

information from public review, we cannot guarantee that we will be able to do so.

Abstract: We are requesting an emergency review and approval from OMB of a new ICR associated with the Youth Conservation Corps (YCC) application process to comply with the requirements of section 3506(c)(2)(A) of the PRA. We are requesting an emergency review under 5 CFR 1320.13 because public harm is reasonably likely to result if the normal clearance procedures are followed. The approval of the YCC application and medical history forms is essential to ensuring completion of agencies' conservation work on public lands. Without an emergency clearance process, collection of applications would not begin until well into the hiring season, resulting in delays of critical conservation projects, some of which are necessary to ensure the safety of visitors to public lands.

Under the Youth Conservation Corps Act of August 13, 1970, as amended (U.S. 18701–1706), the U.S. Department of Interior provides seasonal employment for eligible youth 15 through 18 years old. The Youth Conservation Corps stresses three important objectives:

1. Accomplish needed conservation work on public lands;
2. Provide gainful employment for 15 to 18 year-old males and females from all social, economic, ethnic, and racial backgrounds; and
3. Foster, on the part of the 15 through 18 year-old youth, an understanding and appreciation of the Nation's natural resources and heritage.

Youths seeking training and employment with the Youth Conservation Corps must complete the following new common forms included in this emergency clearance request: DI-4014, "Youth Conservation Corps Application" and DI-4015, "Youth Conservation Corps Medical History." The applicants' parents or guardians must sign both forms. The application and medical history forms are evaluated by participating agencies to determine the eligibility of each youth for employment with the Youth Conservation Corps. Potential and actual agencies that may use the common forms included in this collection include:

- U.S. Fish and Wildlife Service (Interior);
- National Park Service (Interior); and,
- Other Federal Departments and Agencies such as the U.S. Forest Service (U.S. Department of Agriculture).

We collect the following information via common form DI-4014, "Youth Conservation Corps (YCC) Application":

- Basic contact information such as name, mailing address, telephone numbers, email address, and parent/guardian contact information;
- Gender;
- Date of birth and age;
- Certification of ability to apply for/ provide social security number;
- Citizenship or permanent residency documentation;
- Work permit information;
- Desired work location;
- Where they learned about the program;
- Understanding of the conditions of job/role; and,
- Why they want to enroll in a YCC program.

We collect the following information via common form DI-4015, "Youth Conservation Corps Medical History" form to certify the youth's physical fitness to work in the seasonal employment program:

- Contact information;
- Age;
- date of birth;
- gender;
- emergency contact information;
- parent or guardian's contact information and signature;
- Medical insurance information;
- Medical history including vaccination history;
- Previous and current illnesses or conditions that may affect ability to perform certain tasks;
- Primary language;
- Ethnic background (optional);
- Exercise currently undertaken; and,
- Swimming ability.

Title of Collection: Youth Conservation Corps Application and Medical History.

OMB Control Number: 1093–New.
Form Numbers: DI-4014, "Youth Conservation Corps Application", and DI-4015, "Youth Conservation Corps Medical History."

Type of Review: Emergency review—Pursuant to 5 CFR 1320.13, we are requesting emergency processing for this new ICR because it cannot reasonably comply with normal clearance procedures. To avoid delay that could harm visitors to public lands, the YCC application process must be in place and available to interested applicants on February 1, 2020. Upon OMB approval of this emergency clearance request, we will follow the normal clearance procedures for the ICR.

Respondents/Affected Public: Youth 15 through 18 years old seeking seasonal employment with the above-

named agencies through the YCC Program. Please note that if an applicant is under the age of 18; a parent/guardian may respond for the youth.

Total Estimated Number of Annual Respondents: 11,409 (8,599 respondents completing the application forms and 2,810 respondents competing the medical history forms).

Total Estimated Number of Annual Responses: 11,409 (8,599 applications and 2,810 medical history forms).

Estimated Completion Time per Response: 25 minutes for the application form and 14 minutes for the medical history form.

Total Estimated Number of Annual Burden Hours: 4,239 hours (3,583 hours (rounded) for application forms and 656 hours (rounded) for medical history forms).

Respondent's Obligation: Voluntary.
Frequency of Collection: On occasion.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Jeffrey Parrillo,

Departmental Information Collection Clearance Officer.

BILLING CODE 4334–63–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLWY920000. L51040000.FI0000. 20XL5017AR]

Notice of Proposed Reinstatement of Terminated Oil and Gas Lease WYW183610, Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: As provided for under the Mineral Leasing Act of 1920, as amended, the Bureau of Land Management (BLM) received a petition for reinstatement of competitive oil and gas lease WYW183610 from EOG Resources, Inc. for land in Converse County, Wyoming. The lessee filed the petition on time, along with all rentals due since the lease terminated under the law. No leases affecting this land were issued before the petition was filed.

FOR FURTHER INFORMATION CONTACT: Chris Hite, Branch Chief for Fluid

Minerals Adjudication, Bureau of Land Management, Wyoming State Office, 5353 Yellowstone Road, Cheyenne, Wyoming 82009; phone 307-775-6176; email chite@blm.gov.

Persons who use a telecommunications device for the deaf may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact Mr. Hite during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. A reply will be sent during normal business hours.

SUPPLEMENTARY INFORMATION:

Termination of a lease is automatic and statutorily imposed by Congress. Lease reinstatement terms are also set by Congress. Oil and gas lease WYW183610 terminated effective October 1, 2018, for failure to pay rental timely. The lessee petitioned for reinstatement of the lease and met all filing requirements for a Class II reinstatement.

The lessee agreed to the amended lease terms for rentals of \$10 per acre, or fraction thereof, per year and royalty rates of 16 $\frac{2}{3}$ percent. The lessee has paid the required \$500 administrative fee and the \$151 cost of publishing this notice. The lessee meets the requirements for reinstatement of the lease per Sec. 31(d) and (e) of the Mineral Leasing Act of 1920 (30 U.S.C. 188). Reinstatement of this lease conforms to the terms and conditions of all applicable land use plans and other National Environmental Policy Act documents.

The BLM proposes to reinstate the lease effective October 1, 2018, under the original terms and conditions of the lease and the increased rental and royalty rates cited above. The lease will be reinstated 30 days after publication of the notice of proposed reinstatement in the **Federal Register**.

Authority: 30 U.S.C. 188 (e)(4) and 43 CFR 3108.2-3 (b)(2)(v).

Chris Hite,

Chief, Branch of Fluid Minerals Adjudication.

Notice of Availability of the Record of Decision for the United States Gypsum Company Mine Expansion/Modernization Project, Imperial County, CA

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended, the Federal Land Policy and Management Act of 1976, as amended, the Bureau of Land Management (BLM) has prepared a Record of Decision (ROD) to approve a Mining Plan of Operations and authorize Rights-of-Way (ROW) for the United States Gypsum Company Mine Expansion/Modernization Project, and by this Notice is announcing its availability.

DATES: The Acting Assistant Secretary for Lands and Minerals Management signed the ROD on January 24, 2020.

ADDRESSES: Copies of the ROD are available for public inspection at the BLM El Centro Field Office at 1661 S 4th St, El Centro, CA 92243, and at the BLM California Desert District Office, 22835 Calle San Juan de Los Lagos, Moreno Valley, CA 92553. Interested persons may also review the ROD on the internet at: <https://bit.ly/2QiGK0m>.

FOR FURTHER INFORMATION CONTACT:

Miriam Liberatore, BLM Project Manager, by telephone at 541-618-2412; by mail at Bureau of Land Management, Medford District Office, 3040 Biddle Road, Medford, OR 97504; or by email at mliberat@blm.gov.

Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact Ms. Liberatore during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The Project is located in southwestern Imperial County, California, and involves both the Plaster City Wallboard Plant (processing plant) and Plaster City Quarry (quarry). The processing plant is located on Evan Hewes Highway approximately 18 miles west of the city of El Centro. The quarry is located on Split Mountain Road, approximately 26

miles northwest of Plaster City. Both sites are located within the BLM's California Desert Conservation Area.

The BLM and Imperial County published a joint Draft Environmental Impact Report/Environmental Impact Statement (EIR/EIS) in 2006, and a Final EIR/EIS in 2008. The BLM did not issue a ROD and the United States Army Corps of Engineers (USACE), which will determine whether to issue a permit for the project under Section 404 of the Clean Water Act, was not a party to the Final EIR/EIS. This Supplemental EIS revises and supplements the 2008 Final EIR/EIS, updating conditions and effects that have changed since 2008, and includes the USACE and the United States Environmental Protection Agency, which has an advisory role regarding the Section 404 permit, as Cooperating Agencies.

Certain aspects of the Project originally analyzed in the 2006 Draft EIR/EIS and 2008 Final EIR/EIS have already been implemented under the conditions and approvals provided by Imperial County and were not subject to the jurisdiction of the BLM or the USACE.

The BLM published a Notice of Intent to prepare the Supplemental EIS on November 27, 2017 (82 FR 56046), initiating a 30-day public scoping period. The BLM held a public scoping meeting on December 13, 2017, in El Centro, California. Twelve individuals attended that meeting. Thirteen comments were received during the scoping period.

The BLM published a Notice of Availability of the Draft Supplemental EIS on July 19, 2019 (84 FR 34924), announcing a 45-day public comment period. The BLM held a public comment meeting on August 5, 2019. Seven individuals attended that meeting. The BLM received 13 comment letters during the comment period. Following the public comment period, comments were used to inform the Final Supplemental EIS. The BLM responded to substantive comments and made appropriate revisions to the document or explained why a comment did not warrant a change. These comments did not result in changes in the design, location, or timing of the Project in a way that would cause significant effects to the human environment outside of the range of effects analyzed in the EIS/EIR. Similarly, none of the letters identified new significant circumstances or information relevant to environmental concerns that bear on the Project and its effects. A response to substantive comments is included in the Final Supplemental EIS, released on December 6, 2019.
