#### SUPPLEMENTARY INFORMATION:

##### Abstract

On October 24, 2019, the Department published a notice in the **Federal Register** to announce that it was seeking OMB approval of the DS-5540, Public Charge Questionnaire, and invited public comment for a 60-day period. The 60-day comment period ended on December 23, 2019, and the Department received 92 comments. Approval of this form will permit the Department to implement the Department's interim final rule on public charge published on October 11, 2019.

The Department of Homeland Security has announced that it will begin implementation of its final rule on the public charge ground of inadmissibility on February 24, 2020, in all states other than Illinois. The Department now intends to seek emergency processing of the DS-5540 pursuant to 5 CFR 1320.13, because there is insufficient time to complete the ongoing process for OMB form approval under 5 CFR 1320.10 prior to February 24, 2020. The Department seeks to align the Department's standards with those of the Department of Homeland Security, to avoid situations where a consular officer will evaluate an alien's circumstances and conclude that the alien is not likely at any time to become a public charge, only for the Department of Homeland Security to evaluate the same alien when he seeks admission to the United States on the visa issued by the Department of State and find the alien inadmissible on public charge grounds under the same facts.

## DEPARTMENT OF STATE

[Public Notice: 11031]

### Call for Expert Reviewers To Submit Comments on the Intergovernmental Panel on Climate Change (IPCC) Working Group I Contribution to the Sixth Assessment Report

The Department of State, in cooperation with the United States

Global Change Research Program (USGCRP), requests expert review of the second-order draft of the IPCC Working Group I (WGI) contribution to the Sixth Assessment Report cycle (AR6), including the first draft of the Summary for Policymakers (SPM).

The United Nations Environment Programme (UNEP) and the World Meteorological Organization (WMO) established the IPCC in 1988. As reflected in its governing documents, the role of the IPCC is to assess on a comprehensive, objective, open, and transparent basis the scientific, technical, and socio-economic information relevant to understanding the scientific basis of risk of human-induced climate change, its potential impacts, and options for adaptation and mitigation. IPCC reports should be neutral with respect to policy, although they may need to deal objectively with scientific, technical, and socio-economic factors relevant to the application of particular policies. The principles and procedures for the IPCC and its preparation of reports can be found at: <https://www.ipcc.ch/site/assets/uploads/2018/09/ipcc-principles.pdf> and <https://www.ipcc.ch/site/assets/uploads/2018/09/ipcc-principles-appendix-a-final.pdf>. In accordance with these procedures, IPCC documents undergo peer review by experts and governments. The purpose of these reviews is to ensure the reports present a comprehensive, objective, and balanced view of the subject matter they cover.

As part of the U.S. government review—starting March 2, 2020—experts wishing to contribute to the U.S. government review are encouraged to register via the USGCRP Review and Comment System (<https://review.globalchange.gov/>). Instructions and the second-order draft will be available for download via the system. In accordance with IPCC policy, drafts of the report are provided for review purposes only and are not to be cited or distributed. All technical comments received that are relevant to the text under review will be forwarded to the IPCC authors for their consideration. To be considered for inclusion in the U.S. government submission, comments must be received by April 2, 2020.

Experts may choose to provide comments directly through the IPCC's expert review process, which occurs in parallel with the U.S. government review: <https://apps.ipcc.ch/comments/ar6wg1/sod/>. To avoid duplication, experts are requested to submit comments via either the USGCRP or IPCC review websites, not both.

This notice will be published in the **Federal Register**.

*Acting Director, Office of Global Change, Department of State.*
