ACTION: Revision of existing information collection; request for comment; correction.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is correcting a notice that was published in the Federal Register on January 13, 2020 soliciting public comment on the revision of an existing collection of information. This action is necessary to correct the Docket ID listed in the body of the notice.

ADDRESSES: You may submit comments by any of the following methods:
• Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC–2017–0151. Address questions about NRC docket IDs in Regulations.gov to Jennifer Borges; telephone: 301–287–9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individuals listed in the FOR FURTHER INFORMATION CONTACT section of this document.
• Mail comments to: David Cullison, Office of the Chief Information Officer, Mail Stop: T6–A10M, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

SUPPLEMENTARY INFORMATION: Correction

Dated at Rockville, Maryland, this 14th day of January, 2020.

For the Nuclear Regulatory Commission.

David C. Cullison,
NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7550–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2020–0001]

Sunshine Act Meetings

PLACE: Commissioners’ Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public.

MATTERS TO BE CONSIDERED:

Week of January 20, 2020
There are no meetings scheduled for the week of January 20, 2020.

Week of January 27, 2020—Tentative
Tuesday, January 28, 2020
9:00 a.m. Discussion of Medical Uses of Radioactive Materials (Public Meeting); (Contact: Lisa Dimmick: 301–415–0694).

This meeting will be webcast live at the Web address—https://www.nrc.gov/.

Week of February 3, 2020—Tentative
Thursday, February 6, 2020
9:00 a.m. Briefing on Advanced Reactors and New Reactor Topics (Public Meeting); (Contact: Luis Betancourt: 301–415–6146).

This meeting will be webcast live at the Web address—https://www.nrc.gov/.

Week of February 10, 2020—Tentative
There are no meetings scheduled for the week of February 10, 2020.

Week of February 17, 2020—Tentative
There are no meetings scheduled for the week of February 17, 2020.

Week of February 24, 2020—Tentative
Tuesday, February 25, 2020
9:00 a.m. Overview of Accident Tolerant Fuel Activities (Public Meeting); (Contact: Luis Betancourt: 301–415–6146).

This meeting will be webcast live at the Web address—https://www.nrc.gov/.

CONTACT PERSON FOR MORE INFORMATION:

For more information or to verify the status of meetings, contact Denise McGovern at 301–415–0681 or via email at Denise.McGovern@nrc.gov. The schedule for Commission meetings is subject to change on short notice.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings or need this meeting notice or the transcript or other information from the public meetings in another format (e.g., braille, large print), please notify Anne Silk, NRC Disability Program Specialist, at 301–287–0745, by videophone at 240–428–3217, or by email at ...
NRC is holding the meetings under the authority of the Government in the Sunshine Act, 5 U.S.C. 552b.

Dated at Rockville, Maryland, this 15th day of January 2020.

For the Nuclear Regulatory Commission.

Denise L. McGovern,
Policy Coordinator, Office of the Secretary.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–272, 50–311, and 50–354; NRC–2020–0023]

PSEG Nuclear LLC; Salem Nuclear Generating Station, Unit Nos. 1 and 2; Hope Creek Generating Station

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of amendments to licenses held by PSEG Nuclear LLC (PSEG, the licensee) for the operation of Salem Nuclear Generating Station, Unit Nos. 1 and 2 (Salem), and Hope Creek Generating Station (Hope Creek). The proposed license amendments would revise certain emergency response organization (ERO) positions for these facilities with the minimum staff ERO guidance specified in the “Alternative Guidance for Licensee Emergency Response Organizations.” The NRC is issuing an environmental assessment (EA) and finding of no significant impact (FONSI) associated with the proposed license amendments.

DATES: The EA and FONSI referenced in this document are available on January 21, 2020.

ADDRESSES: Please refer to Docket ID NRC–2020–0023 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC–2020–0023. Address questions about NRC docket IDs in Regulations.gov to Jennifer Borges; telephone: 301–287–9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.
- NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at https://www.nrc.gov/reading-rm/adams.html. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. For the convenience of the reader, the ADAMS accession numbers are provided in a table in the “Availability of Documents” section of this document.
- NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. For the convenience of the reader, the ADAMS accession numbers are provided in a table in the “Availability of Documents” section of this document.
- NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR. Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering issuance of amendments to Renewed Facility Operating License Nos. NP–57, DPR–70, and DPR–75 for Hope Creek and Salem, respectively, located in Salem County, New Jersey. In accordance with section 51.21 of title 10 of the Code of Federal Regulations (10 CFR), the NRC prepared the following EA that analyzes the environmental impacts of the proposed licensing action. Based on the results of this EA, and in accordance with 10 CFR 51.31(a), the NRC has determined not to prepare an environmental impact statement for the proposed licensing action and is issuing a FONSI.

II. Environmental Assessment

Description of the Proposed Action

The proposed action would revise certain ERO positions for these facilities with the minimum staff ERO guidance specified in the “Alternative Guidance for Licensee Emergency Response Organizations.” The on-shift and minimum ERO staffing requirements listed in the emergency plan would be revised. The proposed revisions include eliminating ERO positions and changing position descriptions. Specifically, the proposed revision would remove chemistry personnel from the on-shift ERO at each facility and revise employee duty descriptions.

The proposed action is in response to the licensee’s application dated July 8, 2019, as supplemented by letter dated November 4, 2019.

Need for the Proposed Action

Nuclear power plant owners, Federal agencies, and State and local officials work together to create a system for emergency preparedness and response that will serve the public in the unlikely event of an emergency. An effective emergency preparedness program decreases the likelihood of an initiating event at a nuclear power reactor proceeding to a severe accident. Emergency preparedness does not affect the probability of the initiating event, but a high level of emergency preparedness increases the probability of accident mitigation if the initiating event proceeds beyond the need for initial operator actions.

Each licensee is required to establish an emergency plan to be implemented in the event of an accident, in accordance with 10 CFR 50.47 and appendix E to 10 CFR part 50. The emergency plan covers preparation for evacuation, sheltering, and other actions to protect individuals near plants in the event of an accident.

The NRC, as well as other Federal and State regulatory agencies, reviews the emergency plans to ensure that they provide reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency.

Separate from this EA, the NRC staff is reviewing a safety assessment of PSEG’s proposed changes to the emergency plans for Hope Creek and Salem. This safety review will be documented in a safety evaluation. The safety evaluation of the proposed changes to the emergency plan will determine whether there continues to be reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency at Hope Creek and Salem, in accordance with the standards of 10 CFR 50.47(b) and the requirements in appendix E to 10 CFR part 50.

The proposed action would align the emergency plans for Hope Creek and Salem with the NRC’s guidance for ERGs provided in the “Alternative Guidance for Licensee Emergency Response Organizations.” This
