

ENVIRONMENTAL PROTECTION AGENCY**[EPA-HQ-OECA-2013-0342; FRL-10004-80-OMS]****Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Lime Manufacturing (Renewal)****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Lime Manufacturing (40 CFR part 63, subpart AAAAA) (EPA ICR Number 2072.08, OMB Control Number 2060-0544), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2020. Public comments were previously requested, via the **Federal Register**, on May 6, 2019 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before February 28, 2020.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2013-0342, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A,

Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov, or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Lime Manufacturing (40 CR Part 63, Subpart AAAAA) apply to existing facilities and new facilities that either emit or has the potential to emit any single hazardous air pollutant (HAP) at a rate of 9.07 megagrams (10 tons) or more per year or any combination of HAP at a rate of 22.68 megagrams (25 tons) or more per year from all emission sources at the plant site. This subpart covers lime kilns, their associated coolers, and processed stone handling (PSH) operation systems located at a lime manufacturing plant that is a major source. New facilities include those that commenced construction, modification or reconstruction after the date of proposal. The EPA proposed revised standards to the NESHAP for Lime Manufacturing on September 16, 2019 (84 FR 48708), however, the proposed amendments have not been finalized; therefore, the burden reflected in this ICR does not consider burden from the proposed amendments, but is based on the existing standards. This information is being collected to assure compliance with 40 CFR part 63, subpart AAAAA.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: None.

Respondents/affected entities: New and existing lime manufacturing facilities that are major sources of HAP.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart AAAAA).

Estimated number of respondents: 37 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 9,700 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,460,000 (per year), which includes \$335,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is a decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The change in the burden and cost estimates occurred due to several factors. First, as part of a recent inventory of facilities subject to the NESHAP for Lime Manufacturing by OAQPS, including consultations with industry representatives and industry trade associations, EPA has concluded that the number of sources subject to the regulation has decreased. Second, the recent inventory revealed an increase in the number of sources using bag leak detectors to comply with regulations, leading to an increase in O&M costs. The overall result is a decrease in burden hours and costs.

Courtney Kerwin,

Director, Regulatory Support Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY**[EPA-HQ-OAR-2007-1196; FRL-10004-28-OAR]****Recent Postings of Broadly Applicable Alternative Test Methods****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice of availability.

SUMMARY: This document announces the broadly applicable alternative test method approval decisions that the Environmental Protection Agency (EPA) made under and in support of New Source Performance Standards (NSPS) and the National Emission Standards for Hazardous Air Pollutants (NESHAP) between January 1, 2019, and December 31, 2019.

FOR FURTHER INFORMATION CONTACT: An electronic copy of each alternative test method approval document is available at <https://www.epa.gov/emc/broadly-applicable-approved-alternative-test>

methods. For questions about this document, contact Mrs. Lula H. Melton, Air Quality Assessment Division, Office of Air Quality Planning and Standards (E143-02), Environmental Protection Agency, Research Triangle Park, NC 27711; telephone number: (919) 541-2910; fax number: (919) 541-0516; email address: melton.lula@epa.gov. For technical questions about individual alternative test method decisions, refer to the contact person identified in the individual approval document(s).

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this document apply to me?

This document will be of interest to entities regulated under 40 Code of Federal Regulations (CFR) parts 60, 61, and 63; state, local, and tribal agencies; and the EPA Regional offices responsible for implementation and enforcement of regulations under 40 CFR parts 60, 61, and 63.

B. How can I get copies of this information?

You may access copies of the broadly applicable alternative test method approval documents at <https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods>.

II. Background

This document identifies broadly applicable alternative test method approval decisions made by the EPA in 2019 under the New Source Performance Standards (NSPS), 40 CFR part 60 and National Emission Standards for Hazardous Air Pollutants (NESHAP) programs, 40 CFR parts 61 and 63; see Table 1. Source owners and operators may voluntarily use these broadly applicable alternative test methods in lieu of otherwise specified reference test methods. Use of these broadly applicable alternative test methods are not intended to and should not change the applicable emission standards.

The Administrator has the authority to approve the use of alternative test

methods for compliance with requirements under 40 CFR parts 60, 61, and 63. This authority is found in 40 CFR 60.8(b)(3), 61.13(h)(1)(ii), and 63.7(e)(2)(ii). Additional and similar authority can be found in 40 CFR 65.158(a)(2). The criteria for approval and procedures for submission and review of broadly applicable alternative test methods are explained in a previous **Federal Register** document published at 72 FR 4257 (January 30, 2007) and located at <https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods>. As explained in this document, we will announce approvals for broadly applicable alternative test methods at <https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods> and publish an annual document that summarizes approvals for broadly applicable alternative test methods during the preceding year.

As also explained in the January 30, 2007 document, our approval decisions involve thorough technical reviews of numerous source-specific requests for alternatives and modifications to test methods and procedures. Based on these reviews, we have often found that these modifications or alternatives would be equally valid and appropriate to apply to other sources within a particular class, category, or subcategory. Consequently, we have concluded that where a method modification or an alternative method is clearly broadly applicable to a class, category, or subcategory of sources, it is both equitable and efficient to approve its use for all appropriate sources and situations at the same time.

Use of approved alternative test methods are not mandatory but rather permissive. Sources are not required to employ such a method but may choose to do so in appropriate circumstances. As specified in 40 CFR 63.7(f)(5), however, a source owner or operator electing to use an alternative method for 40 CFR part 63 standards must continue to use the alternative method until otherwise authorized. Source owners or operators should, therefore, review the

specific broadly applicable alternative method approval decision at <https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods> before electing to employ any alternative method.

III. Approved Alternative Test Methods and Modifications to Test Methods

This document specifies three broadly applicable alternative test methods that the EPA approved between January 1, 2019, and December 31, 2019. The alternative method decision letter/memo number, the reference method affected, sources allowed to use this alternative, and the modification or alternative method allowed are summarized in Table 1 of this document. A summary of approval documents was previously made available on our Technology Transfer Network between January 1, 2019, and December 31, 2019. For more detailed information, please refer to the complete copies of these approval documents available at <https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods>.

As also explained in our January 30, 2007 document, we will revisit approvals of alternative test methods in response to written requests or objections indicating that a particular approved alternative test method either should not be broadly applicable or that its use should be limited in some way. Any objection to a broadly applicable alternative test method, as well as the resolution of that objection, will be announced at <https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods> and in a subsequent **Federal Register** document. If we decide to retract a broadly applicable test method, we will likely consider the need for an appropriate transition period for users either to request case-by-case approval or to transition to an approved method.

Dated: January 6, 2020.

Richard A. Wayland,

Director, Air Quality Assessment Division.

TABLE 1—APPROVED ALTERNATIVE TEST METHODS AND MODIFICATIONS TO TEST METHODS REFERENCED IN OR PUBLISHED UNDER APPENDICES IN 40 CFR PARTS 60, 61, AND 63 POSTED BETWEEN JANUARY 2019 AND DECEMBER 2019

Alternative method decision letter/memo number	As an alternative or modification to . . .	For . . .	You may . . .
ALT-133	Methods 6, 8, 15A, and 16A	Sources subject to 40 CFR part 60 federal rules that require sample analysis using methods 6, 8, 15A, or 16A.	Use procedures specified in SW-846 Method 9056A and the conditions specified in the Agency's approval letter dated August 5, 2019.

TABLE 1—APPROVED ALTERNATIVE TEST METHODS AND MODIFICATIONS TO TEST METHODS REFERENCED IN OR PUBLISHED UNDER APPENDICES IN 40 CFR PARTS 60, 61, AND 63 POSTED BETWEEN JANUARY 2019 AND DECEMBER 2019—Continued

Alternative method decision letter/memo number	As an alternative or modification to . . .	For . . .	You may . . .
ALT-134	Method 28 WHH-Measurement of Particulate Emissions and Heating Efficiency of Wood-Fired Hydronic Heating Appliances.	Sources subject to 40 CFR part 60, subpart QQQQ-Standards of Performance for New Residential Hydronic Heaters and Forced Air Furnaces.	Use alternative certification testing procedures in the Canadian Standards Association (CSA) B415.1–10 test method with the caveats stipulated in the Agency's approval letter dated August 19, 2019.
ALT-135	Method 23-Determination of Polychlorinated Dibenzo-P-Dioxins and Polychlorinated Dibenzofurans from Stationary Sources.	Sources subject to 40 CFR part 63, subpart X-National Emission Standards for Hazardous Air Pollutants from Secondary Lead Smelting.	Use toluene in lieu of methylene chloride for field recovery rinses for Method 23 sampling trains with the provisos specified in the Agency's approval letter dated September 25, 2019.

Source owners or operators should review the specific broadly applicable alternative method approval letter at <https://www.epa.gov/emc/broadly-applicable-approved-alternative-test-methods> before electing to employ it.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–ORD–2016–0010; FRL 10001–90–OMS]

Information Collection Request Submittal to OMB for Review and Approval; Comment Request; Institutional Dual Use Research of Concern (iDURC) Policy Compliance (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Institutional Dual Use Research of Concern (iDURC) Policy Compliance (EPA ICR Number 2530.03, OMB Control Number 2080–0082) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through January 31, 2020. Public comments were previously requested via the **Federal Register** on May 9, 2019, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given in this notice, including the ICR's estimated burden and cost to the public. An agency may not conduct or sponsor

and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before February 28, 2020.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA–HQ–ORD–2016–0010, to (1) EPA online using www.regulations.gov (EPA's preferred method), by email to ow-docket@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Viktoriya Plotkin, National Homeland Security Research Center, Office of Research and Development, (8101R), 27 Tarzwell Drive, Narragansett, Rhode Island, 02882; telephone number: 401–782–3178; fax number: 401–782–3030; email address: plotkin.viktoriya@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents, which explain in detail the information that EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC.

The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: To comply with the U.S. Government Policy for Institutional Oversight of Life Sciences Dual Use Research of Concern (DURC Policy), EPA must ensure that the institutions subject to DURC Policy appropriately train their laboratory personnel and maintain records of their training. This training is specific to “dual use research of concern,” and should include information on how to properly identify DURC, appropriate methods for ensuring research that is determined to be DURC, and that it is conducted and communicated responsibly.

Form Numbers: None.

Respondents/affected entities: Private sector and federally-owned, contractor-operated labs.

Respondent's obligation to respond: Mandatory (Per EPA Order 1000.19: Policy and Procedures for Managing Dual Use Research of Concern).

Estimated number of respondents: 40.

Frequency of response: Only once and/or as necessary.

Total estimated burden: 20 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$1,590 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: There is decrease of 52 burden hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is a result of adjustments in estimates of time required for recordkeeping duties.

Courtney Kerwin,

Director, Regulatory Support Division.
