SUPPLEMENTARY INFORMATION:

I. Background

A. Section 889(a)(1)(B)

DoD is hosting a public meeting to facilitate the Department's planning for the pending implementation of section 889(a)(1)(B) of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2019 (Pub. L. 115-232). The Department is focused on achieving an efficient implementation of the prohibition in section 889(a)(1)(B). To achieve this goal, DoD is seeking the views of DoD industry partners and associations regarding how industry will implement this prohibition, including what, if any, impacts there will be to DoD business.

Section 889(a)(1)(B) prohibits Executive agencies, including DoD, from entering into a contract (or extending or renewing a contract) with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Covered telecommunications equipment means any of the following:

- Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).
- For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).
- Telecommunications or video surveillance services provided by such entities or using such equipment.
- Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation,

reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of the People's Republic of China.

On July 19, 2019, DoD, the General Services Administration, and the National Space and Aeronautics Administration hosted a public meeting to obtain views of experts and interested parties regarding implementation in the Federal Acquisition Regulation (FAR) of section 889 of the NDAA for FY 2019, with specific focus on the implementation of paragraph (a)(1)(B). Unlike the July public meeting, the intent of this public meeting is to facilitate DoD's implementation by focusing on DoD industry partner plans for implementation. DoD is seeking information on the following:

- What key barriers do you see to industry implementation of this prohibition, and how might they be overcome?
- How long will it take companies to cease use of covered equipment or services?
- What impact will implementation of this requirement have on your supply chains and your ability to contract with DoD?
- What distinct impacts will implementation of this requirement have on small business?

B. Section 889(a)(1)(A)

This public meeting is not related to the implementation of the prohibition in section 889(a)(1)(A) of the NDAA for FY 2019. Section 889(a)(1)(A) prohibits executive agencies, including DoD, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

DoD participated with the FAR Council in implementing in the FAR the prohibition in section 889(a)(1)(A) via the interim rule published in the **Federal Register** at 84 FR 40216 on August 13, 2019 (reference FAR Case 2018-017).

DoD issued DoD procedures for implementing the FAR rule that implemented section 889(a)(1)(A) (see <https://www.acq.osd.mil/dpap/policy/policyvault/USA001866-19-DPC.pdf>).

The FAR Council published a second interim rule in the **Federal Register** at 84 FR 68314 on December 13, 2019 (reference FAR Case 2018-017), to alleviate some of the reporting burden associated with the first interim rule.
