FOR FURTHER INFORMATION CONTACT: Erin M. Gawera, by telephone at 904-731-3121 or via email at erin_gawera@fws.gov.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service (Service), announce receipt of an application from Holland Development, Inc. for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests the ITP to take the federally listed sand skink (*Neoseps reynoldsi*) incidental to the construction of a housing development (project) in Lake County, Florida. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP) and the Service's preliminary determination that this HCP qualifies as "low-effect," categorically excluded, under the National Environmental Policy Act (NEPA; 42 U.S.C. 4231 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, which are also available for public review.

Project

Holland Development, Inc. requests a 5-year ITP to take sand skinks by converting approximately 2.8 acres of occupied skink foraging and sheltering habitat incidental to the construction of a housing development on a 26.89-acre property with parcel ID number 09-22-26-0700-017000000 in Section 19, Township 22 South, Range 26 East, Lake County, Florida. The applicant proposes to mitigate for take of the sand skinks by purchasing 5.6 credits from the Lake Wales Ridge Conservation Bank or another Service-approved sand skink conservation bank. The Service would require the applicant to make this

purchase prior to engaging in activities associated with the project.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's project, including land clearing, infrastructure building, landscaping, and the proposed mitigation measure, would individually and cumulatively have a minor or negligible effect on sand skinks and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and the HCP is low effect under our NEPA regulations at 43 CFR 46.205 and 46.210. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and, (3) impacts that, when considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result in significant cumulative effects to environmental values or resources over time.

Next Steps

The Service will evaluate the application and the comments to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding findings, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number TE 57069D-0 to Holland Development, Inc.

Authority

The Service provides this notice under section 10(c) (16 U.S.C. 1539(c))

of the ESA and NEPA regulation 40 CFR 1506.6.

Receipt of Incidental Take Permit Application; Eastern Collier Property Owners, LLC, Multi-Species Habitat Conservation Plan, Collier County, Florida; Additional Applicant

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce receipt of an application from Gargiulo, Inc. (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests to join 11 other landowners, collectively known as "Eastern Collier Property Owners, LLC," in requesting individual 50-year ITPs authorizing take of the Florida panther and 18 other Federal or State-listed species. The take would be incidental to residential and commercial development, earth mining, and low-intensity rural land activities on properties in Collier County, Florida (project). We are accepting comments on Gargiulo, Inc.'s ITP application.

DATES: We will accept comments received or postmarked on or before February 21, 2020. Comments submitted electronically at <http://www.regulations.gov> must be received by 11:59 p.m. Eastern time on the closing date. Any comments we receive after the closing date may not be considered in the final decision on these actions.

ECPO, U.S. Fish and Wildlife Service, 1339 20th Street, Vero Beach, FL 32960; or by telephone at 772–469–4356.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, have received an application for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant seeks to join 11 other landowners, collectively known as “Eastern Collier Property Owners, LLC” (ECPO), in obtaining individual 50-year ITPs. ECPO collaborated on a joint HCP to address long-term land-use planning and conservation issues related to the Florida panther in the east Collier County area (see also <http://www.floridapantherprotection.com>).

Table 1 lists the species covered by the HCP. The Service announced the

availability of 11 landowners’ ITP applications in the **Federal Register** on October 19, 2018 (83 FR 53078). The applications included a jointly prepared habitat conservation plan (HCP). We also sought comment on our draft environmental impact statement (EIS). The comment period closed on December 3, 2018. All 12 applicants are listed below in Table 2.

Applicant

Gargiulo, Inc. purchased approximately 5,000 acres from another ECPO member, Collier Enterprises Management, Inc. The purchased tracts are already included in the HCP area, and there have been no changes to the activities covered by the HCP since publication of the October 19, 2018, notice.

Background

Section 9 of the ESA and its implementing regulations prohibit “take” of federally listed “threatened”

or “endangered” fish and wildlife species. However, section 10(a) of the ESA provides exceptions to the prohibition by allowing the Service to issue permits authorizing take of listed species where such take is incidental to, and not the purpose of, otherwise lawful activities, provided the applicant meets certain statutory requirements.

The ECPO HCP proposes a programmatic approach and framework for engaging in incidental take of the covered species while providing for the permanent protection of portions of the HCP area via conservation easements and funding for conservation activities in addition to those provided in the HCP. ECPO collectively owns a total of 151,779 acres within the approximately 174,000-acre HCP area. Up to 45,000 acres of the area could be developed or used for other activities under the HCP. Impacts to covered species from the project would be mitigated through

habitat management measures, the placement of conservation easements on up to 107,000 acres of the HCP area, and contributions to a conservation endowment, the Marinelli Fund, to implement conservation measures for the covered species throughout and beyond the HCP area.

Draft Environmental Impact Statement

We published a notice of intent to prepare an EIS for ECPO’s HCP in the **Federal Register** on March 25, 2016 (81 FR 16200). A public scoping meeting was held in Naples, Florida, on April 12, 2016, and an online public participation webcast was conducted on April 19, 2016. We incorporated issues identified during the scoping meetings into the draft EIS. A summary of the comments received during the scoping period is provided in the scoping report appended to the draft EIS. We published

a notice of availability of the draft EIS on October 19, 2018.

The draft EIS assesses the likely environmental impacts associated with the implementation of the activities proposed in the HCP compared to the likely consequences of not issuing the requested ITPs, *i.e.*, uncoordinated project-by-project and lot-by-lot planning and mitigation. The Department of the Army, through its bureau the U.S. Army Corps of Engineers, Jacksonville District, is a cooperating agency in the development of the draft EIS.

Public Comments

Comments previously submitted on the HCP, draft EIS, or 11 ITP applications need not be resubmitted. We have incorporated them into the public record and will fully consider them in our deliberations on whether to issue the requested ITPs.

If you wish to comment on Gargiulo, Inc.'s ITP application, you may submit comments by any one of the methods listed above in **ADDRESSES**. Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made available to the public at any time. While you may request in your comment that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Next Steps

We will evaluate the HCP, draft EIS, and public comments to determine whether the ITP application meets the permit issuance requirements of section 10(a) of the ESA. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA. If the requirements for permit issuance are met, we will issue an ITP to the applicant.

Authority

We provide this notice under section 10 of the ESA (16 U.S.C. 1531 *et seq.*), ESA regulations in Title 50 of the Code of Federal Regulations, and the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*) and NEPA regulation 40 CFR 1506.6.

Agency Information Collection Activities; Land Use Application and Permit

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Land Management (BLM) is proposing to renew an information collection.

DATES: Interested persons are invited to submit comments on or before March 23, 2020.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to Chandra Little, U.S. Department of the Interior, Bureau of Land Management, 1849 C Street NW, Room 2134LM, Washington, DC 20240; or by email to cclittle@blm.gov. Please reference OMB Control Number 1004-0009 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Jeremy Bluma by email at jbluma@blm.gov, or by telephone at 208-373-3847.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, the BLM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps to assess the impact of the BLM's information collection requirements and minimize the public's reporting burden. It also helps the public understand the BLM's information collection requirements and provides the requested data in the desired format.

The BLM is soliciting comments on the proposed ICR that is described below. The BLM is especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the BLM; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the BLM enhance the quality, utility, and clarity of the information to be collected; and (5) how might the BLM minimize the burden of this collection on the respondents,

including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. The BLM will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask in your comment to the BLM to withhold your personal identifying information from public review, the BLM cannot guarantee that it will be able to do so.

Abstract: This control number enables the BLM to obtain the information that is necessary in order to authorize the issuance of leases, permits, and easements for a variety of uses of public lands.

Title of Collection: Land Use Application and Permit.

OMB Control Number: 1004-0009.

Form: Form 2920-1.

Type of Review: Extension of a currently approved collection.

Description of Respondents: Individuals, state and local governments, and businesses that wish to use public lands.

Total Estimated Number of Annual Responses: 407.

Estimated Completion Time per Response: Varies from 1 to 120 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 2,455.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Total Estimated Annual Nonhour Burden Cost: \$131,760.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).
