treasury) the status and condition of its non-tax debt portfolio in accordance with the requirements of the Debt Collection Improvement Act of 1996 (DCIA) and the Digital Accountability and Transparency Act of 2014 (DATA Act). The Department is unable to prepare an accurate and compliant Treasury Report based on the data it currently receives from its Guaranty Agencies (GAs). The new guidance will require the GAs to: Age debt according to DCIA; report the eligibility of DCIA-aged debt for referral to the Treasury Offset Program (TOP); and report compliance with Form 1099–C reporting. The new reporting requirements are titled DCIA Aging and Compliance Data Requirements for Guaranty Agencies (the Requirements). The Department plans to issue the Requirements to the GAs by April 1, 2020 for implementation by the first quarter of FY 2021.

**DEPARTMENT OF ENERGY**

**Exports of U.S-Origin Highly Enriched Uranium for Medical Isotope Production: Certification of Insufficient Supplies of Non-Highly Enriched Uranium (HEU)-Based Molybdenum-99 for United States Domestic Demand**

**AGENCY:** National Nuclear Security Administration, Department of Energy.

**ACTION:** Notice.

**SUMMARY:** The Secretary of Energy, in accordance with the American Medical Isotopes Production Act of 2012 (AMIPA), issued a certification that there is an insufficient global supply of
molybdenum-99 (Mo-99) produced without the use of HEU available to satisfy the domestic U.S. market and that the export of U.S.-origin HEU for the purposes of medical isotope production is the most effective temporary means to increase the supply of Mo-99 to the domestic U.S. market. This certification is effective for no more than two years from the effective date of January 2, 2020.

FOR FURTHER INFORMATION CONTACT: Requests for additional information may be sent to: Joan Dix, Deputy Director, Office of Conversion, Mo99@nnsa.doe.gov, 202–586–2695.

SUPPLEMENTARY INFORMATION:

Authority and Background

The American Medical Isotopes Production Act of 2012 (AMIPA) (Subtitle F, Title XXXI of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112–239)), enacted on January 2, 2013, amended Section 134 of the Atomic Energy Act of 1954 (42 U.S.C. 2160d) by striking subsection c. and inserted language that prohibits the Nuclear Regulatory Commission (NRC) from issuing a license for the export of HEU from the United States for the purposes of medical isotope production, effective seven years after enactment of AMIPA, subject to a certification regarding the sufficiency of Mo-99 supply in the United States.

The law provides that the ban on HEU exports would become effective seven years after enactment of AMIPA only if the Secretary of Energy jointly certifies, with the Secretary of Health and Human Services, that there is a sufficient supply of Mo-99 produced without the use of HEU available to meet U.S. patient needs, and that it is not necessary to export U.S.-origin HEU for the purposes of medical isotope production. The law further provides that the Secretary of Energy can extend the deadline for the joint certification if the Secretary certifies that there is insufficient global supply of Mo-99 produced without the use of HEU available to satisfy the domestic market and that the export of U.S.-origin HEU for the purposes of medical isotope production is the most effective temporary means to increase the supply of Mo-99 to the domestic U.S. market, thereby delaying the effective date of the export license ban for up to six years.

In preparation for a Secretarial certification regarding the sufficiency of supply of non-HEU based Mo-99, the Department of Energy (DOE) published a notice and request for public comment in the Federal Register (84 FR 65378) on November 27, 2019 to collect input from the public on the state of the Mo-99 supply. DOE accepted comments, data, and information through December 27, 2019.

Based on these submissions, along with other publicly available healthcare data, and in coordination with the Department of Health and Human Services’ Food and Drug Administration, the Secretary of Energy has certified that there is insufficient global supply of non-HEU-based Mo-99 to meet U.S. market needs and that the export of U.S.-origin HEU is the most effective temporary means to increase the supply of Mo-99 to the U.S. market. While the statute provides that the resulting delay in the effective date of the HEU export licensing ban can be for up to six years, the Secretary’s certification is effective for a period of no more than two years, following the certification’s effective date of January 2, 2020. DOE will conduct periodic reviews of the domestic U.S. and global Mo-99 market and will work toward a certification to Congress, regarding the sufficiency of supply as soon as the statutory conditions are satisfied.

Certification

I hereby certify, pursuant to 42 U.S.C. 2160d(d), that there is an insufficient global supply of molybdenum-99 produced without the use of highly enriched uranium available to satisfy the domestic U.S. market and that the export of U.S.-origin highly enriched uranium for the purposes of medical isotope production is the most effective temporary means to increase the supply of molybdenum-99 to the domestic U.S. market. This certification shall be effective on January 2, 2020, for a period of no more than two years from the effective date.

Dan Brouillette
JAN–2 2020
