Emergency Import Restrictions Imposed on Archaeological and Ethnological Material From Yemen

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security; Department of the Treasury.
ACTION: Final rule.

SUMMARY: This final rule amends the U.S. Customs and Border Protection (CBP) regulations to reflect the imposition of emergency import restrictions on certain archaeological and ethnological material from the Republic of Yemen (Yemen). The Assistant Secretary for Educational and Cultural Affairs, United States Department of State, has determined that conditions warrant the imposition of emergency restrictions on categories of archaeological material and ethnological material of the Islamic cultural heritage of Yemen. This document contains the Designated List of Archaeological and Ethnological Material of Yemen that describes the types of objects or categories of archaeological and ethnological material to which the import restrictions apply. The emergency import restrictions imposed on certain archaeological and ethnological material from Yemen will be in effect for a five-year period from the date on which Yemen requested that

such restrictions be imposed, until September 11, 2024, unless renewed. These restrictions are being imposed pursuant to determinations of the United States Department of State made under the terms of the Convention on Cultural Property Implementation Act.
DATES: Effective on February 5, 2020.

SUPPLEMENTARY INFORMATION:
Background

The Convention on Cultural Property Implementation Act, Public Law 97–446, 19 U.S.C. 2601 *et seq.* (“the Cultural Property Implementation Act” or “Act”), implements the 1970 United Nations Educational, Scientific and Cultural Organization (UNESCO) Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property (823 U.N.T.S. 231 (1972)) (“the Convention”). Pursuant to the Cultural Property Implementation Act, the United States may enter into international agreements with another State Party to the Convention to impose import restrictions on eligible archaeological and ethnological material under procedures and requirements prescribed by the Act.

Under certain limited circumstances, the Cultural Property Implementation Act authorizes the imposition of import restrictions on an emergency basis (19 U.S.C. 2603). The emergency restrictions are effective for no more than five years from the date of the State Party’s request and may be extended for three years where it is determined that the emergency condition continues to apply with respect to the covered material (19 U.S.C. 2603(c)(3)). These restrictions may also be continued pursuant to an agreement concluded

within the meaning of the Act (19 U.S.C. 2603(c)(4)).

Pursuant to 19 U.S.C. 2602(a), the government of the Republic of Yemen (Yemen), a State Party to the Convention, requested on September 11, 2019, that import restrictions be imposed on certain archaeological and ethnological material, the pillage of which jeopardizes the cultural heritage of Yemen. The Cultural Property Implementation Act authorizes the President (or designee) to apply import restrictions on an emergency basis if the President determines that an emergency condition applies with respect to any archaeological or ethnological material of any requesting state (19 U.S.C. 2603).

On December 5, 2019, the Assistant Secretary for Educational and Cultural Affairs, United States Department of State, after consultation with and recommendation by the Cultural Property Advisory Committee, made the determinations necessary under the Act for the emergency imposition of import restrictions on certain archaeological material and ethnological material of the Islamic cultural heritage of Yemen. The Designated List below sets forth the categories of material to which the import restrictions apply. Thus, U.S. Customs and Border Protection (CBP) is amending § 12.104g(b) of title 19 of the Code of Federal Regulations (19 CFR 12.104g(b)) accordingly.

Importation of covered material from Yemen will be restricted for a five-year period from the date of request by Yemen, through September 11, 2024. Importation of such material from Yemen will continue to be restricted through that date unless the conditions set forth in 19 U.S.C. 2606 and 19 CFR 12.104c are met.
