Abstract: As delegated by the U.S. Office of Personnel Management (OPM), the NPS is authorized to request information to determine the suitability of applicants for Federal employment and non-Federal personnel (*i.e.*, contractor, partners, etc.) who require access to NPS property and/or receive DOI Access personal identity verification (PIV) badges. Suitability determinations are authorized under Executive Orders 10450, “Security requirements for Government employment” and 10577, “Amending the Civil Service Rules and authorizing a new appointment system for the competitive service.”

To conform with regulations mandated by OPM and the Department of the Interior (DOI), the NPS Personnel Security Branch utilizes the Electronic Questionnaires for Investigations Processing (e-QIP) System. Form 10–152, “Background Clearance Initiation Request” is used to create e-QIP accounts necessary to initiate background investigations for all individuals requiring access to NPS property or to receive a DOI Access PIV badge.

Applicants for federal employment will complete form 10–152. This includes non-federal personnel, contractors and individuals not otherwise directly employed by the Federal Government—those who perform work for or on behalf of the Federal Government and will require access to NPS property and/or receive a DOI Access PIV badge. The following information is collected from each

proposed candidate requiring a background clearance:

- (2) Social Security number
- (3) Date and place of birth
- (4) Country of citizenship
- (5) Contact phone number

Abstract: Each year, more than 7,000 visitors to the various units of the National Park System file reports of lost or found items. Reporting of lost or found personal property in national parks is governed by 36 CFR 2.22, “Disposition of Property” which requires unattended property be impounded and deemed to be abandoned unless claimed by the owner or an authorized representative within 60 days. The 60-day period commences upon notification to the rightful owner of the property, if the owner can be identified, or from the time the property was placed in the superintendent’s custody, if the owner cannot be identified.

Unclaimed property must be stored for a minimum period of 60 days and, unless claimed by the owner or an authorized representative, may be claimed by the finder, provided the finder is not an employee of the NPS. Found property not claimed by the owner, an authorized representative of the owner, or the finder, shall be deemed abandoned and disposed of in accordance with Title 41 Code of Federal Regulations.

In order to comply with the requirements of 36 CFR 2.22, the NPS uses Form 10–166, “Lost—Found Report,” to allow the park to properly identify personal property reported as lost or found and to return found items to the legitimate owner, when possible, or to the finder if the item is not claimed by the owner or their authorized representative. NPS Form 10–166 collects the following information from the visitor filing the report:

- Park name, receiving station (if appropriate), and date item was lost or found;
 - Name, address, city, state, zip code, email address, and contact phone numbers (cell and home);
 - Type of item, detailed description of item, and location where the item was last seen or found; and
 - Photograph of item (if available).
- Title of Collection:** National Park Service Lost and Found Report, 36 CFR 2.22.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. On July 3, 2019, we published a **Federal Register** notice soliciting comments on this collection of information for 60 days, ending on September 3, 2019 (84 FR 31909). We received three (3) public comments on this notice.

Ogee, LLC suggested the use of a standardized list or more detailed organization of the description of work section in the Part 2 section of the application and that no portions of the scope of work for the project were unintentionally omitted.

NPS Response: We are considering the creation of additional guidance and application examples that would provide more direction on how to organize and structure the required description of work information.
