Expiration Date of Approval: July 31, 2020

Type of Request: Revision of a currently approved information collection.

Abstract: RUS borrowers and other organizations providing telecommunications in rural areas, due to changes in the telecommunications industry, including deregulation and technological developments, may consider undertaking projects that provide new telecommunications services and other telecommunications services not ordinarily financed by RUS. Although some of these services may not be eligible for financing under the Rural Electrification Act of 1936 (RE Act), the services may nevertheless advance RE Act objectives where the borrower obtains financing from private lenders. To facilitate the financing of those projects and services, this program assists in facilitating funding from non-RUS sources in order to meet the growing capital needs of rural Local Exchange Carriers (LECs).

The information collected for lien accommodation requests is used by RUS to ascertain a borrower's level of financial strength and, upon agency approval of the lien accommodation, ensures that the government's loan security interest is protected.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 0.50 hours per response.

Respondents: Business or other for-profit and non-profit institutions.

Estimated Number of Respondents: 1.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 1.5.

Foreign-Trade Zones Board

[B-05-2020]

Foreign-Trade Zone (FTZ) 158—Jackson, Mississippi; Notification of Proposed Production Activity; Traxys Comets USA, LLC (Manganese and Aluminum Alloying Agents); Burnsville, Mississippi

Traxys Comets USA, LLC (Traxys Comets) submitted a notification of proposed production activity to the FTZ Board for its facility in Burnsville, Mississippi. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on January 30, 2020.

Traxys Comets already has authority to produce high-grade manganese and aluminum alloying agents within FTZ 158. The current request would add foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Traxys Comets from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components noted below, Traxys Comets would be able to choose the duty rate during customs entry procedures that applies to high-grade manganese and aluminum alloying agents (duty rate ranges from 1.4% to 14%). Traxys Comets would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include low-carbon and medium-carbon ferromanganese powder (duty rate ranges from 1.4% to 2.3%). The request indicate that low-carbon and medium-carbon ferromanganese powder are subject to special duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The

closing period for their receipt is March 16, 2020.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via www.trade.gov/ftz.

For further information, contact Christopher Wedderburn at Chris.Wedderburn@trade.gov or (202) 482-1963.

Dated: January 30, 2020.

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) finds that revocation of the antidumping duty order on certain frozen fish fillets (fish fillets) from the Socialist Republic of Vietnam (Vietnam) would be likely to lead to continuation or recurrence of dumping at the levels indicated in the "Final Results of Sunset Reviews" section of this notice.
