DEPARTMENT OF HOMELAND SECURITY

Agency Information Collection

Activities: Generic Clearance for the Collection of Certain Information on Immigration and Foreign Travel Forms

AGENCY: Department of Homeland Security (DHS).

ACTION: 30-Day notice and request for comments; new collection, 1601-NEW.

SUMMARY: The Department of Homeland Security (DHS) invites the general public and other Federal agencies to comment upon this proposed new collection of information. In accordance with the Paperwork Reduction Act of 1995, the information collection notice is published in the **Federal Register** to obtain comments regarding proposed modifications to certain DHS immigration and foreign travel forms. This collection of information is

necessary to comply with Section 5 of the Executive Order (E.O.) 13780, “*Protecting the Nation from Foreign Terrorist Entry into the United States*” to establish screening and vetting standards and procedures to enable DHS to assess an alien’s eligibility to travel to or be admitted to the United States or to receive an immigration-related benefit from DHS. This data collection also is used to validate an applicant’s identity information and to determine whether such travel or grant of a benefit poses a law enforcement or national security risk to the United States. DHS previously published this information collection request (ICR) in the **Federal Register** on Wednesday, September 4, 2019 for a 60-day public comment period. Two (2) comments were received by DHS. The purpose of this notice is to allow additional 30-days for public comments.

DATES: Comments are encouraged and will be accepted until March 11, 2020. This process is conducted in accordance with 5 CFR 1320.10.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to OMB Desk Officer, Department of Homeland Security and sent via electronic mail to dhsdeskofficer@omb.eop.gov.

SUPPLEMENTARY INFORMATION:

Background

Executive Order (E.O.) 13780, “*Protecting the Nation from Foreign Terrorist Entry into the United States*” requires the implementation of uniform vetting standards and the proper collection of all information necessary for a rigorous evaluation of all grounds of inadmissibility or bases for the denial of immigration-related benefits. *See* 82 FR 13209 (Mar. 9, 2017). The E.O. requires the Department of Homeland Security (DHS) to collect standard data on immigration and foreign traveler forms and/or information collection systems. This data will be collected from certain populations on applications for entrance into the United States or immigration-related benefits and is necessary for identity verification, vetting and national security screening and inspection conducted by DHS.

This collection of information is necessary to comply with Section 5 of the E.O. to establish screening and vetting standards and procedures to enable DHS to assess an alien’s eligibility to travel to or be admitted to

the United States or to receive an immigration-related benefit from DHS. This data collection also is used to validate an applicant’s identity information and to determine whether such travel or grant of a benefit poses a law enforcement or national security risk to the United States.

DHS will collect biographic information on immigration and foreign traveler information collection instruments and systems. DHS will update its forms and systems to collect information from individuals who seek admissibility or other benefits when that information is not already collected.

New Information To Be Collected

U.S. Government departments and agencies involved in screening and vetting, to include DHS, identified 15 data elements that would constitute a new baseline threshold of data to be collected for identity verification and national security vetting. For DHS, these data elements will be added to certain immigration benefit request or traveler forms where the information was not already collected. The 15 core data elements are as follows:

The following six (6) data elements are biographic identifiers used to confirm both a subject’s identity as it relates to the submitted application and to DHS historic records. These biographic identifiers are also used internally by U.S. Customs and Border Protection (CBP) and U.S. Citizenship and Immigration Services (USCIS) and screening partners to confirm or disprove an association between an applicant and information of interest and the strength of that association in the context of the underlying information.

1. Name
2. Sex/Gender
3. Date of Birth
4. City/Region and Country of Birth
5. Country/Countries of Citizenship
6. Country of Residence

The following data element is a unique numeric identifier issued to a single individual that DHS uses to confirm both a person’s identity and for DHS records. It is also used internally by CBP, USCIS, and screening partners to find, confirm, or disprove an association between an applicant, the strength of that association, or to provide other information about the person that may be important in the adjudication. Applicants will be asked to provide current passport/travel/national identity document information, country of issuance; issue date and expiration date, as applicable. Other DHS forms request more information on

passports or travel documents to include expired documents and passports containing a U.S. visa. The questions related to passport information requested depend on benefit eligibility and national security needs. If additional information is needed for this data element, DHS will revise the applicable OMB approved information collection under the form's control number and not add the additional questions using this generic approval.

7. Passport/Travel Document or National ID

1. Country of issuance
2. Issue date
3. Expiration date

The following eight (8) data elements are used to provide official correspondence from CBP or USCIS to an applicant. They are also used as secondary data elements to confirm a subject's identity as it relates to the submitted application and to DHS historic records. They are also used internally by CBP, USCIS, and screening partners to confirm or disprove an association between an applicant and information of interest and the strength of that association in the context of the underlying information.

8. Telephone Number(s)
9. Email address(es)
10. U.S. Address: Residence or Destination city
11. U.S. Address: Residence or Destination state
12. Foreign Address city
13. Foreign Address state
14. U.S. Point of Contact Name, if applicant is located outside of the United States
15. U.S. Point of Contact Telephone Number, if applicant is located outside of the United States

Programs Affected, OMB Control Numbers and Legal Authorities for the Collections

DHS plans to collect the data elements for three programs/forms administered by U.S. Customs and Border Protection (CBP). The three CBP programs/forms, and the applicable statutory and regulatory authorities to collect the additional information are as follows:
