#### SUPPLEMENTARY INFORMATION:

##### Proposed Project

##### *Evaluation of Patient-Centered Outcomes Research Trust Fund—Training Program*

AHRQ Authorization To Provide Researcher Training in Comparative Effectiveness Research/Patient-Centered Outcomes Research (CER/PCOR) Methods

Section 6301(b) of the Patient Protection and Affordable Care Act, Public Law 111–148 (the “Affordable Care Act”), enacted section 937(e) of the Public Health Service Act (“PHS Act”), which authorizes AHRQ to build capacity for comparative effectiveness research (CER) by establishing grant programs that provide training for researchers in methods used to conduct research. It also notes that, “[at] a minimum, such training shall be in methods that meet the methodological standards adopted [by the Patient Centered Outcomes Research Institute (PCORI)] under section 1181(d)(9) of the Social Security Act.” In addition, section 937(a) of the PHS Act charges AHRQ with disseminating patient-centered outcomes research (PCOR) and CER findings into practice. AHRQ's PCOR Trust Fund Training Program (PCORTF–TP) invests in training grants that build researchers' skills and enhance research capacity in these practice areas.

PCOR is research that assesses the benefits and harms of preventive, diagnostic, therapeutic, palliative, or health delivery system interventions. This research helps clinicians, patients, and caregivers make decisions about health care choices by highlighting comparisons and outcomes that matter to people, such as survival, function, symptoms, and health-related quality of life. The AHRQ PCORTF–TP supports individuals and academic institutions to train researchers and clinicians in CER methods applied within the context of CER/PCOR via mentored career development award mechanisms for emerging independent investigators, as well as targeted skill development and applied experiences via research grant mechanisms for independent researchers. PCORTF–TP grants support training for recent graduates, mid-career professionals, and established professionals in research and clinical settings. The program prioritizes

expanding capacity in underserved and predominantly minority communities.

AHRQ recognizes the importance of ensuring that its training activities are useful, well implemented, and effective in achieving their intended goals. Therefore, the PCORTF–TP evaluation reflects AHRQ's commitment to ensuring responsible stewardship. The PCORTF–TP evaluation comprises analysis of grantee progress reports, a bibliometric analysis of grantee publications, key informant interviews with AHRQ program staff responsible for managing PCORTF–TP grants, focused discussions with the PCORTF–TP evaluation Stakeholder Working Group, and surveys of grantees and mentors.

The purpose of this evaluation is to assess the outputs, outcomes, and impact of AHRQ's PCORTF–TP. The evaluation will address the following questions:

- What is the nature of PCORTF–TP activities for scholar/investigator development?
- Which activities for PCORTF–TP scholars/investigators have the greatest influence on intended outcomes (e.g., PCOR careers)?
- How have PCORTF–TP and partner institutions developed the capacity for PCOR training and mentoring, and in what ways is this sustainable?
- What do mentors and mentees perceive to be the most important ways that the program has contributed to the field of CER/PCOR?

This evaluation is being conducted by AHRQ through its contractor, AFYA, Inc., pursuant to AHRQ's authority to carry out the activities described in section 937 of the PHS Act. 42 U.S.C. 299b–37.

#### Method of Collection

To achieve the goals of this project, the evaluator will survey PCORTF–TP awardees, scholars, and mentors. Online surveys: K Awardee Survey/K12 Scholar Survey and K Awardee/K12 Scholar Primary Mentor Survey will be used to: (1) Collect non-identifying demographic information; and (2) ask respondents about their training activities and outcomes. Key informant interviews: Key Informant Interview Guide will be used to collect qualitative data about program processes, outcomes, and lessons learned from K12 scholar program directors.

AHRQ will use the information collected through this Information Collection Request to assess progress toward achieving the PCORTF–TP aims. The information collected will facilitate program planning. Results will indicate whether grantees are conducting
