## DEPARTMENT OF ENERGY

### Proposed Agency Information Collection

**AGENCY:** Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy.

**ACTION:** Notice and request for comments.

**SUMMARY:** The Department of Energy (DOE) invites public comment on a proposed collection of information that DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995. Comments are invited on whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

**DATES:** Comments regarding this proposed information collection must be received on or before April 10, 2020. If you anticipate difficulty in submitting comments within that period, contact the person listed in **ADDRESSES** as soon as possible.

**ADDRESSES:** Written comments may be sent to [STEM\\_Data\\_Collection@ee.doe.gov](mailto:STEM_Data_Collection@ee.doe.gov).

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument and instructions should be

directed to Emily Stanton at (202) 287–5641.

**SUPPLEMENTARY INFORMATION:** This information collection request contains: (1) *OMB No.:* “New”; (2) *Information Collection Request Title:* STEM Data Collection (SDC); (3) *Type of Request:* New; (4) *Purpose:* This new module will be installed on existing platforms—the Funding Opportunity Exchange platform (Exchange) and *NEUP.gov*. These systems allow principal investigators and other external users to submit applications for competitive Funding Opportunity Announcements (FOAs) for research projects in the fields of science, technology, engineering and math (STEM). Exchange is used by the following DOE program offices: The Office of Energy Efficiency and Renewable Energy (EERE) and the Advanced Research Projects Agency-Energy (ARPA-E); *NEUP.gov* is used by the Office of Nuclear Energy (NE). NE may also use manual data collections on other selected FOAs. All competitive FOAs get announced to the *Grants.gov* website, the U.S. Government’s single access point for most financial assistance programs offered by DOE. Under the proposed information collection request, an interface will be implemented in these systems to allow external users to voluntarily provide a minimal amount of demographic information to comply with a recommendation from the Government Accountability Office (GAO) report “WOMEN IN STEM RESEARCH; Better Data and Information Sharing Could Improve Oversight of Federal Grant-making and Title IX Compliance” (GAO–16–14, December 2015). In this report, GAO made the recommendation that DOE collect additional demographic data to ensure that it is in compliance with Title IX. The information collected will be used for this purpose; (5) *Annual Estimated Number of Respondents:* According to the most recent data available, in fiscal year 2015, EERE reviewed a total of 5,168 new funding actions or applications (898 lab funding actions; 4,270 financial assistance concept papers or applications); ARPA-E reviewed a total of 3,435 new funding actions or applications (51 lab funding actions; 3834 financial assistance concept papers or applications); and NE reviewed a total of 438 new funding actions or applications (266 lab funding actions; 172 financial assistance concept papers or applications). While many applications are submitted by existing users, assuming one submitter per application, the maximum number of unique new users expected per year is

9,041 (5,168 + 3,435 + 438); (6) *Annual Estimated Number of Total Responses*: 9,041 (maximum of one response expected per user); (7) *Annual Estimated Number of Burden Hours*: It is estimated that it will take no more than 10 minutes (0.167 hours) per new user to register on the Exchange or NEUP.gov systems and fill out the requested demographic data. The total estimated annual number of burden hours is 1,513 hours (9,041 users \* 0.167 hours); (8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: \$100,000 for changes to systems and approximately \$10,000 per year thereafter for maintenance, reporting and record-keeping.

**Statutory Authority:** Section 641 of the Department of Energy Organization Act, codified at 42 U.S.C. 7251.

Signed in Washington, DC on January 8, 2020.

[EPA-R10-OAR-2019-0702; FRL-10004-50-Region 10]

### Completeness Determination; AK: Fairbanks North Star Borough 2006 24-Hour Fine Particulate Matter Serious Attainment Plan

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces that the Environmental Protection Agency (EPA) has made a determination that the State of Alaska has made a complete Serious Area State Implementation Plan (SIP) submission for the Fairbanks North Star Borough 2006 24-hour fine particulate matter nonattainment area.

**ADDRESSES:** The EPA has established a docket for this notice under Docket ID No. EPA-R10-OAR-2019-0702. All documents in the docket are listed and publicly available at <https://www.regulations.gov>. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket

materials are available electronically at <https://www.regulations.gov>.

**FOR FURTHER INFORMATION CONTACT:** Matthew Jentgen at (206) 553-0340, or [jentgen.matthew@epa.gov](mailto:jentgen.matthew@epa.gov).

**SUPPLEMENTARY INFORMATION:** On December 13, 2019, EPA received the State of Alaska State Implementation Plan to meet the serious area nonattainment plan requirements for purposes of the 2006 24-hour PM<sub>2.5</sub> NAAQS in the Fairbanks North Star Borough nonattainment area ("Fairbanks Serious Area Plan"). The EPA has determined that the submittal of the Fairbanks Serious Area Plan is administratively and technically complete. The EPA made this finding in accordance with section 110(k)(1)(B) and part D of Title I of the Clean Air Act (CAA). The Fairbanks Serious Area Plan submission and a detailed account of Alaska's SIP submission compared to the completeness criteria in 40 CFR part 51, appendix V, is included in the docket.

A completeness determination indicates that the SIP submission meets the minimum criteria that a plan must satisfy for the EPA to review the submittal to determine whether the SIP submission meets the applicable substantive requirements of the CAA and implementing regulations for the type of SIP submission at issue. A completeness determination does not constitute a finding on the merits of the SIP submission or whether it meets the relevant criteria for SIP approval. Consequently, this completeness determination does not constitute final agency action and is not reviewable pursuant to Section 307 of the CAA, 42 U.S.C. 7607, nor section 702 of the Administrative Procedure Act, 5 U.S.C. 702. The EPA's subsequent rulemaking action or actions on this complete SIP submission will be final agency action, capable of judicial review at the appropriate time.
