

and older will be collected using the online travel diary.

Once the household roster is completed, the primary household respondent will complete his or her diary and will serve as a proxy responder for all children 5–15 years old in the household. Household members 16 and older will be invited to complete their own online diaries. If they fail to do so in a reasonable amount of time after multiple reminders, the primary household member may be re-contacted to serve as a proxy for non-responding teens and adults in the household.

The household travel diary will be based upon a single database that allows for sophisticated branching and skip patterns to enhance data retrieval by asking only those questions that are necessary and appropriate for the individual participant. Look-up tables are included to assist with information such as vehicle makes and models. The Google map API will be used to assist in identifying specific place names and locations. The location data for the participant's home, workplace, or school are stored and automatically inserted in the dataset for trips after the first report. Household rostering is a list of all persons in the household that allows a trip to be reported from one household member and can include another household member who travel together to be inserted into the record for the second person. This automatic insert of information reduces the burden of the second respondent to be queried about a trip already reported by the initial respondent.

Data range, consistency and edit checks will be automatically programmed to reduce reporting error, survey length, and maintain the flow of information processing. Data cross checks also help reduce the burden by ensuring that the reporting is consistent within each trip.

Estimated Burden Hours for Information Collection

Frequency: This collection will be conducted every 2–4 years in the future.

Respondents. As mentioned earlier, a nationally representative random sample of 7,500 households across the 50 states and the District of Columbia will be included in this survey. Given that household will include an average of 2.5 members 5-years of age or older, travel data for a total of 18,750 individual respondents will be collected for the main survey.

Estimated Average Burden per Response. It will take approximately 5 minutes to complete the roster data form, and 15 minutes to complete the

retrieval survey. This results in a total of 20 minutes for the first household member and 15 minutes per additional household member.

Estimated Total Annual Burden Hours. It is estimated that a total of 18,750 persons will be included in the survey. This would result in approximately 5,312.5 hours of support for this data collection effort, assuming an average of 17 minutes per person across the roster survey and retrieval survey.

Public Comments Invited

You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information is necessary for the USDOT's performance, including whether the information will have practical utility; (2) the data acquisition methods; (3) the accuracy of the USDOT's estimate of the burden of the proposed information collection; (4) the types of data being acquired; (5) ways to enhance the quality, usefulness, and clarity of the collected information; and (6) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

BILLING CODE P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2009-0063]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on January 22, 2020, the Mohawk, Adirondack, and Northern Railroad Corporation (MHW) petitioned the Federal Railroad Administration (FRA) to extend a waiver of compliance from the safety glazing requirements of 49 CFR 223.11, *Requirements for existing locomotives*. FRA assigned the petition Docket Number FRA-2009-0063.

Specifically, MHW seeks to extend its waiver for one 80-ton, 470-horsepower diesel-electric locomotive numbered 1670. This locomotive was

built for the United States Air Force by General Electric in March 1952.

MHW operates this locomotive on a terminal/switching railroad at the former Griffiss Air Force Base in Rome, New York, now called the Griffiss Industrial Park. MHW operates at speeds not exceeding 10 miles per hour and hauls one to three cars on a once-per-week basis. The locomotive is equipped with safety laminate glass (AS-1, AS-2) and is serviced and maintained by MHW at Rome, New York. MHW requests the extension due to the "high cost to replace the glazing and the low risk to safety of continuing to operate with the current glazing."

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE, W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

[Docket Number FRA-2020-0015]

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

Under part 235 of title 49 of the Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this provides the public notice that on January 27, 2020, WATCO Companies, LLC (WATCO) petitioned the Federal Railroad Administration (FRA) seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA-2020-0015.

Applicant: WATCO Companies, LLC, Mr. Scott Adams, Vice President of Engineering, 315 W 3rd Street, Pittsburg, KS 66762.

Specifically, WATCO requests permission to discontinue the automatic interlocking signal system at Metcalf, Illinois, where the Decatur Subdivision, milepost (MP) BD 215.9, crosses the Charleston Subdivision, MP 288.5.

Upon discontinuance of the automatic interlocking signal system, the railroad crossing-at-grade will be protected by lighted STOP signs placed in each quadrant, and General Code of Operating Rules 6.16, *Approaching Railroad Crossings, Drawbridges, and End of Multiple Main Track*, will be in effect.
