

relying on automated review systems for processing initial applications to become a PACE organization and expansion applications for existing PACE organizations. In addition, the final rule will modify the PACE regulations to eliminate the need for PACE organizations to request waivers for a number of the most commonly waived provisions. This latter change is expected to reduce burden and improve efficiency for POs, state administering agencies, and CMS.

In addition to codifying the current automated processes for the submission and review of both initial and service area expansion applications, this rule modifies existing regulatory provisions and requirements. As a result, certain attestations associated with the application are no longer applicable, and others need to be updated to reflect updated regulatory requirements. We are also making minor tweaks to certain document upload requirements for clarification purposes based on experience reviewing applications. *Form Number:* CMS–10631 (OMB control number: 0938–1326); *Frequency:* Yearly; *Affected Public:* State, Local, or Tribal Governments; *Number of Respondents:* 72; *Total Annual Responses:* 109; *Total Annual Hours:* 7,226. The Office of Healthcare Information and Counseling (OHIC) hosts an annual national training conference for the federally funded programs that it

administers. The audience for this training conference includes attendees from State Health Insurance Assistance Program (SHIP) and Senior Medicare Patrol (SMP) programs, which are two nationally recognized programs that provide Medicare information and counseling to Medicare beneficiaries and help fight Medicare fraud through prevention and education. Grantee leadership is required to attend this training annually to ensure they receive critical information and technical assistance needed to help them successfully meet the requirements of their grant awards. Grantees are encouraged to bring up to three (3) people from each program. Programs operate in each of the 50 states, the District of Columbia, Guam, Puerto Rico, and the US Virgin Islands.

The information collected in this survey is necessary to ensure that ACL is meeting the technical assistance needs of the attendees and to capture valuable feedback to be used for future training meetings. By gathering feedback on the quality of the training and content provided, we can ensure attendee satisfaction and gather information for future planning. ACL administers a contract to develop and provide the training conference evaluation tool for ACL’s approval. They also disseminate a tool to all participants following each training conference to evaluate attendee satisfaction. This training conference survey is introduced and explained during the program specific meetings and during the general session on the first day of the training conference. The survey is not mandatory, but is reinforced as a way for ACL to provide useful, engaging sessions that assist the attendees in successfully meeting the requirements of their grant awards. This evaluation tool will gather feedback on the quality of the training and content provided and the experience of the attendees to be used for future planning.

The proposed data collection tools may be found on the ACL website for review at <https://www.acl.gov/about-acl/public-input>.

Estimated Program Burden: ACL estimates the burden associated with this collection of information as follows:

Respondent/data collection activity	Number of respondents	Responses per respondent	Hours per response	Annual burden hours
Conference Evaluation	350	1	0.25	0.25
