In compliance with Section
 3507(a)(1)(D) of the Paperwork
 Reduction Act of 1995, the National
 Institutes of Health (NIH) has submitted
 to the Office of Management and Budget
 (OMB) a request for review and
 approval of the information collection
 listed below.

Proposed Collection: Evaluation of the
 Enhancing the Diversity of the NIH-
 funded Workforce Program Consortium
 (DPC), 0925-0747-Reinstatement with
 Change, exp., date 11/30/2019, National
 Institute of General Medical Sciences
 (NIGMS), National Institutes of Health
 (NIH).

*Need and Use of Information
 Collection:* The goal of the DPC is to
 address a unique and compelling need
 identified by NIH, namely to enhance
 the diversity of well-trained biomedical
 research scientists who can successfully
 compete for NIH research funding and/
 or otherwise contribute to the NIH-
 funded scientific workforce. The DPC is
 a national collaborative through which
 awardee institutions, in partnership
 with NIH, aim to enhance diversity in
 the biomedical research workforce
 through the development,
 implementation, assessment and
 dissemination of innovative and
 effective approaches to: (a) Student
 outreach, engagement, training, and
 mentoring, (b) faculty development, and
 (c) institutional research training
 infrastructure. The Coordination and
 Evaluation Center (CEC) will evaluate
 the efficacy of the training and
 mentoring approaches implemented
 across a variety of contexts and
 populations and will disseminate
 information to the broader research
 community. The planned consortium-
 wide data collection and evaluation will
 provide comprehensive information
 about the multi-dimensional factors
 (individual, institutional, and faculty/
 mentor) that influence student and
 faculty success, professional
 development, and persistence within
 biomedical research career paths across
 a variety of contexts. The planned data
 collection, and the resulting findings, is
 projected to have a sustained,
 transformative effect on biomedical
 research training and mentoring
 nationwide.

OMB approval is requested for 3
 years. There are no costs to respondents
 other than their time. The total
 estimated annualized burden hours are
 55,132.
