

information collection pursuant to the Paperwork Reduction Act of 1995. An agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number, and no person is required to respond to a collection of information unless it displays a currently valid control number. Comments concerning the accuracy of the burden estimates and any suggestions for reducing the burden should be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section below.

FOR FURTHER INFORMATION CONTACT:
Nicole Ongele, *Nicole.Ongele@fcc.gov*,
(202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1222.
OMB Approval Date: January 28,
2020.

OMB Expiration Date: January 31,
2023.

Title: Inmate Calling Services, Annual Reporting, Certification, and Consumer Disclosure Requirements.

Form Number(s): FCC Form 2301(a) and FCC Form 2301(b).

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 20 respondents; 20 responses.

Estimated Time Per Response: 5 hours-80 hours.

Frequency of Response: Annual reporting and certification requirements; third party disclosure requirement.

Total Annual Burden: 2,000 hours.

Total Annual Cost: No cost.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 CFR 1, 4(i), 4(j), 201, 225, 276, and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i), 154(j), 201, 225, 276, and 303(r).

Privacy Act Impact Assessment: No impact.

Nature and Extent of Confidentiality: The Commission anticipates treating as presumptively confidential any particular information identified as proprietary by providers of inmate calling services (ICS).

Needs and Uses: Section 201 of the Communications Act of 1934 Act, as amended (Act), 47 U.S.C. 201, requires that ICS providers' interstate and international rates and practices be just and reasonable. Section 276 of the Act, 47 U.S.C. 276, requires that payphone service providers (including ICS providers) be fairly compensated for completed calls.

In the Second Report and Order and Third Further Notice of Proposed Rulemaking (Second Report and Order),

WC Docket No. 12-375, FCC 15-136, the Commission undertook comprehensive reform of the ICS rules. The Commission, among other things, established new rate caps for interstate and intrastate ICS calls and limited and capped ancillary service charges. To enable the Commission to ensure compliance with the rules adopted in the Second Report and Order and monitor the effectiveness of the ICS reforms, the Commission required all ICS providers to file annual reports providing data and other information on their ICS operations.

In particular, the Commission required each ICS provider to file a report annually specifying, for the prior calendar year: Interstate, international, and intrastate minutes of use by facility; and the name, size, and type of facility being served; fees for any ancillary services, the amount of these fees, and the number of times each fee was imposed; monthly site commission payments; rates and minutes of use for video calling services by facility, as well as ancillary fee charges for such services; the number of disability-related calls, problems associated with such calls, and ancillary fees charged in connection with such calls; and the number of complaints received related to, for example, dropped calls and poor call quality and the number of instances of each by TTY and TRS users. The annual reports ensure that the Commission has access to the information it needs to fulfill its regulatory duties, while minimizing the burden on ICS providers.

The Commission required that an ICS provider certify annually the accuracy of the data and other information submitted in the provider's annual report and the provider's compliance with the Commission's ICS rates. Pursuant to the authority delegated to it by the Commission in the Second Report and Order, the Commission's Wireline Competition Bureau (Bureau) created standardized templates for the annual reports (FCC Form 2301(a)) and certifications (FCC Form 2301(b)). The Bureau provided instructions that explain the reporting and certification requirements and reduce the burden of the data collection. The Commission also required ICS providers to disclose to consumers their interstate, intrastate, and international rates and ancillary service charges.

On June 13, 2017, the D.C. Circuit vacated the video visitation requirements in the annual report. Pursuant to the D.C. Circuit's mandate and its delegated authority, the Bureau has removed the video visitation reporting requirements in the annual

report and amended the instructions to reflect the removal of this requirement. As part of the Bureau's continued administration of the ICS data collection, the Bureau has modified the instructions for FCC Form 2301(a) and FCC Form 2301(b) in several additional respects. These changes make the instructions clearer and will make the annual reports easier to understand and analyze. The amended instructions require ICS providers to: Submit all reports using the electronic Excel template provided by the Bureau, and to provide the data in a machine-readable, manipulatable format; provide city and state information for each facility served; group the facilities served by underlying contracts in the section for ICS Rates; separately report and explain their rates for debit/prepaid calls and collect calls; report fixed site commission payments by facility as well as by contract; and explain certain entries, including any entry that omits requested information. These changes will impose only a minimal additional burden on providers because they address only information that providers usually and customarily compile in the normal course of their business activities. The information will help the Commission continue to analyze changes in the ICS industry, to monitor compliance with the ICS rules, and to enforce these rules.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0798 and OMB 3060-0800; FR 16466]

Information Collections Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of

information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before April 6, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email: PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, and as required by the PRA, 44 U.S.C. 3501-3520, the FCC invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

OMB Control Number: 3060-0798.

Title: FCC Application for Radio Service Authorization; Wireless Telecommunications Bureau; Public Safety and Homeland Security Bureau.

Form Number: FCC Form 601.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals and households; Business or other for-profit entities; Not-for-profit institutions; and State, local or tribal governments.

Number of Respondents and Responses: 255,352 respondents and 255,352 responses.

Estimated Time per Response: 0.5-1.25 hours.

Frequency of Response: Recordkeeping requirement, third party disclosure requirement, on occasion reporting requirement and periodic reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 47 U.S.C. 151, 152, 154, 154(i), 155(c), 157, 201, 202, 208, 214, 301, 302a, 303, 307, 308, 309, 310, 311, 314, 316, 319, 324, 331, 332, 333, 336, 534, 535 and 554.

Total Annual Burden: 222,055 hours.

Total Annual Cost: \$71,306,250.

Privacy Impact Assessment: Yes.

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: FCC Form 601 is a consolidated, multi-part application form that is used for market-based and site-based licensing for wireless telecommunications services, including public safety licenses, which are filed through the Commission's Universal Licensing System (ULS). FCC Form 601 is composed of a main form that contains administrative information and a series of schedules used for filing technical and other information. This form is used to apply for a new license, to amend or withdraw a pending application, to modify or renew an existing license, cancel a license, request a duplicate license, submit required notifications, request an extension of time to satisfy construction requirements, or request an administrative update to an existing license (such as mailing address change), request a Special Temporary Authority or Developmental License. Respondents are encouraged to submit FCC Form 601 electronically and are required to do so when submitting FCC Form 601 to apply for an authorization for which the applicant was the winning bidder in a spectrum auction.

The data collected on FCC Form 601 includes the FCC Registration Number (FRN), which serves as a "common

link" for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 requires entities filing with the Commission to use an FRN.

On August 3, 2017, the Commission released the WRS Reform Second Report and Order in which it consolidated the hodgepodge of service-specific renewal and permanent discontinuance rules into consolidated Part 1 rules, 1.949 and 1.953, respectively (See Amendment of Parts 1, 22, 24, 27, 74, 80, 90, 95, and 101 To Establish Uniform License Renewal, Discontinuance of Operation, and Geographic Partitioning and Spectrum Disaggregation Rules and Policies for Certain Wireless Radio Services, Second Report and Order and Further Notice of Proposed Rulemaking, FCC 17-105, (WRS Reform Second Report and Order)). Of relevance to the information collection at issue here, the Commission established a consistent standard for renewing wireless licenses and set forth safe harbors providing expedited renewal for licensees that meet their initial term construction requirement and remain operating at or above that level. In addition, the Commission adopted consistent service continuity rules, which provide for automatic termination of any license on which a licensee permanently discontinues service or operation.

The Commission now seeks approval for revisions to its currently approved collection of information under OMB Control Number 3060-0798 to permit (1) the collection of renewal-related information for Wireless Radio Service (WRS) licenses, and (2) the filing of requests to extend a permanent discontinuance period for good cause. Regarding renewal of WRS licenses, § 1.949(d) of the Commission's rules requires an applicant for renewal of certain WRS licenses to meet the Renewal Standard, *i.e.*, the applicant must demonstrate that over the course of the license term, the licensee provided and continues to provide service to the public, or operated and continues to operate the license to meet the licensee(s)' private, internal communications needs. A renewal applicant can meet the Renewal Standard by certifying compliance with one of the safe harbors enumerated in § 1.949(e) of the Commission's rules, or, if the applicant cannot satisfy the requirements of one of the safe harbors, the applicant must make a Renewal Showing consistent with § 1.949(f). In addition, a renewal applicant must make a Regulatory Compliance Certification certifying that it has substantially complied with all applicable FCC rules, policies, and the

Communications Act of 1934, as amended. If an applicant is unable to make this substantial compliance certification, it will need to provide an explanation of the circumstances preventing such a certification and why renewal of the subject license should still be granted.

We do not anticipate that these revisions will have any impact on the burden to complete FCC Form 601. The renewal process remains virtually unchanged for site-based licensees, which will continue to have streamlined processes for renewal under the safe harbors adopted in the WRS Reform Second Report and Order. For licensees which had to make renewal showings under the Commissions' prior, service-specific renewal rules, including 700 MHz Commercial Services, 600 MHz Service, H-Block Service, AWS-3, AWS-4, and 218-219 MHz Service, the rules now provide for streamlined renewal processes under the safe harbor provisions in § 1.949(e), which minimize the burdens on such licensees. The Commission expects that most licensees will be able to avail themselves of the streamlined safe harbor process.

Although some licensees will be required to make a renewal showing, on balance, we believe there will be no increase in the overall annual burden to complete the form. Further, the Commission's experience with requests to extend the discontinuance period for licensees in the cellular service leads us to anticipate few, if any, such requests will be filed under our new rules. Specifically, we are unaware of any requests to extend a cellular discontinuance period. Thus, we believe there will be a negligible, if any, impact on the annual burden to complete the form.

The Commission therefore seeks approval for a revision to its currently approved information collection on FCC Form 601 to revise FCC Form 601 accordingly.

OMB Control Number: 3060-0800.

Title: FCC Application for Assignments of Authorization and Transfers of Control: Wireless Telecommunications Bureau and Public Safety and Homeland Security Bureau.

Form Number: FCC Form 603.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities, Individuals or households, not-for-profit institutions, and State, Local or Tribal Governments.

Number of Respondents and Responses: 2,447 respondents; 2,447 responses.

Estimated Time per Response: 0.5 hours-1.75 hours.

Frequency of Response:

Recordkeeping requirement, on occasion reporting requirement and periodic reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154, 155, 158, 161, 301, 303(r), 308, 309, 310 and 332.

Total Annual Burden: 2,759 hours.

Annual Cost Burden: \$366,975.

Privacy Act Impact Assessment: Yes.

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: FCC Form 603 is a multi-purpose form that is used by radio services in Wireless Services within the Universal Licensing System (ULS). FCC 603 is composed of a main form that contains the administrative information and a series of schedules used for filing technical information. These schedules are required when applying for Auctioned Services, Partitioning and Disaggregation, Undefined Geographical Area Partitioning, and Notification of Consummation or Request for Extension of Time for Consummation. Applicants/licensees in the Public Mobile Services, Personal Communications Services, Private Land Mobile Radio Services, Broadband Radio Service, Educational Broadband Service, Maritime Services (excluding Ship), and Aviation Services (excluding Aircraft) use FCC Form 603 to apply for an assignment or transfer, to establish their parties' basic eligibility and qualifications, to classify the filing, and/or to determine the nature of the proposed service. This form is also used to notify the FCC of consummated assignments and transfers of wireless licenses to which the Commission has previously consented or for which notification but not prior consent is required. Respondents are encouraged to submit FCC 603 electronically.

The data collected on FCC 603 include the FCC Registration Number (FRN), which serves as a "common link" for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 required that those filing with the Commission to use an FRN, effective December 3, 2001.

Records may include information about individuals or households, e.g., personally identifiable information or PII, and the use(s) and disclosure of this information are governed by the requirements of a system of records notice or 'SORN', FCC/WTB-1, "Wireless Services Licensing Records." There are no additional impacts under the Privacy Act.

On August 3, 2017, the Commission released the WRS Reform Second Report and Order in which it consolidated the hodgepodge of service-specific geographic partitioning and spectrum disaggregation rules into a consolidated Part 1 rule, 1.950 (See Amendment of Parts 1, 22, 24, 27, 74, 80, 90, 95, and 101 To Establish Uniform License Renewal, Discontinuance of Operation, and Geographic Partitioning and Spectrum Disaggregation Rules and Policies for Certain Wireless Radio Services, Second Report and Order and Further Notice of Proposed Rulemaking, FCC 17-105, (WRS Reform Second Report and Order)). Of relevance to the information collection at issue here, the Commission required that when portions of geographic licenses are sold, both parties to the transaction have a clear construction obligation and penalty in the event of failure.

Specifically, § 1.950(c) requires parties seeking approval for geographic partitioning, spectrum disaggregation, or a combination of both must apply for a partial assignment of authorization by filing FCC Form 603 pursuant to § 1.948 of the Commission's rules. Each request for geographic partitioning must include an attachment defining the perimeter of the partitioned area by geographic coordinates to the nearest second of latitude and longitude, based upon the 1983 North American Datum (NAD83). Alternatively, applicants may specify an FCC-recognized service area (e.g., Basic Trading Area, Economic Area, Major Trading Area, Metropolitan Service Area, or Rural Service Area), county, or county equivalent, in which case, applicants need only list the specific FCC-recognized service area, county, or county equivalent names comprising the partitioned area. Additionally, applicants have the option to submit geographic data associated with applications to partition and/or disaggregate their license using a shapefile, KML or Geojson file format.

In addition, § 1.950(d) requires applicants for geographic partitioning, spectrum disaggregation, or a combination of both, to include, if applicable, a certification with their partial assignment of authorization application stating which party will meet any incumbent relocation requirements, except as otherwise stated in service-specific rules. Further, § 1.950(g) provides parties to geographic partitioning, spectrum disaggregation, or a combination of both, with two options to satisfy service-specific performance requirements (i.e., construction and operation requirements). Under the first option, each party may certify that it will individually satisfy any service-

specific requirements and, upon failure, must individually face any service-specific performance penalties. Under the second option, both parties may agree to share responsibility for any service-specific requirements. Upon failure to meet their shared service-specific performance requirements, both parties will be subject to any service-specific penalties. The Commission seeks approval for revisions to its currently approved collection of information under OMB Control Number 3060-0800 to permit the collection of the additional information in connection with partial assignments of authorizations for geographic partitioning, spectrum disaggregation, or a combination of both, pursuant to the rules and information collection requirements adopted by the Commission in the WRS Reform Second Report and Order. We do not anticipate that these revisions will impact the collection filing burden.

Federal Communications Commission.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[EB Docket No. 04-296, PS Docket No. 15-94, FCC 19-57; FR 16456]

Agency Information Collection Activities; Proposals, Submissions, and Approvals: Emergency Alert System

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

FOR FURTHER INFORMATION CONTACT:

David Munson, Attorney Advisor, Public Safety and Homeland Security Bureau, at (202) 418-2921, or by email at David.Munson@fcc.gov.

SUPPLEMENTARY INFORMATION: This document announces that, on December 26, 2019, OMB approved, until December 31, 2022, the information collection requirements associated with the revised testing requirements for Satellite Digital Audio Radio Service (SDARS) providers contained in the Commission's *Order* in EB Docket No. 04-296 and PS Docket No. 15-94, FCC

19-57, adopted on June 25, 2019, and released on June 27, 2019 (the *Order* has not yet been published in the **Federal Register**).

If you have any comments on the burden estimates listed below, or how the Commission can improve the collections and reduce any burdens caused thereby, please contact Nicole Ongele, Federal Communications Commission, Room 1-A620, 445 12th Street SW, Washington, DC 20554. Please include the OMB Control Number, 3060-0207, in your correspondence. The Commission will also accept your comments via email at PRA@fcc.gov.

To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an email to fcc504@fcc.gov or call the Consumer and Governmental Affairs Bureau at (202) 418-0530 (voice), (202) 418-0432 (TTY).

OMB Control Number: 3060-0207.

OMB Approval Date: December 26, 2019.

OMB Expiration Date: December 31, 2022.

Title: Part 11, Emergency Alert System, (EAS), Order, FCC 19-57.

Form Number: N/A.

Respondents: Business and other for-profit entities, Not-for-profit institutions, and State, Local and Tribal Government.

Number of Respondents and Responses: 63,084 respondents; 3,588,830 responses.

Estimated Time per Response: 0.017 hours-100 hours for the entire collection; for the newly dopted requirements the estimated time per response is 0.017-0.68 hours.

Frequency of Response: Recordkeeping and third party disclosure requirements.

Obligation to Respond: Mandatory. The statutory authority for this information collection is contained in sections 1, 2, 4(i), 4(o), 301, 303(r), 303(v), 307, 309, 335, 403, 624(g), 706, and 715 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 152, 154(i), 154(o), 301, 303(r), 303(v), 307, 309, 335, 403, 544(g), 606, and 615.

Total Annual Burden: 140,751 hours.

Total Annual Cost: No Cost.

Nature and Extent of Confidentiality: An assurance of confidentiality is not offered because this information collection does not require the collection of personally identifiable information (PII) from individuals.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: Section 11.61 of the Commission's Part 11 (EAS) rules, 47

CFR 11.61, specifies weekly, monthly and periodic testing requirements with which entities subject to the EAS rules must comply. The rules adopted in the *Order* harmonize the testing requirements that apply to SDARS providers with those that apply to Direct Broadcast Satellite (DBS) providers primarily on grounds that these services are technologically similar, and that the underlying purpose of the testing rules will continue to be fully realized by applying the weekly and monthly DBS testing requirements to SDARS providers.

Federal Communications Commission.
