

mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment).

Summary of Request

On June 20, 2018, NMFS published final notice of our issuance of an IHA authorizing take of marine mammals incidental to the Tenakee Springs dock project (83 FR 29749). The effective dates of that IHA were June 1, 2019, through May 31, 2020. On October 14, 2019, ADOT informed NMFS that the project was delayed. None of the work identified in the initial IHA (*e.g.*, pile driving and removal) has occurred. ADOT submitted a request for a new identical IHA that would be effective from June 1, 2020 through May 31, 2021, in order to conduct the construction work that was analyzed and authorized through the previously issued IHA. Therefore, re-issuance of the IHA is appropriate.

Summary of Specified Activity and Anticipated Impacts

The planned activities (including mitigation, monitoring, and reporting), authorized incidental take, and anticipated impacts on the affected stocks are the same as those analyzed and authorized through the previously issued IHA.

The purpose of ADOT's construction project is to replace the existing, aging mooring and transfer structures nearing the end of their operational life due to corrosion and wear with modern facilities that provide improved operations for Alaska Marine Highway System (AMHS) ferry vessels, as well as freight and fueling operators, servicing the community of Tenakee Springs. Planned improvements include the installation of new shoreside facilities and marine structures and the renovation of existing structures. The location, timing, and nature of the activities, including the types of equipment planned for use, are the same as those described in the initial IHA. The mitigation and monitoring are also as prescribed in the initial IHA.

Species that are expected to be taken by the planned activity include harbor porpoise (*Phocoena phocoena*), Dall's porpoise (*Phocoenoides dalli*), killer whale (*Orcinus orca*), humpback whale (*Megaptera novaeangliae*), minke whale (*Balaenoptera acutorostrata*), harbor seal (*Phoca vitulina*), and Steller sea lion (*Eumetopias jubatus*). A description of the methods and inputs used to estimate take anticipated to occur and, ultimately, the take that was

authorized is found in the previous documents referenced above. The data inputs and methods of estimating take are identical to those used in the initial IHA. NMFS has reviewed recent Stock Assessment Reports, information on relevant Unusual Mortality Events, and recent scientific literature, and determined that no new information affects our original analysis of impacts or take estimate under the initial IHA.

We refer to the documents related to the previously issued IHA, which include the **Federal Register** notice of the issuance of the initial 2019 IHA for ADOT's construction work (83 FR 29749), ADOT's application, the **Federal Register** notice of the proposed IHA (83 FR 12152), and all associated references and documents.

Determinations

ADOT will conduct activities as analyzed in the initial 2019 IHA. As described above, the number of authorized takes of the same species and stocks of marine mammals are identical to the numbers that were found to meet the negligible impact and small numbers standards and authorized under the initial IHA and no new information has emerged that would change those findings. The re-issued 2020 IHA includes identical required mitigation, monitoring, and reporting measures as the initial IHA, and there is no new information suggesting that our analysis or findings should change.

Based on the information contained here and in the referenced documents, NMFS has determined the following: (1) The required mitigation measures will effect the least practicable impact on marine mammal species or stocks and their habitat; (2) the authorized takes will have a negligible impact on the affected marine mammal species or stocks; (3) the authorized takes represent small numbers of marine mammals relative to the affected stock abundances; and (4) ADOT's activities will not have an unmitigable adverse impact on taking for subsistence purposes.

National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216-6A, NMFS must review our proposed action with respect to environmental consequences on the human environment.

Accordingly, NMFS has determined that the issuance of the IHA qualifies to be categorically excluded from further NEPA review. This action is consistent with categories of activities identified in

CE B4 of the Companion Manual for NOAA Administrative Order 216-6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion.

Endangered Species Act (ESA)

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA: 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take for endangered or threatened species.

NMFS' Alaska Regional Office issued a Biological Opinion to NMFS' Office of Protected Resources which concluded the city dock and improvement project is not likely to jeopardize the continued existence of Steller sea lions (western Distinct Population Segment) or humpback whales (Mexico DPS) or adversely modify critical habitat.

Authorization

NMFS has issued an IHA to ADOT for in-water construction activities associated with the specified activity from June 1, 2020, through May 31, 2021. All previously described mitigation, monitoring, and reporting requirements from the initial 2019 IHA are incorporated.

Dated: January 14, 2020.

Donna S. Wieting,

[RTID 0648-XY060]

Fisheries of the Exclusive Economic Zone Off Alaska; Groundfish of the Gulf of Alaska; Central Gulf of Alaska Rockfish Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of standard prices and fee percentage.

SUMMARY: NMFS publishes the standard ex-vessel prices and fee percentage for cost recovery under the Central Gulf of Alaska Rockfish Program. This action is intended to provide participants in a rockfish cooperative with the standard prices and fee percentage for the 2019 fishing year, which was authorized from May 1 through November 15. The fee percentage is 3.0 percent. The fee payments are due from each rockfish cooperative on or before February 15, 2020.

DATES: Valid on: January 22, 2020.

FOR FURTHER INFORMATION CONTACT: Carl Greene, 907-586-7105.

SUPPLEMENTARY INFORMATION:

Background

The rockfish fisheries are conducted in Federal waters near Kodiak, AK, by trawl and longline vessels. Regulations implementing the Central Gulf of Alaska (GOA) Rockfish Program (Rockfish Program) are set forth at 50 CFR part 679. Exclusive harvesting privileges are allocated as quota share under the Rockfish Program for rockfish primary and secondary species. Each year, NMFS issues rockfish primary and secondary species cooperative quota (CQ) to rockfish quota shareholders to authorize harvest of these species. The rockfish primary species are northern rockfish, Pacific ocean perch, and dusky rockfish. In 2012, dusky rockfish replaced the pelagic shelf rockfish species group in the GOA Groundfish Harvest Specifications (77 FR 15194, March 14, 2012). The rockfish secondary species include Pacific cod, roughey rockfish, shortraker rockfish, sablefish, and thornyhead rockfish. Rockfish cooperatives began fishing under the Rockfish Program on May 1, 2012.

The Rockfish Program is a limited access privilege program established under the provisions of section 303A of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Sections 303A and 304(d) of the Magnuson-Stevens Act require NMFS to collect fees to recover the actual costs directly related to the management, data collection and analysis, and enforcement of any limited access privilege program. Therefore, NMFS is required to collect fees for the Rockfish Program under sections 303A and 304(d)(2) of the Magnuson-Stevens Act. Section 304(d)(2) of the Magnuson-Stevens Act also limits the cost recovery fee so that it may not exceed 3 percent of the ex-

vessel value of the fish harvested under the Rockfish Program.

Standard Prices

NMFS calculates cost recovery fees based on standard ex-vessel value prices, rather than actual price data provided by each rockfish CQ holder. Use of standard ex-vessel prices is allowed under sections 303A and 304(d)(2) of the Magnuson-Stevens Act. NMFS generates a standard ex-vessel price for each rockfish primary and secondary species on a monthly basis to determine the average price paid per pound for all shoreside processors receiving rockfish primary and secondary species CQ.

Regulations at § 679.85(b)(2) require the Regional Administrator to publish rockfish standard ex-vessel values during the first quarter of each calendar year. The standard prices are described in U.S. dollars per pound for rockfish primary and secondary species CQ landings made during the previous year.

Fee Percentage

NMFS assesses a fee on the standard ex-vessel value of rockfish primary species and rockfish secondary species CQ harvested by rockfish cooperatives in the Central GOA and waters adjacent to the Central GOA when rockfish primary species caught by a cooperative are deducted from the Federal total allowable catch. The rockfish entry level longline fishery and trawl vessels that opt out of joining a cooperative are not subject to cost recovery fees because those participants do not receive rockfish CQ. Specific details on the Rockfish Program's cost recovery provision may be found in the implementing regulations set forth at § 679.85.

NMFS informs—by letter—each rockfish cooperative of the fee percentage applied to the previous year's landings and the total amount due. Fees are due on or before February 15 of each year. Failure to pay on time will result in the permit holder's rockfish quota share becoming non-transferable, and the person will be ineligible to receive any additional rockfish quota share by transfer. In addition, cooperative members will not receive any rockfish CQ the following year until full payment of the fee is received by NMFS.

NMFS calculates and publishes in the **Federal Register** the fee percentage in the first quarter of each year according to the factors and methods described in Federal regulations at § 679.85(c)(2). NMFS determines the fee percentage that applies to landings made in the previous year by dividing the total

Rockfish Program management, data collection and analysis, and enforcement costs (direct program costs) during the previous year by the total standard ex-vessel value of the rockfish primary species and rockfish secondary species for all rockfish CQ landings made during the previous year (fishery value). NMFS captures the direct program costs through an established accounting system that allows staff to track labor, travel, contracts, rent, and procurement. Fee collections in any given year may be less than, or greater than, the direct program costs and fishery value for that year, because, by regulation, the fee percentage is established in the first quarter of the calendar year based on the program costs and the fishery value of the previous calendar year.

Using the fee percentage formula described above, the estimated percentage of program costs to value for the 2019 calendar year is 3.08 percent of the standard ex-vessel value; however, the fee percentage amount must not exceed 3.0 percent pursuant section 304(d)(2)(B) of the Magnuson-Stevens Act. Therefore, the 2019 fee percentage is set at 3.0 percent. The fee percentage for 2019 is an increase from the 2018 fee percentage of 2.86 percent (84 FR 1709, February 5, 2019). Although program costs for 2019 decreased over costs accrued in 2018, this was offset by a 7.6 percent decrease in the value of the fishery in 2019, relative to the 2018 fishery value. The majority of the 2019 costs come from direct personnel and overhead costs, which has been consistent across all years of the program.

TABLE 1—STANDARD EX-VESSEL PRICES BY SPECIES FOR THE 2019 ROCKFISH PROGRAM SEASON IN KODIAK, ALASKA

Species	Period ending	Standard ex-vessel price per pound
Dusky rockfish*	May 31	\$0.18
	June 30	0.18
	July 31	0.18
	August 31	0.18
	September 30	0.18
	October 31	0.18

[RTID 0648–XA019]

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council’s (Council)

Atlantic Mackerel, Squid, and Butterfish (MSB) Advisory Panel will hold two meetings.

DATES: The meetings will be held on Tuesday, February 4, 2020 and Tuesday February 18, 2020. Both will begin at 3 p.m. and conclude by 5 p.m. For agenda details, see **SUPPLEMENTARY INFORMATION.**

ADDRESSES: The meeting will be held via webinar with a telephone-only audio connection: <http://mafmc.adobeconnect.com/illex-wg/>.

Telephone instructions are provided upon connecting, or the public can call direct: 800–832–0736, Rm: *7833942#.

Council address: Mid-Atlantic Fishery Management Council, 800 N State Street, Suite 201, Dover, DE 19901; telephone: (302) 674–2331 or on their website at www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526–5255.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to gather Advisory Panel input on analysis related to possible changes to the *Illex* squid quota. An agenda and background documents will be posted at the Council’s website (www.mafmc.org) prior to the meeting.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526–5251, at least 5 days prior to any meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 16, 2020.

Tracey L. Thompson,
Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BUREAU OF CONSUMER FINANCIAL PROTECTION

[Docket No: CFPB–2020–0002]

Privacy Act of 1974; System of Records

AGENCY: Bureau of Consumer Financial Protection.

ACTION: Notice of a modified System of Records.

SUMMARY: In accordance with the Privacy Act of 1974, as amended, the Bureau of Consumer Financial

Protection, hereinto referred to as the Consumer Financial Protection Bureau (Bureau), gives notice of the modification of a Privacy Act System of Records. The information in the system will enable the Bureau to carry out its responsibilities with respect to banks, savings associations, credit unions, and their affiliates and service providers, including the coordination and conduct of examinations, supervisory evaluations and analyses, enforcement actions, actions in Federal court, and coordination with other financial regulatory agencies. The Bureau is modifying the system of records in order to update descriptions of the system location; the system manager; the address whereby a member of the public can request access to records, contest records, or request notification whether a system contains a record pertaining to him or her; and the policies and practices for retention and disposal of records.

DATES: Comments must be received no later than February 21, 2020. The modified system of records will be effective January 22, 2020, unless the comments received result in a contrary determination.

ADDRESSES: You may submit comments, identified by the title and the docket number (see above), by any of the following methods:

- *Electronic:* <http://www.regulations.gov>; Follow the instructions for soliciting comments.

• *Email:* privacy@cfpb.gov.

• *Mail/Hand Delivery/Courier:* Tannaz Haddadi, Acting Chief Privacy Officer, Consumer Financial Protection Bureau, 1700 G Street NW, Washington, DC 20552.

All submissions must include the agency name and docket number for this notice. In general, all comments received will be posted without change to <http://www.regulations.gov>. In addition, comments will be available for public inspection and copying at 1700 G Street NW, Washington, DC 20552 on official business days between the hours of 10 a.m. and 5 p.m. Eastern Time. You can make an appointment to inspect comments by telephoning (202) 435–7058. All comments, including attachments and other supporting materials, will become part of the public record and subject to public disclosure. You should submit only information that you wish to make available publicly.

FOR FURTHER INFORMATION CONTACT: Tannaz Haddadi, Acting Chief Privacy Officer, at (202) 435–7058. If you require this document in an alternative electronic format, please contact
